

Central District:

#8 Mobil Mart -

Central District does not support the change in license conditions. The history behind the conditions for this location due with the availability of cheap alcohol which created a situation where homeless/transient persons would regularly frequent the establishment and then hang out in adjacent properties drinking. Since the conditions have been in place, these issues have not repeated. Additionally, the neighborhood has changed substantially with the addition of more high rise housing. In conversing with Alder Verveer from this district, he also is reluctant to change conditions and has had conversations with neighborhood residents who feel the same.
