Subject: Grampa's seating

Please consider the fall out to the neighbors of this little back yard neighborhood of adding outdoor seating at 30 people, with probable music to follow... into the late night... We like to sleep and have peace and quiet as much as anyone.. Gil 's customers already take up our valuable parking space by offering businesses with no parking at places that go well into the evening... Things have developed quite a bit recently... all we want is to stabilize this crazy development so that we can maintain the quality of life we have...We have had our share... He doesn't live here and doesn't care about the fallout ... we do. Thanks for your consideration
