RE: Approval of a demolition permit and a conditional use proposed to demolish a one-story single-family home at **1032 East Washington Avenue** with no proposed future (ID 49919; LNDUSE-2017-00128).

Dear Mr. Arneson;

At its February 5, 2018 meeting, the Plan Commission found the standards met and **approved** your demolition permit for 1032 East Washington Ave. The conditions of approval in the following sections shall be satisfied prior to issuance of demolition or building permits for the project.

Please contact Colin Punt of the City Planning Division at (608) 243-0455 if you have any questions regarding the following one (1) item:

1. The applicant is encouraged to undertake demolition on a weekend. If not feasible, the applicant shall be diligent to protect the nearby Lapham Elementary School from dust. Applicant shall work with the Recycling Coordinator to include these considerations in the reuse and recycling plan.

Please contact Brenda Stanley of the City Engineering Division at (608) 261-9127 if you have any questions regarding the following nine (9) items:

2. Based on the use of the property for auto repair, the property may contain residual contaminated soil. If contaminated soil is encountered as part of this demolition or redevelopment, all WDNR and DSPS regulations must be followed for proper handling and disposal.
3. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing sanitary sewer lateral that serves a building which is proposed for demolition. For each lateral to be plugged the owner shall complete a sewer lateral plugging application and pay the applicable permit fees. The permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
4. The site plan shall be revised to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service.

5. This project falls in the area subject to increased erosion control enforcement as authorized by the fact that it is in a TMDL ZONE. The project will be expected to meet a higher standard of erosion control than the minimum standards set by the WDNR in order to comply with TMDL limits.
6. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 5.0 tons per acre per year.
7. This site will disturb 4,000 sf or more of land area and require an Erosion Control Permit.
8. The Applicant shall replace all sidewalk and curb and gutter which abuts the property which is damaged by the construction or any sidewalk and curb and gutter which the City Engineer determines needs to be replaced because it is not at a desirable grade regardless of whether the condition existed prior to beginning construction.
9. All work in the public right-of-way shall be performed by a City licensed contractor.
10. The Applicant shall close all abandoned driveways by replacing the curb in front of the driveways and restoring the terrace with grass.

Please contact Jenny Kirchgatter, Assistant Zoning Administrator at (608) 266-4429 if you have any questions regarding the following four (4) items:

11. Section 28.185(7)(a)5 requires that if a demolition or removal permit is approved, it shall not be issued until the reuse and recycling plan is approved by the Recycling Coordinator, Bryan Johnson (608-266-4682).
12. Every person who is required to submit a reuse and recycling plan pursuant to Section 28.185 (7)(a)5. shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition.
13. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission.
14. Approval of the demolition permit will require the removal of all structures including the principal building, parking lot, and driveway. The driveway apron shall be removed and replaced with curb and gutter as per City of Madison Engineering and Traffic Engineering requirements. During demolition and prior to curb and gutter, barriers shall be installed across the driveways to prevent the parking of vehicles. Disturbed areas shall be graded and seeded or sod planted to minimize erosion.

Please contact William Sullivan of the Fire Department at (608) 261-9658 if you have any questions regarding the following one (1) item:

15. Please consider allowing Madison Fire Dept. to conduct training sequences prior to demolition. Contact MFD Training Division to discuss possibilities: Division Chief Tracy Burrus at tburrus@cityofmadison.com or (608)266- 5959.

Please contact Sarah Lerner of Parks/Forestry at (608) 261-4281 if you have any questions regarding the following one (1) item:

16. Existing street trees shall be protected. Please include the following note on the site plan: Contractor shall install tree protection fencing in the area between the curb and sidewalk and extend it at least 5 feet from both sides of the tree along the length of the terrace. No excavation is permitted within 5 feet of the outside edge of a tree trunk. If excavation within 5 feet of any tree is necessary, contractor shall contact City Forestry (266- 4816) prior to excavation to assess the impact to the tree and root system. Tree pruning shall be coordinated with City Forestry prior to the start of construction. Tree protection specifications can be found in section 107.13 of City of Madison Standard Specifications for Public Works Construction - <http://www.cityofmadison.com/business/pw/documents/StdSpecs/2013/Part1.pdf>. Any tree removals that are required for construction after the development plan is approved will require at least a 72 hour wait period before a tree removal permit can be issued by Forestry, to notify the Alder of the change in the tree plan.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. After the plans have been revised per the above conditions, please file **six (6) sets** of complete, fully dimensioned, and to-scale plans, the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, 126 S. Hamilton Street. **This submittal shall all also include one (1) complete digital plan set in PDF format.** The sets of final revised plans or documents will be circulated by Zoning staff to the City department staff listed above for their final approval.
2. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.
3. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission. Where the plans have not been altered since issuance of the demolition or removal permit and the permit has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date.
4. As a future use was not presented at the time of application, the Plan Commission requires that the alternative future use be approved by the Plan Commission prior to the issuance of permits as allowed under Section 28.175(8)(a) MGO. The standards for approval of the proposed alternative use shall be those in contained in Section 28.185 of the Zoning Ordinance.
5. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 243-0455.

Sincerely,

Colin Punt
Planner

I hereby acknowledge that I understand and will comply with the above conditions of approval for demotion.
