Subject: Comment in support of W. Main St. bicycle contraflow lane

To the Board of Public Works:

I understand the planned bicycle contraflow for 100 w. main st is under consideration. I wanted to speak up in favor of the contraflow lane. The contraflow lane will greatly improve and encourage safe road sharing among all modes of transportation. The contraflow lane should provide greater exposure for business as additional safe bike and car traffic is experienced with the improvements to transportation on the street. There are other successful examples including those on the 100 block of East Mifflin and I see no reason why west main can't experience similar or greater success.

Sincerely,

Jamie S. Patrick
