Solar

- Original Plan
- Proposed Plan

Engineering would pay for PV panels, installed with City's Green Power Program over 3 years
 Funds from Sustainability fund

Install entire system in 2018 Engineering and Library each pay half (Library need to use \sim \$125,000 from remaining project funds)

Advantages

- Start saving on operating costs now
 Take advantage of lower MGE rate structure
 Can utilize bulk purchasing

- Easier to apply for grants and FOE incentives Approximately \$60,000 in avoided costs
