

Education Committee Discussion Questions

Which of the following potential action steps identified in the MMSD Opportunity Youth report and by the DCHS Juvenile Justice Manager cross over all three Education Committee entities?

Which of the potential steps could have actionable budget implications for City or County 2019 budgets?

- Create a system to coordinate and share information across systems when youth are returning to the community or transitioning within the community.
- Address the under-lying cause of truancy through cross-organizational collaboration. Evaluate the situation for individual students and their families before they reach the 10-day threshold
- Create and support current youth and school programs to have welcoming and open-door environments. Assuring youth that they are ALL welcome and do not prohibit youth from coming back to program after an issue has caused them to have to leave.
- Identify what youth want and need. Include youth voices in the process and address gaps in current and proposed systems.
