## Land Use and Transportation Example Actions

**Goal:** Madison will be comprised of compact, interconnected neighborhoods anchored by a network of mixed-use activity centers.

**Goal:** Madison will have a safe, efficient, and affordable regional transportation system that offers a variety of choices among transportation modes.

Strategy Example Action 1 Example Action 2

## Neighborhoods and Housing Example Actions

**Goal:** Madison will be a safe and welcoming city of strong and complete neighborhoods that meet the needs of all resident. **Goal:** Madison will have a full range of quality and affordable housing opportunities throughout the City.

Strategy	Example Action 1	<b>Example Action 2</b>
1. Help reduce housing costs and meet the needs of all economic and demographic groups by increasing Madison's housing supply.	Seek opportunities to relax development standards.	Plan for the transition of underused properties into residential and mixeduse areas.
2. Support development of a wider mix of housing sizes, costs, and types (such as townhomes, cooperative housing, accessory dwelling units, and duplexes) throughout the city.	Recruit and incentivize developers with experience constructing different forms of housing.	Ensure that the Zoning Code broadly supports attached townhomes, smaller homes, small multi-family buildings, and a variety of ownership models in both newly developing and redeveloping parts of the city.
3. Integrate lower priced housing (including subsidized housing) into neighborhoods with access to transportation options and resources needed for daily living.	Continue direct financial support for affordable housing development with long term income limitations through the Affordable Housing Fund and Tax Increment Financing, when possible.	Waive or reduce City fees on affordable units.
4. Allow older adults to age in place by providing lower priced or lower maintenance housing options that are integrated into the community with convenient transportation options.	Support programs matching youth with older adults in need of assistance with household tasks (yard work, snow removal, etc.).	
5. Provide affordable housing options with health and social services for residents who need it most.	Partner with Health Maintenance Organizations (HMOs) to provide on-site services at public housing sites.	Continue to require recipients of support from the Affordable Housing Fund, who develop housing tailored for households making 30% of the area median income, to partner with experienced social service providers who can provide onsite supportive services.
6. Create complete neighborhoods across the city where residents have access to transportation options and resources needed for daily living.	underutilized properties along transit	
7. Plan for neighborhood-scaled schools that provide amenities and services to the community, including students, families, and other residents.	Sponsor school gardens and other outdoor activities to support neighborhood community building.	Support joint use agreements to provide access to school grounds after hours.
8. Support diverse food production options throughout the city.	Identify areas within the city that would be suitable for community gardens and other small-scale urban agriculture.

## **Economy and Opportunity Example Actions**

Goal: Madison will have a growing, diversified economy that offers opportunity for businesses and residents to prosper.

Goal: Madison will have equitable education and advancement opportunities that meet the needs of each resident.

Strategy	Example Action 1	<b>Example Action 2</b>
1. Remove barriers to achieve economic stability by ensuring access to services including culturally appropriate childcare, credit repair, and financial literacy.	Partner with financial institutions to provide financial literacy and credit repair programs.	Expand the City's Child Care Unit that aims to increase access to child care in Madison.
2. The City should lead and encourage other employers to develop a diverse workforce best able to serve an increasingly diverse population.	Increase the level of contracting and purchasing from businesses owned by people of color for city projects.	Continue the City's Equitable Hiring Initiative.
3. Support efforts for businesses and consumers to produce and buy local food, products, and services.	Increase the level of buying local for City contracting and purchasing.	Leverage the Public Market and related efforts to support diverse food entrepreneurs.
4. Support small businesses and cultivate entrepreneurship, especially businesses owned by people of color and underrepresented groups.	Streamline the process to do business with the City by reevaluating the procurement requirements.	Create a multi-agency staff team to help new and existing businesses navigate licensing and regulatory requirements, and provide technical assistance.
5. Ensure there is an adequate supply of sites for a wide variety of employers to operate and grow in Madison.	Certify sites as ready for development through the Gold Shovel or Certified in Wisconsin programs.	Proactively incorporate opportunities for employment-related land uses in neighborhood plans.
6. Develop more jobs that pay a family- supporting living wage for all workers.	Continue the living wage ordinance for City employees and contractors, and encourage other employers to adopt a living wage.	Target economic development towards higher paying jobs and career-ladder opportunities for lower-skilled workers.
7. Ensure access to affordable high speed internet service.	Expand public Wi-Fi in City facilities.	Investigate opportunities to apply for the Wisconsin Broadband Expansion Grant.
8. Provide services that support high school graduation and GED attainment, job training, and work placement to residents facing barriers to employment.	Promote work-based learning opportunities for youth.	Use libraries to offer and host educational programs on career opportunities and job trainings.
9. Promote food-based business innovation.	Continue and promote the MarketReady Program, which prepares potential vendors for selling at public markets.	Promote educational opportunities for new food-focused businesses on safe food storage and preparation.
10. Work to close the educational opportunity gap.	Continue to provide access to quality out-of- school activities through the Madison Out of School Time Program.	
11. Retain existing businesses and attract new businesses to Madison to ensure that residents have access to jobs.	Target key sectors where Madison has a competitive advantage for business retention and expansion.	Continue Business Walks where City staff check-in and build relationships with business owners.

11/22/2017 Page 9 of 10

## Services and Facilities Example Actions

**Goal:** Madison will have efficient and reliable public utilities, facilities, and services that support all residents.

**Goal:** Madison will collaborate with other governmental and non-governmental entities to improve efficiency and achieve shared goals.

Strategy	Example Action 1	Example Action 2
1. Collaborate with State and local officials to create a regional transit authority as a mechanism to expand and improve public transit services in the Madison area.	Make the economic case for creating a modern and efficient transit system.	
2. Efficiently and equitably place community facilities (such as community centers and fire stations) to provide a high level of service to all neighborhoods.	Determine underserved areas when siting new facilities.	Continue providing Neighborhood Police Officers with neighborhood offices (substations).
3. Ensure that new development occurs in locations that can be economically and efficiently served with City utilities, facilities and services to minimize costs on the community as a whole.	Evaluate potential city expansion areas regarding how these areas would be served and the anticipated cost.	Annually review and update the Master Plan for City Facilities.
4. Work with adjacent municipalities and regional jurisdictions to preserve long-term options for orderly and efficient city expansion.	Continue to work with nearby communities on Cooperative Plans and Intergovernmental Agreements.	Include adjacent communities in City planning initiatives, like public meetings and events.
5. Co-locate community facilities (such as libraries, public health clinics, and community centers) to improve service provision and reduce capital and operating costs.	Pursue opportunities for police substations in existing fire stations, to provide residents with improved access.	Include satellite library spaces with computer access in fire stations.
6. Establish partnerships with other governments and entities to improve service delivery and reduce duplicative services.	Pursue additional partnerships with adjacent communities to expand Madison Metro coverage.	
7. Pursue regional solutions to regional issues such as land use, open space, water quality, environmental resources, and agricultural/food systems planning.	Work with adjacent communities to preserve areas at the edge of the city with natural features and urban agricultural opportunities.	
8. Improve accessibility to government agencies and services including the physical location, hours of operation, and availability of language translation.	Promote Report a Problem and provide this service in other languages.	Develop a central online dashboard for using City services (such as paying bills, seeing tax assessments, and arranging large item pickups).
9. Ensure that the City of Madison government is transparent and accountable to residents.	Implement a periodic Resident Survey to track residents' satisfaction with City services, and tailor improvements accordingly, with a focus on equitable
