Building to be demolished at the corner of E Mifflin St and N Second St

Applicant: Lorrie Heinemann, Madison Development Corp.

Applicant's Comments: Only apt. building at corner of E Mifflin and N Second St.

Staff Findings: A preservation file for the building at the corner of E Mifflin St and N Second St does not exist. The preservation files indicate this building at 1954 E Washington Ave was constructed in 1925 to the designs of architect Louis Claude of Claude and Starck. It was built as the East Washington Contagious Hospital to treat patients with contagious diseases, and was owned and operated by the City of Madison. In 1989, the building became The Avenue apartments, which remain today.

1902 Bartillon Drive

Commercial building constructed in 1995.

Applicant: Dennis Haefer

Applicant's Comments: N/A

Staff Findings: Preservation records indicate the home was manufactured by the Lustron Corporation and built by Findorff and Co. in 1949 for owner R.H. Komurka, who was a claims adjuster for an insurance company. Lustron homes became popular during the post-World War II housing shortage. The company's goal was to create low-cost, high-quality housing using mass production methods. Each house was composed of 3000 parts that could be put on a truck and shipped anywhere in the country, with assembly requiring two weeks. The vast majority of the approximately two dozen Lustron homes in Madison were built in 1949 by Findorff. In 1950, the Lustron Corporation went broke. Lustron houses are of great historical interest, and represent a unique period of American life. Those that remain intact are likely eligible for the National Register.

222 N Charter Street

Single family home constructed in 1901.
