Subject: Imagine Madison bicycle analysis

Dear Members of the Pedestrian/Bicycle/Motor Vehicle Commission:
I have noticed that the Comprehensive Plan is on the agenda for your meeting tonight. Our organization, Madison Bikes, greatly appreciates the extensive public input process that went into Imagine Madison and the Comprehensive Plan. David Trowbridge was kind enough to share the raw data pertaining to biking with us, and we have conducted our own analysis of the public comments. We think this may be informative for your discussion, as it contains much more detail than the final official report. Attached I have a brief summary of our findings, as well as the data and how we classified each comment. I will not be able to attend tonight's meeting, but don't hesitate to reach out to me with any questions you may have.
Best,
Harald Kliems.
