The City of Madison is proposing the installation of underground private utility lines and services for the 500 block of N. Frances St. You are being sent this letter to notify you of a public hearing before the Board of Public Works regarding the project, at the above referenced date, time & location. City Engineering will make a short presentation at the meeting, followed by the public hearing. The project will involve direct costs to owners of properties that are serviced by the overhead utilities.

Undergrounding of Utilities

Section 19.16 of the City of Madison General Ordinance authorizes the City to establish an underground utility district and order the undergrounding of utility lines and services.

Every property owner in the Underground Utility District must modify their property's electrical services to accept underground service within twenty-four (24) months of the establishment of the District, unless the property owner is granted a modification deadline by the City Engineer in accordance with Madison General Ordinance subsection 19.16(6)(d).

The City will reimburse an eligible property owner for fifty percent (50%) of all costs incurred by the property owner to modify the entrance facilities or internal wiring of the building to comply with the requirements, up to \$1027.00.
