LETTER OF APPRECIATION

APRIL 5, 2018

PLEASE LET IT BE RECORDED THAT;

On behalf of the Facilities Department of Madison Public Library I wish to express my sincere appreciation and gratitude for the professional, engaged, and sustainable renovation of the Library's Service and Support Center located at 1301 W. Badger Road. This facility will enhance and support Library programming for generations to come. Many, many thanks to:

City Engineering for its Public Works and Project Management support, in particular Jeanne Hoffman, Matt Gall, Dave Schaller, and Jeanine Zwart;

OPN Architects for a superb design and committed project assistance, in particular Tate Walker, Malorie Hepner, and Mark Kruser;

Sullivan Design Build for an exemplary build out and refurbishment, often in very challenging conditions, in particular Jeremy Vaske and Ron Mueller.

Though I have noted the above individuals in particular for their contributions, I also wish to sincerely thank everyone who participated in this important project.

A handwritten signature in black ink, appearing to read "Mark E. Benno". The signature is fluid and cursive, with a long horizontal stroke at the end.

Mark E. Benno
Library Facilities Manager
