2. Denote the type and material found at the location of the Section corners shown on the Certified Survey Map.
3. The County Treasurer's Certificate is not necessary for a Certified Survey Map in the City of Madison.
4. The first paragraph of the Surveyor's Certificate is referencing the incorrect Section, Town and Range of the site and shall be revised to reflect the correct information. The second paragraph shall refer to the two quarter-quarters in which the description lies. (NW $\frac{1}{4}$ and NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 26...).
5. Provide the City of Madison coordinates of record at the NW Corner of Section 26, T7N, R8E.
6. The Title Report and Certified Survey Map shall be updated to include, show and dimension an easement to the City of Madison for water main and associated appurtenances as per Document No. 1370667. This easement is not currently referenced within the Title Report or shown on the CSM.

7. The Certified Survey Map shall include the location and dimension of the easement to Wisconsin Power & Light per Document No. 3614941.
8. The easements and details per Document No. 1303874 regarding encroachment easements along the south line of the Certified Survey Map shall be provided on the CSM.
9. If the lots within this Certified Survey Map are inter-dependent upon one another for stormwater runoff conveyance, and/or a private drainage system exists for the entire site an agreement shall be provided for the rights and responsibilities of all lot owners. Said agreement shall be reviewed and placed on file by the City Engineer, referenced on the CSM and recorded at the Dane County Register of Deeds
10. A minimum of 2 working days prior to requesting City Engineering Division signoff on the CSM, the applicant shall contact Janet Dailey (261-9688) to obtain the final stormwater utility charges that are due and payable prior to sub-division of the properties. The stormwater utility charges (as all utility charges) are due for the previous months of service. All charges shall be cleared prior to the land division (and subsequent obsolesces of the existing parcel).
11. All outstanding Madison Metropolitan Sewerage District (MMSD) charges are due and payable prior to City Engineering Division sign-off, unless otherwise collected with a Developer's / Subdivision Contract. 12. Wisconsin Administrative Code A-E 7.08 identifies when Public Land System (PLS) tie sheets must be filed with the Dane County Surveyor's office. The developer's surveyor and/or applicant must submit copies of required tie sheets or condition reports for all monuments, including center of sections of record, used in this survey, to Eric Pederson, City Engineering Division. If a new tie sheet is not required under A-E 7.08, Engineering requests a copy of the latest tie sheet on record with Dane County Surveyor's office. The applicant shall identify monument types on all PLS corners included on the plat or CSM. Note: Land tie to two PLS corners required.
13. In accordance with Section s. 236.18(8), Wisconsin Statutes, the applicant shall reference City of Madison WCCS Dane Zone, 1997 Coordinates on all PLS corners on the Plat or Certified Survey Map in areas where this control exists. The surveyor shall identify any deviation from City Master Control with recorded and measured designations. The City has established WCCS, Dane Zone Coordinates on all PLS corners within its corporate boundary. Visit the City of Madison Engineering Division web address http://gis.ci.madison.wi.us/Madison_PLSS/PLSS_TieSheets.html for current tie sheets and control data. If a surveyor encounters an area without a published WCCS Dane Zone 1997 value, contact the City Engineering Division for this information
14. In accordance with Section s.236.34(1)(c), which says a CSM shall be prepared in accordance with s.236.20(2)(c)&(f), Wisconsin Statutes, the applicant must show type, location and width of any and all easements. Clearly identify the difference between existing easements (cite Register of Deeds recording data) and easements that are being conveyed by the CSM.
