RE: Approval of a demolition permit to raze a single-family residence and construct a new single-family residence, and approval of a conditional use to construct a detached accessory building exceeding 576 square feet at 1322 Chandler Street (ID 50426; LNDUSE-2018-00012).

Dear Ms. Zimpel;

At its March 19, 2018 meeting, the Plan Commission found the standards met and **approved** your demolition permit to raze a single-family residence and construct a new single-family residence, and your conditional use to construct a detached accessory building exceeding 576 square feet at 1322 Chandler Street. The conditions of approval in the following sections shall be satisfied prior to issuance of demolition or building permits for the project.

Please contact Jenny Kirchgatter, Assistant Zoning Administrator at (608) 266-4429 if you have any questions regarding the following three (3) items:

1. Section 28.185(7)(a)5 requires that if a demolition or removal permit is approved, it shall not be issued until the reuse and recycling plan is approved by the Recycling Coordinator, Bryan Johnson (608-266-4682).
2. Every person who is required to submit a reuse and recycling plan pursuant to Section 28.185(7)(a)5 shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition.
3. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission.

Please contact Tim Troester of the City Engineering Division at (608) 267-1995 if you have any questions regarding the following two (2) items:

4. Prior to approval, the owner or owner's representative shall obtain a permit to plug each existing sanitary sewer lateral that serves a building which is proposed for demolition. For each lateral to be plugged the owner shall complete a sewer lateral plugging application and pay the applicable permit fees. The permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.
5. The plan set shall be revised to show more information on proposed drainage for the site post construction. This shall be accomplished by using spot elevations and drainage arrows or through the use of proposed

contours. It is necessary to show the location of drainage entering and leaving the property. It may be necessary to provide information off the site to fully meet this requirement.

Please contact William Sullivan of the Fire Department at (608) 261-9658 if you have any questions regarding the following two (2) items:

6. Please consider allowing Madison Fire Dept. to conduct training sequences prior to demolition. Contact MFD Training Division to discuss possibilities: Division Chief Tracy Burrus at tburrus@cityofmadison.com or (608)266- 5959.
7. Madison Fire Department recommends the installation of a residential fire sprinkler system in accordance with NFPA 13D. Additional information is available at the Home Fire Sprinkler Coalition website: <https://homefiresprinkler.org/building-residential-fire-sprinklers>

Please contact Adam Wiederhoeft of the Water Utility at (608) 266-9121 if you have any questions regarding the following three (3) items:

8. Prior to commencing with demolition of any structures on this property, the existing private well must be properly abandoned according to the requirements of the Wisconsin Administrative Code, Chapter NR 812, which includes proper filling and sealing of the well. All wells located in the City of Madison or on premises served by the Madison Water Utility shall be abandoned by the owner of the property if there is no valid well operation permit issued by the Madison Water Utility (MGO 13.21 (4)). The purpose of the ordinance is to prevent unused and improperly abandoned wells from contaminating Madison's drinking water aquifer.

As specified in the ordinance, your responsibilities include:

- Contact a licensed well driller or pump installer and schedule the well abandonment.
- Contact the Water Utility, at least 48 hours prior to the abandonment, and provide the scheduled date and time of the abandonment. The contact number is (608) 266-4654.
- Pay for the cost of the abandonment.
- Ensure that a completed copy of the Wisconsin DNR Abandonment Form is provided to the Madison Water Utility within ten (10) days of the completion of the well abandonment. This form will be completed by the well driller or pump installer who performs the abandonment.

The responsibilities of the Water Utility include:

- Witness the abandonment to ensure that the private well is properly filled and sealed.

Contact Madison Water Utility once you confirm date of the abandonment and the licensed well driller or pump installer performing the work. If you have any questions, contact the Madison Water Utility Water Quality Department at 266-4654.

9. The Madison Water Utility shall be notified to remove the water meter at least two working days prior to demolition. Contact the Water Utility Meter Department at (608) 266-4765 to schedule the meter removal appointment.
10. A Water Meter Application Form and fees must be submitted before connecting to the existing water lateral. Provide at least two working days notice between the application submittal and the scheduled

lateral connection/extension. Application materials are available on the Water Utility's Plumbers & Contractors website (<http://www.cityofmadison.com/water/plumberscontractors>), otherwise they may be obtained from the Water Utility Main Office at 119 E Olin Ave. A licensed plumber signature is required on all water service applications. For new or replacement services, the property owner or authorized agent is also required to sign the application. If you have questions regarding water service applications, please contact Madison Water Utility at (608) 266-4646.

Please contact Kate Kane of the Parks/Forestry Division at (608) 261-9671 if you have any questions regarding the following three (3) items:

11. An existing inventory of trees (location, species, & DBH) and any tree removal plans (in PDF format) shall be submitted to the plans and Brad Hofmann – bhofmann@cityofmadison.com or 266-4816. All proposed street tree removals within the right of way shall be reviewed by City Forestry. Approval and permitting of street tree removals shall be obtained from the City Forester and/or the Board of Public Works prior to the approval of the site plan.
12. Existing street trees shall be protected. Please include the following note on the site plan: Contractor shall install tree protection fencing in the area between the curb and sidewalk and extend it at least 5 feet from both sides of the tree along the length of the terrace. No excavation is permitted within 5 feet of the outside edge of a tree trunk. If excavation within 5 feet of any tree is necessary, contractor shall contact City Forestry (266-4816) prior to excavation to assess the impact to the tree and root system. Tree pruning shall be coordinated with City Forestry prior to the start of construction. Tree protection specifications can be found in section 107.13 of City of Madison Standard Specifications for Public Works Construction - <http://www.cityofmadison.com/business/pw/documents/StdSpecs/2018/Part1.pdf>. Any tree removals that are required for construction after the development plan is approved will require at least a 72 hour wait period before a tree removal permit can be issued by Forestry, to notify the Alder of the change in the tree plan.
13. The applicant is not pursuing conditional use approval for an ADU at this time. If the applicant pursues approval for an ADU Park Impact Fees (comprised of the Park Infrastructure Impact Fee, per MGO Sec. 20.08(2)), and Park-Land Impact Fees, per MGO Sec. 16.23(8)(f) and 20.08(2) will be required for new residential development associated with this project. Please reference ID# 18113 when contacting Parks about this project.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. After the plans have been revised per the above conditions, please file **seven (7) sets** of complete, fully dimensioned, and to-scale plans, the appropriate site plan review application and fee pursuant to Section 28.206 of the Zoning Code, and any other documentation requested herein with the Zoning Administrator, 126 S. Hamilton Street. **This submittal shall all also include one (1) complete digital plan set in PDF format.** The sets of final revised plans or documents will be circulated by Zoning staff to the City department staff listed above for their final approval.

2. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting conditional use approval.
3. A conditional use approval is valid for one (1) year from the date of the Plan Commission approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced as is being diligently prosecuted.
4. A demolition or removal permit is valid for one (1) year from the date of the Plan Commission. Where the plans have not been altered since issuance of the demolition or removal permit and the permit has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date.
5. Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations. The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the conditional use approval standards.
6. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses.

If you have any questions regarding obtaining your conditional use or building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if may be of any further assistance, please do not hesitate to contact my office at 243-0455.

Sincerely,

Colin Punt
Planner

cc: Tim Troester, City Engineering Division
Adam Weiderhoeft, Water Utility
William Sullivan, Fire Department
Kate Kane, Parks Department
Jenny Kirchgatter, Assistant Zoning Administrator

I hereby acknowledge that I understand and will comply with the above conditions of approval for demolition.
