Mr. Clark,

I received your November 19, 2013 letter requesting that Metro Transit reconsider its organizational policy banning weapons of all kinds on buses. As you know, Metro Transit's policy was in place long before Governor Walker signed the 2011 Act 35 into law. Nevertheless, at that time Metro reconsidered its policy in light of the new law and determined it was not preempted as alleged in your letter. Nothing has happened since that time to change our opinion. In fact, as you are probably aware, this analysis is consistent with guidance received from the Wisconsin Department of Justice after the new law went into effect.

If you have any questions, please give me a call at (608) 266-4904.

Sincerely,

Chuck Kamp  
Transit General Manager
