

Local Food Committee October Report

The Local Food Committee met last Thursday, October 1. Michael Gay, MADREP, gave a presentation on funding opportunities. We discussed the upcoming (October 6) Council action on a resolution to accept the Public Market District business plan. The Committee formed two subcommittees to assist with future decision-making: 1) Public Market Organizational Structure and 2) Market District Planning. These subcommittees will gather information from stakeholders and make recommendations to the full committee by the end of the year.
