

Get Involved In

MADISON'S TRANSPORTATION FUTURE!

Madison in Motion: the Sustainable Madison Transportation Master Plan

Thurs. April 24, 2014 / 5:30 - 8:00 pm Presentation starts at 6:00 pm

Madison Senior Center
Lower Level Dining Room/Lounge
330 West Mifflin Street, Madison

You are invited to attend a workshop to share your insights into how Madison should look and feel in the future. We will discuss how land use and development will shape Madison's transportation choices in the coming years. Your comments and ideas will help the City create well-informed Transportation Alternatives later in the planning process.

The public workshop will provide a chance for you to:

- Map and describe your ideas about where the next 100,000 residents of Madison should live so that planners can test future transportation options
- Comment on two future development scenarios and discuss how they relate to transportation options and your vision for Madison in 2050
- Identify places where there could be redevelopment or infill development to help inform future transportation needs
- Discuss the important forces, changes, trends, assumptions, and big opportunities that should be considered when planning for our transportation future

The evening's schedule:

- 6:00 p.m. – Presentation
- 6:30 p.m. – Interactive mapping activity and group discussion
- 8:00 p.m. – Workshop concludes

Please contact David Trowbridge, City of Madison Planning Division, with questions: (608) 267-1148.
