Hi Stu -

I wouldn't have noticed if you hadn't pointed it out but thanks for the correction.

In response to your question, according to the City Assessor records, 1 Langdon (1929), 416 N. Carroll (1914), and 114 W. Gilman (1880) were all built within the date range you provided. 2 W. Gorham (1946) and 116 E. Gilman (1961) were built after that period but prior to the establishment of the MHHD (1976). We think the volumes of these buildings provide support for the visual compatibility of our proposal.

This project is going to be great for the District and for the City and we're looking forward to continuing the conversation tomorrow night.

Thank you -
