Total	485,258	\$6,178,080		\$6,000,000

<sup>1</sup> For all Phases except Phase 5, Value is calculated based on the square footage of land in each respective Phase. The Value for Phase 5 is calculated based on \$10,000 per dwelling unit multiplied by 76 dwelling units per the approved GDP.

<sup>2</sup> This factor was used to convert the Value column to the total Guarantee Amount of \$6,000,000.

<sup>3</sup> The Guarantee Amount for each Phase will change only to reflect material changes in the land in a given phase upon the recording of the Certified Survey Map described in Section 16.
