Subject: RE: FW: New State Street Taxicab Stands

Mary,

With only 3 parking spaces on our street and being open until 7:00 pm we will miss the parking. Business is hard enough as it is.

Why can't the taxi stand be on Johnson Street where there is more parking?

Please pass this request on to the mayor, the city engineer and any other city official who could help.

Thanks,

John Hutchinson

Subject: Taxi stands

Dear Committee members,

As I write this e-mail, cars are being given \$20.00 tickets outside of my store at 307 W. Johnson St. for parking in the new Taxi Stand that have assigned to the loading zone after 6pm. They are likely people that have come downtown for the Concerts on the Square. This will make a very sour ending note to their time tonight. I have not, as of yet, seen a single taxi use the space outside my store before 9pm. Having these spaces, and others, declared taxi stands at 6pm has taken away many parking spaces that customers of downtown shops use at night and given them over to a use that is not needed or used before 10pm.

I hope you will consider making the cab stands start later, and save these spaces for downtown customers.

Sandi Torkildson
