Project Strengths:

- 70% FxRL @ R.R.
- other pops, resident, N. Ctr.
- prints need to maintain student performance
- want to provide free WiFi to improve for greater access part of it
- ⊕ are connected to MDEFN
- ⊕ collab w/ MMSD for parental & neighborhood outreach
- want to help w/ training for families
- ⊕ area is especially ethnically diverse

Ways Project Could be Stronger:

Questions:

- help to measure success

- # of connections ↓ or out of use would be great ... but other ways to demonstrate academic improvement or joblessness rates change

Mark Clear

Presenter/Organization Name:

Center Resident Cities

Project Strengths:

Location

Inexpensive (?)

Ways Project Could be Stronger:

Spelling / grammar

Not clear how funds will be spent

No specific ask - just refers to "programs" & "infrastructure"

Very limited outcome - Infinite campus access & job applications

Questions:

Encourage/Discourage?

Could be strong if rewritten and enhanced

Committee Member: Benson

Presenter/Organization Name: Center for  
Resilient Cities  
Peng He

Project Strengths:

connected to MUFN

well integrated with several organizations (Neighborhood Center, Badger  
Rock)

diverse population, one of the lowest median income levels  
demonstrated need in the community (lines @ goodman library)

Ways Project Could be Stronger:

Better defined groups supporting the proposal

realistic scope of services to provide - either geographic area  
or population

Questions:

Estimate of size of population that would benefit / Physical  
area covered? A: dependent on funding

Currently have hardware for cyber cafe?

Committee Member: JS Reich Bani Presenter/Organization Name: Resilient City

Project Strengths: Existing MUFN link

Aligned / Link to MMSD

I like the simple idea of measuring growth in use of infinite campuses.

Ways Project Could be Stronger:

I applaud the work, but more details are needed.

What are the desired outcomes?  
How are they measured?

Questions:

See above

Do you have experience building the social support infrastructure.

Committee Member: Scott

Presenter/Organization Name: Resilient Cities

Project Strengths: I love the concept of nodes of wifi. I can envision a series of tech centers.

I think your proposal could do a lot in home.

I like the concept!

Ways Project Could be Stronger:

It would be good to partner w/ other groups that can work on technology elements of your plan.  
It would be good to know more of the costs.

Committee Member:

Teresa Holmes

Presenter/Organization Name:

Center for Resident Cities  
Peng He

Project Strengths:

+ connected to MUFN  
+ interested in working with existing businesses or organizations already interested

Ways Project Could be Stronger:

- develop more concrete ways / ideas to support those who would be using the WiFi services in their service circle
- more supportive data / data to support program's needs that could help produce measurable results in geographic area
- I like the idea to "do it differently" but a more concrete plan to service neighborhoods + those who live there could help

Questions:

Are you / Is this program able to support the needs which will come about as a result of the pilot?  
How is this organization's selection (if so) going to

Encourage/Discourage?

It was not as easy to understand how the program's desire to ~~participate~~ participate would change outcome or produce the desired success. Revising or ~~developing~~ enhancing the plan to reflect that would be good.
