Subject: Pacific Cycle Sanitary Service

Tim,

I wanted to let you know that City has a 25' wide sanitary sewer easement immediately south of the condos on the Whitcomb Village Property. We have a lot of flexibility because of this. The existing lateral for Pacific Cycle connects to the manhole immediately west of their existing building so they will need to connect into the relocated sanitary sewer (see attached). Sewer should not be a reason to delay the project. Please call with any questions – 261-9250.

-Mark

According to our field crews, there is a live lateral for 4902 Hammersley directly connected to City manhole SAS 3564-004.
