

MMSD CLIMATE SURVEY SCORECARD 2015-16: District Students

This report shows results from the Climate Survey in MMSD. Questions are organized into dimensions. The Percent Positive by Dimension results below represent the percent of responses that were positive or very positive across all questions in a dimension. The Responses by Question section shows the distribution of responses (from very negative to very positive) for each question asked. If you are viewing this online, use the dropdowns at bottom left to select a school or demographic group. Data will disappear if you select a group containing fewer than seven individuals. Click the "Download" button at bottom right to download a printable .pdf.
