RE: Legistar #46628 -- Approval of a conditional use request to allow limited production and processing in a multi-tenant commercial building in CC (Commercial Center) District zoning at **5225 High Crossing Boulevard**.

Dear Mr. Groenier:

At its May 8, 2017 meeting, the Plan Commission, meeting in regular session, found the standards met and approved your client's conditional use request to allow limited production and processing in a multi-tenant commercial building in CC (Commercial Center) District zoning at **5225 High Crossing Boulevard**, subject to the conditions below. In order to receive final approval of the conditional use, and for any permits to be issued for your project, the following conditions shall be met:

Please contact Brenda Stanley of the City Engineering Division at 261-9127 if you have any questions regarding the following item:

1. It is recommended that the proposed bakery has a separate water meter dedicated to the business because of the forthcoming restaurant class billing.

Please contact Jeff Quamme of the City Engineering Division—Mapping Section at 266-4097 if you have any questions regarding the following two (2) items:

2. Better highlight the location of the build out on the site plan. Also provide an accurate north arrow on the floor plans for proper orientation.
3. The site plan shall be updated to represent the completed site conditions and Certified Survey Map No. 14133. (currently shown as proposed conditions)

Please contact Eric Halvorson of the Traffic Engineering Division at 266-6527 if you have any questions regarding the following four (4) items:

4. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including two (2) feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.
5. The Developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the Developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
6. The City Traffic Engineer may require public signing and marking related to the development; the Developer shall be financially responsible for such signing and marking.
7. All parking facility design shall conform to MGO standards, as set in section 10.08(6).

Please contact Jenny Kirchgatter of the Zoning Division at 266-4429 if you have any questions regarding the following five (5) items:

8. Bicycle parking shall comply with the requirements of Sections 28.141(4)(g) and 28.141(11). Provide a minimum of two (2) short-term bicycle parking stalls located in a convenient and visible area on a paved or impervious surface. Bicycle parking shall be located at least as close as the closest non-accessible automobile parking and within one hundred (100) feet of a principal entrance. Note: A bicycle stall is a minimum of two (2) feet by six (6) feet with a five (5) foot wide access area. Provide a detail of the proposed bike rack.
9. Show the trash enclosure area on the site plan. All developments, except single family and two family developments, shall provide a refuse disposal area. Such area shall be screened on four (4) sides (including a gate for access) by a solid, commercial-grade wood fence, wall, or equivalent material with a minimum height of six (6) feet and not greater than eight (8) feet. Submit a detail of the trash enclosure.
10. Verify whether new or replacement rooftop mechanical equipment is proposed. If rooftop mechanical equipment is proposed, submit details showing the location of the equipment and screening. All rooftop equipment shall be screened from view from adjacent streets and public rights-of-way per Sections 28.060(2)(f) and 28.142(9)(d). Screens shall be of durable, permanent materials that are compatible with the primary building materials.

11. Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval. Work with Zoning staff to establish a final site compliance date.
12. Signage approvals are not granted by the Plan Commission. Signage must be reviewed for compliance with Chapter 31 Sign Codes of the Madison General Ordinances and Chapter 33 Urban Design District ordinances. Signage permits are issued by the Zoning Section of the Department of Planning and Community and Economic Development.

Please contact Janet Schmidt of the Parks Department at 261-9688 if you have any questions regarding the following item:

13. Existing street trees shall be protected. Please include the following note on the site plan:
Contractor shall install tree protection fencing in the area between the curb and sidewalk and extend it at least 5 feet from both sides of the tree along the length of the terrace. No excavation is permitted within 5 feet of the outside edge of a tree trunk. If excavation within 5 feet of any tree is necessary, contractor shall contact City Forestry (266-4816) prior to excavation to assess the impact to the tree and root system. Tree pruning shall be coordinated with City Forestry. Tree protection specifications can be found in section 107.13 of City of Madison Standard Specifications for Public Works Construction - <http://www.cityofmadison.com/business/pw/documents/StdSpecs/2013/Part1.pdf>. Any tree removals that are required for construction after the development plan is approved will require at least a 72 hour wait period before a tree removal permit can be issued by Forestry, to notify the Alder of the change in the tree plan.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining your conditional use:

1. Please revise your plans per the above conditions and submit **six (6) copies** of a complete, fully dimensioned and scaled plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off. The final site plan shall be accompanied by the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, 126 S. Hamilton Street. This submittal shall all also include one complete digital plan set in PDF format. The sets of final revised plans or documents will be circulated by the Zoning staff to the City department staff listed above for their final approval.
2. This property is not in a wellhead protection district. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility.
3. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.

4. The approval is valid for one (1) year from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted.
5. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.
6. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if I may be of any further assistance, please do not hesitate to contact my office at 261-9135.

Sincerely,

Chris Wells
Planner

I hereby acknowledge that I understand and will comply with the above conditions of approval for the conditional use permit.	

<i>Signature of Applicant</i>	

<i>Signature of Property Owner (if not the applicant)</i>
