April 24, 2015

Dear Resident / Business Owner / Owner,

The City of Madison Board of Public Works will hold a public hearing on the issue of allowing construction activities, with associated noise impacts, outside the period of 7:00 AM to 7:00 PM for work on N. Charter Street (at University Avenue). The Public Hearing will be on Wednesday, May 6 at 5:00 PM at the City County Building, 210 Martin Luther King Jr. Blvd, Room 108.

Madison General Ordinance Section 24.08(3) provides the Common Council the ability to allow construction activities outside of the hours of 7:00 AM to 7:00 PM. with the passage of a resolution and a hearing before the Board of Public Works.

The City of Madison plans to repair the concrete pavement through the crosswalk on Charter Street, north of University Avenue. Due to the impact on traffic of the intersection closure during the week, City Engineering proposes to allow the Contractor to work between the hours of 7:00 PM to 12:00 AM on either Friday, May 22, 2015 **OR** Friday, May 29, 2015. The work taking place on this project cannot be constructed between the hours of 7:00 AM and 7:00 PM because:

- The weekend in which the construction will take place, N. Charter Street will be closed to thru traffic from University Avenue to Linden Drive. The intersection closure will only be allowed during one weekend allowing for a small construction timeframe.

The proposed activities beyond the hours of 7:00 AM to 7:00 PM are as follows:

1. Sawcutting and removal of concrete pavement and curb.
2. Preparing subgrade for the concrete pour.

The estimated dates are as follows:

1. If work is completed the weekend of Friday, May 22, 2015, Charter Street will close on Friday at 7:00 PM and reopen no later than Tuesday, May 26, 2015 at 6:00 AM.
2. If work is completed the weekend of Friday, May 29, 2015, Charter Street will close on Friday at 7:00 PM and reopen no later than Monday, June 1, 2015 at 6:00 AM.

The date of the closure will be determined by the contractor's schedule and weather.

If you have any questions in regards to the construction activities, please call Brenda Stanley, of City Engineering, at 266-4537.

Sincerely,

Robert F. Phillips, P.E., City Engineer
