Subject: Milwaukee Street project

Hello,

Thank you for the hard work and time involved in the Milwaukee Street project.

I live at [REDACTED] Sussex Lane and I **do not** support the suggestion of opening up Buckingham Lane and Dawes Street as part of the project. Please look at ways to make the park area more accessible from the other side which is now the back alley of Woodman's, and not the residential sections.

I would also like to see more information in the plans about where the children will go to school if additional housing is included in the development, Schenk and Whitehorse are older buildings and there is already expected development on the Roysters side.

Thank you,

Sandra Houseman
