

Advancing School-Based Mental Health in Dane County

Coordinator

Sustain and scale

- Target systems change (financing, care coordination, payer commitment)
- Communicate value & results
- Build community ownership, capacity to scale

& CMHC

Tier 1: Shape school culture and practice

- Train staff to teach social and emotional skills
- Implement universal positive behavioral supports and mental health screeners
- Share data with school staff

Student Services Teams

Tier 2: Build prevention capacity within schools

- Model restorative practices
- Demonstrate small group and brief interventions

Tier 3: Treat acute needs

- Provide specialized services
- Coordinate case management and referral
- Lead crisis response
