Subject: Correction: Erdman Office - Landmark Nomination

Please note correction of our neighborhood association's name. Our apologies.

As residents of the [Indian Hills](#) neighborhood and members of the [Spring Harbor](#) neighborhood association, we urge to reject the proposal seeking landmark status for the Erdman office and shop building on University Ave.

Development of this area is extremely important, and the proposed UW Health project (like similar projects that were proposed in the past) move the neighborhood and the community in the right direction----FORWARD. Re-development of this location (with its currently abandoned, unsightly buildings) has been delayed for too long.

Please reject Ms. Kinast's request so this project can proceed. Thank you for your time and consideration.

Sincerely,

Chad Weick
Greg Chesmore
