RE: Legistar #49540; Accela 'LNDUSE-2017-00116' -- Approval of a conditional use request to establish a garden center in an existing multi-tenant building in an IL (Industrial Limited) zoning district at **2025 S. Stoughton Road.**

Dear Mr. Berna:

At its January 8, 2018 meeting, the Plan Commission, meeting in regular session, found the standards met and approved your conditional use request to establish a garden center at **2025 S. Stoughton Road**, subject to the conditions below. In order to receive final approval of the conditional use, and for any permits to be issued for your project, the following conditions shall be met:

Please contact Jeffrey Quamme of the Engineering Division – Mapping at (608) 266-4097 if you have any questions regarding the following three (3) items:

1. The site plan shall identify lot and block numbers of recorded Certified Survey Map or Plat.
2. The site plan shall include a full and complete legal description of the site or property being subjected to this application.
3. Submit a PDF floor plan to Lori Zenchenko (Lzenchenko@cityofmadison.com) of the entire building; so that the tenant space addressing plan can be verified. If there are any changes pertaining to the location of a unit, the deletion or addition of a unit, or to the location of the entrance into any unit, (before, during or after construction) the addresses may need to be changed. The interior address plan is subject to the review and approval of the Fire Marshal.

Please contact Sean Malloy of the Traffic Engineering Division at (608) 266-5987 if you have any questions regarding the following eleven (11) items:

4. If the applicant intends to have outdoor sales or display in or impacting the parking facility (drive isles, parking stalls, pedestrian walkways, bicycle facilities), the applicant shall note such accommodations on the plans. Alternatively, the applicant shall apply for a temporary use permit through City Zoning

to make temporary alterations to the site plan to accommodate outdoor sales and/or display.

5. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawings shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including two (2) feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.
6. The Developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the Developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
7. The City Traffic Engineer may require public signing and marking related to the development; the Developer shall be financially responsible for such signing and marking.
8. All parking facility design shall conform to MGO standards, as set in section 10.08(6).
9. All pedestrian walkways adjacent parking stalls shall be 7 feet wide to accommodate vehicle overhang, signage and impediments to walkway movements. Any request for variance shall be submitted to and reviewed by City Traffic Engineering.
10. The applicant shall provide a clearly defined 5' walkway clear of all obstructions to assist citizens with disabilities, especially those who use a wheel chair or are visually impaired. Obstructions include but are not limited to tree grates, planters, benches, parked vehicle overhang, signage and doors that swing outward into walkway.
11. "Stop" signs shall be installed at a height of seven (7) feet at all class III driveway approaches, including existing driveways, behind the property line and noted on the plan. All directional/regulatory signage and pavement markings on the site shall be shown and noted on the plan.
12. The applicant shall show dimensions for the proposed and existing parking stalls items S = 9 ft, L = 18 ft, E = 24 ft, F = 20 ft, and degree of angle parking width and backing up, according to Figures II "Medium and Large Vehicles" parking design standards in Section 10.08(6)(b) 2. Signs and planting areas are to be excluded from the rectangular stall areas including the two (2) feet of vehicle overhang. The two (2) feet of vehicle overhang shall be shown on the plan and dimensioned.
13. Dimensions of the driveways shall be noted on the plan including the width of driveway and width of driveway flares or curb cut.
14. Secure parking facility. This is usually done with continuous six (6) inch curb, timbers, preformed wheel stops, guardrail erected at a height of eighteen (18) inches or fencing of sufficient strength to act as a vehicle bumper.

Please contact Jenny Kirchgatter, the Assistant Zoning Administrator at 266-4429 if you have any questions regarding the following six (6) items:

15. Submit an Application for a Certificate of Occupancy to Zoning staff for review. A Certificate of Occupancy is required for the change of use for the proposed garden center.
16. Bicycle parking shall comply with the requirements of Sections 28.141(4)(g) and 28.141(11). Provide a minimum of two (2) short-term bicycle parking stalls located in a convenient and visible area on a paved or impervious surface. Bicycle parking shall be located at least as close as the closest non-accessible automobile parking and within one hundred (100) feet of a principal entrance. Note: A bicycle stall is a minimum of two (2) feet by six (6) feet with a five (5) foot wide access area. Provide a detail of the proposed bike rack.
17. Show the refuse disposal area on the site plan. All developments, except single family and two family developments, shall provide a refuse disposal area. If the refuse disposal area is located outside the building, it shall be screened on four (4) sides (including a gate for access) by a solid, commercial-grade wood fence, wall, or equivalent material with a minimum height of six (6) feet and not greater than eight (8) feet. Submit a detail of the trash enclosure if provided outside the building.
18. An outdoor display or storage area is not indicated on the site plan. Outdoor display or storage areas shall comply with the Supplemental Regulations Section 28.151 for Outdoor Display and Outdoor Storage.
19. Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval. Work with Zoning staff to establish a final site compliance date.
20. Signage approvals are not granted by the Plan Commission. Signage must be reviewed for compliance with Chapter 31 Sign Codes of the Madison General Ordinances. Signage permits are issued by the Zoning Section of the Department of Planning and Community and Economic Development.

Please contact Bill Sullivan of the Fire Department at 261-9658 if you have any questions regarding the following item:

21. Ensure storage and operations comply with requirements of the International Fire Code. Some arrangements may require additional protection such as a fire sprinkler system.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining your conditional use:

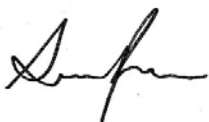

1. Please revise your plans per the above conditions and submit **six (6) copies** of a complete, fully dimensioned and scaled plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off. The final site plan shall be accompanied by the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein

with the Zoning Administrator, 126 S. Hamilton Street. This submittal shall all also include one complete digital plan set in PDF format. The sets of final revised plans or documents will be circulated by the Zoning staff to the City department staff listed above for their final approval.

2. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.
3. The approval is valid for one (1) year from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted.
4. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.
5. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at (608) 266-4551. If you have any questions or if I may be of any further assistance, please do not hesitate to contact my office at (608) 243-0554.

Sincerely,

Sydney Prusak
 Planner

cc: Jeffrey Quamme, Engineering-Mapping
 Sean Malloy, Traffic Engineering
 Jenny Kirchgatter, Zoning
 Bill Sullivan, Fire Department

I hereby acknowledge that I understand and will comply with the above conditions of approval for the conditional use permit.

Signature of Applicant

Signature of Property Owner (if not the applicant)
