Action Text: 42344 – Reistad projected the evaluation matrix currently being utilized to implement Resolution 42079 – exploring additional garden space in the Hill Farms area. Suggestions from Sheboygan Garden representatives had not been incorporated because of a glitch in timing, but can be added to the analysis. Should add the “triangle” area of Rennebohm Park (at the corner of Eau Claire and Regent) since it’s recently been cleared of ash trees, and provide separate analyses of four other areas including the Backstop Area, the Southeast Corner, the East Side, and the Drainage Area. The recently-adopted Hill Farms Neighborhood Plan should also be considered, since some of its recommendations would have (mostly negative) implications for some gardening sites, e.g. high rise buildings blocking sunlight.

Next steps will be managed by staff and the Food Policy Council. When the matrix has been completed, a meeting should be convened with staff and stakeholders to review the findings and recommend sites to be further analyzed through the City’s “equity tool” with a goal of identifying location(s) suitable for planting in the spring of 2017. The Food Policy Council will also take responsibility for considering the larger issue of how to serve a growing community as development pressures increase on existing open space.

Text of Legislative File 42334

Fiscal Note

No appropriation required.

Title

BY TITLE ONLY: Accepting the staff report and its recommendations on University Hill Farms Gardening Space for Sheboygan Community Gardens.

Body

Resolution to accept the report and its recommendations was introduced by title only at the 11/22/16 Common Council meeting.
