

Dear City of Madison,

In regard to the separation of the liquor licence of That BBQ Joint located on the 900 block of Williamson Street:

I write as a resident in the neighborhood near this establishment to state that the odor from That BBQ Joint is having a negative impact on the neighborhood residents. I hope that the ALRC will place a condition of the licence of TBBQJ to require that they take steps to mitigate the odor impact their smoking process is having on residents.

Thank you,

Hannah Spaul.
