Agenda Item No. 99, Legistar #51349
Common Council Meeting 8/7/2018

Alder Ahrens Amendment to Include Note on Page 11

- Add note on Page 11 of Comprehensive Plan:

  "Note: While the process of developing the Comprehensive Plan engaged many individuals, we are aware that because the participants were self-selected and not randomly chosen, the results are not the same as a scientific survey. As such, the results of the Engagement Program would not likely be the same if the process were repeated and a different group of individuals participated. Similarly, because the participants were self-selected, the results may indicate other trends, biases, etc."
