Subject: 2230 West Broadway

Mr. Parks:

If the West Broadway veteran's housing is implemented, please make sure there's funding to expand the #12 bus to all-day service! Many of us in the Bridge/Lake Point/Waunona area would be thrilled to have full service to the areas where Madison focuses most of its new employers.

Please require sheltered bike racks and lockers be available at the neighborhood center. I am disappointed that this is all the neighborhood center we get, but I'm not surprised. Will it at least be an energy-efficient facility? It would be great if it had a grey-water system. Up-front investments that result in reduced operational (water/energy) costs would pay off quickly and free up neighborhood money for things like programming.

Sincerely,

Alison Mynsberge
