(d) Every dwelling unit and lodging room shall have direct access to at least two (2) accessible unobstructed means of egress leading to a safe and open public street, alley, or court connected to a street, except as provided in Sec. 27.06(4), MGO. Exterior stairways or exit platforms, or a combination thereof, will be permitted as second exits provided the platform or stairways terminate at a point not more than fifteen (15) feet above the grade directly below the lowest platform. All stairs shall terminate at grade or a platform. Platforms shall have a minimum area of 14 square feet with a minimum dimension of three (3) feet. All stairways and platforms shall be protected with handrails and guardrails as specified in Wis. Admin. Code § SPS 321.04(2) or ch. SPS 362. Existing variances to the height limitations specified above may be approved by the Building Inspection Division of the Department of Planning and Community and Economic Development provided the platforms or stairs are maintained in a sound structural condition. (Am. by Ord. 9326, 11-13-87; Ord. 13,124, 8-28-02; ORD-08-00109, 10-7-08; ORD-12-00035, 3-28-12)

(e) Each lodging house shall provide at least one (1) flush water closet, lavatory basin, and bathtub or shower, properly connected to an approved water and sewer system and in good working condition, for each seven (7) persons or fraction thereof residing therein including members of the operator's family wherever they share the use of said facilities, except that the required number of bathtubs or showers may be reduced by the Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals for lodging houses utilizing communal bathrooms containing multiple bathtubs or showers. All such facilities shall be located on the floor occupied by persons sharing such facilities or the floor directly above or below and shall be accessible from a common hall or passageway. Every lavatory basin and bathtub or shower shall be supplied with hot water at all times. (Am. by Ord. 11,960, 11-4-97; ORD-09-00019, 3-14-09)

(f) Every living, sleeping, kitchen or bath room shall have available natural light and ventilation complying with Wis. Admin. Code § SPS 321.05 or ch. SPS 362, as dictated by the occupancy of the building. Existing light and ventilation conditions which do not comply with Wisconsin Administrative Codes referenced in this subsection may remain in use with the approval of the Director of the Building Inspection Division.

Exhaust ventilation shall be installed in all toilet rooms except those having only one (1) fixture (water closet or one urinal) and the window area is greater than four (4) square feet and more than two (2) square feet is openable directly to the exterior of the building. The volume of air exhausted shall not be less than two (2) cubic feet per minute per square foot of floor area.

All doors required for ventilation and all windows shall be protected with insect screen equivalent to not less than sixteen (16) wire mesh installed to prevent the entrance of flies, mosquitoes and other insects, annually during May before June 1 and maintained until storm windows are installed in autumn.

All exterior doors and windows shall have storm windows or storm doors installed or maintained to prevent excessive drafts and heat loss no earlier than October 15, but no later than November 15 annually.

(Sec. 27.04(2)(f) Am. by Ord. 12,349, 3-30-99; Ord. 13,124, 8-28-02; ORD-08-00109, 10-7-08; ORD-12-00035, 3-28-12)

(g) Electrical. Every dwelling unit and all public and common areas in multiple dwellings shall be supplied with electrical service, outlets, and fixtures which shall be properly installed, shall be maintained in good and safe working condition, and shall be connected to a source of electric power in a manner prescribed by the Wisconsin Electric Code. The minimum capacity of such electrical services and the minimum number of outlets and fixtures shall be as listed below. (For the purposes of this section "electrical service" shall mean: "The conductors and equipment for delivering electrical energy from the supply system to the wiring system of the premises or the unit served.") The electrical service shall be of sufficient size to handle the load connected to it. The branch circuits shall be protected by S-type or equivalent safety type, tamper-proof fuses, not to exceed the ampacity of the smallest wire size in the circuit.

1. Every dwelling unit or room shall have electric service capable of providing at least three (3) watts per square foot of total floor area (air conditioners, ranges, space heaters and motor driven equipment ⅛ hp. or over excluded).
2. Every lavatory, bathroom, kitchen or kitchenette, dining room, laundry room, furnace room shall contain at least one (1) approved ceiling or wall type electric light fixture equipped with sufficient lamps or tubes to provide no less than five (5) foot candles at floor level at center of room. Where more than one fixture is used or required, they shall be equally spaced as far as practicable. (A switched outlet may be substituted for ceiling or wall fixture in dining room.)
3. Convenience outlet receptacles shall be provided as follows: (measurements are at room perimeter and include doors and door-alcoves)

   Living Room - 1 per 75 sq. ft. or major fraction (minimum of 2)

   Dining Room - 1 per 75 sq. ft. or major fraction (minimum of 2)

   Kitchen - 1 per 8 ft. or fraction of countertop and preparation area measured at rear (preparation area includes countertops, sinks, range tops, and all other similar areas at counter height). Island type work areas require one for each 8 ft. or less of length. Separate outlets shall be provided for refrigerators.

   Dining Areas in Kitchen - 1 per 75 sq. ft. or major fraction

   Bedroom - 1 per 75 sq. ft. or major fraction (minimum of 2)

   Laundry - 1 (when laundry equipment is present)

   Bathrooms and Lavatories - 1 (may be part of wall fixture if 72.0 inches or less from floor)

   Other Habitable Rooms - minimum of 2

   Fixed appliances exceeding ⅛ hp. or 300 watts rating shall not be connected to general purpose branch circuits. Convenience outlets are to be located to prevent use of extension cords (NEC 400-8). All cords and temporary wiring not in compliance with NEC Article 400-A, and all exposed abandoned wiring shall be removed.

   (Am. by Ord. 9326, 11-13-87)

4. Switches or equivalent devices for turning on any light required in a room or passageway shall be located so as to conveniently control the area to be lighted. (Am. by Ord. 10,192, 1-31-91)

5. Public halls and stairways in duplex or multiple dwellings shall be adequately lighted by natural or electric light at all times, so as to provide in all parts thereof at least two and one-half (2½) footcandles of light at the tread or floor level. Halls and stairways in structures containing not more than three (3) dwelling units may be supplied with conveniently located switches, controlling the lighting system, which may be turned on when needed. Other occupancies require full-time or automatic time-switched lighting. In all residential buildings where common main entrance doors open directly to the outside, a minimum of two and one-half (2.5) footcandles of illumination at the locks and latches are required. In single, duplex, or multiple dwellings when dwelling unit or lodging room doors open to the outside a minimum of two and one-half (2½) footcandles of illumination at the locks are required. Parking lots for more than three (3) cars shall be lighted to provide at least .25 footcandle on any surface in the lot with an average illumination level of at least .75 footcandle, except that the outer four (4) feet of the periphery of the parking lot will not be subject to the .25 footcandle minimum. Outdoor light fixtures shall be designed and installed to eliminate spill light and glare into adjacent properties. (Am. by Ord. 12,349, 3-30-99)

6. When the service in an existing residential building is changed the minimum replacement electrical service shall be:

   100 amp for first two (2) dwelling units in a building
   50 amp for each additional unit.

   Where electric heat and air conditioner over 20 amps are added or in place, additional capacity to cover this demand is required.

7. Electric work shall be done according to applicable sections of Chapter 19 (Electrical Code) of the Madison General Ordinances.

(Sec. 27.04(2)(g) Rescinded & Substituted by Ord. 4832, 1-16-75; Am. by Ord. 12,069, 3-30-99)

(h) Heating. All habitable rooms, kitchens and bathrooms shall be provided with a permanently connected heating system complying with Chapter 30 (Heating, Ventilating and Air Conditioning Code) of the Madison General Ordinances. Refer to Sec. 30.03(1) and Sec. 30.04(4)(d).

The heating system shall be maintained in a safe and efficient condition by a qualified person and a record kept at the premises showing the date of service and by whom. A minimum temperature of sixty-seven degrees Fahrenheit (67°) shall be maintained in all habitable rooms, kitchens and bathrooms.

The occupant of a room or an apartment may maintain a lesser temperature than is specified above as long as it does not affect the temperature in other habitable areas of the building.

(Sec. 27.04(2)(h) Am. by Ord. 9326, 11-13-76)

(i) Illumination shall be provided at all intersections of passageways, at all exits and at the head, foot, and landings of every stairway in all buildings accommodating transients, three (3) or more apartments, and lodging houses. The illumination shall be provided during a period one (1) hour before sunset to one (1) hour after sunrise.

Every residential building that will accommodate transients, four (4) or more families, thirty (30) persons or contains more than six (6) lodging rooms shall have signs at the emergency exit doors or other places as may be necessary to direct

the occupant to the exit doorways. The signs shall be red illuminated translucent exit signs bearing the word EXIT or OUT in plain letters not less than 5 inches in height.
(Am. by Ord. 9326, 11-13-87)

(j) The owner or operator of every residential building shall not provide, use, or permit to be used and the occupant shall not provide, use, or permit to be used in any room other than a kitchen, any equipment designed or intended to be used for cooking or preparation of meals. (Am. by Ord. 5139, 9-3-75)

(k) Every owner of a rental dwelling shall keep on record with the Building Inspection Division of the Department of Planning and Community and Economic Development contact information of two (2) or more persons located in Dane County who, by virtue of his or her ownership, employment, or delegation, can exercise control and care over the property, and provide access to the property.

1. The contact information shall include the actual name of the owner per deed to the property, two contact names of the individuals designated to be contacts, two phone numbers for each contact listed, an email address (if available) for each of the contacts, and contact information for a management company for the property, if one is being utilized.
2. These names and contact information shall be updated with the Department on an annual basis no later than January 1 and at any time there is a change in the contact information. This information shall be provided on a form approved by the Department.
3. The names of these two (2) persons shall be made available by the owner of the property to the occupants and posted at one inside entry of every separate building on the property. They must be placed in a conspicuous place and be readily accessible to the occupants.
4. The City of Madison, through its Police Department, Fire Department, and Building Inspection Division, shall by use of the data collected, communicate promptly with a property owner and make the property owner aware of any police calls to the property, fire or ambulance calls to the property, and/or building inspection orders.
5. A fee in the amount of five dollars ($5) per parcel shall be paid to the City Treasurer at the time the updated information is provided by printed form. No fee shall be charged if the information is submitted online. Effective May 4, 2016, the fee shall increase from five dollars ($5) to ten dollars ($10). (Am. by ORD-14-00123, 7-11-14)
6. This registry requirement will commence on January 1, 2012, or when the new City of Madison computer system intended for this purpose is fully operational, whichever is later.
7. The owner may either submit this information online or request a printed form by email.
8. Exceptions. This requirement does not apply to all properties that are owned and operated by local, state, or federal government agencies, or a subdivision or agency of government.
9. Staff will prepare a report to the Housing Strategy Committee and Landlord and Tenant Issues Committee to show fees generated, compliance, fines and costs to implement this section. The report shall be provided by May, 2013. (Am. by ORD-12-00076 & ORD-12-00077, 6-20-12)

(Cr. by Ord. 5439, 3-30-76; Am. by ORD-11-00063, 5-4-11)

27.05 SAFE AND SANITARY MAINTENANCE OF PROPERTY.

(1) The purpose of this subsection is to recognize the private and public benefits resulting from the safe, sanitary and attractive maintenance of residential and nonresidential buildings, structures, yards, or vacant areas. Safe, attractive and well maintained property will enhance the neighborhood and City and provide a suitable environment for increasing physical and monetary values as well as preserve the health, safety and welfare of the public. (Am. by Ord. 13,638, 6-23-04)

(2) Every owner or operator shall improve and maintain all property under his/her control to comply with the following minimum requirements: (Am. by ORD-14-00012, 1-14-14)

(a) All courts, yards, or other areas on the premises shall be properly graded to divert water away from the building. Adjacent ground surface shall be sloped away from the structure with a grading of at least one-half (½) inch per foot for a minimum of five (5) feet where possible or by other means such as eaves troughs and downspout extensions. (Am. by Ord, 6251, 5-18-78)

(b) All exterior property areas shall be kept free from noxious weeds as defined in Sec. 23.29(1) of these ordinances. (Am. by Ord. 11,298, 7-11-95)

(c) The interior of all vacant buildings and structures and all exterior property areas shall be properly maintained in a clean and sanitary condition free from debris. For purposes of this section, "debris" includes, but is not limited to, rubbish, garbage, physical hazards, rodent harborage and infestation, or animal feces. All animal feces shall be removed within twenty-four (24) hours. Compost piles shall be maintained in accordance with Section 7.361.

1. Failure to Remove Debris on Improved Abandoned Property.

Upon default of any person ordered to remove debris from the exterior of improved property, after notice and opportunity to correct has been given to the last-known property owner or the property registrant under Sec. 27.10, MGO, and the property reasonably appears to be abandoned, the Director of the Building Inspection Division or designee may enter onto the property and remove any debris to conform with the ordinance, and the cost for such service shall be charged to the owner of the real property in question, as follows:

a. Abandoned Property. An improved property shall be considered "abandoned" for purposes of this subsection if any of the improvements do not reasonably appear to be inhabited, or in the case of an uninhabitable building or structure, if no other commercial or other lawful activities reasonably appear to have taken place since the date of the first inspection, or if the property is abandoned under Sec. 27.10.

b. Order to Correct, Notice. In order to utilize the abatement procedures under paragraph c., below, notice shall be given as follows:

The Director of the Building Inspection Division or designee shall send an Official Notice or correspondence describing the violation to the property owner or property registrant under Sec. 27.10, at the address on-file with the City Assessor's office or the Building Inspection Division, in the case of a property registered under Sec. 27.10. The notice shall be sent by certified mail, shall include the date of inspection, a due date to correct the violation, notice that failure to correct the violation may result in the City going onto the property and removing the debris from the exterior of the property and charging the cost back to the property as a special charge, and including the standard right to appeal under Sec. 29.18.

c. Abatement, Cost. If the violation remains after the due date in Sec. 27.05(2)(c)1.b. above, the Director of the Building Inspection Division or designee is authorized to enter onto the property and cause the removal of the debris from the exterior portions of the property to conform with the requirements of this Ordinance. The Director of the Building Inspection Division shall keep an accurate account of the expenses of such removal and report the same to the Finance Director, who shall not less than annually prepare a statement of the expense so incurred for the real property in question and report the same to the City Clerk, and the amount therein charged shall be entered in the tax roll as a special charge against said lot or parcel of land, and shall be collected in all respects like other special charges upon real estate under Wis. Stat. § 66.0627.

d. No Limitation on Other Enforcement. Action by the Building Inspection Division under this subsection shall be in addition to the prosecution and enforcement authority granted elsewhere in these Ordinances or by state law, and shall not bar any prosecution for violations of ordinances or state law or any other lawful remedy; nor shall prosecution or other legal action be a bar against action under this subsection.

(Am. by Ord. 11,168, 2-14-95; ORD-13-00137, 8-14-13)

(d) Fences, structures, minor construction, walks, driveways, parking areas and similar paved areas shall be properly maintained in a safe, sanitary and substantial condition. Approved walks shall provide convenient all weather access to buildings. (Am. by Ord. 10,377, Adopted 2-4-92)

(e) Exterior surfaces of buildings and structures not inherently resistant to deterioration shall be treated with a protective coating of paint or other suitable preservative which will provide adequate resistance to weathering and maintain an attractive appearance. In addition, all surfaces except floors of exterior porches, balconies, decks and similar structures constructed of treated lumber shall be treated with paint or pigmented stain, if any part of the structure is located between the principle building and a street lot line. Any structure or surface constructed of new treated lumber shall not be required to be painted or stained under this paragraph for the first eighteen (18) months after said lumber was installed. Any exterior surface treated with paint, stain, or other preservative shall be maintained so as to prevent chipping, cracking or other deterioration of the exterior surface or the surface treatment and to present an attractive appearance. All paint, stain, or other preservative shall be applied in a workmanlike fashion. (R. & Recr. by Ord. 4289, 8-13-73; Am. by Ord. 13,288, 3-21-03)

(f) Landscaping, plantings and other decorative surface treatments, including but not limited to common species of grass, shall be installed if necessary and maintained to present an attractive appearance in all court and yard areas. Except with prior application to and approval of a Land Management Plan for a Natural Lawn from the Department of Planning and Community and Economic Development of the City of Madison, or as allowed by Sec. 27.05(2)(f)7, MGO and except for natural areas in City parks, all lawns, lawn areas, and natural landscape areas comprised of grasses shall be maintained to a height not to exceed eight (8) inches in length. All vegetation shall be maintained so as not to present hazards to adjoining properties or to persons or vehicles traveling on public ways and shall be maintained so as to

enhance the appearance and value of the property on which located and thereby the appearance and value of the neighborhood and City. (Am. by ORD-17-00003, 1-12-17)

1. Failure to Maintain Lawn or Lawn Areas on Improved Abandoned Property.

Upon default of any person ordered to maintain a lawn, lawn area, or natural landscape area comprised of grasses on an improved property to a length of eight (8) inches or less, after notice and opportunity to correct has been given to the last-known property owner, and the property reasonably appears to be abandoned, the Director of the Building Inspection Division or designee may enter onto the property and cause portions of the lawn, lawn area, or natural landscape area comprised of grasses to be cut to conform with the ordinance, and the cost for such service shall be charged to the owner of the real property in question, as follows: (Am. by ORD-17-00003, 1-12-17)

a. Abandoned Property. An improved property shall be considered "abandoned" for purposes of this subsection if any of the improvements do not reasonably appear to be inhabited, or in the case of an uninhabitable building or structure, if no other commercial or other lawful activities reasonably appear to have taken place since the date of the first inspection.

b. Order to Correct. Notice. In order to utilize the abatement procedures under paragraph c., below, notice shall be given as follows:

i. The Director of the Building Inspection Division or designee shall send an official notice or correspondence describing the violation to the property owner at the address on-file City Assessor's office. The notice shall be sent by certified mail, shall include the date of inspection, a due date to correct the violation, notice that failure to correct the violation may result in the city going onto the property and cutting or mowing and charging the cost back to the property as a special charge, and including the standard right to appeal under Sec. 29.18.

ii. Upon failing to correct the violation after the due date in the notice above, at least one (1) municipal ordinance citation for the violation shall be issued, along with a correspondence assigning another due date.

c. Abatement, Cost. If the violation remains after the due date in Sec. 27.05(2)(f)2.b.ii. above, the Director of the Building Inspection Division or designee is authorized to enter onto the property and cause portions of the lawn, lawn area, or natural landscape area to be cut or mowed to conform with the requirements of this Ordinance. The Director of the Building Inspection Division shall keep an accurate account of the expenses of such cutting or mowing and report the same to the Finance Director, who shall not less than annually prepare a statement of the expense so incurred for the real property in question and report the same to the City Clerk, and the amount therein charged shall be entered in the tax roll as a special charge against said lot or parcel of land, and shall be collected in all respects like other special charges upon real estate under Wis. Stat. § 66.0627. (Am. by ORD-11-00037, 3-8-11; ORD-17-00003, 1-12-17)

d. No Limitation on Other Enforcement. Action by the Building Inspection Division under this subsection shall be in addition to the prosecution and enforcement authority granted elsewhere in these Ordinances or by state law, and shall not bar any prosecution for violations of ordinances or state law or any other lawful remedy; nor shall prosecution or other legal action be a bar against action under this subsection.

(Sec. 27.05(2)(f)1. Am. by ORD-08-00109, 10-7-08)

2. Application for Natural Lawn. Any owner or operator of land in the City of Madison may apply for approval of a land management plan for a natural lawn or natural landscape area, one where the grasses exceed eight (8) inches in height, with the Department of Planning and Community and Economic Development. (Am. by ORD-17-00003, 1-12-17)

3. "Land Management Plan" means a written plan relating to management of the lawn or natural landscape area which contains a legal description of the lawn or natural landscape area upon which the grass will exceed eight (8) inches in length, a statement of intent and purpose for the lawn or natural landscape area, a general description of the vegetational types, plants, and plant succession involved, and the specific management and maintenance techniques to be employed. The management plan must include provisions for cutting at a length not greater than eight (8) inches the terrace area, that portion between the sidewalk and the street or a strip not less than four (4) feet adjacent to the street where there is no sidewalk, and at least a three (3) foot strip adjacent to neighboring property lines unless waived by the abutting property owner on the side so affected.

All lawn, natural landscape areas, and grass areas shall be cut between June 30 and October 15 when the Fire Chief, in her/his discretion, so orders consistent with his powers as granted in Chapter 34 of the Madison General Ordinances. (Am. by ORD-14-00012, 1-14-14; ORD-17-00003, 1-12-17)

4. Revocation of the Land Management Plan.

The Land Management Plan may be revoked for failure to comply with the requirements of Sec. 27.05(2)(f)2. Notice of intent to revoke a Land Management Plan shall be appealable to the Urban Design Commission. All applications for appeal shall be submitted within fifteen (15) days of Notice of Intent to revoke a Land Management Plan.

5. Application Requirements. Each application for a Land Management Plan shall be on a form provided by the Director of the Department of Planning and Community and Economic Development. A copy of the application shall be mailed by the applicant or given personally by the applicant to each of the owners of record, as listed in the Office of the City Assessor, who are owners of the property situated in whole or in part within two hundred (200) feet of the boundaries of the properties affected. The Director of the Department of Planning and Community and Economic Development shall provide the list of the property owners who are to be notified of the application. The applicant shall certify, under oath, on a form to be furnished by the Director of the Department of Planning and Community and Economic Development, that such owners have been duly notified and the manner in which they have been notified. If, within fifteen (15) days of receipt of a copy of the application, at least fifty-one percent (51%) of such property owners file written objections to the application with the Director of the Department of Planning and

Community and Economic Development, the Director of the Department of Planning and Community and Economic Development shall refer the application to the Urban Design Commission for hearing and decision.

6. Application for Appeal. The owner or operator of land in the City of Madison may appeal from a decision of the Director of the Department of Planning and Community and Economic Development refusing to grant a Land Management Plan. All appeals shall be to the Urban Design Commission of the City of Madison which shall hear such appeals once a month, March through September. All applications for appeal shall be submitted within fifteen (15) days of notice of denial of the Land Management Plan.

(Sec. 27.05(2)(f) Am. by Ord. 9326, 11-13-87)

7. Any owner or operator of land in the City of Madison may maintain a natural lawn (hereinafter referred to in this paragraph as "natural landscape area") without going through the Land Management plan, application and approval process described in Secs. 27.05(2)(f)2.-6., provided the natural landscape area meets all of the following criteria:

   a. The natural landscape area located in the front and/or side yard(s) is limited in size to less than twenty-five percent (25%) of the total square footage of the front and side yards.

   b. The natural landscape area located in the backyard or setback behind the rear plane of the principal building is limited in size to less than fifty percent (50%) of the backyard and the street side yard setback behind the rear plane of the principal building.

   c. The natural landscape area must be setback at least five (5) feet away from all property lines, sidewalks, shared driveways or other public right of way areas.

   d. All natural landscape areas shall comply with the vision clearance triangle requirements of Sec. 27.05(2)(bb).

   e. Only the following native grasses may be used: Sideoats Grama Grass (*Bouteloua curtipendula*), Tufted Hairgrass (*Deschampsia caespitosa*), Purple Lovegrass (*Eragrostis spectabilis*), Junegrass (*Koeleria macrantha*), Switchgrass (*Panicum virgatum*), Little Bluestem (*Schizachryium scoparium*), Indiangrass (*Sorghastrum nutans*), Prairie Dropseed (*Sporobolus heterolepis*), Pennsylvania Sedge (*Carex pensylvanica*), Running Marsh Sedge (*Carex sartwellii*), Common Bur Sedge (*Carex grayi*), and Silky wild rye (*Elymus villosus*).

(Sec. 27.05(2)(f)7. Cr. by ORD-17-00003, 1-12-17)

(g) 1. Every interior floor, wall and ceiling including door and window assemblies shall be kept clean and in good repair, and shall be capable of affording privacy. Any sagging or bulging shall be properly repaired to a level or plumb position. All surfaces shall be free from serious cracking, irregularities, and peeling paint. A waterproof and hard surface shall be provided in spaces subject to moisture. All surface repairs shall be completed to closely match the existing surface color and texture. Floor surfacing shall provide ease of maintenance and durability appropriate for the use of the room. (Am. by Ord. 6573, 3-21-79)

2. Every foundation, exterior wall, and floor and roof shall be reasonably weathertight, watertight and rodentproof and shall be kept in proper repair and shall be capable of affording privacy. Any sagging or bulging shall be properly repaired to a level or plumb position. All chimneys and

breeching shall be so constructed and maintained so as to insure that it safely and properly removes the products of combustion from the building.

3. Every gap allowing the accumulation of dirt or other objectionable matter in bathing, toilet, or food preparation areas shall be tightly sealed with an impervious and cleanable material. (Cr. by Ord. 6574, 3-21-79)
4. Every countertop, wall cabinet, and base cabinet in kitchens and bathrooms shall be installed and maintained in proper repair and working condition. (Cr. by Ord. 12,349, 3-30-99)

(h) Every window, exterior door, interior door, and basement hatchway shall be reasonably weathertight, watertight, and rodentproof and kept in proper repair. All door and window hardware shall be installed and maintained in proper working condition. The use of a hasp to secure any door other than a storage locker door within a dwelling unit or rooming house is prohibited. Except as provided in Paragraph 9. below, the following shall apply in dwelling units all or a portion thereof which are rented: (Am. by Ord. 12,349, 3-30-99)

1. Each main entrance door into a dwelling unit shall contain an approved door viewer.
2. All doors into each dwelling unit shall be equipped with door hinges so arranged as to be inside the dwelling unit or with approved locking pin hinges.
3. All doors into each dwelling unit shall have a keyed deadbolt lock with a minimum one (1) inch throw, which is openable with a key on the exterior side of the door and a knob on the interior side of the door. The strike plate shall be held in place by 2½ inch screws. Sliding doors shall have an approved secondary locking device. (i.e locking pins or 2 × 4's of proper length.) (Am. by Ord. 10,192, 1-31-91)
4. All basement, first, and second story windows and all other windows accessible by balconies, fire escapes, trees or other existing means shall be provided with sash fasteners.
5. All double-hung and sliding windows and doors below the second story and all other double-hung and sliding windows and doors accessible by balconies, fire escapes, trees or other existing means shall be equipped with approved window ventilating sash fasteners to allow each window to be locked at one (1) to five (5) inches open. Such window ventilating bolts or locks shall be movable to permit the window to be fully opened from the inside of the dwelling unit. (Am. by Ord. 10,192, 1-31-91)
6. Alternative locking devices to equally resist illegal entry may be substituted with the approval of the Madison Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)
7. Paragraphs 1., 2., 3., 4., 5. and 6. of Subdivision (h) of Subsection (2) of Section 27.05 shall also apply in lodging rooms, except as provided in Paragraph 9. below. In addition, the main entrance door into all lodging houses and into all residential buildings with two or more dwelling units or lodging rooms where occupants of the separate dwelling units or lodging rooms share common bathroom or kitchen facilities shall be equipped with a positive locking guarded latch lock and with an approved self-closing device. An approved guard plate shall be affixed to the exterior side of the door if the Director of the Building Inspection Division determines such a device is necessary to provide adequate security against illegal entry. All other doors into said buildings shall be equipped with a deadbolt lock complying with Paragraph 3 of this Subdivision. If any door locking

mechanism in said buildings utilize passwords or passcodes of any type, including but not limited to digital locks, radio-frequency or RFID locks, or electronic keypads, the passwords or passcodes must be changed at least on a yearly basis. In cases where said buildings have an attendant or attendants responsible for the security of the building on duty twenty-four (24) hours a day, they shall be exempt from the main entrance door-locking and self-closing requirements. (Am. by Ord. 8945, 8-29-86; ORD-08-00109, 10-7-08; ORD-12-00090, 7-10-12)

8. Buildings occupied by cooperative living arrangements shall comply with the requirements of Paragraphs 1, 2, 4 and 5 of this Subdivision. In addition, the main entrance door shall be equipped with a positive locking guarded latch lock and with an approved self-closing device. An approved guard plate shall be affixed to the exterior side of the door if the Director of the Building Inspection Division determines such a device is necessary to provide adequate security against illegal entry. All other doors into the building shall be equipped with a deadbolt lock complying with Paragraph 3 of this Subdivision. All doors into the individual sleeping rooms of said buildings having more than fifteen (15) sleeping rooms shall be equipped with deadbolt locks complying with Paragraph 3 of this Subdivision; all doors into the individual sleeping rooms of said buildings having fifteen (15) or fewer sleeping rooms shall be equipped with guarded latch locks or approved deadbolt locking devices. Door viewers shall not be required on doors into the individual sleeping rooms of said buildings. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

9. Buildings occupied by Bed and Breakfast Establishments shall comply with paragraphs 4. and 6. of this subdivision. In addition, all exterior doors shall comply with paragraph 3., and the windows in all lodging rooms in such establishments shall comply with paragraph 5. of this subdivision. In addition, the doors into all said lodging rooms shall be equipped with a lock capable of affording privacy and openable with a knob on the interior side of the door. (Cr. by Ord. 8945, 8-29-86)

10. All exterior doors into all residential buildings containing two (2) or more dwelling units and/or lodging rooms and where the main entrance door to the dwelling unit or lodging room is accessed from a common area, shall be equipped with a positive locking guarded latch lock and with an approved self-closing device. An approved guard plate shall be affixed to the exterior side of the door if the Director of the Building Inspection Division determines such a device is necessary to provide adequate security against illegal entry. If any door locking mechanism in said buildings utilize passwords or passcodes of any type, including but not limited to digital locks, radio-frequency or RFID locks, or electronic keypads, the passwords or passcodes must be changed at least on a yearly basis.

    Where a building subject to this paragraph also contains a non-residential use that shares a common entrance with the dwelling units or lodging rooms and is not on the basement level, the exterior door to the common entrance may be unlocked while the non-residential use portion of the building is actually occupied. (Cr. by Ord. 13,757, 1-5-05; Am. by ORD-08-00109, 10-7-08; ORD-12-00090, 7-10-12)

11. One hundred eighty (180) days from the effective day of this amendment all common area interior doors leading to common area basements shall be equipped with a positive action guarded latch lock and with an approved self closing device. (Cr. by Ord. 13,757, 1-5-05)

12. One hundred eighty (180) days from the effective day of this amendment all doors leading to shared laundries and storage areas located in basements shall be equipped with a positive action guarded latch lock and with an approved self closing device. (Cr. by Ord. 13,757, 1-5-05)

(Sec. 27.05(2)(h) Am. by Ord. 7481, 8-11-81)

(i) Every inside and outside stair, every porch, platform, balcony, and every appurtenance thereto shall be so constructed as to be safe to use and capable of supporting the load that normal use may cause to be placed thereon, and shall be kept in proper condition and repair and shall present an attractive appearance. All interior and exterior stairs, steps, porches, platforms, balconies, and every appurtenance thereto shall comply with the requirements specified in Wis. Admin. Code § SPS 321.04 and ch. SPS 362, as dictated by the type of occupancy in the building. Existing variances to the requirements specified herein may be approved by the Building Inspection Division of the Department of Planning and Community and Economic Development provided the stairs or porches are maintained in a sound structural condition. (Am. by Ord. 12,349, 3-30-99; Ord. 13,124, 8-28-02; ORD-08-00109, 10-7-08; ORD-12-00035, 3-28-12)

(j) Every plumbing fixture and water and waste pipe shall be properly installed and maintained in good working condition, free from defects, leaks, and obstructions.

(k) Every water closet compartment floor surface and bathroom floor surface shall be properly constructed and maintained so as to be reasonably impervious to water and so as to permit such floor to be easily kept in clean and sanitary condition.

(l) Every supplied facility, piece of equipment, or utility shall be so constructed, installed and maintained so that it will function in a proper working condition.

The owner of any dwelling or apartment in which a cooking stove and/or refrigerator are furnished for the use of the tenants as part of rental agreement shall keep such cooking stove and/or refrigerator in good mechanical working condition.

It shall be the responsibility of the tenant to maintain supplied facilities in a clean and sanitary condition when contained within the tenant's dwelling unit.

(Am. by Ord. 5581, 9-3-76)

(m) No owner, operator or occupant shall cause any service, facility, equipment, or utility which is required under this ordinance to be removed from or shut off from or discontinued for any occupied dwelling, dwelling unit or lodging room let or occupied by him/her except for such temporary interruption as may be necessary while actual repairs are in process, or during temporary emergencies when discontinuance of service is approved by an authorized inspector. (Am. by ORD-14-00012, 1-14-14)

(n) Abandoned Fuel Oil Tanks. Abandoned fuel oil tanks shall be removed from the building. Exception: Abandoned fuel oil tanks may remain in the building providing:

1. All fuel oil is removed from the tank.
2. The tank fill piping is removed and the tank openings plugged with pipe fittings.
3. The oil supply line is removed and the opening is plugged with pipe fittings.
4. The tank vent remains connected and terminates outside the building at least two (2) feet above grade.

(Sec. 27.05(2)(n) Cr. by Ord. 5109, 8-13-75)

(o) All stairways except one and all shaftways within multiple-family buildings and lodging houses which are three (3) or more stories in height shall be enclosed with partitions of not less than one (1) hour fire resistive construction, including doors of not less than three-fourths (¾) hour fire rated construction with self-closing

devices which meet the requirements of Wis. Admin. Code ch. SPS 362. One (1) stairway may be unenclosed provided it meets the requirements in Madison General Ordinances Sec. 27.05(2)(p), except where more stringent requirements are imposed by Wisconsin Administrative Code or State law. All existing required fire rated walls and doors shall be maintained to preserve the required fire rating of such walls and doors. (Am. by Ord. 11,220, 3-31-95; ORD-12-00035, 3-28-12)

(p) In every multiple-family building or lodging house more than two (2) stories high, every stairway which extends from the basement to the second floor or above, shall be enclosed in the basement with partitions of not less than one (1) hour fire resistive construction, including doors of not less than three-fourths (¾) hour fire rated construction with self-closing devices which meet the requirements of Wis. Admin. Code ch. SPS 362. All existing required fire rated walls and doors shall be maintained to preserve the required fire rating of such walls and doors. (Am. by Ord. 9326, 11-13-87; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(q) Isolation of Fire Hazards.

1. In multiple-family buildings and lodging houses, all boiler or furnace rooms, including the breeching and fuel room as well as other hazardous work rooms, shall be enclosed with not less than one (1) hour fire resistive walls and ceiling. All openings shall be protected with self-closing three-fourths (¾) hour fire rated doors. The enclosure shall include all flame burning equipment except domestic type #1 gas clothes dryers up to 37,000 BTU input. (Am. by Ord. 9326, 11-13-87)
2. The enclosure for the heating plant may be omitted in apartment buildings not more than two (2) stories in height and having not more than two (2) apartments on a floor and in rooming houses not more than two (2) stories in height and having not more than eight (8) living or sleeping rooms on each floor provided no part of the building is used for business purposes and all interior stairways are enclosed in the basement with a one (1) hour fire resistive enclosure or better as required by Sec. 29.20(15)(a).
3. All existing fire rated enclosures shall be maintained to preserve the required fire rating of such enclosures (walls, ceilings, doors, etc).
4. In all buildings covered by this chapter, foam plastic insulation shall have a flame-spread rating of not more than 75 and a smoke-developed rating of not more than 450. Foam plastic insulation tested in accordance with ASTM E-84 is also acceptable. All foam plastic insulation shall be protected in accordance with the following:
   a. Walls. Foam plastic insulation may be used within the cavity of a masonry wall, in cores of masonry units, within stud space of a wood frame wall or on the inside of a building surface of a wall or ceiling if the foam plastic insulation is fully protected by a thermal barrier having a finish rating of at least 15 minutes.
   b. Roofs. Roof coverings may be applied over foam plastic insulation where the interior of the dwelling is separated from the foam plastic insulation by plywood sheathing at least ½-inch in thickness or other approved material having a minimum 15-minute finish rating.
   c. Doors. Foam plastic insulation having a flame-spread rating of 75 or less may be used in doors when the door facing is of metal having a minimum thickness of 0.032-inch aluminum of No. 26 gauge sheet metal.

(Cr. by Ord. 7956, 2-25-83)

(Sec. 27.05(2)(q) Cr. by Ord. 5578, 9-3-76)

(r) All unpaved driveways and parking areas shall be maintained in a dust-free condition and shall be graded so that no potholes exist. (Cr. by Ord. 5445, 3-31-76)

(s) Removal of Debris.

1. No person shall dispose of rocks, trees, stumps, waste building material or other debris from land development, building construction, street grading, or installation of underground utilities, upon the surface of any land in the City of Madison, except at approved disposal sites.
2. No land owner shall allow an accumulation of rocks, trees, stumps, waste building material or other debris from land development, building construction, street grading, or installation of underground utilities upon the surface of her/his land for a period of more than ten (10) days. (Am. by ORD-14-00012, 1-14-14)
3. All landfill operations shall be leveled off to permit the mowing of weeds between May 15 and November 1. This includes the removal of stones, bottles, wire, and other debris that will interfere with mowing operations.

   All lands in the City of Madison shall be kept free of noxious weeds and maintained so there is no detrimental influence to the public health, safety, comfort, or general welfare of the immediate neighborhood or community.

   In this Paragraph, the term noxious weeds shall have the same meaning as in Section 23.29(1) of these ordinances.
   (Am. by Ord. 11,298, 7-11-95)

(Sec. 27.05(2)(s) renumbered from 29.20 (10)(c) & (d) by Ord. 7595, 12-28-81)

(t) Any parking space for persons with a disability which is required to be provided under any provision of the Madison General Ordinances, State Statutes, or the Wisconsin Administrative Code, or any such space which an owner or operator chooses to set aside for a motor vehicle with special registration plates issued under Wis. Stat. §§ 341.14(1), (1a), (1m) or (1q) or special identification cards issued under Wis. Stat. § 343.51, or a motor vehicle registered in another jurisdiction and displaying a registration plate, card or emblem issued by the other jurisdiction which designates the vehicle as a vehicle used by a person with a physical disability, shall be provided with a sign for people with disabilities which meets the standards as specified in Wis. Admin. Code § Trans 200.07. It is the intent of this ordinance to be enforced over the Wis. Admin. Code ch. SPS 362 with regard to parking spaces, Sec. 29.19 of these ordinances notwithstanding (Am. by Ord. 9299, 10-29-87; Ord. 13,124, 8-28-02; ORD-06-00099, 8-2-06; ORD-12-00035, 3-28-12)

(u) All friable material shall be maintained and kept in proper repair or treated with a protective covering. (Cr. by Ord. 9795, 5-31-89)

(v) Graffiti Is Prohibited. Graffiti shall be removed by the property owner or by the City at the property owner's expense.

1. Applicability. This subdivision applies to all residential and nonresidential buildings, structures, yards or vacant areas of the property, as well as movable objects located thereupon.
2. Removal of Graffiti by the City and Special Charge for Services.
   a. The Director of the Building Inspection Division may order graffiti removed by a specified date. If a property owner fails to remove graffiti within the time specified in the order, the Director of the Building Inspection Division may cause the graffiti to be removed. (Am. by ORD-08-00109, 10-7-08)
   b. Special Charge for Services:
      i. The Director of the Building Inspection Division shall keep an accurate account of the expenses incurred by the

City in removing the graffiti from the property and report the same to the Finance Director. (Am. by ORD-08-00109, 10-7-08)

ii. The Finance Director shall annually prepare a statement of the expenses so incurred on each lot or parcel of land in removing graffiti from the property and report the same to the City Clerk.

iii. The City Clerk shall enter in the tax roll as a special charge against said lot or parcel of land the amount charged to each lot or parcel of land for the removal of graffiti, and the same shall be collected in all respects like other special charges upon real estate under Sec.4.09, MGO.

(Am. by ORD-11-00037, 3-8-11)

3. Prosecution for failure to remove graffiti under this ordinance shall not bar the City from charging owners for graffiti removal, nor shall charging owners for graffiti removal bar prosecution.

(Am. by Ord. 11,680, 10-14-96; ORD-08-00069, 7-04-08)

(w) Smoke Alarms. Smoke alarms shall be installed and maintained in accordance with Sec. 34.907, MGO and with Wis. Admin. Code ch. SPS 362, Wis. Admin. Code § SPS 321.09 and Wis. Admin. Code § SPS 328.02 which are hereby incorporated by reference. (Cr. by Ord. 11,220, 3-31-95; Am. by Ord. 12,349, 3-30-99; Ord. 13,124, 8-28-02; ORD-09-00041, 3-19-09; ORD-10-00083, 9-15-10; ORD-12-00035, 3-28-12)

(x) Private and Building Storm Sewers. Every private storm sewer and building storm sewer shall be properly installed and maintained in good working condition, free from defects, leaks and obstructions. Any person who violates this subsection shall be subject to a forfeiture of not less than twenty-five dollars ($25) nor more than two hundred dollars ($200) per day for each and every violation; each day of violation shall constitute a separate offense. (Cr. by Ord. 11,807, 3-14-97)

(y) Raingutters, downspouts, including extensions, and the discharge systems for sump pumps shall be maintained free of damage, deterioration, or defects and shall be maintained to minimize the effect of runoff onto adjacent properties. (Cr. by Ord. 12,658, 8-10-00; Am. by Ord. 12,688, 10-9-00)

(z) One hundred eighty (180) days from the effective date of this amendment all residential buildings containing two or more dwelling units and/or lodging rooms where the main entrance door for the dwelling units and lodging rooms are accessed from a common area, shall be equipped with doorbells, intercoms or an effective buzzer system capable of alerting the occupants of specific dwelling units of requests for access to the building that pertain to their individual units. (Cr. by Ord. 13,757, 1-5-05)

(aa) Mail Receptacles. The owner of any rental dwelling unit must provide, and maintain in proper working condition, a mail receptacle that meets federal postal requirements for the rental dwelling unit. (Cr. by ORD-08-00009, 1-24-08)

(bb) Vision Clearance at Intersection Corners.

1. In order to provide a clear view at intersections for all users of the public and private traveled way a triangular area within each intersection corner shall be kept free of obstruction.

a. At the intersection of two (2) streets abutting a corner lot, the vision clearance triangle shall be formed by the two (2) intersecting street property lines or their projections and a line joining points on such property lines located a minimum of twenty-five (25) feet

from the intersection of the two street property lines. At curved intersections, the intersection point shall be established by linear extension of the property lines.

b. At the intersection of a street with a private road, driveway, or alley, the vision clearance triangles shall be formed by the street property line and edge of private road, driveway, or alley and a line joining points on such lines located a minimum of ten (10) feet from the intersection of the street property line and the edge of private road, driveway or alley.

c. At the intersection of a street with a path or sidewalk, the vision clearance triangles shall be formed by the street property line and edge of the path or sidewalk and a line joining points on such lines located a minimum of twenty-five (25) feet from the intersection of the street property line and the edge of path or sidewalk.

2. At a railroad crossing, the vision clearance triangles shall be bounded on sides by the railway and the street and on the third side by a line connecting points on the centerlines of the railway and the highway, three hundred thirty (330) feet from the intersection of said center lines. Within a railroad crossing vision clearance triangle, all brush shall be cut and all trees shall be adequately trimmed in compliance with Wis. Stat. § 195.29(6).

3. Within any vision clearance triangle, other than at a railroad crossing, screening, planting, fences or other obstructions are not permitted between a height of thirty (30) inches and ten (10) feet above the curb level or its equivalent, with the exception of fences a maximum of three (3) feet in height and at least fifty percent (50%) open to vision.

4. Dimensions of the vision clearance triangle may be reduced based on the recommendation of the Traffic Engineering Division.

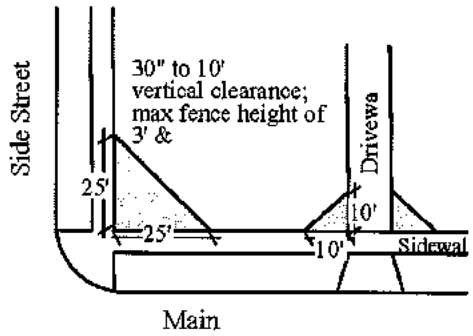

Figure 27-1: Vision Clearance Triangles for Street and Driveway

(Sec. 27.05(2)(bb) Cr. by ORD-13-00065, 4-24-13)

(3) Public Nuisances to Be Abated.

(a) No person may maintain or permit a public nuisance within the City.

(b) The Common Council determines that the following conditions constitute a public nuisance, in that such conditions may result in injury to persons or property, and may unlawfully and substantially interfere with public use and enjoyment of streets, sidewalks and other public space:

1. Tree branches or shrubs which extend into the space over a public sidewalk so as to interfere with use of the sidewalk by the public. Tree branches or

shrubs interfere with public use of the sidewalk if they extend into the space directly above the sidewalk at a height of less than seven (7) feet above the surface of the sidewalk.

2. Tree branches which extend over street right of way at a height of less than twelve (12) feet above the surface of streets classified as arterial streets or bus routes.

3. Trees, branches, or parts thereof which are broken, diseased, weakened or dead, and which are in a position in which, if they were to fall, could fall upon the sidewalk or public right of way or could cause injury to a person or damage to property.

4. Accumulations of debris, rubbish or garbage, waste building materials which constitute a hazard, rodent harborage or infestation and accumulations of animal feces.

(c) Responsibility for Enforcement; Inspections.

1. It shall be the duty of the City Forester to make or cause to be made periodic inspections or inspections upon complaint of nuisances defined in subdivision (b)1.-3. above, when they exist in or upon any public street, alley, park, other City property or other public place, including the terrace strip between curb and lot line, within the City of Madison.

2. It shall be the duty of the Director of Building Inspection to make or cause to be made periodic inspections or inspections upon complaint of nuisances defined in subdivision (b)4. above. (Am. by ORD-08-00109, 10-7-08)

3. If the City Forester or employees or agents working under her/his direction, determine that a nuisance defined under subdivision (b)1.-3. exists in or upon private premises, the City Forester shall notify the Director of Building Inspection. The Director of Building Inspection may proceed as provided in subdivisions (d) and (e) of this subsection. (Am. by ORD-08-00109, 10-7-08)

(d) Summary Abatement.

1. Order of Abatement. If the Director of Building Inspection determines that a public nuisance exists within the City and that there is imminent danger to the public health, safety, peace, comfort or welfare, s/he may, without notice or hearing, issue an order reciting the existence of a public nuisance constituting imminent danger to the public and requiring immediate action be taken as s/he deems necessary to abate the nuisance. Notwithstanding any other provisions of this subsection, the order shall be effective immediately. Any person to whom such order is directed shall comply with the order immediately.

2. Abatement by the City. Whenever the owner or occupant shall refuse or neglect to remove or abate the condition described in the order, the Director of Building Inspection shall, in her/his discretion, enter upon the premises and cause the nuisance to be removed or abated and the City shall recover the expenses incurred thereby from the owner or occupant of the premises or from the person who has caused or permitted the nuisance.

(Am. by ORD-08-00109, 10-7-08)

(e) Nonsummary Abatement.

1. Order to Abate Nuisance. If the Director of Building Inspection determines that a public nuisance exists on private premises but that the nature of such nuisance is not such as to threaten imminent danger to the public health, safety, peace, comfort or welfare, s/he shall issue an order reciting the existence of a public nuisance and requiring the owner or occupant of the premises to remove or abate the condition described in the order within the time period specified therein. The order shall be served personally on the

owner of the property, as well as the occupant if different from the owner and applicable to the described nuisance, or, at the option of the Director of Building Inspection, the notice may be mailed to the last known address of the person to be served by registered mail with return receipt. If the owner or the occupant cannot be served, the order may be served by posting it on the main entrance of the premises and by publishing as a class 3 notice under W.S.A. Chapter 985. The time limit specified in the order runs from the date of service or publication.

2. Abatement by the City. If the owner or occupant fails or refuses to comply within the time period prescribed, the Director of Building Inspection may enter upon the premises and cause the nuisance to be removed or abated and the City shall recover the expenses incurred thereby from the owner or occupant of the premises or from the person who has caused or permitted the nuisance.

3. Remedy from Order. The Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals, created by Sec. 29.18 of these ordinances, shall have no authority to act on orders issued under this subsection. Any person affected by orders issued under this subsection shall, within thirty (30) days of service or publication of the order, apply to the circuit court for an order restraining the City and the Director of Building Inspection from entering on the premises and abating or removing the nuisance, or be forever barred. The court shall determine the reasonableness of the order for abatement of the nuisance. (Am. by ORD-09-00019, 3-14-09)

(Am. by ORD-08-00109, 10-7-08)

(f) Authority to Assess Costs. The cost of abatement or removal of a nuisance under this section shall be collected from the owner, occupant or person causing, permitting or maintaining the nuisance and, if notice to abate the nuisance, if applicable, has been given to the owner, such cost shall be assessed against the real estate as a special charge.

(g) Abatement in Accordance with State Law. Nothing in this article shall be construed as prohibiting the abatement of public nuisances by the City or its officials in accordance with the laws of the state.

(h) Severability. The provisions of any part of this section are severable. If any provision or subsection hereof or the application thereof to any person or circumstances is held invalid, the other provisions, subsections and applications of such ordinance to other persons or circumstances shall not be affected thereby. It is declared to be the intent of this section that the same would have been adopted had such invalid provisions, if any, not been included herein.

(Sec. 27.05(3) Cr. by Ord. 11,678, 10-14-96)

27.051 ENERGY CODE FOR RESIDENTIAL RENTAL PROPERTIES.

(1) Definitions. The definitions which follow are only applicable to this section of the ordinances. The definitions contained in Sec. 27.03(2) are fully incorporated herein except to the extent to which they may conflict with the following definitions. Further, the definitions contained in Wis. Stat. § SPS 367.04 are also incorporated herein and for the purposes of this section, prevail over those contained in Sec. 27.03(2) of these ordinances to the extent that there may be a conflict. Definitions specifically listed below prevail over any others found in any other source. (Am. by Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

Authorized Energy Audit Report. An authorized energy audit report shall mean a listing of those deficiencies which, if remedied, would be sufficient to result in an "Energy Code Compliance Certificate". This shall be in an approved form issued by an agent or agency approved by the Director of the Department of Planning and Community and

Economic Development or his or her designee. This report shall not be deemed to reflect compliance with this code, but rather shall be a report concerning the status of a building's energy efficiency regardless of its degree of compliance with this code.

Building Envelope. Building envelope shall mean the elements of a building which enclose heated or air-conditioned spaces through which thermal energy may be transferred to or from the exterior.

Energy Code Compliance Certificate. A form approved and signed by the Director of the Department of Planning and Community and Economic Development or his/her designee, which certifies the building's compliance with Secs. 27.04(2)(f), 27.05(2)(g)2., 27.05(2)(h) and 27.051, regarding insulation and weatherization.

Heated Spaces. Heated spaces shall mean enclosed parts of the structure to which heat is required to be supplied and if not required, to which heat is supplied directly via ducts, pipes, or radiators or which are normally open to other parts of the structure to which heat is supplied directly via ducts, pipes or radiators, or which contain heating units.

Insulation. Insulation shall mean any approved material or combination of materials used to reduce heat loss.

Living Space. Living space shall mean all heated spaces excluding mechanical rooms and basement areas not containing rental living units.

Rental Living Unit. A rental living unit shall mean a dwelling unit as defined in Sec. 27.03(2) or a lodging room as defined in Sec. 27.03(2) which is leased by the owner or his or her agent to another person or persons but shall not include hotels, hospitals, motels, dormitories, sanitariums, correctional institutions, nursing homes or schools and other buildings primarily used for educational purposes.

Ring Joist. Ring joist shall mean that portion of the building envelope between the top of the foundation wall and the sub-floor immediately above, or the perimeter of the floor joists between any two floors. Also known as: box sill, band joist, rim joist and band board.

(2) Energy Efficiency Standards For Buildings Containing Rental Living Units. Effective August 15, 1983, all heated rental living units whether occupied or not shall meet energy efficiency standards specified in Wis. Admin. Code § SPS 367.05 unless exempted under the provisions contained Wis. Admin. Code § SPS 367.06 or unless more stringent standards are specified in Sec. 27.051(4) below. Any reference in these Wisconsin Administrative Code sections to the term "department" shall mean the Department of Planning and Community and Economic Development of the City of Madison. Requests for exemptions based upon cost payback as specified in Wis. Admin. Code § SPS 367.06, shall be submitted in writing to the Director of the Building Inspection Division within thirty (30) days of the date of postmark on the Official Notice envelope and must include specific information on cost payback calculations used to arrive at the asserted basis for an exemption. (Am. by Ord. 8081, 7-29-83; Ord. 13,124, 8-28-02; ORD-08-00109, 10-7-08; ORD-12-00035, 3-28-12)

(3) Energy Code Compliance Disclosure.

(a) Effective August 15, 1983, an owner or agent shall provide a tenant or prospective tenant, upon request, a completed authorized energy audit report for the building if one has been completed.

(b) When the Director of the Department of Planning and Community and Economic Development or his/her designee determines through an inspection that a building complies with the energy efficiency requirements of Secs. 27.04(2)(f), 27.05(2)(g)2., 27.05(2)(h) and 27.051, of the Madison General Ordinances, he/she shall issue an Energy Code Compliance Certificate to the owner and shall keep a record thereof.

(4) Items To Be Enforced Over Wisconsin Administrative Code. In addition to enforcing the Wisconsin Administrative Code by reference, the following items shall be enforced. In case

of conflict between this Sec. 27.051(4) and the Wisconsin Administrative Code sections adopted by reference, this Sec. 27.051(4) shall prevail unless the conflicting provisions of the Wisconsin Administrative Code are mandatory.

(a) The following items may not be exempted pursuant to Wis. Admin. Code § SPS 367.06 because cost payback exceeds five (5) years:

1. Insulation requirements for ceilings, box sills, side walls, framed floors over accessible unheated spaces which are not basements, heating ducts in unheated spaces and unheated basements, and access doors or panels to attics or unheated areas as specified in Wis. Admin. Code § SPS 367.05(1).
2. Weatherstripping and caulking requirements as specified in Wis. Admin. Code §§ SPS 367.05(3) and (4).
3. Double glazing and storm window requirements as specified in Wis. Admin. Code § SPS 367.05(2) for rectangular windows in excess of five (5) square feet in area which are not metal casement, hopper, awning or any type of basement or ornamental window.

(Am. by Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(b) The joist spaces between any ceiling and any attic floor shall be considered accessible and said spaces shall be insulated to meet the R-value as specified in Wis. Admin. Code § SPS 367.05(1). (Am. by Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(Sec. 27.051 Am. by Ord. 8004, 4-26-83; Ord. 13,124, 8-28-02)

27.06 QUANTITY, LOCATION AND USE OF SPACE IN RESIDENTIAL BUILDINGS.

(1) The purpose of this section is to establish minimum standards for the quantity, location and use of space in residential building units so as to preserve and promote the public interest. A suitable environment for safe, healthy, and desirable living can be enhanced by providing adequate space and privacy for occupants of all residential buildings.

(2) Size of Dwellings and Rooms.

(a) Every detached single-family dwelling other than a mobile home shall have at least five hundred (500) square feet of floor area on the first floor level.

(b) Size of Rooms.

1. Apartments. The floor area of an apartment shall provide not less than one hundred fifty (150) square feet of floor area for the first occupant and at least one hundred (100) additional square feet of floor area for each additional occupant.
2. Lodging Rooms. The floor area of a lodging room shall provide not less than eighty (80) square feet of floor area for one (1) occupant and sixty (60) square feet for each additional occupant.

(c) The space used as a laundry, workshop, furnace room, bathroom, storage room, closets, and common halls shall not be included as part of the space required in Subsection (2)(a) and (b) of Section 27.06 of the Madison General Ordinances.

(d) Access to all lodging and sleeping rooms shall be from a common hallway and not through bathrooms or other lodging and sleeping rooms.

(e) In any apartment or dwelling, containing two sleeping rooms or larger than three (3) rooms in size, access shall be provided to required bathroom facilities without the necessity of passing through a sleeping room. (Cr. by Ord. 10,192, 1-31-91)

(3) In all dwelling units the average ceiling height shall be not less than specified in Wis. Admin. Code § SPS 321.06. (Am. by Ord. 9326, 11-13-87; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(4) No habitable room, kitchen or bathroom shall have its floor level below the alley, court, yard, or street grade immediately adjoining and abutting upon said habitable rooms except when meeting the requirements of Wis. Adm. Code ch. SPS 362 or chs. SPS 320-325, as

appropriate, unless said room or rooms have been previously approved by the Building Inspection Division prior to May 17, 1983. (Am. by Ord. 12,349, 3-30-99; Ord. 13,124, 8-28-02; ORD-08-00109, 10-7-08)

27.07 FIXING THE RESPONSIBILITY OF OWNERS, OPERATORS, AND OCCUPANTS. (Title Am. by Ord. 7687, 4-2-82)

(1) The purpose of this subsection is to fix the responsibility of owners, operators, and occupants of residential buildings. (Am. by Ord. 7687, 4-2-82)

(2) The responsibility of owners, operators and occupants of residential buildings is as follows:

(a) Every owner of a residential building containing two (2) or more dwelling units shall be responsible for maintaining in a clean, proper and sanitary condition the shared or public areas of the residential building and premises thereof.

(b) Every occupant of a residential building shall keep in a clean, proper, and sanitary condition that part of the residential building and premises thereof which s/he occupies and controls except the operator of every lodging house shall be responsible for the sanitary maintenance of all walls, floors, ceilings and every other part of the lodging house. Every occupant of a residential building shall dispose of all her/his refuse and garbage in the containers required by the Madison General Ordinances.

(c) Every owner of a residential building shall be responsible for hanging, installation, and maintenance of all screens and double or storm doors and windows whenever the same are required under the provisions of the Madison General Ordinances.

(d) Every occupant of a single-family dwelling shall be responsible for the extermination of any pests, vermin or rodents therein with the following exceptions: when the owner or operator has failed to clean the dwelling prior to occupancy or when the owner or operator is out of compliance with Madison General Ordinances Sec. 27.05(2)(g)2., extermination shall be the responsibility of the owner. Whenever infestation exists in any residential dwelling other than a single-family dwelling, extermination shall be the responsibility of the owner. (Am. by Ord. 10,627, 4-16-93 & 4-21-93)

(e) Every occupant of a dwelling unit shall keep all plumbing fixtures therein in a clean and sanitary condition and shall be responsible for the exercise of reasonable care in the proper use and operation thereof.

(f) No person shall occupy or let to another for occupancy any space in a residential building unless it is clean, sanitary, fit for human occupancy, complies with the requirements of the Building Code (Chapter 29) and the Zoning Code (Chapter 28) and the occupancy is limited to the maximum permitted by said Codes. (Am. by Ord. 12,134, 6-1-98)

(g) Every owner of a lodging house shall make available to the occupants the names of two (2) or more persons that may be called to arrange for emergency work. The names with the telephone numbers shall be posted in a conspicuous place readily accessible to the occupants. The names with the telephone numbers shall be revised periodically to maintain accurate information at all times. (Am. by Ord. 5438, 3-30-76)

(h) The operator of every lodging house shall change supplied linen and towels therein at least once each week, and prior to the letting of any room to any occupant. The operator shall be responsible for the maintenance of all supplied bedding in a clean and sanitary condition.

(i) (Renumbered to Sec. 32.05 by Ord. 6036, 11-16-77)

(3) (R. by Ord. 7687, 4-2-82)

27.08 DESIGNATION OF UNFIT BUILDINGS OR STRUCTURES AND LEGAL PROCEDURES OF REPAIR OR RAZING.

(1) The purpose of this section is to provide for the designation and repair or razing of those buildings or structures which are so dilapidated, unsafe, dangerous, unhygienic, inadequately maintained or lacking in basic equipment, facilities, light, ventilation, and heating so as to constitute a menace to the occupants or public.

(2) Any building or structure which shall be found to have any of the following defects may be designated as unfit for human habitation and in need of repairs or razing and so placarded by an authorized inspector. Legal notice shall be served upon the owner and on the operator of any building:

(a) Which is so damaged, decayed, dilapidated, dangerous, unsanitary, unsafe, or vermin infested that it creates a serious hazard to the health or safety of the occupants or of the public.

(b) Which lacks illumination, ventilation, heating, basic equipment or sanitary facilities adequate to protect the health, safety, or general welfare of the occupants or of the public.

(c) Which because of its general condition, location, or appearance is a blighting influence or causes decreasing physical or monetary value of property in the neighborhood.

(3) Any building or structure or part thereof designated and placarded by the inspector as unfit for human habitation and in need of repairs or razing shall be vacated within a reasonable time as ordered by the inspector.

(4) No building or structure or part thereof which has been designated and placarded as unfit for human habitation and in need of repairs or razing shall again be used for human habitation until written approval is secured from, and such placard is removed by, the inspector. The inspector shall remove such placard whenever the defect or defects upon which the designation and placarding action were based have been eliminated.

(5) No person shall deface or remove the placard from any building or structure or part thereof which has been condemned as unfit for human habitation and placarded as such.

(6) Any building or structure or part thereof designated as unfit for human habitation and in need of repairs or razing by the inspector, which in the opinion of the inspector, would be unreasonable to repair shall be razed or removed upon legal written service of the order of the inspector. If the owner shall fail or refuse to comply with the order, the inspector shall cause such building to be razed or removed under the procedures provided for unsafe buildings in the City Building Code (Chapter 29).

27.085 VACANT AND DAMAGED BUILDINGS.

(1) Definitions. For the purposes of this section, the following definitions shall apply.

"Unsecured" means there exists an opening into a building through which a person or animal may enter that is not maintained by the owner, operator or legal occupant in a manner that controls access thereto.

"Vacant" means that there are no readily observable indications that anyone with legal justification is actively residing at the property.

(2) Vacant Buildings.

(a) Requirement to Secure Vacant Buildings. Any building which is vacant and unsecured for any reason constitutes a public nuisance. No person may maintain or permit a public nuisance within the City. The owner or operator shall abate the nuisance by securing the building, including any shed or outbuilding, against entry by persons or animals. This may include, with prior written approval of the Director of the Building Inspection Division, adequately boarding up doors, windows and other openings in a workmanlike manner so as to prevent entry, vandalism or damage. Trespassers, garbage, animals, animal nests and animal nesting materials shall be removed prior to securing the building.

(b) Other Requirements of the Owner or Operator of a Vacant Building. The owner or operator of a vacant building shall ensure that the following requirements are met with respect to the vacant building:

1. The utilities, plumbing, electrical and heating systems shall be maintained at all times in a safe condition, inactivated or drained so as to prevent the possibility of damage to the structure by the failure of such utilities and so as to prevent hazardous and dangerous conditions.
2. At least one door boarded at the grade level shall be maintained with locks and hinges to permit entry for inspection purposes.
3. Access to the building for inspection purposes is required to be provided to the Director of the Building Inspection Division.
4. Screening or alternate methods of boarding may be permitted upon prior written approval by the Director of the Building Inspection Division, or designee.
5. The Director of Building Inspection shall be notified in writing no later than ten (10) days prior to the sale, transfer or possession, or the unboarding of the property. (Am. by ORD-08-00109, 10-7-08)

(3) Damaged Buildings. When any building has been damaged by fire or other cause,hazardous or dangerous conditions exist, and the building cannot be secured by conventional locking or boarding up of windows and doors, such building shall be fenced off so as to prevent access and entry to the structure and the area immediately surrounding the structure.

(4) Abatement. The provisions of Section 27.05(3)(d) and (e) of these ordinances apply to the abatement of nuisances under this subsection.

(a) Authority to Assess Costs. The cost of abatement or removal of a nuisance under this section shall be collected from the owner, occupant or person causing, permitting or maintaining the nuisance and, if notice to abate the nuisance, if applicable, has been given to the owner, such cost shall be assessed against the real estate as a special charge.

(b) Abatement in Accordance with State Law. Nothing in this article shall be construed as prohibiting the abatement of public nuisances by the City or its officials and employees in accordance with the laws of the state.

(Sec. 27.08(7) Am. by Ord. 11,679, 10-14-96; Sec. 27.085 Created, Sec. 27.08(7) Renum. to 27.085(2) and Am. by ORD-09-00042, 3-19-09)

27.09 ADMINISTRATION AND ENFORCEMENT.

(1) The purpose of this section is to provide for the administration and enforcement of this ordinance.

(2) The office of the Building Inspection Division of the Department of Planning and Community and Economic Development is hereby created to enforce this ordinance. The Director of the Building Inspection Division shall be under the supervision of the Director of Planning and Community and Economic Development. For purposes of enforcement of this ordinance, he/she shall have the same powers as the officer referred to in the Statutes as Building Inspector. (Am. by Ord. 8081, 7-29-83; (Am. by ORD-08-00109, 10-7-08)

(3) The duties of the Director of the Building Inspection Division shall be as follows:

(a) Provide and maintain a public information bureau relative to all matters arising out of this ordinance.

(b) Maintain permanent and current records of all matters arising out of this ordinance.

(c) Conduct a systematic inspection of buildings, structures, and lands to determine compliance with the terms of this ordinance, all state laws, City ordinances and lawful orders relating to the alteration, repair, maintenance, safety and use of

existing buildings and permanent building equipment and take such action as necessary to secure such compliance, including: the withholding of building permits, imposition of forfeitures and injunctive action. They shall have full power to pass upon any question arising under the provisions of the housing, building, plumbing, electrical and heating codes and zoning ordinances, subject to conditions contained herein. (Am. by Ord. 9640, 12-14-88)

(d) Initiate, direct, and review from time to time a study of the provisions of this ordinance and make recommendations to the Mayor and Common Council not less frequently than once a year on such matters that will improve this code or its systematic enforcement.

(e) Coordinate such inspection and code compliance programs with inspection or improvement programs of other neighborhood groups whose purpose is neighborhood improvement.

(Am. by ORD-08-00109, 10-7-08)

(4) The inspectors provided for in this ordinance shall have the same power and authority as is set forth in Sec. 29.15(3).

(5) (a) Any person who shall fail or neglect to comply with any lawful order of the Director of the Building Inspection Division issued pursuant to the provisions of this chapter may be assessed seventy-five dollars ($75) per compliance inspection that does not result in compliance with the order. A thirty-five dollar ($35) charge may be assessed when an inspector fails to gain entry to carry out a compliance inspection. (Am. by Ord. 11,783, 2-17-97; Ord. 13,126, 8-28-02; ORD-08-00054, 5-24-08; ORD-08-00109, 10-7-08; ORD-11-00057, 4-7-11)

(b) The Department of Planning and Community and Economic Development shall keep an accurate account of all unpaid inspection fees incurred for compliance inspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Sec. 66.0627 of the Wisconsin Statutes. (Am. by Ord. 13,126, 8-28-02; ORD-11-00037, 3-8-11)

(Am. by Ord. 10,639, 4-30-93)

(6) All appeals under Chapter 27 are governed by Section 29.18 of these ordinances. (Cr. by Ord. 11,611, Adopted 5-21-96)

27.10 MAINTENANCE OF ABANDONED RESIDENTIAL PROPERTIES PENDING FORECLOSURE.

(1) Purpose and Scope. The purpose of this section is to establish an abandoned residential property registration program and to regulate the maintenance of abandoned residential properties by parties asserting a collateral or other legal or equitable interest in the property. This section is intended to reduce and prevent neighborhood blight, to ameliorate conditions that threaten the health, safety and welfare of the public, to promote neighborhood stability and residential owner occupancy by preserving the condition and appearance of residential properties, and to maintain residential property values and assessments.

(2) Definitions.

"Abandoned property" or "abandoned premises" means a property that is vacant as the result of the relinquishment of possession or control by a mortgagor or the mortgagor's assigns whether or not the mortgagor or mortgagor's assigns have relinquished equity and title. If there is no direct knowledge of abandonment by the bank, lender or financial institution, property may be deemed abandoned when there is evidence of conditions, taken separately or as a whole, that would lead a reasonable person to conclude

that the property was abandoned including, but not limited to, evidence of overgrown or dead vegetation, accumulation of newspapers, circulars, flyers or mail, past due utility notices, accumulation of junk, litter, trash or debris, absence of window treatments such as blinds, curtains or shutters, absence of furnishings and personal items, and statements by neighbors, delivery agents or similarly situated persons that the property is vacant.

"Accessible Structure" means a building or structure that is accessible through a compromised door, wall, window or similar structure and which is unsecured in a manner that allows access to interior space by unauthorized persons.

"Agent" means a person, firm or other entity that is responsible to a bank, lender, other financial institution or individual, for securing, maintaining, foreclosing upon or selling any residential property as the result of loan default or mortgage foreclosure proceedings whether or not the proceedings are judicial or initiated as the result of a power of sale clause in the mortgage document. In this section, agent does not include a servicing company. Except, however, an attorney shall not be deemed to be an agent if that attorney is retained solely to represent a bank, lender or other financial institution in connection with a foreclosure proceeding in a court of competent jurisdiction.

"Financial institution" means any individual, firm, corporation or entity other than a lender or duly constituted bank that asserts a collateral interest in residential real property as the result of an assignment, sale or transfer of a mortgage or similar instrument.

"Foreclosure" means the judicial process prescribed by Wis. Stat. ch. 846 and the process for non-judicial sale authorized by a power of sale clause in a mortgage document.

"Mortgage" means a written instrument creating a lien on real property whereby the mortgagor retains the interest that the mortgagor had at the time of mortgage until that interest is divested by some later act.

"Occupied property" or "occupied premises" means a premises on which any person over one year of age, including an owner or operator, lives, sleeps, cooks or otherwise maintains actual possession.

"Property" means any unimproved or improved real property or portion thereof, situated in the City and includes the buildings or structures located on the property regardless of condition.

"Registrant" means the person or entity required to register a property under sub. (4) of this ordinance.

"Residential" means any property or portion thereof, situated in the City, designed or permitted to be used for dwelling purposes, and shall include all buildings and structures located on such property. This includes any real property being offered for sale, trade, transfer, or exchange as "residential" whether or not it is legally permitted and/or zoned for such use.

"Servicing company" means an individual, firm or entity that, as a regular part of its business, provides services to the owner or holder of one or more mortgage liens which services may include collection of payments, creation and administration of escrow and insurance accounts, assessment of late-payment charges, managing loss mitigation, and securing and managing foreclosed properties on behalf of the holder of a mortgage lien or the holder's attorney or agent.

"Vacant premises" means a building that is not lawfully occupied.

(3) Inspection of Residential Property.

(a) Initial Inspection. Whenever a bank, lender or other financial institution shall, directly or through an agent or servicing company, initiate foreclosure proceedings by filing a summons and complaint in Dane County Circuit Court upon residential real property, the bank, lender or other financial institution, either directly or through its agent or servicing company, shall cause a physical inspection to be made of the property not later than thirty (30) days from the date of notice and in no event later than thirty (30) days after the filing of the summons

and complaint. One or more photographs shall be taken of the residential property accurately portraying the condition of the exterior premises. Photographs shall be dated and preserved.

(b) Periodic Inspections. Any bank, lender or financial institution, or its agent or servicing company, shall perform a re-inspection of a residential premises subject to foreclosure proceedings at least once every thirty (30) days following the initial inspection until such time as the property is no longer in default as a result of agreement with the owner, or is sold at a sheriff's sale or is otherwise lawfully conveyed to a new owner. One or more photographs shall be taken at each re-inspection and shall be dated and preserved in the same manner as is required upon initial inspection.

(4) Registration of Abandoned Residential Property.

(a) If, upon inspection of residential property required by sub. (3), it is determined that the property is abandoned, the bank, lender, other financial institution or its responsible agent or servicing company, shall register the property in the name of the lien holder with the Building Inspection Division of the Department of Planning and Community and Economic Development ("Building Inspection Division) on a form prescribed by the Building Inspection Division that includes, but is not limited to:

1. Information identifying the location of the property, the last known owner or owners of the property, last known contact information for owners including address(es), phone number(s) and/or email address(es)
2. The date foreclosure proceedings were commenced and the docket number of the foreclosure action, a description of the external condition of the property and whether there is an accessible structure on the property.
3. Name of bank, lender or financial institution (corporation or individual); the street/office address (not a post office box) and if different, the mailing address; a direct contact name and phone number for the person handling the foreclosure; and if applicable, the name, address and phone number of a local property manager responsible for the security and maintenance of the property.
4. Identification of the agent or servicing company, if any, that is authorized by the lien holder to enter upon the property and to conduct repairs or maintenance as required in sub. (5)(a).

(b) Registration of abandoned property shall be made within five (5) working days of inspection. The fee for registration of abandoned residential property is $250. If it should appear that the registration is filed six (6) or more days after the inspection, a late fee of fifty dollars ($50) shall be charged. The registration form and fee may be transmitted electronically or by any other means to be determined by the Building Inspection Division. The registration shall be valid from the date the registration form is completed and filed with the Building Inspection Division if the registration fee is received by the Building Inspection Division within seven (7) days of receipt of the registration form. If the registration fee is not received within seven (7) days of receipt of the registration form, a late fee of fifty dollars ($50) shall be charged.

(c) The registration will be dissolved and considered void upon receipt by the Building Inspection Division of written evidence of a sale in foreclosure, redemption of the property by the lien holder or other transfer of the lien holder's interest. The Building Inspection Division may, in appropriate circumstances, provide for conversion of the registration required in this subsection to a registration of residential property as provided in Sec. 27.05(2)(k),MGO.

(d) Any person, firm or corporation required to register a property pursuant to this section must report any change of information contained in the registration within ten (10) days of the change.

(5) Registrant Duties.

(a) The property maintenance duties of a registrant are limited to the following:

1. Secure the property in a manner to prevent access by unauthorized persons, including but not limited to the following; the closure and locking of windows, doors (walk-through, sliding and garage), gates and any other opening of such size that it may allow a child to access the interior of the property and or structure(s). In the case of broken windows, securing means the replacement or boarding of the window.
2. Assure that there are no conditions upon the property presenting an immediate risk to health and safety of the public including removing or abating fire hazards, removing or containing potentially toxic materials and explosives, securing the perimeters of swimming pools, eutrophic water, and maintaining public walkways and thoroughfares free from ice, snow, mud and other debris consistent with the requirements of Chapter 27, Minimum Housing Code.
3. Keeping the property free of graffiti, tagging or similar markings by removal or painting over with an exterior grade paint that matches the color of the exterior of the structure.
4. All yards shall be landscaped and maintained in accordance with Chapter 27, Minimum Housing Code.

(b) A registrant shall include a statement in the registration form identifying any action taken or planned to be taken to comply with the requirements of par. a. From and after registration of the abandoned residential property, or from and after the time that registration is required to be made, and until the abandoned residential property has been sold at a sheriff's foreclosure sale or has otherwise been legally conveyed to a new owner, the Building Inspection Division may make a finding that the conditions of the residential premises constitute an immediate threat to the health, safety and welfare of the public and, upon such finding, may issue a written order to the registrant to abate the condition. If the registrant, or party with a duty to register, fails to comply with the order of the Building Inspection Division within ten (10) days unless the violation is subject to the summary abatement process, the registrant, or party with a duty to register, shall be held liable and punished in the same manner and to the same extent as the owner of the property if the unabated condition is found to be in violation of the following:

1. Sec. 10.28, MGO, Snow and Ice Removal from Sidewalks.
2. Sec. 27.05, MGO, Maintenance of Premises.
3. Sec. 27.05(2)(b), MGO, Noxious Weeds.
4. Sec. 27.05(2)(c), MGO, Exterior property areas shall be free from physical hazards.
5. Secs. 27.05(2)(c) and 27.05(3)(b)4., MGO, Littering of Premises.
6. Sec. 27.05(2)(j), MGO, Plumbing Fixtures and Waste Pipes.
7. Sec. 27.05(2)(v), MGO. Graffiti Abatement.
8. Secs. 27.05(3)(b)4. and 27.05(2)(c), MGO, Rodent Harborages.
9. Sec. 27.085, MGO, Vacant Structures; Securing.
10. Sec 28.141(10)(d), MGO. Inoperable Vehicles.

(c) The minimum requirements of a registrant, or party with a duty to register, for preservation and protection of residential premises, absent a specific order of the Building Inspection Division to abate a condition of the premises, shall be consistent with the rules, regulations and other requirements published by the

Federal Housing Administration (FHA) of the United States Department of Housing and Urban Development for the preservation and protection of single-family residential properties secured by FHA loans as those requirements may be amended by FHA mortgagee letters or otherwise, and as applied by the FHA to the state of Wisconsin including guidelines related to winterization and heating systems. Under these guidelines, debris removal shall be deemed to include snow and ice removal, the elimination of weeds and other plant growths in Chapter 27, Minimum Housing Code. The Building Inspection Division may require a registrant, or party with a duty to register, to repay the Building Inspection Division the reasonable costs incurred by the Building Inspection Division related to abatement of conditions that are subject to FHA guidelines identified in this paragraph or which are subject to an order under par. b and threaten the health, welfare and safety of the public.

(d) A registrant shall maintain written records, including photographs, of any re-inspection required by sub. (3)(b) that identifies any change in condition of the abandoned real property requiring correction under pars. a. and b, and identifying actions taken or planned to assure compliance. Written records of re-inspection shall be made available to the Building Inspection Division upon request.

(e) A registrant, or registrant's agent or servicing company, shall provide notice to the Building Inspection Division, in a manner to be prescribed by the Building Inspection Division, within fifteen (15) working days, of any agreement executed by the lawful owner with the party or parties asserting a mortgage lien interest, curing or otherwise forgiving default of the mortgage lien, or within fifteen (15) days of a sheriff's sale in foreclosure or other sale or lawful conveyance of the abandoned residential property, and declaring that registrant is no longer responsible for inspection of the registered property or for securing or maintaining the property. Upon receipt of the notice required in this paragraph, the Building Inspection Division shall dissolve the registration.

(6) Penalties.

(a) Failure to Inspect. Any person, firm, bank, lender, financial institution or an agent or servicing company that fails its duty to inspect or re-inspect residential property under sub. (3) shall, upon conviction, forfeit not less than two hundred fifty dollars ($250) nor more than one thousand dollars ($1,000), together with the cost of the action, and in default of payment thereof may be imprisoned in the Dane County Jail not less than ten (10) days nor more than forty (40) days.

(b) Failure to Register. Any person, firm, bank, lender, financial institution or an agent or servicing company that fails its duty to register abandoned residential property under sub. (4) shall, upon conviction, forfeit not less than five hundred dollars ($500) nor more than two thousand dollars ($2,000), together with the cost of the action, and in default of payment thereof may be imprisoned in the Dane County Jail not less than twenty (20) days nor more than eighty (80) days.

(c) Failure to Secure and Maintain. Any person, firm, bank, lender, financial institution or an agent or servicing company having a duty to register abandoned residential property that fails its duty to secure and maintain the property under subs. (5)(a) and (b) shall, upon conviction, forfeit not less than three hundred fifty dollars ($350) nor more than fifteen hundred dollars ($1,500), together with the cost of the action, and in default of payment thereof may be imprisoned in the Dane County Jail not less than fourteen (14) days nor more than sixty (60) days.

(d) Failure to Maintain Records or Provide Written Notice. Any person, firm, bank, lender, financial institution or responsible agent or servicing company that fails to maintain records required in sub. (5)(d) or to provide the notices required in sub. (5)(e) shall, upon conviction, forfeit not less than one hundred dollars ($100) nor

more than five hundred dollars ($500), together with the cost of the action, and in default of payment thereof may be imprisoned in the Dane County Jail not less than four (4) days nor more than twenty (20) days.

(Sec. 27.10 Cr. by ORD-13-00108, 6-12-13)

27.101 RESERVED FOR FUTURE USE. ("Meetings" R. by Ord. 11,960, Adopted 11-4-97)

27.102 RESERVED FOR FUTURE USE. (R. by Ord. 10,356, 1-23-92)

27.11 PENALTIES. Any person who violates any provision of this ordinance or fails to comply with any of its requirements shall, upon conviction thereof, be subject to forfeiture of not less than one dollar ($1.00) and not more than one thousand dollars ($1,000), unless there exists a specific penalty for a violation which shall be applicable, and in addition, shall pay all costs and expenses involved in the case. Each day or portion thereof such violation continues shall be considered a separate offense. (Am. by Ord. 11,807, 3-14-97; Ord 13,725, 11-9-04; Ord. 13,760, 12-14-04)

27.12 SEPARABILITY. It is hereby declared to be the intention of the Common Council of the City of Madison that the several provisions of this ordinance are separable, in accordance with the following:

(1) If any court of competent jurisdiction shall adjudge any provision of this ordinance to be invalid, such judgment shall not affect any other provision of this ordinance not specifically included in said judgment.

(2) If any court of competent jurisdiction shall adjudge invalid the application of any provision of this ordinance to a particular property, building or structure, not specifically included in said judgment.

27.13 CONFLICT OF ORDINANCE. In any case where a provision of this ordinance or of any regulation adopted pursuant thereto is found to be in conflict with a provision of any zoning, building, fire, safety, or health ordinance or any regulation of the City of Madison, the provision which established the higher standard for the promotion of the health and safety of the people shall prevail.

28.207 Penalties.

Subchapter 28O: Definitions and Rules of Construction

28.210 Rules of Construction.
28.211 Definitions.

SUBCHAPTER 28A: INTRODUCTORY PROVISIONS

28.001 TITLE.

This ordinance shall be known, cited and referred to as the Madison Zoning Code, or "this ordinance." For purposes of this Section, the phrase "this ordinance" refers to this Chapter of the Madison General Ordinances (MGO) or any condition imposed pursuant to this Chapter.

28.002 INTENT AND PURPOSE.

(1) This ordinance is adopted for the following purposes:

(a) To promote land uses and development patterns that are consistent with the city's comprehensive plan and of adopted neighborhood, corridor or special area plans.

(b) To promote and protect the public health, safety and general welfare of the City.

(c) To secure safety from fire, flooding, pollution, contamination and other dangers.

(d) To maintain and promote safe pedestrian and vehicular circulation.

(e) To minimize congestion in the public rights-of-way through the regulation of off-street parking, maneuvering, loading and signage.

(f) To ensure the provision of adequate open space for light, air, fire safety and recreation.

(g) To protect environmentally sensitive areas.

(h) To address and mitigate the effects of climate change.

(i) To remove obstacles and provide incentives for energy conservation and renewable energy.

(j) To promote and restore the conservation, protection, restoration and enhancement of historic resources.

(k) To facilitate the adequate, efficient and cost-effective provision of infrastructure and other public services and facilities.

(l) To preserve the natural scenic beauty of the City and to enhance the aesthetic desirability of the environment as well as the design of buildings.

(m) To encourage reinvestment in established urban neighborhoods while protecting their unique characteristics.
(n) To stabilize, protect, and enhance property values.
(o) To preserve productive agricultural land and provide opportunities for local food production.
(p) To encourage innovative project design in the city, including developments that incorporate mixed uses.
(q) To encourage the creation, promotion, sale, and enjoyment of art.
(r) To create a sense of place.
(s) To encourage pedestrian-oriented development.
(t) To promote the orderly development and economic vitality of the City.
(u) To provide an adequate variety of housing and commercial building types to satisfy the city's social and economic goals.

28.003 RELATIONSHIP TO COMPREHENSIVE PLAN.

The Madison Comprehensive Plan establishes the goals, objectives and strategies that serve as a basis for this zoning code. All regulations or amendments adopted pursuant to this ordinance shall be generally consistent with the Comprehensive Plan as adopted and revised or updated.

28.004 INTERPRETATION.

This ordinance applies to all land and land development within the jurisdictional limits of the City of Madison, Wisconsin.

(1) This ordinance should be interpreted as a permissive zoning ordinance, which means that the ordinance permits only those principal and accessory uses and structures that are specifically enumerated in the ordinance. In the absence of a variance or special exception, any uses or structures not specifically permitted by the ordinance are prohibited. (Cr. by ORD-16-00026, 3-9-16)
(2) In their interpretation and application, the provisions of this ordinance shall be held to be the minimum requirements for the promotion and protection of the public health, safety, morals and general welfare.
(3) Where the conditions imposed by any provision of this ordinance are either more restrictive or less restrictive than comparable conditions imposed by any other law, ordinance, statute, resolution or regulation of any kind, the regulations which are more restrictive or which impose higher standards or requirements shall prevail, unless an exception to this provision is specifically noted.
(4) This ordinance is not intended to abrogate any easement, covenant or other private agreement. However, this ordinance applies if it is more restrictive or imposes higher standards or requirements than an easement, covenant or other private agreement.
(5) Any use, building, structure, or lot that is lawfully existing at the time of the adoption of this ordinance, or any subsequent amendment(s), may be continued, subject to the provisions in Subchapter 28N, Nonconformities.
(6) A building, structure or use that was unlawful when this Chapter was adopted does not become lawful solely by reason of the adoption of this Chapter. To the extent that the unlawful building, structure or use conflicts with this Chapter, the building, structure or use remains unlawful under this Chapter.
(7) In their interpretation and application, the provisions of this ordinance shall be liberally construed in favor of the City and shall not be deemed a limitation or repeal of any other powers granted by the Wisconsin Statutes. Where a provision of this ordinance is required by a standard in Wis. Admin. Code ch. NR 116 or NR 117, and where the ordinance provision is unclear, the provision shall be interpreted in light of the chapter NR 116 or NR 117 standards in effect on the date of the adoption of this ordinance or in effect on the date of the most recent text amendment to this ordinance.

(Sec. 28.004(1) - (6) Renum. by ORD-16-00026, 3-9-16)

28.005 ZONING OF ANNEXED LAND.

(1) Pursuant to Wis. Stat. § 66.0217(8), all property annexed to the City of Madison and previously not zoned under this ordinance shall be hereby declared to be in a temporary zoning district until otherwise changed by amendment. Prior to the issuance of any permits for new construction, a permanent zoning district classification must be obtained pursuant to Sec. 28.182 of this ordinance. The following requirements also apply to annexed land:

(a) The Dane County floodplain zoning provisions in effect on the date lands are annexed to the City of Madison shall remain in effect and shall be enforced for all annexed lands until the City adopts and enforces an ordinance that meets the requirements of NR 116, Wis. Adm. Code and the National Flood Insurance Program. County floodplain provisions are incorporated by reference for the purpose of administering this subdivision and are on file in the office of the Zoning Administrator.

(b) All lands annexed to the City of Madison after May 7, 1982 that prior to annexation were subject to the Dane County Shoreland Zoning Ordinance shall be subject to the following regulations, which supersede any conflicting sections of Chapter 28, MGO:

1. No building shall be constructed closer than fifty (50) feet from the ordinary high-water mark, except as provided in par. 2.
2. Construction or placement of a principal building within the shoreland setback area established under par. 1. is allowed if all of the following apply:
   a. The principal building is constructed or placed on a lot or parcel of land that is immediately adjacent on each side to a lot or parcel of land containing a principal building.
   b. The principal building is constructed or placed within a distance equal to the average setback of the principal building on the adjacent lots or thirty-five (35) feet from the ordinary high-water mark, whichever distance is greater.
3. A person who owns shoreland property that contains vegetation is required to maintain that vegetation in a vegetative buffer zone along the entire shoreline of the property and extending thirty-five (35) feet inland from the ordinary high-water mark of the navigable water, except as provided in sub. 3.a.
   a. If the vegetation in a vegetative buffer zone contains invasive species or dead or diseased vegetation, the owner of the shoreland property may remove the vegetation, except that if the owner removes all of the vegetation in the vegetative buffer zone, the owner shall establish a vegetative buffer zone with new vegetation.
4. A person who is required to maintain or establish a vegetative buffer zone under sub. 3. may remove all of the vegetation in a part of that zone in order to establish a viewing or access corridor that is no greater than thirty (30) feet wide for every one hundred (100) feet of shoreline frontage and that extends no more than thirty-five (35) feet inland from the ordinary high-water mark.
5. For the purposes of this section, "Principal building" means the main building or structure on a single lot or parcel of land and includes any attached garage or attached porch.
6. This ordinance does not apply to lands adjacent to an artificially constructed ~~drainage ditch, pond or stormwater retention basin if the drainage ditch,~~ pond or retention basin is not hydrologically connected to a natural navigable water body.

28.006 SCOPE OF REGULATIONS.

All buildings erected hereafter, all uses of land or buildings established hereafter, all structural alteration or relocation of existing buildings occurring hereafter, and all enlargements of or additions to existing uses occurring hereafter shall be subject to all regulations of this ordinance which are applicable to the zoning districts in which such buildings, uses or land shall be located. (See Transition Rules below.)

(1) All new building sites shall meet the requirements of this ordinance unless, prior to the effective date of this ordinance a building permit was issued and is still valid; and provided construction is begun within ninety (90) days of such effective date and diligently prosecuted to completion, said building may be:
   (a) Completed in accordance with the approved plans on the basis of which the building permit has been issued, and,
   (b) May upon completion be occupied as approved in the building permit by the use for which it was originally designated.

(2) Where the Zoning Administrator has issued a zoning approval pursuant to the provisions of this ordinance, the approval shall become null and void unless work thereon is substantially underway within six (6) months of the date of issuance of such approval.

(3) The following changes to an existing use shall not require the entire site to be brought into compliance:
   (a) Adding pedestrian and/or accessibility accommodations required by building code provisions.
   (b) Providing new/additional bicycle parking.
   (c) Providing new/additional refuse enclosure areas.
   (d) Resurfacing/reconstruction, maintenance of parking facilities where there is no change to layout, circulation or entrances.
   (e) Replacing dead/undesirable, or non-functioning landscaping with new or different trees or shrubs.
   (f) Elimination of parking stall to add landscaping, when administratively approved.
   (g) Phased developments in Planned Multi-use sites.
   (h) Site changes resulting from eminent domain actions.
   (i) Storage locker (personal). (Cr. by ORD-16-00109, 12-14-16)

28.007 SEVERABILITY.

(1) In the event that any section of this ordinance shall be declared or judged by a court of competent jurisdiction to be invalid or unconstitutional, such adjudication shall in no manner affect the other sections of this ordinance, which shall be in full force and effect as if the said section or said sections were not originally a part thereof.

(2) If any court of competent jurisdiction shall adjudge invalid the application of any provision of this ordinance to a particular property, building or structure, such judgment shall not affect the application of said provision to any other property, building or structure not specifically included in said judgment.

28.008 TRANSITION RULES.

This section addresses the applicability of new substantive standards enacted by this ordinance to activities, actions, and other matters that are pending or occurring as of the effective date of this ordinance.

(1) Any application that has been filed with the Department of Planning and Community and Economic Development or Building Inspection Division and has been determined to be fully complete by the City, prior to the effective date of this ordinance, shall be regulated by the terms and conditions of the ordinances and codes that were in place at the time of filing. However, all administrative procedures and penalties shall follow those set forth by this ordinance.

(2) Except as noted otherwise, any application for a zoning map amendment that was filed, and has been determined to be fully complete by the City, prior to the effective date of this ordinance, shall continue through the process to completion pursuant to the terms and conditions of the ordinances and codes that were in place at the time of filing.

(3) Planned development districts in force at the time of adoption of this ordinance shall continue to be controlled under the standards of the existing planned development district unless rezoned by Common Council. However, processes for approving or amending adopted final development plans, plats, certified survey maps, or site plans, shall follow the procedures of this ordinance.

(4) Zoning districts, use lists and definitions applicable to previously approved documents, including rezonings, planned development districts, easements, deed restrictions and similar agreements, shall remain in force but shall be interpreted by the Zoning Administrator for consistency with the rules, definitions and other provisions of this ordinance.

(5) Any application before the Zoning Board of Appeals or any application that has been filed with the Department of Planning and Community and Economic Development or Inspections Division and is fully completed, prior to the effective date of this ordinance, shall continue the process pursuant to the terms and conditions of the ordinance that were in place at the time of filing.

28.009 REPEAL OF CONFLICTING ORDINANCES AND EFFECTIVE DATE.

All ordinances or parts of ordinances in conflict with this zoning ordinance, or inconsistent with the provisions of this chapter, are hereby repealed to the extent necessary to give this chapter full force and effect. This chapter shall become effective on the date the Zoning Map becomes effective.

SUBCHAPTER 28B: ZONING DISTRICTS AND MAP

28.021 ESTABLISHMENT OF ZONING DISTRICTS.

In order to carry out the purposes and provisions of this ordinance, the following zoning districts are hereby established:

(1) Residential Districts.*
- (a) SR-C1 Suburban Residential - Consistent District 1
- (b) SR-C2 Suburban Residential - Consistent District 2
- (c) SR-C3 Suburban Residential - Consistent District 3
- (d) SR-V1 Suburban Residential - Varied District 1
- (e) SR-V2 Suburban Residential - Varied District 2
- (f) TR-C1 Traditional Residential - Consistent District 1
- (g) TR-C2 Traditional Residential - Consistent District 2
- (h) TR-C3 Traditional Residential - Consistent District 3
- (i) TR-C4 Traditional Residential - Consistent District 4
- (j) TR-V1 Traditional Residential - Varied District 1
- (k) TR-V2 Traditional Residential - Varied District 2
- (l) TR-U1 Traditional Residential - Urban District 1
- (m) TR-U2 Traditional Residential - Urban District 2
- (n) TR-R Traditional Residential - Rustic District
- (o) TR-P Traditional Residential - Planned District

* When other Chapters of the Madison General Ordinances refer to residential districts, the Downtown Residential Districts, DR1 and DR2, shall be included.

(Am. by ORD-13-00007, 1-15-13)

(2) Mixed-Use and Commercial Districts.
- (a) LMX Limited Mixed-Use.
- (b) NMX Neighborhood Mixed-Use District
- (c) TSS Traditional Shopping Street District
- (d) MXC Mixed-Use Center District
- (e) CC-T Commercial Corridor - Transitional District
- (f) CC Commercial Center District

(3) Employment Districts.
- (a) TE Traditional Employment District
- (b) SE Suburban Employment District
- (c) SEC Suburban Employment Center District
- (d) EC Employment Campus District
- (e) IL Industrial - Limited District
- (f) IG Industrial - General District

(4) Downtown and Urban Districts.
- (a) DC Downtown Core
- (b) UOR Urban Office Residential
- (c) UMX Urban Mixed-Use
- (d) DR1 Downtown Residential 1
- (e) DR2 Downtown Residential 2

(5) Special Districts.
- (a) A Agricultural District
- (b) UA Urban Agricultural District
- (c) CN Conservancy District
- (d) PR Parks and Recreation
- (e) AP Airport District
- (f) CI Campus Institutional District
- (g) PD Planned Development District
- (h) PMHP Planned Mobile Home Park District

(6) Overlay Districts.
- (a) WP Wellhead Protection Overlay Districts
- (b) W Wetland Overlay District
- (c) TOD Transit Oriented Development Overlay District
- (d) NC Neighborhood Conservation Overlay Districts
- (e) F1 Floodway District.
- (f) F2 Flood Fringe District
- (g) F3 General Floodplain District
- (h) F4 Flood Storage District

28.022 INCORPORATION OF ZONING DISTRICT MAPS.

The location and boundaries of the zoning districts are hereby established as shown on maps entitled "Zoning District Maps" on file in the office of the Zoning Administrator, including the official Wetland Zoning Maps titled "Wisconsin Wetland Inventory Maps." The zoning district maps, together with all information shown thereon and all amendments thereto, shall be as much a part of this ordinance as if fully set forth and described herein.

(1) Location of District Boundaries.

The following rules shall apply with respect to the boundaries of the zoning districts as shown on the zoning district maps:

- (a) A boundary shown as following, or approximately following, a street, alley or railroad shall be construed as following the centerline of such feature.
- (b) A boundary line shown as following, or approximately following, a lot line, section line, survey or other property line, or municipal boundary shall be construed as following such line or boundary.
- (c) Streets or alleys which are shown on the zoning district maps and which were previously vacated, or which may be vacated in the future, shall be construed to be in the same zoning district as the lots, pieces or parcels abutting both sides of the street or alley involved. If the lots, pieces or parcels abutting each side of the street or alley were located in different zoning districts before the said street or alley was vacated, the center line of such vacated street or alley shall be the boundary line of the respective zoning districts.
- (d) Where any uncertainty exists as to the exact location of zoning district boundary lines, the Zoning Board of Appeals, upon written application, shall determine the location of such boundary lines.

(2) Wetland Maps.

- (a) The Wetland Zoning Overlay District includes all wetlands greater than two (2) acres shown on the Wisconsin Wetland Inventory Maps that have been adopted and made a part of this ordinance.
- (b) Determinations of navigability and ordinary high-water mark shall initially be made by the Zoning Administrator. When questions arise, the Zoning Administrator shall contact the southern district office of the Department of Natural Resources for a final determination of navigability or ordinary high water mark.
- (c) When an apparent discrepancy exists between the Wetland District boundary shown on the official Wetland Zoning Maps and the actual field conditions at the time the maps were adopted, the Zoning Administrator shall contact the southern district office of the Department of Natural Resources to determine if the Wetland District boundary as mapped, is in error. If the Department staff concur with the Zoning Administrator that a particular area was incorrectly mapped as a wetland, the Zoning Administrator shall be responsible for initiating a wetland map amendment within a reasonable period.

(3) Floodplain Maps.

- (a) Incorporation of Floodplain Maps. The location and boundaries of the Floodway, Flood Fringe, and General Floodplain Districts are hereby established as shown

on the Flood Insurance Rate Maps prepared by the Federal Insurance Administration of the U. S. Federal Emergency Management Agency, together with other supplemental maps, including the revised Flood Insurance Rate Maps, provided by the Federal Emergency Management Agency, and shown on map panels:

Effective 01/02/2009:

Effective 09/17/2014:
55025C0242H, 55025C0243H, 55025C0244H, 55025C0261H, 55025C0262H, 55025C0263H, 55025C0264H, 55025C0266H, 55025C0268H, 55025C0269H, 55025C0288H, 55025C0426H, 55025C0427H, 55025C0429H, 55025C0431H, 55025C0432H, 55025C0434H, 55025C0443H, 55025C0444H, 55025C0451H, 55025C0453H, 55025C0461H, 55025C0463H

(b) The above-mentioned maps with all information shown thereon, together with the accompanying Federal Insurance Administration's Flood Insurance Study for the City of Madison, Wisconsin, Numbers 55025CV001D, 55025CV002D, 55025CV003D, and 55025CV004D, effective June 16, 2016, in which are indicated floodway data and flood profiles, and all amendments thereto to such floodplain maps shall be as much a part of this ordinance as if fully set forth and described herein. (Am. by ORD-16-00062, 6-29-16)

(c) Maps based on other studies, including Dane County Flood Storage Maps prepared and approved by the Department of Natural Resources, Panel numbers 3, 18, and 20, effective September 17, 2014, and Letter of Map Revision, Case #16-05-6112P dated March 10, 2017, #16-05-3204P dated October 27, 2016, #16-05-1781P dated June 14, 2016, and #12-05-5696P dated March 15, 2013. (Am. by ORD-16-00062, 6-29-16; ORD-17-00007, 1-26-17)

(d) Any change to the base flood elevations (BFE) or any changes to the boundaries of the floodplain or floodway in the Flood Insurance Study (FIS) or on the Flood Insurance Rate Map (FIRM) must be reviewed and approved by the Department of Natural Resources and the Federal Emergency Management Agency (FEMA) through the Letter of Map Change process before it is effective. No changes to regional elevations (FRE) on non-FEMA maps shall be effective until approved by the Department of Natural Resources. If more than one map or revision is referenced, the most restrictive information shall apply.

(Sec. 28.022(3) Am. by ORD-14-00146, 9-12-14)

(4) Locating Floodplain Boundaries.

Discrepancies between boundaries on the official floodplain zoning map and actual field conditions shall be resolved by the Zoning Administrator using the criteria in subdivisions (a) or (b) below. If a significant difference exists, the map shall be amended using the procedures established for zoning map amendments in Sec. 28.182. The Zoning Administrator can rely on a boundary derived from a profile elevation to grant or deny a land use permit, whether or not a map amendment is required.

The Zoning Administrator is responsible for documenting actual pre-development field conditions and the basis upon which the district boundary was determined and for initiating any map amendments required under this section. Disputes between the Zoning Administrator and an applicant over the location of the district boundary line shall be settled according to the appeals procedure in Sec. 28.205(5) of this ordinance and the

criteria in (a) and (b) below. Where the flood profiles are based on established base flood elevations from a FIRM, FEMA must approve any map amendment or revision amended using the procedures established for zoning map amendments in Sec. 28.182.

(a) Where flood profiles exist, the map scale and the profile elevations shall determine the district boundary line. Where a discrepancy exists between the map and actual field conditions, the regional or base flood elevations shall govern. The Zoning Administrator has authority to grant or deny a land use permit on the basis of a district boundary derived from the regional flood elevations, whether or not a map amendment is required.

(b) Where flood profiles do not exist, the location of the district boundary line shall be determined by the map scale. Where there is a significant difference between the map and actual field conditions, the map shall be amended. Where a map amendment has been approved by the City, the Wisconsin Department of Natural Resources, and the Federal Emergency Management Agency, the Zoning Administrator shall have the authority to grant or deny a land use permit.

(Am. by ORD-14-00146, 9-12-14)

(5) Incorporation of Flood Storage Maps. The location and boundaries of the Flood Storage Districts are hereby established as shown on Panels 2, 4, and 5 of the Dane County Flood Storage Maps, dated January 2, 2009, and Panel 19 of the Dane County Flood Storage Maps, dated June 16, 2016. (Am. by ORD-16-00062, 6-29-16)

SUBCHAPTER 28C: RESIDENTIAL DISTRICTS

28.031 GENERAL PROVISIONS FOR RESIDENTIAL DISTRICTS.

(1) Setback Averaging, Front Setback.

Where at least fifty percent (50%) of the front footage of any block is built up with principal structures, the minimum front yard setback for new structures shall be the average setback of the existing principal structures on the block face or the normal setback requirement in the district whichever is less, but no less than ten (10) feet. Setback averaging on lakefront lots is as specified in Sec. 28.138. For the purpose of calculating the average setback:

(a) If the setback of an existing structure is greater than the required setback, the required setback shall be used.

(b) Setback averaging uses only front yard setbacks; side yards and reverse corner side yards on corner lots shall not be included.

(c) Projection into setbacks shall not be included.

(d) Setback reductions approved by variance or special exception shall not be included.

(e) If a block face is at least seventy-five percent (75%) built, a vacant lot on the block face shall not be included.

(2) Sidewall Offset.

A maximum of forty (40) feet of a principal building's side wall may be placed at the minimum sidewall setback. In order to avoid the monotonous appearance of long unbroken building facades from streets or abutting properties, any portion of a building side wall located within eighteen (18) feet of the side lot line that exceeds forty (40) feet in depth shall be set back an additional two (2) inches from the side lot line for every foot over forty (40) feet in depth. This requirement applies to all new construction with the following exceptions:

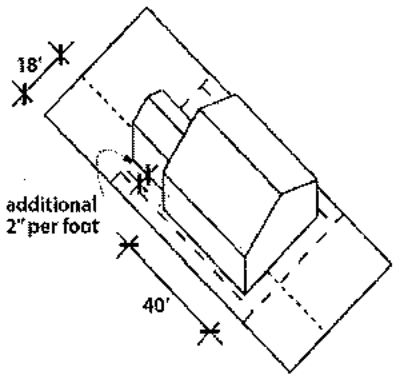

Figure C1: Sidewall Offset

(a) Within the TR-P, TR-C3 and TR-C4 districts, alley-loaded residential buildings are exempt from this requirement as it applies to building side walls within interior side yards.

(b) Any residential building provided that windows, doors, or other architectural features are provided to articulate the appearance of the façade. (Cr. by ORD-13-00128, 7-26-13; ORD-14-00036, 3-6-14)

(Am. by ORD-13-00007, 1-15-13; ORD-14-00137, 8-13-14)

(3) Attached Garage Setback. In new buildings constructed after the effective date of this code, in order to avoid the monotonous and pedestrian-unfriendly appearance of facades dominated by garage doors, any street-facing wall that contains an attached garage door may occupy no more than fifty percent (50%) of the width of that building facade, measured at grade. That portion of the façade that contains the garage door must be recessed at least two (2) feet behind the remainder of the facade. The Plan Commission may reduce or eliminate this requirement as part of the conditional use process in the case of lakefront lots where physical constraints make compliance infeasible.

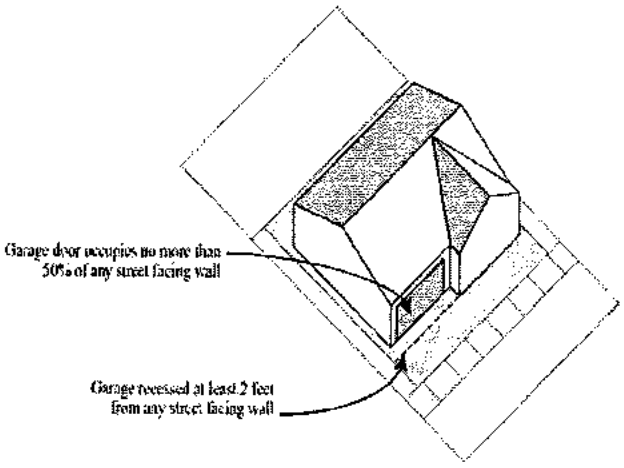

Figure C2: Attached Garage Setback

(4) Parking Location: Residential Buildings. For new, Single-Family Attached, Small Multi-Family, Large Multi-Family, and Courtyard Multi-Family Building Forms, or additions that exceed the original building's floor area by more than one hundred percent (100%), parking shall be located behind or beside each building, below the building, or in a common parking court in the interior of a block. If located on the side of the building within the side yard, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. (Am. by ORD-15-00033, 4-8-15)

(5) Parking Location: Nonresidential Buildings.
For new nonresidential buildings in residential districts or additions that exceed the original building's floor area by more than one hundred percent (100%), that are constructed after the effective date of this zoning code, surface parking shall not be permitted between the front facade of the building and the abutting street. (Am. by ORD-15-00033, 4-8-15)

(6) When other chapters of the Madison General Ordinances refer to residential districts, the Downtown Residential Districts, DR1 and DR2, shall be included. (Cr. by ORD-13-00007, 1-15-13)

28.032 RESIDENTIAL DISTRICT USES.

(1) Table 28C-1 lists all permitted and conditional uses in the residential districts.
- (a) "P" means permitted in the districts where designated.
- (b) "C" means allowed as conditional uses in the districts where designated, in compliance with all applicable standards.
- (c) "P/C" means permitted or conditional, depending on specific requirements in Supplemental Regulations, Subchapter 28J.
- (d) "Y" means there are specific requirements in Subchapter 28J associated with a use.
- (e) "SR-C1" means Suburban Residential-Consistent 1 District.
- (f) "SR-C2" means Suburban Residential-Consistent 2 District.
- (g) "SR-C3" means Suburban Residential-Consistent 3 District.
- (h) "SR-V1" means Suburban Residential-Varied 1 District.
- (i) "SR-V2" means Suburban Residential-Varied 2 District.
- (j) "TR-C1" means Traditional Residential-Consistent 1 District.
- (k) "TR-C2" means Traditional Residential-Consistent 2 District.

(l) "TR-C3" means Traditional Residential-Consistent 3 District.
(m) "TR-C4" means Traditional Residential-Consistent 4 District.
(n) "TR-V1" means Traditional Residential-Varied 1 District.
(o) "TR-V2" means Traditional Residential-Varied 2 District.
(p) "TR-U1" means Traditional Residential Urban 1 District.
(q) "TR-U2" means Traditional Residential Urban 2 District.
(r) "TR-R" means Traditional Residential-Rural District.
(s) "TR-P" means Traditional Residential-Planned District.

28.034 SUBURBAN RESIDENTIAL - CONSISTENT DISTRICTS.

(1) Statement of Purpose.

The SR-C Districts are established to stabilize and protect the essential characteristics of low- to moderate-density residential areas typically located in the outlying parts of the City, and to promote and encourage a suitable environment for family life while accommodating a full range of life cycle housing. The districts are also intended to:

(a) Ensure that new buildings and additions to existing buildings are designed with sensitivity to their context in terms of building placement, facade width, height and proportions, garage and driveway placement, landscaping, and similar design features.

(b) Maintain and improve the viability of existing housing of all types, while providing for updating of older housing in a context-sensitive manner.

(c) Maintain or increase compatibility between residential and other allowed uses, and between different housing types, where permitted, by maintaining consistent building orientation and parking placement and screening.

(d) Facilitate the preservation, development or redevelopment goals of the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(e) In new development, use of the SR-C1 District, in conjunction with other residential districts, should be limited to insuring a mix of housing types, or for reasons related to topography, stormwater management, or other environmental considerations.

28.035 SR-C1 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

SR-C1 District		
	Single-family detached	Nonresidential
Lot Area (sq. ft.)	8,000	8,000
Lot Width	60	60
Front Yard Setback	30	30
Side Yard Setback	One-story: 6/Two-story: 7	One-story: 6
Reversed Corner Side Yard Setback	15	30
Rear Yard Setback	Lesser of 30% lot depth or 35 See (a) below	Equal to building height but at least 35 See (a) below
Maximum height	2 stories/35	35
Maximum lot coverage	50%	60%
Maximum building coverage	n/a	50%
Usable open space (sq. ft. per d.u.)	1,300	n/a

(a) Rear Yard Setback.
If the existing principal structure and any additions to it, covers twenty percent (20%) or less of the lot area, the rear yard setback may be reduced by twenty-five percent (25%).

28.036 SR-C2 DISTRICT.

(1) Permitted and Conditional Uses.
See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.
Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

SR-C2 District		
	Single-family detached	Nonresidential
Lot Area (sq. ft.)	6,000	6,000
Lot Width	50	50
Front Yard Setback	30	30
Side Yard Setback	One-story: 6/Two-story: 7	One-story: 6/Two-story: 7
Reversed Corner Side Yard Setback	15	30
Rear Yard Setback	Lesser of 30% lot depth or 35 See (a) below	Equal to building height but at least 35 See (a) below
Maximum height	2 stories/35	35
Maximum lot coverage	50%	60%
Maximum building coverage	n/a	50%
Usable open space (sq. ft. per d.u.)	1,000	n/a

(a) Rear Yard Setback. If the existing principal structure and any additions to it, covers twenty percent (20%) or less of the lot area, the rear yard setback may be reduced by twenty-five percent (25%).

28.037 SR-C3 DISTRICT.

(1) Permitted and Conditional Uses.
See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.
Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

(Am. by ORD-13-00007, 1-15-13; ORD-14-00133, 8-13-14)

(a) Dispersion of Dwellings. No two-family twin dwelling shall be constructed or converted within three hundred (300) feet of a zoning lot containing another two-family twin building, as measured from the perimeter of each zoning lot, unless approved by conditional use.

(b) Rear Yard Setback. If the existing principal structure and any additions to it, covers twenty percent (20%) or less of the lot area, the rear yard setback may be reduced by twenty-five percent (25%).

28.038 SUBURBAN RESIDENTIAL - VARIED DISTRICTS.

(1) Statement of Purpose.

The SR-V Districts are established to stabilize and protect the essential characteristics of residential areas of varying densities and housing types, typically located in the outlying parts of the City, and to promote and encourage a suitable environment for family life while accommodating a full range of life-cycle housing. The districts are also intended to:

(a) Ensure that new buildings and additions to existing buildings are designed with sensitivity to their context in terms of building placement, facade width, height and proportions, garage and driveway placement, landscaping, and similar design features.

(b) Maintain and improve the viability of existing housing of all types, while encouraging the updating of older housing in a context-sensitive manner.

(c) Maintain or increase compatibility between residential and other allowed uses, and between different housing types, where permitted, by maintaining consistent building orientation and parking placement and screening.

(d) Facilitate the preservation, development or redevelopment goals of the comprehensive plan and of adopted neighborhood, corridor or special area plans.

28.039 SR-V1 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

SR-V1 District: Permitted Uses				
	Single-family detached	Two-family Two unit	Two-family - Twin	Three-four unit

28.041 TRADITIONAL RESIDENTIAL - CONSISTENT DISTRICTS.

(1) Statement of Purpose.

The TR-C Districts are established to stabilize, protect and encourage throughout the City the essential characteristics of the residential areas typically located on the Isthmus, near East and near West portions of the City, and to promote and encourage a suitable environment for family life while accommodating a full range of life-cycle housing. The districts are also intended to:

(a) Promote the preservation, development and redevelopment of traditional residential neighborhoods in a manner consistent with their distinct form and residential character.

(b) Ensure that new buildings and additions to existing buildings are designed with sensitivity to their context in terms of building placement, facade width, height and proportions, garage and driveway placement, landscaping, and similar design features.

(c) Maintain and improve the viability of existing housing of all types, while providing for updating of older housing in a context-sensitive manner.

(d) Maintain or increase compatibility between residential and other allowed uses, and between different housing types, where permitted, by maintaining consistent building orientation and parking placement and screening.

(e) Facilitate the preservation, development or redevelopment goals of the comprehensive plan and of adopted neighborhood, corridor or special area plans.

28.042 TR-C1 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.

Standards represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

TR-C1 District		
	Single-family detached	**Nonresidential**
Lot Area (sq. ft.)	6,000	6,000
Lot Width	50	50
Front Yard Setback	20	20
Maximum Front Yard Setback	30 ft. or up to 20% greater than block average	n/a
Side Yard Setback	One-story: 6 Two-story: 7	10
Reversed Corner Side Yard Setback	15	15
Rear Yard Setback	Lesser of 30% lot depth or 35 See (a) below	Equal to building height but at least 35 See (a) below
Maximum height	2 stories/35	35
Maximum lot coverage	50%	65%
Usable open space (sq. ft. per d.u.)	1,000	n/a
Maximum building coverage	n/a	50%

(Am. by ORD-15-00099, 9-11-15)

(a) Rear Yard Setback. If the existing principal structure and any additions to it, covers twenty percent (20%) or less of the lot area, the rear yard setback may be reduced by twenty-five percent (25%).

28.043 TR-C2 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

TR-C2 District		
	Single-family detached	**Nonresidential**
Lot Area (sq. ft.)	4,000	4,800
Lot Width	40	40
Front Yard Setback	20	20
Maximum Front Yard Setback	30 ft. or up to 20% greater than block average	n/a
Side Yard Setback	One-story: 5 Two-story: 6 See (a) below	10
Reversed Corner Side Yard Setback	12	20
Rear Yard	Lesser of 30% lot depth or 30	Equal to building height but at least 30
Maximum height	2 stories/35	35
Maximum lot coverage	65%	65%
Usable open space (sq. ft. per d.u.)	750	n/a
Maximum building coverage	n/a	50%

(Am. by ORD-15-00099, 9-11-15)

(a) Side Yard Setback. Lots with single-family detached dwellings that are existing on the effective date of this ordinance and have a lot width less than fifty (50) feet shall have a minimum side yard setback of ten percent (10%) of the lot width.

28.044 TR-C3 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

TR-C3 District		
	Single-family detached	**Nonresidential**
Lot Area (sq. ft.)	3,000	4,000
Lot Width	30	40
Front Yard Setback	15	15
Maximum Front Yard Setback	30 ft. or up to 20% greater than block average	n/a
Side Yard Setback	5 Lot width < 50: 10% lot width	One-story: 5 Two-story or more: 6
Reversed Corner Side Yard Setback	8 (10 for garage)	15
Rear Yard	20 alley-accessed: 2 See (b) below	Equal to building height but at least 20
Maximum height	2 stories/35	35
Maximum lot coverage	75%	75%
Maximum building coverage	n/a	65%
Usable open space (sq. ft. per d.u.)	500	n/a

(Am. by ORD-15-00099, 9-11-15)

(a) Side Yard Setback. Lots with residential buildings that are existing on the effective date of this ordinance and have a lot width less than fifty (50) feet shall have a minimum side yard setback of ten percent (10%) of the lot width.

(b) Rear Yard Setback. Only a one-story, alley-accessed attached garage projection for garage purposes may have a minimum rear yard setback of two (2) feet.

28.045 TR-C4 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(2) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

TR-C4 District

28.049 TRADITIONAL RESIDENTIAL - URBAN DISTRICTS.

(1) Statement of Purpose.

The TR-U Districts are established to stabilize and protect and encourage the essential characteristics of high-density residential areas and to accommodate a full range of life-cycle housing. The districts are also intended to:

(a) Ensure that new buildings and additions to existing buildings are designed with sensitivity to their context in terms of building placement, facade width, height and proportions, garage and driveway placement, landscaping, and similar design features.

(b) Promote the preservation of historic buildings and districts within or close to concentrations of high-density housing.

(c) Maintain and improve the viability of existing housing of all types, while providing for updating of older housing in a context-sensitive manner.

(d) Encourage restoration of single-family dwellings previously converted to multi-family units back to single- or two-family dwellings.

(e) Maintain or increase compatibility between residential and other allowed uses, and between different housing types, where permitted, by maintaining consistent building orientation and parking placement and screening.

(f) Facilitate the preservation, development or redevelopment goals of the comprehensive plan and of adopted neighborhood, corridor or special area plans.

28.050 TR-U1 DISTRICT.

(c) Side Yard Setback. Lots with two-family dwellings that are existing on the effective date of this ordinance and have a lot width of less than fifty (50) feet shall have a minimum side yard.

(d) Heights exceeding the maximum may be allowed with conditional use approval.

(e) Usable Open Space. Up to 75% of required usable open space may be located on balconies or roof decks meeting the standards in Sec. 28.140.

28.052 TRADITIONAL RESIDENTIAL - RUSTIC (TR-R) DISTRICT.

(1) Statement of Purpose.

The TR-R District is established to stabilize and protect the natural beauty, historic character and park-like setting of certain heavily wooded low-density residential neighborhoods. The district is also intended to promote the preservation of the neighborhood's historic buildings, tree cover and landscape plan. This district is not intended for use in new development.

(2) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

TR-R District: Permitted and Conditional Uses		
	Single-family detached	Nonresidential
Lot Area (sq. ft.)	0.6 acres (26,136 sq. ft.)	0.6 acres (26,136 sq. ft.)
Lot Width	65	65
Front Yard Setback	50	50
Side Yard Setback	30	30
Reversed Corner Side Yard Setback	30	30
Rear Yard	40	40
Maximum height	3 stories/40	40
Maximum lot coverage	15%	15%
Maximum size accessory building	800 sq. ft. See (a) below	as determined by conditional use

(a) Detached Garage Replacement. New detached garages are not permitted. Detached garages existing as of January 1, 1989 may be replaced with a structure no larger than 800 square feet or the size of the principal building, whichever is less.

28.053 TRADITIONAL RESIDENTIAL - PLANNED (TR-P) DISTRICT.

(1) Statement of Purpose.

The TR-P District is established to encourage the development of new traditional neighborhoods in close-in or outlying parts of the City that incorporate the characteristics of existing traditional neighborhoods. Features include a variety of lot sizes and

integrated housing types, detached or alley-loaded garages, traditional architectural features such as porches, an interconnected street system and the creation of a high-quality public realm.

A large-scale TR-P development will be designed through a master planning process. Where a TR-P District is developed in conjunction with or in proximity to an existing or planned mixed-use or higher-density district (for example, a Neighborhood Mixed-Use District, Traditional Shopping Street District, or Traditional Residential-Urban District) the TR-P District is also intended to meet the goals of traditional neighborhood development as established by the State of Wisconsin and Dane County. These goals include the following:

(a) Reduce public costs by making more efficient use of infrastructure.

(b) Protect the environment through reduced land consumption, preservation of on-site environmental features, and reduced automobile travel.

(c) Increase public safety and welfare through street design that results in slower driver speeds and reduced accidents, injuries and fatalities.

(d) Promote the reinvestment in existing developed areas.

(e) Foster community through attractive streets and public spaces that create opportunities for encounters and gatherings.

(2) Permitted and Conditional Uses.

See Table 28C-1 for a complete list of allowed uses within the residential districts.

(3) Required Mix of Residential Uses.

After the effective date of this ordinance, development sites or projects within the TR-P District that are ten (10) acres or more in size or that include fifty (50) or more dwelling units shall meet the following standards:

(a) A minimum of three (3) residential building types from the following categories shall be included within the site:

1. Single-family detached dwellings with street-accessed garages.
2. Single-family detached dwellings with alley-accessed garages.
3. Two-family and single-family attached buildings.
4. Accessory dwelling units.
5. Multi-family dwellings (3 units or more), including senior housing.
6. Special-needs housing such as community living arrangements and assisted living facilities.

(b) A minimum of ten percent (10%) of the units on the site shall be in two-family, attached or multi-family residential dwelling types.

(c) For infill development, the required mix of residential uses may be satisfied by existing adjacent residential uses within a one-quarter (¼) mile radius.

(d) All residential lots shall be located within one-quarter (¼) mile of existing or planned public or common open space.

(4) Dimensional Standards, Permitted and Conditional Uses.

Standards represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

TR-P District: Permitted Uses						
	Single-family detached	**Single-family attached**	**Two-family Two unit**	**Two-family - Twin**	**Single-family accessory dwelling unit**	**Multi-family, except residential building complex**
Lot Area (sq. ft.)	3,500	2,000/d.u.	2,500/d.u.	2,500/d.u.	5,000 (per lot)	600/d.u. + 300 per bedroom >2
Lot Width	37	20	40	25/d.u.	50	50
Front Yard Setback	15	15	15	15	n/a	15
Maximum Front Yard Setback	30 ft. or up to 20% greater than block average	30 ft. or up to 20% greater than block average	30 ft. or up to 20% greater than block average	30 ft. or up to 20% greater than block average	30 ft. or up to 20% greater than block average	30 ft. or up to 20% greater than block average

TR-P District: Permitted Uses						
	Single-family detached	**Single-family attached**	**Two-family Two unit**	**Two-family - Twin**	**Single-family accessory dwelling unit**	**Multi-family, except residential building complex**
Side Yard Setback	5	8 (end units)	5	5	5	10
Reversed Corner Side Yard Setback	8 (10 for garage)	8 (10 for garage)	8 (10 for garage)	8 (10 for garage)	8 (10 for garage)	12 (10 for garage)
Rear Yard	Street-accessed: 20 Alley-accessed: 2	Street-accessed: 20 Alley-accessed: 2	Street-accessed: 20 Alley-accessed: 2	Street-accessed: 20 Alley-accessed: 2	Street-accessed: 20 Alley-accessed: 2	Street-accessed: 20 Alley-accessed: 2
Maximum height	3 stories/35	3 stories/40	3 stories/35	3 stories/35	2 stories, no greater than height of principal structure	4 stories/52 See (a) below
Maximum lot coverage	75%	75%	75%	75%	80% (per lot)	75%
Usable open space (sq. ft. per d.u.)	500	320	500	500	800 (per lot)	140

(Am. by ORD-13-00134, 8-14-13; ORD-15-00099, 9-11-15)

(a) Heights exceeding the maximum may be allowed with conditional use approval.

TR-P District: Conditional and Nonresidential Uses		
	Residential building complex	**Nonresidential**
Lot Area (sq. ft.)	600/d.u. + 300 per bedroom >2	5,000
Lot Width	50	50
Front Yard Setback	15	15
Maximum Front Yard Setback	30 ft. or up to 20% greater than block average	30 ft. or up to 20% greater than block average
Side Yard Setback	10	5
Reversed Corner Side Yard Setback	12 (10 for garage)	15
Rear Yard	Street-accessed: 20 Alley-accessed: 2	equal to building height but at least 20
Maximum height	4 stories/52 See (b) below	3 stories/40
Maximum lot coverage	75%	70%
Usable open space (sq. ft. per d.u.)	140	n/a

(Am. by ORD-13-00134, 8-14-13; ORD-15-00099, 9-11-15)

(b) Heights exceeding the maximum may be allowed with conditional use approval.

(5) Site Design Standards.

(a) Open Space. Open space shall be available to the residents of the district for recreational purposes or similar benefit. Land reserved for stormwater management and other required site improvements shall not be applied to this requirement, unless designed as open space that will meet resident needs.

1. Open space shall be designed to meet the needs of residents of the district and the surrounding neighborhoods to the extent practicable for parks, playgrounds, playing fields, and other recreational facilities.
2. A diversity of open spaces shall be provided within the TR-P district, including but not limited to community parks, neighborhood squares and commons, and playgrounds.
3. Open spaces included with the subdivision shall be dispersed throughout the development and walkable from most areas within the subdivision.
4. Land donated for any public purpose, which is accepted by the City, may be credited towards the open space requirement at the discretion of the Common Council.

(b) Street Layout. A TR-P site development plan shall maintain the existing street grid where present and restore the street grid where it has been disrupted. In newly developing areas, streets shall be designed to maximize connectivity, except where environmental or physical constraints make this infeasible. All streets shall terminate at other streets, at public land, or at an environmentally sensitive area, except that local streets may terminate in stub streets when those will be connected to other streets in future phases of the development or adjacent developments.

(c) Street Design. Flexibility in street design may be allowed within a TR-P District in order to create a safe and pleasant environment for residents, emphasizing pedestrian and bicycle circulation.

(d) Non-Residential Uses. Non-residential land uses, including but not limited to schools, places of worship and neighborhood-serving commercial uses located within a subdivision zoned TR-P, shall be designed in a compact fashion and reflect the design of other uses within the master-planned development. Parking for such uses shall be located in the side or rear yards and shall be well screened to preserve the continuity of the public realm.

(6) Submittal Requirements.

(a) After the effective date of this ordinance, a Master Plan shall be required for all TR-P projects that are proposed to be ten (10) acres or larger in size or those that will include fifty (50) dwelling units or more. All TR-P Master Plans shall include each of the following elements:

1. A map of the proposed development that identifies all of the lots and outlots to be contained in the proposed development and which contains all of the information required for preliminary plats in Sec. 16.23(7)(a), MGO. The map shall identify each of the following items:
   a. The use of each lot or outlot, including any spaces to be dedicated to the public.
   b. The number of dwelling units to be provided on each lot.
   c. The number of floors of all buildings to be constructed on a lot - minimum and maximum.
   d. The orientation of buildings in relation to all streets.
   e. The yards and building setbacks for each developable lot.
   f. Stormwater management, including proposed treatments at the lot, block and subdivision level.
2. A phasing plan for the implementation of the master planned development.
3. Building design standards for the proposed development recorded in the covenants, conditions and restrictions for the subdivision, shall include:
   a. Massing and composition of structures, orientation of windows and entries; doors and other elements of the facade, and primary facade materials and colors.
   b. A process for the application of such building design standards, through an architectural review committee or similar review body.
4. A detailed letter of intent for the project that outlines the specific goals and objectives for the master planned development.

(b) Standards for Approval of Master Plans.

1. The proposed TR-P Master Plan shall be consistent with the recommendations of the Comprehensive Plan and any adopted neighborhood plan, including the objectives established for traditional neighborhood development in the Comprehensive Plan.
2. The proposed TR-P Master Plan shall contain a highly connective circulation pattern and shall be conducive to multiple forms of transportation.

3. The proposed master planned development shall include a variety of integrated residential dwelling unit types. Segregation of dwelling unit types shall be avoided.
4. The proposed TR-P Master Plan shall be consistent with the statement of purpose of this section.
5. The TR-P Master Plan shall also comply with all of the requirements for preliminary plats in Section 16.23(5)(c) Madison General Ordinances.

(7) Review Procedures.

A Master Plan for a TR-P district will be reviewed as part of the zoning map amendment and subdivision plat.

(8) Changes to Master Plan.

No alteration of an approved Master Plan shall be permitted unless approved by the Plan Commission, provided however, the Zoning Administrator may following consideration by the alder person of the district, issue permits for minor alterations that are approved by the Director of Planning and Community and Economic Development and are consistent with the concept approved by the Common Council. If a change or addition constitutes a substantial alteration of the original plan, the procedure in Sec. 28.052(7) and (8) is required.

SUBCHAPTER 28D: MIXED-USE AND COMMERCIAL DISTRICTS

28.060 GENERAL PROVISIONS FOR MIXED-USE AND COMMERCIAL DISTRICTS.

(1) Statement of Purpose.

Mixed-use and commercial districts are established to provide a range of district types, from the small neighborhood center to regional-level retail centers, while fostering high-quality building and site design and pedestrian, bicycle and transit as well as automobile circulation.

(2) Design Standards. The following design standards are applicable after the effective date of this code to all new buildings and major expansions (fifty percent (50%) or more of building floor area). Design standards shall apply only to the portion of the building or site that is undergoing alteration.

(a) Entrance Orientation (See Figure D1). All new buildings shall have a functional entrance oriented to an abutting public street. Additional entrances may be oriented to a private street or parking area. For buildings with multiple non-residential tenants, a minimum of one (1) tenant space shall have a functional entrance oriented towards an abutting public street. Other tenant spaces shall be connected to the public street with a private sidewalk connection. Entries shall be clearly visible and identifiable from the street, and delineated with elements such as roof overhangs, recessed entries, landscaping, or similar design features. Barrier-free entrances are encouraged. (Am. by ORD-13-00113, 6-26-13)

Figure D1: Entrance Orientation

(b) Facade Articulation. Consistent with the design of traditional storefront buildings, new buildings of more than forty (40) feet in width shall be divided into smaller increments, through articulation of the facade. This can be achieved through combinations of including but not limited to the following:

1. Facade Modulation (See Figure D3). Stepping back or extending forward a portion of the facade.
2. Vertical divisions using different textures or materials (although materials shall be drawn from a common palette).
3. Division into storefronts, with separate display windows and entrances.

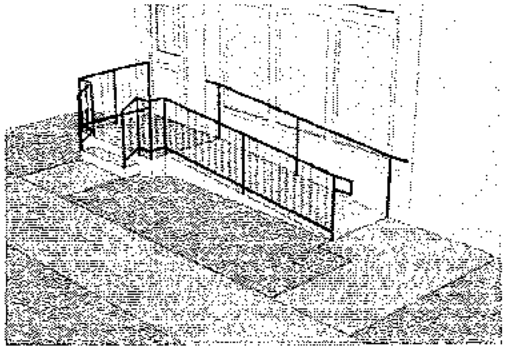

Figure D2: Barrier-Free Entrance Example

4. Variation in roof lines by alternating dormers, stepped roofs, gables, or other roof elements to reinforce the modulation or articulation interval (See Figure D4).
5. Arcades, awnings, and window bays at intervals equal to the articulation interval.

Figure D3: Facade Modulation

(c) Design of Street-Facing Facades. No blank walls shall be permitted to face the public street, sidewalks, or other public spaces such as plazas. Elements such as windows, doors, columns, changes in material, and similar details shall be used to add visual interest.

(d) Door and/or Window Openings. For nonresidential uses at ground floor level, windows and doors or other openings shall comprise at least sixty percent (60%) of the length and at least forty percent (40%) of the area of the ground floor of the primary street facade. At least fifty percent (50%) of windows on the primary street facade shall have the lower sill within three (3) feet of grade.

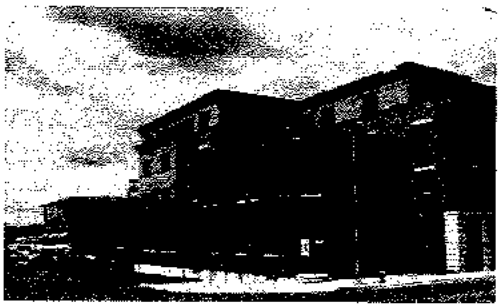

Figure D4: Variation in Roof Lines

For residential uses at ground level, a minimum of fifteen percent (15%) of the ground level of residential facades or side and rear facades not fronting a public street shall consist of windows and door openings. On upper stories, window or balcony openings shall occupy a minimum of fifteen percent (15%) of the upper-story wall area.

1. Glass on windows and doors shall be clear or slightly tinted, allowing views into and out of the interior. Spandrel glass that mimics the appearance of windows may be used for up to twenty percent (20%) of the required area of the openings. (Am. by ORD-13-00205, 12-10-13)

2. Displays may be placed within windows. Equipment within buildings shall be placed a minimum of five (5) feet behind windows. To preserve views, within three (3) feet of any window, not more than thirty percent (30%) of the view through the windows shall be blocked by merchandise, displays, shelving, or other obstructions.

3. Window shape, size and patterns shall emphasize the intended organization of the facade and the definition of the building.

(e) Equipment and Service Area Screening. If an outdoor storage, service or loading area is visible from adjacent residential uses or an abutting public street or public walkway, it shall be screened by a decorative fence, wall or screen of plant material at least six (6) feet in height. Fences and walls shall be architecturally compatible with the primary structure.

(f) Screening of Rooftop Equipment. All rooftop equipment, with the exception of solar and wind equipment, shall be screened from view from adjacent streets and public rights-of-way. Rooftop equipment shall be screened from view from adjacent buildings to the extent possible.

1. The equipment shall be within an enclosure. This structure shall be set back a distance of one and one-half (1½) times its height from any primary facade fronting a public street.

   a. Screens shall be of durable, permanent materials (not including wood) that are compatible with the primary building materials.

   b. Screening shall be constructed to a height of at least one (1) foot above the height of the equipment.

2. Exterior mechanical equipment such as ductwork shall not be located on primary building facades.

(g) Materials. Nonresidential or mixed-use buildings shall be constructed of durable, high-quality materials such as brick, stone, textured cast stone, or tinted masonry units. Table 28D-1 below lists allowable building materials. When applying these requirements, consideration shall be given to the use, amount, placement and relationship of each material as part of a comprehensive palette of building materials. All building facades visible from a public street or public walkway should employ materials and design features similar to or complementary to those of the front facade.

Table 28D-1.

	Allowable for use as/at:				
Building Materials	**Trim/Accent Material**	**Top of Building**	**Middle of Building**	**Base/Bottom of Building**	**Standards (see footnotes)**
Brick (Face/Veneer)	✓	✓	✓	✓	
Smooth-Face/Split-Face Block	✓	✓	✓	✓	A
Wood/ Wood Composite	✓	✓	✓		
Fiber-Cement Siding/Panels	✓	✓	✓	✓	
Concrete Panels, Tilt-up or Precast	✓	✓	✓	✓	B
EIFS/Synthetic Stucco	✓	✓			C
Stone/Stone Veneer	✓	✓	✓	✓	
Metal Panels	✓	✓	✓	✓	D
Hand-Laid Stucco	✓	✓			C
Vinyl Siding	✓				E
Glass Curtain Wall System	✓	✓	✓	✓	
Reflective Glass/Spandrel	✓				F
Glass (Storefront)	✓	✓	✓	✓	

A - Shall be used in conjunction with a palette of materials and shall not comprise more than 33% of any building wall adjacent to a public street or walkway.

B - Shall incorporate horizontal and vertical articulation and modulation, including but not limited to changes in color and texture, or as part of a palette of materials.

C - Shall not be within three feet of the ground or used in heavily trafficked pedestrian areas or where high pedestrian traffic is anticipated.

D - Shall be used in conjunction with a palette of materials; shall be a heavy gauge metal, and; shall be non-reflective.

E - Shall be used in limited quantities due to its limited durability.

F - Shall be used in limited quantities as an accent material.

(h) Compatibility with Traditional Buildings. (See Figure D5.) New development shall relate to the design of traditional buildings adjacent to the site, where present, in scale and character. This can be achieved by maintaining similar, facade divisions, roof lines, rhythm and proportions of openings, building materials and colors. Historic architectural styles need not be replicated.

Figure D5: Compatibility with Traditional Buildings

(i) Building Alignment. (See Figure D6.) Buildings shall be aligned with facades parallel with the street to create a well-defined street edge.

Figure D6: Building Alignment

(j) Building Articulation. (See Figure D7.) Buildings shall have horizontal and vertical articulation, which may include dormers, cornice detailing, recesses and projections, stepbacks of upper stories, changes in roof types and planes, building materials, and window patterns. The base of the building shall relate to the human scale, including doors and windows, texture, projections, awnings, canopies, and similar features.

(k) Ground-Floor Residential Uses. (See Figure D8.) Ground-floor residential uses fronting a public street or walkway, where present, shall be separated from the street by landscaping, steps, porches, grade changes, and low ornamental fences or walls in order to create a private yard area between the sidewalk and the front door.

Figure D7: Building Articulation

Figure D8: Ground Floor Residential Uses

28.061 MIXED-USE AND COMMERCIAL DISTRICTS USES.

(1) Table 28D-2 lists all permitted and conditional uses in the mixed-use and commercial districts.

(a) "P" means permitted in the districts where designated.

(b) "C" means allowed as conditional uses in the districts where designated, in compliance with all applicable standards.

(c) Uses indicated as "P/C" means permitted or conditional, depending on specific requirements in Supplemental Regulations, Subchapter 28J.

(d) "Y" means that there are specific requirements in Subchapter 28J associated with a use.

(e) "LMX" means Limited Mixed-Use District.

(f) "NMX" means Neighborhood Mixed-Use District.

(g) "TSS" means Traditional Shopping Street District.

(h) "MXC" means Mixed-Use Center District.

(i) "CC-T" means Commercial Corridor - Transitional District.

(j) "CC" means Commercial Center District.

28.063 LIMITED MIXED-USE DISTRICT.

(1) Statement of Purpose.

The LMX District is established to allow for small-scale mixed-use development within or adjacent to otherwise residential areas. The district is also intended to:

(a) Encourage pedestrian, bicycle and transit use as a means of accessing these developments.

(b) Protect the integrity of the surrounding residential uses.

(c) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

See Table 28D-2 for a complete list of allowed uses within the mixed-use and commercial districts.

(3) Dimensional Requirements.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Limited Mixed-Use District	
Front yard setback	No minimum
Side yard setback: Where buildings abut residentially-zoned lots at side lot line.	Same as for non-residential buildings in the adjacent residential district.
Side yard setback: other cases	No minimum
Rear yard setback	Same as for non-residential buildings in the adjacent residential district. If not adjacent to residential district, 20
Maximum lot coverage	Same as for non-residential buildings in the adjacent residential district. If not adjacent to residential district, 75%
Maximum height	2 stories/35
Maximum building size (sq. ft.)	5,000
Usable open space (sq. ft.)	160 for one-bedroom dwelling unit, 320 for dwelling units with 2 or more bedrooms

(4) Site Standards.

The following standards shall apply to new buildings and additions exceeding 50% of original building's floor area.

(a) Maximum Size. Buildings shall not exceed five thousand (5,000) square feet of floor area. Buildings exceeding five thousand (5,000) square feet of floor area but not more than seven thousand five hundred (7,500) square feet of floor area may be allowed with conditional use approval. (Am. by ORD-15-00033, 4-8-15)

(b) Parking shall not be placed between the front facade of a building and the abutting street. Parking shall be located to rear or side of principal building; parking abutting the primary street frontage is limited to seventy (70) feet in width or fifty percent (50%) of lot frontage, whichever is less.

(c) All parking areas must be screened from adjacent residentially zoned properties.

(5) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings, except:

1. Off-street parking and off-street loading.
2. Outdoor display.
3. Vending machines.
4. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
5. Auto service stations.
6. Bicycle-sharing facilities.
7. Walk-up service windows.
8. Temporary outdoor events.
9. Solar energy systems and wind energy systems.
10. Yard sales.
11. Agricultural activities.
12. Cemeteries.
13. Composting.
14. Keeping of chickens and keeping of honeybees.
15. Outdoor recreation.

28.064 NEIGHBORHOOD MIXED-USE DISTRICT.

(1) Statement of Purpose.

The NMX District is established to encourage and sustain the viability of commercial nodes that serve the shopping needs of residents in adjacent neighborhoods. The district is also intended to:

(a) Encourage pedestrian, bicycle and transit use as a means of accessing these commercial areas.

(b) Encourage diversification of uses, including residential, commercial, and civic uses, in order to enhance the vitality and appeal of these areas.

(c) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

See Table 28D-2 for a complete list of allowed uses within the mixed-use and commercial districts.

(3) Dimensional Requirements.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Neighborhood Mixed Use District	
Front yard setback	See (a) below
Side yard setback: Where buildings abut residentially-zoned lots at side lot line.	Minimum side yard required in the adjacent residential district

Neighborhood Mixed Use District	
Side yard setback: Where proposed buildings or abutting buildings have window openings in side wall(s) within 6 feet of lot line.	One-story: 5 Two-story or higher: 6 Lot width <40: 10% lot width
Side yard setback (for exclusive residential use)	One-story: 5 Two-story or higher: 6
Side yard setback: other cases (i.e., infill between party wall storefront buildings).	None unless needed for access
Lot area (for exclusive residential use)	1000 sq. ft./unit
Rear yard setback.	20
Maximum lot coverage.	75%
Maximum height.	3 stories/40 See (d) below
Usable open space - residential only.	160 sq. ft. per lodging room or 1-bedroom unit, 320 sq. ft. for >1-bedroom units

(Am. by ORD-17-00054, 6-19-17)

(a) Front Yard Setback. For buildings and additions exceeding fifty percent (50%) of floor area, the maximum front yard setback shall be twenty-five (25) feet unless designated otherwise on the zoning map. Front yard setbacks on the zoning map may be designated as a specific location (build to line) or as a range.

(b) Additional Height. Building height exceeding the maximum may be allowed with conditional use approval.

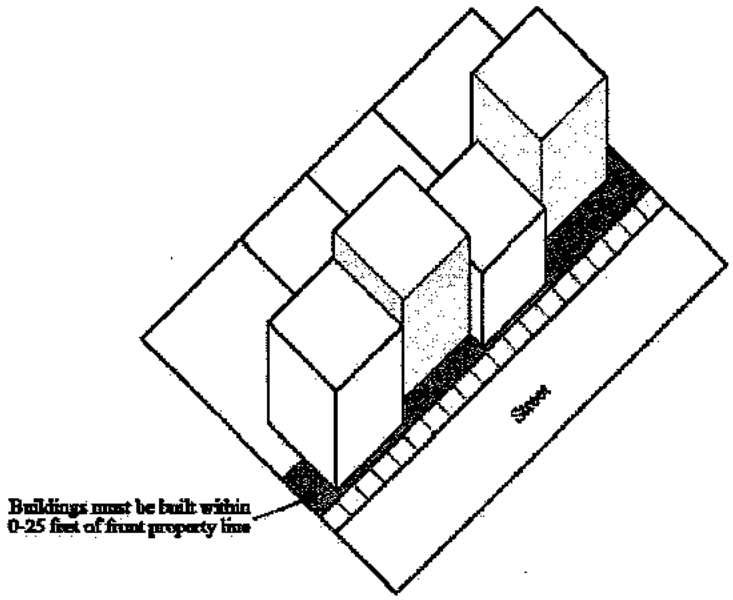

Figure D9: Maximum Front Yard Setback in NMX District unless designated otherwise on the zoning map

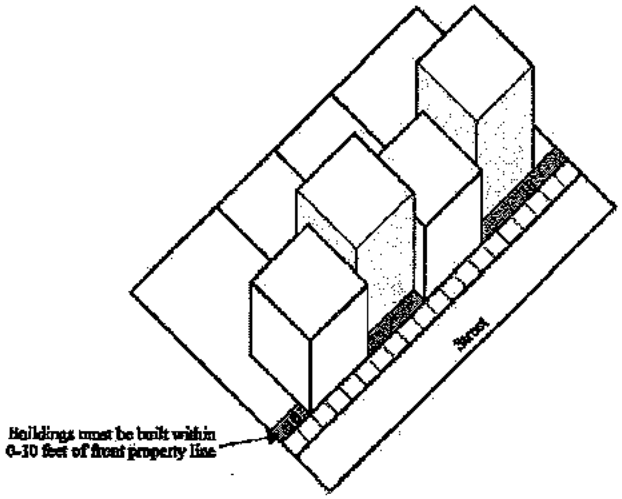

Figure D10: Where designated on the zoning map, properties may have a maximum setback of 10 feet in the NMX district.

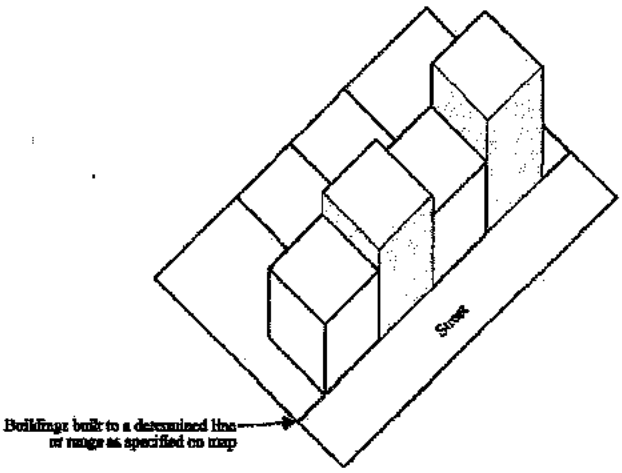

Figure D11: Alternative setbacks may also be designated on the zoning map

(c) (Rep. by ORD-17-00054, 6-19-17)

(d) Rear or Side Yard Height Transition to Residential Districts. Where the NMX District abuts a residential district at the rear or side lot line, building height at the rear or side yard setback line shall not exceed two (2) stories/twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height. Transitions exceeding this height and/or ratio limitation require conditional use approval.

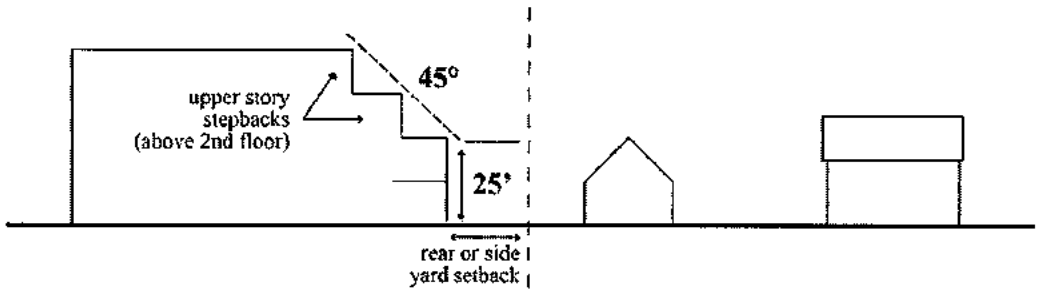

Figure D12: Rear or Side Yard Height Transition

(Am. by ORD-14-00131, 8-13-14)

(4) Site Standards.

The following standards shall apply to new buildings and additions exceeding 50% of original building's floor area.

(a) Maximum Size. Buildings shall not exceed five thousand (5,000) square feet of floor area for an individual establishment or ten thousand (10,000) square feet floor area for a building containing two or more uses. Buildings exceeding this size may be allowed as conditional uses. (Am. by ORD-15-00033, 4-8-15)

(b) For the Single-Family Attached, Small Multi-Family, Large Multi-Family, and Courtyard Multi-Family Building Forms, parking shall be located behind or beside each building, below the building, or in a common parking court in the

interior of a block. If located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family Buildings, structured parking at ground level shall not be visible on the front façade of the building.

(c) For all Building Forms other than (b) above, parking shall not be placed between the front facade of a building and the abutting street. Parking shall be located to rear or side of principal building; parking abutting the primary street frontage is limited to seventy (70) feet in width or fifty percent (50%) of lot frontage, whichever is less.

(5) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings, except:

1. Off-street parking and off-street loading.
2. Outdoor display.
3. Vending machines.
4. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
5. Auto service stations.
6. Bicycle-sharing facilities.
7. Walk-up service windows.
8. Temporary outdoor events.
9. Solar energy systems and wind energy systems.
10. Yard sales.
11. Agricultural activities.
12. Cemeteries.
13. Composting.
14. Keeping of chickens and keeping of honeybees.
15. Outdoor recreation.

28.065 TRADITIONAL SHOPPING STREET (TSS) DISTRICT.

(1) Statement of Purpose.

The TSS District is established to encourage and sustain the viability of Madison's mixed-use corridors, which sustain many of the City's traditional neighborhoods. The district is also intended to:

(a) Encourage pedestrian, bicycle and transit use as a means of accessing and moving through these corridors.

(b) Encourage diversification of uses, including residential, commercial, and civic uses, in order to enhance the vitality and appeal of these areas.

(c) Maintain the viability of existing residential buildings located within or adjacent to these corridors.

(d) Encourage appropriate transitions between higher-intensity uses within TSS districts and adjacent lower-density residential districts.

(e) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

See Table 28D-2 for a complete list of allowed uses within the mixed-use and commercial districts.

(3) Dimensional Requirements.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Traditional Shopping Street District	
Front yard setback	See (a) below
Side yard setback: Where buildings abut residentially-zoned lots at side lot line	Minimum side yard required in the adjacent residential district
Side yard setback: Where proposed buildings or abutting buildings have window openings in side wall(s) within 6 feet of lot line	One-story: 5 Two-story or higher: 6 Lot width <40: 10% lot width
Side yard setback: other cases (i.e., infill between party wall storefront buildings)	none unless needed for access
Rear yard setback	The lesser of 20% of lot depth or 20 feet
Rear yard setback: For corner lots, where all abutting property is in a nonresidential zoning district	The required rear yard setback shall be the same as the required side yard setback
Maximum lot coverage	85%
Maximum height	3 stories/40 See (c) below
Usable open space	40 sq. ft./unit
Lot area (for exclusive residential use)	500 sq. ft./unit

(Am. by ORD-13-00007, 1-15-13; ORD-14-00148, 9-12-14)

(a) Front Yard Setback. For new buildings and additions exceeding fifty percent (50%) of building's original floor area, the maximum front setback shall be twenty-five (25) feet, unless designated otherwise on the zoning map. Front yard setbacks on the zoning map may be designated as a specific location (build-to-line) or as a range. (See Figures D9-D11)

(b) Rear or Side Yard Height Transition to Residential Districts. Where the TSS District abuts a residential district at the rear or side lot line, building height at the rear or side yard setback line shall not exceed two (2) stories/twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height. Transitions exceeding this height and/or ratio limitation require conditional use approval. (See Figure D12) (Am. by ORD-14-00131, 8-13-14; Renum. by ORD- ORD-14-00148, 9-12-14)

(c) Additional Height. Building height exceeding the maximum may be allowed with conditional use approval. (Renum. by ORD- ORD-14-00148, 9-12-14)

(4) Site Standards.

The following standards are applicable to new buildings and additions exceeding 50% of original building's floor area.

(a) Maximum Size. Buildings shall not exceed ten thousand (10,000) square feet floor area for an individual establishment or twenty-five thousand (25,000) square feet floor area for a mixed-use or multi-tenant building. Buildings exceeding this size may be allowed as conditional uses. (Am. by ORD-15-00033, 4-8-15)

(b) For the Single-Family Attached, Small Multi-Family, Large Multi-Family, and Courtyard Multi-Family Building Forms, parking shall be located behind, beside, or below the building, or in a common parking court in the interior of a block. If located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family Buildings, structured parking at ground level shall not be visible on the front facade of the building.

(c) For all Building Forms other than (b) above, parking shall not be placed between the front facade of a building and the abutting street. Parking shall be located to rear or side of principal building; parking abutting primary street frontage is limited to forty percent (40%) of lot frontage.

(d) Parking buildings shall be designed with ground-floor retail or office uses fronting primary streets.

(5) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage.
3. Vending machines.
4. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
5. Bicycle-sharing facilities.
6. Auto service stations.
7. Agricultural activities.
8. Temporary outdoor events.
9. Solar energy systems and wind energy systems.
10. Walk-up service windows.
11. Yard sales.
12. Cemeteries.
13. Composting
14. Keeping of chickens and keeping of honeybees.
15. Outdoor recreation.

28.066 MIXED USE CENTER (MXC) DISTRICT.

(1) Statement of Purpose.

The MXC District is established to encourage the development or redevelopment of mixed-use centers that combine new or existing retail development with a variety of housing, offices, studios, live-work space, civic buildings, and other complementary uses arranged in a cohesive, compact, and walkable environment that makes it convenient for residents, customers, and employees to travel by transit, bicycle, foot, or car. The MXC District is intended to facilitate the development or redevelopment of properties recommended for mixed-use development or transit-oriented development in the Comprehensive Plan or adopted neighborhood, corridor or special area plans. MXC Districts shall be located along existing or planned high-capacity multi-modal transportation corridors. The district is also intended to:

(a) Encourage appropriate transitions between higher-intensity uses within mixed-use centers and adjacent lower-density residential districts.

(b) Encourage the development of mixed-use buildings, though not every building in the MXC District needs to include both residential and non-residential uses. However, both types of land uses shall be accommodated within the district as a whole. MXC Districts shall be planned to provide a suitable residential environment.

(2) Standards for Approval of Zoning Map Amendment.

The standards for approval of a zoning map amendment to the MXC District, approval of a MXC district master plan, or any major alteration to an approved master plan, are as follows:

(a) The MXC District and master plan shall facilitate the development or redevelopment of a property or properties recommended for mixed-use or transit-oriented development in the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(b) The range of non-residential uses, and the development density of both residential and non-residential uses in MXC districts will vary depending on the size of the district and the type and intensity of the surrounding development. An MXC District shall include a mix of residential, retail, office, open space and public uses arranged in a fashion conducive to all forms of transportation.

(c) An MXC District shall be located along existing or planned high-capacity multi-modal transportation corridors.

(d) The MXC District master plan shall not create traffic or parking demands disproportionate to the facilities and improvements designed to meet those demands. In order to determine the impacts of a MXC District, the City Traffic Engineer may require a traffic impact analysis. A Traffic Demand Management (TDM) plan may be required as a way to resolve traffic and parking concerns.

(e) The MXC District master plan shall include open space suitable to the type and character of development proposed, including for projects with residential components, a mix of structured and natural spaces for use by residents and visitors. Areas for stormwater management, parking, or in the public right of way shall not be used to satisfy this requirement.

(f) The MXC District master plan shall include suitable assurances that each phase could be completed in a manner that would not result in an adverse effect upon the community as a result of termination at that point.

(3) Master Plan Required.

Prior to the issuance of permits for construction in an MXC District or as part of a zoning map amendment as prescribed in Sec. 28.182, MGO, establishing a MXC District a master plan shall be approved to guide development of the District in a manner consistent with the statement of purpose and requirements for this section.

(a) Contents of Master Plan. All MXC District master plans shall contain the following:

1. An accurate map of the District including its relationship to surrounding properties and existing topography and key features, including existing buildings and structures.
2. The arrangement of buildings, parking facilities, internal circulation of pedestrians and vehicles, access to individual development sites from public streets and internal drives, and the location of storm drainage facilities and open spaces within the District.
3. Identification of the minimum and maximum anticipated gross square footage for the overall District and its individual sites, and the minimum and maximum height of each proposed building within the District.
4. The general arrangement of individual lots, outlots, tracts, easements, and all dedications to the public to serve the MXC District. The master plan may be used as a preliminary subdivision plat if it includes all of the information required for a preliminary plat under Sec. 16.23(7)(a), MGO. The master plan may propose a planned multi-use site as defined in Sec. 28.211 and as governed by Sec. 28.137(2), provided that any planned multi-use site in the MXC District shall be governed by the requirements of this section where the requirements of Sec. 28.137 conflict.
5. A reciprocal land use agreement approved by the Traffic Engineer, City Engineer and Director of Planning and Community and Economic Development recorded in the office of the Dane County Register of Deeds shall be required to govern shared access, circulation or parking within the District.
6. When requested, a general outline of intended organizational structure related to property owner's association, deed restrictions and private provision of common services.
7. A schedule or phasing plan indicating the approximate dates when construction of the MXC District can be expected to begin and be completed.
8. Building design standards including the massing and composition of structures, orientation of windows and entries; doors and other elements

of the facade, and primary facade materials and colors to be at least as restrictive as the minimum requirements in the General Provisions for Mixed-Use and Commercial Districts in Sec. 28.060, except that new buildings may have the functional entrance oriented to a private street if that street abuts a private parking area or other common amenity available for use by all tenants of the building. (Am. by ORD-17-00023, 2-20-17)

9. Site design standards including but not limited to the landscaping and screening of building sites, parking lots, and common open spaces, which shall be at least as restrictive as the minimum requirements in Landscaping and Screening Requirements in Sec. 28.142, and the signage of the MXC District as regulated by Chapter 31, Sign Code.

(b) Decision on Master Plan.

1. The decision process for approval of a master plan, including any major alteration to an approved master plan, shall be as specified in Sec. 28.182, including a recommendation by the Plan Commission and action by the Common Council.
2. The applicant shall receive a recommendation on the master plan from the Urban Design Commission on the proposed arrangement of buildings, parking facilities, internal circulation of pedestrians and vehicles, and access to individual development sites from public streets and internal drives prior to the Plan Commission review.
3. The Urban Design Commission shall approve the building design and site design standards in (a) 8 and 9 above prior to the issuance of building permits prior to the issuance of permits for construction in an MXC District.

(4) Permitted and Conditional Uses.

See Table 28D-2 for a complete list of allowed uses within the mixed-use and commercial districts.

(5) Dimensional Requirements.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Mixed-Use Center District	
Front yard setback	See (a) below
Side yard	Approved as part of the master plan
Rear yard setback	Approved as part of the master plan
Maximum lot coverage	85%
Maximum height	The maximum height of any building in the MXC district shall be established on the approved master plan. Any building exceeding 5 stories/68 feet shall require approval as a conditional use
Usable open space	40 sq. ft./unit

(a) Front Yard Setback.

1. On perimeter streets, a minimum of sixty percent (60%) of the lot frontage on the primary abutting street shall be occupied by buildings placed within forty (40) feet of the street right-of-way and with front or side facades oriented to the street.
2. On internal streets, a minimum of fifty percent (50%) of the lot frontage on internal streets shall be occupied by buildings placed within twenty-five (25) feet of the street right-of-way or sidewalk edge, and with front or side facades oriented to the street.

(b) Rear or Side Yard Height Transitions to Residential Districts. Where the MXC District abuts a residential district at the rear or side lot line, building height at the rear or side yard setback line shall not exceed two (2) stories/twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line (a 45° angle) up to the maximum allowed height. Transitions exceeding this height and/or ratio limitation require conditional use approval. (See Figure D12) (Am. by ORD-14-00131, 8-13-14)

(6) Site Standards.

The following standards are applicable to new buildings and additions exceeding fifty percent (50%) of original building's floor area.

(a) Maximum Size. Buildings shall not exceed twenty-five thousand (25,000) square feet floor area for an individual establishment or forty thousand (40,000) square feet floor area for a mixed-use or multi-tenant building. Buildings exceeding this size may be allowed as conditional uses. All new retail establishments with a total gross floor area (GFA) of forty thousand (40,000) square feet or more are subject to review by the Urban Design Commission under the provisions of Sec. 33.24(4)(f). (Am. by ORD-15-00033, 4-8-15)

(b) Buildings shall be oriented to the primary abutting street or to an internal street, court, walkway or plaza, where one is present.

(c) All building facades visible from a public or private street or walkway shall employ materials and design features similar to or complementary to those of the front facade.

(d) At least twenty-five percent (25%) of the required parking shall be structured.

(e) For the Single-Family Attached, Small Multi-Family, Large Multi-Family and Courtyard Multi-Family Building Forms, parking shall be located behind or beside each building, below the building, or in a common parking court in the interior of a block.

(f) For all Building Forms other than (e) above, surface parking shall not be placed between the front or side facade of a building and the primary abutting street

(g) Surface parking shall be divided into separate modules no greater in size than one hundred (100) spaces; modules shall be separated by buildings, landscaped open space areas, internal streets or landscaped pedestrian pathways at least twenty (20) feet in width.

(h) For Single-Family Attached, Small Multi-Family, Large Multi-Family, or Courtyard Multi-Family Building Forms, if parking is located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family Buildings, structured parking at ground level shall not be visible from the front facade of the building.

(i) For all Building Forms other than (h) above, parking abutting the primary street frontage shall be limited to forty percent (40%) of the total lot width.

(j) Parking buildings abutting any public or private street shall be designed with ground-floor retail or office uses fronting the primary street. Upper floors devoted solely to parking shall be stepped back from the principal facade and designed with materials and proportions similar to new commercial or mixed-use buildings.

(k) All new buildings or additions to existing buildings shall be approved by the Zoning Administrator in conformance with the building design standards and site design standards approved as part of the master plan per sub. (3)(a). Any appeal of the Zoning Administrator's decision on the application of the building design standards and site design standards shall be made to the Urban Design Commission for a determination.

(7) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage.
3. Vending machines.
4. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
5. Bicycle-sharing facilities.
6. Temporary outdoor events.
7. Walk-up service windows.
8. Agricultural activities.
9. Vehicle access sales and service windows.
10. Solar energy systems and wind energy systems.
11. Yard sales.
12. Auto service stations.
13. Cemeteries.
14. Composting.
15. Outdoor recreation.
16. Keeping of chickens and keeping of honeybees.

(8) Access and Circulation.

Any newly mapped MXC District shall take primary access from a collector or higher order street. A network of public or private streets and walkways may be used to provide circulation through the district. An internal system of streets, walkways, lanes and blocks shall be provided for districts of five (5) acres or more, and may be required as a condition of approval for a master plan or for conditional uses.

(9) Required Mix of Uses.

An MXC District larger than one (1) acre in net area shall contain uses from at least two (2) of the following categories:

(a) Commercial uses, including retail, service and office uses
(b) Residential - family and group living categories
(c) Civic and institutional uses

(10) Required Open Space.

The MXC District shall include open space suitable to the type and character of development proposed.

(a) For projects with residential components, a mix of structured and natural spaces for use by residents and visitors.
(b) Any MXC District site greater than five (5) acres in size shall include common open space designed and improved as a plaza, square or green, comprising a minimum of five percent (5%) of the development site. Areas for stormwater management not designed and improved for recreational purposes, parking, or in the public right of way shall not be used to satisfy this requirement.
(c) Open space to serve the MXC District shall be distributed throughout the district and clearly dimensioned on the master plan.

(11) Construction Required.

Any MXC master plan not constructed in accordance to its approved phasing plan, and any phases not constructed within ten (10) years of the Common Council approval of the master plan, shall require approval of a new master plan by the Common Council following a recommendation by the Plan Commission and Urban Design Commission. In considering extensions of approved master plans for unconstructed components/ phases, the commissions and council shall consider changes in the surrounding area or neighborhood since approval of the master plan that would render the project incompatible with current conditions.

(12) Changes to Master Plan.

Alterations to an approved master plan may be approved by the Plan Commission if the requested alterations are consistent with the concept approved by the Common Council, provided however, the Zoning Administrator may, following consideration by the alderperson of the district, issue permits for minor alterations that are approved by the Director of Planning and Community and Economic Development and are consistent with the concept approved by the Common Council. If the change or addition constitutes a substantial alteration of the original plan, the procedure in sub. (3) above is required.

(Sec. 28.066 Am. by ORD-16-00039, 4-8-16)

28.067 COMMERCIAL CORRIDOR - TRANSITIONAL DISTRICT.

(1) Statement of Purpose.

The CC-T District is established to recognize the many commercial corridors within the City that remain largely auto-oriented, and to encourage their transformation into mixed-use corridors that are equally conducive to pedestrian, bicycle, transit and motor vehicle activity. The district is also intended to:

(a) Improve the quality of landscaping, site design and urban design along these corridors.

(b) Maintain the viability of existing residential uses located along predominantly commercial corridors.

(c) Encourage appropriate transitions between higher-intensity uses along commercial corridors and adjacent lower-density residential districts.

(d) Facilitate preservation development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(e) Structured parking is encouraged.

(2) Permitted and Conditional Uses.

(a) See Table 28D-2 for a complete list of allowed uses within the mixed-use and commercial districts.

(3) Dimensional Requirements.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Commercial Corridor - Transitional District	
Front yard setback	See (a) below
Side yard setback: Where buildings abut residentially-zoned lots at side lot line	Minimum side yard required in the adjacent residential district
Side yard setback: Where proposed buildings or abutting buildings have window openings in side wall(s) within 6 feet of lot line	One-story: 5 Two-story or higher: 6 Lot width <40: 10% lot width
Side yard setback (for exclusive residential use)	10
Side yard setback: other cases (i.e., infill between party wall storefront buildings)	none unless needed for access
Rear yard setback	The lesser of 20% of lot depth or 20 feet
Rear yard setback: For corner lots, where all abutting property is in a nonresidential zoning district	The required rear yard setback shall be the same as the required side yard setback
Lot area (for exclusive residential use)	750 sq. ft./unit
Maximum lot coverage	85%

Commercial Corridor - Transitional District	
Maximum height	5 stories/68 See (d) below
Usable open space - residential only	160 sq. ft. per lodging room or 1-bedroom unit; 320 sq. ft. for >1-bedroom units

(Am. by ORD-13-00007, 1-15-13; ORD-17-00054, 6-19-17)

(a) Front Yard Setback. Unless designated otherwise on the zoning map, for new buildings and additions exceeding fifty percent (50%) of the building's original floor area, a minimum of fifty percent (50%) of the street-facing building wall shall be set back no more than twenty-five (25) feet. Front yard setbacks on the zoning map may be designated as a specific location (build-to-line) or as a range.

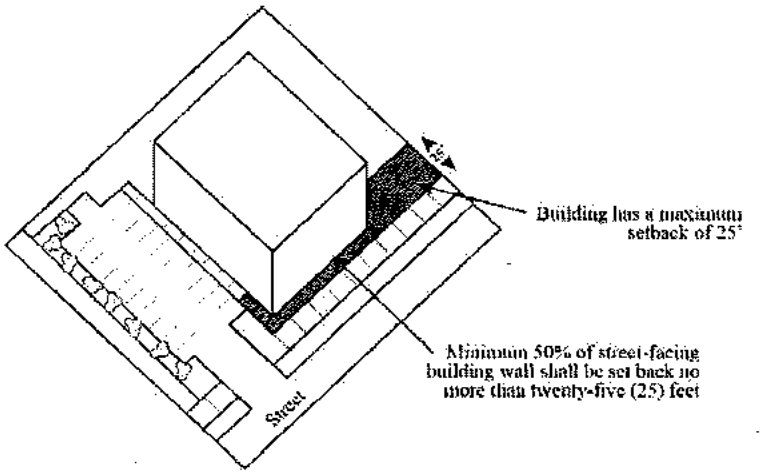

Figure D13: Maximum Setback Illustration, Option 1

2. If there is no on-street parking in front of the lot, a building may be setback of up to sixty-five (65) feet from the front property line, provided that at least seventy percent (70%) of the street-facing building wall is setback no more than sixty-five (65) feet. This setback shall allow for one (1) drive aisle and up to one (1) row of parking between the building and the street.

3. Alternatively, if there is no on-street parking in front of the lot, the following greater setbacks can be allowed if approved as a conditional use:

   a. A building may be setback of up to eighty-five (85) feet provided that at least seventy percent (70%) of the street-facing building wall is setback no more than eighty-five (85) feet. This setback shall allow for one (1) drive aisle and up to two (2) rows of parking between the building and the street.

   b. If traffic circulation, drainage and or other site design issues are shown to require additional space, the setback may be extended to a maximum of one hundred (100) feet.

(Am. by ORD-13-00127, 7-26-13)

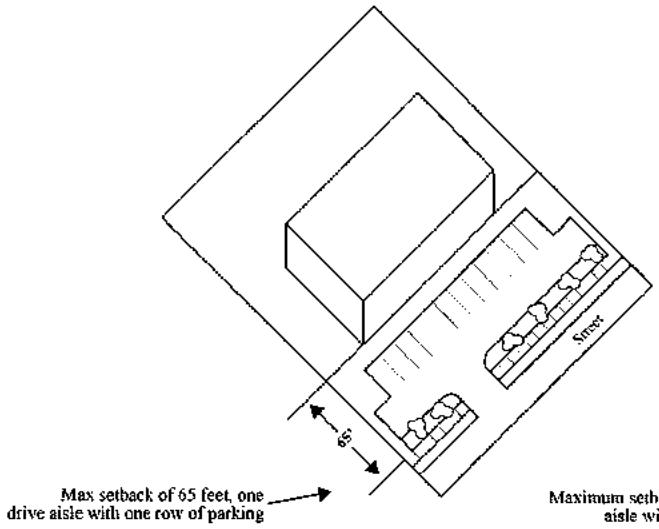

Figure D14: Maximum Setback Illustration, Option 2

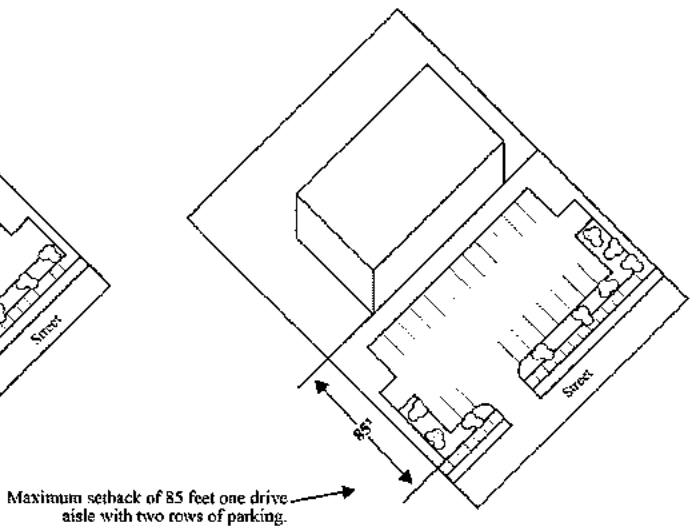

Figure D15: Maximum Setback Illustration, Option 3

(b) (Rep. by ORD-17-00054, 6-19-17)

(c) Rear or Side Yard Height Transitions to Residential Districts. Where the CCT District abuts a residential district at the rear or side lot line, building height at the rear or side yard setback line shall not exceed two (2) stories/twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height. Transitions exceeding this height and/or ratio limitation require conditional use approval. (See Figure D12) (Am. by ORD-14-00131, 8-13-14)

(d) Additional Height. Heights exceeding the maximum may be allowed with conditional use approval.

(4) Site Standards.

The following standards are applicable to new buildings and additions exceeding fifty percent (50%) of original building's floor area.

(a) Maximum Size. Buildings shall not exceed twenty-five thousand (25,000) square feet floor area for an individual establishment or forty thousand (40,000) square feet floor area for a multi-tenant building. Buildings exceeding this size may be allowed as conditional uses, meeting the standards governing large retail developments in Sec. 33.24(4)(f), except that for Frontage Requirements, see Sec. 28.065(6), MGO. (Am. by ORD-15-00033, 4-8-15)

(b) Buildings shall be oriented to the primary abutting street or to an internal street, court, walkway, plaza, or multi-use path.

(c) All building facades visible from a public street or public walkway shall employ materials and design features similar to or complementary to those of the front facade.

(d) For the Single-Family Attached, Small Multi-Family, Large Multi-Family and Courtyard Multi-Family Building Forms, parking shall be located behind or beside each building, below the building, or in a common parking court in the interior of a block.

(e) Surface parking shall be divided into separate modules no greater in size than one hundred (100) spaces; modules shall be separated by buildings, landscaped open space areas, internal streets or landscaped pedestrian pathways at least twenty (20) feet in width.

(f) Parking abutting the primary street frontage shall be limited to fifty percent (50%) of the total lot frontage, except that for the Single-Family Attached, Small Multi-Family, Large Multi-Family and Courtyard Multi-Family Building Forms, if located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family Buildings, structured parking at ground level shall not be visible on the front facade of the building.

(5) Site Standards: New and Existing Development.

(a) All business, servicing or processing shall be conducted within completely enclosed buildings, except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage.
3. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
4. Bicycle-sharing facilities.
5. Auto service stations.
6. Vehicle access sales and service windows.
7. Walk-up service windows.
8. Solar energy systems and wind energy systems.
9. Cemeteries.
10. Yard sales.
11. Vending machines.
12. Composting.
13. Outdoor recreation.
14. Keeping of chickens and keeping of honeybees.

28.068 COMMERCIAL CENTER DISTRICT.

(1) Statement of Purpose.

The CC District is established to recognize the existing large-format retail and office sites within the City that remain largely auto-oriented, and to encourage their transformation into mixed-use centers that are equally conducive to pedestrian, bicycle, transit and motor vehicle activity. The district is also intended to:

(a) Improve the quality of landscaping, site design and urban design within commercial centers.

(b) Encourage diversification of land use in commercial centers.

(c) Encourage appropriate transitions between higher-intensity uses and adjacent lower-density residential districts.

(d) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

(a) See Table 28D-2 for a complete list of allowed uses within the mixed-use and commercial districts.

(3) Dimensional Requirements.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Commercial Center District	
Front yard setback	See (a) below
Side yard setback: Where buildings abut residentially-zoned lots at side lot line	Minimum side yard required in the adjacent residential district
Side yard setback: for exclusive residential use	10

Commercial Center District	
Side yard setback: other cases	One-story: 5 Two-story or higher: 6
Rear yard setback	The lesser of 20% of lot depth or 20 feet
Rear yard setback: For corner lots, where all abutting property is in a nonresidential zoning district	The required rear yard setback shall be the same as the required side yard setback
Lot area (for exclusive residential use)	750 sq. ft./unit
Maximum lot coverage	85%
Maximum height	5 stories/68 See (d) below
Usable open space - residential only	160 sq. ft. per lodging room or 1-bedroom unit; 320 sq. ft. for >1-bedroom units

(Am. by ORD-13-00007, 1-15-13; ORD-17-00054, 6-19-17)

(a) Front Yard Setback. Unless designated otherwise on the zoning map, at least seventy percent (70%) of the street-facing building wall shall be setback no more than eighty-five (85) feet. This setback shall allow for a single drive aisle and two (2) rows of parking or landscaped area. This setback may be extended to a maximum of one hundred (100) feet if traffic circulation, drainage and or other site design issues are shown to require additional space. Front yard setbacks on the zoning map may be designated as a specific location (build-to-line) or as a range. (Am. by ORD-13-00127, 7-26-13)

(b) (Rep. by ORD-17-00054, 6-19-17)

(c) Rear or Side Yard Height Transitions to Residential Districts. Where the CC District abuts a residential district at the rear or side lot line, building height at the rear or side yard setback line shall not exceed two (2) stories/twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height. Transitions exceeding this height and/or ratio limitation require conditional use approval. (See Figure D12) (Am. by ORD-14-00131, 8-13-14)

(d) Additional Height. Heights exceeding the maximum may be allowed with conditional use approval.

(4) Site Standards.

The following standards are applicable to new buildings and additions exceeding 50% of original building's floor area.

(a) Maximum Size. Buildings shall not exceed twenty-five thousand (25,000) square feet floor area for an individual establishment or forty thousand (40,000) square feet floor area for a multi-tenant building. Buildings exceeding this size may be allowed as conditional uses, meeting the standards governing large retail developments in Section 33.24(4)(f), Madison General Ordinances. (Am. by ORD-15-00033, 4-8-15)

(b) Buildings shall be oriented to the primary abutting street or to an internal street, court, walkway or plaza.

(c) All building facades visible from a public street or walkway shall employ materials and design features similar to or complementary to those of the front facade.

(d) Surface parking shall be divided into separate modules no greater in size than one hundred (100) spaces; modules shall be separated by buildings, landscaped open space areas, internal streets or landscaped pedestrian pathways at least twenty (20) feet in width.

(e) For the Single-Family Attached, Small Multi-Family, Large Multi-Family and Courtyard Multi-Family Building Forms, parking shall be located behind or beside each building, below the building, or in a common parking court in the interior of the block. If located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family Buildings, structured parking at ground level shall not be visible on the front façade of the building.

(5) Site Standards: New and Existing Development.

(a) All activities shall be conducted within completely enclosed buildings, except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage stores.
3. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
4. Bicycle-sharing facilities.
5. Auto service stations.
6. Vehicle access sales and service windows.
7. Walk-up service windows.
8. Solar energy systems and wind energy systems.
9. Yard sales.
10. Vending machines.
11. Agricultural activities.
12. Temporary outdoor events.
13. Cemeteries.
14. Composting.
15. Keeping of chickens and honeybees. (Am. by ORD-16-00074, 9-15-16)

SUBCHAPTER 28E: DOWNTOWN AND URBAN DISTRICTS ZONING CODE

28.071 GENERAL PROVISIONS FOR DOWNTOWN AND URBAN DISTRICTS.

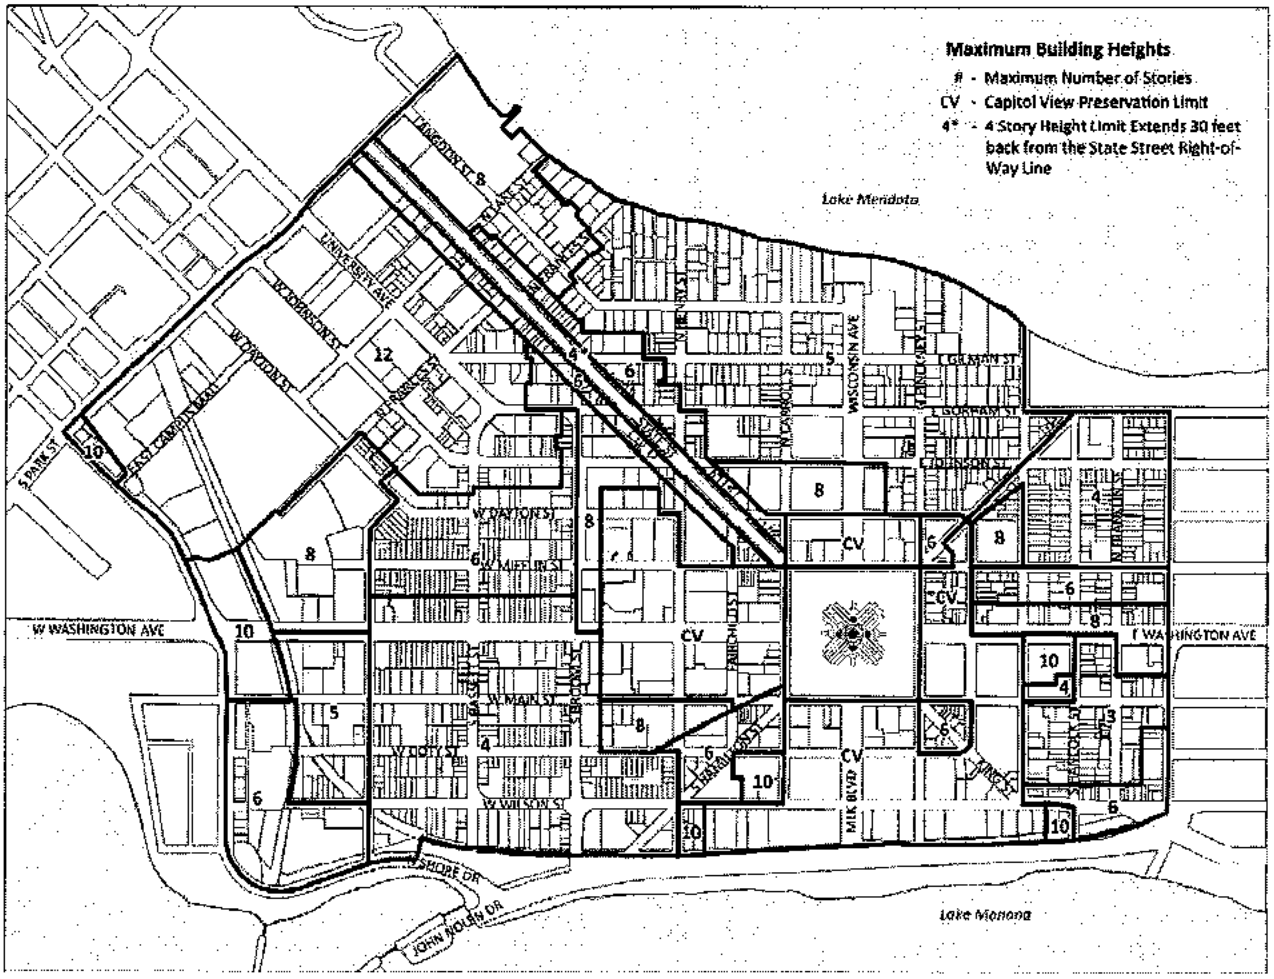
(1) Statement of Purpose.

(a) Recognize and enhance Downtown as the civic and cultural center of the City and region; the seat of state, county, and city government, and a significant retail, entertainment, and employment center;

(b) Recognize and enhance the unique characteristics of Downtown neighborhoods;

(c) Recognize the architectural heritage and cultural resources of Downtown neighborhoods;

(d) Facilitate context-sensitive development;



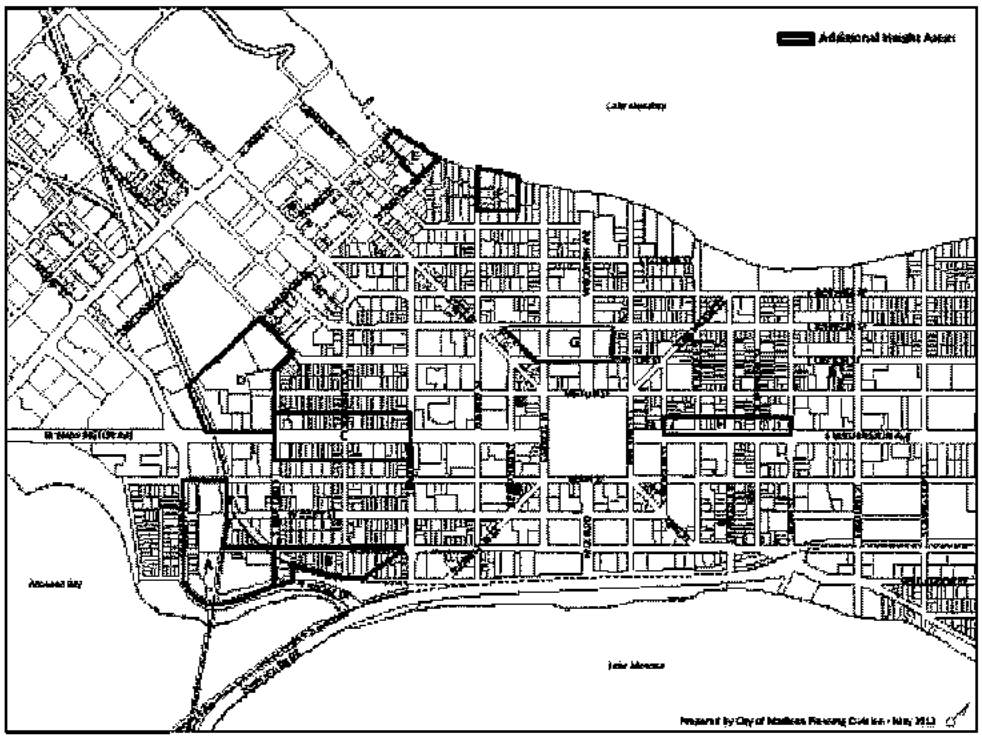
(e) Foster development with high-quality architecture and urban design; and,

(f) Protect important views as identified in the Downtown Plan.

(2) Downtown Height and Stepback Requirements.

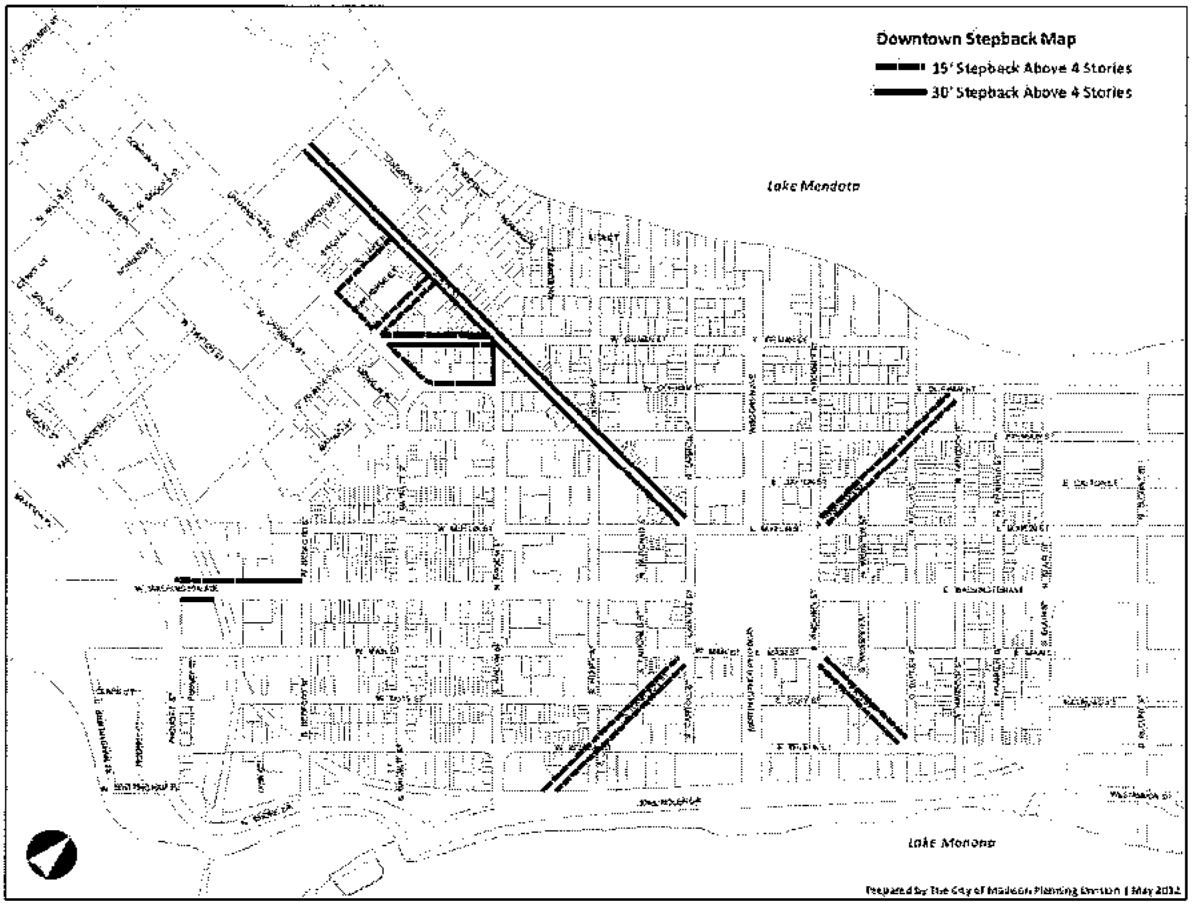
Building height within the Downtown, as defined, is established by the Downtown Height Map and the Downtown Stepback Map, which establish maximum building heights and stepback requirements.

(a) Downtown Height Map.



1. Existing buildings as of January 1, 2013 that are taller than the maximum building heights allowed by Section 28.071(2)(a) Downtown Height Map

may be redeveloped at the same height, volume and mass provided the new building is approved under the requirements of Section 28.183 Conditional Uses.



2. Existing zero-lot line buildings as of January 1, 2013 as depicted on the Parcel Analysis Map in the City of Madison Downtown Plan may be redeveloped at up to a maximum of five (5) stories, plus an additional story if stepped back on all sides if approved under the requirements of Section 28.098 Planned Development District.

(b) Additional Height Areas Map.

1. The Additional Height Areas Map defines eight (8) areas where buildings may be allowed up to two (2) additional stories above the maximum building height if approved as a conditional use under Section 28.183 provided that height is the only bulk requirement sought to be modified and the conditional use standards for additional height are met.
2. Buildings along the frontage of the 400 and 500 blocks of West Washington Avenue may be allowed two (2) additional stories above the four- (4) story building height limit provided there is a thirty- (30) foot stepback.

(c) Downtown Stepback Map.

(3) Design Standards.

The following standards are applicable to all new buildings and additions, within any ten-(10) year period, exceeding fifty percent (50%) of existing building's floor area for non-residential buildings, mixed-use buildings, lodging houses, and residential buildings with 8 or more dwelling units.

(a) Parking.

1. Parking shall be located in parking structures, underground, or in surface parking lots behind principal buildings. Parking structures shall be designed with liner buildings or with ground floor office or retail uses along all street-facing facades.
2. For corner lots or through lots, rear yard surface parking areas abutting any street frontage are limited to fifty percent (50%) of that frontage, and shall be located a minimum of ten (10) feet from the street property line.
3. Parking garage openings visible from the sidewalk shall have a clear maximum height of sixteen (16) feet and a maximum width of twenty-two (22) feet. Garage doors or gates shall be located a minimum of ten (10) feet from the front property line. Doors to freight loading bays are exempt from this requirement.
4. No doors or building openings providing motor vehicle access to structured parking or loading facilities shall face State Street, King Street, or the Capitol Square.

(b) Entrance Orientation.

1. Primary building entrances on all new buildings shall be oriented to the primary abutting public street and have a functional door.
2. Additional secondary entrances may be oriented to a secondary street or parking area.
3. Entries shall be clearly visible and identifiable from the street, and delineated with elements such as roof overhangs, recessed entries, landscaping, or similar design features.
4. Within ten (10) feet of a block corner, the facade may be set back to form a corner entry.

(c) Facade Articulation.

1. The facades of new buildings more than forty (40) feet in width shall be divided into smaller vertical intervals through techniques including but not limited to the following:
   a. Facade modulation, step backs, or extending forward of a portion of the facade.
   b. Vertical divisions using different textures, materials, or colors of materials.
   c. Division into multiple storefronts, with separate display windows and entrances.
   d. Variation in roof lines to reinforce the modulation or vertical intervals.
   e. Arcades, awnings, window bays, arched windows, and balconies to reinforce the vertical intervals.

(d) Story Heights and Treatment.

1. For all buildings, the maximum ground story height is eighteen (18) feet, measured from the sidewalk to the second story floor. An atrium that exceeds eighteen (18) feet will be considered more than one (1) story.
2. Upper stories shall not exceed fourteen (14) feet floor to floor.
3. For all buildings, the minimum ground story height is twelve (12) feet, measured from the sidewalk to the second story floor.
4. For non-residential uses, the average ground story floor elevation shall not be lower than the front sidewalk elevation nor higher than eighteen (18) inches above the sidewalk elevation.
5. For ground-story residential uses, landscaping, steps, porches, grade changes, and low ornamental fences or walls or similar treatments shall be located between the sidewalk and the front door to create a private yard area.

(e) Door and Window Openings.

1. For street-facing facades with ground story non-residential uses, the ground story door and window openings shall comprise a minimum of fifty percent (50%) of the facade area.
2. For street-facing facades with ground story residential uses, ground story openings shall comprise a minimum of fifteen percent (15%) of the facade area.
3. For all buildings, upper story openings shall comprise a minimum of fifteen percent (15%) of the facade area per story.
4. Garage doors and opaque service doors shall not count toward the above requirements.
5. Glass on all windows and doors shall be clear or slightly tinted, allowing views into and out of the interior. Spandrel glass may be used on service areas on the building.

(f) Building Materials.

1. Buildings shall be constructed of durable, high-quality materials. Table 28 E-1 below lists allowable building materials.
2. All building facades visible from a public street or public walkway shall use materials and design features similar to or complementary to those of the front facade.

Table 28E-1: Building Materials in Downtown and Urban Districts.

Building Materials	Trim/Accent Material	Top of Building	Middle of Building	Base/Bottom of Building	Standards (see footnotes)
Brick (Face/Veneer)	✓	✓	✓	✓	
Smooth-Face/Split-Face Block	✓	✓	✓	✓	A
Wood/Wood Composite	✓	✓	✓	✓	B
Fiber-Cement Siding/Panels	✓	✓	✓	✓	B
Concrete Panels (Tilt-up or Precast)	✓	✓	✓	✓	C
EIFS/Synthetic Stucco	✓	✓			D
Stone/Stone Veneer	✓	✓	✓	✓	
Metal Panels	✓	✓	✓	✓	E
Hand-Laid Stucco	✓	✓			D
Reflective Glass/Spandrel	✓				F
Glass (Transparent)	✓	✓	✓	✓	

A - Shall be used in conjunction with a palette of materials and shall not comprise more than thirty-three percent (33%) of any building.
B - Wood and fiber cement panels shall not be used on the ground story except between the sidewalk and the bottom of storefront windows or as an accent material.
C - Shall incorporate horizontal and vertical articulation and modulation, including but not limited to changes in color and texture, or as part of a palette of materials.
D - Shall not be within three feet of the ground or used on building facades facing State Street, King Street, or the Capitol Square.
E - Shall be used in conjunction with a palette of materials; shall be a heavy gauge, non-reflective metal
F - Shall be used in limited quantities as an accent material.

(g) Equipment and Service Area Screening.

1. Outdoor loading areas or mechanical equipment are not permitted in the front yard. When visible from an abutting public street or walkway, they shall be screened by a decorative fence, wall, or screen of plant material.
2. No doors or openings providing access to parking or loading facilities shall abut the Capitol Square, State Street or King Street.
3. Fences and walls shall be architecturally compatible with the principal structure.

(h) Screening of Rooftop Equipment.

1. All rooftop equipment, with the exception of solar and wind equipment, shall be screened from view from adjacent streets and public rights-of-way. Rooftop equipment shall be screened from view from adjacent buildings to the extent possible.
2. The equipment shall be within an enclosure. This structure shall be set back a distance of one and one-half (1½) times its height from any primary facade fronting a public street. Screens shall be of durable, permanent materials (not including wood) that are compatible with the primary building materials. (Am. by ORD-15-00104, 10-15-15)

28.072 DOWNTOWN DISTRICT USES.

(1) Table 28E-2 lists all permitted and conditional uses in the downtown and urban districts.

(a) "P" means permitted in the districts where designated.

(b) "C" means allows as conditional uses in the districts where designated, in compliance with all applicable standards.

(c) "P/C" means permitted or conditional, depending on specific requirements in Supplemental Regulations, Subchapter 28J.

(d) "Y" means there are specific requirements in Subchapter 28J associated with the use.
(e) "DC" means Downtown Core District.
(f) "UOR" means Urban Office Residential District.
(g) "UMX" means Urban Mixed-Use Districts.
(h) "DR1" means Downtown Residential 1 District.
(i) "DR2" means Downtown Residential 2 District.

Table 28E-2.

28.074 DOWNTOWN CORE DISTRICT.

(1) Statement of Purpose.

The DC District is established to recognize the Capitol Square, the State Street corridor, and surrounding properties as the center of governmental, office, educational, cultural, specialty retail and recreational activities for the City and the region. Residential uses are appropriate in some locations or in combination with other uses. This district is intended to allow intensive development with high-quality architecture and urban design.

(2) Permitted and Conditional Uses.

See Table 28E-2 for a complete list of allowed uses within the downtown and urban districts.

(3) Dimensional Standards.

Standards represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Downtown Core District	
Lot area (sq. ft.)	No minimum
Minimum front yard setback	0 See (a) below
Maximum front yard setback	Buildings facing State Street, King Street or Capitol Square: 5 See (a) below
Side yard setback	The first two (2) stories of one side of all buildings: 0 See (a) below
Rear yard setback	0
Minimum height	2 Stories
Maximum height	See Downtown Height Map
Stepback	See Downtown Stepback Map

(a) Specific front and/or side yard setbacks may be designated on the zoning map and may be designated as a specific location (build to line), a minimum, or a range.

(4) Design Review.

Design review for all buildings and structures shall be as follows:

(a) Minor exterior changes or additions may be approved by the Director of the Department of Planning, Community, and Economic Development if he/she determines that the changes or additions are compatible with the existing design or consistent with the Downtown Urban Design Guidelines.

(b) All new buildings and additions that are less than twenty-thousand (20,000) square feet and are not approved pursuant to (a) above, as well as all major exterior alterations to any building shall be approved by the Urban Design Commission based on the design standards in Sec. 28.071(3), if applicable, and the Downtown Urban Design Guidelines. The applicant or the Alderperson of the District in which the use is located may appeal the decision of the Urban Design Commission to the Plan Commission.

(c) All new buildings and additions greater than twenty thousand (20,000) square feet or that have more than four (4) stories shall obtain conditional use approval. In addition, the Urban Design Commission shall review such projects for conformity to the design standards in Sec. 28.071(3), if applicable, and the Downtown Urban Design Guidelines and shall report its findings to the Plan Commission.

(d) Class 2 Collocations and Radio Broadcast Service Facilities are permitted uses and are not subject to design review. They are subject to review as provided in Sections 28.143 and 28.148. See Wis. Stat. §§ 66.0404(3)(a)1 and (4)(gm) and 66.0406 (2013) (Cr. by ORD-13-00189, 11-26-13)

(5) Alterations to Approved Designs.

For buildings approved pursuant to (b) or (c) above, the Director of the Department of Planning, Community and Economic Development may approve minor alterations or additions if he/she determines that such alterations or additions are consistent with Sec. 28.071(3), if applicable, the Downtown Urban Design Guidelines, and the previously approved design.

(6) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage.
3. Vending machines.
4. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
5. Bicycle-sharing facilities.
6. Auto service stations.
7. Agricultural activities.
8. Temporary outdoor events.
9. Solar energy systems and wind energy systems.
10. Walk-up service windows.
11. Yard sales.
12. Composting.
13. Keeping of chickens and keeping of honeybees.
14. Outdoor recreation.
15. Vehicle access sales and service windows.
16. Farmers market.

28.075 URBAN OFFICE-RESIDENTIAL (UOR) DISTRICT.

(1) Statement of Purpose.

This district is intended to provide for office uses in combination with medium-density residential uses in close proximity to residential neighborhoods. Limited retail and service uses serving the immediate neighborhood may be appropriate in combination with the primary office and residential uses. This district may also serve as a transition between more intense zoning districts and surrounding residential uses.

(2) Permitted and Conditional Uses.

See Table 28E-2 for a complete list of allowed uses within the downtown and urban districts.

(3) Dimensional Standards.

Standards represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Urban Office-Residential District	
Lot area (sq. ft.)	8,000
Lot width	65

Urban Office-Residential District	
Front yard setback	15 See (a) below
Side yard setback	10
Rear yard setback	20% of lot depth, but at least 30 See (b) below
Maximum lot coverage	75%
Minimum height	2 stories
Maximum height	See Downtown Height Map
Stepback	See Downtown Stepback Map
Usable open space	20 sq. ft. per bedroom See (c) below

(a) Specific front yard setbacks may be designated on the zoning map and may be designated as a specific location (build to line), a minimum, or a range.

(b) Underground parking may extend into the rear yard setback if located completely below grade.

(c) Usable open space may take the form of at-grade open space, porches, balconies, roof decks, green roofs or other above-ground amenities.

(4) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage.
3. Vending machines.
4. Bicycle-sharing facilities.
5. Agricultural activities.
6. Temporary outdoor events.
7. Solar energy systems and wind energy systems.
8. Yard sales.
9. Composting.
10. Keeping of chickens and keeping of honeybees.
11. Outdoor recreation.
12. Outdoor cooking and service areas associated with food and beverage establishments. (Cr. by ORD-13-00178, 10-23-13)

28.076 URBAN MIXED-USE (UMX) DISTRICT.

(1) Statement of Purpose.

This district is intended to provide opportunities for high-density residential and office uses in combination with limited retail and service uses designed to serve the immediate surroundings.

(2) Permitted and Conditional Uses.

See Table 28E-2 for a complete list of allowed uses within the downtown and urban districts.

(3) Dimensional Standards.

Standards represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Urban Mixed-Use District	
Lot area (sq. ft.)	3,000
Lot width	30

Urban Mixed-Use District	
Minimum front yard setback	Nonresidential or mixed-use buildings: 0 Residential buildings: 5 See (a) below
Maximum front yard setback	10 See (a) below
Side yard setback	0
Rear yard setback	10 See (b) below
Maximum lot coverage	90%
Minimum height	2 Stories
Maximum height	See Downtown Height Map
Stepback	See Downtown Stepback Map
Usable open space	10 sq. ft. per bedroom See (c) below

(a) Specific front yard setbacks may be designated on the zoning map and may be designated as a specific location (build to line), a minimum, or a range.

(b) Underground parking may extend into the rear yard setback if it is located completely below pre-construction existing grade or under a slope of no greater than one (1) to three (3) feet to the lot line and is completely covered by landscape. (Am. by ORD-16-00051, 5-25-16)

(c) Usable open space may take the form of at-grade open space, porches, balconies, roof decks, green roofs or other above-ground amenities.

(4) Design Review.

Design review for all buildings and structures shall be as follows:

(a) Minor exterior changes or additions may be approved by the Director of the Department of Planning, Community, and Economic Development if he/she determines that the changes or additions are compatible with the existing design or consistent with the Downtown Urban Design Guidelines.

(b) All new buildings and additions that are less than twenty-thousand (20,000) square feet and are not approved pursuant to (a) above, as well as all major exterior alterations to any building shall be approved by the Urban Design Commission based on the design standards in Sec. 28.071(3), if applicable, and the Downtown Urban Design Guidelines. The applicant or the Alderperson of the District in which the use is located may appeal the decision of the Urban Design Commission to the Plan Commission.

(c) All new buildings and additions greater than twenty thousand (20,000) square feet or that have more than four (4) stories shall obtain conditional use approval. In addition, the Urban Design Commission shall review such projects for conformity to the design standards in Sec. 28.071(3), if applicable, and the Downtown Urban Design Guidelines and shall report its findings to the Plan Commission.

(d) Class 2 Collocations and Radio Broadcast Service Facilities are permitted uses and are not subject to design review. They are subject to review as provided in Sections 28.143 and 28.148. See Wis. Stat. §§ 66.0404(3)(a)1 and (4)(gm) and 66.0406 (2013) (Cr. by ORD-13-00189, 11-26-13)

(5) Alterations to Approved Designs.

For buildings approved pursuant to (b) or (c) above, the Director of the Department of Planning, Community and Economic Development may approve minor alterations or additions if he/she determines that such alterations or additions are consistent with Sec. 28.071(3), if applicable, the Downtown Urban Design Guidelines, and the previously approved design.

(6) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage.
3. Vending machines.
4. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
5. Bicycle-sharing facilities.
6. Auto service stations.
7. Agricultural activities.
8. Temporary outdoor events.
9. Solar energy systems and wind energy systems.
10. Walk-up service windows.
11. Yard sales.
12. Composting.
13. Keeping of chickens and keeping of honeybees.
14. Outdoor recreation.
15. Vehicle access sales and service windows.
16. Farmers market.

28.077 DOWNTOWN RESIDENTIAL DISTRICTS.

(1) Statement of Purpose.

These districts are intended to recognize historic Downtown neighborhoods comprised of predominantly residential uses with some non-residential uses. The districts are also intended to:

(a) Facilitate the preservation, development or redevelopment goals of the comprehensive plan and of adopted neighborhood, corridor or special area plans.

(b) Promote the preservation and conservation of historic buildings and districts while allowing selective infill and redevelopment based on the recommendations of adopted City plans.

(c) Ensure that new buildings and additions to existing buildings are designed with sensitivity to their context in terms of scale and rhythm, building placement, facade width, height and proportions, garage and driveway placement, landscaping and similar design features.

28.078 DOWNTOWN RESIDENTIAL 1 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28E-2 for a complete list of allowed uses within the downtown and urban districts.

(2) Dimensional Standards.

Standards represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Downtown Residential 1 District	
Lot area (sq. ft.)	3,000
Lot width	1, 2, and 3-unit dwellings: 30 >3-unit dwellings, and non-residential and mixed-use buildings: 40
Front yard setback	15 See (a) below

Downtown Residential 1 District	
Side yard setback	5 Lot width <40: 10% lot width
Rear yard setback	Lesser of 20% lot depth or 30 See (b) below
Maximum lot coverage	75%
Maximum height	See Downtown Height Map
Stepback	See Downtown Stepback Map
Usable open space	40 sq. ft. per bedroom See (c) below

(Am. by ORD-14-00133, 8-13-14)

(a) Front yard setbacks may be designated on the zoning map as a specific location (build to line), a minimum, or a range.

(b) Underground parking may extend into the rear yard setback if located completely below grade.

(c) Usable open space may take the form of at-grade open space, porches, balconies, roof decks, green roofs or other above-ground amenities.

(3) Residential Point System.

To ensure a variety of housing types in the downtown area, the following point values are established:

Type of Dwelling Unit	Point Value
Studio/efficiency unit	0.75
One-bedroom unit	1
Two-bedroom unit	2
Three or more bedroom unit	3

In any building except for the Residential - Group Living category (see Table 28E-2) the average point value for all dwelling units must be at least 1.25. (Am. by ORD-16-00096, 11-9-16)

(4) Building Standards.

The following standards are applicable to new buildings and additions, within any ten- (10) year period, exceeding fifty percent (50%) of existing building's floor area.

(a) Maximum Building Width. The maximum width of any building fronting the primary abutting street shall not exceed sixty (60) feet.

(b) Through-lot Development. Development of through lots shall be designed with buildings oriented to each street and with a minimum distance of sixty (60) feet between rear facades of above-ground building elements. Underground parking may extend into this shared rear yard area if located completely below grade.

28.079 DOWNTOWN RESIDENTIAL 2 DISTRICT.

(1) Permitted and Conditional Uses.

See Table 28E-2 for a complete list of allowed uses within the downtown and urban districts.

(2) Dimensional Standards.

Standards represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Downtown Residential 2 District	
Lot area	3,000 sq. ft.
Lot width	30 for 1, 2, and 3-unit buildings 40 for 4-unit buildings and higher, and for non-residential and mixed-use buildings
Front yard setback	10 See (a) below
Side yard setback	5 Lot width <40: 10%
Rear yard setback	Lesser of 20% lot depth or 20 See (b) below
Maximum lot coverage	80%
Minimum height	2 stories
Maximum height	See Downtown Height Map
Stepbacks	See Downtown Stepback Map
Usable open space	20 sq. ft. per bedroom See (c) below

(Am. by ORD-15-00105, 10-15-15)

(a) Front yard setbacks may be designated on the zoning map as a specific location (build to line), minimum, or a range.

(b) Underground parking may extend into the rear yard setback if located completely below grade.

(c) Usable open space may take the form of at-grade open space, porches, balconies, roof decks, green roofs or other above-ground amenities.

(3) Residential Point System.

To ensure a variety of housing types in the downtown area, the following point values are established:

Type of Dwelling Unit	Point Value
Studio/efficiency unit	0.75
One-bedroom unit	1
Two-bedroom unit	2
Three or more bedroom unit	3

In any building except for the Residential - Group Living category (see Table 28E-2) the average point value for all dwelling units must be at least 1.25.

SUBCHAPTER 28F: EMPLOYMENT DISTRICTS

28.081 EMPLOYMENT DISTRICTS.

(1) Statement of Purpose.

Employment districts are established to strengthen and diversify the local economy, expand the local tax base, cultivate an entrepreneurial culture and stimulate job creation. The districts are also intended to:

(a) Encourage the design of employment centers that are well-connected to transit, bike and pedestrian corridors, regional highways, and nearby housing, civic, commercial and recreational uses.

(b) Encourage provision of support facilities and services to employment centers.

(c) Encourage sustainable building and site design.

(d) Provide adequate buffering and screening for less intensive land uses adjoining industrial or other employment uses, in particular, to minimize the impact of odors, noise, vibration, glare and other potential effects of manufacturing beyond the property where such uses exist.

(e) Provide adequate screening of outdoor activities and storage from primary streets.

28.082 EMPLOYMENT DISTRICT USES.

(1) Table 28F-1 lists all permitted and conditional uses in the employment districts.

(a) "P" means permitted in the districts where designated.

(b) "C" means allowed as conditional uses in the districts where designated, in compliance with all applicable standards.

(c) "P/C" means permitted or conditional, depending on specific requirements in Supplemental Regulations, Subchapter 28J, as specified.

(d) "Y" means that there are specific requirements in Subchapter 28J associated with a use.

(e) "TE" means Traditional Employment District.

(f) "SE" means Suburban Employment District.

(g) "SEC" means Suburban Employment Center District.

(h) "EC" means Employment Campus District.

(i) "IL" means Industrial - Limited District.

(j) "IG" Industrial - General District.

28.084 TRADITIONAL EMPLOYMENT DISTRICT.

(1) Statement of Purpose.

The TE District is established to encourage a broad range of employment activities, taking advantage of the varied transportation options and proximity to urban activities and cultural amenities found in many Traditional Employment locations. Residential uses are of secondary importance. The district is also intended to:

(a) Encourage businesses with the potential to provide significant numbers of living-wage jobs that contribute to a sustainable economy and a strong tax base.

(b) Support the continued use or adaptive re-use of traditional industrial buildings for a variety of purposes.

(c) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

See Table 28F-1 for a complete list of allowed uses within the employment districts.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Traditional Employment District	
Lot area (sq. ft.)	6,000
Lot area (for exclusive residential use)	2000 sq. ft./unit
Lot width	50
Front yard setback	None (see frontage requirements)
Side yard setback: Where buildings abut residentially-zoned lots at side lot line.	Minimum side yard required in the adjacent residential district
Side yard setback: for exclusive residential use	5 ft.: 1 story 6 ft.: 2 or more stories
Side yard setback: other cases (i.e. infill between party wall storefront buildings)	None unless needed for access

Traditional Employment District	
Rear yard setback	Lesser of 20% lot depth or 20
Maximum lot coverage	85%
Minimum height	22, measured to building cornice
Maximum height	5 stories/68 See (c) below
Usable open space - residential only	20 sq. ft./bedroom

(Am. by ORD-14-00003, 1-14-14; ORD-14-00133, 8-13-14; ORD-14-00169, 12-3-14; ORD-17-00054, 6-19-17)

(a) (Rep. by ORD-17-00054, 6-19-17)

(b) Rear or Side Yard Height Transitions to Adjacent Residential Districts. Where the TE District abuts a residential district, building height at the rear or side yard setback line shall not exceed two (2) stories/twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height. (Am. by ORD-14-00131, 8-13-14)

(c) Additional Height. Building heights exceeding the maximum height may be allowed with conditional use approval. (Cr. by ORD-13-00007, 1-15-13)

(4) Site Standards.

The following standards apply to new buildings and additions exceeding fifty percent (50%) of the original building's floor area.

(a) Parking Placement. Parking shall not be placed between the plane of the front facade of a building and the abutting street. In addition, for buildings at corner locations, surface parking shall not be placed between the plane of a side facade of the building and an abutting street, in the area from said street back to a point marking fifty percent (50%) of the total building depth. These provisions do not apply when the building being enlarged is an existing landmark building or a contributing building in a historic district.

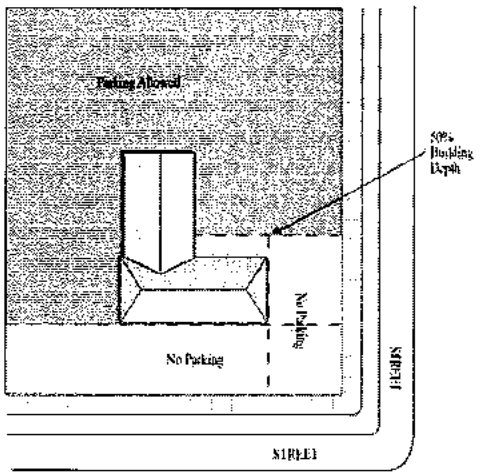

Figure F1: Parking Placement on Corner Properties

(b) For the Single-Family Attached, Small Multi-Family, Large Multi-Family and Courtyard Multi-Family Building Forms, parking shall be located behind or beside each building, below the building, or in a common parking court in the interior of a block. If located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family Buildings, structured parking at ground level shall not be visible from the front facade of the building.

(c) For all Building Forms other than (b) above, parking shall be located to the rear or side of the principal building.

(d) Loading. All loading shall be from the rear or side of the building, but not facing an arterial street. Loading docks may be located in the rear yard, or a side yard facing a street that is internal to a TE district.

(e) Entrance Orientation. Primary building entrances on all new buildings shall be oriented to the primary abutting public street. The entrance shall have a functional door. Additional, secondary entrances may be oriented to a secondary street or parking area. Entries shall be clearly visible and identifiable from the street, and delineated with elements such as roof overhangs, recessed entries, landscaping, or similar design features. Barrier-free entrances are encouraged.

(f) Notwithstanding (a), for lots abutting a street on three (3) or more sides, a maximum of twelve (12) parking stalls but no more than fifty percent (50%) of the total surface parking spaces may be located between the front facade and the street. These spaces shall be oriented to customers and visitors. (Cr. by ORD-14-00069, 4-16-14)

(Sec. 28.084(4) Am. by ORD-13-00193, 11-26-13)

(5) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings, except:

1. Off-street parking and off-street loading.
2. Outdoor display and outdoor storage.
3. Temporary outdoor events.
4. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
5. Agricultural activities.
6. Vehicle access sales and service windows.
7. Solar energy systems and wind energy systems.
8. Bicycle-sharing facilities.
9. Farmers' markets.
10. Composting.
11. Auto service stations.
12. Outdoor recreation.

(b) Outside storage shall be effectively screened with screening between six (6) and eight (8) feet in height. Storage shall not exceed the height of the screening. Storage and loading areas shall be screened from direct view from the street, including views down access driveways.

28.085 SUBURBAN EMPLOYMENT DISTRICT.

(1) Statement of Purpose.

The SE District is established to encourage a broad range of employment activities, including limited industrial uses conducted within enclosed buildings, while also encouraging shared access, improved landscaping and site design, and bicycle and pedestrian facilities. The district is also intended to:

(a) Encourage the integration of complementary employment and related uses in an attractive and pedestrian-oriented environment.

(b) Discourage proliferation of highway-oriented commercial uses that reduce the land area available for development or expansion of employment uses.

(c) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

See Table 28F-1 for a complete list of allowed uses within the employment districts.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Suburban Employment District	
Lot area (sq. ft.)	20,000
Lot area (for exclusive residential use)	2000 sq. ft./unit
Lot width	65
Front yard setback	See (a) below
Side yard setback	15 or 20% building height
Side yard setback (for exclusive residential use)	15 or 20% of building height
Rear yard setback	30
Maximum lot coverage	75%
Minimum height	22, measured to building cornice
Maximum height	5 stories/68 Residential uses: 4 stories/55 See (d) below
Usable open space - residential only	400 sq. ft./unit

(Am. by ORD-17-00054, 6-19-17)

(a) Front Yard Setback. For buildings at corner locations, within thirty (30) feet of the corner, at least seventy percent (70%) of the building facade shall be located within twenty-five (25) feet of the front lot line. Parking shall not be placed between the building and the street in this area.

(b) (Rep. by ORD-17-00054, 6-19-17)

(c) Rear or Side Yard Height Transitions to Adjacent Residential Districts. Where the SE District abuts a residential district, building height at the rear or side yard setback line shall not exceed two (2) stories/twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height. (Am. by ORD-14-00131, 8-13-14)

(d) Additional Height. Building heights exceeding the maximum may be allowed with conditional use approval.

(e) For lots of record created prior to adoption of this ordinance with existing buildings exceeding five (5) stories or sixty-eight (68) feet, the maximum building height shall be limited to the height of any existing buildings exceeding five (5) stories or sixty-eight (68) feet.

(4) Site Standards: New Development.

The following standards apply to new buildings and additions exceeding fifty percent (50%) of the original building's floor area.

(a) Parking Placement. For the Single-Family Attached, Small Multi-Family, Large Multi-Family, and Courtyard Multi-Family Building Forms, parking shall be located behind or beside each building, below the building, or in a common parking court in the interior of a block. If located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family buildings, structured parking at ground level shall not be visible from the front facade of the building

(b) For all Building Forms other than (a) above, the majority of off-street parking shall be located to the rear or side of the principal building. A maximum of one drive aisle and two rows of parking, not to exceed seventy (70) feet of parking, may be located between the front of the principal building and the street, set back at least twenty-five (25) feet from the front lot line.

(c) The building front shall be oriented to the primary street. Loading and service areas shall be located at the rear or side of the building, but not facing an arterial street. Loading docks may be located in the rear yard, or a side yard facing a street that is internal to an SE district.

(5) Site Standards; New and Existing Development.

(a) All business activities shall be conducted within completely enclosed building, except:

1. Off-street parking and off-street loading.
2. Composting.
3. Bicycle-sharing facilities.
4. Outdoor display and outdoor storage.
5. Temporary outdoor events.
6. Agricultural activities.
7. Solar energy systems and wind energy systems.
8. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
9. Vehicle access sales and service windows.
10. Outdoor recreation.

(b) All storage, except for storage of licensed operable vehicles, shall be within completely enclosed buildings or located to the rear of buildings and limited to a maximum of five percent (5%) of the total lot area. Outside storage shall be effectively screened with screening between six (6) and eight (8) feet in height. Storage shall not exceed the height of the screening. Storage and loading areas shall be screened from direct view from the street, including views down access driveways.

28.086 SUBURBAN EMPLOYMENT CENTER DISTRICT.

(1) Statement of Purpose.

The SEC district is established to recognize existing office and research parks developed in accordance with master plans, and to provide for the continued development of these parks in accordance with their adopted plans. Therefore, the placement of buildings, open space, internal roads and parking within these parks is allowed to remain in its current form. The district is also intended to encourage the integration of complementary employment and related uses in an attractive and functional environment. The district is not intended to apply to new office and research parks.

(2) Permitted and Conditional Uses.

See Table 28F-1 for a complete list of allowed uses within the employment districts.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Suburban Employment Center District	
Lot area	1 acre
Lot width	100
Front yard setback	25
Side yard setback	15 or 20% building height (the greater)
Rear yard setback	30 or 45% of building height (the greater)
Maximum lot coverage	75%
Maximum building coverage	50%
Maximum floor area ratio	1.0
Minimum height	22, measured to building cornice
Maximum height	none

(4) Site Standards.

(a) In the design of any office or research park, consideration shall be given to pedestrian circulation, preservation and linkage of open space areas, location of future buildings, and the clustering of amenities to provide for a planned integrated development.

(b) Parking Design. Access driveways and parking lots shall be separated from principal pedestrian walkways and recreational areas by pavement markings, curbs, planting areas, fences or other appropriate materials to ensure pedestrian safety.

1. Off-street parking shall not be located within front or street side yard setbacks, but may be located within rear yard and interior side yard setbacks and the building envelope.
2. Surface parking located in a side or rear yard setback shall be set back a minimum of twenty (20) feet from the boundary of a Residential or Special district.

(c) All storage, except for storage of licensed operable vehicles, shall be within completely enclosed buildings or located to the rear of buildings and limited to a maximum of five percent (5%) of the total lot area. Outside storage shall be effectively screened with screening between six (6) and eight (8) feet in height. Storage shall not exceed the height of the screening. Storage and loading areas shall be screened from direct view from the street, including views down access driveways.

(d) All business activities shall be conducted within completely enclosed buildings except:

1. Off-street parking and off-street loading.
2. Outside storage and outdoor display.
3. Bicycle-sharing facilities.
4. Temporary outdoor events.
5. Outdoor eating, cooking, and service area associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
6. Agricultural activities.
7. Solar energy systems and wind energy systems.
8. Composting.
9. Vehicle access sales and service windows.
10. Outdoor recreation.

(5) Design Review.

All buildings constructed within an SEC district shall be reviewed and approved by an architectural review committee. The committee shall be established by the developer of the district and shall meet the following criteria:

(a) The building design review criteria, design standards and guidelines, review procedures, categories of membership, and the language of any deed or plat restriction must be approved by the Urban Design Commission.

(b) Until an architectural review committee is established and approved by the Plan Commission, all building and site plans shall be reviewed and approved by the Urban Design Commission.

28.087 EMPLOYMENT CAMPUS DISTRICT.

(1) Statement of Purpose.

The EC District is established to provide an aesthetically attractive urban working environment intended to promote desirable economic development activities, including high-technology, research and development, testing, and specialized manufacturing establishments, as well as professional offices and business incubators. The district is also intended to:

(a) Encourage compact development, primarily with multi-story buildings.
(b) Encourage mixed-use development in appropriate locations.
(c) Provide readily accessible services for employees.
(d) Improve pedestrian, bicycle and transit connections to and through employment campuses.
(e) Encourage building and site design that advance the City's sustainability goals.
(f) Maintain and improve the quality of the natural landscape within employment campuses.
(g) Provide appropriate transitions to surrounding land uses.
(h) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and adopted neighborhood, corridor or special area plans.
(i) Facilitate development with multiple buildings.

(2) Permitted and Conditional Uses.
See Table 28F-1 for a complete list of allowed uses within the employment districts.

(3) Dimensional Requirements, Permitted and Conditional Uses.
Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Employment Campus District	
Site area	5 acres
Front yard setback	See (a) below
Side yard setback	10; 0 if sharing a common wall with a building on an adjacent lot
Rear yard setback	10; 0 if sharing a common wall with a building on an adjacent lot
Maximum lot coverage	85%
Minimum floor area ratio (FAR)	0.35 (See (c) below)

(a) Front Yard Setback. At least fifty percent (50%) of the building facade facing the front property line shall be located within thirty (30) feet of the front lot line. For corner lots, the side street shall be treated as a front yard.
(b) Exclusive Residential Use. Buildings with exclusively residential uses shall meet the Lot Area, Lot Width, and Side Yard Setback requirements of the TR-V2 District, Sec. 28.047.
(c) For phased development, the minimum FAR for the first phase shall be 0.20. Area used for multi-site or regional stormwater management or for low-impact storm-water management methods shall not be counted as part of the floor area ratio calculation.

(4) Site Standards.
The following standards apply to new buildings and additions exceeding fifty percent (50%) of the original building's floor area.
(a) Parking Placement. For the Single-Family Attached, Small Multi-Family, Large Multi-Family and Courtyard Multi-Family Building Forms, parking shall be located behind or beside each building, below the building, or in a common parking court in the interior of a block. If located on the side of the building, surface or structured parking shall occupy no more than twenty-five percent (25%) of the frontage along the primary abutting street. For Large Multi-Family Buildings, structured parking at ground level shall not be visible from the front facade of the building.
(b) For all Building Forms other than (a) above accessory off-street parking lots and loading berths, and access driveways shall be located, designed and improved so as to provide for safe and convenient access from adjoining streets, as well as safe and

convenient circulation within the site. Access driveways and parking lots shall be separated from principal pedestrian walkways and recreational areas by pavement markings, curbs, planting areas, fences or other appropriate materials to ensure pedestrian safety. Off-street parking lots shall not be located in required front yards or street side yards on corner lots, but may be located in required rear yards to the rear of a building or in an interior side yard beyond the larger of the required front yard or the actual front setback. A parking lot containing not more than ten (10) parking spaces may be located to the front or side of a building, but not in any required front yard or in the required street side yard on a corner lot unless shown on an approved master plan for the district. If approved by the Architectural Design Committee, a parking lot containing more than ten (10) parking spaces may be located the front or side of a building, but not in any required front yard or in the required street side yard on a corner lot. Any parking lot located in a required side or rear yard shall be located not less than twenty (20) feet from any lot in a Residence or Special District. Access driveway shall be designed and located so that such driveways do not provide a direct unlandscaped view from the street to the loading berths or storage areas. A plan for tree islands and parking lot landscaping shall be included with the landscape plan required in sub. (5)(a) below. Off street parking facilities shall be located at least ten (10) feet from any property line and/or right-of-way and utilize a landscape buffer than includes trees. Shrubs, decorative fencing, benches, flowerbeds, ground covers, or other high-quality materials. For every twelve (12) to fifteen (15) parking stalls in a continuous row, at least once canopy tree shall be required in an interior parking island pursuant to the requirements of Sec. 28.142 of these ordinances.

(c) Loading. All loading shall be from the rear or side of the building, but not facing an arterial street. Loading docks may be located in the rear yard, or a side yard facing a street that is internal to an EC district.

(d) All business activities shall be conducted within completely enclosed buildings, except for the following:

1. Off-street parking and off-street loading.
2. Vehicle access sales and service windows.
3. Bicycle-sharing facility.
4. Outdoor storage and outdoor display.
5. Temporary outdoor events.
6. Agricultural activities.
7. Composting.
8. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
9. Farmers' markets.
10. Outdoor recreation.

(e) Access to the employment campus shall be from a collector or arterial street.

(f) In addition to the requirements in Sec. 28.142, all lots shall be landscaped, including the provision of canopy-type shade trees. Where possible, existing healthy trees, other than nuisance species, shall be retained. All land areas not covered by buildings, structures, storage areas, parking lots, loading areas and driveways, shall be landscaped and maintained. Landscaping shall mean decorative plazas, mounds, pools or the planting of grass, shrubs, trees and other plant materials or other comparable surface cover. To comply with the above provisions, a landscape plan shall be submitted and approved by the Director of the Department of Planning and Community and Economic Development.

(g) All storage, except for storage of licensed operable vehicles, shall be within completely enclosed buildings or located to the rear of buildings and limited to a maximum of five percent (5%) of the total lot area. Outside storage shall be

effectively screened with screening between six (6) and eight (8) feet in height. Storage shall not exceed the height of the screening. Storage and loading areas shall be screened from direct view from the street, including views down access driveways.

(h) Food and beverage uses shall only be located within a mixed-use building that includes office or other employment uses. (Cr. by ORD-14-00132, 8-13-14)

(5) Master Plan.

A master plan for each employment campus shall be prepared as part of any rezoning submittal. The plan must be approved by the Plan Commission and include the following:

(a) A site plan, including:

1. Conceptual plan showing lots and approximate building footprints, parking and service areas.
2. Landscape plan and landscape design standards.
3. Street layout and street design standards.
4. Signage and street graphics standards.
5. Stormwater management plan.

(b) Plan submittal and review procedures for individual sites within the campus.

(c) A parking plan, meeting standards of this chapter for automobile and bicycle parking.

(d) A Transportation Demand Management Plan, which must also be approved by the Traffic Engineer. The Plan shall include measurable goals, strategies, and actions to encourage travelers to use alternatives to driving alone, especially at congested times of day. Strategies and actions may include, but are not limited to, carpools and vanpools; public and private transit; promotion of bicycling, walking, and other non-motorized travel; flexible work schedules; and parking management programs to substantially reduce automobile trips. The TDM Plan shall be managed by a property owners' association or other entity acceptable to the Director of the Department of Planning and Community and Economic Development. This association shall provide annual reports on the implementation of the TDM Plan to the Traffic Engineer.

(6) Design Review.

All buildings constructed within an EC district shall be reviewed and approved by an architectural review committee. The committee shall be established by the developer of the district and shall meet the following criteria:

(a) The building design review criteria, design standards and guidelines, review procedures, categories of membership, and the language of any deed or plat restriction must be approved by the Urban Design Commission. Design review shall not include the Dimensional Requirements in (8) below.

(b) Until an architectural review committee is established and approved by the Plan Commission, all building and site plans shall be reviewed and approved by the Urban Design Commission, with an appeal process to the Plan Commission as established in Sec. 33.24, MGO.

(7) Changes to Master Plan.

No alteration of an approved Master Plan shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may, following consideration by the alderperson of the district, issue permits for minor alterations that are approved by the Director of Planning and Community and Economic Development and are consistent with the concept approved by the Common Council. If the change or addition constitutes a substantial alteration of the original plan, the procedure in Secs. 28.086 and 28.182 shall be required.

28.088 INDUSTRIAL - LIMITED DISTRICT.

(1) Statement of Purpose.

This district provides for a mix of light manufacturing uses, offices, warehousing, flex-space, limited storage and warehousing, and limited retail and service uses that primarily serve the industrial uses, designed with adequate landscaping and screening, to ensure compatibility with adjoining uses. Industrial districts typically require relatively direct access to the regional highway system, and may require rail or air transportation service. The IL district is also intended to:

(a) Provide a variety of flexible sites for small, local or start-up businesses, as well as sites for large national or regional enterprises.

(b) Discourage proliferation of highway-oriented commercial uses that reduce the land area available for development or expansion of employment uses.

(c) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

See Table 28F-1 for a complete list of allowed uses within the employment districts.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Industrial - Limited District	
Lot area (sq. ft.)	20,000
Lot width	75
Front yard setback	See (a) below
Side yard setback	Greater of 15 feet or 20% building height
Rear yard setback	30
Maximum lot coverage	75%
Maximum height	none

(Am. by ORD-13-00007, 1-15-13)

(a) Front Yard Setback. For buildings at corner locations, within thirty (30) feet of the corner, at least seventy percent (70%) of the building shall be located within twenty-five (25) feet of the front lot line.

(b) Rear Yard Height Transitions to Adjacent Residential Districts. Where the IL District abuts a residential district, building height at the rear yard setback line shall not exceed two (2) stories/ twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height.

(4) Site Standards: New and Existing Development.

The following standards apply to new and existing buildings and uses:

(a) All business activities shall be conducted within completely enclosed buildings except:

1. Off-street parking and off-street loading, provided that all loading shall be from the rear or side of the building, but not facing an arterial street. Loading docks may be located in the rear yard, or a side yard facing a street that is internal to an IL District.
2. Outdoor display.
3. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
4. Bicycle-sharing facilities.
5. Outdoor storage.
6. Farmers' markets.

7. Agricultural activities.
8. Composting.
9. Temporary outdoor events.
10. Vehicle access sales and service windows.
11. Solar energy systems and wind energy systems.
12. Outdoor recreation.

(b) Outside storage shall be effectively screened with screening between six (6) and eight (8) feet in height. Storage shall not exceed the height of the screening. Storage and loading areas shall be screened from direct view from the street, including views down access driveways.

(c) Food and beverage uses shall only be located within a mixed-use building that includes office or other employment uses. (Cr. by ORD-14-00132, 8-13-14)

(5) Site Standards: New Development.

The following standards apply to new buildings and additions exceeding fifty percent (50%) of the original building's floor area.

(a) Parking Placement. A maximum of one drive aisle and two rows of parking not to exceed seventy (70) feet of parking area may be located between the front facade of a building and the front lot line. Parking shall be located to the rear or side of the principal building to the extent feasible. This requirement shall not apply to lots which are twenty (20) acres or larger. (Am. by ORD-13-00133, 8-14-13)

(b) Entrance Orientation. Principal building entrances on all new buildings shall be oriented to the primary abutting public street. The entrance shall have a functional door. Additional, secondary entrances may be oriented to a secondary street or parking area. Entries shall be clearly visible and identifiable from the street, and delineated with elements such as roof overhangs, recessed entries, landscaping or similar design features. Barrier-free entrances are encouraged.

28.089 INDUSTRIAL - GENERAL DISTRICT.

(1) Statement of Purpose.

This district accommodates areas of heavy and concentrated fabrication, manufacturing and industrial uses. It is the intent of this district to provide an environment for industries that is unencumbered by nearby residential or commercial development. General Industrial districts should be located for convenient access for existing and future arterial thoroughfares and railway lines and may be separated from residential areas by business or light industry areas or by natural barriers; where they are adjacent to residential areas some type of artificial separation may be required.

The IG district is also intended to:

(a) Provide a variety of flexible sites for small, local or start-up businesses, as well as sites for large national or regional enterprises.

(b) Discourage proliferation of highway-oriented commercial uses that reduce the land area available for development or expansion of employment uses.

(c) Facilitate preservation, development or redevelopment consistent with the adopted goals, objectives, policies, and recommendations of the Comprehensive Plan and adopted neighborhood, corridor or special area plans.

(2) Permitted and Conditional Uses.

See Table 28F-1 for a complete list of allowed uses within the employment districts.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Industrial - General District	
Lot area (sq. ft.)	10,000
Lot width	65

Industrial - General District	
Outdoor processing, storage or loading	100 from residential district boundary
Front yard setback	none
Side yard setback	15 or 20% building height (the greater); 30 from residential district boundary
Rear yard setback	30
Maximum lot coverage	75%
Maximum height	none

(a) Rear Yard Height Transitions to Adjacent Residential Districts. Where the IG District abuts a residential district, building height at the rear yard setback line shall not exceed two (2) stories/ twenty-five (25) feet. From this point, building height may increase at a ratio of one foot of rise to one foot of horizontal distance away from the property line, (a 45° angle) up to the maximum allowed height.

(4) Site Standards: New and Existing Development.

(a) All business activities shall be conducted within completely enclosed buildings except:

1. Outdoor storage, subject to Sec. 28.142(10)(b).
2. Off-street parking and off-street loading, provided that all loading shall be to the rear or side of the building, but not facing an arterial street. Loading docks may be located in the rear yard, or a side yard facing a street that is internal to an IG District.
3. Outdoor eating, cooking, and service areas associated with food and beverage establishments. (Am. by ORD-13-00178, 10-23-13)
4. Temporary outdoor events.
5. Composting.
6. Agricultural activities.
7. Vehicle access sales and service windows.
8. Bicycle-sharing facilities.
9. Solar energy systems and wind energy systems.
10. Production and processing of woodchips.
11. Farmers' markets.
12. Outdoor display.
13. Outdoor recreation.

(b) Outside storage shall be effectively screened with screening between six (6) and eight (8) feet in height. Storage shall not exceed the height of the screening. Storage and loading areas shall be screened from direct view from the street, including views down access driveways.

(c) Food and beverage uses shall only be located within a mixed-use building that includes office or other employment uses. (Cr. by ORD-14-00132, 8-13-14)

SUBCHAPTER 28G: SPECIAL DISTRICTS

28.091 SPECIAL DISTRICT USES.

(1) Table 28G-1 lists all permitted and conditional uses in the Special Districts, except that uses allowed within the Campus Institutional District are listed separately in Sec. 28.096.

(a) "P" means permitted in the districts where designated.

(b) "C" means allowed as conditional uses in the districts where designated, in compliance with all applicable standards.

(c) "P/C" means permitted or conditional, depending on specific requirements in Supplemental Regulations, Subchapter 28J.

(d) "Y" means that there are specific requirements in Subchapter 28J associated with a use.

(e) "A" means Agricultural District.

(f) "UA" means Urban Agriculture District.

(g) "CN" means Conservancy District.

(h) "PR" means Parks and Recreation District.

(i) "AP" means Airport District.

Table 28G-1.

(Am. by ORD-13-00054, 4-24-13; ORD-13-00147, 9-11-13; ORD-13-00178, 10-23-13; ORD-13-00185, 11-5-13; ORD-13-00189, 11-26-13; ORD-14-00015, 1-29-14; ORD-14-00083, 4-16-14; ORD-14-00119, 7-11-14; ORD-15-00079 & ORD-15-00080, 8-12-15; ORD-16-00074, 9-16-15; ORD-16-00092, 11-09-16)

28.092 AGRICULTURAL DISTRICT.

(1) Statement of Purpose.

Rural agricultural areas designated as such in the Comprehensive Plan are located beyond the current extent of planned City development. These areas are outside the Central Urban Service Area and without current access to municipal sanitary sewer and water service. They are characterized by active farming operations and associated fields, meadows, woodlots and other natural features. Agriculture and other rural land uses also continue to predominate within many areas planned, but not yet developed, for urban uses. These may include relatively large areas that are recommended in adopted City plans to continue in long-term agriculture uses, while urban areas grow around them.

The purpose of this district is to support the continuance of agriculture and rural character within outlying agricultural areas. In addition, the A district is intended to support local food production and community health by encouraging community and market gardens and other small-scale agricultural operations within city limits.

(2) Permitted and Conditional Uses.

See Table 28G-1 for a complete list of allowed uses within the Agricultural District.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Agricultural District		
	Agricultural uses	**All other uses**
Lot area	5 acres	10 acres
Lot width	300	300
Front yard setback	30	30
Side yard setback	80	80
Rear yard setback	100	100
Maximum height	none	2 stories/35
Maximum lot coverage	n/a	5%

28.093 URBAN AGRICULTURAL DISTRICT.

(1) Statement of Purpose.

The purpose of this district is to ensure that urban garden and farm areas are appropriately located and protected to meet needs for local food production, and to enhance community health, community education, garden-related job training, natural resource protection, preservation of green space, and community enjoyment. Because urban agriculture will typically exist in close proximity to residential and other uses, concern will be given to ensuring compatibility between uses.

(2) Permitted and Conditional Uses.

See Table 28G-1 for a complete list of allowed uses within the Urban Agricultural District.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Urban Agricultural District	
Lot area sq. ft.	15,000 See (a) below
Lot width	50
Front yard setback (structures)	15 or the setback of the adjacent district, whichever is greater
Side yard setback (structures)	6 or the setback of the adjacent district, whichever is greater
Rear yard setback (structures)	20 or the setback of the adjacent district, whichever is greater
Maximum height	25
Maximum lot coverage (buildings and paved areas)	15% (excluding greenhouses and hoop-houses)

(a) Lot area of less than 15,000 square feet may be allowed as a conditional use

28.094 CONSERVANCY DISTRICT.

(1) Statement of Purpose.

The Conservancy District is established to recognize and protect the natural functions of certain natural and non-intensive recreational areas, including large City and County parks, the University of Wisconsin Arboretum, and stormwater management areas.

Development within the district is limited in order to protect natural drainageways and water retention areas, natural habitat for plant and animal life, steep slopes, woodlands, and other resources beneficial to the community.

(2) Permitted and Conditional Uses.
See Table 28G-1 for a complete list of allowed uses within the Conservancy District.

(3) Dimensional Requirements, Permitted and Conditional Uses.
Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Conservancy District	
Lot area	5 acres
Lot width	300
Front yard setback	30
Side yard setback	80
Rear yard setback	100
Maximum height	2 stories/35
Maximum lot coverage	5%

28.095 PARKS AND RECREATION DISTRICT.

(1) Statement and Purpose.
The Parks and Recreation District is established to accommodate active outdoor and indoor recreation uses and facilities such as golf course, stadiums, swimming pools, community centers, large recreation structures, recreational complexes, and similar uses where lands are developed to accommodate said recreational uses, and may also include areas for natural preservation and passive enjoyment of natural features.

(2) Permitted and Conditional Uses.
See Table 28G-1 for a complete list of allowed uses within the Parks and Recreation District.

(3) Dimensional Requirements, Permitted and Conditional Uses.
Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Parks and Recreation District	
Lot area	5 acres
Lot width	300
Front yard setback	30
Side yard setback	30
Rear yard setback	30
Maximum height	2 stories/35 See (a) below

(Am. by ORD-15-00050, 5-13-15)

(a) Maximum height may be exceeded with conditional use approval.

28.096 AIRPORT DISTRICT.

(1) Statement of Purpose.
The purpose of the Airport District is to recognize the Dane County Regional Airport as a major transportation hub with a unique set of land use characteristics, and to accommodate the Airport's transportation and management needs while mitigating any impacts on surrounding land uses.

(2) Permitted and Conditional Uses.
See Table 28G-1 for a complete list of allowed uses within the Airport District.

(3) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Airport District	
Lot area	20,000
Lot width	65
Front yard setback	20
Side yard setback	15 or 20% building height (the greater)
Rear yard setback	30
Maximum lot coverage	75%
Minimum height	22, measured to building cornice
Maximum height	5 stories/68 See (a) below

(a) The regulations contained in the Dane County Code of Ordinances regulating the height and bulk of obstructions to aerial navigation also apply within the Airport District and other areas surrounding the airport. Dane County, not the City of Madison, administers these regulations.

28.097 CAMPUS-INSTITUTIONAL DISTRICT.

(1) Statement of Purpose.

The CI District is established to recognize the City's major educational and medical institutions as important activity centers and traffic generators, accommodate the growth and development needs of these institutions, and coordinate the master plans of these institutions with the City's plans, policies and zoning standards. The district is also intended to:

(a) Permit appropriate institutional growth within boundaries while minimizing the adverse impacts associated with development and geographic expansion.

(b) Balance the ability of major institutions to change and the public benefits derived from change with the need to protect the livability and vitality of adjacent neighborhoods.

(c) Encourage the preparation of Campus Master Plans that enable adjacent neighborhoods and the broader community to understand the levels of development being proposed, their likely impacts, and appropriate mitigation measures.

(2) Master Plan Requirement.

(a) Any Campus Institutional District created after the effective date of this ordinance shall submit a Campus Master Plan, which shall be approved as part of the map amendment.

(b) Approved Campus Master Plans shall be effective for ten (10) years, and, during that period, may be altered pursuant to (8) below.

(c) In a Campus Institutional District without a Campus Master Plan, individual development proposals and changes that exceed four thousand (4,000) square feet in floor area within any five (5) year period shall require conditional use approval. (Am. by ORD-15-00033, 4-8-15)

(d) In the absence of a Master Plan, dimensional requirements are in (4) below.

(e) Any PUD converting to CI carries the land use approval and restrictions from the PUD into the CI, and those rules and agreements are in full effect until a Campus Master Plan is adopted.

(3) Uses Within CI Districts.

Uses within CI districts are defined as follows as either primary or secondary.

(a) Primary Uses.

1. Educational uses associated with colleges, universities, and secondary and primary schools, including classroom buildings, libraries, and offices.
2. Medical facilities, including hospitals, clinics, laboratories and related facilities.
3. Dormitories, student and/or faculty housing.
4. Community Center.

(b) Secondary Uses.

1. Day care facilities.
2. Eating places within mixed-use buildings such as dormitories or student unions.
3. Fraternities and sororities.
4. General retail, financial and personal service uses within mixed-use buildings such as student unions.
5. Indoor and outdoor sports and recreational facilities.
6. Lodging facilities.
7. Museums and art galleries.
8. Parking, structured and surface.
9. Performing arts centers.
10. Places of worship.
11. Utilities and transportation facilities related to the primary use.
12. Veterinary clinics.
13. Agricultural uses.
14. Public utility and service uses.
15. Other uses related to the institution's primary mission.
16. Correctional Facility.
17. Stadiums, auditoriums, and arenas, open or enclosed.

(4) Dimensional Requirements.

In CI districts, with an approved Master Plan, dimensional requirements will be determined by the Master Plan. In CI Districts with no Master Plan, the dimensional requirements follow. Requirements represent minimums unless otherwise noted. Dimensions are in feet unless otherwise noted.

Campus-Institutional District	
Lot area sq. ft.	6,000
Lot width	50
Front yard setback	0
Side yard setback	0
Rear yard setback	0
Maximum lot coverage	85%
Maximum height	3 stories/68 See (a) below
Usable open space	0

(Am. by ORD-14-00002, 1-14-14)

(a) Heights exceeding the maximum may be allowed with conditional use approval. (Cr. by ORD-14-00002, 1-14-14)

(5) Contents of Master Plan.

The Master Plan shall include the following elements and information:

(a) Background/History. A summary of previous planning efforts by the institution in conjunction with the City and/or abutting neighborhoods or other interest groups, a description of the campus master planning process and participants, and any other relevant background material.

(b) Mission/Guiding Principles. A statement that defines the organizational mission and objectives of the institution and describes the role of the master plan within the context of the mission.

(c) Facilities Plan. Includes a description of existing conditions on the campus and the proposed conditions under the Master Plan, including:

1. Existing Conditions.
   a. Land uses and buildings.
   b. Building form (building type, height, bulk, etc.).
   c. Landmarks, historic sites and districts.
   d. Natural features and significant open-space areas.
2. Proposed Conditions.
   a. Future needs/capital improvements.
   b. Phasing of proposed improvements.
   c. Future land uses and buildings.
   d. Building Form (building type, height, bulk, etc.).
   e. Landscape treatment.
   f. Open-space areas and other open-space uses.
   g. Relationship to transportation/access plan (parking, transportation demand management, etc.).

(6) Standards for Master Plan Approval.

The Common Council will approve or reject the Master Plan following a recommendation by the Plan Commission. Approval of the Master Plan will be based on the Plan's treatment of the topics listed above and the degree to which it meets the intent of this district, as well as the following standards:

(a) The Plan shall serve the public interest as well as the interest of the institution developing the plan.

(b) The Plan shall be consistent with the goals of the Comprehensive Plan and adopted neighborhood, corridor or special area plans adjacent to campus boundaries.

(7) Final Building, Structured Parking, and Surface Parking Design Review.

It is expected that Campus Master Plans will identify building location and maximum height, but will not include detailed designs of each building.

All buildings constructed within a CI district must be reviewed and approved by an architectural review committee. The committee shall be established by the institution and shall meet the following standards:

(a) The building design review standards and guidelines, review procedures, categories of membership, and the language of any deed or plat restriction must be approved by the Urban Design Commission.

(b) Membership on the committee, including representation of planning staff and registered neighborhoods, and committee procedures must be approved by the Plan Commission. Committee meetings shall be public.

(c) Until an architectural review committee is established and approved by the Plan Commission, all building and site plans shall be reviewed and approved by the Urban Design Commission, with an appeal process to the Plan Commission as established in Section 33.24.

If there is no approved Master Plan, building design review will occur as part of the conditional use approval.

(8) Changes to Master Plan.

No alteration of an approved Campus Master Plan, including changes to the proposed use of identified open space areas and other open space uses, shall be permitted unless approved by the Plan Commission, provided however, the Zoning Administrator may, following consideration by the alderperson of the district, issue permits for minor alterations that are approved by the Director of Planning and Community and Economic

Development and are consistent with the concept approved by the Common Council. If the change or addition constitutes a substantial alteration of the original plan, the procedure in Sec. 28.097(6) is required.

28.098 PLANNED DEVELOPMENT DISTRICT.

(1) Statement of Purpose.

The Planned Development (PD) District is established to provide a voluntary regulatory framework as a means to facilitate the unique development of land in an integrated and innovative fashion, to allow for flexibility in site design, and to encourage development that is sensitive to environmental, cultural, and economic considerations, and that features high-quality architecture and building materials. In addition, the Planned Development District is intended to achieve one or more of the following objectives:

(a) Promotion of green building technologies, low-impact development techniques for stormwater management, and other innovative measures that encourage sustainable development.

(b) Promotion of integrated land uses allowing for a mixture of residential, commercial, and public facilities along corridors and in transitional areas, with enhanced pedestrian, bicycle and transit connections and amenities.

(c) Preservation and enhancement of important environmental features through careful and sensitive placement of buildings and facilities.

(d) Preservation of historic buildings, structures, or landscape features through adaptive reuse of public or private preservation of land.

(e) Provision of more adequate, usable, and suitably located open space, recreational amenities, and other public facilities than would otherwise be provided under conventional land development techniques.

(f) Facilitation of high-quality development that is consistent with the goals, objectives, policies, and recommendations of the Comprehensive Plan and adopted neighborhood, corridor or special area plans.

Because substantial flexibility is permitted in the base zoning districts, the PD option should rarely be used. It is intended that applicants use the PD option only for situations where none of the base zoning districts address the type of development or site planning proposed. Examples include redevelopment, large-scale master planned developments, projects that create exceptional employment or economic development opportunities, or developments that include a variety of residential, commercial, and employment uses in a functionally integrated mixed-use setting.

Approval of a Planned Development District requires a zoning map amendment, which shall result in the creation of a new site-specific zoning district, with specific requirements that are unique to that planned development. In the Planned Development District, there shall be no predetermined requirements for lot area, lot width, height, floor area ratio, yards, usable open space, signage, or off-street parking and loading, but such requirements may be made a part of a planned development during its approval and recorded against the PD-zoned property as regulations to be enforced as a part of this ordinance.

(2) Standards for Approval of Zoning Map Amendment.

The standards for approval of a zoning map amendment to the PD District, or any major alteration to an approved General Development Plan, are as follows:

(a) The applicant shall demonstrate that no other base zoning district can be used to achieve a substantially similar pattern of development. Planned developments shall not be allowed simply for the purpose of increasing overall density or

allowing development that otherwise could not be approved unless the development also meets one or more of the objectives of (1) above. Conditions under which planned development may be appropriate include:

1. Site conditions such as steep topography or other unusual physical features; or
2. Redevelopment of an existing area or use of an infill site that could not be reasonably developed under base zoning district requirements.

(b) The PD District plan shall facilitate the development or redevelopment goals of the Comprehensive Plan and of adopted neighborhood, corridor or special area plans.

(c) The PD District plan shall not adversely affect the economic health of the City or the area of the City where the development is proposed. The City shall be able to provide municipal services to the property where the planned development is proposed without a significant increase of the cost of providing those services or economic impact on municipal utilities serving that area.

(d) The PD District plan shall not create traffic or parking demands disproportionate to the facilities and improvements designed to meet those demands. A traffic demand management plan may be required as a way to resolve traffic and parking concerns. The Plan shall include measurable goals, strategies, and actions to encourage travelers to use alternatives to driving alone, especially at congested times of day. Strategies and actions may include, but are not limited to, carpools and vanpools; public and private transit; promotion of bicycling, walking and other non-motorized travel; flexible work schedules and parking management programs to substantially reduce automobile trips.

(e) The PD District plan shall coordinate architectural styles and building forms to achieve greater compatibility with surrounding land uses and create an environment of sustained aesthetic desirability compatible with the existing or intended character of the area and the statement of purpose of the PD District.

(f) The PD District plan shall include open space suitable to the type and character of development proposed, including for projects with residential components, a mix of structured and natural spaces for use by residents and visitors. Areas for stormwater management, parking, or in the public right of way shall not be used to satisfy this requirement.

(g) The PD district shall include suitable assurances that each phase could be completed in a manner that would not result in an adverse effect upon the community as a result of termination at that point.

(h) When applying the above standards to an application for height in excess of that allowed in Section 28.071(2)(a) Downtown Height Map, except as provided for in Section 28.071(2)(a)1. and Section 28.071(2)(b), the Plan Commission shall consider the recommendations in adopted plans and no application for excess height shall be granted by the Plan Commission unless it finds that all of the following conditions are present:

1. The excess height is compatible with the existing or planned (if the recommendations in the Downtown Plan call for changes) character of the surrounding area, including but not limited to the scale, mass, rhythm, and setbacks of buildings and relationships to street frontages and public spaces.
2. The excess height allows for a demonstrated higher quality building than could be achieved without the additional stories.
3. The scale, massing and design of new buildings complement and positively contribute to the setting of any landmark buildings within or adjacent to the project and create a pleasing visual relationship with them.

4. For projects proposed in priority viewsheds and other views and vistas identified on the Views and Vistas Map in the City of Madison Downtown Plan, there are no negative impacts on the viewshed as demonstrated by viewshed studies prepared by the applicant.

(i) When applying the above standards to an application to reduce or eliminate stepbacks required by Section 28.071(2)(c) Downtown Stepback Map, the Plan Commission shall consider the recommendations in adopted plans, including the downtown plan. No application to reduce or eliminate stepbacks may be granted unless it finds that all of the following conditions are present:

1. The lot is a corner parcel.
2. The lot is not part of a larger assemblage of properties.
3. The entire lot is vacant or improved with only a surface parking lot.
4. No principal buildings on the lot have been demolished or removed since the effective date of this ordinance.

(Cr. by ORD-15-00084, 8-12-15)

(3) Relationship to Other Applicable Regulations.

(a) In General. A Planned Development shall comply with all standards, procedures, and regulations of this ordinance that are applicable to the individual uses within the development, including the General Regulations of Subchapter 28I and the Supplemental Regulations of Subchapter 28J. Where the applicant proposes a development that does not comply with one or more of the regulations in those subchapters, they shall specifically request that the Plan Commission consider the application of those regulations in making its recommendations on the development, including specific language in the zoning text or depiction on the plans.

(b) Subdivision Requirement. All land within a Planned Development District shall be platted into one or more lots in compliance with the requirements of the subdivision and platting regulations. The development plan for the Planned Development shall include the necessary information to serve as a preliminary plat.

(4) General Requirements.

The Planned Development District shall identify the following information:

(a) All proposed land uses; these shall become permitted or conditional uses upon the approval of the Planned Development by the Common Council.

(b) Placement of buildings and structures.

(c) Density, height, floor area, and dimensional requirements for lots or building sites.

(d) Street layout, including connections to external streets, paths and trails. The Planned Development should maintain the existing street grid where present and restore the street grid where it has been disrupted. In newly developing areas, streets shall be designed to maximize connectivity in each cardinal direction, except where environmental or physical constraints make this infeasible.

(5) Procedures.

The procedure for rezoning to a planned development district shall be as required for any other zoning map amendment in this chapter, with the additional requirements specified below.

(a) Pre-Submittal Requirements. These requirements are intended to provide opportunities for the applicant to explore issues associated with the proposal prior to the expenditure of significant resources in the development of any design plans. This phase shall include the following:

1. Pre-Design Conference. The applicant shall meet with Planning Division and Zoning staff to review and discuss aspects of the proposal including, but not limited to: the site and its context, potential impacts of the project, and initial design direction.

2. Concept Presentation. The concept shall be submitted for review to the Urban Design Commission at an informational meeting. No formal action will be taken by the Commission. Submittals shall include contextual information such as topography, photos of the site and surrounding properties, and a discussion of the initial design direction. The Commission will review the concept in reference to the objectives listed in Subsection 28.098(1) and the other requirements of this Subchapter. The Commission may request that additional materials be submitted to assist in communicating the nature of the site and its context. If the proposed planned development relates to constructing, altering or demolishing a landmark, proposes development on a landmark site, or proposes development in a historic district, the concept shall be submitted for review to the Landmarks Commission at an informational meeting before submission to the Urban Design Commission for its informational meeting under this subsection. (Am. by ORD-16-00053, 5-25-16)

(b) General Development Plan Requirements. The applicants shall file the following with the Plan Commission:

1. A letter of intent describing the general character of the intended development.
2. Proposed zoning text, including a description of the proposed land uses, their dimensions, bulk, height, scale and massing, and other relevant standards.
3. An accurate map of the project area including its relationship to surrounding properties and existing topography and key features, including existing buildings and structures.
4. A plan of the proposed project showing sufficient detail to make possible the evaluation of the standards for approval as set forth in Subsection 2. The General Development Plan shall include a plan showing building placement, the general location of parking facilities to serve the development, and the general bulk, mass and orientation of the buildings within the PD District.
5. Proposed circulation systems (pedestrian, bicycle, auto, transit) by type and how they relate to the existing network outside this site.
6. Analysis of potential economic impacts to the community, including the cost of municipal services and any additional infrastructure.
7. When requested, a general outline of intended organizational structure related to property owner's association, deed restrictions and private provision of common services.
8. A schedule or phasing plan indicating the approximate dates when construction of the Planned Development can be expected to begin and be completed.
9. When a major alteration to a General Development Plan is submitted for approval that does not encompass the entire Planned Development District, the applicant shall submit information for consideration that describes the impact the proposed alteration will have on the implementation of the rest of the approved district.

(c) Decision on General Development Plan. The decision process for approval of a General Development Plan, including any major alteration to an approved General Development Plan, shall be as specified in Section 28.182, including a recommendation by the Plan Commission and action by the Common Council, with the following additional requirements:

1. The Urban Design Commission shall review the General Development Plan prior to the Plan Commission, and shall make a recommendation to

the Plan Commission with specific findings on the design objectives listed in Subsections 28.098(1) and (2) and the other requirements of this Subchapter.

2. Approval of the rezoning and related General Development Plan, .any major alteration to an approved General Development Plan, shall establish the basic right of use for the area and shall be recorded against the PD-zoned property. However, the plan shall be conditioned upon approval of a Specific Implementation Plan, and shall not allow any of the uses as proposed until a Specific Implementation Plan is submitted and approved for all or a portion of the General Development Plan.
3. Approval of the General Development Plan shall establish interim zoning authority for continuation and maintenance of existing uses, buildings and structures on the property until the specific implementation plan is approved.
4. If the approved General Development Plan is not recorded as approved within twelve (12) months of the date of approval by the Common Council, the approval shall be null and void and a new petition and approval process shall be required to obtain General Development Plan approval.
5. If the General Development Plan and Specific Implementation Plan are approved at the same time and not recorded as approved within twelve (12) months of the date of approval by the Common Council, the approval shall be null and void and a new petition and approval process shall be required to obtain approvals for each plan.
6. A General Development Plan for a phased development shall be constructed according to the phasing plan recorded with the approved plan. As part of its review of any subsequent Specific Implementation Plans, the Plan Commission shall consider adherence to the approved phasing plan for the overall development.
7. Any Planned Development not constructed in accordance to its approved phasing plan, and any phases not constructed within ten (10) years of the Common Council approval of the General Development Plan, shall require approval of a new General Development Plan by the Common Council following a recommendation by the Plan Commission. In considering extensions of approved General Development Plans for unconstructed components/ phases, the Plan Commission shall consider changes in the surrounding area or neighborhood since approval of the General Development Plan that would render the project incompatible with current conditions.

(d) Specific Implementation Plan Requirements. The following information shall be submitted to the Plan Commission, unless specific documents are waived by the Secretary of the Commission:

1. An accurate map of the area covered by the Specific Implementation Plan including the relationship to the overall General Development Plan if developed in phases.
2. The pattern of public and private roads, driveways, walkways and parking facilities; traffic projections and mitigation measures.
3. Detailed lot layout and subdivision plat where required.
4. The specific design and complete architectural character of the building or buildings included on the Specific Implementation Plan, other than single-family residences. In order to satisfy this requirement, detailed floor plans, exterior elevations and building materials are required.
5. The utilities serving the project, including sanitary sewer and water mains.

6. Grading plan and storm drainage system.
7. The location and treatment of open space areas and recreational or other special amenities.
8. The location and description of any areas to be dedicated to the public.
9. Landscape plan and plant list.
10. Proof of financing capability.
11. A construction schedule indicating the approximate dates when construction of the project can be expected to begin and be completed.
12. A specific zoning text for the portion of the PD District to be developed under the Specific Implementation Plan, including a description of the proposed land uses, their dimensions, bulk, height, scale and massing, and other relevant standards, which shall be consistent with the zoning text approved with the General Development Plan.
13. Agreements, bylaws, provisions or covenants which govern the organizational structure, use, maintenance and continued protection of the development and any of its common services, common open areas or other facilities.

(e) Decision on Specific Implementation Plan. The decision process, including recommendation by the Plan Commission and action by the Common Council, shall be as specified in Section 28.182 with the following additional requirements:

1. A Specific Implementation Plan containing all of the information required in sub. (d) may be reviewed concurrent with a rezoning to PD and related approval of a General Development Plan or a major alteration to an approved General Development Plan.
2. The Urban Design Commission shall review the Specific Implementation Plan prior to the Plan Commission, and shall make a recommendation to the Plan Commission with specific findings on the design objectives listed in Subsections 28.098(1) and (2) and the other requirements of this Subchapter.
3. If the Specific Implementation Plan is approved, the building, site and operational plans for the development, as approved, as well as all other commitments and contractual agreements with the City, shall be recorded by the Zoning Administrator within twelve (12) months of the date of approval by the Common Council in the Dane County Register of Deeds Office. If the Specific Implementation Plan is approved concurrent with the approval of a General Development Plan, the plans shall be recorded within twelve (12) months of the Common Council approval. This shall be accomplished prior to the issuance of any building permit.
4. If the Specific Implementation Plan is not recorded as approved within twelve (12) months of the date of approval by the Common Council, the approval shall be null and void, and a new petition and approval process shall be required to obtain Specific Implementation Plan approval.

(f) Recording of Approved Plans and Zoning Ordinance Amendments.

1. Within twelve (12) months of the date of approval by the Common Council, of a zoning ordinance amendment designating a tract of land as a Planned Development District, the owner of the development shall provide the Zoning Administrator a facsimile copy of the approved General Development and/or Specific Implementation Plan together with a certified copy of the related zoning ordinance amendment and any other related actions taken by the Common Council, including conditions of approval.
2. Upon receipt of complete plans, documents and fees, the Zoning Administrator shall record them with the Dane County Register of Deeds office. The cost for preparing a facsimile copy of the plan in recordable form and the

recording fee, as determined by the Dane County Register of Deeds, shall be paid by the owners of the lands included in the Planned Development District.

3. If either the General Development Plan or Specific Implementation Plan is not recorded as approved within twelve (12) months of the date of approval by the Common Council, the approval shall be null and void, and a new petition and approval process shall be required, with the exception below.

   a. Where the plans have not been altered from the Common Council's approval, the Director of Planning and Community and Economic Development may approve an extension of up to twenty-four (24) months to record either plan.

(g) Construction Required. Within thirty-six (36) months of Common Council approval of the General Development Plan, the basic right of use for the areas, when in conformity with the approved Specific Implementation Plan, shall lapse and be null and void unless a building permit is issued for the project, or an extension is issued as specified below. In the case of any major alteration to a General Development Plan, the thirty-six (36) month period shall apply to the date of Common Council approval of the major alteration for the purposes of this section.

1. An application for an extension must be filed at least thirty (30) days prior to the expiration of the thirty-six (36) month period.
2. If the Plan Commission, after a public hearing pursuant to Sec. 28.182(4), determines that no changes in the surrounding area or neighborhood since approval of the General Development Plan would render the project incompatible with current conditions, the Commission may grant an extension of up to twenty-four (24) months in which to obtain a building permit.
3. An extension shall not allow a building permit to be issued more than sixty (60) months after approval of the General Development Plan by the Common Council.
4. If a new building permit is required pursuant to Sec. 29.06(4), MGO, a new petition and approval process shall be required to obtain General Development Plan approval and Specific Implementation Plan approval.

(6) Alterations to a Planned Development District.

Requests to alter a Planned Development District shall be made to the Director of Planning and Community and Economic Development. Upon receipt of the request, the Director shall determine if the request constitutes a major or minor alteration to the Planned Development District. The Director may refer any request for alteration to the Urban Design Commission for an advisory recommendation. Alterations shall only be approved as specified below.

(a) Minor alterations may be approved the Director of Planning and Community and Economic Development or designee following consideration by the alderperson of the district if the requested alterations are consistent with the concept approved by the Common Council. If the alderperson of the district and the Director of Planning and Community and Economic Development do not agree that a request for minor alteration should be approved, then the request for minor alteration shall be decided by the Plan Commission after payment of the applicable fee in Section 28.206, MGO.

(b) Major alterations may be approved by the City Plan Commission if the requested alterations are consistent with the concept approved by the Common Council.

(c) Major alterations that represent a substantial departure from the concept approved by the Common Council may be approved only after all of the procedures in Sec. 28.098(5) have been satisfied.

(d) Telecommunications towers, Class 1 Collocations, Class 2 Collocations and Radio Broadcast Service Facilities shall be considered minor alterations under this section. Criteria for review are provided in Sections 28.143 and 28.148. See Wis. Stat §§ 66.0404(3)(a)1 and (4)(gm) and 66.0406 (2013)

(Am. by ORD-15-00083, 8-12-15)

(e) Requests to modify a sign package approved under Sec. 31.13(4), MGO, are not alterations subject to this section. (Cr. by ORD-15-00117, 10-28-15)

[EDITOR'S NOTE: Sub. (6) revised to reflect both ORD-15-00083 and ORD-15-00117.]

(Sec. 28.098 Am. by ORD-15-00034, 4-8-15)

28.099 PLANNED MOBILE HOME PARK DISTRICT.

(1) Statement of Purpose.

The Planned Mobile Home Park district is established to provide a regulatory framework for improved environmental design and greater freedom, imagination and flexibility in the establishment and development of mobile home parks, while insuring substantial compliance with the basic intent of the zoning code and the comprehensive plan. This district is further intended to encourage compact and efficient development with relation to public services and to encourage and facilitate the preservation of open spaces.

(2) General Requirements.

A Planned Mobile Home Park District is a specific type of Planned Development District and shall follow the review and approval process specified for the PD District. The general requirements of the PD District for street layout and open space shall be met in any Planned Mobile Home Parks established after the effective date of this zoning code.

(3) Permitted Uses.

(a) Planned Mobile Home Park.

(b) Typical accessory uses such as community buildings and recreational facilities.

(c) Home occupation.

(d) Adult family home.

(4) Conditional Uses.

(a) Community living arrangement, up to 8 residents.

(5) Density and Area Requirements.

A Planned Mobile Home Park shall meet the following requirements:

Planned Mobile Home Park District	
Lot Area	30 acres
Dwelling Units per Acre	6
Average area per mobile home park site (sq. ft.)	4,000
If approved and licensed prior to July 1, 1970 or established and licensed prior to July 8, 1966:	
Lot Area	No minimum
Dwelling Units per Acre	8
Average area per mobile home park site (sq. ft.)	3,500

28.100 NONMETALLIC MINERAL EXTRACTION DISTRICT (ME).

(1) Statement of Purpose.

The Common Council recognizes that nonmetallic mines have operated within the City of Madison and in bordering communities for decades and have served as a source of materials for local road and other construction projects. These nonmetallic mines also often recycle aggregate and construction materials that can be reused in local road and

other construction projects, thereby increasing the reuse of materials and reducing usage of local landfills. As the City continues to grow, more nonmetallic mines will come within its jurisdiction. The Common Council also recognizes that nonmetallic mines present potential health, safety and welfare concerns for the City's residents, transients and natural environment. The purpose of this district is to therefore set forth rules and procedures related to the construction, installation, alteration, design, operation and use of all nonmetallic mines that will allow mining operations within the City while protecting the health, safety and welfare of residents and transients, and further the appropriate use and conservation of land and water resources.

(2) Permitted Use.

Except for blasting, nonmetallic mining shall be a permitted use in a nonmetallic mineral extraction district.

(3) Conditional Uses.

(a) Blasting in a nonmetallic mineral extraction district.

(4) Dimensional Requirements, Permitted and Conditional Uses.

Requirements represent minimums applicable to buildings and structures unless otherwise noted. Dimensions are in feet unless otherwise noted.

Nonmetallic Mining District	
	Nonmetallic mining uses
Lot area	5 acres
Lot width	300
Front yard setback	30
Side yard setback	80
Rear yard setback	100
Maximum height	none
Maximum lot coverage	n/a

(Section 28.100 Cr. by ORD-17-00014, 2-20-17)

SUBCHAPTER 28H: OVERLAY DISTRICTS

28.101 APPLICABILITY.

The requirements of the overlay districts shall apply to all zoning lots located in such districts in addition to all requirements in the Madison General Ordinances that apply to the primary zoning district classification of those zoning lots.

In the event of a conflict between the provisions of any overlay district and the underlying primary zoning district, the provisions of the overlay district shall apply, except where otherwise specified.

28.102 WELLHEAD PROTECTION DISTRICTS.

(1) Statement of Purpose.

The Common Council of the City of Madison finds that certain uses can seriously threaten or degrade groundwater quality. To promote the public health, safety, and general welfare of the City of Madison, the Wellhead Protection Districts are created to protect municipal water supplies.

(2) Protection Zones.

Each wellhead shall have two (2) zones of protection around it.

(a) Zone A is the area around the well in which it has been determined that groundwater and potential contaminants will take five (5) years or less to reach the pumping well.

(b) Zone B is the smaller of the following:

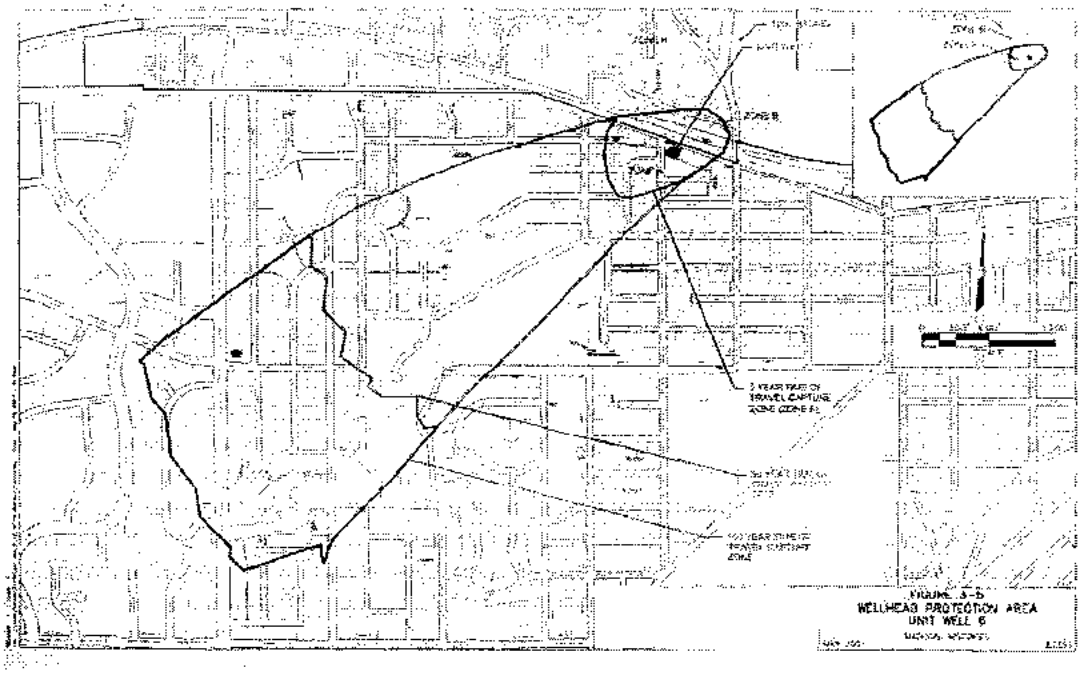
1. The area around the well in which it has been determined that groundwater and potential contaminants will take one hundred (100) years or less to reach the pumping well, or
2. The area within a twelve hundred (1,200) foot radius around the well, except for the area in Zone A.

(3) Uses.

All uses in Zones A and B of any Wellhead Protection District shall be approved by the Water Utility General Manger or his/her designee. A use may be approved with conditions. Approval by the Water Utility General Manager or his/her designee is in addition to all other approvals required for the proposed use.

(a) Permitted Uses In Zones A and B. Any use allowed as permitted in the principal zoning district, except those uses not approved pursuant to Sec. 13.22, MGO.

(b) Conditional Uses in Zones A and B. Any use allowed as a conditional use in the principal zoning district except those uses not approved pursuant to Sec. 13.22.

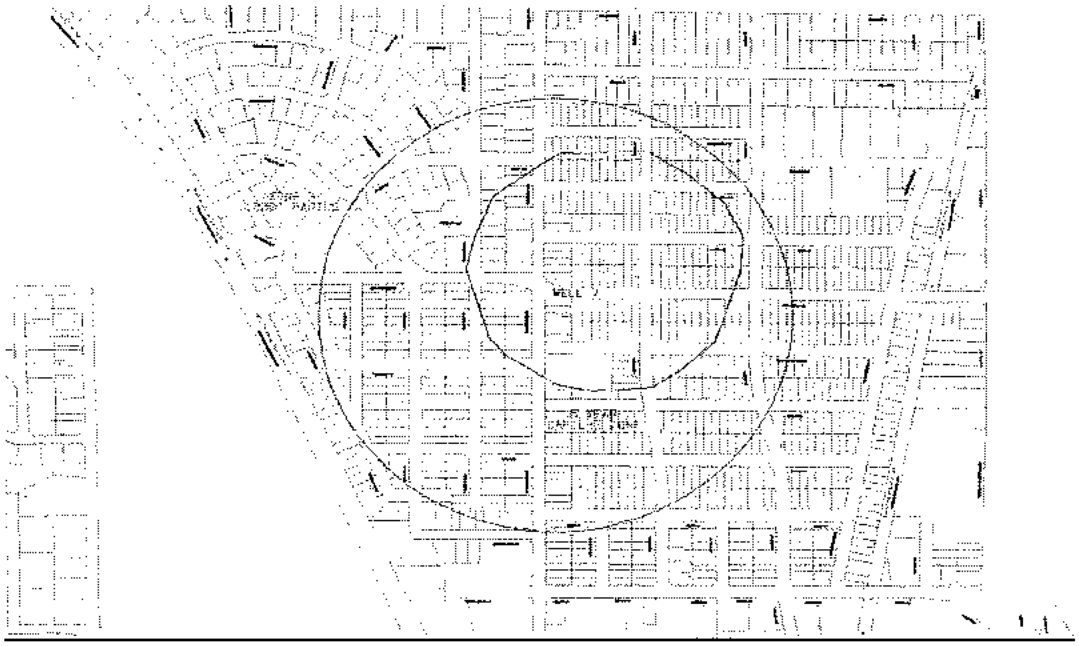


(4) Existing Uses.

Any lawful use existing at the time of the creation of a Wellhead Protection District may be continued, however, no expansion or enlargement of such use is allowed without approval pursuant to Sec. 13.22 by the Water Utility General Manager or his/her designee.

(5) Wellhead Protection District No. 6.

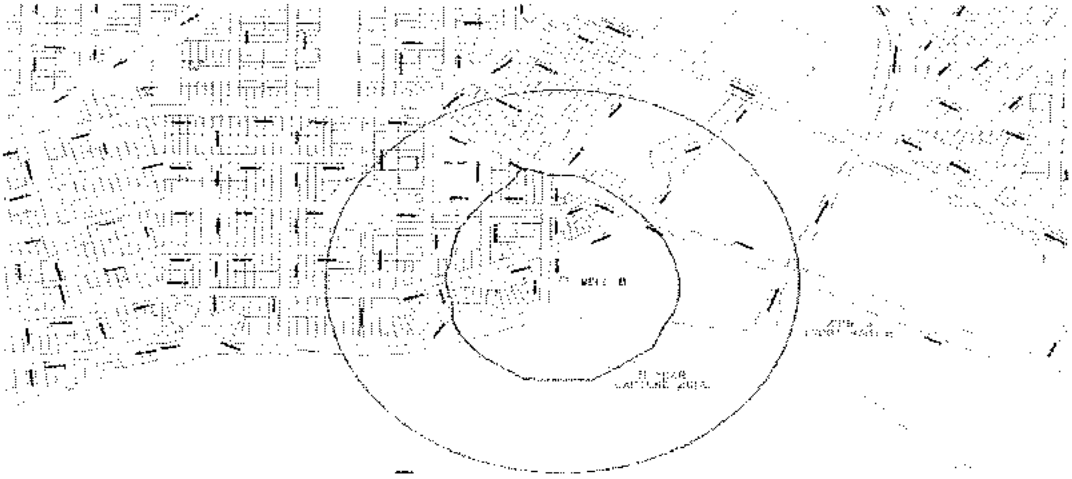
The location of Well No. 6 and the surrounding Zone A and Zone B are shown in Sec. 28.102(5)(a).



(a) Wellhead Protection District No. 6.

(6) Wellhead Protection District No. 7.

The location of Well No. 7 and the surrounding Zone A and Zone B are shown in Sec. 28.102(6)(a).



(a) Map of Wellhead Protection District No. 7.

(7) Wellhead Protection District No. 8.

The location of Well No. 8 and the surrounding Zone A and Zone B are shown in Sec. 28.102(7)(a).

28.103 WETLAND OVERLAY DISTRICT.

(1) Statement of Purpose.

The Wetland Overlay District is established to maintain safe and healthful conditions, to prevent and control water pollution, to protect fish spawning grounds, fish and aquatic life and wildlife habitat, to preserve shore cover and natural beauty and to control building and development in wetlands whenever possible. When development is permitted in a wetland, the development should occur in a manner which minimizes adverse impacts upon the wetland.

(2) Map Designation.

The Wetland Overlay District is shown on the official zoning district maps identified in Subchapter 28B.

(3) Permitted Uses.

(a) The following activities and uses do not require the issuance of a zoning certificate, provided that no wetland alteration occurs:

1. Hiking, fishing, trapping, swimming and non-motorized boating
2. Construction and maintenance of duck blinds

(b) The following activities and uses may involve wetland alterations only to the extent specifically provided below:

1. The construction and maintenance of piers, docks and walkways, observation decks and trail bridges built on pilings, including limited excavating and filling necessary for such construction or maintenance.
2. The maintenance, repair, replacement and reconstruction of existing highways and bridges, roads, and electric, telephone, water, gas, sewer and railroad lines, including limited excavating and filling necessary for such maintenance, repair, replacement or reconstruction.
3. The replacement and reconstruction of existing publicly-owned radio and television towers, provided that neither the existing nor the replaced or reconstructed tower is in a shoreland, as defined in Sec. 28.211.

(4) Conditional Uses.

The following conditional uses may be allowed in the Wetland Overlay District, including wetland alterations only to the extent specifically provided below. The Southern District Office of the Wisconsin Department of Natural Resources shall be notified of the conditional use proposal at least ten (10) days prior to the hearing and shall be notified of the City's decision within ten (10) days after the decision is made.

(a) The construction of roads which are necessary for the continuity of the municipal street system, the provision of essential utility and emergency services or to provide access to permitted uses provided that:

1. The road cannot as a practical matter be located outside the wetland;
2. The road is designed and constructed to minimize the adverse impact upon the natural functions of the wetland.
3. The road is designed and constructed with the minimum cross-sectional area practical to serve the intended use.
4. Road construction activities are carried out in the immediate area of the roadbed only; and
5. Any wetland alteration must be necessary for the construction or maintenance of the road.

(b) The construction and maintenance of nonresidential buildings provided that:

1. The building is used solely in conjunction with a use permitted in the Wetland Overlay District or for the raising of waterfowl, minnows or other wetland or aquatic animals.

2. The building cannot as a practical matter be located outside the wetland.
3. The building does not exceed five hundred (500) square feet in floor area; and
4. No filling, flooding, draining, dredging, ditching, tiling, or excavating is done, except limited filling and excavating necessary for the installation of pilings.

(c) The establishment and development of public and private parks and recreation areas, natural and outdoor education areas, historic and scientific areas, game and wildlife preserves, fish and wildlife habitat improvement projects, and public boat launching ramps, provided that:

1. Any private recreation or wildlife habitat area shall be used exclusively for that purpose.
2. Only that filling and excavating which is necessary for the development of public boat launching ramps, public trails, swimming beaches or the construction of park shelters or similar structures is allowed.
3. The construction and maintenance of roads necessary for the uses permitted under this paragraph are allowed only where such construction and maintenance meets the standards in Paragraph (4)(a) above.
4. Ditching, excavating, dredging, dike and dam construction in wildlife refuges, game preserves and private wildlife habitat areas shall only be for the purpose of improving wildlife habitat or otherwise enhancing wetland values.

(d) The construction and maintenance of electric, gas, telephone, water and sewer transmission and distribution lines and related facilities, provided that:

1. The transmission and distribution lines and related facilities cannot as a practical matter be located outside the wetland.
2. Only that filling or excavating which is necessary for such construction or maintenance is allowed; and
3. Such construction or maintenance is done in a manner designed to minimize the adverse impact upon the natural functions of the wetland.

(e) The construction and maintenance of railroad lines, provided that:

1. The railroad lines cannot, as a practical matter, be located outside the wetland.
2. Only that wetland alteration which is necessary for such construction or maintenance is allowed; and
3. Such construction or maintenance is done in a manner designed to minimize the adverse impact upon the natural functions of the wetland.

(f) The harvesting of wild crops, such as marsh hay, ferns, moss, wild rice, berries, tree fruits and tree seeds, in a manner that is not injurious to the natural reproduction of such crops.

(g) The practice of silviculture, including the planting, thinning and harvesting of timber and limited temporary water level stabilization measures which are necessary to alleviate abnormally wet or dry conditions that would have an adverse impact on the conduct of silvicultural activities if not corrected.

(h) The pasturing of livestock and the construction and maintenance of fences for such pasturing including limited excavating and filling necessary for such construction or maintenance.

(i) The cultivation of agricultural crops, if cultivation can be accomplished without filling, flooding, draining, dredging, ditching, tiling, or excavating except limited filling and excavating necessary for the construction and maintenance of fences.

(j) The maintenance and repair of existing drainage systems to restore pre-existing levels of drainage, including the minimum amount of filling necessary to dispose of dredged spoil, provided that the filling is permissible under Chapter 30, Wis. Stats., and that dredged spoil is placed on existing spoil banks, where possible.

(k) The installation and maintenance of sealed tiles for the purpose of draining lands outside the Wetland Overlay District provided that such installation or maintenance is done in a manner designed to minimize the adverse impact upon the natural functions of the wetland.

(5) Prohibited Uses.

Any use not listed in paragraphs (3) or (4) above is prohibited, unless the wetland or a portion of the wetland has been rezoned by amendment of this ordinance in accordance with para. (7) below and the other requirements of this chapter. The use of a boathouse for human habitation and the construction or placement of a boathouse or fixed houseboat below the ordinary high-water mark of any navigable waters are prohibited.

(6) Development Approvals.

In the Wetland Overlay District, a zoning certificate shall be obtained from the Zoning Administrator before any new development or any change in the use of an existing building, structure or use of land commences. An application for a zoning certificate for lands in the Wetland Overlay District shall include the information required below for a site plan, as well as the specifications and dimensions for any areas of proposed alteration.

(a) Name, address, and telephone number of applicant, property owner and contractor, where applicable.

(b) Legal description of the property and a general description of the proposed use or development.

(c) Whether or not a private water or sewage system is to be installed

(d) The site plan shall be drawn to scale and submitted as a part of the application form and shall contain the following information:

1. Dimensions and area of the lot.
2. Location of any structures with distances measured from the lot lines and centerline of all abutting streets or highways.
3. Location of any existing or proposed on-site sewage systems or private water supply systems.
4. Location of the ordinary high water mark of any abutting navigable waterways.
5. Location and landward limit of all wetlands.
    a. Existing and proposed topographic and drainage features and vegetative cover.
    b. Location of floodplain and floodway limits on the property as determined from floodplain zoning maps used to delineate floodplain areas.
    c. Location of existing or future access roads; and
    d. Specifications and dimensions for areas of proposed wetland alteration.

(7) Amendment of Wetland Overlay Zoning.

Any amendment to the text or map of the Wetland Overlay District shall comply with Sec. 28.182 and with the following:

(a) A copy of each proposed text or map amendment shall be submitted to the Southern District Office of the Department of Natural Resources within 5 days of the referral of the proposed amendment to the Plan Commission.

(b) The Southern District Office of the Department shall be provided with written notice of the public hearing at least ten (10) days prior to such hearing.

(c) In order to insure that the shoreland protection objectives in Wis. Stat. § 281.31 will be accomplished by the amendment, the Common Council may not rezone a wetland in the Wetland Overlay District, where the proposed rezoning may result in a significant adverse impact upon any of the following:

1. Storm water and floodwater storage capacity.
2. Maintenance of dry-season stream flow or the discharge of groundwater to a wetland, the recharge of groundwater from a wetland to another area or the flow of groundwater through a wetland.
3. Filtering or storage of sediments, nutrients, heavy metals or organic compounds that would otherwise drain into navigable waters.
4. Shoreline protection against soil erosion.
5. Fish spawning, breeding, nursery or feeding grounds.
6. Wildlife habitat; or
7. Areas of special recreational, scenic or scientific interest, including scarce wetland types and habitat of endangered species.

(d) Where the Southern District Office of the Department of Natural Resources determines that a proposed rezoning may have a significant adverse impact upon any of the standards listed above, the Department shall notify the City Clerk of its determination either prior to or during the public hearing held on the proposed amendment.

(e) The Southern District Office of the Department of Natural Resources shall be provided with:

1. A copy of the recommendations and report of the Plan Commission on the proposed text or map amendment within ten (10) days after the submission of these recommendations to the Common Council; and
2. Written notices of the Common Council's action on the proposed text or map amendment within ten (10) days after the action is taken.

(f) If the DNR notifies the Plan Commission in writing that a proposed amendment may have a significant adverse impact upon any of the standards listed in (c) above, that proposed amendment, if approved by the Common Council, may not become effective until more than thirty (30) days have elapsed since written notice of the Common Council approval was mailed to the DNR. If within the thirty (30) -day period the DNR notifies the Common Council that it intends to adopt a superseding wetland zoning ordinance for the City under Wis. Stats. § 62.231(6), the proposed amendment may not become effective until the ordinance adoption procedure under Wis. Stats. § 62.231(6), is complete or otherwise terminated.

(8) Nonconformities.

Except as provided below, all provisions in Subchapter 28N shall apply.

(a) Notwithstanding Section 28.191(1)(a), this subchapter does not prohibit the repair, reconstruction, renovation, remodeling, or expansion of a nonconforming structure in existence on the effective date of this ordinance or amendment or of any environmental control facility in existence on May 7, 1982 related to that structure. Wis. Stats. § 28.191(1)(a) shall apply to any environmental control facility that was not in existence on May 7, 1982, but which was in existence on the effective date of this ordinance or amendment. All such work must be done in a manner designed to minimize the adverse impacts upon the natural functions of the wetland.

(b) If a nonconforming use or the use of a nonconforming structure is discontinued for a period of twelve (12) months, any future use of the property or structure shall conform to the requirements of this ordinance.

(c) The maintenance and repair of any nonconforming boathouse which extends beyond the ordinary high water mark shall comply with Wis. Stats. § 30.121.

28.104 TRANSIT ORIENTED DEVELOPMENT OVERLAY DISTRICT.

(1) Statement of Purpose.

The TOD District is intended to support investment in and use of public transit and bicycle connections. It does this by fostering development that intensifies land use and economic value around transit stations and by promoting a mix of uses that will enhance the livability of station areas.

The district is also intended to:

(a) Provide increased mobility choices.

(b) Improve pedestrian connections, traffic and parking conditions.

(c) Minimize parking requirements by encouraging shared parking and alternative modes of transportation.

(d) Foster high-quality buildings and public spaces that help create and sustain long-term economic vitality.

(2) Applicability.

The TOD District is an overlay district that may be applied around an identified transit stop or station, as determined by a station area plan. Boundaries shall be as shown on the zoning map. Station area plan shall be prepared by planning staff, and approved by the Plan Commission and Common Council. The plan shall establish the standards for the overlay district.

(3) Relationship to Other Regulations.

Properties located within a TOD overlay district are subject to the provisions of the primary zoning district and the TOD overlay district. Where the provisions of the overlay district conflict with the primary zoning district, the provisions of the overlay district shall apply.

(4) Prohibited Uses.

The following uses are prohibited in the TOD district:

(a) Auto body shop.

(b) Auto service station, convenience market.

(c) Auto repair station.

(d) Auto sales or rental.

(e) Car wash.

(f) Storage facility, personal indoor storage.

(g) Vehicle access sales and service windows.

(5) Minimum Intensity and Frontage Use.

The following standards shall apply to new buildings and additions exceeding fifty percent (50%) of the original building's floor area. These standards may be modified or eliminated by an adopted Transportation Overlay District.

(a) New buildings shall be a minimum of two (2) stories in height.

(b) Floor area ratio (FAR) for nonresidential and/or mixed-use buildings shall be a minimum of 1.0. Public gathering spaces, outdoor seating areas and areas for public art may be counted towards building square footage in calculating the minimum FAR. Individual phases of a phased development may be less than this minimum, provided the entire development meets the minimum requirement. This requirement shall not apply to the expansion of buildings existing on the effective date of this section, in such buildings, the FAR shall not be less than the existing FAR.

(c) Where residential uses are proposed, minimum density shall be fifteen (15) units per acre. Density shall be calculated based on the total area of the development site devoted to residential use, including residential units in mixed-use buildings.

1. A new building with less than the required FAR or residential density may be allowed on a developed zoning lot where an existing building will remain, provided that:

a. Total lot coverage and FAR for the zoning lot are not reduced; and

b. The new development provides enhanced landscaping, pedestrian realm enhancements, or building design elements that improve the aesthetic appeal of the site.

(d) A minimum of fifty percent (50%) of ground floor frontage along primary streets shall be designed for retail use, with a floor-to-ceiling height of at least ten (10) feet and with sixty percent (60%) facade transparency between two (2) and eight (8) feet from ground level. Building entrances on primary streets are encouraged.

(e) All parking structures shall be lined with other allowed uses at ground floor level along a minimum of seventy-five percent (75%) of the primary street frontage.

(6) Multiple Use Guidelines.

Development proposals on sites over five (5) acres should include a mix of uses, including residential uses, office uses, retail and other commercial uses, manufacturing uses, and civic and institutional uses.

(7) Public Space Requirement.

Development proposals on sites of ten (10) or more acres shall set aside a minimum of five percent (5%) of the project site as open space, which may be designed as a square, plaza, terrace or green, with a variety of landscaped and paved surfaces, public art, and seating areas. This requirement may be modified or eliminated by an adopted Transit Overlay District.

(8) Parking Standards.

No minimum off-street auto and bicycle parking is required, except where parking minimums are specified in a station area plan. Parking maximums established in Subchapter 28J shall apply, except where more specific requirements are established in an adopted Transit Overlay District.

(9) Exemptions.

Where an existing building or its accessory parking does not conform to the TOD overlay district requirements or serves an existing nonconforming use, the building may be expanded without fully meeting the requirements of this section as long as the expansion does not increase the nonconformity.

28.105 NEIGHBORHOOD CONSERVATION OVERLAY DISTRICTS.

(1) Statement of Purpose.

Madison is endowed with many distinctive neighborhoods. Recognizing that these neighborhoods contribute significantly to the character and identity of Madison, the City seeks to conserve these areas as a matter of policy. The Neighborhood Conservation District Ordinance is a means to conserve the essential physical character of these neighborhoods.

By establishing a Neighborhood Conservation District, and tailoring the regulations to the attributes of the built environment that make the place distinctive, neighborhoods can prevent insensitive development, and promote better harmony between new and existing structures. This ordinance enables neighborhoods to conserve and enhance the physical characteristics that come together to produce a distinctive environment.

(2) Applicability.

(a) The requirements of the Neighborhood Conservation Overlay Districts apply to all development, exterior alterations, additions and demolitions of structures on all zoning lots located in such districts, in addition to all requirements of the underlying primary zoning districts.

(b) In the event of a conflict between the provisions of the Neighborhood Conservation Overlay Districts and the underlying primary zoning district, the provisions of the Neighborhood Conservation Overlay Districts shall apply.

(3) Eligibility Criteria.

To be considered for designation as a Neighborhood Conservation District, an area shall meet the following minimum criteria:

(a) The proposed area includes at least eight (8) contiguous block-faces or two thousand, six hundred forty (2,640) lineal feet of contiguous street frontage.

(b) The proposed area possesses consistent, identifiable built or natural environment characteristics to be conserved.

(c) At least seventy-five percent (75%) of the lots in the proposed district have been developed with a principal structure for at least twenty-five (25) years.

(d) The proposed requirements for a Neighborhood Conservation District are consistent with the Comprehensive Plan and existing neighborhood plans.

(e) The proposed area contains at least one of the following features:

1. Distinctive building attributes: scale, mass, distinctive architectural characteristics, e.g., front porches, height, roof styles.
2. Distinctive land use patterns: mixed uses, parks/open spaces, or unique uses or activities.
3. Distinctive streetscape characteristics: lighting, street layout, materials, and landscaping.
4. Distinctive lot features: lot layouts and sizes, setbacks, alleys, and landscaping.

(f) A Neighborhood Conservation Overlay District shall not be placed in an existing local historic district or Urban Design District.

(4) Designation Process.

(a) All requests for creation of a Neighborhood Conservation District shall be initiated by a resident, owner, or commercial tenant and shall be submitted to the Director of the Department of Planning and Community and Economic Development.

(b) The Director of the Department of Planning and Community and Economic Development shall determine whether the proposed area is consistent with the eligibility standards in Sec. 28.105(3).

(c) If the proposed Neighborhood Conservation District is consistent with Sec. 28.105(3), notice of an informational meeting regarding the District designation process shall be sent to all owners and occupants of the proposed District.

(d) Within thirty (30) days of the informational meeting, a survey shall be sent to all owners and occupants of the proposed District regarding the desirability of the proposed District. If more than one (1) informational meeting is held, the survey shall be sent within thirty (30) days of the last meeting.

1. If any property is added to the proposed District prior to the final recommendation of the Plan Commission, the survey shall be sent to all owners and occupants in the area that was added, and the results shall be submitted to the Common Council.

(e) The Director of the Department of Planning and Community and Economic Development shall prepare a report on the results of the survey. The report shall only include survey responses received within twenty-eight (28) days from the date the survey is mailed shall be included in the report. The report shall be submitted to the Plan Commission and Common Council.

(f) A resolution authorizing a Neighborhood Conservation Study shall be introduced to the Common Council and referred to the Plan Commission. If authorized by a resolution adopted by the Common Council, a Neighborhood Conservation Study shall be undertaken.

(g) A Neighborhood Conservation Study shall explore the feasibility and potential benefits of establishing a Neighborhood Conservation District for an area. The

study shall be prepared by the Department of Planning and Community and Economic Development, working with the residents, property owners and business representatives of the proposed district.

1. At the time the Neighborhood Conservation Study is initiated, written notice shall be given to all owners and occupants in the area proposed for study. Because the exact geographic limits of a Neighborhood Conservation District may include properties that were not anticipated to be in the district at the initiation of the study, failure to provide the above notice shall not affect the validity of a Neighborhood Conservation District that is created.
2. The Department of Planning and Community and Economic Development shall maintain a registry of persons interested in future notification regarding a particular Neighborhood Conservation District.

(h) A Neighborhood Conservation Study shall include:

1. Maps indicating the proposed district boundaries, and the land uses within the proposed district.
2. An identification of the distinctive attributes of the area's built or natural environment to be preserved and enhanced.
3. An evaluation of the extent to which the objectives of the proposed Neighborhood Conservation District may be achieved through the application of a standard zoning district.
4. A list of design requirements for the proposed district that will preserve its distinctive character. In addition to the features in (3)(e), above, requirements may include but are not limited to the following:
   a. Setbacks.
   b. Orientation.
   c. Height and width.
   d. Scale and massing.
   e. Architectural features, including but not limited to fenestration, roof pitch, and building materials.

(i) Creation of a Neighborhood Conservation Overlay District. If a Neighborhood Conservation District is proposed following the completion of the Neighborhood Conservation Study, it shall include the geographic boundaries, and the specific requirements to be used in reviewing development proposals. A Neighborhood Conservation District ordinance shall be considered pursuant to the procedures in Sec. 28.182.

(j) Every twenty (20) years after the effective date of the ordinance, the Department of Planning and Community and Economic Development shall survey the owners, residents, and commercial tenants and report to the Plan Commission and Common Council on the results of the survey and suggested changes to the ordinance.

28.121 FLOODPLAIN OVERLAY DISTRICTS.

(1) Statement of Purpose.

Pursuant to Wis. Stat. § 62.23(7), this ordinance is intended to regulate floodplain development to:

(a) Protect life, health, and property.
(b) Minimize expenditures of public funds for flood control projects.
(c) Minimize rescue and relief efforts undertaken at the expense of the taxpayers.
(d) Minimize business interruptions and other economic disruptions.
(e) Minimize damages to public facilities in the floodplains.
(f) Minimize the occurrence of future flood blight areas in the floodplain.
(g) Discourage the victimization of unwary land and homebuyers.

(h) Prevent increases in flood heights that could increase flood damage and result in conflicts between property owners; and

(i) Discourage development in the floodplain if there is any practicable alternative to locate the activity, use, or structure outside the floodplain.

(2) Areas to be Regulated.

This Subchapter regulates all areas that could be covered by the regional flood or base flood as shown on the Flood Insurance Rate Map (FIRM) or other maps approved by DNR. Base flood elevations are derived from the flood profiles in the Flood Insurance Study (FIS) and are shown as AE, A1-30, and AH Zones on the FIRM. Other regulatory zones are displayed as A and AO zones. Regional Flood Elevations (RFE) may be derived from other studies. If more than one map or revision is referenced, the most restrictive information shall apply.

(3) Establishment of Floodplain Zoning Districts.

The regional floodplain area is divided into four (4) districts as follows:

(a) The F1 Floodway District (FW) is the channel of a river or stream and those portions of the floodplain adjoining the channel required to carry the regional floodwaters and are contained within AE zones as shown on the FIRM.

(b) The F2 Flood Fringe District (FF) is that portion between the regional flood limits and the floodway and displayed as AE zones on the FIRM.

(c) The F3 General Floodplain District (GFP) consists of those areas that may be covered by floodwater during the regional flood.

(d) The F4 Flood Storage District (FSD) is that area of the floodplain where storage of floodwaters is calculated to reduce the regional flood discharge.

(4) Floodplain Maps.

See Sec. 28.022(3), Zoning Districts and Maps, for listing of floodplain maps and determination of floodplain boundaries.

(5) Removal of Lands From Floodplain.

Compliance with the provisions of this ordinance shall not be grounds for removing land from the floodplain unless it is filled at least two (2) feet above the regional or base flood elevation; the fill is contiguous to land outside the floodplain, and the map is amended using the procedures established for zoning map amendments in Sec. 28.182.

(6) Warning and Disclaimer of Liability.

The flood protection standards in this ordinance are based on engineering experience and scientific research. Larger floods may occur or the flood height may be increased by man-made or natural causes. This ordinance does not imply or guarantee that non-floodplain areas or permitted floodplain use areas will be free from flooding and flood damages. Nor does this ordinance create liability on the part of, or a cause of action against, the City of Madison or any officer or employee thereof for any flood damage that may result from reliance on this ordinance.

(7) General Development Standards.

(a) No development shall be allowed in floodplain areas which will:

1. Obstruct flow, defined as development that blocks the conveyance of floodwaters by itself or with other development, causing any increase in the regional flood height; or

2. Cause any increase in the regional flood height due to floodplain storage area lost.

(b) Obstructions or increases greater than 0.00 foot may only be permitted if amendments are made to this ordinance, the official floodplain zoning maps, floodway lines, and water surface profiles.

(c) The Zoning Administrator shall deny permits where it is determined that the proposed development will obstruct flow or cause any increase in the regional

flood heights based on the adopted Flood Insurance Rate Map or other adopted map, unless amendments are made using the procedures established for zoning map amendments in Sec. 28.182.

(d) All proposed building sites in subdivisions or new developments in flood prone areas shall be reasonably free from flooding. If a proposed building site is in a flood prone area, all new construction and substantial improvements shall be designed and anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads; be constructed with flood-resistant materials; be constructed to minimize flood damages; and to ensure that utility and mechanical is designed and/or located so as to prevent water from entering or accumulating within the equipment during conditions of flooding. Subdivisions and all new development shall be reviewed for compliance with the above standards. All proposals (including manufactured home parks) shall include regional flood elevation and floodway data.

(Sec. 28.121(7) Am. by ORD-13-00086, 5-29-13)

(8) Watercourse Alterations.

No land use permit to alter or relocate a watercourse in a mapped floodplain shall be issued until the Zoning Administrator has notified in writing all adjacent municipalities, the Southern District Office of the DNR and the appropriate office of FEMA and required the applicant to secure all necessary state and federal permits. The standards of sub. (7) must be met and the flood-carrying capacity of any altered or relocated watercourse shall be maintained. As soon as practicable, but not later than six months after the date of the watercourse alteration or relocation, and pursuant to Sec. 28.182, the City shall apply for a Letter of Map Revision (LOMR) from FEMA. Any such alterations must be reviewed and approved by FEMA and the DNR through the LOMC process.

(9) Development Under Wis. Stat. chs. 30 and 31.

Development which requires a permit from the Department of Natural Resources, under Wis. Stat. chs. 30 and 31, such as docks, piers, wharves, bridges, culverts, dams and navigational aids, may be allowed provided the necessary local permits are obtained and necessary amendments are made to the floodplain zoning ordinance are made according to Sec. 28.182.

(10) Nonconforming Uses.

The existing lawful use of a structure or its accessory use that is not in conformity with the provisions of this ordinance may continue subject to the conditions set forth in Sec. 28.126(2).

(11) Compliance Required.

Unless specifically exempted by law, all cities, villages, towns and counties are required to comply with this ordinance and obtain all necessary permits. State agencies are required to comply if Wis. Stat. § 13.48(13) applies. The construction, reconstruction, maintenance and repair of state highways and bridges by the Wisconsin Department of Transportation is exempt when Wis. Stat. § 30.2022 applies.

(12) Floodproofing.

(a) To withstand flood velocities, forces, and other factors associated with the regional flood, floodproofing measures shall be designed that will protect the structure or development to the flood protection elevation and such measures shall either be certified by a registered professional engineer or architect, or meet or exceed the following standards:

1. A minimum of two (2) openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding;
2. The bottom of all openings shall be no higher than one foot above grade; and

3. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

(b) All flood-proofing measures shall be designed to:
1. Withstand floor pressures, depths, velocities, uplift and impact forces and other regional flood factors.
2. Protect structures to the flood protection elevation.
3. Anchor structures to foundations to resist flotation and lateral movement; and
4. Minimize or eliminate infiltration of flood waters; and
5. Minimize or eliminate discharges into flood waters.

(c) Flood-proofing measures may include the following:
1. Installation of watertight doors, bulkheads and shutters.
2. Reinforcement of walls and floors to resist rupture or collapse caused by water pressure or floating debris.
3. Use of paints, membranes or mortars to reduce seepage of water through walls.
4. Addition of mass or weight to structures to prevent flotation.
5. Placement of essential utilities above the flood protection elevation.
6. Installation of pumping facilities and/or subsurface drainage systems to relieve foundation wall and basement floor pressures and to lower water levels in structures.
7. Construction of water supply wells and waste treatment systems to prevent the entry of flood waters.
8. Installation of cutoff valves on sewer lines or the elimination of gravity basement drains.

(13) Public or Private Campgrounds.

Public or private campgrounds shall have low flood damage potential and shall meet the following provisions:

(a) The campground is approved by the Department of Health Services;

(b) A land use permit for the campground is issued by the zoning administrator;

(c) The campground elevation in relation to the river system is such that a seventy-two (72) hour warning of an impending flood can be given to all campground occupants;

(d) There is an adequate flood warning procedure for the campground that offers the minimum notice required under this section to all persons in the campground. This procedure shall include a written agreement between the campground owner, the municipal emergency government coordinator and the chief law enforcement official which specifies the flood elevation at which evacuation shall occur, personnel responsible for monitoring flood elevations, types of warning systems to be used and the procedures for notifying at-risk parties, and the methods and personnel responsible for conducting the evacuation;

(e) This agreement shall be for no more than one (1) calendar year, at which time the agreement shall be reviewed and updated by the officials identified in sub. d to remain in compliance with all applicable regulations, including those of the state Department of Health Services and all other applicable regulations;

(f) Only camping units that are fully licensed, if required, and ready for highway use are allowed;

(g) The camping units shall not occupy any site in the campground for more than one hundred-eighty (180) consecutive days, at which time the camping unit must be removed from the floodplain for a minimum of twenty-four (24) hours;

(h) All camping units that remain on site for more than thirty (30) days shall be issued a limited authorization by the campground operator, a written copy of which is

kept on file at the campground. Such authorization shall allow placement of a camping unit for a period not to exceed one hundred-eighty (180) days and shall ensure compliance with all the provisions of this section;

(i) The municipality shall monitor the limited authorizations issued by the campground operator to assure compliance with the terms of this section;

(j) All camping units that remain in place for more than one hundred-eighty (180) consecutive days must meet the applicable requirements in either Secs. 28.122, 28.123 or 28.124 for the floodplain district in which the structure is located;

(k) The campground shall have signs clearly posted at all entrances warning of the flood hazard and the procedures for evacuation when a flood warning is issued and;

(l) All service facilities, including but not limited to refuse collection, electrical service, gas lines, propane tanks, sewage systems and wells shall be properly anchored and placed at or floodproofed to the flood protection elevation.

(14) Application Requirements for Permits and Zoning Certificates.

(a) Site Development Plan. Within the Floodplain Districts, all permit applications shall include a site development plan drawn to scale and containing the following information:

1. Name and address of the applicant, property owner, and contractor.
2. Legal description, proposed use, and whether the development is new construction or a modification.
3. Location, dimensions, area and elevation of the lot.
4. Location of the ordinary high-water mark of any abutting navigable waterways.
5. Location of any structures with distances measured from the lot lines and center line of all abutting streets highways.
6. Location of any existing or proposed on-site sewage systems or private water supply systems.
7. Location and elevation of existing or future access roads.
8. Location of floodplain and floodway limits on the property as determined from the official floodplain zoning maps.
9. The elevation of the lowest floor of proposed buildings and any fill using North American Vertical Datum (NAVD).
10. Data sufficient to determine the regional flood elevation in NAVD at the location of the development and to determine whether or not the requirements of the Floodway District or the Flood Fringe District apply.
11. Data sufficient to determine if the proposed development will cause either an obstruction to flow or an increase in regional flood height or discharge according to Sec. 28.121(7). This may include any of the information noted in Sec. 28.122(3).

(b) Hydraulic and Hydrologic Studies to Analyze Developments. All hydraulic and hydrologic studies shall be completed under the direct supervision of a professional engineer registered in the State. The study contractor shall be responsible for the technical adequacy of the study. All studies shall be reviewed and approved by the Department

1. Zone A Floodplains.
   a. Hydrology.
      i. The appropriate method shall be based on the standards in Wis. Admin. Code ch. NR 116.07(3), *Hydrologic Analysis: Determination of Regional Flood Discharge.*

b. Hydraulic Modeling.

The regional flood elevation shall be based on the standards in Wis. Admin. Code ch. NR 116.07(4), *Hydraulic Analysis: Determination of Regional Flood Elevation* and the following:

i. Determination of the required limits of the hydraulic model shall be based on detailed study information for downstream structures (dam, bridge, culvert) to determine adequate starting WSEL for the study.

ii. Channel sections must be surveyed.

iii. Minimum four (4) foot contour data in the overbanks shall be used for the development of cross section overbank and floodplain mapping.

iv. A maximum distance of five hundred (500) feet between cross sections is allowed in developed areas with additional intermediate cross sections required at transitions in channel bottom slope including a survey of the channel at each location.

v. The most current version of HEC-RAS shall be used.

vi. A survey of bridge and culvert openings and the top of road is required at each structure.

vii. Additional cross sections are required at the downstream and upstream limits of the proposed development and any necessary intermediate locations based on the length of the reach if greater than five hundred (500) feet.

viii. Standard accepted engineering practices shall be used when assigning parameters for the base model such as flow, Manning's N values, expansion and contraction coefficients or effective flow limits. The base model shall be calibrated to past flooding data such as high water marks to determine the reasonableness of the model results. If no historical data is available, adequate justification shall be provided for any parameters outside standard accepted engineering practices.

ix. The model must extend past the upstream limit of the difference in the existing and proposed flood profiles in order to provide a tie-in to existing studies. The height difference between the proposed flood profile and the existing study profiles shall be no more than 0.00 feet.

c. Mapping.

A work map of the reach studied shall be provided, showing all cross section locations, floodway/floodplain limits based on best available topographic data, geographic limits of the proposed development and whether the proposed development is located in the floodway.

i. If the proposed development is located outside of the floodway, then it is determined to have no impact on the regional flood elevation.

ii. If any part of the proposed development is in the floodway, it must be added to the base model to show the difference between existing and proposed conditions. The study must ensure that all coefficients remain the same as in the existing model, unless adequate justification based on standard accepted engineering practices is provided.

2. Zone AE Floodplains.

a. Hydrology.

If the proposed hydrology will change the existing study, the appropriate method to be used shall be based on ch. NR 116.07(3), Wis. Admin. Code, *Hydrologic Analysis: Determination of Regional Flood Discharge*.

b. Hydraulic Model. The regional flood elevation shall be based on the standards in Wis. Admin. Code ch. NR 116.07(4), *Hydraulic Analysis: Determination of Regional Flood Elevation* and the following:

i. Duplicate Effective Model.

The effective model shall be reproduced to ensure correct transference of the model data and to allow integration of the revised data to provide a continuous FIS model upstream and downstream of the revised reach. If data from the effective model is available, models shall be generated that duplicate the FIS profiles and the elevations shown in the Floodway Data Table in the FIS report to within 0.1 foot.

ii. Corrected Effective Model.

The Corrected Effective Model shall not include any man-made physical changes since the effective model date, but shall import the model into the most current version of HEC-RAS for Department review.

iii. Existing (Pre-Project Conditions) Model.

The Existing Model shall be required to support conclusions about the actual impacts of the project associated with the Revised (Post-Project) Model or to establish more up-to-date models on which to base the Revised (Post-Project) Model.

iv. Revised (Post-Project Conditions) Model.

The Revised (Post-Project Conditions) Model shall incorporate the Existing Model and any proposed changes to the topography caused by the proposed development. This model shall reflect proposed conditions.

v. All changes to the Duplicate Effective Model and subsequent models must be supported by certified topographic information, bridge plans, construction plans and survey notes.

vi. Changes to the hydraulic models shall be limited to the stream reach for which the revision is being requested. Cross sections upstream and downstream of the revised reach shall be identical to those in the effective model and result in water surface elevations and top widths computed by the revised models matching those in the effective models upstream and downstream of the revised reach as required. The Effective Model shall not be truncated.

c. Mapping.

Maps and associated engineering data shall be submitted to the Department for review which meet the following conditions:

i. Consistency between the revised hydraulic models, the revised floodplain and floodway delineations, the revised

flood profiles, topographic work map, annotated FIRMs and/or Flood Boundary Floodway Maps (FBFMs), construction plans, bridge plans.

ii. Certified topographic map of suitable scale, contour interval, and a planimetric map showing the applicable items. If a digital version of the map is available, it may be submitted in order that the FIRM may be more easily revised.

iii. Annotated FIRM panel showing the revised 1% and 0.2% annual chance floodplains and floodway boundaries.

iv. If an annotated FIRM and/or FBFM and digital mapping data (GIS or CADD) are used then all supporting documentation or metadata must be included with the data submission along with the Universal Transverse Mercator (UTM) projection and State Plane Coordinate System in accordance with FEMA mapping specifications.

v. The revised floodplain boundaries shall tie into the effective floodplain boundaries.

vi. All cross sections from the effective model shall be labeled in accordance with the effective map and a cross section lookup table shall be included to relate to the model input numbering scheme.

vii. Both the current and proposed floodways shall be shown on the map.

viii. The stream centerline, or profile baseline used to measure stream distances in the model shall be visible on the map.

(Sec. 28.121 Am. by ORD-14-00146, 9-12-14)

28.122 F1 FLOODWAY DISTRICT.

(1) Applicability.

The provisions of this section shall apply to all floodway areas on the floodplain zoning maps and to those portions of the F3 General Floodplain District determined to be in the floodway area.

(2) Permitted Uses.

The following open space uses are permitted in the F1 Floodway District:

(a) Agricultural uses, including general farming, pasture, grazing, outdoor plant nurseries, horticulture, viticulture, and wild crop harvesting.

(b) Nonstructural industrial and commercial uses, including parking and loading areas and airport landing strips.

(c) Nonstructural recreational uses, including golf course, tennis courts, driving ranges, archery ranges, picnic grounds, boat launching ramps, swimming areas, parks, wildlife and nature preserves, game farms, fish hatcheries, shooting trap and skeet activities, hunting and fishing areas, and hiking and horseback riding trails.

(d) Uses or structures accessory to open space uses or classified as historic structures.

(e) Public utilities, streets, and bridges.

(f) Extraction or deposition of sand, gravel or other materials.

(g) Functionally water-dependent uses, such as docks, piers or wharves, dams, flowage areas, culverts, navigational aids and river crossings of transmission lines, and pipelines that comply within Wis. Stats. chs. 30 and 31.

(3) Standards for Developments in Floodway.

(a) General.

1. Any development in the floodway shall comply with the provisions of Section 28.121(7) and have a low flood damage potential.

2. Applicants shall provide the following data for the Zoning Administrator to determine the effects of the proposal according to Sec. 28.121(7)(a) and (b):
   a. A cross-section elevation view of the proposal, perpendicular to the watercourse, indicating whether the proposed development will obstruct flow; or
   b. An analysis calculating the effects of this proposal on regional flood height.
3. The Zoning Administrator shall deny the permit application if the project will cause any increase in the flood elevations upstream or downstream based on the data submitted for Subparagraph 2.b. above. (Am. by ORD-13-00086, 5-29-13)

(b) Structures. Structures accessory to permitted open space uses, classified as historical areas, or functionally dependent on a waterfront location, may be allowed by permit, providing the structures meet all of the following criteria:
1. Not designed for human habitation and do not have a high flood damage potential and is constructed to minimize flood damage;
2. Shall have a minimum of two openings on different walls having a total net area not less than one square inch for every square foot of enclosed area, at the bottom of all such openings being no higher than one foot above grade. The openings shall be equipped with screens, louvers, or other coverings or other devices provided they permit the automatic entry and exit of floodwaters; (Am. by ORD-13-00086, 5-29-13)
3. Must be anchored to resist flotation, collapse, and lateral movement; and
4. Mechanical and utility equipment must be elevated or flood proofed to or above the flood protection elevation.

(c) Public Utilities, Streets, and Bridges. Public utilities, streets and bridges may be allowed by permit, provided that:
1. Adequate flood-proofing measures are provided to the flood protection elevation; and
2. Construction meets the standards in Sec. 28.121(7)(a) and (b).

(d) Fills or Deposition of Materials.

Fills or deposition of materials may be allowed by permit, provided that:
1. The requirements of Sec. 28.121(7)(a) and (b) are met.
2. No material is deposited in navigable waters unless a permit has been granted by the Department of Natural Resources pursuant to Wis. Stat. ch. 30, and a permit pursuant to 33 U.S.C. 1344 has been issued, if applicable, and all other requirements have been met.
3. The fill or other materials will be protected against erosion by riprap, vegetative cover, sheet piling or bulkheading sufficient to prevent erosion; and
4. The fill is not classified as a solid or hazardous material.

(4) Prohibited Uses.

All uses not listed as permitted uses in sub. (2) above are prohibited with the floodway district and in the floodway portion of the general floodplain district including the following uses:

(a) The storage of any material that is buoyant, flammable, explosive, or injurious to property, water quality, or human, animal, plant, fish or other aquatic life.

(b) Any uses not in harmony with or which may be detrimental to uses permitted in the adjoining districts.

(c) All private or public sewage systems, except portable latrines that are removed prior to flooding, and systems associated with public recreational areas and Wisconsin Department of Natural Resources approved campgrounds, that meet the applicable provisions of Wis. Admin. Code ch. SPS 383.

(d) All public or private wells which are used to obtain potable water, except those for recreational areas that meet the requirements of local ordinances and Wis. Admin. Code chs. NR 811 and NR 812.

(e) All solid and hazardous waste disposal sites.

(f) All wastewater treatment ponds or facilities, except those permitted under Wis. Admin. Code § NR 110.15(3)(b).

(g) All sanitary sewer or water lines except those to service existing or proposed development located outside the floodway which complies with the regulation for the floodplain area occupied.

(h) Habitable structures, structures with high flood damage potential, or those not associated with permanent open-space uses.

(Sec. 28.122 Am. by ORD-14-00146, 9-12-14)

28.123 F2 FLOOD FRINGE DISTRICT.

(1) Applicability.

The provisions of this section shall apply to all areas within the F2 Flood Fringe District and to those portions of the F3 General Floodplain District determined to be in the flood fringe area. The F2 Flood Fringe District shall also include the A-zones so designated on the floodplain zoning district maps and for which floodways are delineated and mapped.

(2) Permitted Uses.

The following uses are permitted in the F2 Flood Fringe District and to those portions of the F3 General Floodplain District determined to be in the flood fringe area: Any building, structure or use otherwise allowed as permitted or conditional uses in the underlying primary zoning district, except for mobile home parks and solid waste disposal sites.

(3) Standards for Development in Flood Fringe.

All of the provisions of Sec. 28.121(7)(a) and (b) shall apply in addition to the following requirements according to the use requested. Any existing structure in the flood fringe must meet the requirements of Sec. 28.126.

(a) Residential Uses. Any structure or building used for human habitation, including a manufactured home, which is to be erected, newly-constructed, reconstructed, altered, or moved into the flood fringe area shall meet or exceed the following standards. Any existing structure in the flood fringe must meet the requirements of Sec. 28.126.

1. The elevation of the lowest floor shall be placed on fill at or above the flood protection elevation (which is a point two feet above the regional flood elevation) except where Subparagraph 2. below is applicable. The fill elevation shall be one foot or more above the regional flood elevation extending at least fifteen (15) feet beyond the limits of the structure. The DNR may authorize other flood-proofing measures where existing streets or sewer lines are at elevations which make compliance impractical, provided the Board of Appeals grants a variance due to dimensional restrictions.

2. The basement or crawlway floor may be placed at the regional flood elevation provided it is flood-proofed to the flood protection elevation. No permit or variance shall allow any floor, basement or crawlway below the regional flood elevation.

3. Contiguous dry land access, as a vehicle access route above regional flood elevation, shall be provided from a structure or building to land which is outside of the floodplain except as provided in sub. 4.
4. In developments where existing street or sewer line elevations make compliance with sub. 3 impractical, the municipality may permit new development and substantial improvements where roads are below the regional flood elevation, if:
   a. The municipality has written assurance from police, fire, and emergency services that rescue and relief will be provided to the structure(s) by wheeled vehicles during a regional flood event; or
   b. The municipality has a DNR-approved emergency evacuation plan.

(b) Accessory Structures or Uses.
Accessory structures shall be constructed on fill with the lowest floor at or above the Regional Flood Elevation.

(c) Commercial Uses. Any commercial structure or building which is to be erected, constructed, reconstructed, altered or moved into the flood fringe shall meet the requirements for residential uses above. Storage yards, surface parking lots and such uses may be at lower elevations, subject to the requirements of subparagraph e. below provided an adequate warning system exists to protect life and property.

(d) Manufacturing and Industrial Uses. Any manufacturing or industrial structure or building which is to be erected, constructed, reconstructed, altered or moved into the flood fringe shall have the lowest floor elevated to or above the flood protection elevation or meet the floodproofing standards in Sec. 28.121(12). Subject to the requirements in subparagraph (e) below, storage yards, surface parking lots and other such uses may be placed at lower elevations if an adequate warning system exists to protect life and property.

(e) Storage or Processing of Materials. The storage or processing of materials that are buoyant, flammable, explosive, or injurious to property, water quality or human, animal, plant, fish or aquatic life, shall be stored at or above the flood protection elevation for the particular area or flood-proofed. Adequate measures shall be taken to ensure that such materials will not enter the water body during flooding.

(f) Public Utilities, Streets and Bridges. All utilities, streets and bridges shall be designed to be compatible with the local comprehensive floodplain development plans and:
1. When failure or interruption of public utilities, streets and bridges would result in danger to the public health or safety or where such facilities are essential to the orderly functioning of the area, construction or repair of such facilities shall only be permitted if they are designed to comply with Sec. 28.121(12).
2. Minor roads or nonessential utilities may be constructed at lower elevations providing they withstand flood forces to the regional flood elevation.

(g) Sewage Systems. All sewage disposal systems shall be designed to minimize or eliminate infiltration of flood water into the system, flood-proofed pursuant to Sec. 28.121(12) to the flood protection elevation and shall meet the applicable provisions of all local ordinances and Wis. Adm. Code ch. SPS 383.

(h) Wells. All public or private wells shall be designed to minimize or eliminate infiltration of flood water into the system, flood-proofed pursuant to Sec. 28.121(12) and shall meet the applicable provisions of Wis. Adm. Code chs. NR 811 and 812.

(i) Solid Waste Disposal Sites. Disposal of solid or hazardous waste is prohibited in flood fringe areas.

(j) Deposition of Materials. Any deposited material must meet all the provisions of this ordinance.

(k) Manufactured Homes.

1. Owners or operators of all manufactured home parks and subdivisions shall provide adequate surface drainage to minimize flood damage, and prepare, secure approval and file an excavation plan, indicating vehicular access and escape routes, with local emergency management authorities.
2. In existing manufactured home parks, all new homes, replacement homes on existing pads, and substantially improved homes shall:
   a. Have the lowest floor elevated to the flood protection elevation; and
   b. Be anchored so they do not float, collapse or move laterally during a flood.
3. Outside of existing manufactured home parks, including manufactured home parks and all single units outside of existing parks, all new, replacement and substantially improved manufactured homes shall meet the requirements for residential uses in para. (3)(a) above.

(l) Mobile Recreational Vehicles.

All mobile recreational vehicles that are on site for one hundred-eighty (180) consecutive days or more or are not fully licensed and ready for highway use shall meet the elevation and anchoring requirements in (k)2. and 3. above. A mobile recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick-disconnect utilities and security devices and has no permanently attached additions.

(Sec. 28.123 Am. by ORD-14-00146, 9-12-14)

28.124 F3 GENERAL FLOODPLAIN DISTRICT.

(1) Applicability.

The F3 General Floodplain District consists of the land which has been or may be hereafter covered by flood water during the regional flood and encompasses both the F1 Floodway and F2 Flood Fringe Districts. The provisions of this district shall apply to all floodplains mapped as A, AO or AH zones.

(2) Permitted Uses.

The following uses are permitted in the F3 General Flood Plain District, provided a determination shall be made as to what portion of the floodplain is within the floodway or flood fringe as provided in Sec. 28.124(4):

(a) Uses permitted in the F1 Floodway District are permitted in that portion determined to be within the floodway.

(b) Uses permitted in the F2 Flood Fringe District are permitted in that portion determined to be within the flood fringe.

(3) Standards for Development.

Once it is determined according to Subdivision (4) below that a proposed use is located within a floodway, the provisions of Subsection 28.122 above shall apply. Once determined that the proposed use is located within the flood fringe, the provisions of Subsection 28.123 above shall apply. The rest of this subchapter applies to either district.

(a) In AO/AH zones the structure's lowest floor must meet one of the conditions listed below whichever is higher:

1. At or above the flood protection elevation; or
2. Two (2) feet above the highest adjacent grade around the structure; or
3. The depth as shown on the FIRM.

(b) In AO/AH zones, provide plans showing adequate drainage paths to guide floodwaters around structures.

(4) Determining Floodway and Flood Fringe.

Upon receiving an application for development within the general floodplain district, the Zoning Administrator shall:

(a) Require the applicant to submit, at the time of application, two (2) copies of an aerial photograph, or a plan which accurately locates the proposed development with respect to the general floodplain district limits, stream channel, and existing floodplain developments, together with all pertinent information such as the nature of the proposal, legal description of the property, fill limits and elevations, building floor elevations and flood-proofing measures, and the flood zone as shown on the FIRM.

(b) Require the applicant to furnish any of the following additional information as is deemed necessary by the DNR for evaluation of the effects of the proposal upon flood height and flood flows, regional flood elevation, and to determine the boundaries of the floodway:

1. A hydrologic and hydraulic study as specified in Sec. 28.121(14)(b).
2. Plan (surface view) showing: elevations or contours of the ground; pertinent structure, fill or storage elevations; size, location and spatial layout of all proposed and existing structures on the site; location and elevations of streets, water supply, and sanitary facilities; soil types and other pertinent information.
3. Specifications for building construction and materials, flood-proofing, filling, dredging, channel improvement, storage of materials, water supply and sanitary facilities.

(Sec. 28.124 Am. by ORD-14-00146, 9-12-14)

28.125 F4 FLOOD STORAGE DISTRICT.

(1) Applicability.

The F4 Flood Storage District consists of that portion of the floodplain where storage of floodwaters has been taken into account and is relied upon to reduce the regional flood discharge. The district protects the flood storage areas and assures that any development in the storage areas will not decrease the effective flood storage capacity, which would cause higher floodplain elevations. The provisions of this section shall apply to all areas within the F4 Flood Storage District as shown on the Dane County Flood Storage Maps.

(2) Standards for Development in Flood Storage District.

In addition to the Standards for development in Sec. 28.123(3), the following standards shall apply.

(a) Development in a flood storage district shall not cause an increase greater than 0.00 of a foot in the height of the regional flood. (Am. by ORD-13-00086, 5-29-13)

(b) No development shall be allowed that would remove flood storage volume, unless an equal volume of storage, as defined by the predevelopment ground surface and the regional flood elevation, shall be provided in the immediate area of the proposed development to compensate for the volume of storage which is lost (compensatory storage). Excavation below the groundwater table is not considered to provide an equal volume of storage.

(c) No area in the floodplain may be removed from the flood storage district unless it can be shown that the area has been filled to the flood protection elevation and is contiguous to other lands lying outside the floodplain.

(d) If compensatory storage cannot be provided, the area may not be developed unless the entire area zoned as flood storage district is rezoned to the flood fringe district. At such time, the floodplain study and map for the waterway shall be revised to revert to the higher regional flood discharge calculated without floodplain storage.

(3) Permitted Uses.

Any use allowed as permitted or conditional uses in the Madison Zoning Ordinance, except for mobile home parks and solid waste disposal sites.

28.126 NONCONFORMITIES.

(1) General Floodplain District.

If these standards conform with Wis. Stat. § 62.23(7)(h), they shall apply to all modifications or additions to any nonconforming use or structure and to the use of any structure or premises which was lawful before the passage of this ordinance or any amendment thereto.

(2) Conditions.

The existing lawful use of a structure or its accessory use which is not in conformity with the provisions of this ordinance may continue subject to the following conditions:

(a) No modifications or additions to a nonconforming use or structure shall be permitted unless they comply with this ordinance. The words "modification" and "addition" include, but are not limited to, any alteration, addition, modification, structural repair, rebuilding or replacement of any such existing use, structure or accessory structure or use.

(b) Maintenance is not considered a modification; this includes painting, decorating, paneling and other nonstructural components and the maintenance, repair or replacement of existing private sewage or water supply systems or connections to public utilities. Any costs associated with the repair of a damaged structure are not considered maintenance.

(c) The construction of a deck that does not exceed two hundred (200) square feet and that is adjacent to the exterior wall of a principal structure is not an extension, modification or addition. The roof of the structure may extend over a portion of the deck in order to provide safe ingress and egress to the principal structure.

(d) If a nonconforming use or the use of a nonconforming structure is discontinued for twelve (12) consecutive months, it is no longer permitted and any future use of the property, and any structure or building thereon, shall conform to the applicable requirements of this ordinance;

(e) The City shall keep a record which lists all nonconforming uses and nonconforming structures, their present equalized assessed value, the cost of all modifications or additions which have been permitted, and the percentage of the structure's total current value those modifications represent;

(f) No modification or addition to any nonconforming structure or any structure with a nonconforming use, which over the life of the structure would be equal to or exceed fifty percent (50%) of its present equalized assessed value, shall be allowed unless the entire structure is permanently changed to a conforming structure with a conforming use in compliance with the applicable requirements of this ordinance. Contiguous dry land access must be provided for residential and commercial uses in compliance with Sec. 28.123(a)3. The costs of elevating the lowest floor of a nonconforming building or a building with a nonconforming use to the flood protection elevation are excluded from the fifty percent (50%) provisions of this paragraph; (Am. by ORD-13-00086, 5-29-13)

(g) No maintenance to any nonconforming structure or any structure with a nonconforming use, the cost of which would equal or exceed fifty percent (50%) of its present equalized assessed value, shall be allowed unless the entire structure is permanently changed to a conforming structure with a conforming use in compliance with the applicable requirements of this ordinance. Contiguous dry land access must be provided for residential and commercial uses in compliance with Sec. 28.123(3)(a);

(h) If on a per event basis the total value of the work being done under (d) and (e) equals or exceeds fifty percent (50%) of the present equalized assessed value the work shall not be permitted unless the entire structure is permanently changed to a conforming structure with a conforming use in compliance with the applicable requirements of this ordinance. Contiguous dry land access must be provided for residential and commercial uses in compliance with Sec. 28.123(3)(a);

(i) Except as provided in subparagraph (j) below, if any nonconforming structure or any structure with a nonconforming use is destroyed or is substantially damaged, it cannot be replaced, reconstructed or rebuilt unless the use and the structure meet the current ordinance requirements. A structure is considered substantially damaged if the total cost to restore the structure to its pre-damaged condition equals or exceeds fifty percent (50%) of the structure's present equalized assessed value.

(j) For nonconforming buildings that are substantially damaged or destroyed by a nonflood disaster, the repair or reconstruction of any such nonconforming building shall be permitted in order to restore it to the size and use in effect prior to the damage event, provided that the minimum federal code requirements below are met and all required permits have been granted prior to the start of construction.

1. Residential Structures.
   a. Shall have the lowest floor, including basement, elevated to or above the base flood elevation using fill, pilings, columns, posts or perimeter walls. Perimeter walls must meet the requirements of Sec. 28.121(12)(a).
   b. Shall be anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy and shall be constructed with methods and materials resistant to flood damage.
   c. Shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or elevated so as to prevent water from entering or accumulating within the components during conditions of flooding.
   d. In A Zones, obtain, review and utilize any flood data available from a federal, state or other source.
   e. In AO Zones, the lowest floor must meet one of the following requirements, whichever is greater:
      i. At or above the flood protection elevation;
      ii. Two (2) feet above the highest adjacent grade around the structure; or
      iii. The depth as shown on the FIRM.
   f. In AO Zones, shall have adequate drainage paths around structures on slopes to guide floodwaters around and away from the structure.
2. Nonresidential Structures.
   a. Shall meet the requirements of Sec. 28.126(2)(j).
   b. Shall either have the lowest floor, including basement, elevated to or above the regional flood elevation; or, together with attendant utility and sanitary facilities, shall meet the standards in Sec. 28.121(12)(a).
   c. In AO Zones with no elevations specified, shall have the lowest floor, including basement, meet the standards in Sec. 28.124(3).

(k) A nonconforming historic structure may be altered if the alteration will not preclude the structures continued designation as a historic structure, the alteration

will comply with Sec. 28.122(3), flood resistant materials are used, and construction practices and floodproofing methods that comply with Sec. 28.121(12) are used. Repair or rehabilitation of historic structures shall be exempt from the development standards of 28.126(2)(j)1. if it is determined that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and is the minimum necessary to preserve the historic character and design of the structure.

(3) Floodway District.

(a) Additions or modifications shall not be allowed to any nonconforming structure or any structure with a nonconforming use in the floodway district unless such addition or modification:

1. Has been granted a permit or variance that meets all ordinance requirements.
2. Meets the requirements of Section 28.126(1) and (2). (Am. by ORD-13-00086, 5-29-13)
3. Shall not increase the obstruction to flood flows or regional flood height; and
4. Any addition to the existing structure shall be floodproofed, pursuant to Sec. 28.121(12), by means other than the use of fill, to the flood protection elevation; and
5. If any part of the foundation below the flood protection elevation is enclosed, the following standards shall apply:
   a. The enclosed area shall be designed by a registered architect or engineer to allow for the efficient entry and exit of the flood waters without human intervention. A minimum of two (2) openings must be provided with a minimum net area of at least one (1) square inch for every one (1) square foot of the enclosed area. The lowest part of the opening can be no more than twelve (12) inches above the adjacent grade.
   b. The parts of the foundation located below the flood protection elevation must be constructed of flood-resistant materials.
   c. Mechanical and utility equipment must be elevated or floodproofed to or above the flood protection elevation; and
   d. The use must be limited to parking, building access or limited storage.

(b) No new on-site sewage disposal system, or addition to an existing on-site sewage disposal system, except where an addition has been ordered by a government agency to correct a hazard to public health, shall be allowed in the Floodway District. Any replacement, repair or maintenance of an existing on-site sewage disposal system in the Floodway District shall meet the applicable requirements of all municipal ordinances and Wis. Admin. Code ch. SPS 383.

(c) No new well or modification to an existing well, used to obtain potable water, shall be allowed in the Floodway District. Any replacement, repair or maintenance of an existing well in the Floodway District shall meet the applicable requirements of all municipal ordinances and Wis. Admin. Code chs. NR 811 and NR 812.

(4) Flood Fringe District.

(a) The provisions of Sec. 28.126(1) and (2) shall apply to all nonconforming uses and structures.

(b) Additions or modifications shall not be allowed to any nonconforming structure or any structure with a nonconforming use unless such addition or modification has been granted a permit or variance. In addition, the addition or modification shall meet the requirements of Subdivision 28.123(3) above except where Paragraph (c) below is applicable.

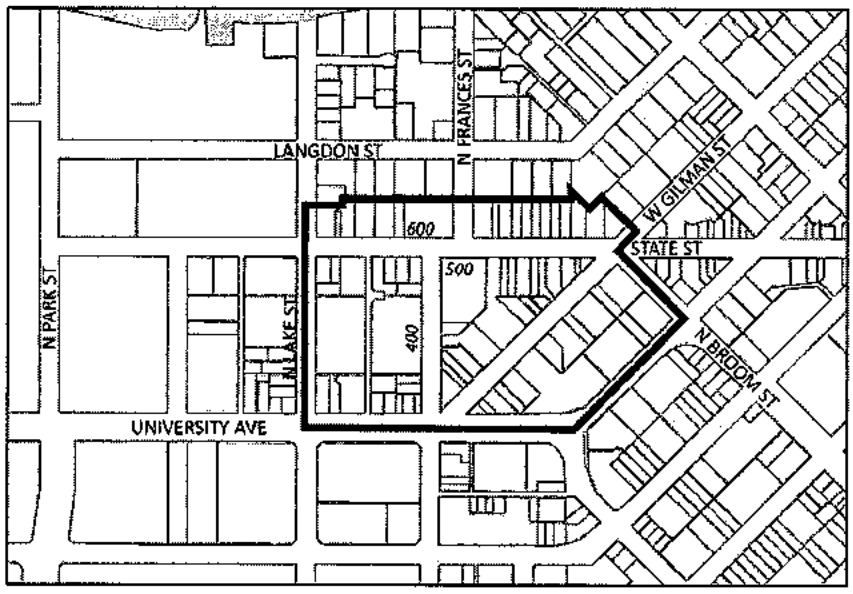
(c) Where compliance with the provisions of Paragraph (b) above would result in unnecessary hardship, and only where the structure will not be used for human habitation or be associated with a high flood damage potential, the Zoning Board of Appeals may grant a variance from those provisions of Paragraph (a) above for additions or modifications using the criteria listed below. Additions or modifications which are protected to elevations lower than the flood protection elevation may be permitted provided:

1. No floor is allowed below the regional flood elevation for structures with residential or commercial uses.
2. Human lives are not endangered.
3. Public facilities, such as water or sewer, shall not be installed.
4. Flood depths shall not exceed two (2) feet.
5. Flood velocities shall not exceed two (2) feet per second; and
6. The structure shall not be used for storage of materials described in Sec. 28.123(3)c.

(d) All new private sewage disposal systems, or addition to, replacement, repair or maintenance of a private sewage disposal system shall meet all the applicable provisions of all local ordinances and Wis. Admin. Code ch. SPS 383.

(e) All new wells, or addition to, replacement, repair or maintenance of a well shall meet the applicable provisions of this ordinance and Wis. Admin. Code chs. NR 811 and NR 812.

(5) Nonconformities in Flood Storage Areas.



No modifications or additions shall be allowed to any nonconforming structure in a flood storage district unless the standards in Sec. 28.125 (1) and (2) are met. (Am. by ORD-13-00086, 5-29-13)

(Sec. 28.126 Am. by ORD-14-00146, 9-12-14)

28.127 ALCOHOL OVERLAY DISTRICT.

(1) Applicability. The Alcohol Overlay district is depicted on the map below. This ordinance applies to all addresses within the boundaries depicted on the map.

(a) Alcohol Overlay District map.

(2) Permitted and Conditional Uses. Table 28H-1 lists permitted and conditional uses in the Alcohol Overlay District which supersede the regulations in the underlying zoning district.

(a) "P" means permitted in the districts where designated.
(b) "C" means allowed as conditional uses in the districts where designated, in compliance with all applicable standards.
(c) "P/C" means permitted or conditional, depending on specific requirements in Supplemental Regulations, Subchapter 28J.
(d) "Y" means there are specific requirements in Subchapter 28J associated with a use.

Table 28H-1

	Alcohol Overlay District	Supplemental Regulations
Food and Beverages		
Brewpub	C	Y
Nightclub	P/C	Y
Restaurant	P	
Restaurant-nightclub	P/C	Y
Restaurant-tavern	P	Y
Retail Sales and Services		
Liquor store		
Accessory Uses and Structures		
Accessory retail alcohol sales		

(3) Annual Review. The effect of this ordinance shall be reviewed every year. A report shall be prepared by the Alcohol Policy Coordinator with assistance from the Zoning Administrator and Madison Police Department. The report shall be shared with the Alcohol License Review Committee, Plan Commission, and Common Council. The report will be due December 1 of each year, with the first report due December 1, 2015. This report should include information regarding:
(a) The number and types of establishments in each district;
(b) The number of nonconforming uses in the Alcohol Overlay District;
(c) The number and kind of any conditional uses approved in each district;
(d) Feedback provided by the public, including business owners, throughout the calendar year;
(e) Feedback from the Madison Police Department regarding any public safety issues arising from or impacted by this ordinance; and,
(f) Feedback from the Zoning Administrator regarding any land use issues arising from or impacted by this ordinance. In addition, the report should include any other information gathered by City staff that may be relevant to the various committees and Common Council regarding the impact of this ordinance across the City and in the new Alcohol Overlay District.

(4) This section is effective July 1, 2014 and shall expire and be of no legal effect on July 1, 2019, unless extended by the Common Council prior to the expiration date. The Common Council shall be notified of this provision by City staff at least one hundred twenty (120) days prior to this date.

(Cr. by ORD-14-00083, 4-16-14)

SUBCHAPTER 28I: GENERAL REGULATIONS

28.131 ACCESSORY BUILDINGS AND STRUCTURES ON LOTS USED EXCLUSIVELY FOR RESIDENTIAL AND MIXED-USE PURPOSES.

(1) All accessory buildings and structures on lots in any district used exclusively for residential and mixed-use purposes shall comply with the following requirements:

(a) Maximum Area Per Lot. Total area of accessory buildings measured at ground floor: ten percent (10%) of lot area but no more than one thousand (1,000) square feet. A larger total building area may be allowed by conditional use approval.

(b) Maximum Size of Accessory Building. No individual structure shall exceed five hundred seventy-six (576) square feet in TR districts and eight hundred (800) square feet in other districts at ground level except by conditional use approval. Accessory buildings shall not exceed the size of the principal building.

(c) Maximum Height. The height of the principle building or fifteen (15) feet, whichever is lower. The following are exempt from this requirement:

1. The maximum height of accessory dwelling units shall be determined by the district requirements for zoning districts where such units are allowed.

2. The maximum height of carriage houses within historic district may be the same as the original height.

(d) Maximum Percentage of Rear Yard Setback. Accessory buildings may occupy a maximum of fifty percent (50%) of the area of the rear yard setback.

(e) Placement. Accessory buildings may be located in the following locations:

1. Within the building envelope.

2. In a rear yard setback, a minimum of three (3) feet from any property line.

3. In a side yard setback, if located behind the rear plane of the principal building at the time of construction, a minimum of three (3) feet from any property line.

4. In the side or rear yard setback of a corner lot, a minimum distance from the street side lot line equal to the setback required for a principal building in the district.

5. In the rear yard setback of a reversed corner lot, no closer to the street side lot line than the front yard setback of the adjacent property, for the first twenty-five (25) feet from the common property line. Beyond this distance, the minimum setback shall be equal to the setback required for a principal building in the district.

6. A minimum of three (3) feet from any principal building and any other accessory building. (Cr. by ORD-13-00007, 1-15-13)

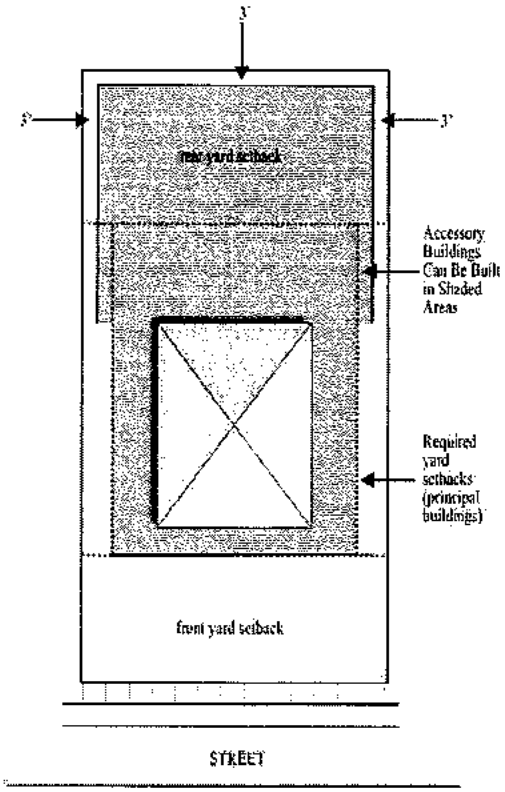


Figure I1: Accessory Building Placement Accessory buildings may be located in shaded areas.

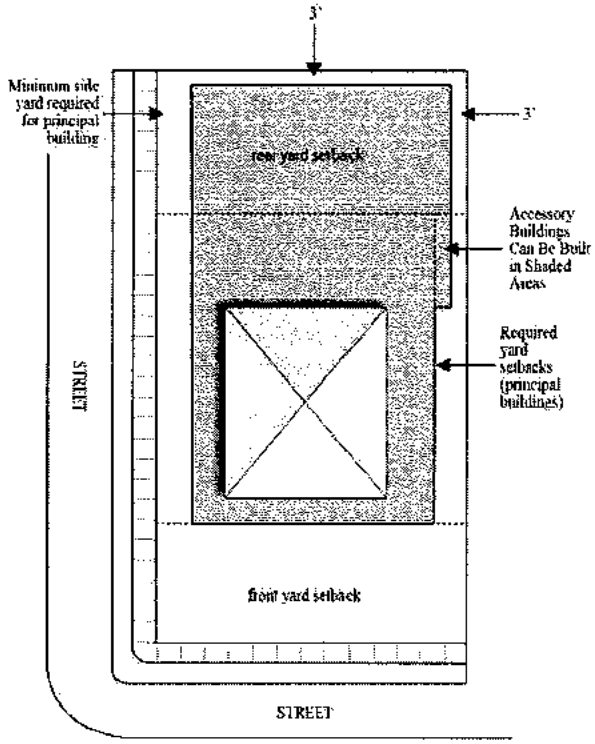

Figure I2: Accessory Building Placement for Corner Lots. Accessory buildings may be located in shaded areas.

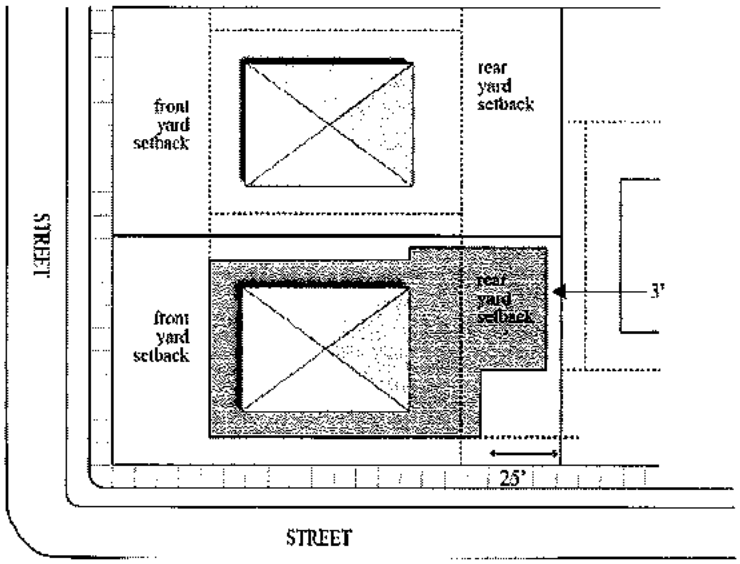

Figure I3: Accessory Building Placement for Reverse Corner Lots. Accessory buildings may be located in shaded areas.

(Am. by ORD-13-00007, 1-15-13)

(f) Shared Garages. A detached garage may be constructed across a lot line by abutting property owners, where a garage is permitted within three (3) feet of the lot line, provided that:

1. A joint driveway shall lead to the garage; and
2. The property owners shall provide a joint access and maintenance agreement for the use of the garage.

(g) Side and Rear Yard Garage Replacement. A detached garage located in a side or rear yard may be replaced within the existing setbacks provided that:

1. The garage is replaced within one (1) year of demolition.
2. The location and size of the existing or demolished garage shall be verified by the Zoning Administrator.
3. The replaced garage shall not exceed twenty-four (24) feet in length or width.
4. Neither the length, width, or height of the replaced garage shall be more than two (2) feet greater than the length, width, or height of the demolished garage.
5. No side of the enlarged structure is moved closer to any lot line with which there is a non-conforming setback.
6. The replaced garage shall not exceed the maximum size allowed under Sub. (2)(b) above.

(h) Garages in Embankments in Front Yards. Where the mean natural grade of a front yard is more than eight (8) feet above curb level, a private garage may be erected within the front yard setback, provided that:

1. The garage shall be located at least five (5) feet from the front lot line; and
2. At least one-half (½) of the height of the garage shall be below the mean grade of the front yard.

(2) Reserved for Future Use. (Rep. by ORD-15-00116, 10-28-15)

28.132 ENCROACHMENTS INTO SETBACK AREAS.

(1) Permitted Setback Encroachments.

The following structures or features are allowed encroachments in setback areas. For those encroachments with siting limitations, the maximum distance in feet that that the encroachment shall extend into the setback is provided. No subterranean encroachments are allowed except as noted in Table 28I-1.

Table 28I-1.

Structure or Feature	Front Yard Setback	Side Yard Setback	Rear Yard Setback

(Am. by ORD-13-00143, 9-11-13; ORD-16-00051, 5-25-16; ORD-16-00093, 11-9-16; ORD-16-00109, 12-14-16)

(2) Other Encroachment Requirements.

(a) One (1) story bay windows shall not occupy, in the aggregate, more than one-third (⅓) of the front or side wall or one-half (½) of the rear wall of the building, and shall be located entirely within planes drawn from either main corner of the wall, making an interior angle of twenty-two and one-half (22.5) degrees in the horizontal plane with the wall.

(b) Compost bins also shall comply with the requirements of Sec. 7.361, MGO.

(c) Uncovered entrance platforms necessary to comply with current ingress and egress regulations shall be no wider than six (6) feet. Steps from the platform may extend into the setback area for the distance needed to meet minimum building code requirements for risers and treads. Replacement steps for porches may be as wide as the steps being replaced and may extend into the setback area for the distance needed to meet minimum building code requirements for risers and treads.

(d) Accessibility accommodations as follows:

1. Wheelchair ramps when the maximum size of the ramp is not greater than the minimum requirements for ramps under Wis. Admin. Code § SPS 321.045. All ramps that are in front or side yard setbacks and are more than three (3) feet from the level of the adjoining ground shall have skirting covering the opening under the ramp and a landscape buffer shall be provided along the base of the ramp.

2. Off-street parking and loading spaces only if any vehicle parked in the space displays a current parking identification card or license plate for persons with disabilities, issued to a resident at the address; the space has access from a public street, and all other applicable off-street parking requirements are met. If a person requiring a parking space for people

with disabilities no longer resides in the dwelling unit, the off-street parking and loading space shall be made to conform to the zoning code either by removal or being rendered incapable of use as an off-street parking or loading space.

(e) Single-story unheated open or enclosed porches attached to single-family or two-family dwellings may encroach into the rear yard setback if the porch extends no more than fourteen (14) feet from the exterior wall of the building and is no more than sixteen (16) feet wide. In the case of a home with a walk-out basement to the rear yard, the porch may have an additional basement level. (Cr. by ORD-13-00143, 9-11-13)

(f) For egress window wells that project into the sideyard setback area, the lowest point of the top edge of the egress well shall be at least six (6) inches above the adjoining grade. (Cr. by ORD-15-00082, 8-12-15)

(g) Rear Yard. The rear yard shall be the lesser of thirty-five percent (35%) of the lot depth or thirty-five (35) feet. A one-story garage projection for garage purposes only may project thirty percent (30%) of the least depth into a required rear yard, provided the balance of the rear yard shall remain unoccupied and unobstructed from the ground upward. (Cr. by ORD-14-00133, 8-13-14; Renum. by ORD-15-00082, 8-12-15)

(h) Underground Parking. In any district, underground parking may extend into the rear yard setback if it is located completely below pre-construction existing grade or under a slope of no greater than one (1) to three (3) feet to the lot line and is completely covered by landscape. (Cr. by ORD-16-00051, 5-25-16)

28.133 ENVIRONMENTAL PROTECTION STANDARDS.

(1) General Standards.

(a) All uses shall be conducted so as to prevent or substantially minimize any nuisance, hazard, or commonly recognized offensive conditions, including creation or emission of dust, gas, smoke, noise, fumes, odors, vibrations, particulate matter, chemical compounds, electrical disturbance, humidity, heat, cold, glare, or night illumination.

(b) No use shall result in the harmful discharge of any waste materials across the boundaries of the subject property or into the ground, into any sanitary or storm sewer system, into ay water body or water system, or into the atmosphere.

(c) The Zoning Administrator may require evidence of adequate controls on any potential nuisances or hazards prior to issuing a zoning or occupancy certificate.

(2) Activities Which May Be Potential Hazards or Nuisances.

(a) Productive Processes. All activities involving the production, processing, cleaning, servicing, testing or repair of materials, goods or products shall be conducted in such a manner whereby there shall be no danger of fire or explosion, no offensive noise, vibration, smoke, dust, odor, glare or heat, and no objectionable influence detrimental to the public health, safety, comfort or general welfare of the immediate neighborhood or community.

(b) Explosives. Laboratory scale quantities of division 1.1 to 1.3 explosives and forbidden explosives as defined by the United States Department of Transportation in 49 CFR § 173.50 and § 173.54, respectively, as amended from time to time, are allowed outside the IG zoning district when stored according to National Fire Protection Association standards and provided that the total amount of all said explosives are two (2) pounds or less per building. Laboratory scale quantities of explosive chemicals must be stored in containers, in quantities no greater than their original shipment quantities.

(c) Fissionable Non-Fissile Material. The storage, utilization or manufacture of fissionable non-fissile material is allowed in zoning districts other than the

Industrial-General District when such use is accessory to a principal use allowed within the zoning district and when licensed or registered, as may be required by state or federal law.

(d) Fissile Material. The storage, utilization or manufacture of more than one (1) gram of fissile material is permitted only in the Industrial-General (IG) district and only when not less than three hundred (300) feet of a boundary of any other zoning district. However, utilization of fissile material outside the IG district is allowed when the use of such material is in nuclear gauges or calibration instruments, for medical purposes or fission chambers operated by a college or university for instructional purposes and only when said uses are licensed or registered, as may be required by state or federal law.

(3) Drainage Courses.

(a) Statement of Purpose. This subsection is established to promote the public health, safety and general welfare of the community by regulating and restricting the development of areas along or in drainageways, channels, streams and creeks. The regulations which follow are intended to protect and to preserve the location, character and extent of such drainageways, channels, streams and creeks, and to protect persons and property from the hazards of development in areas which may be subject to inundation.

(b) General Regulations.

1. No building or structure shall be erected within a drainage course. For the purpose of this and the following paragraphs, a drainage course shall include any area such as drainageways, channels, streams and creeks, designated as such on the zoning map and any area designed or intended for use for drainage purposes as shown in a recorded subdivision.
2. No filling of land shall be permitted within a drainage course, or on any lands within two hundred (200) feet, or more than two hundred (200) feet when so designated on the zoning map, of the center line of such drainage course, except upon issuance of a certificate by the City Engineer that such filling will not obstruct the flow of water or otherwise reduce the water carrying capacity of such drainage course, or impair the design and character of such drainage course.
3. No excavating of land shall be permitted within a drainage course, or on any lands within two hundred (200) feet, or more than two hundred (200) feet when so designated on the zoning map, of the center line of such drainage course, except upon issuance of a certificate by the City Engineer that such excavating will not divert water from the established channel, will not cause flooding of lands outside such drainage course, will not cause any erosion, and will not otherwise impair the design and character of such drainage course.
4. No relocation, enclosure or bridging of a drainage course shall be permitted except upon issuance of a certificate by the City Engineer that the location, character and extent of such relocation, enclosure or bridging of the drainage course shall be in the public interest.
5. The City Engineer may require the submittal of any such information which he or she considers essential for the proper enforcement of the above regulations.

28.134 HEIGHT AND BULK REGULATIONS.

(1) Height Measurements.

(a) For accessory buildings and structures, height is measured from the average elevation of the approved grade at the front of the building to the highest point of the roof in the case of a flat roof, to the deck line of a mansard roof, and to the

midpoint of the ridge of a gable, hip, or gambrel roof. The average height shall be calculated by using the highest ridge and its attendant eave. The eave point used shall be where the roof line crosses the side wall.

(b) For principal buildings and structures, height is the average of the height of all building facades. For each facade, height is measured from the midpoint of the existing grade to the highest point on the roof of the building or structure. No individual facade shall be more than fifteen percent (15%) higher than the maximum height of the zoning district.

(c) For new buildings, alterations, additions, or replacement of existing buildings, height shall be measured from the natural grade prior to redevelopment. Natural grade shall be determined by reference to a survey or other information as determined by the Zoning Administrator. (Am. by ORD-13-00007, 1-15-13)

(d) Height in the DC, UOR, UMX, DR1 and DR2 districts shall be measured from the highest point along a building setback line paralleling any street adjacent to the site. In these districts accessible roofs, including the minimum structure necessary to provide access, shall not be counted as a story. However, this provision shall not be applied in violation of the Capitol View Preservation Section 28.134(3).

(2) Height Limit Exceptions.

The following structures are permitted to exceed the maximum height regulations within any district where the use is allowed: church spires, belfries, cupolas and domes, water towers, flagpoles, chimneys, communication towers and elevator penthouses. All structures shall comply with the provisions of sub. (3) below. (Am. by ORD-13-00189, 11-26-13)

(3) Capitol View Preservation.

No portion of any building or structure located within one (1) mile of the center of the State Capitol Building shall exceed the elevation of the base of the columns of said Capitol Building or one hundred eighty-seven and two-tenths (187.2) feet, City datum. Provided, however, this prohibition shall not apply to any church spires, flagpoles, communication towers, elevator penthouses, screened air conditioning equipment on existing buildings and chimneys exceeding such elevation, when approved as conditional uses. For the purpose of this subsection, City datum zero (0.00) feet shall be established as eight hundred forty-five and six-tenths (845.6) feet above sea level as established by the United States Coast and Geodetic Survey.

(4) Airport Height Restrictions.

The regulations contained in the Dane County Code of Ordinances regulating the height and bulk of obstructions to aerial navigation apply to buildings and structures in and around the Dane County Regional Airport. The City of Madison does not enforce these regulations.

(5) Public Utility Exemptions.

(a) The following public utility uses, which are essential in most districts, shall be permitted in any zoning district: poles, wires, cables, conduits, vaults, pipelines, laterals or any other similar distributing equipment for a public utility. However, where such public utility uses are proposed to be located across unplatted lands, conditional use approval is required.

(b) The regulations in this ordinance governing lot size, bulk requirements, and access to improved public streets shall not apply to any lot designed or intended for a public utility and public service use when approved by the Plan Commission.

28.135 LOT DIVISION, CREATION AND ACCESS.

(1) Division of Improved Zoning Lots.

Lot division shall be governed by the provisions of Chapter 16, MGO, and the following regulations:

(a) An improved zoning lot shall not be reduced in size or divided into two (2) or more separate lots unless each lot that results from such reduction or division meets all requirements of the zoning district in which it is located.

(b) Lot divisions shall comply with the minimum lot size requirements of each zoning district, except that non-buildable lots such as outlots are exempt from minimum lot requirements.

(2) Access to Public Street.

Every zoning lot shall front on an improved public street, with a minimum of thirty (30) feet of street frontage, with the following exceptions:

(a) Lots located in an approved planned multi-use site or planned development district;

(b) Residential lots not fronting directly onto a public street may be permitted provided that the lots front onto a public or private park and are accessed from a dedicated public alley and meet the following conditions:

1. The lots and park are shown on an approved subdivision plat or Certified Survey Map;
2. The lots are addressed and have vehicular access from the public alley;
3. The residences constructed on the lots abutting the parking should have entry doors facing the park;
4. The park abutting the lots contains an improved walkway or path that provides pedestrian access for the public to the front of the residences abutting lots in the same fashion as a sidewalk adjacent to a street;
5. The residences provide the minimum required front yard of the zoning district as measured from the lot line formed by the park; and
6. The park abuts a public street.

(Am. by ORD-13-00176, 10-23-13)

(3) Development of Deep Residential Lots.

(a) Statement of Purpose. This subsection is established to allow the intensive development of certain deep residential lots which could not otherwise be fully developed under this or any other development control ordinance. The intensive development of a deep lot is not a matter of right but instead a privilege granted to the developer by the City when the Plan Commission makes a finding that such development is in the public interest.

(b) General Regulations. The Plan Commission may allow, after a public hearing and notice as set forth in Sec. 28.183 and consideration of the standards set forth in Sec. 28.183(6), the development of a deep residential zoning lot into not more than four (4) zoning lots, provided that :

1. The front lot(s) shall have a width not less than that required in the district in which it is located.
2. The rear lot shall have frontage onto an improved public street for a width not less than thirty (30) feet.
3. The strip of land of land between the improved public street and the remainder of the rear lot shall not contain any buildings or structures and said strip of land shall not be used to satisfy any area, yard, or usable open space requirement for the rear lot.
4. All of the lots proposed shall have the minimum required lot area.
5. The house numbers for all lots shall be on a sign visible from the public street.

(c) A building permit for residential construction shall be issued for any zoning lot legally created, pursuant to this section, prior to the effective date of this ordinance.

28.136 USE OF TRAILERS AND CONTAINERS.

Trailers and containers used for over-the-road hauling shall not be used for or converted for office, commercial, residential or storage use in any district.

28.137 ZONING LOTS AND PLANNED MULTI-USE SITES.

(1) Residential Zoning Lots.

Except in the case of multifamily complexes and planned multi-use sites within the Mixed-Use Center District, no more than one (1) principal detached residential building shall be located on a zoning lot, nor shall a principal detached residential building be located on the same zoning lot with any other nonresidential principal building or use.

(2) Planned Multi-Use Sites.

The purpose of this subsection is to allow efficient and economical design and greater coordination and flexibility in the development of a variety of building types and land uses, while ensuring substantial compliance with the basic intent of the Zoning Code and Subdivision Regulations.

(a) A planned multi-use site, as defined, shall have a plan and reciprocal land use agreement approved by the Traffic Engineer, City Engineer and Director of Planning and Community and Economic Development recorded in the office of the Dane County Register of Deeds.

(b) An existing planned multi-use site may not be changed without approval by the Traffic Engineer, City Engineer and Director of Planning and Community and Economic Development, or approval of the Plan Commission.

(c) The uses allowed within a planned multi-use site are limited to those uses that are allowed within the zoning district(s) in which the site is located.

1. A property containing a non-conforming residential use shall not be made part of a planned multi-use site.

(d) Every planned multi-use site shall front on a public street.

(e) A planned multi-use site containing more than forty thousand (40,000) square feet of floor area and where twenty-five thousand (25,000) square feet of floor area is designed or intended for retail use or for hotel or motel use, shall require conditional use approval following a recommendation on the design of any specific proposal by the Urban Design Commission. (Am. by ORD-15-00012, 1-28-15; ORD-15-00033, 4-8-15)

(f) All new retail establishments with a total floor area of forty thousand (40,000) square feet or more that are part of a planned multi-use site are subject to review by the Urban Design Commission under the provisions of Sec. 33.24(4)(f). (Am. by ORD-15-00033, 4-8-15)

(g) A plan for building placement, shared parking and access and any easement documents necessary to facilitate those plans shall be submitted. Plans shall show the following:

1. The arrangement of buildings, parking facilities, internal circulation of pedestrians and vehicles, access to individual development sites from public streets and internal drives, and the location of storm drainage facilities, open spaces and any ground-mounted signage.
2. Identification of uses within the site and the gross square footage of building sites, either for the overall development or for the individual sites within the planned multi-use site.
3. The general arrangement of individual lots, outlots, tracts, easements, and all dedications to the public resulting from the planned development. The planned multi-use site plan may be used as a preliminary subdivision plat if it includes all of the information required for a preliminary plat under Sec. 16.23(7)(a), MGO.

(Am. by ORD-13-00191, 11-26-13)

28.138 LAKEFRONT DEVELOPMENT.

(1) Statement of Purpose. This subsection is established to further the maintenance of safe and healthful conditions by preserving and enhancing water quality, habitats, viewsheds, and other environmental and aesthetic qualities of lakes through the regulation of zoning lots abutting lakes within the City.

(2) Applicability.

(a) With the exception of (b) below, all new principal buildings, additions to principal building totaling in excess of five hundred (500) square feet during any ten (10) year period, or any accessory building on zoning lots abutting Lake Mendota, Lake Monona, Lake Wingra, Monona Bay, and associated bays, shall require conditional use approval and shall meet the requirements of this subsection.

(b) Conditional use approval and the requirements of this subsection shall not apply to any part of a zoning lot abutting Lake Mendota, Lake Monona, Lake Wingra, Monona Bay, and associated bays that is more than three hundred (300) feet from the Ordinary High Water Mark (OHWM) or is separated from the OHWM by a street or public right of way.

(3) General Regulations.

(a) Upon the filing of an application for a conditional use, the development plan shall show a complete inventory of shoreline vegetation in any area proposed for building, filling, grading or excavating. In addition, the development plan shall indicate those trees and shrubbery which will be removed as a result of the proposed development. The cutting of trees and shrubbery shall be limited in the strip thirty-five (35) feet inland from the normal waterline. On any zoning lot not more than thirty percent (30%) of the frontage shall be cleared of trees and shrubbery. Within the waterfront setback requirements tree and shrub cutting shall be limited by consideration of the effect on water quality, protection and scenic beauty, erosion control and reduction of the effluents and nutrients from the shoreland.

(b) Any building development for habitation shall be served with public sanitary sewer.

(c) Filling, grading and excavation of the zoning lot may be permitted only where protection against erosion, sedimentation and impairment of fish and aquatic life has been assured.

(d) Where the City's adopted Comprehensive or other Plans include a pedestrian walkway or bike path along the shoreline, the proposed development shall not interfere with its proposed location.

(e) Construction of marine retaining walls or bulkhead may be permitted providing such construction does not protrude beyond the established shoreline of the adjacent properties. Said retaining walls and bulkheads will be permitted only for the purpose of preventing shoreline recession. The filling and grading of the shoreline shall occur only in the construction of such retaining walls or bulkheads.

(f) Lot coverage within thirty-five (35) feet of the OHWM shall not exceed twenty percent (20%). Public paths within this area shall not be included in the lot coverage limit.

(g) In addition to complying with the above standards, boathouses shall not be constructed for human habitation.

(4) Lakefront Zoning Lots Where the Principal Use is One (1) or Two (2) Family Residential.

(a) Lakefront Yard Setback. The yard that abuts the lake shall be referred to as the "lakefront yard." The lakefront yard is not the front yard and shall be a side or rear yard for the purposes of the zoning code. The minimum depth of the lakefront

yard setback from the Ordinary High Water Mark shall be calculated using one of three (3) following methods, provided that in no case shall principal buildings be located closer to the OHWM than twenty-five (25) feet.

1. The average setback of the principal building on the two (2) adjoining lots, provided that the setbacks of those buildings are within twenty (20) feet of one another; or

2. If the subject property only abuts one developed lot, the setback of the existing principal residential structure on that abutting lot; or

3. The median setback of the principal building on the five (5) developed lots or three hundred (300) feet on either side (whichever is less), or thirty percent (30%) of lot depth, whichever number is greater (see illustration).

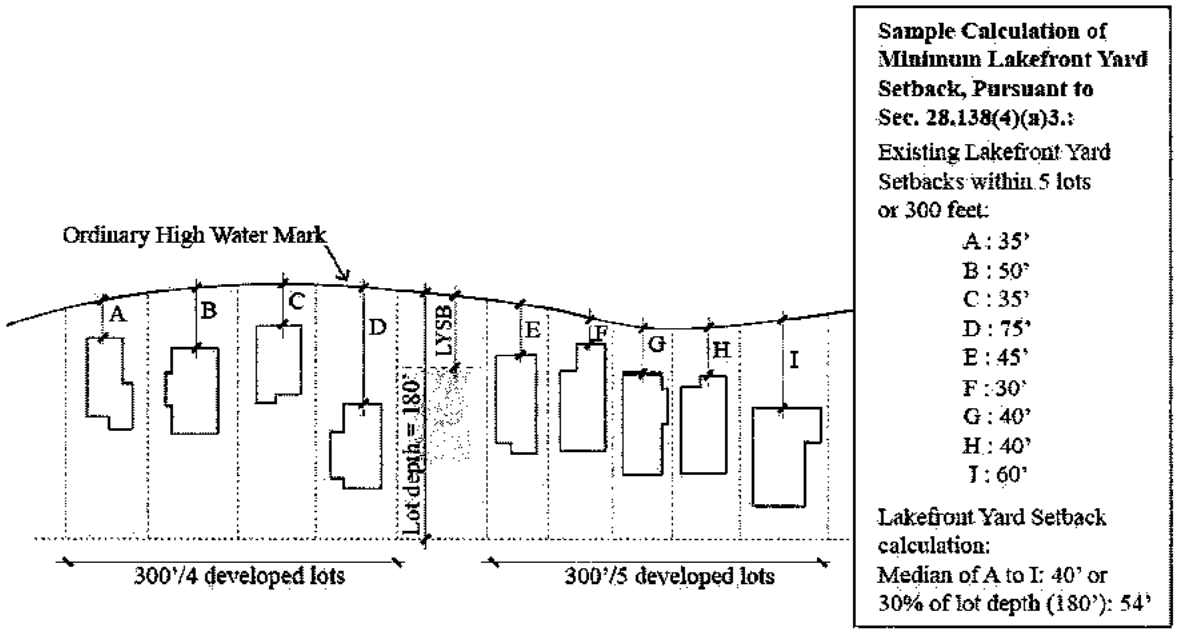

Figure I4: Lakefront Yard Setback.

(Am. by ORD-13-00190, 11-26-13)

(5) Lakefront Zoning Lots Where the Principal Use is Other Than One (1) or Two (2) Family Residential or Public Park Land.

(a) Lakefront Yard Setback. The yard that abuts the lake shall be referred to as the "lakefront yard." The lakefront yard is not the front yard and shall be a side or rear yard for the purposes of the zoning code. (Am. by ORD-13-00190, 11-26-13)

(b) The minimum setback from the OHWM shall be calculated using one of the following two (2) methods, provided that in no case shall a new principal building be located closer to the OHWM than seventy-five (75) feet.

1. The average setback of the principal buildings on the two (2) adjoining lots, provided that the setbacks of those buildings are within twenty (20) feet of one another, or

2. The median setback of the principal building on the five (5) developed lots or three hundred (300) feet on either side, whichever is less, or thirty percent (30%) of lot depth, whichever number is greater.

(c) Where the existing principal building setback is less than the lakefront average or median setback as identified in paragraphs 1. and 2. above, an addition to the existing principal building may only be constructed provided that:

1. The addition shall not be located closer to the OHWM than the lakefront setback of the existing principal building; and
2. The addition shall not exceed fifty percent (50%) of the width of the principal building façade facing the lake.

28.139 DEVELOPMENT ADJACENT TO PUBLIC PARKS.

(1) Nonresidential development immediately adjacent to the boundary of a City-owned public park shall be reviewed as a conditional use. The purpose of this requirement is to assess the impact of proposed development on natural resources, drainage patterns, pedestrian traffic and recreational uses of the park. Conditional use applications shall include the following:

(a) A complete inventory of vegetation in any area proposed for development within one hundred (100) feet of the park boundary.

(b) Any proposed cutting of trees or removal of vegetation within one hundred (100) feet of the park boundary. Removal of vegetation may be limited within thirty-five (35) feet of the park boundary.

(c) Grading and drainage within thirty-five (35) feet of the park shall be reviewed for its effect on drainage patterns and vegetation within the park.

(Am. by ORD-14-00068, 4-16-14)

28.140 USABLE OPEN SPACE.

(1) Usable open space shall be provided on each lot used in whole or in part for residential purposes, as set forth in each district.

(a) Usable open space at ground level shall be in a compact area of not less than two hundred (200) square feet, with no dimension less than eight (8) feet and no slope grade greater than ten percent (10%).

1. Where lot width is less than forty (40) feet, the minimum dimension of usable open space may be reduced to six (6) feet.

(b) Usable open space shall not include areas occupied by buildings, driveways, drive aisles, off-street parking, paving and sidewalks, except that paved paths no wider than five (5) feet, and pervious pavement designed for outdoor recreation only may be included as usable open space.

(c) Within the Central Area, as defined, where usable open space requirements cannot be met due to limited existing lot area, or building/parking placement, required landscaped areas may be used to meet the usable open space requirement, provided that said landscaped areas are a minimum of five (5) feet in width.

(d) Within the TR-U1 and TR-U2 Districts and within all Mixed-Use, Employment, Downtown and Urban Districts:

1. Roof decks, porches, and balconies may be used to meet up to seventy-five percent (75%) of the minimum open space requirements, provided that:

a. Roof decks shall have a minimum dimension of fifteen (15) feet and shall be free of any obstructions, improved and available for safe and convenient access to all occupants of the building.

b. Porches shall have a minimum width of fifteen (15) feet and minimum depth of six (6) feet and shall be free of any obstructions, improved, and available and be available to all occupants as a source of ingress and egress to the building.

c. Balconies shall have a minimum dimension of six (6) feet and shall be free of any obstructions, improved, and available for safe and convenient access to all occupants of the building.

d. Private balconies and private porches shall have a minimum dimension of four and one-half (4½) feet.

(Am. by ORD-16-00107, 12-14-16)

(e) Within the TSS and MXC Districts, roof decks and balconies may be used to meet up to one hundred percent (100%) of the minimum open space requirements, provided that the dimensions set forth in sub. (d) 1. and 2 are met. (Cr. by ORD-14-00148, 9-12-14; ORD-16-00039, 4-8-16)

28.141 PARKING AND LOADING STANDARDS.

(1) Statement of Purpose.

This section establishes minimum and maximum parking requirements, and standards for the layout and design of parking spaces, lots and structures. It also includes shared parking incentives, and reduction of off-street parking in favor of transit or other travel modes. The standards in this section are intended to:

(a) Encourage reduction of surface parking as a means of reducing dependence on private automobiles and reducing the pollution and congestion that are associated with automobile use.

(b) Encourage reduction of impervious surface to control run-off.

(c) Encourage reduction of surface parking as a means of fostering more compact development patterns and encouraging transit, bicycle and pedestrian circulation.

(d) Minimize the adverse effects of off-street parking and loading on adjacent properties.

(e) Minimize spillover on-street parking in neighborhoods.

(f) Encourage shared parking arrangements that will support mixed-use development and compact development patterns.

(g) Encourage bicycle circulation by providing bicycle connections, adequate parking, and storage space for bicycles.

(h) Encourage parking locations that do not disrupt Madison's traditional streetscape.

(2) Organization of this Section.

Certain districts do not require off-street parking, as set forth in Table 28I-2. Where off-street parking is required, Table 28I-3 establishes the minimum number of automobile parking spaces required, the maximum number of automobile parking spaces permitted, and the minimum number of bicycle parking spaces required, for the uses indicated. Off-street parking may be waived or reduced under specific conditions, as set forth in Table 28I-4.

(3) No Minimum Parking Required.

In the Central area, as defined, and the following districts, there is no specified minimum requirement for off-street parking of automobiles, with the exceptions specified in Table 28I-2 below. Maximum parking and bicycle parking requirements apply as specified in Table 28I-3. For conditional uses, parking requirements may be established as a condition of approval.

Table 28I-2. Districts With No Minimum Automobile Parking Requirements; Exceptions.

District/Area	Parking Requirement	Exceptions
Central Area	No minimum	
Neighborhood Mixed-Use (NMX)	No minimum	1. Buildings, uses, or additions exceeding ten thousand (10,000) square feet floor area. 2. Restaurants, restaurant-taverns, taverns, restaurant-nightclub, nightclub, and brewpubs if located within three hundred (300) feet of another restaurant, restaurant-tavern, tavern, or brewpub.
Limited Mixed-Use (LMX)	No minimum	

District/Area	Parking Requirement	Exceptions
Traditional Shopping Street (TSS)	No minimums	1. Buildings, uses, or additions exceeding ten thousand (10,000) square feet floor area for an individual establishment or twenty-five thousand (25,000) square feet floor area for a mixed-use or multi-tenant building. 2. Restaurants, restaurant-taverns, taverns, restaurant-nightclub, nightclub, and brewpubs if located within three hundred (300) feet of another restaurant, restaurant-tavern, tavern, or brewpub.
Mixed-Use Center (MXC)	No minimum	
Commercial Center (CC)	No minimum	
Traditional Employment (TE)	No minimum	1. Buildings, uses, or additions exceeding twenty-five thousand (25,000) square feet floor area. 2. Restaurants, restaurant-taverns, taverns, restaurant-nightclub, nightclub, and brewpubs if located within three hundred (300) feet of another restaurant, restaurant-tavern, tavern, or brewpub.
Employment Campus (EC)	No minimum	
Suburban Employment Center (SEC)	No minimum	
Industrial - Limited (IL)	No minimum	
Commercial Corridor-Transitional (CC-T)	No minimum	Restaurants, restaurant-taverns, taverns, restaurant-nightclub, nightclub, and brewpubs if located within three hundred (300) feet of another restaurant, restaurant-tavern, tavern or brewpub.
Suburban Employment (SE)	No minimum	Restaurants, restaurant-taverns, taverns, restaurant-nightclub, nightclub, and brewpubs if located within three hundred (300) feet of another restaurant, restaurant-tavern, tavern or brewpub.
Industrial - General (IG)	No minimum	

(Am. by ORD-14-00168, 12-3-14; ORD-15-00033, 4-8-15)

(4) Off-Street Parking Requirements. Applicability.

Table 28I-3 establishes the minimum number of automobile parking spaces required, the maximum number of automobile parking spaces permitted, and the minimum number of bicycle parking spaces required, for the uses indicated. Compliance with this Section is required in the case of any change in use or occupancy. Where the Zoning Administrator determines the minimum or maximum parking requirement, consideration shall be given to the expected number of public visiting the site, as well as the number of persons employed or residing on the site.

(a) Number of Employees. Where number of employees is used to determine parking, it shall be based on the number of employees on the maximum working shift at the time the occupancy permit is requested. Parking requirements based on number of employees will not change unless new construction or expansion is proposed.

(b) Floor Area Calculation. Floor area used to calculate parking and loading requirements is defined as the sum of the gross horizontal areas of the floors or parts of a building devoted to the use, measured from the exterior faces of the exterior walls or from the center line of walls separating two buildings. It does not include porches, garages, or space in a basement or cellar when used for storage or incidental uses.

(c) Bicycle Space Minimum. A minimum number of two (2) bicycle spaces (the equivalent of one two-sided bike rack) is required for nonresidential uses.

(d) Computation. Fractional space requirements of up to one-half (½) space shall be rounded down to the next whole number and greater than one-half (½) rounded up to the next whole number.

(e) Parking Requirements For Persons With Disabilities. The provisions contained in Wis. Stat. §§ 101.12, 346.503, and 346.56 and any related Wisconsin Administrative Code sections are hereby adopted by reference and made applicable to all parking facilities whenever constructed.

(f) Unspecified Uses. Where buildings are constructed without uses specified, the use with the highest parking requirement among all uses specified for the zoning district where the site is located shall be used to calculate off-street parking requirements.

(g) Unlisted Uses. For uses not listed in Table 28I-3, the Zoning Administrator also may consider the following:

1. Documentation regarding the actual parking and loading demand for the proposed use.
2. Evidence in available planning and technical studies relating to the proposed use.
3. Required parking and loading for the proposed use as determined by comparable jurisdictions.
4. Examination of the parking and loading requirements for uses most similar to the proposed use.

Table 28I-3. Off-Street Parking Requirements.

Use	Automobile Minimum	Automobile Maximum	Bicycle Minimum
Residential - Family Living			
Single-family detached dwellings	1 (location only)	4 outside spaces	0
Two-family dwelling - two-unit	1 (location only)	4 outside /d.u.	0-

(5) Adjustments to Minimum Number of Required Spaces. Where minimum parking is required, the following adjustments may be made, as outlined in Table 28I-4.

Table 28I-4. Minimum Parking Adjustments/Reductions.

	Adjustment
Deferred provision of parking	Any use may defer installation of all or a portion of the required parking until such parking is needed. The approved site plan shall depict the minimum number of required parking spaces. Deferral will be re-evaluated with a change in use or an addition to an existing use.

	Adjustment
Shared parking	The Zoning Administrator may authorize a reduction in the minimum number of parking spaces required upon a determination that the hours of peak use among multiple uses will result in lower parking demand, using the method outlined in Subsection 28.141(7).
Parking reduction	A reduction in the minimum number of parking spaces required may be granted through the following procedures: 1. For non-residential uses, the applicant may reduce the parking requirement by the greater of (5) parking spaces or ten percent (10%) of the required parking. 2. A further reduction of up to 20 spaces may be approved by the Zoning Administrator. 3. A reduction of more than 20 spaces but less than 25% of the required parking may be approved by the Director. 4. A reduction of more than 20 spaces and 25% or more of the required parking requires conditional use approval. A parking reduction request must be initiated by the owner, who must submit information to support the argument for reducing the required number of spaces. Factors to be considered include but are not limited to: availability and accessibility of alternative parking, impacts on adjacent residential neighborhoods; existing or potential shared parking agreements; number of residential parking permits issued for the area; proximity to transit routes and/or bicycle paths and provision of bicycle parking; the characteristics of the use, including hours of operation and peak parking demand times; design and maintenance of off-street parking that will be provided; and whether the proposed use is new or an addition to an existing use.
Bicycle parking reduction	The amount of required bicycle parking may be reduced by the Zoning Administrator under the following circumstances: A bicycle parking reduction shall be initiated by the owner, who shall submit information to support a reduction. Factors to be considered by the Zoning Administrator include but are not limited to: availability, proximity, and use characteristics of public bike parking in the public right of way within two hundred (200) feet of the subject property; existing or potential shared parking agreements; proximity to transit routes and/or multi-use paths; characteristics of the use, including hours of operation and peak parking demand times; design and maintenance of off-street bicycle parking, and whether the use is existing or is an addition to an existing use.
Shared car availability	A reduction in residential parking may be approved by the Zoning Administrator if a shared or community car is available for use by residents on or within reasonable proximity of the site.
Transit corridor proximity	Within 600 feet of a high-frequency transit corridor, a reduction in minimum parking requirements of up to 50% may be approved as a conditional use, with due consideration of the frequency of transit service and adequacy of pedestrian and bicycle linkages to transit stops or stations.
Off-site parking availability	Parking for nonresidential uses may be reduced by one space for each space in a public parking lot or public parking structure located within 1,320 feet of the use, as measured by using the shortest pedestrian route from the nearest corner of the parking lot or structure to the main public entrance of the use served.
Moped substitution	Moped parking is not required. However, three (3) moped spaces may be substituted for one (1) required automobile parking space. Where provided, moped parking shall meet the standards in Sub. 28.141(12).
Bicycle substitution	Four (4) bicycle parking spaces above the minimum number required may be substituted for one (1) required automobile parking space.

(6) Parking in Excess of the Maximum Number of Spaces.

(a) Underground or structured parking may exceed the maximum requirement in Table 281-3.

(b) Surface parking exceeding the maximum may be allowed as follows:

1. For non-residential uses, the applicant may exceed the maximum parking requirement by the lesser of five (5) parking spaces or ten percent (10%) of the maximum parking requirement.
2. An additional increase of up to twenty (20) spaces above the maximum requirement may be approved by the Zoning Administrator.
3. An increase of more than twenty (20) parking spaces but not more than ten percent (10%) of the maximum parking requirement may be approved by the Director.
4. An increase of more than twenty (20) parking spaces that is also more than ten percent (10%) of the maximum parking requirement may be approved by conditional use.

(c) Approval of surface parking exceeding the maximum shall be granted only after considering the following:

1. Documentation regarding the actual parking demand for the proposed use.

2. The impact of the proposed use on the parking and roadway facilities in the surrounding area.

3. Whether the proposed use is located near a parking area that is available to the customers, occupants, employees and guests of the proposed use.

4. The availability of alternative forms of transportation and actions being taken by the applicant to enhance or promote those alternatives.

5. Structured parking, rain gardens or other bioretention facilities, additional landscaping, pervious pavement, or other mitigation measures may be required as conditions for an exception.

6. Whether the proposed use is new or is an alteration, addition or expansion of an existing use.

(d) Zoning lots and uses that exceed maximum parking requirements as of the effective date of this ordinance may continue to maintain existing parking but shall not increase that parking without conditional use approval.

(7) Shared Parking Requirements.

The Zoning Administrator may authorize a reduction in the total number of required parking spaces for two or more uses jointly providing off-street parking when their respective hours of peak operation do not overlap. Shared parking shall be located within one thousand three hundred twenty (1,320) feet of each use served.

(a) Computation. The number of shared spaces for two or more distinguishable land uses shall be determined by the following procedure:

1. Multiply the minimum parking required for each individual use, as set forth in Table 28I-3, by the appropriate percentage indicated in the table, for each of the six (6) designated time periods.

2. Add the resulting sums for each of the six (6) columns.

3. The minimum parking requirement shall be the highest sum among the six (6) columns resulting from the above calculations.

4. Select the time period with the highest total parking requirement and use that total as the shared parking requirement.

(b) Other Uses. If one or more of the uses proposing shared parking is not found in Table 28I-5, the applicant shall submit sufficient data to indicate the principal operating hours of the uses. Based upon this information, the Zoning Administrator shall determine the appropriate shared parking requirement for use in the calculation in (a) above.

(c) Alternative Procedure. The Zoning Administrator may authorize a greater reduction in the total number of required parking spaces for two (2) or more uses where an applicant believes that Table 28I-5 does not adequately account for circumstances unique to the particular property or properties in question and the applicant submits, at a minimum, a parking study with a detailed description of the proposed uses, hours of operation, anticipated peak parking demand, and anticipated hours that such peak parking demand would occur. The Zoning Administrator may impose reasonable conditions to mitigate potential negative effects.

Table 28I-5. Shared Parking Calculations.

General Land Use Classification	Weekdays			Weekends		
	2:00 a.m. — 7:00 a.m.	7:00 a.m. — 6:00 p.m.	6:00 p.m. — 2:00 a.m.	2:00 a.m. — 7:00 a.m.	7:00 a.m. — 6:00 p.m.	6:00 p.m. — 2:00 a.m.
Office/Warehouse/Industrial	5%	100%	5%	0%	10%	0%
Retail sales and services	0%	90%	80%	0%	100%	60%
Restaurant (not 24 hour)	10%	70%	100%	20%	70%	100%
Residential	100%	60%	100%	100%	75%	90%
Theater	0%	40%	90%	0%	80%	100%
Hotel: guest rooms (calculate conference and restaurant facilities separately)	100%	55%	100%	100%	55%	100%
Conference/Convention Facilities	0%	100%	100%	0%	100%	100%
Place of Worship	0%	25%	50%	0%	100%	50%
School, Grades K-12	0%	100%	25%	0%	30%	10%
Community Center, Library, Museum	0%	100%	80%	0%	100%	80%

(d) The shared parking spaces shall be maintained as long as the uses they serve are in operation.

(e) The required number of bicycle parking spaces will be provided.

(f) The property owner or owners shall sign and record, with the Dane County register of deeds, a written agreement, in a form satisfactory to the City Attorney, that there will be no substantial change in the use or occupancy of the property or properties that will increase the demand for parking in the shared parking facility. This agreement shall also include a statement that the property owner or owners and their tenants shall be provided access to, and use of, the shared parking facility. A copy of the agreement shall be filed with the Director.

(8) Parking Design and Location.

Parking for automobiles and other motor vehicles shall be designed according to the requirements of Sec. 10.08, MGO and the following standards.

(a) Surfacing. All parking lots and driveways shall have paved or approved surfaces, as required in Sec. 10.08, MGO. The use of permeable paving, as defined, is encouraged for all parking spaces provided above the minimum number required by this chapter.

1. Residential drives serving single- to two-family dwellings may contain a grass center provided that the areas on which the vehicle's wheels touch are a minimum of twelve (12) inches in width.

(b) Snow Removal. In winter months, required parking areas, including bicycle parking areas, shall be cleared of snow within a reasonable time. Areas used for snow storage shall be approved by the zoning administrator.

(c) Residential Parking Locations.

(See Figures I5, I6, and I7)

1. Parking is not permitted within front yard setbacks, or any street side yard setback, including the side yard setback extension into the rear yard, except on a driveway meeting the standards of Subsection (9) below.
2. Parking shall not be located on street terraces, driveways, or any other areas located within a public right-of-way not explicitly designated by the Director of Public Works.
3. Parking spaces may be located within:
   a. an interior side yard setback.
   b. a rear yard setback, except as in sub. 1 above. (Am. by ORD-14-00133, 8-13-14)
   c. the building envelope.

4. Parking on a Through Lot. Through lots are defined as having two (2) front yards and no rear yard. Parking on a through lot may be located within the building envelope, or an interior side yard setback, but not in either front yard setback.

5. A maximum of forty percent (40%) of the front and rear yard setbacks may be paved and used for driveway and parking purposes provided lot coverage requirements are not exceeded.

(d) Landscaping and Screening. All off-street parking areas shall be landscaped according to the standards of Sec. 28.142, with the exception of parking for single-family detached, two-family and three-family dwellings.

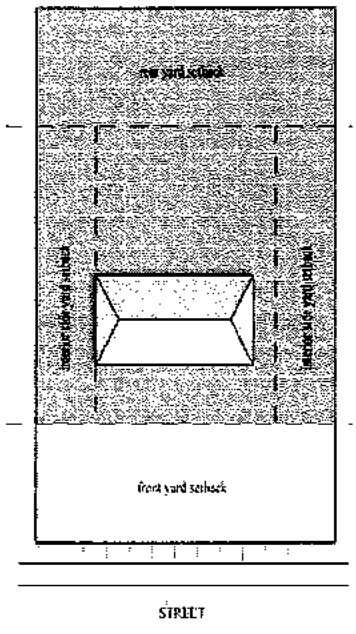

Figure I5: Residential Parking Locations: Interior Lot. Parking is allowed in shaded areas and on driveways in approved locations.

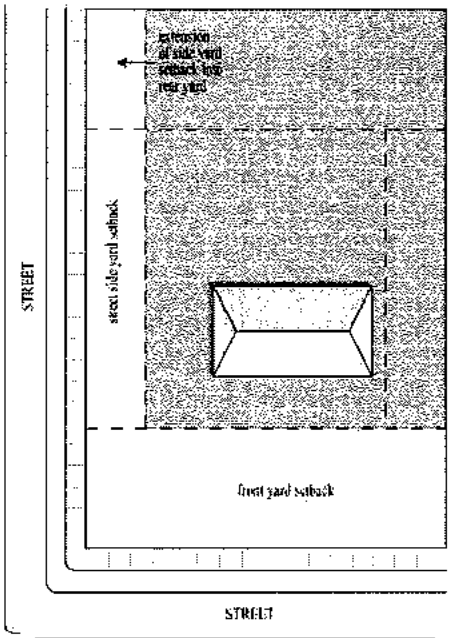

Figure I6: Residential Parking Locations: Corner or Reversed Corner Lot. Parking is allowed in shaded areas and on driveways in approved locations.

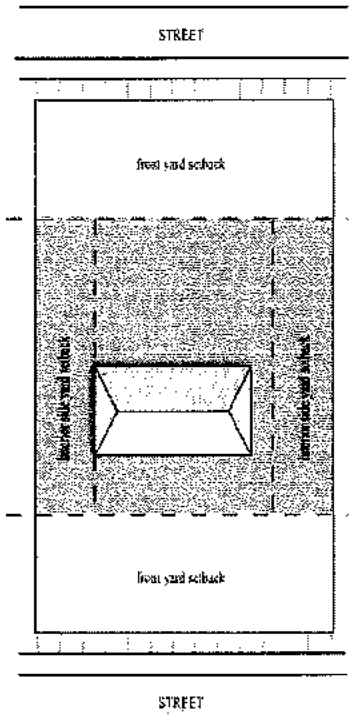

Figure I7: Residential Parking Locations: Through Lot. Parking is allowed in shaded areas and on driveways in approved locations.

(9) Residential Driveway Design and Location.

Driveways shall be designed according to the requirements of Sec. 10.08, MGO, and the following standards.

(a) Driveways shall be a minimum of eight (8) feet in width, except where otherwise specified in Sec. 10.08, MGO.

(b) Driveways may be located in the following locations:

1. Within a front yard setback or street side yard setback, including the extension of the side yard setback into the rear yard setback (see Figures I8 and I9). The driveway must lead only from a street to the nearest garage or to a parking area located in compliance with Subsection (8)(c) above. Maximum driveway width is the width of the garage entrance or parking area, up to a maximum of twenty-two (22) feet.

2. Driveways leading to an attached or detached garage at a single- or two-family dwelling may be located in the front setback area and be wider than the width of the garage entrance if the driveway width extension meets the following standards (see Figure I17):

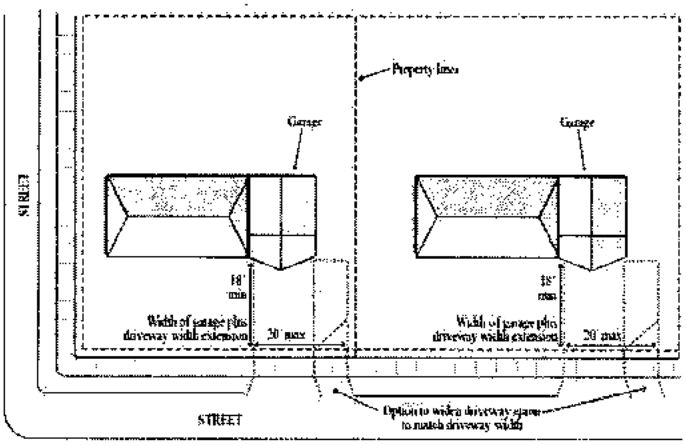

Figure I17: Driveway width extension

i. The total width of the driveway and driveway width extension in the front yard setback does not exceed twenty (20) feet.

ii. The total depth of the driveway including the driveway width extension shall be no less than eighteen (18) feet, and no vehicle parked in the driveway shall extend over or otherwise obstruct any portion of the public right-of-way.

iii. The driveway width extension shall only project toward the nearest interior side lot line, beyond the exterior side wall of the garage structure.

iv. Access to the driveway and driveway width extension shall be no wider than the width of the driveway and driveway width extension at the sidewalk or street property line.

(Sec. 28.141(9)(b)2. Cr. by ORD-17-00018, 2-20-17)

3. Within an interior side yard setback, leading to a garage or parking area located in compliance with Subsection (8)(c) above (see Figure I8). Maximum driveway width is ten (10) feet, which shall not be exceeded within the front yard setback. No setback between the driveway and the side lot line is required. (Renum. by ORD-17-00018, 2-20-17)

(c) Two (2) driveways may be constructed within a front yard setback or, on a corner lot, within the street side yard setback, including the extension of the side yard setback into the rear yard setback, if the following standards are met (see Figure I10):

1. Each driveway is a maximum of eleven (11) feet wide, or ten (10) feet within an interior side yard setback.

2. Both driveways meet at a point outside the required front, street side or side yard extension setbacks.

3. Both driveways lead to the same garage or to the same paved or graveled parking area located in compliance with Subsection (8)(c) above.

(d) Two (2) driveways may be constructed to serve twin dwellings (two-family dwellings separated by a common wall). Each dwelling may have one (1) driveway that meets the requirement of par. (c) above, with a maximum width equal to the width of the garage entrance or parking area, not to exceed twenty-two (22) feet.

(e) A maximum of two (2) curb cuts are permitted for any residential lot.

(f) Driveways may be shared between two single- or two-family lots, provided that appropriate easements or other agreements are established. Shared driveways shall meet the minimum and maximum width requirements of this section.

(g) Driveways shall be oriented in a perpendicular fashion to the street from which they take access, and shall cross required setbacks in a perpendicular fashion, to the extent feasible.

(h) Driveways serving commercial or industrial uses shall not cross residentially-zoned properties, except where allowed by conditional use.

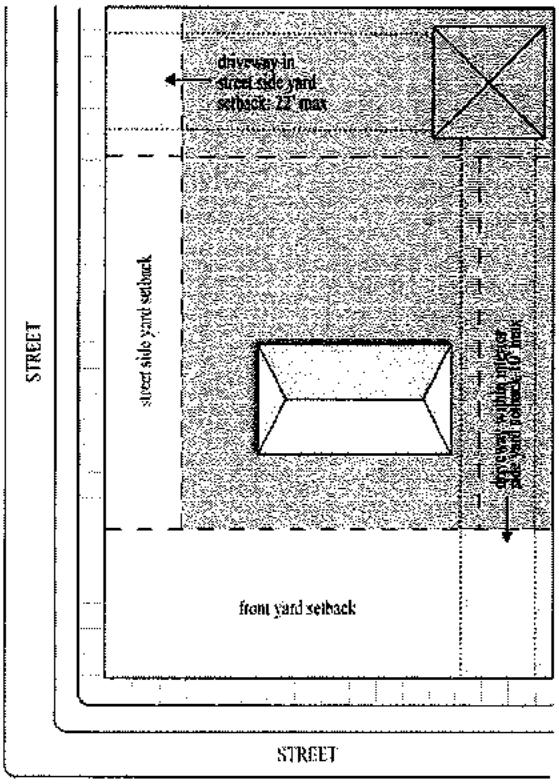

Figure I8: Interior and Street Side Yard Driveway

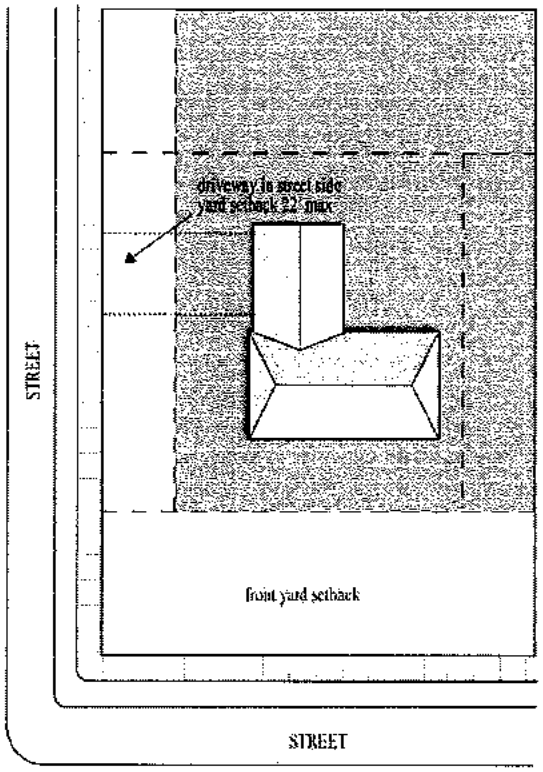

Figure I9: Street Side Yard Driveway

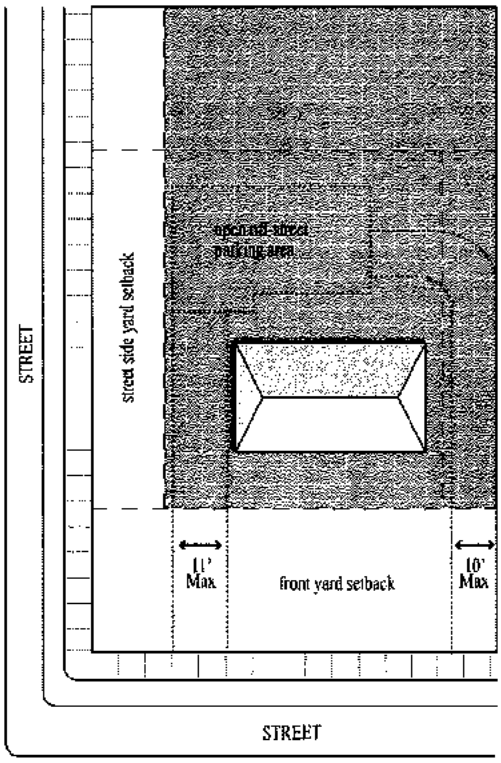

Figure I10: Two Driveways on a Residential Lot

(10) Restrictions on Residential Parking.

(a) A maximum of one (1) commercial vehicle per dwelling unit may be parked outdoors on residential property if the vehicle is:

1. Used by a resident of the dwelling unit.
2. Has a manufacturer's gross vehicle weight rating of ten thousand (10,000) pounds or less and is less than twenty-one (21) feet in length.

(b) Vehicles and/or equipment not normally associated with a residential use are specifically prohibited from being parked or stored on residential property. Such vehicles include, but are not limited to:

1. Construction equipment, such as bulldozers, backhoes, skid steers, and forklifts.
2. Dump and stake body style trucks.
3. Cube type vans and trucks.
4. Landscaping business equipment such as tractors, tree spades, graders and scrapers.
5. Semi-trailers and tractors.
6. Concession, vending and catering trailers.
7. Commercial/Industrial equipment trailers and lifts.
8. Tow trucks, wreckers or car carriers.
9. Limousines.

(c) A mobile recreational vehicle (RV) associated with residential uses may be parked as a passenger vehicle but shall not be utilized for living space or storage of goods, materials or equipment other than is considered part of the RV or essential to its function. (Am. by ORD-13-00086, 5-29-13)

(d) All vehicles parked on a residential lot shall display current license plates and be in safe, functional and operable condition.

(11) Bicycle Parking Design and Location.

(a) Parking Designation. Bicycle parking requirements are as shown in Table 28I-3 and shall be designated as long-term or short-term parking.

1. For all residential uses, including those in combination with other uses, at least ninety percent (90%) of required resident bicycle parking shall be designed as long-term parking. Any guest parking shall be designed as short-term parking. Except as allowed in Secs. 28.141(11)(f)-(h) below, all bicycle parking shall be ground mount non-vertical, and have a six (6) foot vertical clearance.

2. For all other uses, at least ninety percent (90%) of all bicycle parking shall be designed as short-term parking.

(b) Required short-term bicycle parking spaces shall be located in a convenient and visible area at least as close as the closest non-accessible automobile parking and within one hundred (100) feet of a principal entrance and shall permit the locking of the bicycle frame and one (1) wheel to the rack and shall support a bicycle in a stable position. No fee shall be charged for resident bicycle parking where free auto or moped parking is provided on-site.

(c) Required long-term bicycle parking spaces shall be located in enclosed and secured or supervised areas providing protection from theft, vandalism and weather and shall be accessible to intended users. Required long-term bicycle parking for residential uses shall not be located within dwelling units or within deck, patio areas, or private storage areas accessory to dwelling units. With permission of the Zoning Administrator, long-term bicycle parking spaces for non-residential uses may be located off-site within three hundred (300) feet of the site. No fee shall be charged for resident bicycle parking where free auto or moped parking is provided on-site.

(d) Bicycle parking spaces shall be located on paved or pervious, dust-free surface with a slope no greater than three percent (3%). Surfaces shall not be gravel, landscape stone, or wood chips.

(e) Bicycle parking spaces shall be a minimum of two (2) feet by six (6) feet. There shall be an access aisle a minimum of five (5) feet in width. Each required bicycle parking space must be accessible without moving another bicycle and its placement shall not result in a bicycle obstructing a required walkway. Bicycle racks shall be installed to the manufacturer's specifications, including the minimum recommended distance from other structures. (Am. by ORD-13-00007, 1-15-13)

(f) Up to twenty-five percent (25%) of bicycle parking may be structured parking, vertical parking or wall mount parking, provided there is a five (5) foot access aisle for wall mount parking.

(g) Bicycle parking not meeting dimensional or access aisle requirements may be installed but shall not count towards a minimum bicycle parking requirement.

(h) All racks shall accommodate cable locks and "U" locks including removing the front wheel and locking it to the rear fork and frame.

(i) Bicycle parking substituted for auto parking may be horizontal or vertical, as long as dimensional requirements are met.

(j) For multi-building development, bicycle parking shall be provided for each building.

(12) Moped Parking Design and Location.

Where moped or scooter off-street parking is provided, it shall meet the following standards:

(a) Spaces shall be a minimum of three (3) feet by six (6) feet in size with a vertical clearance of six (6) feet and with a drive aisle of five (5) feet.

(b) The spaces may be located close to bicycle parking areas but kept separate and out of the way of conflict with other motor vehicle traffic. Moped parking shall not be located within front yard setback areas.

(c) Spaces shall be located and access should be provided such that the use or crossing of pedestrian facilities, including wheelchair ramps, by mopeds is discouraged and such that mopeds do not come into conflict with pedestrians on foot or in wheelchairs.

(d) Access to moped areas should be provided using a separate driveway via a curb cut and ramp or mountable curb with a reduced slope after taking into account traffic movements on the street from which safe access must be provided.

(e) Moped driveways may cross a sidewalk as may any driveway but must not use the sidewalk to provide access to moped stalls. Moped parking areas behind a sidewalk should be separated by a curb when possible.

(13) Off-Street Loading Requirements.

Any use which has a floor area of ten thousand (10,000) square feet or more, and which requires deliveries or makes shipments, shall provide off-street loading facilities in accordance with the regulations of this Section. (Am. by ORD-15-00033, 4-8-15)

(a) Location. All loading berths shall be located twenty-five (25) feet or more from the intersection of two street right-of-way lines. Loading berths shall not be located within any required front yard or street side yard setback area. All loading areas shall be located on private property and shall not be located within, or interfere with, any public right-of-way.

(b) Required number of spaces are based on the size of the establishment as follows, but may be reduced through conditional use approval:

Size of Establishment	Number of Loading Spaces
Office buildings and lodging:	
10,000 to 50,000 sq. ft. floor area	1 loading space
50,001 to 200,000 sq. ft. floor area	2 loading spaces
over 200,000 sq. ft. floor area	2 + 1 additional space per each 75,000 sq. ft. floor area above 200,000
Retail, service, commercial, wholesale and industrial uses	
10,000 to 20,000 sq. ft. floor area	1 loading space
20,001 to 100,000 sq. ft. floor area	2 loading spaces
over 100,000 sq. ft. floor area	2 + 1 additional space per each 75,000 sq. ft. floor area above 100,000

(Am. by ORD-13-00097, 6-12-13; ORD-15-00033, 4-8-15)

(c) Size of Spaces. A required off-street loading space shall be at least ten (10) feet wide by at least thirty-five (35) feet in length for structures less than twenty thousand (20,000) square feet in floor area, and at least ten (10) feet wide by fifty (50) feet in length for larger structures. The above areas shall be exclusive of aisle and maneuvering space, and shall have a vertical clearance of at least fourteen (14) feet. (Am. by ORD-15-00033, 4-8-15)

(d) Shared Loading. Two or more uses on adjacent zoning lots may share a loading area.

(e) Uses for which off-street facilities are otherwise required but which are located in structures of less than twenty thousand (20,000) square feet of floor area may use drive aisles or other suitable areas on the same lot for loading purposes.

(f) Surfacing. All open off-street loading areas shall be paved with a bituminous pavement or Portland cement concrete pavement in accordance with City of Madison standards and specifications.

(g) Idling. Vehicles shall not have idling engines for more than five (5) minutes except when actively loading.

28.142 LANDSCAPING AND SCREENING REQUIREMENTS.

(1) Statement of Purpose.

The landscaping and screening requirements specified in this section are intended to:

(a) Protect and restore the natural environment throughout the development process.

(b) Reduce the negative environmental effects of development while fostering aesthetically pleasing development which will protect and enhance the appearance, character, health, safety and welfare of the community.

(c) Reduce the "heat island" effect of impervious surfaces such as parking lots by cooling and shading the surface area.

(d) Increase the compatibility of adjacent uses, by minimizing adverse impacts of noise, dust and other debris, motor vehicle headlight glare or other artificial light intrusions and other objectionable views, activities or impacts to adjacent or surrounding uses.

(e) Enhance the environment for successful plant establishment and growth.

(f) Enhance the green infrastructure of the city to help reduce air pollutants, create ambiance, mitigate the urban heat island effect and stormwater run-off issues.

(2) Applicability.

(a) Subsections (3) through 10 apply to all exterior construction and development activity, including the expansion of existing buildings, structures and parking lots, except the construction of detached single-family and two-family dwellings and their accessory structures. The entire development site must be brought up to compliance with this section unless all of the following conditions apply, in which case only the affected areas need to be brought up to compliance:

1. The area of site disturbance is less than ten percent (10%) of the entire development site during any ten-(10) year period.
2. Floor area is only increased by ten percent (10%) during any ten-(10) year period. (Am. by ORD-15-00033, 4-8-15)
3. No demolition of a principal building is involved.
4. Any displaced landscaping elements must be replaced on the site and shown on a revised landscaping plan.

(b) Subsection (11) applies to all exterior construction and development activity, including the expansion of existing buildings, structures and parking lots and the construction of detached single-family and two-family dwellings and their accessory structures.

(Am. by ORD-16-00021, 3-7-16)

(3) Landscape Plan and Design Standards.

Landscape plans shall be submitted as a component of a site plan, where required, or as a component of applications for other actions, including zoning permits, where applicable. Landscape plans for zoning lots greater than ten thousand (10,000) square feet in size must be prepared by a registered landscape architect.

Overall composition and location of landscaped areas shall complement the scale of the development and its surroundings. In general, larger, well-placed contiguous planting areas shall be preferred to smaller, disconnected areas.

(a) Elements of the landscape plan shall include the following:
1. Plant list including common and Latin names, size and root condition (i.e. container or ball &burlap).
2. Site amenities, including bike racks, benches, trash receptacles, etc.
3. Storage areas including trash and loading.
4. Lighting (landscape, pedestrian or parking area).
5. Irrigation.
6. Hard surface materials.
7. Labeling of mulching, edging and curbing.
8. Areas of seeding or sodding.
9. Areas to remain undisturbed and limits of land disturbance.
10. Plants shall be depicted at their size at sixty percent (60%) of growth.
11. Existing trees eight (8) inches or more in diameter.
12. Site grading plan, including stormwater management, if applicable.

(b) Plant Selection. Plant materials provided in conformance with the provisions of this section shall be nursery quality and tolerant of individual site microclimates.

(c) Mulch shall consist of shredded bark, chipped wood or other organic material installed at a minimum depth of two (2) inches.

(4) Landscape Calculations and Distribution. Required landscaped areas shall be calculated based upon the total developed area of the property. Developed area, for the purpose of this requirement, is defined as that area within a single contiguous boundary which is made up of structures, parking, driveways and docking/loading facilities, but excluding the area of any building footprint at grade, land designated for open space uses such as athletic fields, and undeveloped land area on the same zoning lot.

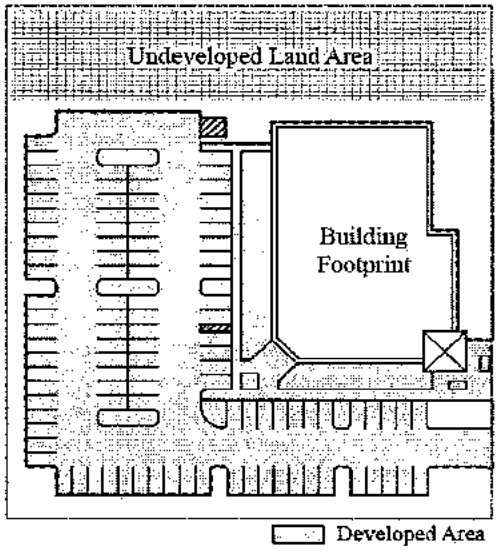

Figure I11: Developed Area for Calculating Landscape Requirements.

(a) Five (5) landscape points shall be provided for each three hundred (300) square feet of developed area. However,
1. For lots larger than five (5) acres, points shall be provided at five (5) points per three hundred (300) square feet for the first five (5) acres, and one (1) point per one hundred (100) square feet for all additional acres.
2. For the IL and IG districts, one (1) point shall be provided per one hundred (100) square feet.

(b) Where required landscaping cannot be accommodated due to building placement on site, the Zoning Administrator may modify or waive the point requirements.

(c) Landscape points are calculated as shown in the following table.

Plant type	Points	Minimum Size at Installation
Overstory deciduous tree	35	2½ inch caliper measured diameter at breast height (dbh) Minimum 12'-14' Hgt.

Plant type	Points	Minimum Size at Installation
Tall Evergreen Tree (i.e. pine, spruce)	35	5-6 feet tall
Ornamental tree	15	1½ inch caliper
Upright Evergreen shrub (i.e. arborvitae)	10	3-4 feet tall
Shrub, deciduous	3	#3 gallon container size Min. 12"-24"
Shrub, evergreen	4	#3 gallon container size Min. 12"-24"
Ornamental grasses/perennials	2	#1 gallon container size Min. 8"-18"
Ornamental/decorative fencing or wall	4 per 10 ln. ft.	n/a
Existing significant specimen tree	14 per caliper inch dbh	Minimum size: 2 ½ inch caliper dbh Maximum points per tree: 200 *Trees must be within developed area and cannot comprise more than 40% (30%) of total required points
Landscape furniture for public seating and/or transit connections	5 points per "seat"	*Furniture be within developed area, publically accessible, and cannot comprise more than 5% of total required points

*as determined by ANSI, ANLA—American standards for nursery stock. For each size, minimum plant sizes shall conform to the specifications as stated in the current American Standard for Nursery Stock.

(d) Landscaping shall be distributed throughout the property along street frontages, within parking lot interiors, and as foundation plantings as specified in subsections (5) through (8) below, or as general site landscaping.

(e) Planting beds or planted areas must have at least seventy-five percent (75%) vegetative cover mulched.

(f) Canopy tree diversity requirements for new trees:

1. If the development site has fewer than five (5) canopy trees, no tree diversity is required.

2. If the development site has between five (5) and fifty (50) canopy trees, no single species may comprise more than thirty-three percent (33%) of trees.

3. If the development site has more than fifty (50) canopy trees, no single species may comprise more than twenty percent (20%).

(g) Not more than four (4) of any one species of canopy tree shall be used to meet a canopy tree requirement.

(5) Development Frontage Landscaping.

Landscaping and/or ornamental fencing shall be provided between buildings or parking areas and the adjacent street(s), except where buildings are placed at the sidewalk. Landscape material shall include a mix of plant material meeting the following minimum requirements:

(a) One (1) overstory deciduous tree and five (5) shrubs shall be planted for each thirty (30) lineal feet of lot frontage. Two (2) ornamental trees or two (2) evergreen trees may be used in place of one (1) overstory deciduous tree.

(b) In cases where building facades directly abut the sidewalk, required frontage landscaping shall be deducted from the required point total.

(c) In cases where development frontage landscaping cannot be provided due to site constraints, the zoning administrator may waive the requirement or substitute alternative screening methods for the required landscaping.

(d) Fencing shall be a minimum of three (3) feet in height, and shall be constructed of metal, masonry, stone or equivalent material. Chain link or temporary fencing is prohibited.

Figures I12-13: Development Frontage Landscaping Examples.

(6) Interior Parking Lot Landscaping.

The purpose of interior parking lot landscaping is to improve the appearance of parking lots, provide shade, and improve stormwater infiltration. All parking lots with twenty (20) or more parking spaces shall be landscaped in accordance with the following interior parking lot standards.

(a) For new development on sites previously undeveloped or where all improvements have been removed, a minimum of eight percent (8%) of the asphalt or concrete area of the parking lot shall be devoted to interior planting islands, peninsulas, or landscaped strips. For changes to a developed site, a minimum of five percent (5%) of the asphalt or concrete area shall be interior planting islands, peninsulas, or landscaped strips. A planting island shall be located at least every twelve (12) contiguous stalls with no break or alternatively, landscaped strips at least seven (7) feet wide between parking bays.

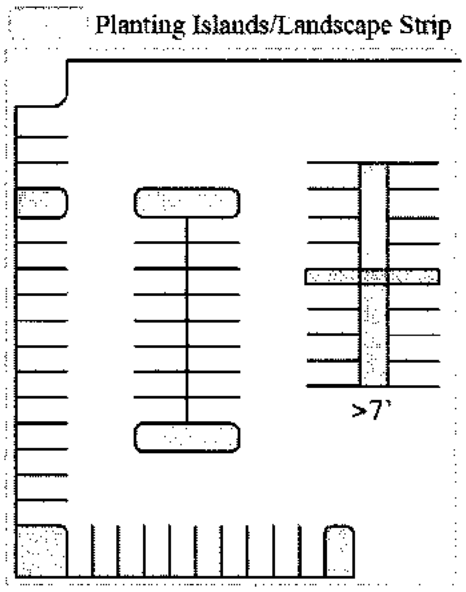

Figure I14: Interior Parking Lot Landscaping.

(b) The primary plant materials shall be shade trees with at least one (1) deciduous canopy tree for every one hundred sixty (160) square feet of required landscaped area. Two (2) ornamental deciduous trees may be substituted for one (1) canopy tree, but ornamental trees shall constitute no more than twenty-five percent (25%) of the required trees. No light poles shall be located within the area of seventy-five percent (75%) of mature growth from the center of any tree.

(c) Islands may be curbed or may be designed as uncurbed bio-retention areas as part of an approved low impact stormwater management design approved by the Director of Public Works. The ability to maintain these areas over time must be demonstrated. (See Chapter 37, Madison General Ordinances, Erosion and Storm-water Runoff Control.)

Figure I15: Interior Parking Lot Landscaping Example.

(7) Foundation Plantings.

Foundation plantings shall be installed along building facades, except where building facades directly abut the sidewalk, plaza, or other hard-scape features. Foundation plantings shall consist primarily of shrubs, perennials, and native grasses. The Zoning Administrator may modify this requirement for development existing prior to the effective date of this ordinance, as long as improvements achieve an equivalent or greater level of landscaping for the site.

(8) Screening Along District Boundaries.

Screening shall be provided along side and rear property boundaries between commercial, mixed-use or industrial districts and residential districts. Screening shall consist of a solid wall, solid fence, or hedge with year-round foliage, between six (6) and eight (8) feet in height, except that within the front yard setback area, screening shall not exceed four (4) feet in height. Height of screening shall be measured from natural or approved grade. Berms and retaining walls shall not be used to increase grade relative to screening height. For conditional uses, the Plan Commission may modify these requirements.

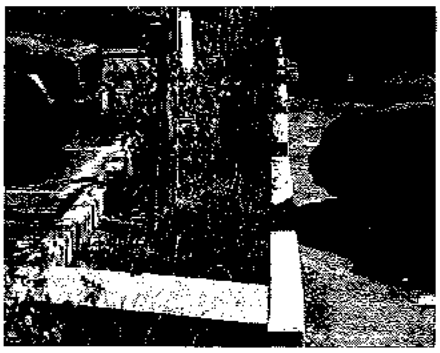

Figure I16: Interior Parking Lot Landscaping Example.

(9) Screening of Other Site Elements.

The following site elements shall be screened in compatibility with the design elements, materials and colors used elsewhere on the site, as follows:

(a) Refuse Disposal Areas. All developments, except single family and two family developments, shall provide a refuse disposal area. Such area shall be screened on four (4) sides (including a gate for access) by a solid, commercial-grade wood fence, wall, or equivalent material with a minimum height of six (6) feet and not greater than eight (8) feet.

(b) Outdoor Storage Areas. Outdoor storage areas shall be screened from abutting residential uses with a building wall or solid, commercial-grade wood fence, wall, year-round hedge, or equivalent material, with a minimum height of six (6) feet and not greater than eight (8) feet. Screening along district boundaries, where present, may provide all or part of the required screening.

(c) Loading Areas. Loading areas shall be screened from abutting residential uses and from street view to the extent feasible by a building wall or solid, commercial-grade wood fence, or equivalent material, with a minimum height of six (6) feet and not greater than eight (8) feet. Screening along district boundaries, where present, may provide all or part of the required screening.

(d) Mechanical Equipment. All rooftop and ground level mechanical equipment and utilities shall be fully screened from view from any street or residential district, as viewed from six (6) feet above ground level. Screening may consist of a building wall or fence and/or landscaping as approved by the Zoning Administrator.

(Am. by ORD-14-00001, 1-14-14)

(10) Maintenance.

The owner of the premises is responsible for the watering, maintenance, repair and replacement of all landscaping, fences, and other landscape architectural features on the site. All planting beds shall be kept weed free. Plant material that has died shall be replaced no later than the upcoming June 1.

(11) Fences, Walls and Hedges.

Fences and hedges may be erected, placed, or maintained in any yard along or adjacent to a lot line in accordance with the requirements identified in this section. The owner shall be responsible for properly locating all property lines before construction or installation of any fence or hedge.

(a) Height in Residential Districts.

1. The maximum height of a screening fence or screening hedge within required interior side and rear setbacks in a residential zoning district shall not exceed six (6) feet. An ornamental fence or ornamental hedge may exceed six (6) feet in height. A screening fence or screening hedge of up to eight (8) feet in height may be placed on a district boundary line between a residential district and a mixed-use, commercial or employment district, or where adjacent to a public utility or public service use.
2. Screening fences around pools shall not exceed eight (8) feet.
3. Screening fences within the building envelope shall not exceed eight (8) feet.
4. The maximum height of a screening fence or screening hedge within a required front or street side yard setback shall not exceed four (4) feet, in height with the following exceptions:
   a. A screening fence or screening hedge of up to six (6) feet in height may be placed within a street side yard setback behind the rear plane of the principal building.
   b. The height of a screening fence or screening hedge within a street side yard setback may be increased to a maximum of six (6) feet in height if it is set back a minimum of four (4) feet from the street side yard property line.
5. The maximum height of an ornamental fence located in a front yard is five (5) feet if the fence is less than fifty percent (50%) opaque, and six (6) feet if the fence is less than twenty percent (20%) opaque.

(b) Height in Mixed-Use or Nonresidential Zoning Districts. The maximum height of a screening fence or screening hedge shall not exceed eight (8) feet except in required front or street side yard setbacks where the maximum height of a screening fence or screening hedge shall not exceed four (4) feet.

(c) Height Measurement. Fence or hedge height shall be measured from natural or approved grade. In the case of grade separation, such as the division of properties by a retaining wall, fence or hedge height shall be determined based on measurement from the average point between highest and lowest grade. If the fence or

hedge is set back from the retaining wall by a distance of at least four (4) feet, the height shall be measured from the base of the fence or hedge. Berms and retaining walls shall not be used to increase grade relative to screening height.

(d) Fences or hedges shall comply with the vision clearance triangle requirements of Subsection 27.05(2)(bb).

(e) Fences located in the front or street side yard setback areas must be made of materials such as wood, ornamental metal, brick, vinyl-coated chain link or stone. Uncoated chain link fences may be used in interior side or rear yards.

(f) Temporary fencing, including the use of wood or plastic snow fences for the purposes of limiting snow drifting between November 1 and April 1, protection of excavation and construction sites, and the protection of plants during grading and construction is permitted for a time period consistent with an approved building permit or up to one hundred eighty (180) consecutive days per calendar year.

(Sec. 28.142(11) Am. by ORD-14-00001, 1-14-14)

(Sec. 28.142 Am. by ORD-13-00148, 9-11-13)

28.143 MOBILE TOWER SITING REGULATIONS.

(1) Statement of Purpose.

The purpose and intent of this section is to strike a balance between the state and federal interest concerning the construction, modification and siting of mobile service facilities and mobile service support structures for use in providing personal wireless services, and the interest of the City in regulating local zoning. The goals of this section are to:

(a) Protect residential areas and land uses from the potential adverse impacts of towers and antennas.

(b) Minimize the total number of towers throughout the community.

(c) Encourage the joint use of new and existing tower sites as a primary siting option rather than construction of additional single-use towers.

(d) Avoid potential damage to adjacent properties from tower failure through engineering and careful siting of tower structures.

(2) New Construction and Substantial Modification of Facilities and Support Structures.

(a) An application for a permit to engage in the siting or construction of a new mobile service support structure and facilities or to engage in a Class 1 collocation shall be submitted in writing to the Building Inspection Division and shall contain the following:

1. The name and business address of, and the contact individual for, the applicant.
2. The location of the proposed or affected support structure.
3. The location of the proposed mobile service facility.
4. If the application is to substantially modify an existing support structure, a construction plan which describes the proposed modifications to the support structure and the equipment and network components, including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment associated with the proposed modifications.
5. If the application is to construct a new mobile service support structure, a construction plan which describes the proposed mobile service support structure and the equipment and network components, including antennas, transmitters, receivers, base stations, power supplies, cabling, and related equipment to be placed on or around the new mobile service support structure.
6. If an application is to construct a new mobile service support structure, an explanation as to why the applicant chose the proposed location and why the applicant did not choose collocation, including a sworn statement from an individual who has responsibility over the placement of the mobile

service support structure attesting that collocation within the applicant's search ring would not result in the same mobile service functionality, coverage, and capacity; is technically infeasible; or is economically burdensome to the mobile service provider.

(b) The Building Inspection Division Director or his or her designee shall inform the applicant within ten (10) days of receipt of the application if the application is not complete. Notification shall be in writing and shall specify in detail the information that was incomplete.

(c) Within ninety (90) days of receipt of a completed application, the Building Inspection Division Director or designee shall issue a written decision to approve or deny the application. However, the Director or designee and the applicant may agree in writing to an extension of the ninety-(90) day period.

(d) Decisions to deny an application shall be supported by substantial evidence. Such evidence shall be included in the written decision.

(e) If an applicant provides an engineering certification showing that a mobile service support structure, or an existing structure, is designed to collapse within a smaller area than the setback or fall zone area required in a zoning ordinance, that zoning ordinance does not apply to such a structure unless the Building Inspection Division Director or designee provides the applicant with substantial evidence showing that the engineering certification is flawed.

(f) The decision of the Building Inspection Division Director or designee is a final decision appealable to circuit court.

(3) Abandonment.

If a mobile service support structure shall cease to be used for a period exceeding one year and a day, the owner or operator of said structure shall remove the structure upon the written request of the City Building Inspection Division Director at no cost to the City within ninety (90) days of said request. Prior to the issuance of any building or zoning permits, a performance bond shall be provided to guarantee that a support structure that has ceased being used for mobile service facilities purposes is removed. The bond amount shall be the lesser of twenty thousand dollars ($20,000) or an amount based on a written estimate of a person qualified to remove such structures.

(4) Structural Requirements.

Every mobile service support structure and mobile service facility shall be designed and constructed so as to comply with the requirements of Chapter 17, MGO, and International Building Code (IBC) 3108, as amended from time to time. If, upon inspection, the Building Inspection Division Director concludes that a structure or facility fails to comply with such codes in effect at the time of construction, and constitutes a danger to persons or property, then upon notice being provided to the owner of the structure or facility, the owner shall have thirty (30) days or such time as determined by the Building Inspection Division Director to bring such tower into compliance with said codes.

Failure to bring such structure or facility into compliance within said thirty (30) days or such time as determined by the Building Inspection Division Director shall constitute grounds for the removal of the structure or facility at owner's expense.

(5) Basic Tower and Building Design.

All new mobile service support structures and facilities, except exempt facilities as defined in subsection (8), below, shall be designed as follows:

(a) Mobile service facilities and mobile service support structures shall be constructed out of metal or other nonflammable material.

(b) Mobile service facilities and mobile service support structures shall insure that sufficient anti-climbing measures have been incorporated into the facility, as needed, to reduce potential for trespass and injury.

(c) Emergency back-up generators shall be completely enclosed on all sides. Other efforts to mitigate noise from such generators may be required.

(6) Location.

A good faith effort in achieving collocation shall be required of the requestor and host entity, subject to existing collocation contracts, and all of the following measures shall be implemented for new mobile service support structures and Class 1 Collocations:

(a) No mobile service support structure shall be installed closer than one-quarter (¼) mile from another mobile service support structure, measured from the base of the existing structure to the base of the proposed structure, unless the applicant provides a sworn statement from an individual who has responsibility over the placement of the mobile service support structure attesting that collocation within the applicant's search ring:

1. Would not result in the same mobile service functionality, coverage, and capacity;
2. Is technically infeasible, or
3. Is economically burdensome to the mobile service provider.

For the purposes of this requirement, exempt mobile service facilities unavailable for collocation shall not be included in the one-quarter (¼) mile computation.

(b) No mobile service support structure shall be located on a lot in a residence district, unless said lot is greater than two (2) acres in area and the principal use is other than residential.

(c) Mobile service support structures towers, guy wires, appurtenant equipment and buildings shall comply with the yard and set back requirements of the zoning district in which they are located.

(7) Collocated and Multiple-User Facilities.

(a) An application for a permit to engage in Class 2 Collocation shall be submitted in writing to the Building Inspection Division and shall contain the following:

1. The name and business address of, and the contact individual for, the applicant.
2. The location of the proposed or affected support structure.
3. The location of the proposed mobile service facility.

(b) The Building Inspection Division shall inform the applicant within five (5) days of receiving the application if the application is not complete. Notification shall be in writing and shall specify in detail the information that was incomplete.

(c) Within forty-five (45) days of receipt of a completed application, the Building Inspection Division Director or designee shall issue a written decision to approve or deny the application, except that the Building Inspection Division Director or designee and the applicant may agree in writing to an extension.

(d) Decisions to deny an application shall be supported by substantial evidence. Such evidence shall be included in the written decision.

(e) The decision of the Building Inspection Division Director or designee is a final decision appealable to circuit court.

(f) Design for Collocation. All new mobile service support structures shall be structurally and electrically designed to accommodate at least three (3) separate antenna arrays, unless credible evidence is presented that said construction is economically and technologically unfeasible.

Multi-user mobile service support structures shall be designed to allow for future rearrangement of antennas and to accept antennas mounted at varying heights. Parking areas, access roads, and utility easements shall be shared by site users.

(8) Exempt Facilities.

(a) Amateur radio towers installed, erected, maintained and/or operated in any residential zoning district, by a federally-licensed amateur radio operator, complying with the provisions contained in Chapter 17, MGO, so long as all the following conditions are met:

1. The antenna use involved is accessory to the primary use of the property which is not a telecommunication facility.
2. In a residential zone, no more than one support structure for licensed amateur radio operator is allowed on the parcel.
3. Sufficient anti-climbing measures have been incorporated into the facility, as needed, to reduce potential for trespass and injury.

(b) Publicly owned and operated telecommunications facilities required in the public interest to provide for and maintain a radio frequency telecommunication system, including digital, analog, wireless or electromagnetic waves, for police, fire and other municipal services.

(Sec. 28.143 Rep. & Rec. by ORD-13-00189, 11-26-13)

28.144 DEVELOPMENT ADJACENT TO A LANDMARK OR LANDMARK SITE.

Any development on a zoning lot adjoining a landmark or landmark site for which Plan Commission or Urban Design Commission review is required shall be reviewed by the Landmark Commission to determine whether the proposed development is so large or visually intrusive as to adversely affect the historic character and integrity of the adjoining landmark or landmark site. Landmark Commission review shall be advisory to the Plan Commission and the Urban Design Commission.

28.145 LOTS WITH SPLIT ZONING.

For any lot with two (2) or more zoning district designations, each portion of said lot shall be subject to the requirements of the district in which it is located.

28.146 HISTORIC DISTRICT SUFFIXES.

(1) Statement of Purpose and Applicability. Historic District suffixes are created to provide an effective means of identifying zoning lots which are either located within a designated Historic District or upon which is located a designated landmark, pursuant to the provisions of Chapter 41, MGO. The appropriate suffix for a designated landmark or respective Historic District as created hereunder shall be appended to the current and any future zoning district classification of each zoning lot so affected and the suffix shall also be appended to zoning district classifications on Zoning District Maps maintained by the Zoning Administrator. The suffix designation has no effect upon the principal zoning district classification of said zoning lots. However, the applicable regulations of Chapter 41 which are referenced by the respective suffix shall apply to each said zoning lot in addition to the applicable requirements of the Zoning Code.

(2) HIST-L Designated Landmark. The HIST-L suffix applies to all zoning lots on which a designated landmark is located pursuant to Sec. 41.07, MGO, and the owner of each such zoning lot is notified that the landmark located thereon and the landmark site shall be maintained in a condition consistent with the provisions of Chapter 41, in addition to the applicable requirements of the Zoning Code.

(3) HIST-MH Mansion Hill Historic District. The HIST-MH suffix applies to all zoning lots located within the Mansion Hill Historic District and the owners of such zoning lots are notified that any improvements thereon, whether present or proposed, shall be constructed, maintained, altered and demolished or reconstructed in accordance with the applicable general provisions of Chapter 41 and the specific provisions of Sec. 41.22, in addition to the applicable requirements of the Zoning Code.

(4) HIST-TL Third Lake Ridge Historic District. The HIST-TL suffix applies to all zoning lots located within the Third Lake Ridge Historic District and the owners of such zoning lots are notified that any improvements thereon, whether present or proposed, shall be constructed, maintained, altered and demolished or reconstructed in accordance with the applicable general provisions of Chapter 41 and the specific provisions of Sec. 41.23, in addition to the applicable requirements of the Zoning Code.

(5) HIST-UH University Heights Historic District. The HIST-UH suffix applies to all zoning lots located within the University Heights Historic District and the owners of such zoning lots are notified that any improvements thereon, whether present or proposed, shall be constructed, maintained, altered and demolished or reconstructed in accordance with the applicable general provisions of Chapter 41 and the specific provisions of Sec. 41.24, in addition to the applicable requirements of the Zoning Code.

(6) HIST-MB Marquette Bungalows Historic District. The HIST-MB suffix applies to all zoning lots located within the Marquette Bungalows Historic District and the owners of such zoning lots are notified that any improvements thereon, whether present or proposed, shall be constructed, maintained, altered and demolished or reconstructed in accordance with the applicable general provisions of Chapter 41 and the specific provisions of Sec. 41.25, in addition to the applicable requirements of the Zoning Code.

(7) HIST-FS First Settlement Historic District. The HIST-FS Suffix applies to all zoning lots located within the First Settlement Historic District and the owners of such zoning lots are notified that any improvements thereon, whether present or proposed, shall be constructed, maintained, altered, and demolished or reconstructed in accordance with the applicable general provisions of Chapter 41 and the specific provisions of Sec. 41.26, in addition to the applicable requirements of the Zoning Code.

(Am. by ORD-15-00072, 7-29-15)

28.147 NEGATIVE USE RESTRICTIONS PROHIBITED AS AGAINST PUBLIC POLICY.

(1) Purpose and Intent. The public health, safety and general welfare of the City are compromised when private parties impose negative use restrictions upon real property in the City which prohibit or have the economic or practical effect of prohibiting the use of such real property for grocery store or drug store purposes after a grocery store or drug store owner or operator has terminated grocery store or drug store operations upon such real property. Such negative use restrictions are separate and distinct from commercially reasonable non-compete clauses included in shopping center development agreements whereby a landlord may agree with a tenant that is a grocery store or drug store not to lease another space in the same shopping center to a second grocery store or drug store, respectively, in order to induce the first tenant to sign a long-term lease as an anchor tenant at such shopping center development.

(2) Prohibitions. Notwithstanding Sec. 28.04(1)(c), a private agreement that purports to impose negative use restrictions upon real property in the City so as to prohibit or have the economic or practical effect of prohibiting the use of such real property for grocery store or drug store purposes after a grocery store or drug store owner or operator has terminated grocery store or drug store operations on such real property, when such use would otherwise be permitted (including as a conditional use) under the zoning ordinance, shall be against public policy, void, and unenforceable. The foregoing prohibition shall apply whether the private agreement is incorporated in a deed restriction, a restrictive covenant, a lease or memorandum of lease, or any other instrument. This prohibition applies to all such private agreements, including those created prior to the effective date of this section. In addition to any penalty imposed by Sec. 28.12(14), the City may institute appropriate action relating to any such private agreement pursuant to Wis. Stat. § 62.23(8). The penalty provisions of Sec. 28.12(14) shall not apply to such private agreements entered into prior to the effective date of this section.

28.148 RADIO BROADCAST SERVICE FACILITY REGULATIONS.

(1) Statement of Purpose.

The purpose and intent of this section is to strike a balance between the state interest concerning the construction, modification and siting of Radio Broadcast Service Facilities, and the interest of the City in public health and safety. The regulations in this section, and elsewhere in these ordinances as they relate to Radio Broadcast Service Facilities, are determined to be the minimum necessary to protect public health and safety. The goals of this section are to

(a) Avoid potential damage to adjacent properties from tower failure through engineering and careful siting of tower structures.

(b) Avoid potential harm or injury caused by the ability to trespass or climb on a tower.

(c) Avoid potential harm or injury caused by ice or other debris falling from towers.

(2) Application.

An application for the placement, construction or modification of a radio broadcast service facility shall be made to the Building Inspection Division.

(a) A Placement Plan shall be submitted at the time of application for a zoning certificate. The Plan shall show the proposed location of the Radio Broadcast Service Facility on the lot, the design of facility, the location of improvements on adjoining lots, as well as landscaping on the lot and adjoining lots that impacts the location of the Radio Broadcast Service Facility. Additional materials may be required.

(b) The Placement Plan shall be approved by the Director of the Department of Planning and Community and Economic Development prior to installation of the facility

(c) Any denial shall be in writing, and shall provide the applicant with substantial evidence which supports the reasons for the denial.

(3) Structural Requirements.

Every Radio Broadcast Service Facility shall be designed and constructed so as to comply with the requirements of Chapter 17, MGO, and International Building Code (IBC) 3108, as amended from time to time. If, upon inspection, the Building Inspection Division Director concludes that a tower fails to comply with such codes in effect at the time of construction, and constitutes a danger to persons or property, then upon notice being provided to the owner of the tower, the owner shall have thirty (30) days or such time as determined by the Building Inspection Division Director to bring such tower into compliance with said codes.

Failure to bring such tower into compliance within said thirty (30) days or such time as determined by the Building Inspection Division Director shall constitute grounds for the removal of the tower or antenna at owner's expense.

(4) Basic Tower and Building Design.

All new Radio Broadcast Service Facilities, except exempt facilities as defined in subsection (7), below, shall be designed as follows:

(a) Radio Broadcast Service Facilities shall be constructed out of metal or other nonflammable material.

(b) Radio Broadcast Service facilities shall insure that sufficient anti-climbing measures have been incorporated into the facility, as needed, to reduce potential for trespass and injury.

(5) Location.

Radio Broadcast Service Facilities, towers, guy wires, appurtenant equipment and buildings shall comply with the yard and set back requirements of the zoning district in which they are located and, in addition thereto, all towers shall be set back at least one hundred (100) feet from any property devoted to residential use or two hundred (200) feet from any residential building, whichever is less.

(6) Abandonment.

If a Radio Broadcast Service Facility shall cease to be used for a period exceeding one year and a day, the owner or operator of said facility shall remove the facility upon the written request of the City Building Inspection Division Director at no cost to the City within ninety (90) days of said request. Prior to the issuance of any building or zoning permits, a performance bond shall be provided to guarantee that a facility that has ceased being used for telecommunication purposes is removed. The bond amount shall be the lesser of twenty thousand dollars ($20,000) or an amount based on a written estimate of a person qualified to remove such structures.

(7) Exempt Facilities.

(a) Amateur radio towers installed, erected, maintained and/or operated in any residential zoning district, by a federally-licensed amateur radio operator, complying with the provisions contained in Chapter 17, MGO, so long as all the following conditions are met:

1. The antenna use involved is accessory to the primary use of the property which is not a telecommunication facility.
2. In a residential zone, no more than one support structure for licensed amateur radio operator is allowed on the parcel.
3. Sufficient anti-climbing measures have been incorporated into the facility, as needed, to reduce potential for trespass and injury.

(b) Publicly owned and operated telecommunications facilities required in the public interest to provide for and maintain a radio frequency telecommunication system, including digital, analog, wireless or electromagnetic waves, for police, fire and other municipal services.

(Sec. 28.148 Cr. by ORD-13-00189, 11-26-13)

28.149 REGULATION OF WIND ENERGY SYSTEMS.

(1) Statutory Authorization. The ordinance codified in this section is adopted pursuant to authority contained in Wis. Stat. §§ 62.23(7) & 66.0401 and Wis. Admin. Code ch. PSC 128.

(2) Definitions. For the purposes of this section, all definitions contained within Wis. Stat. §§ 66.0401 & 66.0403, Wis. Admin. Code §§ PSC 196.378 and PSC 128.01 apply. In addition:

"Large wind energy system" means a wind energy system that has a total installed nameplate capacity of more than three hundred (300) kilowatts and that consists of individual wind turbines that have an installed nameplate capacity of more than one hundred (100) kilowatts.

(3) Pre-application Notice.

(a) At least ninety (90) days before an owner files an application to construct a large wind energy system, an owner shall use commercially reasonable methods to provide written notice of the planned wind energy system to all of the following:

1. Landowners within one (1) mile of a planned wind turbine host property.
2. Political subdivisions within which the wind energy system may be located.
3. Emergency first responders and air ambulance service providers serving a political subdivision within which the wind energy system. may be located.
4. The Wisconsin Department of Transportation.
5. The Public Service Commission of Wisconsin.
6. The Wisconsin Department of Natural Resources (DNR).
7. The Wisconsin Department of Agriculture, Trade and Consumer Protection.
8. The Office of the Deputy Undersecretary of the U.S. Department of Defense.

(b) At least one hundred eighty (180) days before filing an application to construct a wind turbine with a "maximum blade tip height" exceeding six hundred (600) feet, the owner shall provide written notice of the planned wind energy system to the Public Service Commission.

(c) For small wind energy systems, an owner shall provide written notice at least sixty (60) days prior to filing application to the City and adjacent landowners.

(d) Written notice shall include:

1. A complete description of the wind energy system, including the number and size of the planned wind turbines.
2. A map showing the planned location of all wind energy system facilities.
3. Contact information for the owner.
4. A list of all potential permits or approvals the owner anticipates may be necessary for construction.
5. Whether owner seeks joint application with another jurisdiction.

(4) Application Notice Requirements.

(a) Upon filing an application, an owner shall use commercially reasonable methods to provide written notice of the filing of the application to property owners and residents located within one (1) mile of the proposed location of any wind energy system facility. For small wind energy system, notice shall only be provided to property owners and residents located adjacent to the wind energy system. The notification shall include all of the following:

1. A complete description of the wind energy system, including the number and size of the wind turbines.
2. A map showing the locations of all proposed wind energy system facilities.
3. The proposed timeline for construction and operation of the wind energy system.
4. Locations where the application is available for public review.
5. Owner contact information.

(b) Upon receipt of an application, the City shall publish a class 1 notice, under Wis. Stat. ch. 985, that includes:

1. A brief description of the proposed wind energy system.
2. The proposed location of the wind energy system.
3. The locations where the application is available for public review.
4. The method for submitting public comments on the application to the City.
5. The approximate schedule for review of the application.

(5) Real Property Requirements.

(a) Easements and leases shall be recorded in accordance with Wis. Stat. § 706.

(b) All leases and waivers of noise and shadow flicker shall hold harmless and indemnify the real property owner for violation by the owner of any federal state or local laws and damages or bodily injury caused by the construction, operation or decommissioning of the wind energy system.

(6) Existing Property Uses.

(a) An owner shall make reasonable efforts to ascertain and accommodate any land use or commercial enterprise located on a nonparticipating property within 0.5 mile of a proposed wind turbine site if the land use or commercial enterprise exists when the owner gives notice under (3)(a), or if complete publicly—available plans for construction are on file with a political subdivision within thirty (30) days of the date the owner gives notice under (3)(a). However, for small wind energy systems, this subdivision applies only to existing land uses and enterprises that are located on adjacent nonparticipating properties.

(b) An owner shall design a wind energy system to reasonably minimize the conversion of land from agricultural use.

(7) Siting.

(a) An owner shall design and construct a large wind energy system using the wind turbine setback distances shown in Table 1:

Table 1

Setback Description	Setback Distance
Occupied Community Buildings	The lesser of 1,250 feet or 3.1 times the maximum blade tip height
Participating Residences	1.1 times the maximum blade tip height
Nonparticipating Residences	The lesser of 1,250 feet or 3.1 times the maximum blade tip height
Participating Property Lines	None
Nonparticipating Property Lines	1.1 times the maximum blade tip height
Public Road Right of Way	1.1 times the maximum blade tip height
Overhead Communication and Electric Transmission or Distribution Lines - Not including utility service lines to individual houses or outbuildings	1.1 times the maximum blade tip height
Overhead Utility Service Lines - Lines to individual houses or outbuildings	None

(b) An owner shall design and construct a small wind energy system using the wind turbine setback distances shown in Table 2:

Table 2

Setback Description	Setback Distance
Occupied Community Buildings	1.0 times the maximum blade tip height
Participating Residences	None
Nonparticipating Residences	1.0 times the maximum blade tip height
Participating Property Lines	None
Nonparticipating Property Lines	1.0 times the maximum blade tip height
Public Road Right of Way	None
Overhead Communication and Electric Transmission or Distribution Lines - Not including utility service lines to individual houses or outbuildings	1.0 times the maximum blade tip height
Overhead Utility Service Lines - Lines to individual houses or outbuildings	None

(c) An owner shall measure wind turbine setback distances as a straight line from the vertical centerline of the wind turbine tower to the nearest point on the permanent foundation of a building or residence or to the nearest point on the property line or feature, as applicable.

(d) For wind energy systems within the Airport Affected Area, the maximum blade tip height shall not exceed the height limits in Sec. 78.05, Dane County Ordinances.

(e) For wind energy systems within four thousand (4000) feet of a heliport the maximum blade tip height shall not exceed the total of five hundred (500) feet plus the height of the heliport landing area.

(f) An owner shall work with a political subdivision and owners of participating and nonparticipating properties to site wind turbines to minimize individual hardships.

(g) The owner of a nonparticipating residence or occupied community building may waive the setback distances from a non-participating residence or an occupied

community building to a minimum setback of one-point-one (1.1) times the maximum blade tip height for large wind energy system or to 0 for a small wind energy system.

(h) The owner of a nonparticipating residence or occupied community building may waive the setback distances from a non-participating property line or an occupied community building property line.

(8) Noise.

(a) The noise attributable to a wind energy system shall not exceed 50dBA between the hours of 6:00 a.m. and 10:00 p.m., and shall not exceed 45dBA at all other times.

(b) For large wind energy systems, the owner shall evaluate compliance with the above noise limits pre- and post-construction as specified in PSC 128.50.

(c) The noise limits in this section apply at the outside wall of a nonparticipating residence or occupied community building that exists when the owner gives notice under (3)(a) or for which complete publicly—available plans for construction are on file with a political subdivision within thirty (30) days of the date on which the owner gives notice.

(d) An owner shall design the proposed wind energy system to minimize noise at a residence or occupied community building to the extent reasonably practicable.

(e) If the noise from a wind energy system contains noise other than that from normal operating conditions such as a whine, whistle, screech, or hum, the owner shall promptly act to permanently eliminate such noise. Until such time as the noise is permanently eliminated, the owner shall use operational curtailment to eliminate the noise.

(f) Upon receipt of a noise complaint, the owner shall test for compliance with the noise limits above, except that testing is not required if the owner provides results of an accurate noise test completed within two (2) years of the date of the compliant showing compliance with the above noise limits at the location of the compliant.

(g) An owner of an affected nonparticipating residence or occupied community building may waive compliance with the above noise limits by written contract with the owner of the wind energy system. Such written contract shall be recorded and shall be an encumbrance on the real property and run with the land per Wis. Stat. § 706 until the wind energy system is decommissioned.

(h) Before entering into a contract under (g), an owner of a wind energy system shall provide written notice of the requirements of this section to the owner of an affected nonparticipating residence or occupied community building.

(i) Prior to the initial operation of a wind energy system, the owner of a wind energy system shall provide notice of the requirements of this section to any owner of a nonparticipating residence or occupied community building within one-half (0.5) miles of the constructed wind turbine that has not entered into a contract under (g). For a small wind energy system, this requirement applies to adjacent nonparticipating residences or occupied community buildings.

(9) Shadow Flicker.

(a) Shadow flicker requirements apply to a nonparticipating residence or occupied community building that exists when the owner gives notice under (3)(a) or for which complete publicly-available plans for construction are on file with the City within thirty (30) days of the date on which the owner gives notice under (3)(a).

(b) An owner of a wind energy system shall work with an owner of a residence or occupied community building to mitigate the effects of shadow flicker to the extent reasonably practicable.

(c) No wind energy system shall cause more than thirty (30) hours per year of shadow flicker at a nonparticipating residence or occupied community building. If this limit is exceeded, the owner of wind energy system shall use operational curtailment to bring the wind energy system into compliance.

(d) An owner of a large wind energy system shall provide shadow flicker computer modeling indicating that no nonparticipating residence or occupied community building will experience more than thirty (30) hours per year of shadow flicker under planned operating conditions.

(e) An owner of a large wind energy system shall provide reasonable shadow flicker mitigation, at the owner's expense, for a nonparticipating residence or occupied community building experiencing twenty (20) hours or more per year of shadow flicker. The amount of shadow flicker shall be determined by the shadow flicker computer model or by records kept by the resident of a nonparticipating residence or the occupant of an occupied community building. Mitigation is required only when the owner of the wind energy system receives a complaint or request for mitigation from a nonparticipating residence or occupied community building that receives twenty (20) hours or more per year of shadow flicker. If mitigation is required, the owner of a large wind energy system shall allow the owner of the non-participating residence or the occupied community building to choose a preferred reasonable mitigation technique, including the installation of blinds or plantings at the wind energy system owner's expense.

(f) The owner of an affected nonparticipating residence or occupied community building may waive the shadow flicker limit or shadow flicker mitigation requirements by written contract with the owner of the wind energy system. Unless otherwise provided for in the contract, the waiver shall be an encumbrance on the real property, run with the land, and shall be recorded per Wis. Stat. § 706.

(g) Before entering into a contract under (f) above, an owner of a large wind energy system shall provide notice of the requirements of this section to an owner of a nonparticipating residence or occupied community building.

(h) Before beginning operation of a large wind energy system, the owner shall provide notice of the requirements of this section to an owner of a nonparticipating residence or occupied community building within one-half (0.5) miles of a constructed wind turbine that has not entered into a contract under (f) above.

(10) Signal Interference.

(a) An owner of a wind energy system shall use reasonable efforts to avoid causing interference with commercial communications and personal communications in use when the wind energy system begins operation.

(b) No wind energy system shall be located within existing line-of-sight communication paths that are used by government or military entities to provide services essential to protect public safety. An owner shall provide documentation showing compliance.

(c) If interference with commercial or personal communications occurs, the owner of a large wind energy system shall use reasonable and commercially available technology to mitigate interference. Following consultation with the affected parties, the owner shall implement the affected party's preferred reasonable mitigation solution effective until the large wind energy system is decommissioned or the communication is no longer in use.

(11) Stray Voltage. An owner of a wind energy system shall provide the City with results of pre-and post-construction testing for stray voltage if such testing is required pursuant to Wis. Admin. Code § PSC 128.17.

(12) Construction and Operation.

(a) Physical Characteristics.

1. An owner shall not allow display of advertising or signage other than warnings, equipment information, or indicia of ownership on a wind turbine.
2. Except for a safety feature or wind monitoring device, an owner shall not allow any flag, decorative sign, streamers, pennants, ribbons, spinners, fluttering, or revolving devices to be located on a wind turbine.
3. An owner shall ensure that a wind turbine has an unobtrusive finish.
4. An owner shall install and maintain lighting that meets FAA standards.
5. An owner shall ensure that a wind energy system is not readily climbable except by authorized personnel.
6. An owner shall ensure that all wind turbine access doors and electrical equipment are locked when authorized personnel are not present.
7. An owner shall place appropriate warning signage on or at the base of each wind turbine.
8. An owner shall clearly mark guy wires and supports for a wind energy system, meteorological tower or other device for measuring wind speeds so that they are visible to low flying aircraft under fair weather conditions.
9. For large wind energy systems, an owner shall post and maintain signs containing a twenty-four (24) hour emergency contact telephone number, information identifying the owner, and sufficient information to identify the location of the sign within the wind energy system. Signs shall be posted at every intersection of a wind energy system access road with a public road and at each wind turbine location.

(b) Electrical Standards.

1. An owner shall construct, maintain and operate wind energy systems in a manner that complies with the national electrical safety code.
2. An owner shall construct, maintain and operate collector circuit facilities in compliance with both the national electrical safety code and Wis. Admin. ch. PSC 114.
3. For large wind energy systems, an owner shall ensure that collector circuit facilities are located underground to the extent practicable. If collector circuit facilities are located overhead, owner shall not allow third-party facilities to be attached or bonded to the collector circuit grounding. The owner of the wind energy system shall establish a regular inspection schedule for all overhead facilities and shall ensure that any attached third-party facilities are promptly removed.

(c) Construction, Operation and Maintenance.

1. An owner shall ensure that all wind energy systems are constructed, operated, repaired, maintained, and replaced as needed to keep the wind energy system in good repair and operating condition and in a manner that protects individuals from injury.
2. An owner of a large wind energy system shall minimize soil compaction, topsoil mixing and damage to drainage systems on agricultural land during the construction and decommissioning of the wind energy system.
3. An owner shall ensure that topography, soils, and vegetation are restored to their original condition following construction of a large wind energy system, unless otherwise provided in a contract signed by an affected landowner, considering modifications needed to comply with DNR requirements.
4. An owner of a large wind energy system shall provide the City documentation of general liability insurance covering claims for property damage or

bodily injury arising from the construction, operation, or decommissioning of the wind energy system and shall include turbine host property owners as additional insured persons on the policy.

(d) Emergency Procedures.

1. An owner of a wind energy system shall notify the City of the occurrence and nature of a wind energy system emergency within twenty-four (24) hours of the wind energy system emergency.
2. An owner of a large wind energy system shall establish and maintain a liaison with the City Fire Department, City Police Department and other appropriate first responders to create emergency plans that include the following:
   a. A list of the types of wind energy system emergencies that require notification of the City within twenty-four (24) hours.
   b. Current emergency contact information for first responders and for the wind energy system owner, including names and phone numbers.
   c. Procedures for handling different types of wind energy system emergencies, including written procedures that provide for shutting down the wind energy system or a portion of the system as appropriate.
   d. Duties and responsibilities of the owner and of first responders in the event of a wind energy system emergency.
   e. An emergency evacuation plan for the area within one-half (0.5) miles of any wind energy system facility, including the location of alternate landing zones for emergency services aircraft.
3. An owner of a large wind energy system shall review the emergency plan at least annually in collaboration with fire, police and other appropriate first responders to update and improve the emergency plan as needed.
4. An owner of a large wind energy system shall distribute current copies of the emergency plan to the City, Madison Police Department, Madison Fire Department and other appropriate first responders identified by the City.
5. An owner of a large wind energy system shall provide the wind energy system's operator, supervisors, and employees who are responsible for emergency action a copy of the current edition of the emergency procedures established in (e)2. above, train the appropriate operating personnel to ensure they have knowledge of the emergency procedures and verify that the training is effective. As soon as possible after a wind energy system emergency, the owner shall review employee activities to determine whether the procedures were effectively followed.

(13) Decommissioning.

(a) An owner of a wind energy system shall decommission and remove the wind energy system when the system is at the end of its useful life, which is presumed to be when a large wind energy system generates no electricity for a continuous three hundred sixty (360) day period or a small wind energy system generates no electricity for a continuous five hundred forty (540) day period.

(b) For large wind energy systems, the City shall grant one or more additional one hundred eighty day (180) extension periods if it is likely that the wind energy system will operate again in the future and if any of the following occur:

1. The owner submits a plan to the City that demonstrates an ongoing good-faith effort to return the wind energy system to service and outlines

the steps and schedule for returning the wind energy system to service in a reasonable period of time, including by repairing, replacing or repowering the wind energy system facilities as necessary to generate electricity.

2. The owner demonstrates that the wind energy system is part of a prototype or other demonstration project being used for ongoing research or development purposes.

3. The owner demonstrates that the wind energy system is being used for educational purposes.

(c) The City may deny a request for an extension under (b) above if the wind energy system has not generated any electricity for a continuous period of five hundred forty (540) days or more and the City finds that the owner is not capable of returning the wind energy system to service within a reasonable period of time.

(d) A large wind energy system is irrebuttably presumed to be at the end of its useful life if the wind energy system generates no electricity for a period of five hundred forty (540) days and the owner has not requested an extension or the City has denied an extension under (c) above and any appeal rights have expired.

(e) When decommissioning is required, the owner shall begin decommissioning within three hundred sixty (360) days after the wind energy system has reached the end of its useful life and shall complete the process, including the removal of the wind energy system, within five hundred forty (540) days after the wind energy system has reached the end of its useful life.

(f) An owner of a wind energy system shall file a notice of decommissioning completion with the City and the Public Service Commission when a wind energy system that has been approved by the City has been decommissioned and removed. Within three hundred sixty (360) days of receiving such notice, the City shall determine whether the owner has satisfied the requirements of (a) above and any applicable site restoration requirements.

(14) Financial Responsibility.

(a) Prior to construction of a large wind energy system with a nameplate capacity of one (1) or more megawatts, an owner shall provide a bond, deposit, escrow account, irrevocable letter of credit, or some combination of these financial assurances to fund the actual and necessary cost to decommission the wind energy system and shall ensure the availability of such financial assurances and funds throughout the expected life of the wind energy system and the decommissioning period. Such assurance must provide that the secured funds may be used only for decommissioning the wind energy system and are accessible only to the City.

(b) Throughout the lifetime of a large wind energy system, the City may require, no more than once every five (5) years, an updated estimate of the actual and necessary costs to decommission the wind energy system and if such estimate is at least ten percent (10%) higher than the amount of financial assurance provided, the City may require a corresponding increase in the financial assurance.

(15) Site Restoration.

(a) Except as provided in (b) below, if a large wind energy system is constructed on land owned by a person other than the owner of the wind energy system, the owner of the wind energy system shall ensure that the property is restored to preconstruction condition, unless otherwise provided in a contract signed by an affected landowner, considering any modification needed to comply with DNR requirements.

(b) If a wind energy system was constructed on a brownfield, as defined in Wis. Stat. § 238.13(1)(a), the owner shall restore the property to eliminate effects caused by the wind energy system, except for the effects of environmental remediation activities, as defined in Wis. Stat. § 238.13(1)(d).

(16) Application.

(a) All applicants for a wind energy system permit shall submit an application that includes the following:

1. A description of the wind energy system and maps showing the locations of all proposed wind energy facilities.
2. A technical description of the wind turbines and wind turbine sites.
3. The proposed timeline for construction of the wind energy system.
4. Information regarding the anticipated impact of the wind energy system on local infrastructure.
5. Information regarding the noise anticipated to be attributable to the wind energy system.
6. Information regarding shadow flicker anticipated to be attributable to the wind energy system.
7. Information regarding the anticipated effects of the wind energy system on existing land uses within one-half (0.5) miles of the wind energy system.
8. Information regarding the anticipated effects of the wind energy system on airports and airspace.
9. Information regarding the anticipated effects of the wind energy system on line-of-sight communication.
10. A list of all state and federal permits required to construct and operate the wind energy system.
11. Information regarding the planned use and modification of roads within the City during the construction, operation, and decommissioning of the wind energy system, including a process for assessing road damage caused by wind energy activities and for conducting road repairs at the wind energy system owner's expense.
12. A copy of all notices required under subsections (3) and (4)
13. A copy of all emergency plans developed in collaboration with appropriate first responders under (12)(e) above.
14. For large wind energy systems, a decommissioning and site restoration plan and any required financial assurance.
15. Any additional information necessary to understand the construction, operation, or decommissioning of the proposed wind energy system.
16. The City shall notify the applicant in writing no later than forty-five (45) days after the application is filed whether the application is complete. The application is considered filed on the date the owner notifies the City in writing that all application materials have been filed. If the City determines that the application is incomplete, it shall provide notice to the owner of the reasons for such determination. The owner may file a supplement to an application based on the stated reasons for the determination that the application was incomplete and another forty-five (45) day completeness review period begins. If the City fails to make a determination of completeness and notify the owner within the required forty-five (45) days, the application is deemed complete.

(17) Decision.

(a) Within ninety (90) days of determining that the application is complete, the Plan Commission shall issue a written decision with findings of fact based on evidence in the record. If an application is denied, the reason for denial shall be specified. The written decision, including the findings of fact, shall be provided to the owner and the Public Service Commission.

(b) Upon written extension, the Plan Commission may extend the ninety (90) day period in (a) above by no more than an additional ninety (90) days if the Plan Commission needs additional information in order to review the application, if the

applicant makes a material modification to the application or for other good cause specified by the Plan Commission. Any extension requires written authorization by the plan commission.

(c) The owner shall record a duplicate original of the decision with the Dane County register of deeds.

(d) Within ninety (90) days of the date a large wind energy system begins operating, the owner shall file, with the City and the Public Service Commission, an as-built description of the wind energy system, an accurate map of the wind energy system showing the location of all wind energy system facilities, geographic information system information showing the location of all wind energy system facilities, and current information identifying the owner of the wind energy system. Each wind turbine location shall have a unique identifier consistent with the information posted pursuant to (12)(a).

(18) Modification To Wind Energy System.

(a) An owner of a wind energy system may not make a material change in the approved design, location or construction of a wind energy system without the prior written approval of the Plan Commission.

(19) Complaints.

(a) An aggrieved person may make a complaint regarding failure by an owner to comply with an obligation under this ordinance.

(b) A complaint shall be made first to the owner of the wind energy system.

(c) An owner shall use reasonable efforts to resolve complaints regarding a wind energy system at the owner's expense.

(d) A complainant may petition the Plan Commission, pursuant to its continuing jurisdiction over a conditional use, for review of a complaint that is not resolved within forty-five (45) days of the day the owner receives the original complaint.

(e) The Plan Commission's decision on a complaint is subject to appeal under Wis. Stat. § 66.0401(5).

(f) Before construction of a large wind energy system, an owner shall provide written notice of the process for making complaints and obtaining mitigation measures to all residents and landowners within one-half (0.5) miles of any wind energy facility. The notice shall contain the requirements for submitting a complaint, a petition for review by the Plan Commission, and appeal to the Public Service Commission. The notice also shall contain the name and phone number of a contact person for the owner for the receipt of complaints. The owner also shall provide the Plan Commission with a copy of such notice.

(g) For large wind energy systems, when an owner receives a complaint, he/she shall provide the complainant with a copy of the notice required in (f) and within thirty (30) days of receiving the complaint, the owner shall provide an initial response to the complainant.

(h) An owner of a large wind energy system shall make a good faith effort to resolve complaints within forty-five (45) days of receiving a complaint and shall notify the Plan Commission of any complaints that have not been resolved.

(i) An owner of a large wind energy system shall maintain a log of all complaints received regarding the wind energy system. The log shall include the name and address of each complainant, the nature of each complaint, and the steps taken to resolve each complaint. An owner shall provide a copy of the complaint log to the Plan Commission on a monthly basis.

(20) Appeals.

(a) Any person aggrieved by the decision of the Plan Commission to approve, deny, or modify a wind energy system may appeal the decision to the Common Council pursuant to Sec 28.183(5)(b). If a person remains aggrieved following appeal to the Common Council, he/she may appeal to the Public Service Commission within

thirty (30) days of the Common Council decision. Alternatively, an aggrieved person may appeal directly to the Public Service Commission within 30 days of the Plan Commission decision to approve, deny, or modify a wind energy system. An owner who petitions for review by the Public Service Commission shall serve a copy of the petition on the City and on any other person specified in Wis. Admin. Code § PSC 2.07(3). Any person other than an owner who files a petition for review by the Public Service Commission shall service a copy of the petition on the owner, the City, and any other person specified in Wis. Admin. Code § PSC 2.07(3). The City shall make a copy of any such petition it receives available for public inspection and shall publish notice of such petition.

(Sec. 28.149 Cr. by ORD-14-00027, 2-18-14)

28.150 RESIDENTIAL DEVELOPMENT.

For all new residential development allowed by this chapter, the applicant shall be required to dedicate land for park and recreation purposes or pay a fee in lieu of land dedication in accordance with the current standards in Sec. 16.23(8)(f), MGO, and pay Park Impact Fees in accordance with Sec. 20.08, MGO. Credit shall be given for any prior dedication or fee paid under those sections.

(Sec. 28.150 Cr. by ORD-15-00013, 1-28-15; Am. by ORD-16-00073, 9-15-16)

SUBCHAPTER 28J: SUPPLEMENTAL REGULATIONS

28.151 APPLICABILITY.

Supplemental regulations are established to address the unique characteristics of certain land uses. The standards and conditions listed for land uses in this chapter are applicable to both permitted uses and uses permitted by conditional use permit, as specified for each zoning district, unless otherwise noted.

Accessory Buildings and Structures. Shall comply with Sec. 28.131, MGO. (Am. by ORD-17-00024, 2-20-17)

Accessory Dwelling Unit in the TR-P District.

(a) No more than one (1) accessory dwelling unit may be located on a lot.

(b) The lot shall be a corner lot or abut an alley.

(c) The lot shall have a minimum area of five thousand (5,000) square feet.

(d) The lot shall have a minimum width of fifty (50) feet for corner lots and sixty (60) feet for interior lots.

(e) An attached accessory dwelling unit shall be part of the single family dwelling on the same lot for the purpose of the bulk requirements of the district. Any secondary dwelling unit connected to the single-family dwelling is considered attached.

(f) A detached accessory dwelling unit shall be located only above a detached garage of the single-family dwelling on the same lot.

(g) A detached accessory dwelling unit shall be located a minimum of five (5) feet from a side or rear lot line, unless the lot is adjacent to an alley, in which case it shall be located a minimum of two (2) feet from the rear lot line.

(h) The height, lot area per dwelling unit, and usable open space requirements for detached accessory dwelling units shall be as specified for the district.

(i) The usable open space requirements for a detached accessory dwelling unit shall be fifty percent (50%) of the usable open space requirement in the district.

(j) The single-family dwelling on the lot shall be owner-occupied.

(k) The entryway to the accessory dwelling unit shall be connected to a street frontage with a paved walkway.

(l) The accessory dwelling unit shall have a separate entrance from the single-family dwelling.

Accessory Dwelling Unit in Districts Other than the TR-P District.

(a) Required Standards.

1. The principal dwelling or the accessory dwelling unit must be owner-occupied except that a temporary absence of up to six (6) months is allowed.
2. The principal dwelling must be a single-family detached dwelling.
3. No more than one (1) accessory dwelling unit may be located on a lot.
4. The number of occupants of the accessory dwelling unit shall not exceed one (1) family or two (2) unrelated individuals.
5. The accessory dwelling unit shall not be sold separately from the principal dwelling.
6. The maximum height of a detached building containing an accessory dwelling unit, including one built above a garage, shall be twenty-five (25) feet. Height shall be measured as a principal building pursuant to Sec. 28.134(1)(b).
7. The maximum size of an accessory dwelling unit shall be seventy-five percent (75%) of the principal dwelling's floor area, up to a maximum size of seven hundred (700) square feet.
8. The minimum setback requirements shall be those for accessory building or structures of the underlying zoning district.
9. Accessory dwelling unit entry ways within a rear or side yard shall be connected to a street frontage by a paved walkway or driveway.
10. The appearance or character of the principal building shall not be significantly altered so that its appearance is no longer that of a single-family dwelling.

(b) Suggested Guidelines.

1. The exterior finish material of an accessory dwelling unit shall match the type, size and placement of exterior finish material of the principal dwelling.
2. The roof pitch shall match the predominant roof pitch of the principal dwelling.
3. Trim and projecting eaves shall match those of the principal dwelling.
4. Windows shall match those in the principal dwelling in proportion (relationship of width to height) and orientation (horizontal or vertical).

Accessory Use: General Retail, Service Business, Restaurant, Coffee Shop, Tea House, Office, Professional and General. In the DR2 and UOR Districts, must be accessory to a multi-family residential use or a permitted commercial use, accessible to the public only through a lobby, and shall not exceed three thousand (3,000) square feet of floor area. (Cr. by ORD-13-00007, 1-15-13)

Adult Entertainment Establishment.

(a) Such establishments shall be licensed as provided in Section 9.05 of these ordinances.

(b) Exterior windows shall not be covered or made opaque in any way.

(c) No adult entertainment establishment shall be located within one thousand (1,000) feet of any church, synagogue, temple, mosque or any other place of worship, any lot in a residential district, either in the City of Madison or in a municipality adjacent to the City of Madison; any planned developments which allow residential dwelling units; any public park; any private or public pre-school, elementary, secondary, or vocational school; any public or private playground; any day care center; any public library; any youth recreation area including little league baseball fields, soccer fields, and YMCAs/YWCAs; or any other adult entertainment establishment.

(d) The distance requirement under subdivision (c) above shall be measured along a straight line from the nearest property line of any church, synagogue, temple, mosque or any other place of worship; any lot in a residential district, either in the City of Madison or in a municipality adjacent to the City of Madison; any planned developments which allow residential dwelling units; any public park; any private or public pre-school, elementary, secondary, or vocational school; any public or private playground; any day care center; any public library; any youth recreation area including little league baseball fields, soccer fields, and YMCAs/YWCAs; or any other adult entertainment establishment or adult entertainment tavern to the closest property line of the adult entertainment establishment.

(e) No material referenced under the definition of Adult Book or Video Store shall be placed in any exterior window, provided that material which is not so referenced may be placed in a window.

(f) An adult entertainment establishment may have only one (1) nonflashing business sign, which sign may only indicate the name of the business and identify it as an adult entertainment establishment.

Adult Entertainment Tavern.

(a) No such establishment shall be located within five hundred (500) lineal feet of a church, synagogue, temple, mosque or any other place of worship; any lot in a residence district, either in the City of Madison or in a municipality adjacent to the City of Madison; any planned developments which allow residential dwelling units; any public park, any private or public pre-school, elementary, secondary, or vocational school; any public or private playground; any day care center; any public library; any youth recreation area including little league baseball fields, soccer fields, and YMCAs/YWCAs; or any tavern, or any other adult entertainment tavern or adult entertainment establishment.

(b) The distance requirement under subdivision (a) above shall be measured along a straight line from the nearest property line of any church, synagogue, temple, mosque or any other place of worship; any lot in a residence district, either in the City of Madison or in a municipality adjacent to the city of Madison; any planned developments which allow residential dwelling units; any public park; any private or public pre-school, elementary, secondary, or vocational school; any private or public playground; any day care center, any library; any youth recreation area including little league baseball fields, soccer fields, and

YMCAs/YWCAs; or any tavern, or any other adult entertainment tavern or adult entertainment establishment to the closest property line of the adult entertainment tavern.

(c) Said tavern shall acquire and maintain an adult entertainment tavern license pursuant to Sec. 38.11 of these ordinances prior to issuance of an occupancy permit.

Adult Family Home.

(a) The loss of any state license or permit by an adult family home shall result in an automatic revocation of that facility's use permit.

(b) The applicant must disclose in writing the capacity of the adult family home

(c) No new adult family home shall be located within two thousand five hundred (2,500) feet of an adult family home or existing community living arrangement, unless the persons served are disabled or handicapped under the Fair Housing Amendment Act (FHAA) or the Americans with Disabilities Act (ADA) and are living within the adult family home because of their disability or handicap, or unless approved as a conditional use.

(d) An adult family home may contain a second kitchen for privacy of staff, but such kitchen facilities shall be dismantled and removed when the arrangement is discontinued.

(e) No conditional use approved under this section shall be transferable to another location or permit-holder.

Agriculture - Animal Husbandry.

(a) In the UA District, a Management Plan that addresses how to minimize impacts on surrounding uses and natural systems is required for:
1. Off-street parking of more than ten (10) vehicles.
2. Processing of food produced on site.
3. Use of heavy equipment, such as tractors
4. Application of agricultural chemicals, including fertilizers and pesticides.

(b) In the UA District, conditional use approval and a Management Plan are required for:
1. Spreading of manure.
2. Spraying of agricultural chemicals, including fertilizers and pesticides.
3. Use of heavy equipment, such as tractors, before 7:00 A.M. and/or after 10:00 P.M.

Agriculture - Cultivation.

(a) In the UA District, a Management Plan that addresses how to minimize impacts on surrounding uses and natural systems is required for:
1. Off-street parking of more than ten (10) vehicles.
2. Processing of food produced on site.
3. Use of heavy equipment, such as tractors.
4. Application of agricultural chemicals, including fertilizers and pesticides.

(b) In the UA District, conditional use approval and a Management Plan are required for:
1. Spreading of manure.
2. Spraying of agricultural chemicals, including fertilizers and pesticides.
3. Use of heavy equipment, such as tractors, before 7:00 A.M. and/or after 10:00 P.M.

Agriculture - Intensive. To calculate number of animal units, use the most current Animal Units Calculation Worksheet of the Department of Natural Resources. This worksheet is used to determine whether an operation will reach or exceed one thousand (1,000) animal units, in which case a WPDES permit is required under Wis. Admin. Code ch. NR 243.

Animal Boarding Facility, Kennel, Animal Shelter.

(a) Outdoor dog runs or exercise pens shall be located at least two hundred (200) feet from a residential use or district.

(b) Any outdoor portion of an animal boarding facility, kennel, shelter, or animal daycare shall be screened from view from adjacent property by a solid fence, hedge or similar plant material not to exceed six (6) feet in height.

Animal Day Care. Applicants shall submit at the time of permit application written operating procedures, such as those recommended by the American Boarding and Kennel Association

(ABKA) or the American Kennel Club (AKC). Such procedures, which shall be followed for the life of the business, must address the identification and correction of animal behavior that impacts surrounding uses, including excessive barking.

Assisted Living Facility, Congregate Care Facility, Skilled Nursing Facility.

(a) The yard requirements for multi-family use in the district apply.

(b) A facility established after the effective date of this ordinance within a predominantly residential or mixed-use area shall have vehicular access to a collector or higher classification street.

(c) The site shall contain a minimum of one hundred fifty (150) square feet of usable open space per resident, consisting of outdoor seating areas, gardens and/or recreational facilities. Public parks or plazas within three hundred (300) feet of the site may be used to meet this requirement.

(d) An appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(e) The owner shall submit a Management Plan for the facility and a floor plan showing sleeping areas, emergency exits and bathrooms.

ATM.

(a) In the DC, UMX, LMX, NMX and TSS districts, no more than one ATM may be installed per street frontage on a zoning lot.

(b) In the DC, UMX, LMX, NMX and TSS districts, ATMs must be integrated into building design. Construction or modifications to accommodate an ATM shall be made in a manner consistent with the overall design of a façade.

(c) In the DC, UMX, LMX, NMX and TSS districts, no storefront glass shall be removed to accommodate the installation of an ATM, unless the storefront glass is ninety- (90) degrees perpendicular to the sidewalk, and the ATM is being installed in an existing alcove.

(d) In the DC, UMX, LMX, NMX and TSS districts, the exterior face, including any cabinet or casing, of an ATM shall not exceed eight (8) square feet in size.

(Cr. by ORD-13-00147, 9-11-13)

Automobile Body Shop, Automobile Sales and Rental, Automobile Service Station, Automobile Repair Station, Convenience Store.

(a) All automobile servicing and repair activities shall be carried on within an enclosed building.

(b) No automobile servicing and repair activities may take place between the hours of 7:00 p.m. and 7:00 a.m. unless all of the building's windows and doors are closed.

(c) A convenience store shall not be located within one thousand nine hundred eighty (1,980) feet distance of three (3) or more existing convenience stores, as measured along the center lines of streets.

(d) The following activities and equipment are allowed outside if located within the rear yard and building envelope, and at least fifty (50) feet from a residential zoning district:

1. Storage of vehicle parts and refuse.
2. Temporary storage of vehicles during repair and pending delivery to the customer.
3. Vacuuming and cleaning.

(e) Outside storage or parking of any disabled, wrecked, or partially dismantled vehicle is not allowed for a period exceeding ten (10) days during any thirty (30) day period.

(f) No building, structure, canopy, gasoline pump, or storage tank shall be located within twenty-five (25) feet of a residential zoning district.

(g) In the NMX, DC, UMX and TSS Districts, the requirement in (g) above, may be modified as part of the conditional use approval so that pump islands are located in front of the building if provides more effective circulation, aesthetics or buffering of neighboring uses.

(Am. by ORD-13-00088, 5-29-13; ORD-17-00021, 2-20-17)

(h) (Rep. by ORD-15-00026, 3-11-15)
(Cr. by ORD-14-00037, 3-6-14)

Bed and Breakfast Establishment.

(a) A maximum of eight (8) rooms shall be rented.
(b) The establishment shall have a current license from Public Health Madison and Dane County.
(c) The only meal that may be served is breakfast to registered guests.
(d) Fire protection shall be approved by the Fire Department, and may be more restrictive than State requirements.
(e) Length of stay shall not exceed twenty-one (21) consecutive days for each registered guest.
(f) No more than twenty (20) tourists or transients shall be allowed to rent at one time.
(g) The owner of the residence shall occupy the residence at the time of rental.

(Am. by ORD-13-00146, 9-11-13; ORD-13-00185, 11-5-13; ORD-15-00009, 1-28-15)

Bicycle-Sharing Facility. Shall meet all requirements of Sec. 10.33, MGO.

Brewpub.

(a) Maximum capacity to be established by the Director of Building Inspection Division, not to exceed the number of available seats, plus staff, plus a reasonable number of people waiting for seats.
(b) Brewpubs shall not hold an entertainment license under Sec. 38.06(11).
(c) Shall at all times operate consistent with and according to the requirements of a valid alcohol license issued by the City.

(Cr. by ORD-14-00083, 4-16-14)

Buildings or Structures Exceeding Ten Thousand (10,000) Square Feet in Floor Area.

(a) In any residential district, building floor area, bulk, height and massing may be limited as part of the conditional use approval in order to ensure compatibility with surrounding uses.
(b) In any residential district, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

Caretaker's Dwelling.

(a) Shall be accessory only to a non-residential use.
(b) Shall meet all dimensional requirements of the district.

Car Wash.

(a) The car wash shall be completely enclosed when not in operation.
(b) Any access drive shall be located at least thirty (30) feet from any public street intersection, measured from the interior curb line commencing at the intersection of the street.
(c) Any car wash line exit shall be at least thirty (30) feet from any street line.
(d) The car wash shall be screened along all property lines with a minimum six-foot high (6) masonry or decorative wood fence. Along any property line that abuts a residential zoning district, an additional planted area shall be provided, with a minimum width of eight feet and planted with a minimum of one shade tree per fifty (50) linear feet and one shrub per four (4) linear feet.
(e) Sound from any speakers used on the premises shall not be audible at the boundary of any surrounding residential district or on any residential property.
(f) Water from the carwash shall not drain across any sidewalk or into a public right-of-way.

Clear-Cutting of Timber. The applicant shall demonstrate that clear-cutting will improve the level of environmental protection on the subject property or is unavoidable due to grading or other development requirements. Clear-cut areas shall be replanted; replanting may occur in any location on the property.

Cohousing Community.

(a) Any housing type that is a conditional use within the zoning district may be located in a cohousing community with conditional use approval.
(b) Any use allowed within the zoning district may be located in a cohousing community.

(c) Lot area requirements may be combined and shared among cohousing units with conditional use approval provided that the overall density remains consistent with minimum lot area standards.

(d) Usable open space may be combined and shared among cohousing units.

Colleges and Universities. For uses established in employment districts, the applicant shall submit a Traffic Demand Management plan to be approved by the Traffic Engineer and to be kept on file with the Zoning Administrator. (Cr. by ORD-16-00097, 11-9-16)

Community Event.

(a) There shall be no alteration to the site or alteration of any permanent structure.

(b) No event shall last more than one-hundred eighty (180) days per calendar year.

(c) An event lasting more than forty-five (45) consecutive days or occurring more than twenty-six (26) days in a calendar year shall require a conditional use permit.

(d) All events shall require temporary use permit.

(Cr. by ORD-13-00054, 4-24-13)

Community Living Arrangement (CLA) Serving up to Eight (8) Residents.

(a) The loss of any state license or permit by a CLA shall result in an automatic revocation of that facility's use permit.

(b) The applicant shall disclose in writing the capacity of the community living arrangement.

(c) No new community living arrangement shall be located within two thousand five hundred (2,500) feet of an existing community living arrangement, except as provided under (e) below or unless approved as a conditional use.

(d) The total capacity of all CLAs within an aldermanic district shall not exceed twenty-five (25) persons or one percent (1%) of the population, whichever is greater, of such district, except as provided under (e) below, or unless approved as a conditional use.

(e) No separation distance is required and the district percentage specified above does not apply if the persons served are disabled or handicapped under the Fair Housing Amendment Act (FHAA) or the Americans with Disabilities Act (ADA) and are living within the CLA because of their disability or handicap.

(f) No conditional use permit under this section shall be transferable to another location or person.

Community Living Arrangement (CLA) Serving Nine to Fifteen (9-15) Residents.

(a) The loss of any state license or permit by a CLA shall result in an automatic revocation of that facility's use permit.

(b) The applicant shall disclose in writing the capacity of the community living arrangement.

(c) No new community living arrangement shall be located within two thousand five hundred (2,500) feet of an existing community living arrangement, unless approved as a conditional use.

(d) The total capacity of all CLAs within an aldermanic district shall not exceed twenty-five (25) persons or one percent (1%) of the population, whichever is greater, of such district, unless approved as a conditional use.

(e) All CLAs in the SR-C1, SR-C2, SR-C3, TR-CI, TR-C2, TR-C3, and TR-R districts require conditional use approval, regardless of the distance from other CLAs or the density of CLAs within the aldermanic district. (Am. by ORD-15-00081, 8-12-15)

(f) No conditional use permit under this section shall be transferable to another location or person.

(g) The bulk requirements for multi-family uses in the district apply. For purposes of calculating bulk requirements, one (1) bedroom is equal to one (1) lodging room and five (5) lodging rooms is equal to one (1) dwelling unit. If the number of lodging rooms is not divisible by five (5), round up to the nearest dwelling unit for the purpose of determining bulk requirements. For example, six (6) lodging rooms equals two (2) dwelling units. (Cr. by ORD-16-0049, 5-25-16)

Community Living Arrangement (CLA) Serving More Than 15 Residents.

(a) The loss of any state license or permit by a CLA shall result in an automatic revocation of that facility's use permit.
(b) The applicant must disclose in writing the capacity of the community living arrangement.
(c) No community living arrangement shall be located within two thousand five hundred (2,500) feet of an existing community living arrangement.
(d) The total capacity of all CLAs within an aldermanic district shall not exceed twenty-five (25) persons or one percent (1%) of the population, whichever is greater, of such district.
(e) All CLAs serving more than fifteen (15) residents require conditional use approval, regardless of the distance from other CLAs or the density of CLAs within the aldermanic district.
(f) No conditional use permit under this section shall be transferable to another location or person.

(Am. by ORD-15-00081, 8-12-15)

(g) The bulk requirements for multi-family uses in the district apply. For purposes of calculating bulk requirements, one (1) bedroom is equal to one (1) lodging room and five (5) lodging rooms is equal to one (1) dwelling unit. If the number of lodging rooms is not divisible by five (5), round up to the nearest dwelling unit for the purpose of determining bulk requirements. For example, six (6) lodging rooms equals two (2) dwelling units. (Cr. by ORD-16-00049, 5-25-16)

Concrete, Asphalt, and Rock Crushing Facilities.

(a) All building, structures, and activity areas shall be located a minimum of three hundred (300) feet from all property lines of the site.
(b) A site and vicinity plan shall be submitted with an application and shall contain the following:
    1. A description of natural features, including wetlands, water bodies and major topographic features located on the property and within three hundred fifty (350) feet of the site.
    2. A description of the proposal including type and amount of material to be removed, overview of planned daily operations including equipment and vehicles, and a discussion of how the proposed activities compare to land uses within one thousand (1000) feet of the site.
    3. A description of any potential environmental hazard due to existing or proposed land uses, including soil, water, and air contamination.
(c) A dust management plan shall be submitted with an application. This plan shall require access drives and roads within the site to be sprayed with dust suppressants as needed to control fugitive dust. Access drives also shall be cleaned at appropriated intervals consistent with City standards, or as otherwise determined by conditional use approval.
(d) A sound attenuation plan shall be submitted with an application and shall describe the sources of sound and compliance with applicable sound and noise regulation.
(e) A vibration-dampening plan shall be submitted with an application showing compliance with all applicable vibration regulations.
(f) A drainage plan for storm water management and runoff shall be submitted with an application.
(g) A traffic plan shall be submitted with an application describing the number of daily truck trips anticipated by the use. It also shall identify the principal access route(s) to the facility and its traffic impact on the surrounding area.
(h) A site restoration plan shall be submitted with an application and shall include detailed grading and revegetation plans, as well as a timetable for such restoration.
(i) A schedule of hours of operation shall be submitted with an application.

Contractor's Business With Showroom or Workshop. All activities shall be carried out in an enclosed space.

Contractor's Yard. In the TE district, outdoor storage shall be located to the rear of the principal building. In all districts, outdoor storage shall be screened from abutting residential uses with a

building wall or solid, commercial-grade fencing, wall, evergreen hedge, or equivalent material. All screening shall be at least six (6) feet in height and no more than seven (7) feet in height. Screening along district boundaries, where present, may provide all or part of the required screening.

Convent, Monastery, Similar Residential Group.

(a) The use shall be accessory to a place of worship. The use may be located on a separate zoning lot where separated by a public right-of-way from the primary use.

(b) The yard requirements for multi-family use in the district apply.

(c) A facility established after the effective date of this ordinance within a predominantly residential or mixed-use area shall have vehicular access to a collector or higher classification street.

(d) The site shall contain a minimum of one hundred fifty (150) square feet of usable open space per resident, consisting of outdoor seating areas, gardens and/or recreational facilities. Public parks or plazas within three hundred (300) feet of the site may be used to meet this requirement.

(e) Where the principal use is a conditional use, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

Correctional Facility. Within the Conservancy District, a correctional facility shall be located at least three hundred (300) feet from any residentially-zoned property.

Day Care Center.

(a) The loss of any state license or permit by a day care center shall result in automatic revocation of that facility's use permit.

(b) A designated area for the short-term parking of vehicles engaged in loading and unloading children shall be provided. The designated area shall be located as close as practical to the principal entrance of the building and shall be connected to the building by a sidewalk.

(c) Where the use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

Day Care Home, Family.

(a) The family day care home shall be the principal place of residence of the provider, as defined in Wis. Admin. Code ch. DCF 250.

(b) Conditional use approval is required if the licensee, as defined in Wis. Admin Code ch. DCF 250, does not reside at, or have its principal place of business at, the family day care home.

(c) No more than two employees who do not reside in the dwelling are permitted.

(Am. by ORD-14-00015, 1-29-14)

Daytime Shelter.

(a) The use shall be operated by a religious institution or a non-profit organization.

(b) The hours of operation shall be limited to 6:30 a.m. to 6 p.m., unless modified under conditional use approval.

(c) An appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(d) The owner shall submit a Management Plan for the facility:

1. Required management plan contents: floor plan showing sleeping areas, emergency exits and bathrooms, hours of operation, staffing, management structure, and capacity.
2. Recommended management plan contents: parking, bicycle parking, storage of belongings, trash storage/removal, transportation support.

(Cr. by ORD-14-00115, 7-11-14)

Dependency Living Arrangement.

(a) The owner of the dwelling must continue to reside in the building. The use permit issued under this paragraph is not transferable to another owner or occupant.

(b) The exterior appearance of the building shall remain generally the same. Any new entrance shall be placed on the side or rear facade of the building. Additions shall not increase square footage by more than ten percent (10%).

(c) Upon termination of the specific occupancy, all second kitchen facilities installed for this use shall be dismantled and removed from the premises within six (6) months unless an extension is granted because of potential re-occupancy.

(d) A letter of approval issued by the Zoning Administrator shall be recorded at the Dane County Register of Deeds Office.

Dormitory.

(a) The use shall be within one-quarter (¼) mile of the campus of the institution it serves, unless another location is established in a campus master plan or conditional use approval.

(b) The yard requirements for multiple-family use in the district apply when the use is not located on a campus.

(c) On-site services shall be for residents of the facility only.

(d) All new construction or additions to existing buildings shall be compatible with the scale and character of the surroundings, to the extent practical. An appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(e) The owner shall submit a Management Plan for the facility and a floor plan showing sleeping areas, emergency exits and bathrooms.

Dwelling Units in Mixed-Use Buildings.

(a) In the LMX District, there shall be no more than two (2) dwelling units per lot.

(b) In the NMX District, more than eight (8) dwelling units requires conditional use approval.

(c) In the TSS, CC-T and MXC Districts, more than twenty-four (24) dwelling units requires conditional use approval. (Am. by ORD-16-00039, 4-8-16)

(d) In the LMX, NMX, TSS and CC-T Districts, for buildings with a street-facing width of forty (40) feet or less, the entire ground floor frontage facing the primary street shall be non-residential. Less non-residential frontage requires conditional use approval.

(e) In the LMX, NMX, TSS and CC-T Districts, for building with a street-facing width greater than forty (40) feet, at least seventy-five percent (75%) of the ground-floor frontage facing the primary street, including all frontage at a street corner, shall be non-residential. Less non-residential frontage requires conditional use approval.

(f) In the LMX, NMX, TSS and CC-T Districts, at least seventy-five percent (75%) of the ground floor area shall be non-residential use(s). Less than seventy-five percent (75%) non-residential ground floor area requires conditional use approval.

(g) No residential use shall be allowed on the ground floor of buildings on King Street; South Pinckney Street; the 10 through 500 blocks of East Wilson Street; the 100 blocks of West and East Mifflin Streets; the 100 blocks of West and East Main Streets; and on the Capitol Square, which is formed by the 10 blocks of East and West Mifflin, the 10 blocks of North and South Pinckney, the 10 blocks of East and West Main, and the 10 blocks of North and South Carroll Streets.

(Am. by ORD-13-00135, 8-14-13)

Electric Substations, Gas Regulator Stations. A landscape plan for these uses shall be approved by the Director of Planning and Community and Economic Development where those uses are permitted and by the Plan Commission when conditional use approval is required.

Emergency Electric Generator.

(a) The electric output shall not exceed three thousand (3,000) kilowatts and the generator shall be operated a maximum of two hundred (200) hours per year.

(b) The generator shall be located and screened to reduce its visual impact when viewed from neighboring property and to be compatible with neighboring structures and the character of the community. Screening materials, landscaping, or fencing shall be similar in appearance to those used for the principal structure on the zoning lot.

(Am. by ORD-16-00093, 11-9-16)

Farmers Market.

(a) Within the NMX, DC and UMX Districts, a farmer's market with more than fifteen (15) vendor stalls requires conditional use approval.

(b) Within any district, a permanent facility established after the effective date of this ordinance shall have vehicular access to a collector or higher classification street.

(c) Within any residential district, a farmer's market shall be accessory to a non-residential use and located in the parking lot of such use.

(d) In the EC, IG, and IL Districts, a farmer's market shall only be an accessory use.

Food and Beverage Uses. (R. by ORD-14-00132, 8-13-14)

Garden Center, Greenhouse, Nursery.

(a) In the NMX, TSS and MXC Districts, there shall be no exterior storage of bulk materials such as dirt, sand, gravel and building materials.

(b) In all other districts bulk materials shall not be stored within the front yard setback and shall meet standards for outdoor storage and display.

General Retail.

(a) Except as allowed in (b), in the TE and SE Districts, general retail uses shall not exceed five thousand (5,000) square feet in floor area.

(b) Within employment districts, general retail uses shall not exceed ten thousand (10,000) square feet in floor area, unless such uses are part of a planned multi-use site.

Golf Course. Club houses and maintenance buildings shall be located a minimum of three hundred (300) feet from any residentially-zoned property.

Handgun Shop.

(a) Shop shall be located in a building constructed of concrete or masonry walls.

(b) No handgun shop shall be located within one thousand (1000) feet of any church, synagogue, temple, mosque or other place of worship; a lot in a residence district, either in the City of Madison or in a municipality adjacent to the City of Madison; a Planned Mobile Home Park District, Planned Development District with dwelling units; a public or private playground; a day care center; a public library, a youth recreation area, including little league baseball fields, soccer fields or YMCA/YWCA.

(c) No handgun shop shall be located in the same building where alcohol beverages are sold.

(d) No handgun shop shall be located in the same building where any patron thereof under the age of eighteen (18) years may enter, unless accompanied by a parent, guardian or adult spouse eighteen (18) years of age or over.

Home Occupation.

(a) The occupation shall be conducted within a dwelling and not in an accessory building, unless authorized by the Plan Commission as a conditional use.

(b) The occupation shall be clearly incidental and secondary to the principal use of the dwelling for dwelling purposes so as to protect the integrity and residential character of neighborhoods.

(c) Only members of the immediate family residing on the premises or occupants of the dwelling may be employed, unless authorized by the Plan Commission as a conditional use.

(d) A home occupation may include small offices, service establishments or homecrafts which are typically considered accessory to a dwelling unit.

(e) A home occupation shall not involve on-site wholesaling, manufacturing or assembly, a limousine, towing or cartage business or auto service or repair for any vehicles other than those registered to residents of the property.

(f) No mechanical equipment shall be used except that which is used for purely domestic or household purposes, unless authorized by the plan commission as a conditional use.

(g) No products shall be kept or commodities sold, other than those made on the premises, unless authorized by the plan commission as a conditional use.

(h) Samples may be kept but not sold on the premises.

(i) No more than twenty-five percent (25%) of the floor area of one story of the dwelling may devoted to such home occupation.

(j) The entrance to the space devoted to the home occupation shall be from within the building.

(k) No structural alterations or enlargements shall be made to the dwelling for the primary purpose of conducting the home occupation.

(l) The only exterior indication of the home occupation shall be a non-illuminated nameplate a maximum of two (2) square feet in area.

(m) A home occupation of an individual with a disability, who is incapable of employment outside the home by reason of significant physical or mental disability, as verified by a signed physician statement verifying the disability, is exempt from the requirements of subparagraphs (g) through (k).

Hospital.

(a) The facility shall have vehicular access to a collector or higher classification street.

(b) Where the use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(c) The boundaries of the institution shall be as defined in the conditional use permit or Master Plan. The institution that is defined by the boundaries shall be a minimum of three (3) acres.

Housing Cooperative.

(a) In the SR-C3 District, buildings with more than one (1) dwelling unit may be converted for use as a Housing Cooperative if the occupancy is the lesser of the number of legal bedrooms prior to conversion or the legal occupancy allowed at the time of conversion, except that any occupancy greater than fourteen (14) requires conditional use approval.

(b) In the SR-V1, SR-V2, NMX, TSS, and CC-T Districts, buildings with more than one (1) dwelling unit may be converted for use as a Housing Cooperative if the occupancy is the lesser of the number of legal bedrooms prior to conversion or the legal occupancy allowed at the time of conversion, except that any occupancy greater than twenty (20) requires conditional use approval.
(Am. by ORD-14-00085, 5-7-14)

(c) In the TR-V1, TR-V2, NMX, TSS, and CC-T Districts, a Housing Cooperative may locate in a single-family dwelling with conditional use approval.

(d) In the TR-V1, TR-V2, TR-U1, TR-U2, DC, UOR, UMX, DR1 and DR2 Districts, Housing Cooperatives may locate in any single-family dwelling or convert a building with more than one (1) dwelling unit if the occupancy equals the number of legal bedrooms prior to a change in use to a Housing Cooperative. Occupancy greater than the legal number of bedrooms prior to a change in use requires conditional use approval. (Am. by ORD-14-00085, 5-7-14)

(e) In the TR-C4 District, housing cooperatives are allowed only in the area bounded by South Ingersoll Street on the West, Lake Monona on the South, Thornton Avenue on the East and the mid-block line between Jenifer Street and Williamson Street on the North. Buildings with more than one (1) dwelling unit may be converted for use as a housing cooperative if the occupancy is the lesser of the number of legal bedrooms prior to conversion or the legal occupancy allowed at the time of conversion, except that any occupancy greater than fourteen (14) requires conditional use approval. Housing cooperatives may locate in single-family homes with conditional use approval and they shall meet the above occupancy limits.

(f) When Housing Cooperatives are established within single-family dwellings, the single-family appearance and function of the building shall not be altered through the addition of entrances or kitchens.

(g) When two-family, three-family and multi-family buildings are converted into Housing Cooperatives, the entire building must remain a Housing Cooperative while any portion of it is so occupied.

(h) The bulk requirements for multi-family uses in the district apply. In districts where housing cooperatives are allowed but do not allow multi-family uses, the bulk requirements for single-family uses in the district apply. (Cr. by ORD-16-00049, 5-25-16)

Indoor Recreation. In the NMX and TSS Districts, the facility shall be located at least fifty (50) feet from the boundary of any residential use or district.

Junkyard. This use is retroactive to January 1, 1994.

Keeping of Chickens.

(a) Keeping of up to four (4) chickens is allowed as an accessory use on lots with up to four (4) dwelling units.

(b) Keeping of up to six (6) chickens is allowed as an accessory use to a museum or school or day care center. (Am. by ORD-16-00074, 9-15-16)

(c) Keeping of roosters is prohibited.

(d) Slaughter of chickens is prohibited on site.

(e) The chickens shall be provided with a covered enclosure and must be kept in the covered enclosure or a fenced enclosure at all times.

(f) The enclosure shall be located at least twenty-five (25) feet from any residential structure on an adjacent lot.

(g) The owner, operator or tenant must obtain a license under Sec. 9.52, MGO.

(h) The applicant for the license must notify all residents of the property and the owner or operator of the property if the applicant is not the owner or operator. Notification is not required for renewal of a license.

Keeping of Honeybees.

(a) Except as provided in sub. (i) below, no more than six (6) hives may be located on a zoning lot.

(b) No hive shall exceed twenty (20) cubic feet in volume.

(c) No hive shall be located closer than three (3) feet from any property line.

(d) No hive shall be located closer than ten (10) feet from a public sidewalk or twenty-five (25) feet from a principal building on an adjoining lot.

(e) A constant supply of water shall be provided for all hives.

(f) A flyway barrier at least six (6) feet in height shall shield any part of a property line that is within twenty-five (25) feet of a hive. The flyway barrier shall consist of a wall, fence, dense vegetation or a combination thereof, and it shall be positioned to transect both legs of a triangle extending from an apex at the hive to each end point of the part of the property line to be shielded.

(g) The owner, operator or tenant shall obtain a license under Sec. 9.53, MGO.

(h) The applicant for the license shall notify all residents of the property and the owner or operator of the property if the applicant is not the owner or operator. Notification is not required for renewal of a license.

(i) In the Employment and Special Use Districts, no more than six (6) hives may be located on a lot unless a principal use on the lot is for the keeping of honeybees.

(Am. by ORD-15-00080, 8-12-15)

Laboratories - Research, Development and Testing. No manufacturing shall be conducted on the premises except for experimental or testing purposes.

Land and Water Preserves. Activities are limited to the following:

(a) Arboretums, environmental education centers.

(b) Harvesting of wild crops, such as marsh hay, ferns, moss, berries, tree fruits and tree seeds.

(c) Fishing and trapping.

(d) Boating and swimming.

(e) Raising of fish and game animals.

(f) Similar low-impact educational and recreational activities as determined by the Zoning Administrator.

(g) Sustained forestry yield.

Lease of Off-Street Parking Facilities Accessory to a Nonresidential Use to Persons Not Using the Principal Use:

(a) The parking facilities shall meet the standards of this Chapter 28 and Chapter 10 of the Madison General Ordinances.

(b) A certificate of occupancy shall be issued by the office of the Director of the Building Inspection Division prior to commencing the rental.

Lease of Off-Street Parking Facilities Accessory to a Residential Use to Non-Tenants.

(a) The lessee shall reside within a block, all or a portion of which is within fifteen hundred (1500) feet of the parking facility.

(b) Adequate useable open space shall be provided for any residential use located on the same zoning lot, except for lots in the Central Area.

(c) Occupants of the principal use shall have first right of refusal for the parking facilities.

(d) The lessee shall provide the owner of the facility documentation establishing his/her place of residence.

(e) All new parking facilities shall comply with City standards for design, paving, and screening.

Library, Museum. A library or museum established after the effective date of this ordinance within a predominantly residential area shall have vehicular access to a collector or higher classification street.

Limited Production and Processing. All such uses shall be compatible with adjacent nonindustrial uses and be accompanied by a retail component. (Am. by ORD-15-00124, 11-11-15)

Limited Retail Use of a Landmark Site or Building. A designated landmark site or building may be used for general retail, office use, or service business not exceeding five thousand (5,000) square feet in floor area, provided that:

(a) The owner of the property agrees to maintain the architectural and historical integrity and significance of said landmark or landmark site during the tenure of such conditional use;

Live/Work Unit.

(a) The work space component shall be located on the first floor or basement of the building, with an entrance facing the primary abutting public street.

(b) The dwelling unit component shall be located above or behind the work space, and maintain a separate entrance located on the front or side facade and accessible from the primary abutting public street.

(c) The office or business component of the unit shall not exceed fifty percent (50%) of the total floor area of the unit. (Am. by ORD-15-00033, 4-8-15)

(d) The business component of the building may include offices, small service establishments, homecrafts which are typically considered accessory to a dwelling unit, or limited retailing associated with fine arts, crafts, or personal services. The business component shall be limited to those uses otherwise permitted in the district which do not require a separation from residentially zoned or occupied property, or other protected use. It shall not include a wholesale business, a manufacturing business, a commercial food service requiring a license, a limousine business or auto service or repair for any vehicles other than those registered to residents of the property.

(e) In the TE District, new residential uses, whether in new or existing buildings shall not be located where potential nuisances exist, including but not limited to: excessive vibration, dust, noise, light, glare, smoke, odor, or truck traffic.

(f) In the TE District, new residential uses shall be adequately separated or buffered from adverse impacts from existing industrial uses.

(Am. by ORD-13-00007, 1-15-13)

Lodge, Private Club, Reception Hall. Service of food and intoxicating beverages allowed when licensed.

Lodging House, Fraternity or Sorority.

(a) The bulk requirements for multi-family use in the district apply. For purposes of calculating bulk requirements, one (1) bedroom is equal to one (1) lodging room and five (5) lodging rooms is equal to one (1) dwelling unit. If the number of lodging rooms is not divisible by five (5), round up to the nearest dwelling unit for the purpose of determining bulk requirements. For example, six (6) lodging rooms equals two (2) dwelling units. (Am. by ORD-16-00049, 5-25-16)

(b) All new construction or additions to existing buildings shall be compatible with the scale and character of the surroundings.

(c) The owner shall submit a Management Plan for the facility and a floor plan showing sleeping areas, emergency exits and bathrooms.

Management Office, Restaurant, Limited Retail or Recreation Facilities Within a Multi-Family Building (Within Residential Districts).

(a) The use shall primarily serve building residents rather than the general public.

(b) Access to the use shall be from within the building.

(c) Size of the establishment may be limited as part of the conditional use approval.

Market Garden.

(a) Submission of a Management Plan to the Zoning Administrator, Alderperson of the district where the garden is located, Public Health Madison and Dane County, and any neighborhood and/or business association that serves the area where the garden is located for the following activities as part of a market garden:

1. Animal husbandry.
2. Off-street parking of more than ten (10) vehicles.
3. Processing of food produced on site.
4. Spreading of manure.
5. Application of agricultural chemicals, including fertilizers and pesticides.
6. Use of heavy equipment such as tractors.

(Am. by ORD-15-00009, 1-28-15)

Mission House (Accessory).

(a) The use shall be accessory to a religious institution or a non-profit organization.

(b) The yard requirements for multi-family use in the district apply.

(c) A facility established after the effective date of this ordinance within a predominantly residential or mixed-use area shall have vehicular access to a collector or higher classification street.

(d) Where the principal use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(e) The owner shall submit a Management Plan for the facility:

1. Required management plan contents: floor plan showing sleeping areas, emergency exits and bathrooms.
2. Recommended management plan contents: parking, bicycle parking, storage of belongings, trash storage/removal, transportation support.

(Am. by ORD-14-00115, 7-11-14)

Mission House (Principal Use).

(a) The use shall be operated by a religious institution or a non-profit organization.

(b) The yard requirements for multi-family use in the district apply.

(c) An appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(d) The owner shall submit a Management Plan for the facility:

1. Required management plan contents: floor plan showing sleeping areas, emergency exits and bathrooms.

2. Recommended management plan contents: parking, bicycle parking, storage of belongings, trash storage/removal, transportation support.

(Cr. by ORD-14-00115, 7-11-14)

Mobile Grocery Store.

(a) The vehicle must be owned and operated by a non-profit entity.
(b) There is a principal use on the zoning lot.
(c) The vehicle location on the zoning lot shall be approved by the Traffic Engineer and the Zoning Administrator.
(d) A waiver or modification of the off-street parking requirements for the principal use on the zoning lot has been obtained.
(e) Hours of operation shall be between 7:00 a.m. and 8:00 p.m.

Motor Vehicle Salvage Yard, Scrap Yard.

(a) Vehicle salvage uses shall be located on sites which are suitable from a topographic standpoint, so that views at the ground elevation up to a point four hundred (400) horizontal feet away will be adequately screened with fences and buffer areas surrounding the use.
(b) All material not stored in a completely enclosed building shall be enclosed with a solid fence which is six (6) to ten (10) feet high and located on or inward from the established setback lines.
(c) No materials shall be placed on the property that would exceed a height equal to the vertical plane extending from the top of the approved fence.
(d) Hours of outside activity shall be limited to 7:00 a.m. until 8:00 p.m. and shall follow the City's noise regulations.

Multi-Family Dwelling.

(a) In the TE District, new residential uses, whether in new or existing buildings, shall not be located where potential nuisances exist, including but not limited to: excessive vibration, dust, noise, light, glare, smoke, odor, or truck traffic.
(b) In the TE District, new residential uses shall be adequately separated or buffered from adverse impacts from existing industrial uses.
(c) In the NMX District, a multi-family dwelling shall contain no more than twelve (12) dwelling units.
(d) No residential use shall be allowed on the ground floor of buildings on King Street; South Pinckney Street; the 10 through 500 blocks of East Wilson Street; the 100 blocks of West and East Mifflin Streets; the 100 blocks of West and East Main Streets; and on the Capitol Square, which is formed by the 10 blocks of East and West Mifflin, the 10 blocks of North and South Pinckney, the 10 blocks of East and West Main, and the 10 blocks of North and South Carroll Streets. (Cr. by ORD-13-00135, 8-14-13)

Nightclub.

(a) A Nightclub is a permitted use if established prior to the effective date of the ordinance, and a conditional use if established after the effective date of the ordinance.
(b) Capacity may be as high as five (5) square feet per person.
(c) Shall hold entertainment license under Sec. 38.06(11), MGO.
(d) Shall at all times operate consistent with and according to the requirements of a valid liquor alcohol license issued by the City.
(e) Establishment must offer live entertainment a minimum of two (2) nights per week.
(f) The establishment shall be open for business no more than three (3) hours prior to any event or activity qualifying the establishment as an entertainment venue and shall close its business no more than two (2) hours following such an event or activity.

(Cr. by ORD-14-00083, 4-16-14)

Non-Accessory Temporary Outdoor Events.

(a) All such events shall be related to events at Camp Randall Stadium.
(b) Only food and beverages may be offered for sale to the public.
(c) Live amplified music is allowed.

(d) The Plan Commission may waive or modify the offstreet parking requirements for the principal use and the non-accessory use.

(e) No such event established in the TSS district after January 3, 2013 shall be located on a lot any part of which is within fifty (50) feet of a residential district. (Am. by ORD-13-00096, 1-3-13)

Nonmetallic Mining.

(a) A nonmetallic mining operator may not process or extract nonmetallic minerals within one hundred (100) feet of the boundaries of a nonmetallic mining site, unless a boundary abuts a freeway, rail corridor, or property zoned for industrial use, in which case a nonmetallic mining operator may not process or extract materials within fifty (50) feet of such boundaries.

(b) In order to minimize tracking of materials from the nonmetallic mining site onto adjacent public roads, the access drive to any nonmetallic mining site shall be created with concrete or hot-mix asphalt for at least 100 feet unless a shorter distance is approved by the City Engineer. The nonmetallic mining operator shall maintain any access drive in a dust-free manner and shall remove any dust or mud tracked from adjacent public roads as required by Chapter 3, MGO.

(c) A nonmetallic mining site shall be accessed only through designated entrances as illustrated on plans approved by the City Traffic Engineer.

(d) All trucks traveling to or from a nonmetallic mining site shall use haul routes designated by the City Traffic Engineer. Any restrictions on the routes shall be no more restrictive than those applicable to other trucks or carriers using the same routes.

(e) Security gates on the access points to a nonmetallic mining site shall have no trespassing signs.

(f) A safety fence shall be installed around the entire boundary of the nonmetallic mining site unless an area of the nonmetallic mining site has already been reclaimed in compliance with Chapters 21 and 37, MGO, and Wis. Admin. Code ch. NR 135.

(g) A nonmetallic mining operator shall use spray bars for water in the crushing process to reduce dust. The use of spray bars is not required when the temperature is below freezing. The nonmetallic mining operator shall spray private access roads within the nonmetallic mining site with water as necessary to control dust.

(h) All trucks and excavating equipment used on a nonmetallic mining site shall have functioning muffler systems that meet or exceed current industry standards for noise abatement and shall not use compression brakes.

(i) Any erosion control or stormwater management plan required under state law shall be provided to the City Engineer, as well as any erosion control and/or stormwater management permit and plan that may be required by Chapter 37, MGO.

(j) A nonmetallic mining operator shall provide evidence of commercial general liability insurance in the amount of at least five million dollars ($5,000,000) per occurrence, which may be made up by carry a one million ($1,000,000) commercial general liability policy and four million ($4,000,000) umbrella policy. These policies shall name the City of Madison, its officers, officials, agents and employees as additional insureds, and apply on a primary and non-contributory basis.

(k) A nonmetallic mining operator shall comply with all Wisconsin Department of Natural Resources and Federal Mine Safety and Health Administration Standards for particulate emissions as further described in Wis. Admin. Code § NR 415.075 and § NR 415.076.

(l) A nonmetallic mining site shall be available for inspection by City staff with at least forty-eight (48) hours prior written notice. However, in the event the City has probable cause to believe that a violation of this ordinance has occurred or is occurring, an inspection may occur at other times upon reasonable advance notice to the nonmetallic mining operator. All inspections require an escort by the nonmetallic mining operator in accordance with Mine Safety and Health Administration laws, rules and regulations.

(m) A nonmetallic mining operator shall conduct at least one public meeting each year between January 4 and February 15 for the purpose of fostering communication between the nonmetallic mining operator, its neighboring residents, and the City. The nonmetallic mining operator shall provide Class I notice of the date, time, and place of the meeting to the owners of property located within five hundred (500) feet of the boundaries of the nonmetallic mineral extraction district. The nonmetallic mining operator shall also provide notice in writing to the City Engineer and City Zoning Administrator inviting City staff to attend the public meeting.

(n) A nonmetallic mining operator shall maintain a compliance phone number and email address for neighboring residents to report any problems or concerns.

(o) A nonmetallic mining operator shall maintain on file with the City Engineer a Site/ Operations Plan drawn to measurable scale large enough to show:

1. Zoning district boundaries for the nonmetallic mineral extraction district.
2. Existing contour lines.
3. Existing natural features including lakes, perennial/navigable streams, intermittent streams, floodplains, wetlands, drainage patters, and archaeological features.
4. Existing roads, driveways, and utilities.
5. Specific location of proposed extraction area, staging area, equipment storage.
6. Location of driveways.
7. Phasing plan, if applicable.
8. Location of permanent structures, including scales, offices, or mixing plants.
9. Location of signage.

(p) A nonmetallic mining operator shall submit an annual mining report on or before March 1 of each year to the City Engineer detailing:

1. All nonmetallic mining and recycling activity occurring on the property in the previous year, including the number of acres being actively mined and officially reclaimed, and the frequency and location of blasting.
2. The number and nature of complaints received during the previous year and the operator's response to those complaints.
3. The efforts made in the previous year to improve blasting techniques and other nonmetallic mining activities in order to minimize adverse impacts on surrounding roads and properties.
4. Nonmetallic mining plans for the upcoming year, including the number of acres that may be converted from inactive to active mining use, the number of acres that may be officially reclaimed, the anticipated frequency and location of blasting, and whether any mining activities will result in excavation below the water table.
5. A statement that the Site/Operations Plan required in sub. (o) above and currently on file with the City Engineer is current and accurately represents the nonmetallic mining site as of the date of filing the annual report.

(q) Blasting at a nonmetallic mine may be allowed only upon conditional use approval by the Plan Commission subject to the following conditions and any additional conditions required by the Plan Commission, provided that any additional conditions may not impose restrictions or regulations pertaining to blasting that are more stringent than those set by the State in Wis. Admin. Code chs. SPS 307 and 308:

1. The nonmetallic mining operator shall all times meet the blasting requirements contained in Wis. Stat. § 101.15, Wis. Admin. Code chs. SPS 307 and 308, the National Fire Protection Association (NFPA) 495 chapter 10, Sec. 34.01(13) (Fire Code), as may be amended.
2. Hours of blasting shall be limited to the hours specified in Wis. Admin. Code § SPS 307.42, as may be amended.
3. The nonmetallic mining operator shall provide notification of blasting as required by Wis. Admin. Code § SPS 3.07.41, as may be amended.

4. The nonmetallic mining operator shall provide the Madison Fire Department with twenty-four (24) hours notice of blasting on a mining site. The notice should indicate the location of blasting within the mine, the intended locations for the seismographs required under (q)7. below, and whether any of the weather conditions described in (q)10. below are expected to exist at the time of blasting.
5. Blasting resultants shall not exceed the levels contained in Wis. Admin. Code § SPS 307.44.
6. The nonmetallic mining operator shall sound a pre-blast notification siren immediately before a blast.
7. The nonmetallic mining operator shall install and maintain at least four (4) seismographs at locations near the boundary lines of the nonmetallic mining site, unless otherwise in consultation with City staff.
8. All blasting shall be conducted by a certified Class IV or Class V operator and shall utilize the latest commercially available technology to minimize adverse blasting resultants.
9. When feasible, the mining operator shall develop mining faces that advance away from or transverse or ninety (90) degrees to residential areas in order to minimize blasting resultants.
10. When feasible, the mining operator shall avoid blasting when weather conditions include strong winds; foggy, hazy or smoky conditions with little or no wind; or significant cloud cover.
11. Conditional use approval for blasting under this section shall expire after five (5) years. If a Nonmetallic Mining Operator applies for the renewal of a conditional use approval for blasting and shows that in the previous five (5) years the Nonmetallic Mining Site has operated in compliance with the blasting conditions listed in sub. (q) 1.-10. above and any additional blasting conditions imposed by the Plan Commission, then there shall be a presumption that the standards for conditional use approval are met and that the Plan Commission will grant renewal of the conditional use approval.

(r) Hours of operation at a nonmetallic mining site shall be 6:00 a.m. to 6:00 p.m. unless otherwise required to fulfill obligations under a government contract.

(s) The nonmetallic mining operator shall at all times maintain a Reclamation Plan which complies with Chapters 21 and 37, MGO, and Wis. Admin. Code ch. NR 135.

(Cr. by ORD-17-00014, 2-20-17)

Offices for Human Service Programs.

(a) The office shall be operated by a governmental or non-profit entity.

(b) The office shall be located in a building with more than one unit and no single unit building shall be converted to multiple units for such use.

(c) The office shall serve the neighborhood(s) where it is located.

On-Site Agricultural Retail Stand, Farm Stand.

(a) The stand may not be permanently affixed to the ground and must be readily removable in its entirety.

(b) Maximum area of a farm stand is three hundred (300) square feet in ground area.

(c) No more than one (1) farm stand is allowed on any one premise.

Outdoor Cooking Operation.

(a) An outdoor cooking operation is a permitted use if it is not located within two hundred (200) feet from the property line of a lot with a residential use.

(b) An outdoor cooking operation located within two hundred (200) feet from the property line of a lot with a residential use may be allowed with conditional use approval.

(c) Outdoor cooking operations in residential districts are limited to four (4) days in duration not more than five (5) times a year unless approved as a conditional use.

(Cr. by ORD-13-00178, 10-23-13)

Outdoor Display.

(a) Outdoor display shall be separated from any adjacent street, sidewalk, or public walkway by development frontage landscaping, as specified in Section 28.142(6).
(b) All products on display shall also be sold in the principal retail use.
(c) Outdoor display shall not exceed sixteen (16) hours per day.

Outdoor Eating Areas Associated With Food and Beverage Establishments.
(a) Primary access to the area shall be from within the establishment.
(b) Hours of operation may be restricted and noise and lighting limits imposed as part of the conditional use approval.
(c) Where the use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

Outdoor Recreation.
(a) A minimum twenty-five (25) foot setback area maintained as open space shall be provided along the perimeter of the site wherever it abuts a residential district.
(b) If the use will be available to the general public, an arterial or collector street of sufficient capacity to accommodate the traffic that the use will generate shall serve the site. Ease of access to the site by automobiles, transit, bicycles, and pedestrians shall be considered as a factor in the review of any application.
(c) The site shall be designed in such a way as to minimize the effects of lighting and noise on surrounding properties. Hours of operation may be restricted and noise and lighting limits imposed as part of the conditional use approval.
(d) An appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

Outdoor Storage.
(a) Outdoor storage shall be located outside of the front yard setback and shall not be placed between the principal building and the abutting street.
(b) Except in the IG District, outdoor storage shall be completely screened from any adjacent street, sidewalk, public walkway, public park.
(c) Outdoor storage shall be screened from abutting residential uses with a building wall or solid, commercial-grade fencing, wall, evergreen hedge, or equivalent material. All screening shall be at least six (6) feet in height and no more than eight (8) feet in height. Screening along district boundaries, where present, may provide all or part of the required screening. (Am. by ORD-14-00001, 1-14-14)
(d) In the EC District, all storage except for licensed motor vehicles in operable condition, shall be within completely enclosed buildings or effectively screened with screening not less than six (6) feet nor more than eight (8) feet in height, and no storage shall exceed the height of such screening. All outside storage areas shall be located to the rear of buildings and shall be limited to not more than five (5) percent of the total lot area.

Parking Facility, Non-Accessory.
(a) Passenger automobiles, motorcycles, and bicycles shall be parked in clearly marked spaces.
(b) Parking facility shall be oriented to the street with suitable entry and exit point.
(c) When considering the conditional use, the Plan Commission shall set a maximum number of automobiles, motorcycles, and bicycles that may be parked at the facility at any given time.
(d) In considering the conditional use, the Plan Commission may limit the duration of the use.
(Cr. by ORD-15-0000008, 1-28-15)

Payday Loan Business. Any payday loan business shall be located a minimum of five thousand (5,000) feet from any other payday loan or auto title loan business.

Peer Run Respite Facility.
(a) The use shall be operated by a religious institution or non-profit organization.
(b) The use shall be available to adults 18 years or older who are living with mental health or substance use concerns.

(c) The structure being used for the Peer Run Respite Facility must at all times meet the definition of a dwelling contained in Sec. 28.211 of the Madison General Ordinances.

(d) At least seventy-five percent (75%) of staff at the facility shall hold a valid certificate as a Wisconsin Peer Certified Specialist.

(e) The owner shall submit a Management Plan for the facility:

1. Required management plan contents:
   i. Floor plan showing sleeping areas, emergency exits and bathrooms.
   ii. Staffing plan showing that at least one staff member will be on-site and awake at all times (24/7/365).
   iii. Administration plan showing specific procedures used by staff for accepting guests for respite services.
   iv. Emergency plan outlining staff response to crisis situations.
2. Recommended management plan contents: parking, storage of belongings, trash storage/removal, transportation support.

(f) The maximum number of guests receiving respite at any single time shall be equal to the number of bedrooms available in the facility or five (5), whichever is less.

(g) The maximum length of a single stay for guests receiving respite shall not exceed 5 consecutive days.

(h) Guests may use respite care for no more than three (3) separate stays per calendar year.

(i) An appropriate transition area between the use and adjacent property may be required, using landscaping, screening and other site improvements consistent with the character of the use and the neighborhood.

(j) The owner shall submit to the Madison Police Department a list of individuals, including staff, owners, or operators, who are authorized to give guests notice that they are no longer allowed to remain on the property.

(k) No peer run respite facility shall locate within one thousand five hundred (1500) feet of another peer run respite facility.

(Cr. by ORD-16-00069, 8-13-16)

Place of Worship.

(a) A facility established after the effective date of this ordinance within a predominantly residential or mixed-use area shall have vehicular access to a collector or higher classification street.

(b) Any facility with seating capacity of greater than six hundred (600) persons in the sanctuary or main activity area shall be a conditional use. Such facility shall be located with vehicular access to a collector or higher classification street.

(c) Where the use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

Portable Shelter Mission.

(a) The use shall be accessory to a religious institution or a non-profit organization.

(b) The yard requirements for the most restrictive multi-family use in the district apply. If there are no multi-family yard requirements in the district, yard requirements for non-residential use shall apply.

(c) Where the principal use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(d) The owner shall submit a Management Plan for the location of sleeping areas, bathrooms, and parking spaces. The Plan shall be reviewed by the Traffic Engineer and the Zoning Administrator

(e) Property owner shall obtain a campground permit pursuant to Wis. Admin Code § DHS 178.05 and Wis. Stat. § 254.47 if there are four (4) or more units.

(Cr. by ORD-13-00177, 10-23-13)

Portable Storage Units.

(a) A maximum of two (2) portable storage units, not exceeding a cumulative floor area of two hundred fifty (250) square feet shall be allowed for up to ninety (90) consecutive days within a calendar year when part of an active building permit. (Am. by ORD-15-00033, 4-8-15)
(b) When not part of an active building permit, such use is allowed for no more than thirty (30) days per calendar year.
(c) The portable storage unit(s) may not be located within the front or side yard setbacks unless located in a driveway.
(d) A temporary use permit is required.
(e) This use is allowed only for temporary storage of household goods in residential areas.

Real Estate Sales Office.

(a) Shall be associated with the sale of property in the development where the office is located.
(b) Use shall not exceed two (2) years from the date of start of construction or one (1) year after the initial occupancy of an improvement, whichever is sooner.

Residential Building Complex.

(a) Recreational areas may be required to serve the needs of the anticipated population.
(b) Setback requirements may be reduced as part of the conditional use approval, provided that equivalent open space areas are provided.
(c) Minimum distances between buildings shall equal the combination of the required side yards for each building, unless reduced by the Plan Commission as part of the conditional use approval.
(d) An appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.
(e) In the TE District, new residential uses, whether in new or existing buildings, shall not be located where potential nuisances exist, including but not limited to: excessive vibration, dust, noise, light, glare, smoke, odor, or truck traffic.
(f) In the TE District, new residential uses shall be adequately separated or buffered from adverse impacts from existing industrial uses.
(g) Shall be reviewed by the UDC pursuant to Sec. 33.24(4)(c), MGO. (Cr. by ORD-13-00069, 5-8-13)
(h) All Residential Building Complexes shall be submitted with a plan for building placement, circulation, access and parking, and information on the architectural design of the development.
(i) Each building in a Residential Building Complex shall provide the lot area and usable open space required for the building type by the zoning district.
(j) Entrance orientation requirements for buildings that do not front a public street and are located behind buildings that do front a public street may be modified by the Plan Commission as part of the conditional use approval, provided that the modification results in entrances being oriented to a courtyard, open space, or other common amenity of the residential building complex. (Cr. by ORD-16-00094, 11-9-16)

(Am. by ORD-13-00134, 8-14-13)

Restaurant-Nightclub.

(a) A Restaurant-Nightclub is a permitted use if established prior to the effective date of the ordinance.
(b) A Restaurant-Nightclub is a conditional use if established after the effective date of the ordinance and is open between the hours of midnight and 5 a.m.
(c) Must serve food at all hours it is open.
(d) Shall hold entertainment license under Sec. 38.06(11).
(e) Shall at all times operate consistent with and according to the requirements of a valid alcohol license issued by the City.

(Cr. by ORD-14-00083, 4-16-14)

Restaurant-Tavern.

(a) Maximum capacity to be established by the Director of the Building Inspection Division, not to exceed the number of available seats, plus staff, plus a reasonable number of people waiting for seats.
(b) Restaurant-Taverns shall not hold an entertainment license under Sec. 38.06(11).
(c) Restaurant-Taverns shall at all times operate consistent with and according to the requirements of a valid alcohol license issued by the City.

(Cr. by ORD-14-00083, 4-16-14)

Reuse of Former School, Municipal Buildings or Places of Worship.

(a) Buildings originally constructed for use as public schools, municipal buildings, or places of worship in residential and special districts may be adapted for the following uses with the approval of the Director of Planning and Community and Economic Development:
    1. Day care centers.
    2. Elementary and secondary schools.
    3. Arts, technical or trade schools.
    4. Colleges and universities.
    5. Other public educational facilities.
    6. Recreational buildings and community centers, nonprofit.
    7. State or municipal offices.
    8. Offices for health, medical, welfare and other institutions or organizations qualifying as nonprofit under the laws of the State of Wisconsin.
(b) Buildings originally constructed for use as public schools, municipal buildings, or places of worship in residential and special districts may be adapted as business and professional offices with conditional use approval.

(Am. by ORD-17-00022, 2-20-17)

School, Arts, Technical or Trade.

(a) A facility established after the effective date of this ordinance within a predominantly residential or mixed-use area shall have vehicular access to a collector or higher classification street.
(b) Where the use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.
(c) With the exception of facilities located in industrial districts, all activities shall occur within enclosed buildings.
(d) For uses established in employment districts, the applicant shall submit a Traffic Demand Management plan to be approved by the Traffic Engineer and to be kept on file with the Zoning Administrator. (Cr. by ORD-16-00097, 11-9-16)

Schools, Public and Private.

(a) A facility established after the effective date of this ordinance within a predominantly residential or mixed-use area shall have vehicular access to a collector or higher classification street.
(b) Where the use is conditional, an appropriate transition area between the use and adjacent property may be required, using landscaping, screening, and other site improvements consistent with the character of the neighborhood.

(Am. by ORD-14-00133, 8-13-14)

Selective Cutting of Timber. On parcels approved for development, selective cutting of timber is limited to areas designated for clearance on recorded plats or certified survey maps.

Service Business.

(a) In the TE and SE Districts, service businesses shall not exceed five thousand (5,000) square feet in floor area unless approved as a conditional use.
(b) In the SEC, EC, IL, and IG Districts, service businesses shall be located only within a mixed-use building that includes office or other employment uses.

Sewerage System Lift Station, Water Pumping Stations, Towers, and Electric Substation, Gas Regulator Systems, and Mixing and Gate Stations.

(a) A landscape plan for these uses shall be approved by the Director of Planning and Community and Economic Development where a permitted use or the Plan Commission when a conditional use.

(b) In the NMX, MXC, TSS, CC-T, and CC Districts, above-ground lift stations require conditional use approval.

Single-Family Attached Dwelling; Townhouse, Rowhouse.

(a) In the TE District, new residential uses, whether in new or existing buildings, shall not be located where potential nuisances exist, including but not limited to: excessive vibration, dust, noise, light, glare, smoke, odor, or truck traffic.

(b) In the TE District, new residential uses shall be adequately separated or buffered from adverse impacts from existing industrial uses.

Single-Family Detached Dwelling. In the NMX, TSS, and CC-T Districts, single family detached dwellings constructed after the effective date of this ordinance require conditional use approval.

Solar Energy Systems.

(a) A Placement Plan shall be submitted at the time of application for a zoning certificate. The Plan shall show the proposed location of the solar or wind energy system on the lot, the design of the solar or wind energy system, the location of improvements on adjoining lots, as well as landscaping on the lot and adjoining lots that impacts the location of the solar or wind energy system. Additional materials may be required.

(b) The Placement Plan shall be approved by the Director of the Department of Planning and Community and Economic Development prior to installation of the energy system. Any conditions or restrictions placed on the energy system shall be limited to those that serve to preserve or protect the public health and safety, or do not significantly increase the cost, or decrease the efficiency of the system. Conditions or restrictions that allow for an alternative system of comparable cost and efficiency may also be imposed. Some development that includes solar energy systems may require additional approval, such as development in urban design districts, historic districts, development involving demolitions, and planned development districts.

Storage Facility, Personal Indoor Storage.

(a) No commercial transactions shall be permitted other than the rental of storage units.

(b) Plans for onsite circulation and driveway locations shall be reviewed as part of the conditional use review process. Site design shall accommodate a logical and safe vehicle and pedestrian circulation pattern.

Storage Locker (Personal).

(a) The use shall be operated by a religious institution or non-profit organization.

(b) An appropriate transition between the use and adjacent property may be required, using landscaping, screening and other site improvements consistent with the character of the neighborhood.

(c) Storage lockers shall be placed no closer than five (5) feet to any right-of-way.

(d) No more than ten (10) individual storage lockers may be grouped together on any single zoning lot.

(e) Storage lockers shall be modular, weatherproof, oriented vertically, shall not exceed 11.25 cubic feet per unit or 112.5 total cubic feet per grouping, and shall be approved for use by the Director of Building Inspection or designee.

(f) If the operator is not the owner of the property where the storage lockers will be maintained, then the operator shall provide the Zoning Administrator with a copy of the agreement between the operator and the owner of the property which gives the operator permission to install and operate the lockers on the owner's property.

(g) The operator shall provide the Zoning Administrator with a management plan for the storage locker(s). Management plans shall include:

1. The identity and twenty-four (24)-hour contact information for the owner of the property and, if different from the owner of the property, the operator of the storage locker(s);

2. A site plan;
3. A photograph or drawing showing locker design and size;
4. An explanation of the process used to register users;
5. A copy of the standard use agreement entered into between the owner/operator and the storage locker user;
6. A list of rules and regulations governing locker use;
7. A detailed explanation that the operator may terminate the use of the locker at any time.
8. A maintenance plan.

(h) The area surrounding the storage locker(s) shall be well lit at all times and include sufficient waste receptacles that are emptied regularly.

(i) Lockers shall not be used to store perishable items, illegal items, or flammable substances.

(j) Storage locker(s) may not be located on a lot that contains a residential building.

(k) The owner or operator must obtain a license under Sec. 9.26, MGO.

(l) Any other requirements of this ordinance applicable to principle uses shall not apply to the installation and maintenance of storage lockers.

(Cr. by ORD-16-00109, 12-14-16)

Tavern.

(a) Taverns shall not hold an entertainment license under Sec. 38.06(11).

(b) Taverns shall at all times operate consistent with and according to the requirements of a valid alcohol license issued by the City.

(Cr. by ORD-14-00083, 4-16-14)

Temporary Buildings for Storage of Construction Materials and Equipment. Buildings must be located on the same zoning lot as the project under construction, and shall be removed within thirty (30) days following completion of construction.

Temporary Outdoor Events.

(a) There shall be no permanent alteration to the site or construction or alteration of any permanent structure.

(b) Events include but not limited to, seasonal holiday sales, church, neighborhood or community events, traveling carnivals, and accessory promotional events.

(c) No event shall last more than one-hundred eighty (180) days per calendar year.

(d) Any event that lasts for more than forty-five (45) days requires conditional use approval.

(e) In residential districts, any event that lasts for more than twenty-five (25) days per calendar year or five (5) consecutive days requires conditional use approval.

(f) All such events require a Temporary Use Permit.

(Am. by ORD-15-00015, 1-28-15)

Tobacco Retailer.

(a) No tobacco retailer shall be located within one thousand (1,000) feet of the boundary of any residential zone or parcel occupied by:
1. A public or private kindergarten, elementary, middle, junior high or high school;
2. A licensed child-care facility or preschool other than a family day care facility;
3. Playground;
4. Youth center;
5. Park;
6. Library; or
7. Health care facility.

(b) No tobacco retailer shall be located on a site which is within five hundred (500) feet of a site occupied by another tobacco retailer or any establishment selling tobacco products or tobacco paraphernalia, as measured in a straight line from the two properties nearest parcel boundaries.

(c) The tobacco retailer shall comply with local, state, and federal laws regarding sales, advertising or display of tobacco products and tobacco paraphernalia including posting

prominently near the cash register or other point of sale the legal age to buy tobacco products and tobacco paraphernalia, and checking the identification of all purchasers to ensure they are of legal age.

(d) Sampling of tobacco products by individuals under eighteen (18) years of age shall not be permitted. Therefore, tobacco products shall not be given or sold to individuals under eighteen (18) years of age.

(Cr. by ORD-15-00054, 5-27-15)

Tourist Rooming House.

(a) The establishment shall have a current license from Public Health Madison and Dane County, as required by Wis. Admin. Code ch. DHS 195. (Am. by ORD-15-00009, 1-28-15)

(b) The tourist rooming house shall be the operator's primary residence.

(c) Owner shall register with Treasurer's office and shall pay room tax as required under Sec. 4.21, MGO.

(d) Only the owner of the property may operate a Tourist Rooming House, except that a renter may operate if explicitly allowed in the lease.

(e) If the operator does not occupy the residence at the time of rental, the tourist rooming house may operate no more than thirty (30) days per licensing year; July 1 to June 30th.

(f) If the operator occupies the residence at the time of rental, there is no limit to the number of days the Tourist Rooming House may operate.

(g) Maximum tourist occupancy shall comply with maximum family occupancy rules in the underlying zoning district regulations.

(h) Each establishment shall have a registry available on-site for inspection, indicating the identity of all guests, dates of stay, acknowledgement of operator presence or absence during stay, and length of stay. The registry shall include all information from the current registry year and the year immediately prior.

(Cr. by ORD-13-00185, 11-5-13)

Towing and Wrecker Service Business. Allowed only when accessory to auto body shop, auto repair station, junkyard, auto service station, and motor vehicle salvage year, scrap yard, or junkyard.

Two-Family Dwelling - Twin.

(a) Each unit shall be separated from the abutting unit by a minimum fire separation complying with Wis. Admin. Code § SPS 321.08, providing a vertical separation of all areas from the lowest level to flush against the underside of the roof.

(b) The common wall between dwellings shall be approximately perpendicular to the street right-of-way line.

(c) Dwellings shall have separate water services, curb stops, lines and meters. The water service may be split in the terrace, with separate curb stops, lines and meters.

(d) Dwellings shall have separate sanitary sewer service laterals and lines, subject to including a provision in a joint access and maintenance agreement that addresses emergency access to, and the responsibility for, sanitary sewer building blockage.

(e) Dwellings shall have separate gas and electric meters.

(f) Dwellings shall have a joint cross access and maintenance agreement that has been submitted with the land division application and which shall be recorded with the land division.

(g) In the NMX, TSS, and CC-T Districts, Two Family Dwellings - Twin constructed after the effective date of this ordinance require conditional use approval.

(h) In the TR-C4 district, a Two-Family - Twin shall not have an attached garage with a door facing any street. (Cr. by ORD-14-00028, 2-18-14)

Two-Family Dwelling -Two-Unit. In the NMX, TSS, and CC-T Districts, two-unit dwellings constructed after the effective date of this ordinance require conditional use approval.

Vehicle Access Sales and Service Windows.

(a) In CC-T, TE, DC, and UMX Districts, vehicle access sales and service windows shall be located to the side of, rear of, or under buildings, and shall not be located between the

principal structure and a public street. In the TSS District, vehicle access sales and service windows shall be located under the building in which it is located, and the building shall have commercial or residential uses along the primary street frontage. In all districts, vehicle access sales and services windows shall be at least sixty (60) feet from the closest point of any residentially zoned property or property with a residential building. (Am. by ORD-15-00001, 1-14-15; ORD-17-00025, 2-20-17)

(b) Points of vehicular ingress and egress shall be located at least sixty (60) feet from the intersection of two streets and at least sixty (60) feet from abutting residentially zoned property.

(c) Plans for onsite circulation and driveway locations shall be reviewed where conditional use approval is required. Site design shall accommodate a logical and safe vehicle and pedestrian circulation pattern. Adequate queuing lane space shall be provided without interfering with onsite parking/circulation.

(d) Speaker box sounds from the drive-through lane shall not be plainly audible so as to unreasonably disturb the peace and quiet of abutting residential property.

(e) Drive-through canopies and other structures, where present, shall be constructed from the same materials as the primary building and with a similar level of architectural quality and detailing.

(f) A six- (6) foot buffer area with screen planting and an obscuring wall or fence shall be required along any property line adjoining an existing residence or residentially zoned property.

(g) Bicyclist use of sales and service windows shall not be prohibited.

Vending Machines.

(a) Outdoor vending machine shall be accessory only to retail uses, schools, athletic facilities, parks and golf courses.

(b) For retail uses, outdoor vending machines are allowed only for:

1. Single-occupant buildings with more than twenty-five hundred (2,500) square feet of floor area. (Am. by ORD-15-00033, 4-8-15)
2. Individual tenants with at least thirty (30) lineal feet of storefront in a multi-tenant building.
3. When the product sold in the vending machine also is sold in the principal retail use.

(c) No individual outdoor vending machine shall exceed five (5) feet in width, three (3) feet in depth and seven (7) feet in height.

(d) No more than one (1) outdoor vending machine shall be located per building façade.

(e) Outdoor vending machines shall be flush against the facade of the principal structure, and shall not project into the public right-of-way.

(f) Outdoor vending machines shall be placed on an impervious surface, such as concrete or asphalt.

(g) No outdoor vending machines shall be located so as to impede pedestrian access or circulation, obstruct parking areas or create an unsafe condition. There shall be at least five (5) feet of clear pedestrian access at all times, unless the development is subject to the large retail standards in Sec. 33.24(4)(f), MGO, in which case, eight (8) feet of clearance is required.

(h) When located at a school, athletic facility, park or golf course, outdoor vending machines shall be a minimum of fifty (50) feet from a property line, unless located behind a solid fence or screening to prevent public use.

Veterinary Clinic, Animal Hospital. All activity shall take place within completely enclosed buildings with soundproofing and odor control.

Walk-Up Service Windows.

(a) If located within ten (10) feet of a public right-of-way, conditional use approval is required.

Wind Energy Systems. Wind energy systems shall comply with Sec. 28.149, MGO. (Am. by ORD-14-00027, 2-18-14)

Yard Sales. A yard sale shall not exceed four (4) days in duration, and no more than one sale shall be held in any three- (3) month period.

SUBCHAPTER 28K: BUILDING FORM STANDARDS

28.171 GENERAL PROVISIONS.

(1) Statement of Purpose.

A variety of building forms are defined here in order to identify and establish basic design parameters for those buildings that may be appropriate in one or more zoning districts. The purposes of design standards are:

(a) To ensure compatibility between different land uses and building forms.

(b) To encourage building forms that respect their context.

(c) To encourage pedestrian movement by encouraging building forms that present an active face to the street.

(2) Applicability.

The design standards in this Subchapter shall apply to new buildings or building additions that exceed the floor area occupied by a given use by more than fifty percent (50%), with the exceptions listed below. Building additions shall comply with the design standards to the extent feasible, given the placement of the existing building. In all cases, design standards shall apply only to the portion of the building or site that is undergoing alteration. (Am. by ORD-15-00033, 4-8-15)

Some design standards are closely linked to a specific building form (for example, a parking building). Other design standards vary by district, and are listed in those district subchapters.

Building types that are not listed in this Subchapter may be allowed if they meet the intent and other design standards of the district where they would be located.

(3) Conflict with District Standards.

Where there is a conflict between the design standards in this section and the standards within a particular district, the district standards shall prevail.

28.172 RESIDENTIAL BUILDING FORMS.

(1) Use of Dormers.

Dormers may be added to the roof of a two-story building, provided that the dormer width does not exceed fifty percent (50%) of the lineal width of the floor immediately below the roof, and may not extend above the ridge of the roof in which the dormer is placed. (Am. by ORD-13-00144, 9-11-13)

(2) Single-Family Detached Building.

(a) Building Type. A single-family dwelling with yards on all sides, oriented to the street, with an attached or detached garage.

(b) Access and Entry. Each dwelling shall have direct access from a porch, stoop or courtyard to the street. Parking, loading and trash disposal may be accessed from an alley or driveway. Each building shall include a stoop, porch or courtyard oriented towards the primary abutting street.

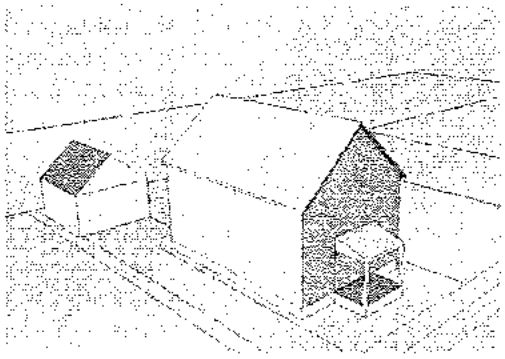

Figure K1: Typical Single-Family Detached Building

(c) Building Width. Buildings facing a public street shall not exceed a width of fifty (50) feet along a single plane on the axis facing the street. Additional building wings facing the street shall be set back at least five (5) feet behind the front plane of the building.

(3) Two-Unit and Three-Unit Buildings.

(a) Building Types.

1. Two-Unit. A building containing two dwelling units that are vertically stacked one above the other, with a separate entrance to each unit and with yards on all sides.
2. Three-Unit. A building containing three dwelling units that are vertically stacked one above the other, with a separate entrance to each unit and with yards on all sides.

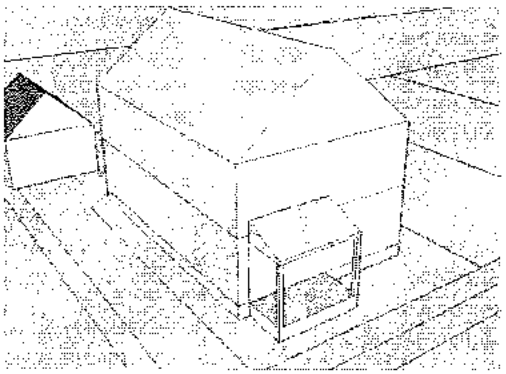

Figure K2: Typical Two-Flat Building

(b) Access and Entry. At least one of the dwellings shall have direct access from a common porch or stoop facing the front lot line and street. Parking, loading and trash disposal may be accessed from an alley or driveway. Each building shall include a stoop, porch or terrace serving at least one of the dwelling units, oriented toward the primary street.

(c) Building Width. Buildings facing a public street shall not exceed a width of forty (40) feet along a single plane on the axis facing the street. Additional building wings facing the street shall be set back at least five (5) feet behind the front plane of the building.

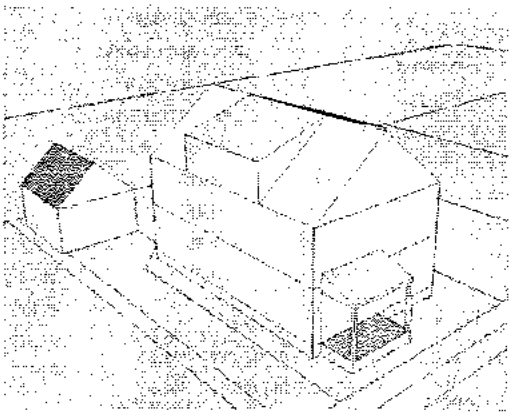

Figure K3: Typical Three-Flat Building

(4) Two-Family Building, Twin.

(a) Building Type. A building containing two attached dwelling units that share a common side wall and that are usually on separate lots, with the common wall at the lot line. If the dwellings are on separate lots, the common wall must be located on the side lot line. The dwellings can also be treated as condominiums, with a third ownership area consisting of the remainder of the lots.

(b) Access and Entry. Each dwelling shall have direct access from a common or separate porch or stoop; at least one entrance shall face the front lot line. Each building shall include a stoop, porch or terrace serving at least one of the dwelling units, oriented toward the primary street.

Parking, loading and trash disposal may be accessed from an alley or driveway. Both units may, (and are encouraged to) share a common driveway.

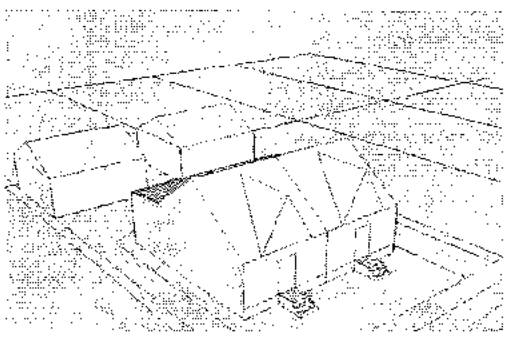

Figure K4: Typical Two-Family - Twin Building

(c) Building Width. Buildings facing a public street shall not be wider than fifty (50) feet along a single plane on the axis facing the street. Additional building wings facing the street shall be set back at least five (5) feet behind the front plane of the building.

(5) Single-Family Attached Building, Townhouse, Rowhouse.

(a) Building Type.
A dwelling unit within a linear group of horizontally attached dwellings, each having a private entrance and totally exposed front and rear walls to be used for access, light and ventilation. Buildings may be oriented to the street or to a central green or courtyard.

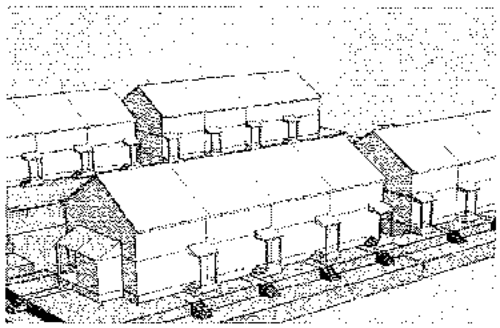

Figure K5: Typical Single-Family Attached Buildings

(b) Access and Entry. The principal entry to each dwelling shall have direct access to the street or to a courtyard. Each dwelling shall include a stoop or porch or a common green or courtyard oriented toward the primary street.

Parking, loading and trash disposal may be accessed from an alley or common side yard driveway serving one or more buildings.

(c) Massing and Articulation.
Buildings facing a public street shall be comprised of individual units, articulated vertically to create visual interest and continuity.
Divisions or breaks in materials, entry placement, window bays or other architectural details shall be used to delineate individual units. Massing, proportions and articulation of single-family attached buildings shall respond to existing residential buildings in their vicinity. Maximum building length parallel to the primary abutting street shall not exceed one hundred sixty (160) feet without a significant articulation of the facade. Windows shall be located on the side of the last unit.

Figure K6: Typical Single Family Attached Buildings Photo

(6) Small Multi-family Building.

(a) Building Type. A multi-story multi-family building with a central entrance oriented to the primary abutting street, containing four to eight units. Buildings of this type are sometimes designed to resemble a large single-family building with a pitched roof.

(b) Access and Entry. The principal entry to the building shall be oriented to the primary abutting street. Each building shall include a stoop or porch or a common green or courtyard, oriented toward the primary street. Parking, loading and trash disposal may be accessed from an alley or common side yard driveway serving one or more buildings.

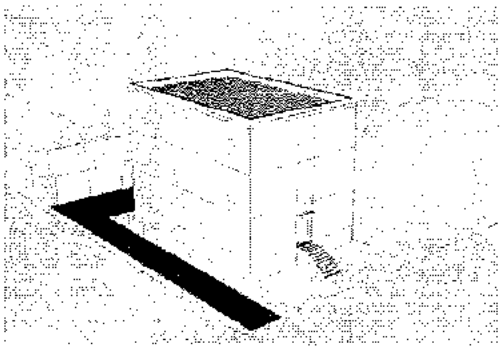

Figure K7: Typical Small Multi-Family Building

(c) Massing and Articulation. Massing, proportions and articulation of small multi-family buildings shall respond to existing residential buildings in their vicinity, including features of those buildings such as roof pitch, proportions of windows and doors, and placement on the lot. Building facades shall be articulated vertically and horizontally for visual interest.

(7) Large Multi-family Building.

(a) Building Type. A multi-story building with combined entrances, stairways and elevators, comprised of single- or two-level occupant spaces stacked on top of each other, typically accessed from a central corridor.

(b) Access and Entry. The principal entry to the building shall be oriented to the primary abutting street. Each building shall include a stoop or porch oriented to the street. Parking, loading and trash disposal may be accessed from an alley or common drive serving one or more buildings.

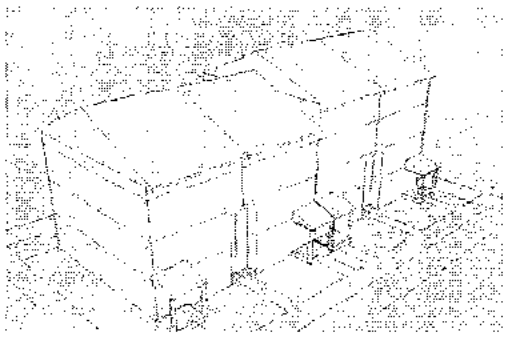

Figure K8: Typical Large Multi-Family Building

(c) Massing and Articulation. Massing, proportions and articulation of Large Multi-Family Buildings shall respond to existing residential buildings in their vicinity. Maximum building length parallel to the primary abutting street shall not exceed one hundred sixty (160) feet without a significant articulation of the facade. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet.

(8) Courtyard Multi-Family Building.

(a) Building Type. A multi-story multi-family building or buildings designed around an open courtyard abutting a primary street or through-block development on two streets, surrounded by building walls on three sides.

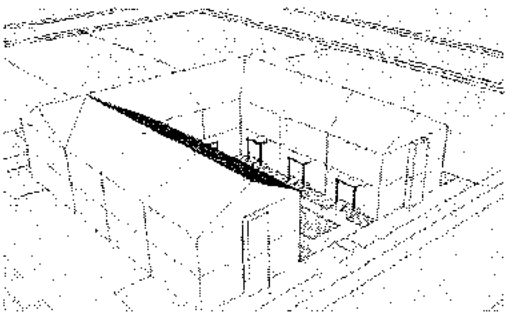

Figure K9: Typical Courtyard Multi-Family Building

(b) Access and Entry. The principal entry to the building shall be oriented to the primary abutting street or courtyard. The courtyard shall be oriented to a street and shall be largely visible from the street, but may be separated from the street by a decorative fence.

Parking, loading and trash disposal may be accessed from an alley, through the courtyard, or through a common drive serving one or more buildings.

Figure K10: Typical Courtyard Multi-Family Building-Photo 1

(c) Massing and Articulation. Buildings may be divided into individual attached units at ground level or served by shared entrances. Maximum building length parallel to the primary abutting street shall not exceed one hundred sixty (160) feet without a significant articulation of the facade. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet.

(d) Open Space. Courtyards shall be a minimum of thirty-five (35) feet in width or depth, and shall be maintained as common open space for residents.

Figure K11: Typical Courtyard Multi-Family Building-Photo 2

28.173 MIXED USE AND NON-RESIDENTIAL BUILDING FORMS.

(1) Commercial Block Building.

(a) Building Type. A multi-story building that is designed to support a mix of commercial or office uses on the ground floor with office, studio, lodging and/or residential units above. Buildings are typically designed with storefronts or arcades at ground floor.

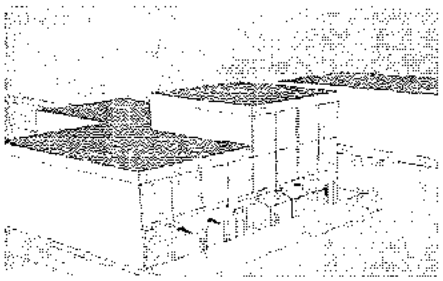

Figure K12: Typical Commercial Block Building

(b) Access and Entry. Principal entry to each ground floor unit shall be a direct entrance from the primary abutting street. Buildings shall be designed with storefronts, stoops or patios along at least forty percent (40%) of the front ground floor facade along the primary abutting street.

Parking, loading and trash disposal may be accessed from an alley or through a side yard or rear yard drive serving one or more buildings.

(c) Massing and Articulation. Maximum building length parallel to the primary abutting street shall not exceed one hundred sixty (160) feet without a significant articulation of the facade. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet. Entrances shall be provided at least every forty (40) feet along the primary abutting street.

Figure K13: Typical Commercial Block Building Photo 1

Figure K14: Typical Commercial Block Building Photo 2

(2) Liner Building.

(a) Building Type. A specialized building, parallel to the street, which is designed to conceal an area such as a parking lot or loading dock.

(b) Access and Entry. The principal entry to each ground floor unit shall be a direct entrance from the primary abutting street.

Figure K15: Typical Liner Building Photo

(c) Massing and Articulation. Maximum building length parallel to the primary abutting street shall not exceed three hundred (300) feet without a visual break such as a courtyard or recess. Minimum building depth is sixteen (16) feet. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet. Entrances shall be provided at least every forty (40) feet along the primary abutting street.

(3) Parking Building.

(a) Building Type. A multi-story building specifically designed for parking. Other uses may be allowed above or below the parking level. Such a building may be developed with a liner building along the street frontage.

(b) Access and Entry. Principal entry to each ground floor business or unit shall be a direct entrance from the primary abutting street. Vehicular entrance drives shall be located and designed to minimize interference with pedestrian movement. Vehicular entrances on secondary streets are encouraged.

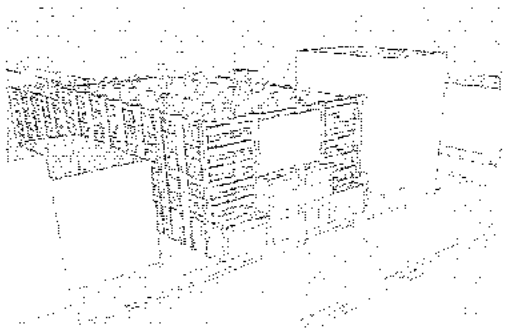

Figure K16: Typical Parking Building

(c) Building Design. Upper floors shall be designed so that sloped floors typical of parking structures do not dominate the appearance of the facade. Windows or openings shall be provided that echo those of surrounding buildings.

(d) Massing and Articulation. Maximum building length parallel to the primary abutting street shall not exceed (300) feet without a visual break such as a courtyard or recess. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet.

Figure K17: Typical Parking Building Photo

(4) Live-Work Building.

(a) Building Type. Similar to townhouses in scale and detailing, but with a ground floor designed for small commercial, office and service establishments, often with storefront detailing. Buildings are typically placed close to the sidewalk, although a forecourt or patio design may be used to allow for outdoor seating space.

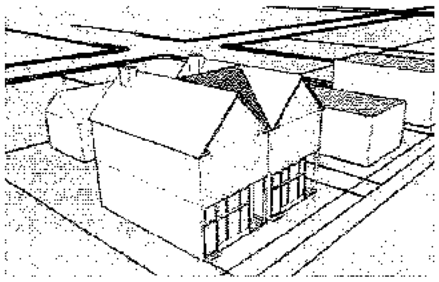

Figure K18: Typical Live-Work Building

(b) Access and Entry. Principal entry to each ground floor unit shall be a direct entrance from the primary abutting street.

(c) Massing and Articulation. Massing, proportions and articulation of live-work buildings shall respond to existing residential buildings in their vicinity. Maximum building length along the primary abutting public street shall not exceed one hundred sixty (160) feet without a significant articulation of the facade. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet.

(5) Residential/Commercial Conversion.

(a) Building Type. A former residential building converted in whole or part to commercial or office use or courtyard; parking must be in the rear. The building form remains residential in character.

(b) Access and Entry. Principal entry to each ground floor unit shall be a direct entrance from the primary abutting street. The residential form of the building shall generally be maintained. Accessibility may be improved by changes in entrance grade or other means.

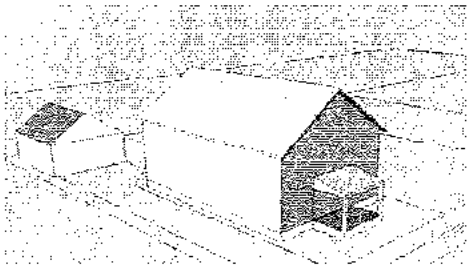

Figure K19: Typical Residential/ Commercial Conversion

Figure K20: Typical Residential/ Commercial Conversion Photo

(6) Podium Building.

(a) Building Type. A multi-story building in which the upper stories are stepped back from a lower base, to provide outdoor terraces, to avoid excessive shadowing of streets or public spaces, or to preserve important views.

(b) Access and Entry. One or more ground floor entrances from the primary abutting street shall be provided.

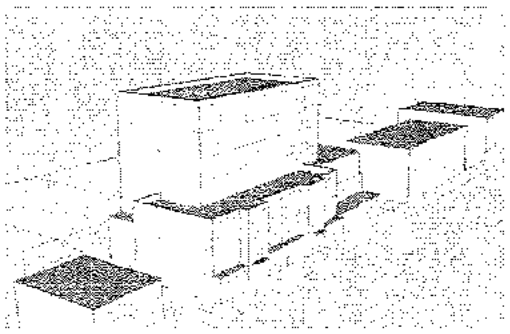

Figure K21: Typical Podium Building

(c) Massing and Articulation. Maximum building length along the primary abutting public street shall not exceed one hundred sixty (160) feet without a significant articulation of the facade. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet.

Figure K22: Typical Podium Building Photo

(7) Flex Building.

(a) Building Type. A variable building type at least two stories in height, designed to accommodate a variety of uses, including combinations of office, retail, lodging, and/or residential. A principal entrance should be oriented to the primary abutting street.

(b) Access and Entry. One or more ground floor entrances from the primary abutting street shall be provided.

(c) Massing and Articulation. Maximum building length along the primary abutting public street shall not exceed one hundred sixty (160) feet without a significant articulation of the facade. Facades facing a public street shall be vertically articulated at a minimum interval of forty (40) feet.

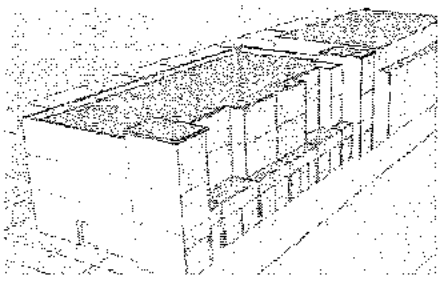

Figure K23: Typical Flex Building

(8) Industrial Building.

(a) Building Type. A large open-floor-plate building that allows maximum flexibility in the types of uses accommodated. Buildings are typically characterized by a tall single story or first floor, and may be set on a raised base to facilitate industrial loading and unloading.

(b) Access and Entry. One or more ground floor entrances from the primary abutting street shall be provided.

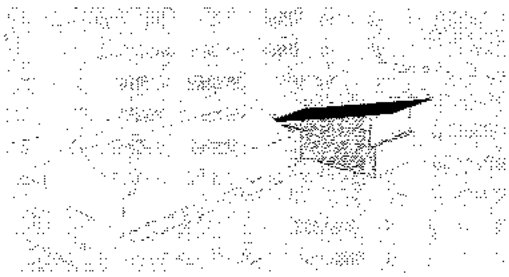

Figure K24: Typical Industrial Buildings

(c) Massing and Articulation. Facades facing a public street shall be vertically articulated at a minimum interval of 60 feet.

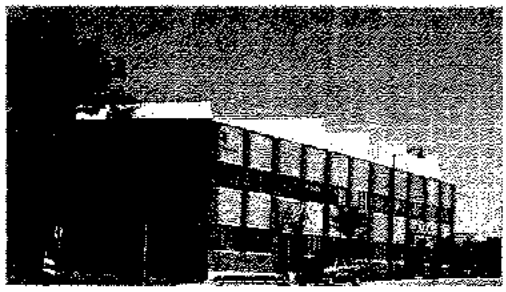

Figure K25: Typical Industrial Building Photo

(9) Free-Standing Commercial Building.

(a) Building Type. A free-standing building of one or more stories designed to support a mix of commercial, retail, restaurant, service, office, or similar uses. The building may include multiple tenants.

(b) Access and Entry. Buildings shall have a clearly defined, highly-visible customer entrance or entrances, marked by canopies, porticos, overhangs, arcades, facade recesses or projections, or similar features.

(c) Massing and Articulation. Massing and articulation requirements shall be consistent with other applicable standards in this ordinance.

(10) Civic or Institutional Building.

(a) Building Type. This category includes a number of building types and sizes ranging from buildings with large floor plats and multiple levels to smaller-scaled structures Civic buildings can accommodate a variety of arts, culture, education, recreation, government, and public assembly purposes. A variety of architectural styles is acceptable.

(b) Access and Entry. Buildings should have at least one entrance to a public street, courtyard, lawn, or other common open space.

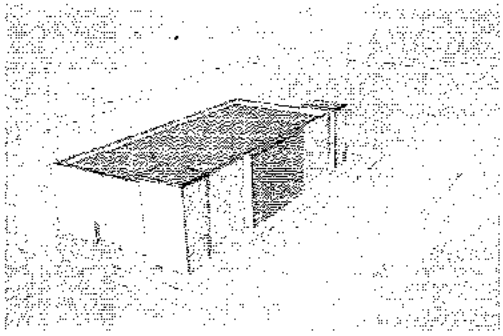

Figure K26: Typical Free-Standing Commercial Building

(c) Massing and Articulation. Facades facing a public street or public space shall be articulated vertically at a minimum interval of every forty (40) feet. Street-facing facades shall be positioned to accentuate vistas or directed views such as terminal views at the end of streets or adjacent to public spaces such as parks.

SUBCHAPTER 28L: PROCEDURES

28.181 IN GENERAL.

(1) Statement of Purpose.

This section describes how land development decisions and projects are approved and permitted in Madison. It describes how an application is submitted, who processes the application, the types of procedures that are followed, and what the approval allows the applicant to do.

(2) Common Elements.

Many of the application requirements outlined in this section have the following common elements:

Table 28L-1. Common Elements of Zoning Applications.

Element	Description
Applicability and Initiation	This element specifies the situations, building types, development types, uses, or contexts where the procedure applies, who may file an application, and where to file an application. **Eligible Applicant:** Unless otherwise specified, any person, firm, corporation or organization that has any of the following interests that are specifically enforceable in the land that is subject to the application may file an application: • a freehold interest • a possessory interest entitled to exclusive possession • a contractual interest which may become a freehold possessory interest • any exclusive possessory interest • any unit of government which issues a relocation order or adopts a resolution of necessity of taking describing the land for which the application is sought
Completeness Review	Application materials shall be submitted as specified in each section. Incomplete applications will not be accepted.
Notice	This element specifies the type of required notice, who provides it and when it must be provided.
Decision	This element specifies the procedures for review and decision-making by appropriate staff, agencies, commissions, and boards.
Standards	This element specifies the standards for approval of an application.
Subsequent Applications	This element identifies any waiting period required before submission of an additional application.
Alterations	This element specifies how changes are made to an approved application.
Scope of Approval	This element specifies what rights an applicant obtains from approval or conditional approval of an application and any applicable time period for exercising rights under the approval.
Finalization of Approval	This element specifies finalization or recording requirements following approval.

(3) Pre-Application Meeting.

Before an application is filed, the applicant is strongly encouraged to attend a pre-application meeting with Zoning and Planning staff. The purpose of the pre-application meeting is to discuss, in general, the procedures and requirements for an Application.

(4) Completeness Review.

These procedures apply to any Application unless a different procedure is established for the Application elsewhere in this chapter.

(a) No Application is complete unless all of the required information is included and all application fees have been paid. The Zoning Administrator may refuse to accept an incomplete application.

(b) The Zoning Administrator will make current application materials available in the offices of the Department of Planning and Community and Economic Development.

(c) The Zoning Administrator may establish a schedule for filing any Application that requires action by the Plan Commission, Zoning Board of Appeals, Urban Design Commission, or the Common Council. Completed applications shall be filed according to any posted schedule of the Zoning Administrator.

(5) Notice.

The type of notice required for certain applications is established in Table 28L-2 below.

Table 28L-2. Notice Requirements.

Type of Notice (Responsible Party)	Requirements	Map Amendment	Text Amendment	Conditional Use	Variance	Demolition
Preapplication (Applicant)	Applicant must notify the following persons at least thirty (30) days before filing an application. Notice shall be by U.S. mail or electronic mail, with a copy to the Department Director and the Zoning Administrator.					
	• neighborhood association registered with City that serves the area where the property is located	✓	✓	✓		✓
	• business association listed with City that serves the area where the property is located	✓	✓	✓		✓
	• any person registered with the Department of Department of Planning and Community and Economic Development to receive such notice					✓
	• the alderperson of the district in which the property is located.	✓	✓	✓		✓
	Failure to provide pre-application notice does not invalidate any action taken on the application by the Plan Commission or Common Council. The neighborhood notice requirement may be waived, if approved by the Alderperson, and Director of Planning and Community and Economic Development.					
Publication (City)	Class 1 notice in the official city paper (see ch. 985 WSA).				✓	
	Class 2 notice in the official city paper (see ch. 985 WSA).	✓	✓	✓		✓
First class mail (City)	Recipients:					
	• the applicant			✓	✓	✓
	• the alderperson of the district in which the property affected is located.	✓		✓	✓	✓
	• the owners of record, as listed in the office of the City Assessor, and occupants of multi-tenant buildings, of property in whole or in part situated within two hundred (200) feet of the boundaries of the properties affected.	✓		✓		✓
	• the owners of record, as listed in the office of the City Assessor, and occupants, of adjoining property.				✓	
Signage (Applicant)	Obtain the sign from the Department of Planning and Community and Economic Development, on the property that is the subject of the application. The sign must list the times and locations of all public hearing(s) to consider the application. The sign shall be posted at least twenty-one (21) days prior to the public hearing and shall be located in a position on the property so that it can be read from the sidewalk or other public right-of-way. If a property abuts more than one (1) public right-of-way, a sign shall be placed facing each public right-of-way. The sign shall be removed within seven (7) days of the last hearing listed on the sign. Failure to post the sign shall not invalidate any action taken on the application by the Plan Commission or Common Council.	✓		✓		✓

28.182 TEXT AND MAP AMENDMENTS.

(1) Purpose.

This section allows the Common Council to amend the text of this Chapter or the zoning districts in order to promote public health, safety, and welfare throughout the City, giving due consideration to existing conditions, conservation of property values, building development providing best advantage to the City, the current use of property, and in the case of map amendments, the cost of providing municipal services to the property and uses accommodated by the map amendment.

In the case of map amendments to the floodplain zoning districts, actions that require an amendment and/or submittal of a Letter of Map Change (LOMC) shall include but not be limited to the following:

(a) Any fill or floodway encroachment that obstructs flow causing any increase in the regional flood height.

(b) Any change to the floodplain boundaries and/or watercourse alterations on the FIRM.

(c) Any changes to any other officially adopted floodplain maps.

(d) Any floodplain fill that will result in raising the elevation of the filled area to a height at or above the flood protection elevation and is contiguous to land lying outside the floodplain.

(e) Correction of discrepancies between the water surface profiles and floodplain maps.

(f) Any upgrade to a floodplain zoning ordinance text required by Wis. Adm. Code § NR 116.05 or otherwise required by law or for changes by the municipality.

(g) All channel relocations and changes to maps to alter floodway lines or to remove an area from the floodway or the floodfringe that is based on a base flood elevation from a flood insurance rate map requires prior approval by FEMA.

(Am. by ORD-14-00146, 9-12-14)

(2) Applicability and Initiation.

(a) The Common Council may amend this Chapter at any time as provided in this section.

(b) There are two classes of amendments: text amendments and map amendments. These are defined below:

Text amendments	Amendments to the **text** of this chapter.
Map amendment	An amendment to the **zoning map** changes the district classification of an area or property.

(c) Text Amendments may be initiated by the Common Council and any alderperson.

(d) Map Amendments may be initiated by the Common Council or an Eligible Applicant as specified in Table 28L-1.

(e) Filing. The applicant shall file the application with the Zoning Administrator.

(3) Completeness Review.

See Sec. 28.181(4).

(4) Notice.

The following notice is required for any map amendment (See Sec. 28.181(5) above):

(a) Pre-application. Failure to provide pre-application notice does not invalidate any action taken on the application by the Plan Commission or Common Council. The notice requirement may be waived, if approved by the Alderperson, and Director of Planning and Community and Economic Development.

(b) Publication.

(c) Mail. Notice of the required public hearing shall be sent at least ten (10) days before the date of the public hearing.

(d) Signage.

(5) Decision.

(a) Recommendation by the City Plan Commission.

1. The Plan Commission shall hold a public hearing on each application for an amendment. The procedures for conducting the hearing and recording the proceedings are prescribed in the "Basic Policy and Procedures Manual" adopted by the Plan Commission.

2. After the public hearing, the City Plan Commission shall submit its recommendation to the Common Council prior to the Council's public hearing.

3. The Plan Commission may recommend conditions that are consistent with the intent of this ordinance and will protect the public interest including consideration of overdue taxes and/or fees; the applicant's history of compliance with relevant ordinances and approvals, including but not limited to building and minimum housing code, and zoning code; and alcohol license provisions and approvals.

4. The Plan Commission may recommend the following modifications:

   a. The adoption of a map amendment changing the zoning classification of the property in question to any classification in the same subchapter that is more restrictive than that proposed by the applicant as shown in the following table. This rule is not applicable for the Special Districts, Subchapter 28G.

Zoning Districts Listed in Order of Most Restrictive to Least Restrictive, by Subchapter

* Master Planned Districts

(Am. by ORD-14-00029, 2-18-14)

   b. That a proposed map amendment take effect within an area smaller than the area as originally proposed and which is entirely included within the originally proposed area.

5. All map amendments that obstruct flow, or cause any increase in the regional flood height require flooding easements or other appropriate legal arrangement from all adversely affected property owners. (Am. by ORD-13-00086, 5-29-13; ORD-14-00146, 9-12-14)

(b) Action by Common Council. The Common Council shall not act upon a text amendment or map amendment until it has received a recommendation from the City Plan Commission as provided above.

(c) Protest Petition.

1. A written protest against a map amendment may be filed after the application is filed or modified. If a valid protest petition is filed, the map amendment shall not become effective except by the favorable vote of three-fourths (¾) of the members of the Common Council voting on the proposed change.
2. The protest must be filed with the City Clerk.
3. The protest must be duly signed and acknowledged by:
   a. The owners of twenty percent (20%) or more of the area of land included in the proposed map amendment or modification, or
   b. Twenty percent (20%) of the registered electors residing in the areas of the land included in the proposed map amendment or modification, or
   c. The owners of twenty percent (20%) or more of the area of the land immediately adjacent extending one hundred (100) feet from the subject property, or
   d. The owners of twenty percent (20%) or more of the land directly opposite from the subject property and extending one hundred (100) feet from the street frontage of the opposite land, or
   e. Twenty percent (20%) of the registered electors residing within all buildings any part of which is on land immediately adjacent extending one hundred (100) feet from the subject property, or
   f. Twenty percent (20%) of the registered electors residing within all buildings any part of which is on land directly opposite the subject property and extending one hundred (100) feet from the street frontage of the opposite land.
4. Protest Petition Procedure.
   a. If a protest is commenced under this Subdivision, the following procedure must be used in order for the protest petition to be accepted as valid by the City.
   b. Each protest petitioner must date and acknowledge her/his signature in compliance with Wis. Stat. § 706.07, Uniform Acknowledgment Act. The protest petitioner shall either sign in the presence of a notary public or other officer as specified in WSA § 706.07(2) or shall personally appear before the notary public or other officer and acknowledge his or her prior signing.
   c. Protest petitions shall be delivered to the City Clerk no later than noon on the Monday before the proposed map amendment is initially set for final Common Council consideration.
   d. If a protest petition is filed after noon on the Thursday before the proposed map amendment is initially set for final Common Council consideration, the matter shall be referred to the next Common Council meeting.
   e. The same day the petitions are received, the City Clerk shall make copies of the petitions and forward these copies to the Department of Planning and Community and Economic Development.
   f. The Department of Planning and Community and Economic Development shall compute the protest petitions and inform the Common Council concerning the percentage of protesters by the end of three (3) business days following the filing of the petition, and shall provide its findings in writing to the Mayor, Common Council and City Clerk.

g. Any changes to a timely-filed protest petition shall be made by noon on the Thursday before the meeting to which the Common Council referred the proposed map amendment must comply with the requirements of sub. (b) above, and may not serve as a basis for referral of the question.

h. Although protesters may exercise their rights to subsequently withdraw their names from a protest petition, the withdrawal must be signed, dated and acknowledged and the form of the acknowledgement must also comply with Wis. Stat. § 706.07. Withdrawals must be submitted to the City Clerk by noon on the Monday before final Common Council consideration. If action on the proposed map amendment is not taken at the initial meeting of the Common Council, additional withdrawals may be again filed with the City Clerk until noon on the Monday before the Common Council again proposes to act upon the map amendment.

(Am. by ORD-17-00053, 6-19-17)

(6) Standards for Map Amendments or Text Amendments.

Text amendments or map amendments are legislative decisions of the Common Council that shall be based on public health, safety and welfare, shall be consistent with the Comprehensive Plan, and shall comply with Wisconsin and federal law.

(7) Subsequent Applications.

An application for a map amendment that is denied by the Common Council cannot be resubmitted within one (1) year from the date of the denial, unless:

(a) The Council specifically determines that the denial is without prejudice, or

(b) The application is substantially different from the application that was denied.

(8) Amendments to Floodplain Regulations or Maps.

No amendment to floodplain regulations, either text or map, shall become effective until approved by the Wisconsin Department of Natural Resources and the Federal Emergency Management Agency.

In AE Zones with a mapped floodway, no obstructions or increases shall be permitted unless the applicant receives a Conditional Letter of Map Revision from FEMA and amendments are made to this ordinance, the official floodplain zoning maps, floodway lines and water surface profiles. Any such alterations must be reviewed and approved by FEMA and the DNR.

In A Zones increases equal to or greater than 1.0 foot may only be permitted if the applicant receives a Conditional Letter of Map Revision from FEMA and amendments are made to this ordinance, the official floodplain maps, floodway lines, and water surface profiles.

(Am. by ORD-14-00146, 9-12-14)

(9) Finalization of Approval.

A text amendment is codified by the City Attorney as provided in Sec. 3.07, MGO. A map amendment becomes part of the "Zoning District Maps" on file in the office of the Zoning Administrator.

28.183 CONDITIONAL USES.

(1) Statement of Purpose.

This Chapter divides the City into districts where the design, use, bulk and location of buildings and structures are compatible. However, some uses, and in some cases, design, bulk, and building location, have unique characteristics, and therefore cannot be properly allowed as unrestricted permitted uses. The City requires consideration, in each case, of their impact on neighboring land or public facilities, and of the public need for the

particular use at a particular location. These uses may be necessary or desirable in a particular district if sufficient consideration is given to their location, development and operation.

(2) Applicability and Initiation.

This section applies to those uses that are enumerated as conditional uses in the zoning district regulations (Subchapters 28C through 28I). Any Eligible Applicant (See Sec. 28.181(2)) may file an application for a conditional use permit with the Zoning Administrator.

(3) Completeness Review.

See Sec. 28.181(4).

(4) Notice.

A conditional use permit application requires the following type of notice (See Sec. 28.181(5)):

(a) Preapplication. Failure to provide notice does not invalidate any action taken on the application by the Plan Commission or Common Council. The notice requirement may be waived, if approved by the Alderperson, and Director of Planning and Community and Economic Development.

(b) Mail. Notice of the required public hearing shall be sent at least ten (10) days before the public hearing.

(c) Publication.

(5) Decision.

(a) City Plan Commission.

1. The Plan Commission shall hold a public hearing on each complete application. The hearing shall be conducted and recorded in accordance with the Plan Commission's Policies and Procedures Manual.
2. The Plan Commission shall approve, approve with conditions, deny, or place on file any application for a conditional use.
3. The Plan Commission shall render its decision within a reasonable time.
4. The concurring vote of a majority of quorum of the Plan Commission is required to approve a conditional use.
5. The decision of the Plan Commission shall include findings of fact. When a conditional use application is denied, the findings of fact shall list the standard(s) that have not been met and the reasons such standard(s) was not met.
6. When reviewing a conditional use application that involves any new construction of a building or an addition to an existing building, the Plan Commission may require the applicant to submit plans to the Urban Design Commission for comments and recommendations.

(b) Appeal From Action by Plan Commission.

1. The Plan Commission's decision is appealable to the Common Council.
2. The appeal may be filed by:
   a. The applicant, or
   b. The Alderperson of the district in which the use is located, or
   c. Twenty percent (20%) or more of the property owners entitled to notice who object to the establishment of the conditional use. (Am. by ORD-12-00147, 12-5-12)
3. The appeal shall specify the grounds with specific reference to the findings of the Plan Commission.
4. The appeal shall be filed with the Secretary of the Plan Commission within ten (10) days of the final action of the Plan Commission.
5. The Secretary of the Plan Commission or his/her designee shall transmit the appeal to the City Clerk, who shall file the appeal with the Common Council.

6. The Common Council shall fix a reasonable time for hearing the appeal, and decide the appeal within a reasonable time.
7. The Common Council shall give public notice and due notice to the parties in interest.
8. The action of the Plan Commission shall be upheld unless it is reversed or modified by a favorable vote of two-thirds (2/3) of the members of the Common Council.
9. Any person aggrieved by the decision of the Common Council or any alderperson, officer, department, board or bureau of the City, may, within thirty (30) days after the decision is published in the proceedings of the Common Council, commence an action seeking the remedy available by certiorari. (Am. by ORD-14-00165, 10-29-14)

(6) Approval Standards.

(a) The City Plan Commission shall not approve a conditional use without due consideration of the recommendations in the City of Madison Comprehensive Plan and any applicable, neighborhood, neighborhood development, or special area plan, including design guidelines adopted as supplements to these plans. No application for a conditional use shall be granted by the Plan Commission unless it finds that all of the following conditions are present:

1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, or general welfare.
2. The City is able to provide municipal services to the property where the conditional use is proposed, given due consideration of the cost of providing those services.
3. The uses, values and enjoyment of other property in the neighborhood for purposes already established will not be substantially impaired or diminished in any foreseeable manner.
4. The establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
5. Adequate utilities, access roads, drainage, parking supply, internal circulation improvements, including but not limited to vehicular, pedestrian, bicycle, public transit and other necessary site improvements have been or are being provided.
6. Measures, which may include transportation demand management (TDM) and participation in a transportation management association have been or will be taken to provide adequate ingress and egress, including all off-site improvements, so designed as to minimize traffic congestion and to ensure public safety and adequate traffic flow, both on-site and on the public streets.
7. The conditional use conforms to all applicable regulations of the district in which it is located.
8. When applying the above standards to an application by a community living arrangement, the Plan Commission shall:
   a. Bear in mind the City general intent to accommodate community living arrangements.
   b. Exercise care to avoid an over-concentration of community living arrangements, which could created an institutional setting and seriously strain the existing social structure of a community. Considerations relevant for this determination are the distance between the proposed facility and other such facilities, the capacity of the proposed facility and the percentage by which the facility

will increase the population of the community, the total capacity of all community living arrangements in the community, the impact on the community of other community living arrangements, the success or failure of integration into communities of other such facilities operated by the individual or group seeking approval, and the ability of the community to meet the special needs, if any, of the applicant facility.

9. When applying the above standards to any new construction of a building or an addition to an existing building the Plan Commission shall find that the project creates an environment of sustained aesthetic desirability compatible with the existing or intended character of the area and the statement of purpose for the zoning district. In order to find that this standard is met, the Plan Commission may require the applicant to submit plans to the Urban Design Commission for comment and recommendation. (Am. by ORD-14-00030, 2-18-14)

10. When applying the above standards to an application for a reduction in off-street parking requirements, the Plan Commission shall consider and give decisive weight to all relevant facts, including but not limited to, the availability and accessibility of alternative parking; impact on adjacent residential neighborhoods; existing or potential shared parking arrangements; number of residential parking permits issued for the area; proximity to transit routes and/or bicycle paths and provision of bicycle racks; the proportion of the total parking required that is represented by the requested reduction; the proportion of the total parking required that is decreased by Sec. 28.141. The characteristics of the use, including hours of operation and peak parking demand times design and maintenance of off-street parking that will be provided; and whether the proposed use is now or a small addition to an existing use.

11. When applying the above standards to telecommunication facilities, the Plan Commission shall consider the review of the application by a professional engineer required by Sec. 28.143.

12. When applying the above standards to an application for height in excess of that allowed in the district, the Plan Commission shall consider recommendations in adopted plans; the impact on surrounding properties, including height, mass, orientation, shadows and view; architectural quality and amenities; the relationship of the proposed building(s) with adjoining streets, alleys, and public rights of ways; and the public interest in exceeding the district height limits.

13. When applying the above standards to lakefront development under Sec. 28.138, the Plan Commission shall consider the height and bulk of principal buildings on the five (5) developed lots or three hundred (300) feet on either side of the lot with the proposed development.

14. When applying the above standards to an application for height in excess of that allowed by Section 28.071(2)(a) Downtown Height Map for a development located within the Additional Height Areas identified in Section 28.071(2)(b), the Plan Commission shall consider the recommendations in adopted plans, and no application for excess height shall be granted by the Plan Commission unless it finds that all of the following conditions are present:

    a. The excess height is compatible with the existing or planned (if the recommendations in the Downtown Plan call for changes) character

of the surrounding area, including but not limited to the scale, mass, rhythm, and setbacks of buildings and relationships to street frontages and public spaces.

b. The excess height allows for a demonstrated higher quality building than could be achieved without the additional stories.

c. The scale, massing and design of new buildings complement and positively contribute to the setting of any landmark buildings within or adjacent to the projects and create a pleasing visual relationship with them.

d. For projects proposed in priority viewsheds and other views and vistas identified on the Views and Vistas Map in the City of Madison Downtown Plan, there are no negative impacts on the viewshed as demonstrated by viewshed studies prepared by the applicant.

15. When applying the above standards to an application to redevelop a site that was occupied on January 1, 2013 by a building taller than the maximum building height allowed by Section 28.071(2)(a) Downtown Height Map, as provided by Section 28.071(2)(a)1., no application for excess height shall be granted by the Plan Commission unless it finds that all the following additional conditions are also present:

a. The new building is entirely located on the same parcel as the building being replaced.

b. The new building is not taller in stories or in feet than the building being replaced.

c. The new building is not larger in total volume than the building being replaced.

d. The new building is consistent with the design standards in Section 28.071(3) and meets all of the dimensional standards of the zoning district other than height.

e. The Urban Design Commission shall review the proposed development and make a recommendation to the Plan Commission.

16. When applying the above standards to an application for limited production and processing use, the Plan Commission shall consider the effect of such a use on the surrounding properties, including the effects of odors, noise, vibration, glare, hours of operation, and other potential side effects of a manufacturing process. (Cr. by ORD-15-00124, 11-11-15)

(b) Conditions.

1. Before granting a conditional use, the Plan Commission may stipulate conditions and restrictions on the establishment, location, construction, maintenance and operation of the conditional use. In doing so, the Plan Commission may consider overdue taxes and/or fees and the applicant's history of compliance with relevant ordinances and approvals, including but not limited to, building and minimum housing code, zoning code and zoning approvals, and alcohol license provisions and approvals.

2. The commission shall require evidence and guarantees of compliance with the conditions.

3. For property in the Wetland Overlay District, the Plan Commission shall attach conditions that will further the purposes of the Wetland Overlay District.

a. Such conditions may include but are not limited to: type of shore cover; erosion control measures; increased setbacks; specific sewage disposal and water supply facilities; wetland restoration; landscap-

ing and planting screens; period of operation; operational control; sureties; deed restrictions; location of piers, docks, parking areas and signs; and type of construction.

b. The Plan Commission may require additional information as needed to determine if the proposed use is consistent with the purposes of the Wetland Overlay District.

4. For residential development allowed as a conditional use, the Plan Commission shall require dedication of land for park and recreation purposes or a fee in lieu of land dedication in accordance with the current standards for plat, land divisions and planned developments in Sec. 16.23(8)(f), MGO, and Park Impact Fees in Sec. 20.08, MGO. Credit shall be given for any prior dedication or fee paid under those sections. (Am by ORD-16-00073, 9-15-16)

(7) Subsequent Applications.

No application for a conditional use that is denied wholly or in part by the Plan Commission (or, on appeal, by the Common Council) shall be resubmitted for a period of one (1) year from the date of the final decision, unless:

(a) The decision expressly states that it is placed on file without prejudice, and

(b) The applicant provides substantial new evidence or proof of a change of conditions that would support approval or conditional approval of the application.

(8) Alterations.

No alteration of a conditional use shall be permitted unless approved by the Plan Commission provided, however, the Zoning Administrator following consideration by the alderperson of the district, may approve minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the Plan Commission and the standards in sub. (6), above. Telecommunications towers, Class 1 Collocations, Class 2 Collocations and Radio Broadcast Service Facilities shall be considered minor alterations under this section. Criteria for review are provided in Sections 28.143 and 28.148. See Wis. Stat §§ 66.0404(3)(a)1 and (4)(gm) and 66.0406 (2013) (Am. by ORD-13-00189, 11-26-13)

(9) Scope of Approval.

(a) An order granting a conditional use is valid for one (1) year from the date of the approval. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting or altering the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced and is being diligently prosecuted.

(b) Where the plans have not been altered from the Plan Commission's approval, and the conditional use has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to twenty-four (24) months from the expiration date.

(c) Dormant Conditional Use. A conditional use permit shall be deemed to authorize only one particular conditional use and shall expire if the conditional use shall cease for more than one (1) year for any reason. (Cr. by ORD-14-00133, 8-13-14)

(d) Continuing Jurisdiction.

1. The Plan Commission retains continuing jurisdiction over all conditional uses for the purpose of resolving complaints against all previously approved conditional uses. This authority is in addition to the Zoning Administrator's authority under Sec. 28.202.

2. Any person, the Zoning Administrator, or other official may file a written complaint with the Plan Commission that one or more conditions of a conditional use permit have not been completed, or are being violated. (Am. by ORD-17-00030, 3-8-17)
3. The Plan Commission shall initially determine whether the complaint indicates a reasonable probability that the subject conditional use is in violation of a condition of approval. If the Plan Commission determines there is a reasonable probability of a violation, it shall conduct a hearing after giving notice as provided in Subsection (4), above.
4. The Plan Commission may, in order to bring the subject conditional use into compliance with the conditions previously imposed by the Plan Commission, modify the existing conditions and impose additional reasonable conditions. If no reasonable modification of the conditional use can be made that are consistent with the standards in Subsection (6), above, the Plan Commission may revoke the conditional use permit and direct the Zoning Administrator and the City Attorney to seek elimination of the subject use.
5. An appeal from a decision of the Plan Commission under this paragraph may be taken to the Common Council as provided by Subsection (5)(b), above.

(Renum. by ORD-14-00133, 8-13-14)

(10) Changes in Use.

(a) On any zoning lot where a conditional use is established, any alteration, expansion or establishment of any other use(s), including permitted uses, except structures and buildings serving as synagogues, mosques, temples, churches, parish houses, rectories, and other places of worship, telecommunications towers, Class 1 Collocations, Class 2 Collocations and Radio Broadcast Service Facilities, shall be subject to conditional use approval. (Am. by ORD-13-00189, 11-26-13)

(b) However, within existing buildings, a change in use from one permitted use to another permitted use without any addition in square footage shall be exempted from this provision; provided that any exterior alterations to existing structures or the lot shall require approval as a conditional use.

28.184 VARIANCES.

(1) Applicability and Initiation.

This section applies to any application to the Zoning Board of Appeals for a variance from the terms of this Chapter.

Any Eligible Applicant (See Sec. 28.181(2)) may file an application for a variance with the Zoning Administrator.

(2) Completeness Review.

See Sec. 28.181(4).

(3) Notice.

A variance application requires the following type of notice (see Sec. 28.181(5)):

(a) Mail. Notice of the required public hearing shall be sent at least five (5) days before the public hearing

(b) Publication.

(c) In the case of variances to the floodplain or wetland regulations, notice shall also be sent to the regional office of the Wisconsin Department of Natural Resources at least ten (10) days prior to the required hearing.

(4) Decision.

(a) The Zoning Board of Appeals shall hold a public hearing on each application.

(b) The Zoning Board of Appeals may approve, conditionally approve, or deny a variance after a public hearing. The Zoning Board of Appeals shall conduct the public hearing after it receives a complete application.

(c) The concurring vote of a majority of quorum of the Zoning Board of Appeals is required to grant a variance.

(d) The decision of the Zoning Board of Appeals shall include findings of fact.

(e) The Zoning Board of Appeals may impose conditions on the use, development or activities subject to the variance. The Zoning Board of Appeals may require the conditions in order to comply with the standards in this section, to mitigate the effect of the variance on other property in the neighborhood, and to better carry out the general intent of this ordinance.

(f) When a floodplain variance is granted the Board shall notify the applicant in writing that it may increase risks to life and property and flood insurance premiums could increase up to twenty-five dollars ($25) per one hundred dollars ($100) of coverage. A copy shall be maintained with the variance record.

(5) Approval Standards.

(a) The Zoning Board of Appeals shall not grant a variance unless it finds that the following conditions are present:

1. There are conditions unique to the property of the applicant that do not apply generally to other properties in the district.
2. The variance is not contrary to the spirit, purpose, and intent of the regulations in the zoning district and is not contrary to the public interest.
3. For a use variance, compliance with the strict letter of the ordinance will result in no reasonable use of the property.
4. For an area variance, compliance with the strict letter of the ordinance would unreasonably prevent use of the property for a permitted purpose or would render compliance with the ordinance unnecessarily burdensome.
5. The alleged difficulty or hardship is created by the terms of the ordinance rather than by a person who has a present interest in the property.
6. The proposed variance shall not create substantial detriment to adjacent property.
7. The proposed variance shall be compatible with the character of the immediate neighborhood.
8. In the floodplain districts, the variance shall not: grant, extend or increase any use prohibited in the zoning district; be granted for a hardship based solely on an economic gain or loss; be granted for a hardship which is self-created; or damage the rights or property values of other persons in the area.
9. In floodplain districts, the variance shall not cause an increase in the regional flood elevations or profiles, permit a lower degree of flood protection in the floodplain than the flood elevation, allow any floor, basement or crawlway below the regional flood elevation or allow actions without the required amendments.
10. In the floodplain districts, the lot for which the variance is requested, shall be less than one-half (1/2) acre and shall be contiguous to existing structures constructed below the regional flood elevation.
11. In floodplain districts, the variance shall not increase costs for rescue and relief efforts.

(6) Scope of Approval.

(a) An order granting a variance is valid for one (1) year from the date of the order. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting or altering the building.

(b) Where the plans have not been altered from those approved by the Zoning Board of Appeals, and the variance has expired, the Zoning Administrator may, after consulting with the Alderperson of the District, approve an extension up to twenty-four (24) months from the expiration date.

(Sec. 28.184 Am. by ORD-14-00146, 9-12-14)

28.185 APPROVAL OF DEMOLITION (RAZING, WRECKING) AND REMOVAL.

(1) Statement of Purpose.

It is hereby declared a matter of public policy that the good maintenance and rehabilitation of existing buildings, the preservation of safe and sanitary housing available at reasonable prices, and the careful consideration and planning of changes in the urban landscape are a public necessity and are required in the interest of the health, prosperity, safety, and welfare of the people. The purpose of this section is to aid in the implementation of adopted City plans, protect neighborhood character, preserve historic buildings, encourage the reuse and/or relocation of existing buildings, discourage buildings falling into a state of severe disrepair from lack of maintenance by the owner, encourage compliance with building and minimum housing codes, and allow the property owner to have a decision on approval or disapproval of the proposed use of the property before he or she takes the irrevocable step of demolishing or moving his or her existing building or buildings.

(2) Applicability and Initiation.

No building as defined in Sec. 29.03, MGO, shall be demolished or removed without a permit from the Building Inspection Division of the Department of Planning and Community and Economic Development.

Any Eligible Applicant (See Sec. 28.181(2)) may submit an application for a demolition or removal permits to the Director of the Building Inspection Division.

(a) An application for a demolition or removal permit shall contain a clear, detailed and complete statement of the present or most recent use and any use proposed to be made of the property if the demolition or removal permit is approved.

(b) An application for a permit also shall include plans for any proposed future use, including site, grading and landscaping plans, floor plans, building elevations and materials, the length of the current ownership, and photographs of the interior and exterior of the building(s). A written report of a licensed architect or engineer describing the condition of the building(s) may be submitted to substantiate the request.

(c) If the proposed demolition is to be accomplished by fire, the application shall designate the proposed method of demolition.

(3) Completeness Review.

See Sec. 28.181(4).

(4) Notice.

A demolition request, except for the applications submitted under (6) below, requires the following types of notice (See Sec. 28.181(5)):

(a) Preapplication. Failure to provide notice does not invalidate any action taken on the application by the Plan Commission or Common Council. The notice requirement may be waived, if approved by the Alderperson, and Director of Planning and Community and Economic Development.

(b) Mail. Notice of the required public hearing shall be sent at least ten (10) days before the public hearing.

(c) Publication.

1. A demolition or removal permit application considered with a zoning map amendment shall meet the public hearing requirements for zoning map amendments (See Sec. 28.181(5)).

2. A demolition or removal permit considered with a conditional use permit shall meet the public hearing requirements for conditional uses (See Sec. 28.181(5)).

(5) Decision.

(a) The Plan Commission shall hold a public hearing on each application except those that do not require approval by the Plan Commission. If the applicant for a demolition or removal permit requests an amendment to the Zoning Map pursuant to Sec. 28.182(10) or a conditional use approval pursuant to Sec. 28.183, the demolition or removal permit application shall be considered with the amendment to the zoning map or conditional use. The public hearing for a demolition or removal application shall meet the requirements of Sec. 28.183(5)(a)1., except that a demolition or removal application considered with a zoning map amendment shall meet the public hearing requirements in Sec. 28.182(4).

(b) The Plan Commission shall approve, approve with conditions, or deny a demolition or removal permit.

(c) When reviewing a demolition application where the proposed use is non-residential, the Plan Commission may require the applicant to submit plans to the Urban Design Commission and/or the Landmarks Commission for comments and recommendation.

(d) Appeal from Action by Plan Commission.

1. The Plan Commission's decision to grant or deny a demolition or removal permit may be appealed to the Common Council.
2. The appeal may be filed by:
   a. The applicant, or
   b. The Alderperson of the district in which the building proposed for demolition or removal is located.
3. The appeal shall specify the grounds, with specific reference to the findings of the Plan Commission.
4. The appeal shall be filed with the Zoning Administrator within ten (10) days of the final action of the Plan Commission.
5. The Zoning Administrator shall transmit the appeal to the City Clerk, who shall file the appeal with the Common Council.
6. The Common Council shall fix a reasonable time for hearing the appeal, and shall decide the appeal within a reasonable time.
7. The Common Council shall give public notice and due notice to the parties in interest.
8. The action of the Plan Commission shall be upheld unless it is reversed or modified by a favorable vote of two-thirds (2/3) of the members of the Common Council.
9. If the applicant for a demolition or removal permit also has requested a zoning map amendment pursuant to Sec. 28.182 or a conditional use permit pursuant to Sec. 28.183, the determination shall be appealed with the appeal of the conditional use or map amendment.

(6) Exemptions.

(a) Demolition or removal permits may be issued without the approval required in Subdivision (5) above whenever any one (1) of the following conditions is present, provided that: the subject building has not been used at any time as a single-family or multiple-family dwelling in whole or in part, is not a landmark, and is not located in an Historic District or Neighborhood Conservation District:

1. The Director of the Building Inspection Division finds that the building proposed to be demolished or removed is structurally unsound, subject to

an appeal as provided in Sec. 29.18, MGO. The applicant may support the request with the report of a licensed architect or engineer certifying and providing reasons that the building is structurally unsound.

2. The Director of the Building Inspection Division determines that the building proposed to be demolished or removed is an accessory building as defined in Sec. 28.211.

(b) Demolition or removal permits may be issued without the approval required in sub. (5) above whenever the subject building is a single-family dwelling being demolished due to damage by fire or other natural disaster and reconstructed to a similar bulk condition, at a similar location on the zoning lot, utilizing existing setbacks, as follows:

1. Neither the length, width, or height of the replacement building shall be more than two (2) feet greater than the length, width, or height of the building to be demolished;

2. The location of the replacement structure shall be placed in a similar location to the existing structure. If the damaged structure has a non-conforming setback, no side of the enlarged structure may be moved closer to any lot line with which there is a non-conforming setback; and

3. Demolition and building permits shall be issued within one (1) year of the incident of loss.

(Am. by ORD-15-00101, 10-15-15)

(7) Approval Standards.

Applications for demolition or removal permits shall not be approved, except as provided in (6) above, unless the following standards are met:

(a) Applications With a Proposed Future Use.

1. The Zoning Administrator issues a zoning certificate for the proposed use of the property. For the purpose of this subdivision, a zoning certificate shall mean a certification in writing that the proposed use of the property would be in compliance with the provisions of the Zoning Code.

a. If the Zoning Administrator finds that the proposed use of the property is not in compliance with the provisions of the Zoning Code, the applicant for a demolition or removal permit may apply for a map or text amendment pursuant to Sec. 28.182 or for a conditional use permit pursuant to Sec. 28.183 for the proposed use. All of the provisions of Secs. 28.182 and 28.183 shall apply to said applications, except that the time limit for commencement of the conditional use, pursuant to Sec. 28.183(9), shall be eighteen (18) months instead of twelve (12) months.

b. If after the procedures provided in Paragraph 1.a. are followed, the proposed use of the property would be in compliance with the provisions of the Zoning Code, the Zoning Administrator shall grant zoning approval for the proposed use, pursuant to Sec. 28.202(3).

2. The Plan Commission finds that both the requested demolition or removal and the proposed use are compatible with the purpose of this section and the intent and purpose expressed in the Zoning Code for the zoning district in which the property is located. Furthermore, the proposed use should be compatible with adopted neighborhood plans, the Comprehensive Plan or

with any applicable neighborhood conservation district requirements. When making this finding the Commission shall consider and may give decisive weight to any relevant facts, including but not limited to:

a. The effects the proposed demolition or removal and proposed use of the subject property would have on the normal and orderly development and improvement of surrounding properties.

b. The reasonableness of efforts to relocate the building, including but not limited to the costs of relocation, the structural soundness of the building; and

c. The limits that the location of the building would place on efforts to relocate it, and the availability of affordable housing.

3. In the case of landmarks or improvements located in a local Historic District, consideration and approval of demolition or removal permits by the Plan Commission shall be contingent upon the prior issuance of a certificate of appropriateness by the Landmarks Commission pursuant to Sec. 33.01(5)(c), MGO.

4. The Plan Commission shall consider the report of the City's historic preservation planner regarding the historic value of the property as well as any report submitted by the Landmarks Commission.

5. If a demolition or removal permit is approved, it shall not be issued until the reuse and recycling plan is approved by the Recycling Coordinator.

(b) Application With No Proposed Use. In addition to the above standards in Subsection (7)(a)3.-5.,

1. The Plan Commission finds that, based on evidence from the Madison Fire Department, Police Department, and/or Building Inspection Division, a potential fire hazard, potential unlawful use of the property, potential public nuisance, or other public health and safety concern supports demolition or removal before a future use is proposed, or

2. For a non-residential building, the Plan Commission finds that the use, bulk, and design requirements of the existing zoning district designation are adequate to ensure that development will conform to existing adopted City plans.

(8) Conditions and Guarantees.

The following conditions shall apply to all demolition or removal permits:

(a) Before granting a demolition or removal permit, the Plan Commission may stipulate conditions and restrictions upon the proposed alternative use as deemed necessary to promote the public health, safety and general welfare of the community, and to secure compliance with the standards and requirements specified in (7) above.

Conditions may include a requirement that a property owner obtain approval from the Plan Commission, pursuant to (7) above, for an alternative use that is not known at the time of application, and/or that the owner provide proof of financial capability and an executed contract with a construction firm, in a form acceptable to the Director of the Department of Planning and Community and Economic Development, prior to any permits being issued.

(b) Any alteration in plans for a proposed alternative use shall require Plan Commission approval, except for minor alterations as provided below. If the Plan Commission considers an alteration it shall approve the change(s) only if the new use is compatible with the intent and purpose of the zoning district in which the property is located, is compatible with the Comprehensive Plan and applicable neighborhood plan, and other relevant factors, including the effects of the proposed use on the normal and orderly development and improvement of surrounding properties.

(c) The Zoning Administrator may issue permits for minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the City Plan Commission and the standards in (7) above.

(d) Following issuance of a Certificate of Occupancy, future additions or alterations to the proposed alternative use of the property shall not be subject to review under this section.

(9) Scope of Approval.

(a) A demolition or removal permit is valid for one (1) year from the date of Plan Commission approval/action. During this time, the applicant must either lawfully commence the use or obtain a building permit and begin erecting the building. If the applicant obtains a valid building permit, construction must commence within six (6) months of the date of issuance. The building permit shall not be renewed unless construction has commenced and is being diligently prosecuted. (Am. by ORD-14-00133, 8-13-14)

(b) Where the plans have not been altered since issuance of the demolition or removal permit and the permit has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to twenty-four (24) months from the expiration date.

(10) Reuse and Recycling Plan.

Every person who is required to submit a reuse and recycling plan pursuant to Sec. 28.185(7)(a)5. above shall submit documents showing compliance with the plan within sixty (60) days of completion of demolition.

(11) Demolition by Fire.

Demolition by Fire is prohibited unless the burn is conducted by the Madison Fire Department (MFD) in conjunction with an MFD training event and limited to no more than three (3) demolitions by fire events per year. For any permit approved for demolition by fire, the applicant shall provide written notice of the date of the proposed demolition to the alderperson of the district where the demolition is proposed and to all owners and residents of properties within one thousand (1,000) feet of the boundaries of the property on which the demolition will occur. Such notice shall be provided at least five (5) days prior to the date of the proposed demolition.

(12) Penalty.

(a) Any person who fails to submit documentation of compliance with an approved reuse and recycling plan shall, upon conviction thereof, be subject to a forfeiture of not less than five hundred dollars ($500) and not more than one thousand dollars ($1,000). Each day or portion thereof such violation continues shall be considered a separate offense.

(b) Any person who fails to obtain a demolition or removal permit prior to the demolition or removal shall, upon conviction thereof, be subject to a forfeiture of not less than one thousand dollars ($1,000) and not more than two thousand dollars ($2,000). Each day or portion thereof such violation continues shall be considered a separate offense.

28.186 SITE AND BUILDING PLAN REVIEW.

(1) Purpose.

Site plan review is designed to:

(a) Promote development that is compatible with this Chapter, and

(b) Ensure that development is consistent with adopted neighborhood plans and the Comprehensive Plan, and

(c) Establish procedures for the review of uses, building types, or development situations that require site plan review where designated by this Chapter.

A site plan may be reviewed on its own or as part of another application (for example, a map amendment).

(2) Applicability.

The following buildings and uses are subject to site plan review:

(a) Any new principal or accessory building.

(b) Site alterations, including but not limited to alterations of parking lots and landscaped areas.

(c) Exterior alterations to buildings.

(d) Changes in use.

(e) Alterations to approved site plans.

(3) Decision.

The site and building plans shall be reviewed by the Zoning Administrator for conformity with this chapter. The Zoning Administrator shall transit a copy of submitted plans to appropriate City agencies for review and comment within their jurisdiction.

The Zoning Administrator shall approve, approve with conditions or deny a site plan. No public hearing is required. The applicant may appeal the Zoning Administrator's decision to the Zoning Board of Appeals. On appeal, the ZBA shall consider the administrative site plan at a public hearing.

(4) Compliance.

(a) For site and building plans approved before June 1, 2014, a property owner or operator is required to bring the property into compliance with all elements of the approved site and building plan by July 1, 2014.

(b) For site and building plans approved after June 1, 2014, a property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval.

(Sec. 28.186(4) Cr. by ORD-14-00095, 5-14-14)

SUBCHAPTER 28M: NONCONFORMITIES

28.190 STATEMENT OF PURPOSE.

Within the Zoning Districts established by this ordinance, there may exist uses, buildings, structures, and lots that do not conform to the provisions of this ordinance. The purpose of this Section is to specify those circumstances and conditions under which these nonconforming uses, buildings, structures, and lots shall be permitted to continue.

28.191 NONCONFORMING USES.

(1) The lawful nonconforming use of a building, structure, or land existing on the effective date of this ordinance may be continued although it does not conform to the provisions of this ordinance, provided that:

(a) Structural repairs or structural alterations to the building or structure shall not exceed fifty percent (50%) of the total assessed value of the building or structure.

(b) The nonconforming use shall not be extended or expanded.

(c) The building or structure does not become and remain vacant for a continuous period of twelve (12) months.

(d) The nonconforming use of the land does not cease for a continuous period of twelve (12) months.

28.192 NONCONFORMING BUILDINGS OR STRUCTURES.

A lawful nonconforming building or structure existing on the effective date of this ordinance may be continued although it does not conform to the provisions of this ordinance with respect to bulk characteristics including, but not limited to, setback, open space, floor area ratio, height, density, parking facilities, amount of parking, and style, provided that any additions or enlargements shall conform to the provisions of the ordinance.

28.193 NONCONFORMING LOTS.

(1) A lawful nonconforming lot existing on the effective date of this ordinance may be continued although it does not conform to the provision of this ordinance, provided that the size and shape of the lot shall not be changed in any way to increase the nonconformity.

(a) Lots of Record. In any district where residential uses are allowed, a single-family dwelling may be established on a lot of record existing on the effective date of this ordinance, regardless of the size of the lot, provided that all other requirements of the applicable zoning district are complied with.

28.194 RESTORATION OF A NONCONFORMING BUILDING OR STRUCTURE.

(1) A lawful nonconforming building or structure existing on the effective date of this ordinance that has been damaged or destroyed may be restored to the size, location, and use that it had immediately before the damage or destruction occurred provided that:

(a) The nonconforming building or structure was damaged or destroyed on or after March 2, 2006, and

(b) The damage or destruction was caused by violent wind, vandalism, fire, flood, ice, snow, mold, or infestation.

(2) The size of the restored building or structure may be larger than the size it was immediately before the damage or destruction if necessary for the structure or building to comply with applicable state or federal requirements.

28.195 CERTIFICATE OF OCCUPANCY FOR NONCONFORMING USE.

Any person having a legal or equitable ownership interest of record in a property that is nonconforming as to use shall obtain a certificate of occupancy from the office of the Zoning Administrator. Such person shall present documentary evidence that said use was a lawful

permitted or conditional use at the time it originated and was made nonconforming by the adoption of this ordinance or any amendment thereto or was made nonconforming by the zoning ordinance in effect at the time this ordinance was adopted. Documentary evidence may include leases, affidavits, lawfully issued permits, certificates of occupancy, and other legal documents, subject to verification of authenticity and accuracy.

SUBCHAPTER 28N: ADMINISTRATION AND ENFORCEMENT

28.201 GENERAL PROVISIONS.

(1) Administration.

The administration of this ordinance is vested the following three (3) offices of the City of Madison:

(a) Zoning Administrator
(b) Zoning Board of Appeals
(c) City Plan Commission

28.202 ZONING ADMINISTRATOR.

(1) Establishment.

(a) This section establishes the office of the Zoning Administrator of the Department of Planning and Community and Economic Development.
(b) The Zoning Administrator is responsible to the Director of the Building Inspection Division or her/his designee.
(c) The Director of the Building Inspection Division is assigned the same powers as the Zoning Administrator.

(2) Duties.

The Zoning Administrator shall enforce this ordinance, and shall exercise the duties listed below to determine compliance with this chapter and to support its enforcement or administrative functions:

(a) Issue all zoning certificates (See (3) below).
(b) Issue all certificates of occupancy.
(c) Approve all site plans.
(d) Conduct inspections of buildings, structures, and use of land, including damage assessment for floodplain structures, to determine compliance with this ordinance. (Am. by ORD-14-00146, 9-12-14)
(e) Maintain permanent and current records of this ordinance, including but not limited to all maps, amendments, conditional uses, variances, appeals, zoning certificates, certificates of occupancy, and applications for approval.
(f) Provide and maintain public records relative to all matters arising out of this ordinance.
(g) Receive, file and forward to the City Clerk all applications for amendments to this ordinance.
(h) Receive, file and forward to the City Plan Commission all applications for conditional uses.
(i) Receive, file and forward to the Zoning Board of Appeals all applications for appeals, variances or other matters on which the Zoning Board of Appeals is required to act under this ordinance.
(j) Initiate, direct and review, from time to time, a study of this chapter.
(k) Make recommendations to the City Plan Commission about revisions to this chapter.
(l) Refer violations of this chapter to the City Attorney for prosecution. Copies of the violation report on floodplain regulations shall be sent to the Southern District office of the Wisconsin Department of Natural Resources.
(m) Review and interpret deed restrictions which were initiated at the request of a City agency in order to relate the restrictions to uses of land authorized in this Zoning Code.
(n) Provide substantial damage assessment for floodplain structures.
(o) Maintain floodplain records, including all permits issued, inspections made, and work approved related to floodplains; documentation of certified lowest floor and

regional flood elevations; floodproofing certificates; floodplain maps, and ordinances, all water surface profiles, substantial damage assessment reports, and list of nonconforming structures and uses. (Am. by ORD-14-00146, 9-12-14)

(p) Submit copies of applications for amendments, variances and appeals to the floodplain regulations and floodplain maps to the appropriate Regional Office of the Wisconsin Department of Natural Resources, and the Federal Emergency Management Agency.

(q) Submit copies of any adopted amendments, any decisions by the Zoning Board of Appeals on appeals and variances to the floodplain regulations and floodplain maps within ten (10) days of the decision, any case-by-case analyses of proposals in floodplain areas, an annual summary report of the number and types of zoning actions taken and substantial damage assessment reports to the appropriate District Office of the Wisconsin Department of Natural Resources. Decisions by the Zoning Board of Appeals on appeals and variances to the flood plain regulations and flood plain maps shall be signed by the chair of the Zoning Board of Appeals and shall state the basis for the Board's decision, including appropriate facts.

(r) Take other actions that are assigned under other provisions of this chapter.

(3) Issuance of Zoning Certificates.

(a) A zoning certificate is required before any permit relating to the use of land, buildings or structures is issued by any officer, department or employee of the City.

(b) Any permit or certificate of occupancy issued in conflict with this Section is null and void.

(c) This section does not apply to:

1. Lots without buildings or structures; and
2. Lots used for public recreation purposes.

(d) The Zoning Administrator shall approve or deny the zoning certificate application. Approval indicates that the proposed use of land, buildings or structures and any future proposed buildings or structures comply with all of the provisions of this chapter.

(e) No change in use shall be made until a zoning certificate has been issued by the Zoning Administrator. Every certificate shall state that the use complies with all provisions of this ordinance. For the purposes of floodplain regulations, this certificate shall also be known as a Certificate of Compliance. When applicable in floodplain areas, the Zoning Administrator shall require a certification by a registered professional engineer, architect or land surveyor that the fill, lowest floor, and flood elevations and other floodplain regulatory factors were accomplished in compliance with the provisions of this ordinance. In the floodplain areas, it shall be the responsibility of the applicant to secure all other necessary permits from all appropriate Federal and Wisconsin State agencies. (Am. by ORD-13-00086, 5-29-13; ORD-14-00146, 9-12-14)

(4) Appeals to Decisions of the Zoning Administrator.

Any decision of the office of the Zoning Administrator may be appealed to the Zoning Board of Appeals, as specified in Sec. 28.205(5) below.

28.203 COMMON COUNCIL.

The Common Council is the governing body of the City of Madison. The Common Council is the final decision maker for text or map amendments to this chapter. Refer to Chapter 2, MGO for the Standing Rules for the Government of the Common Council.

28.204 PLAN COMMISSION.

(1) Establishment.

The City Plan Commission is created by Chapter 16 of the City Code.

(2) Jurisdiction.

The City Plan Commission has the following jurisdiction and authority:

(a) To hear and act upon all applications for conditional uses.

(b) To hear and make recommendations about applications for amendments to this chapter to the Common Council.

(c) To hear and act upon all other matters referred to it upon which it is required to act under this chapter.

28.205 ZONING BOARD OF APPEALS.

(1) Establishment.

This section establishes the Zoning Board of Appeals as authorized by Wis. Stat. § 62.23(7)(e).

(2) Membership and Administration.

(a) The Zoning Board of Appeals has five (5) members appointed by the Mayor subject to confirmation by the Common Council.

(b) Each member of the Zoning Board of Appeals serves for a staggered term of three (3) years.

(c) The members of the board are removable by the Mayor for cause upon written charges and after public hearing.

(d) The Mayor shall designate one (1) of the members as chairman.

(e) The board may employ a secretary and other employees.

(f) Vacancies shall be filled for the unexpired terms of members whose terms become vacant.

(g) The Mayor shall appoint, for staggered terms of three (3) years, two (2) alternate members in addition to the five (5) standing members. Annually, the Mayor shall designate one (1) of the alternate members as first alternate and the other as second alternate. The first alternate shall act, with full power, only when a member of such board refuses to vote because of interest or when a member is absent. The second alternate shall so act only when the first alternate so refuses or is absent or when more than one member of the board so refuses or is absent. The above provisions, with regard to removal and the filling of vacancies, shall apply to the alternates.

(3) Jurisdiction.

The Zoning Board of Appeals has the following jurisdiction and authority:

(a) To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by the Zoning Administrator in the enforcement of this chapter.

(b) To hear and act upon applications for variances from the terms provided in this chapter (Refer to Sec. 28.184 for procedures and standards).

(c) To hear and decide appeals where it is alleged there is error in a determination made by the Director of the Department of Planning and Community and Economic Development.

(d) To hear and decide disputes concerning the district boundaries shown on the official Floodplain Maps.

(e) To hear and act upon all other matters referred to it upon which it is required to act under this chapter.

(4) Meetings and Rules.

(a) Meetings of the Zoning Board of Appeals shall be held at the call of the chairman and at such other times as the Board may determine.

(b) The chair, or in her/his absence the acting chair, may administer oaths and compel the attendance of witnesses. (Am. by ORD-14-00012, 1-14-14)

(c) All meetings of said board, including all deliberations on any appeal prior to reaching a decision thereon, shall be open to the public.

(d) The board shall keep minutes of its proceedings, showing the vote for each member upon each question or, if absent or failing to vote, indicating such fact. The board shall also keep records of its examinations and other official actions. All of the Board's minutes and records shall be immediately filed in the office of the Board and shall be a public record.

(e) Any person may appear and testify at a hearing, either in person or by duly authorized agent or attorney.

(f) The board shall adopt its own rules of procedure not in conflict with this ordinance or with the applicable Wisconsin Statutes.

(g) The Board may select or appoint any officer that it deems necessary.

(5) Appeals to Decisions of the Zoning Administrator.

Appeals to the Zoning Board of Appeals may be taken by any person aggrieved, or by any officer, department, board or bureau of the City affected, by any decision of the Zoning Administrator.

(a) An appeal shall be taken within a reasonable time, as provided by the rules of the Zoning Board of Appeals.

(b) The applicant shall file a notice of appeal with the Zoning Board of Appeals. The notice of appeal must specify the grounds for the appeal, including a specific reference to the terms of this chapter, state or federal law, or the state or federal constitution that the applicant believes were incorrectly applied.

(c) The Zoning Administrator shall transmit all the papers constituting the record upon which the action appealed from was taken to the Zoning Board of Appeals.

(d) Stay of Proceedings. An appeal shall stay all legal proceedings in furtherance of the action appealed from, unless the Zoning Administrator certifies to the Zoning Board of Appeals that by reason of facts stated in the certificate, a stay would in her/his opinion cause imminent peril to life or property. In that case, proceedings shall not be stayed unless the Zoning Board of Appeals or a court of record grants a restraining order on application. A restraining order requires the applicant to show due cause and to notify the Zoning Administrator.

(e) Notice. An appeal requires the following types of notice (See Sec. 28.181(5)):

1. Mail - sent at least 10 days before the required public hearing.
2. Publication - at least 7 days before the required public hearing.

(f) Scheduling. The Zoning Board of Appeals shall fix a reasonable time for the hearing of the appeal.

(g) Rendering the Decision. The Zoning Board of Appeals, upon its findings, shall render a decision on the appeal within a reasonable time. The Board, upon the concurring vote of a majority of quorum, may reverse or affirm, wholly or partly, or may modify the order, requirements, decision or determination appealed from.

(h) Approval Criteria. The Zoning Board of Appeals may reverse or modify the decision appealed from if it determines that it is error based on the terms of this chapter, a lawful condition of approval established under this chapter, or a provision of a federal or statute or constitution.

1. For appeals concerning increases in regional flood elevation the Board shall:
   a. Uphold the denial where the Board agrees with the data showing an increase in flood elevation. Increases greater than 0.00 foot may only be allowed after amending the flood profile and map and any appropriate legal arrangements are made with all adversely affected property owners.
   b. Grant the appeal where the Board agrees that the data properly demonstrates that the project does not cause an increase greater than 0.00 foot provided no other reasons for denial exist.

(Am. by ORD-13-00086, 5-29-13)

2. For disputes concerning floodplain district boundaries:
   a. If a floodplain district boundary is established by approximate or detailed floodplain studies, the map scale, and the flood elevations or profiles shall prevail in locating the boundary. If none exist, other evidence may be examined.
   b. In all cases, the person contesting the boundary location shall be given a reasonable opportunity to present arguments and technical evidence to the Zoning Board of Appeals.
   c. If the boundary is incorrectly mapped, the Zoning Board of Appeals should inform the person contesting the boundary location to petition the Common Council for a map amendment.

(6) Finality of Decisions of the Zoning Board of Appeals.
All decisions and findings of the Zoning Board of Appeals are considered final administrative determinations, and are subject to judicial review as provided by law.

28.206 FEES.
The following fees are required for applications under this chapter. All fees shall be payable to the City Treasurer except where specified below.

Type of Action	Fee
Zoning map amendment, except for Planned Developments	$950 plus $100 for each acre of land in excess of one acre or fraction thereof, included in the proposed rezoning, up to a maximum of 20 acres or $2,850
Zoning map amendment for Planned Development: General Development Plan or Specific Implementation Plan	$1,500 plus $200 for each acre of land in excess of one acre or fraction thereof, included in the proposed rezoning, up to a maximum of twenty acres or $5,300
Alteration to a Planned Development General Plan or Specific Implementation Plan that requires Plan Commission approval	$500
Conditional use application or major alteration to an approved conditional use for: • multifamily complex • school • new construction or addition to existing building(s) that results in total square footage greater than 50,000 square feet in floor area and 25,000 or more square feet of floor area designed or intended for retail, hotel or motel use • new construction of a building, addition to any existing building or major alteration to the exterior face of a building in a [C4] [equivalent downtown] district	$950 plus one $100 for each acre of land in excess of one acre or fraction thereof, up to a maximum of 20 acres or $2,850
Other conditional use applications or major alteration to such approved conditional use	$600 plus $100 for each acre of land in excess of one acre or fraction thereof, up to a maximum of 20 acres or $2,500
Minor alteration to a conditional use or a Planned Development General Development Plan or Specific Implementation Plan	$100
Application for a demolition or removal permit	$600, unless permit is issued in conjunction with a conditional use approval, in which case the fee for that application applies
Applications filed by the Common Council, the City Plan Commission, the Zoning Board of Appeals or pursuant to Wis. Stat. § 13.48, the State of Wisconsin	No fee
Conditional use application filed by any nonprofit, nongovernmental organization registered with the Department of Financial Institutions or by any neighborhood organization registered with the City Department of Planning and Community and Economic Development. When a question arises as to whether an organization is nonprofit, nongovernmental the City Attorney shall investigate and make a determination.	No fee
Conditional use application for the following conditional uses: • Day care centers [includes adult day care] • Adaptive reuse of former public school or municipal buildings • Accessory greenhouses and swimming pool roofs or domes which infringe on required usable open space	No fee

Type of Action	Fee
• Community service organizations; day treatment facilities • Development of parcels adjacent to landmarks, landmark sites or historic districts designated by the Landmarks Commission, provided that the use of the parcel is either a permitted or conditional use allowed in the zoning district in which the property is located	
Application for an extension to the time period for obtaining a building permit for a Planned Development under Sec. 28.097(6)	$500
Request for a zoning certificate, excluding a Floodplain Statement or a Certificate of Occupancy	$50
Request for a zoning letter, i.e., written documentation, by the custodian of the records, as to property zoning, permitted and conditional uses of the property and property status, or the existence of any outstanding orders on the property	$10 for each item requested
Application for an appeal filed by, or on behalf of, the owner or owners of the property affected	$200
Application for a variance filed by, or on behalf of, the owner or owners of the property affected	$300
Building plan review fee. This fee is assessed by the Zoning Unit and collected by the Building Inspection Division of the Department of Planning and Community and Economic Development for the examination and approval of building plans of all new buildings and structures, additions and alternations, and for all other services authorized by the Common Council.	$.02 per square foot, minimum fee of $25.00. The fee for building square footage is determined based on floor area measurements taken from outside of the building at each floor level, including the basement.
Temporary use permit	$50 $0 for community event
Site Plan Review fee	$100 plus $50 for each acre of land in excess of one acre, or fraction thereof, up to a maximum of 5 acres or $300. Review of previously rejected site plan is 50% of original fee. $50 maximum for governmental entities, schools, and non-profit, non-governmental organizations.

(Am. by ORD-13-00007, 1-15-13; ORD-13-00054, 4-24-13; ORD-13-00189, 11-26-13; ORD-15-00033, 4-8-15)

28.207 PENALTIES.

(1) In General.

Any person who violates any provisions of this chapter or fails to comply with any of its requirements shall upon conviction thereof be subject to a forfeiture of not less than one dollar ($1.00) and not more than one thousand dollars ($1,000). For a violation of any of the provisions of the floodplain regulations, Sections 28.121 through 28.126, the maximum forfeiture shall be fifty dollars ($50). Each day or portion thereof such violation continues shall be considered a separate offense. (Am. by ORD-13-00086, 5-29-13)

(2) Penalty for Failure to Provide Notice.

Failure to comply with the notice requirements for posting of signs (See Sec. 28.181(5) shall subject the applicant to a forfeiture of at least fifty dollars ($50) and no more than one hundred dollars ($100). Failure to post or mail these notices does not affect the validity of the action taken.

(3) Penalty for Failure to Comply With Demolition Standards.

(a) Any person who fails to submit documentation of compliance with an approved reuse and recycling plan shall, upon conviction thereof, be subject to a forfeiture of not less than five hundred dollars ($500) and not more than one thousand dollars ($1,000). Each day or portion thereof such violation continues shall be considered a separate offense.

(b) Any person who fails to obtain a demolition or removal permit prior to the demolition or removal shall, upon conviction thereof, be subject to a forfeiture of not less than one thousand dollars ($1,000) and not more than two thousand dollars ($2,000). Each day or portion thereof such violation continues shall be considered a separate offense.

(4) Penalty for Failure to Comply with Inspection.

(a) Any person who shall fail or neglect to comply with any lawful order of the Director of the Building Inspection Division issued pursuant to the provisions of this chapter may be assessed seventy-five dollars ($75) per compliance inspection, as defined in Sec. 27.03(2), MGO, that does not result in compliance with the order. A thirty-five dollar ($35) charge may be assessed when an inspector fails to gain entry to carry out a compliance inspection.

(b) The Department of Planning and Community and Economic Development shall keep an accurate account of all unpaid inspection fees incurred for compliance inspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges attach lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a serial charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0627.

SUBCHAPTER 28O: DEFINITIONS AND RULES OF CONSTRUCTION

28.210 RULES OF CONSTRUCTION.

(1) In the construction of this ordinance, the following rules shall be observed and applied, except where the context clearly indicates otherwise:

(a) Words used in the present tense shall include the future.

(b) Words used in the singular number shall include the plural number, and the plural the singular.

(c) The words "shall," "must," and "will," are mandatory and not discretionary.

(d) The word "may" is permissive.

(e) The words "Director of the Department of Planning and Community and Economic Development", "Director of the Building Inspection Division", "Director of the Planning Division" and "Zoning Administrator" shall include any designee of those persons.

(f) All words not defined shall have their common meaning.

(g) If there is any ambiguity between the text of this ordinance and any caption or illustration, the text shall control.

28.211 DEFINITIONS.

A Zones. A Zones are those areas shown on the flood plain zoning maps which would be inundated by the "base flood" or "regional flood" as defined herein. Such areas may be numbered as AO, A1 to A30, A99 or be unnumbered A Zones. The A Zones may or may not be reflective of flood profiles, depending on the availability of data for a given area.

Accessory Building or Structure. A subordinate building or structure, the use of which is clearly incidental to that of the main building and which is located on the same lot as the principal building, and is subordinate to the principal building in height and floor area.

Accessory Dwelling Unit. A second dwelling unit contained within a single-family dwelling or within a detached building located on the same lot as a single-family dwelling. This definition includes accessory buildings constructed in connection with a private garage or a private garage converted into a dwelling unit. (See Sec. 28.172, "Residential Building Forms.")

Accessory Retail Alcohol Sales. The accessory sales of alcohol at a retail establishment that holds a Class A license under Sec. 38.06(11). (Cr. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14)

Accessory Use. See "Use, Accessory."

Addition. Any walled and/or roofed expansion to the perimeter and/or height of a building in which the addition is connected by a common load-bearing wall or foundation.

Adult Family Home. A State of Wisconsin licensed or certified place where three (3) or four (4) adults reside and receive care, treatment or services that are above the level of room and board and that may include up to seven (7) hours per week of nursing care per resident. Adult family homes are further defined in Wis. Stat. § 50.01(1).

Adult Entertainment Establishment. An adult entertainment establishment is an adult book or video store or an adult motion picture theater.

(a) Adult Book or Video Store. An establishment which is used for selling, renting or loaning, for monetary consideration, the following materials, when such activity constitutes a substantial or significant part of the business conducted therein:

1. Any pictures, photographs, drawings, motion picture films or similar visual representations or images of a person or portions of a human body which are distinguished or characterized by their emphasis on matters depicting, or describing or relating to "specified sexual activities" or "specified anatomical areas" as defined herein; or

2. Any book, pamphlet, magazine, printed matter, however reproduced, or sound recording which contains any matter enumerated in Paragraph 1. above.

3. Significant part of the business means dedication or use of more than ten percent (10%) of the available floor, wall and display space to the sale, rental or loan of the

subject matter referenced in Paragraphs 1. and 2. above, including space devoted to the viewing of videotapes or films, or display and advertisement of subject matter referenced herein in excess of ten percent of the total merchandise for sale, rental or loan.

4. Material, however distributed, which is published by a medical products manufacturer, a medical or health association, an insurance company, or by a consumer education organization shall not be considered part of the business of operating an adult book or video store.

5. Words used in this definition shall be defined as provided by Sec. 26.05(1).

(b) Adult Motion Picture Theater. An establishment where motion picture films, shows or other presentations containing dominant themes related to "specified anatomical areas" or "specified sexual activities" are regularly shown as one of its primary or principal business purposes. (Am. by ORD-15-00025, 3-11-15)

Adult Entertainment Tavern. Any establishment, including those licensed to sell fermented malt beverages or intoxicating liquor pursuant to Chapter 38, of these ordinances, which is used for presentations or services distinguished or characterized by an emphasis on "specified anatomical areas" or "specified sexual activities" as defined herein.

Agriculture, Animal Husbandry. All operations primarily oriented to the on-site raising and/or use of animals, at an intensity of less than one animal unit per acre. Fish farms are considered animal husbandry land uses.

Agriculture, Cultivation. The use of land for growing or producing field crops, including field crops for consumption by animals located off-site or for tree farming or nursery operations.

Agriculture, Intensive. All operations primarily oriented to the on-site raising and/or use of animals at an intensity equal to or exceeding one (1) animal unit per acre, or agricultural activities requiring large investments in permanent structures.

(a) To calculate number of animal units, use the most current Animal Units Calculation Worksheet of the Department of Natural Resources. This worksheet is used to determine whether an operation will reach or exceed one thousand (1,000) animal units, in which case a WPDES permit is required under Wis. Admin. Code ch. NR 243.

AH Zone. See "Area of Shallow Flooding." (Cr. by ORD-14-00146, 9-12-14)

Airport. Any area of land which is used or intended for the landing and takeoff of aircraft, and any appurtenant areas which are used or intended for use for airport buildings or other airport facilities or rights-of-way, including taxiways, aircraft storage and tiedown areas, hangars and other related building and open spaces.

Alley. A public right-of-way usually of reduced width compared to a street, which affords a secondary means of access to the side or rear of an abutting property and is not intended for general traffic circulation.

Alteration. For floodplain regulations, an enhancement, upgrading or substantial change or modifications other than an addition or repair to a dwelling or to electrical, plumbing, heating, ventilating, air conditioning and other systems within a structure. (Cr. by ORD-14-00146, 9-12-14)

Animal Boarding Facility, Kennel, Animal Shelter. Any lot or premises on which dogs, cats and other household pets are kept, boarded or raised for sale.

Animal Day Care. An establishment that provides care of dogs and other domestic pets for periods of less than twelve (12) hours a day.

Animal Grooming Facility. An establishment where domestic animals are bathed, clipped, or combed, including boarding for not more than forty-eight (48) hours incidental to the grooming services.

Antenna. Any exterior transmitting or receiving device mounted on a tower, building, or structure and used in communications that radiate or capture electromagnetic waves, digital signals, analog signals, radio frequencies (excluding radar signals), wireless telecommunications signals or other communication signals.

AO Zone. See "Area of Shallow Flooding." (Cr. by ORD-14-00146, 9-12-14)

Archival Facilities, Publicly-owned. A facility used for storage, research and restoration of historical documents, artifacts and similar items.

Area of Shallow Flooding. A designated AO, AH, AR/AO, AR/AH, or VO zone on a community's Flood Insurance Rate Map (FIRM) with a one percent (1%) or greater annual chance of flooding to an

average depth of one to three (1 to 3) feet where a clearly defined channel does not exist, where the path of flooding is unpredictable, and where velocity flood may be evident. Such flooding is characterized by ponding or sheet flow. (Cr. by ORD-14-00146, 9-12-14)

Artisan Workshop. A use primarily involving the limited on-site production of goods by hand manufacturing which involves only the use of hand tools or domestic mechanical equipment that does not exceed two (2) horsepower each or a single kiln not exceeding eight (8) cubic feet in volume and the incidental direct sale to consumers. Typical production includes: custom furniture, ceramic studios, glass blowing, candle making, custom jewelry, stained and leaded glass, woodworking, custom textile manufacturing and crafts production.

Artist, Photographer Studio. A use primarily involving the limited on-site production of art, including, but not limited to, paintings, drawings, prints, and photographs, the incidental direct sale of art to consumers, and the limited provision of art classes to the general public. (Cr. by ORD-16-00050, 5-25-16)

Assisted Living Facility. Housing primarily for the elderly in which assistance with daily activities, dining services, and limited health care are provided.

ATM (Automated Teller Machine). Machine for dispensing currency and providing electronic transactions and services but not including the sale or provision of other products. (Cr. by ORD-13-00147, 9-11-13)

Auto Body Shop. A shop in the business of making substantial repairs to the shell or body of any automobile. Such repairs may include substantial painting of the shell or body.

Auto Repair Station. A shop or business where the following services may occur: general motor vehicle repair; engine rebuilding or reconditioning of motor vehicles; and minor collision service. (Am. by ORD-17-00021, 2-20-17)

Auto Sales. An establishment providing wholesale and retail sales or leasing of new or used automobiles, trucks, trailers, boats, or outdoor recreational vehicles, including outdoor sales area, incidental storage and maintenance and warranty repair work, or other repair service conducted as an accessory use. (Am. by ORD-15-00026, 3-11-15)

Auto Service Station. A place where gasoline, electricity, or any other automobile engine fuel, kerosene, motor oil, lubricants, grease (for operation of motor vehicles), or minor accessories are retailed directly to the public on the premises and/or where the servicing or minor repair of automobiles may occur. (Am. by ORD-17-00021, 2-20-17)

Auto Title Loan Business. Any person who makes a loan that is secured by an interest, other than a purchase money security interest, in the borrower's motor vehicle.

Awning. A roof-like cover, temporary in nature, which projects from the wall of a building and is fully supported by said wall.

Base Flood. A flood having a one percent (1%) chance of being equaled or exceeded in any given year, as published by FEMA as part of a FIS and depicted on a FIRM. (Am. by ORD-14-00146, 9-12-14)

Base Flood Elevation. The base flood elevation is that which reflects the height of the base flood as defined above.

Basement. That portion of a building which is included between the surface of a floor and the floor next above it, or if there be no floor above it, then the space between the floor and the ceiling next above it and the floor of which is wholly or partly below ground level. For the purposes of floodplain regulations, a basement is any enclosed area of a building having its floor sub-grade, i.e., below ground level, on all sides.

Bathroom. A room with lavatory, water closet and tub or shower.

Bed and Breakfast Establishment. A private residence that rents rooms as temporary lodging and which is the personal residence of the operator. (Am. by ORD-13-00185, 11-5-13)

Bedroom. Any room of a dwelling unit in excess of kitchens, bathrooms and one (1) living room, which meets the standards for habitability according to the Uniform Dwelling Code, Wis. Admin. Code chs. SPS 320-325, or the Uniform Multifamily Dwelling Code, Wis. Admin. Code ch. SPS 366.

Bicycle-Sharing Facility. Per Section 10.33, MGO, facility and all attachments and operational aspects thereto that are part of a bicycle-sharing program, including but not limited to, rental station, informational signs, bicycles, solar panels or other equipment attached to and necessary for the facility's operation.

Bicycle Parking, Long-Term. Bicycle parking that is designated for multiple-day or storage use.

Bicycle Parking, Short-Term. Bicycle parking that is designated for daily or intermittent use.

Blasting Resultants mean flyrock, airblast, and ground vibration as regulated by Wis. Admin. Code § SPS 307.44, as may be amended. (Cr. by ORD-17-00014, 2-20-17)

Block. A tract of land bounded by streets, or by a combination of streets and public parks, cemeteries, railroad rights-of-way, bulkhead lines or shorelines of waterways. A block may be located in part beyond the boundary lines of the corporate limits of the City.

Boathouse. As defined in Wis. Stat. § 30.121(1)(a), boathouse means a permanent structure used for the storage of watercraft and associated materials and includes all structures which are totally enclosed, have roofs or walls or any combination of structural parts.

Brewery. A facility used for the manufacture of fermented malt beverages or a fermented malt beverage manufacturer with a mechanized bottling capability.

Brewpub. An establishment which manufactures up to ten thousand (10,000) barrels of fermented malt beverages per calendar year on premises for consumption either on or off premises in hand-capped, machine-capped or sealed containers in quantities up to one-half barrel or 15-1/2 gallons sold directly to the consumer. May include food sales. (Am. by ORD-14-00094, 5-14-14)

Building. A structure with a permanent location on the land, having a roof that may provide shelter, support, protection or enclosure of persons, animals or property of any kind.

Building, Attached. A building joined to another building or structure by a shared wall.

Building, Completely Enclosed. A building separated on all sides from the adjacent open space, or from other buildings or structures by a permanent roof and by exterior walls or party walls, pierced only by windows and normal entrance or exit doors.

Building Coverage. The proportion of the lot area expressed as a percent, that is covered by the maximum horizontal cross-section of a building or buildings.

Building, Detached. A building surrounded on all sides by open space on the same lot.

Building Envelope. The area of a lot between the front, side and rear setback lines, within which an allowed building or structure may be placed.

Building Material Sales. An establishment that sells or rents building supplies, construction equipment, or home decorating fixtures and accessories. This term does not include a lumberyard. (Am. by ORD-13-00007, 1-15-13)

Building, Mixed-Use. A building that houses multiple uses, which may include residential and nonresidential uses.

Building, Nonresidential. A building that houses no residential uses, with the exception of a caretaker's dwelling.

Building, Principal. A building in which the principal use of a lot is conducted.

Building, Residential. A building which is arranged, designed, used or intended to be used for residential occupancy by one or more families or lodgers, and which includes, but is not limited to, the following types:

(a) Single-family detached dwellings.
(b) Two-family detached dwellings.
(c) Single-family attached dwellings.
(d) Multiple-family dwellings.
(e) Lodging houses.
(f) Fraternity and sorority houses.

Bulk. Bulk is the term used to indicate the size and setbacks of buildings or structures and the location of such buildings or structures with respect to one another, and includes the following:

(a) Size and height of buildings.
(b) Location of exterior walls at all levels in relation to lot lines, streets or to other buildings.
(c) Floor area of buildings in relation to lot area (floor area ratio). (Am. by ORD-15-00033, 4-8-15)
(d) All open spaces allocated to buildings; and
(e) Amount of lot area provided per dwelling unit or lodging room.

Bulkhead Line. A geographic line along a reach of navigable water that has been adopted by a municipal ordinance and approved by the Department pursuant to Wis. Stat. § 30.11 and which allows limited filling between this bulkhead line and the original ordinary highwater mark, except where such filling is prohibited by the floodway provisions of this ordinance.

Business Sales and Services. An establishment primarily providing services to businesses or individual businesspeople on a fee or contract basis, including, but not limited to:

(a) Business equipment and furniture sales or rental.
(b) Copy center, excluding offset printing and publishing.
(c) Commercial photography studio.
(d) Mailing and packaging service.
(e) Building maintenance, janitorial.

Campground. Any parcel of land which is designed, maintained, intended or used for the purpose of providing sites for nonpermanent overnight use by four (4) or more camping units, or which is advertised or represented as a camping area.

Camping Unit. Any portable device, no more than four hundred (400) square feet in area, used as a temporary shelter, including but not limited to a camping trailer, motor home, bus, van, pick-up truck or tent that is fully licensed, if required, and ready for highway use. (Am. by ORD-14-00146, 9-12-14)

Capacity in Persons. The maximum number of persons that can avail themselves of the services or goods of an establishment or use at any one time, as determined by the required floor space per person as established in the Building Code.

Car Wash. An establishment where washing, drying, polishing, or vacuuming of an automobile or other motor vehicle is done by service personnel, the driver, or by automated machinery.

Cartage Establishment. A business engaged in the hauling and moving of goods.

Catering. A business that prepares food and beverages to be delivered off premises for consumption at a social, business, or civic function and may also provide service at the function.

Central Area. The central area shall mean all lands located in that area bounded by Blair Street to the northeast; the shoreline of Lake Monona to the southeast; Proudfit Street and Regent Street to the south; Park Street, University Avenue and Lake Street to the west; and the shoreline of Lake Mendota to the northwest (also known as Capitol Square and W-1 Plan Districts).

Central Area Zone 1. All the lands located in that part of the Central Area bounded by Lake Mendota, the northern prolongation of Butler Street, Gilman Street, Broom Street, Dayton Street, Park Street, University Avenue, and Lake Street Channel.

Certificate of Compliance. A certification that the construction and the use of land or a building, the elevation of fill or the lowest floor of a structure is in compliance with all of the provisions of this ordinance.

Change of Use. A change in the use of a property from one land use category to another, or the addition of a new use category to an existing use.

Channel. A natural or artificial watercourse of perceptible extent, with definite bed and banks to confine and conduct continuously or periodically flowing water. Channel flow thus is that water which is flowing within the limits of the defined channel.

City. The City of Madison, Wisconsin.

Civic Auditorium Complex. A site consisting of a parcel of land under the ownership or control of the City of Madison, for one or more civic auditoriums, theatres, art centers, music halls, convention or community centers and assembly halls including, without limitation, parking and dining facilities and other related or accessory buildings, facilities and uses. Such site may include lake bed and air rights over contiguous property.

Class 1 Collocation. The placement of a new mobile service facility on an existing support structure such that the owner of the facility does not need to construct a free standing support structure for the facility but does need to engage in substantial modification. (Cr. by ORD-13-00189, 11-26-13)

Class 2 Collocation. The placement of a new mobile service facility on an existing support structure such that the owner of the facility does not need to construct a free standing support for the facility or engage in substantial modification. (Cr. by ORD-13-00189, 11-26-13)

Clinic, Health. A building in which a group of physicians, dentists, or other health care professionals are associated for the purpose of carrying on their professions. The clinic may include an accessory laboratory, but not inpatient care or operating rooms for major surgery.

Coffee Shop, Tea House. An establishment engaged principally in the sale of coffee, tea, and other nonalcoholic beverages for consumption on the premises or for carryout, which may also include the sale of a limited number of food items.

Cohousing Community. A living arrangement that combines private living quarters with common dining and activity areas in a community whose residents share in tasks such as childcare. Living quarters may range from detached units to townhouses or multifamily units, but do not include lodging rooms.

College, University, or Similar Institution of Higher Learning. An institution for post-secondary education, public or private, offering courses in general, technical, or religious education and not operated for profit, which operates in buildings owned or leased by the institution for administrative and faculty offices, classrooms, laboratories, chapels, auditoriums, lecture halls, libraries, student and faculty centers, athletic facilities, dormitories, fraternities, and sororities, but not including colleges or trade schools operated for profit.

Collocation. The provision of multiple antennas of more than one commercial wireless communication service provider or government entity on a single tower or structure.

Commercial Use. A use that involves the exchange of cash, goods or services, barter, forgiveness of indebtedness, or any other remuneration in exchange for goods, services, lodging, meals, entertainment in any form, or the right to occupy space over any period of time.

Community Event. An occasional or seasonal outdoor event operated by a government entity and open to members of the general public. (Cr. by ORD-13-00054, 4-24-13)

Community Living Arrangement. Community living arrangement is any facility licensed or operated by the State of Wisconsin Department of Health and Family Services, including child welfare agencies, group homes for children, foster homes, treatment foster homes, and community based residential facilities, where care, treatment or services above the level of room and board but less than skilled nursing care are provided to persons residing in the facility. Such care, treatment or services are provided as the primary function of such facility. Adult family homes, day care homes, nursing homes, general hospitals, special hospitals, prisons, jails and foster family homes that are the primary domiciles of a foster parent and four (4) or fewer children are not community living arrangements for purposes of this ordinance.

Community Garden. An area of land or space managed and maintained by a group of individuals to grow and harvest food crops and/or non-food, ornamental crops, such as flowers, for personal or group use, consumption or donation. Community gardens may be divided into separate plots for cultivation by one or more individuals or may be farmed collectively by members of the group and may include common areas maintained and used by group members.

Composting. The purposeful biodegradation of organic matter, such as yard and food waste.

Concrete, Asphalt, and Rock Crushing Facility. A use in which the principal activity is the processing, handling, sale and transport of concrete, asphalt, rock, brick, cement, or other similar paving or building materials.

Congregate Care Facility. A facility with private living quarters, centralized dining, some communal space and transportation, social, and some personal-care services.

Contractor's Businesses with Showroom or Workshop. Office of a contractor, builder, painter, etc. that includes an enclosed showroom for display of samples, appliances, supplies, and other materials used in the business and/or an enclosed workshop for limited assembly or preparation of building materials.

Contractor's Yard. An establishment providing general contracting or building construction services, including outdoor storage of machinery or equipment.

Convenience Store. An establishment where motor fuel products or other minor accessories are retailed directly to the public on the premises, in combination with sale of items typically found in a convenience market or supermarket.

Convent, Monastery or Similar Residential Group. A place of residence for members of a religious order who carry on religious, medical, educational or charitable work within related or unrelated institutions.

Correctional Facility. A public or private facility providing for the confinement of juvenile or adult offenders, for the incarceration, confinement, rehabilitation or detention of individuals arrested or convicted of a crime.

Counseling/Community Service Organization. An organization that provides social services, including day treatment services.

Courtyard. Space on a building with three (3) or more sides, open to the sky, with direct access to a point of ingress or egress for a building.

Crawlways/Crawl Space. An enclosed area below the first usable floor of a building, generally less than five (5) feet in height, used for access to plumbing and electrical utilities.

Curb Level. The level of the established curb in front of any building measured at the center of the building's front. Where no curb elevation has been established, the City Engineer shall establish such curb elevation.

Cutting of Timber, Clear Cutting. One-time, cumulative or continuous clearing, cutting or other destruction of trees (including by fire) comprising more than thirty percent (30%) of the woodlands on the property. Clear cutting does not include timber harvesting for commercial purposes.

Cutting of Timber, Selective. One-time, cumulative or continuous clearing, cutting or other destruction of trees (including by fire) comprising less than or equal to thirty percent (30%) of the woodlands on the property.

Day Care Center. A facility licensed by the State Department of Health and Family Services, or any other government agency that assumes its authority and responsibility, in which qualified persons, other than a relative or guardian provide care and supervision for children, adolescents, or adults for less than twenty-four (24) hours per day. Day Care Centers include nursery schools that are similarly licensed.

Day Care Home, Family. An occupied residence in which a qualified person or persons residing in the dwelling provides care for four (4) to eight (8) children or adults. The care of fewer than four (4) people is not subject to the regulations of this Chapter.

Daytime Shelter. A place of assembly operated by a religious institution or nonprofit organization, open to the public during typical daytime hours, that provides food or supportive services, but which shall not provide lodging. (Cr. by ORD-14-00115, 7-11-14)

Deck. An unenclosed exterior structure that has no roof or sides, but has a permeable floor which allows the infiltration of precipitation.

Demolition. An act or process that removes, pulls down, tears down, razes, deconstructs, or destroys an existing building wall facing a public street or, during any ten (10) year period, removes, pulls down, tears down, razes, deconstructs or destroys fifty percent (50%) or more of the area of the exterior walls of a building. This provision does not apply to the repair or replacement of windows, doors, or siding.

Dependency Living Arrangement. A living arrangement which permits a person with a physical or mental disability to live in a temporary separate living area within a single-family dwelling unit or permits a relative or paid attendant of a person with such a disability to live in a temporary separate living area within a single-family dwelling unit. Such living area may include a separate bath and separate kitchen facilities which permit a degree of independence. Ingress and egress for such a living area is from within the principal dwelling unit.

Development. Any man-made change to improved or unimproved real estate, including, but not limited to, the construction of buildings, structures or accessory structures; the construction of additions or substantial alterations to buildings, structures or accessory structures; the placement of buildings or structures; ditching, lagooning, dredging, filling, grading, paving, excavation or drilling operations; and the deposition or extraction of earthen materials.

Director. The Director of Planning and Community and Economic Development.

Distillery/Winery. A facility that produces, by distillation, spirits for consumption, the sale and distribution of which are regulated by law.

Dormer. A structure projecting through a sloping roof that contains a window or opening. (Am. by ORD-13-00144, 9-11-13)

Dormitory. A building designed for or used as group living quarters for students of a high school, college, university or seminary, organized and owned by a high school, college, university or seminary.

Drainage System. One or more artificial ditches, tile drains or similar devices which collect surface runoff or groundwater and convey it to a point of discharge.

Dry Cleaning Plants, Commercial Laundry. An establishment that launders or dry cleans fabric, textiles, wearing apparel, or similar articles, including drop-off of articles by customers or cleaning of articles dropped off at other locations.

Dryland Access. A vehicular access route which is above the regional flood elevation and which connects land located in the floodplain to land outside the floodplain, such as a road with its surface above regional flood elevation and wide enough for wheeled rescue and relief vehicles.

Dwelling. A building or portion thereof designed or used primarily as living quarters for one or more families, but not including hotels or other accommodations for the transient public, lodging houses, housing cooperative or other group living arrangements.

Dwelling Types.

(a) Dwelling, Single-Family Detached. A building designed exclusively for and occupied exclusively by one (1) family in one (1) dwelling unit, with yards on all sides.

(b) Dwelling, Two-Family - Two-Unit. A building containing two dwelling units that generally are vertically stacked one above the other, with a separate entrance to each unit and with yards on all sides.

(c) Dwelling, Two-Family - Twin. A single-family dwelling which is attached on one side to another single-family dwelling with a common side wall, each of which may be located on an individual lot.

(d) Dwelling, Three-Family, or "Three-Unit." A building containing three (3) dwelling units that are vertically stacked one above the other, with a separate entrance to each unit and with yards on all sides.

(e) Dwelling, Single-Family Attached. A one-family dwelling unit, with a private entrance, which is part of a structure whose dwelling units are attached horizontally in a linear arrangement, and having totally exposed front and rear walls to be used for access, light and ventilation.

(f) Dwelling, Multi-Family. A building, or portion of a building, designed exclusively for occupancy by four (4) or more families living independently of each other in individual dwelling units. (See also "Residential Building Complex") (Am. by ORD-13-00134, 8-14-13)

Dwelling Unit. One or more rooms which are arranged, designed or used as living quarters for one family only. Individual bathrooms and a complete kitchen facility, permanently installed, shall always be included with each dwelling unit. No dwelling unit may have more than one kitchen facility except that a single-family detached dwelling may have more than one kitchen facility provided the dwelling is designed, arranged or used as living quarters for one family only. For purposes of this exception, the family shall not include roomers.

Electric Power Production. A facility that produces electric energy, including heating and cooling plants. District electric energy production is a facility that produces power for multiple users.

Electric Power Production and/or Heating and Cooling Plant. A facility that, regardless of fuel or energy source, is operated by a public utility or independent power producer and whose primary function is the provision of electricity to the electric distribution system.

Electric Substation. An assemblage of equipment, at a location other than where power is produced, through which electric energy in bulk is passed for the purposes of switching or modifying its characteristics to meet the needs of consumers.

Emergency Electric Generator. An electric generator capable of providing electricity for on-site or off-site use, that powered by internal combustion engines which are fueled by gaseous fuels, gasoline or distillate fuel oil and whose purpose is to provide electricity if normal electrical service is interrupted.

Encroachment. Any fill, building, structure or use (including an accessory use) in the floodway.

Encroachment/Floodway Lines. Encroachment/floodway lines are limits of obstruction to flood flows. These lines are on both sides of and generally parallel to the stream. The lines are established by assuming that the area landward (outside) of the encroachment lines will be ultimately developed in such a way that they will not be available to convey flood flows.

Entrance, Principal. The building entrance which faces the front lot or is closest to the front lot line and which entrance provides direct access to the principal use.

Environmental Control Facility. Any facility, temporary or permanent, which is designed to abate, reduce or aid in the prevention, measurement, control or monitoring of noise, air or water pollutants, solid waste and thermal pollution, radiation or other pollutants.

Equal Degree of Hydraulic Encroachment. The effect of any encroachment into the floodway must be computed by assuming an equal degree of hydraulic encroachment on the other side of a river or stream for a significant hydraulic reach. This computation assures that property owners up, down or across the river or stream will have the same rights of hydraulic encroachment. Encroachments are analyzed on the basis of the effect upon hydraulic conveyance, not upon the distance the encroachment extends into the floodway.

Equipment Building, Shelter or Cabinet. A cabinet or building used to house equipment.

Equipment Compound. An area surrounding or adjacent to the base of an existing support structure within which is located mobile service facilities. (Cr. by ORD-13-00189, 11-26-13)

Establishment, Business. A place of business carrying on operations which are physically separate and distinct from those of any other place located on the same zoning lot.

Existing Structure. For the purposes of mobile service facilities, existing structure means a support structure that exists at the time a request for permission to place mobile service facilities on a support structure is filed with a political subdivision. (Cr. by ORD-13-00189, 11-26-13)

Fall Zone. The area over which a mobile support structure is designed to collapse. (Cr. by ORD-13-00189, 11-26-13)

Family.

(a) A family is an individual, or two (2) or more persons related by blood, marriage, domestic partnership, or legal adoption, living together as a single housekeeping unit in a dwelling unit, including foster children, and up to four (4) roomers, with the following exceptions:

1. Within the SR-C1, SR-C2, SR-C3, TR-C1, TR-C2, TR-C3, TR-C4, TR-R and TR-P residential districts, dwellings that are not owner-occupied are limited to one (1) roomer.
2. In any residence district, a family may consist of two (2) unrelated adults and the minor children of each. Such a family may not include any roomers except where the dwelling unit is owner-occupied. For the purpose of this section, "children" means natural children, grandchildren, legally adopted children, stepchildren, foster children, or a ward as determined in a legal guardianship proceeding.
3. In any district, a family also may consist of up to four (4) unrelated persons who have disabilities/are disabled or handicapped under the Fair Housing Amendment Act (FHAA) or the Americans with Disabilities Act (ADA), are living as a single household because of their disability and require assistance from a caregiver.
4. In any district, up to two (2) personal attendants who provide services for family members or roomers who are disabled or handicapped under the FHAA or ADA and need assistance with the activities of daily living shall be considered part of a family. Such services may include personal care, house-keeping, meal preparation, laundry or companionship.

(b) For the purpose of this definition, an owner-occupied dwelling unit shall mean any dwelling unit where an individual or two or more persons who reside in such unit constitute one hundred percent (100%) of the owners of either the entire fee simple interest or the entire land contract vendee's interest in said dwelling unit.

Provided, however, dwelling units occupied by owner-occupants holding less than one hundred percent (100%) interest in the fee simple shall nonetheless be considered owner-occupied for the purposes of this definition where the remainder of said interest is held by an investor pursuant to a shared equity purchase arrangement and the owner-occupant has continuously resided in said dwelling unit for at least four (4) years;

(c) Absence of any owner from the dwelling unit for health reasons or by virtue of a marital separation or divorce or any temporary absences of any owner from the dwelling unit shall not constitute a reduction in the number of owners who reside in such unit for the purpose of determining whether such unit continues to be owner-occupied.

Farm Stand. An open air stand for the seasonal sale of agricultural produce produced on the same property.

Farmers Market. An indoor or outdoor establishment involving sale of farm products, personally prepared food and handcrafted goods as defined in Sec. 9.13(6)(e), MGO. May include concurrent special events, including cooking demonstrations, activities for children, and small scale theatrical, musical and educational presentations.

Federal Emergency Management Agency (FEMA). The federal agency that administers the National Flood Insurance Program.

Fence. A structure providing enclosure or serving as a barrier, such as wooden posts, wire, iron, brick, stone or other manufactured material or combination of materials erected to enclose, screen or separate areas. Structures designed to enclose recreational facilities, such as tennis courts or backstops, shall not be considered fences. (Am. by ORD-14-00001, 1-14-14)

Fence, Ornamental. A fence that is no more than fifty percent (50%) opaque.

Fence, Screening. A fence that is more than fifty percent (50%) opaque. (Cr. by ORD-14-00001, 1-14-14)

Fence, Solid. A fence that is at least ninety percent (90%) opaque.

Fissile Material. Any material fissionable by thermal (slow) neutrons. The five primarily fissile materials are uranium-233, uranium-235, plutonium-238, plutonium-239 and plutonium-241.

Fissionable Non-Fissile Material. Any material that can be fissioned by fast neutrons or lacking uranium-233, uranium-235, plutonium-238, plutonium-239 or plutonium-241.

Fixed Houseboat. As defined in Wis. Stat. § 30.121(1), a structure not actually used for navigation which extends beyond the ordinary high-water mark of a navigable waterway and is retained in place either by cables to the shoreline or by anchors or spudpoles attached to the bed of the waterway.

Flood Frequency. The probability of a flood occurrence which is determined from statistical analyses. The frequency of a particular flood event is usually expressed as occurring, on the average once in a specified number of years or as a percent (%) chance of occurring in any given year.

Flood Fringe. That portion of the floodplain between the regional flood limits and the floodway.

Flood Insurance Rate Map (FIRM). A map of a community on which the Federal Insurance Administration has delineated both the floodplain and the risk premium zones applicable to the community. This map can only be amended by the Federal Emergency Management Agency. (Am. by ORD-14-00146, 9-12-14)

Flood Insurance Study. A technical engineering examination, evaluation, and determination of the local flood hazard areas. It provides maps designating those areas affected by the regional flood and provides both flood insurance rate zones and base flood elevations and may provide floodway lines. The flood hazard areas are designated as numbered and unnumbered A Zones. Flood Insurance Rate Maps, that accompany the Flood Insurance Study, form the basis for both the regulatory and the insurance aspects of the National Flood Insurance Program.

Flood or Flooding. A general and temporary condition of partial or complete inundation of normally dry land areas caused by one of the following conditions:

(a) The overflow or rise of inland waters; or

(b) The rapid accumulation or runoff of surface waters from any source; or

(c) The inundation caused by waves or currents of water exceeding anticipated cyclical levels along the shore of Lake Michigan or Lake Superior; or

(d) The sudden increase caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a seiche, or by some similarly unusual event.

Flood Profile. A graph showing the relationship of the water surface elevation of a flood event to a location along a river that generally is expressed as a distance upstream from a designated point on a stream or river.

Flood Protection Elevation. The flood protection elevation shall correspond to a point two (2) feet of freeboard above the water surface profile associated with the regional flood and the official floodway lines.

Flood Storage. Flood storage means those floodplain areas where storage of floodwaters has been taken into account in reducing the regional flood discharge.

Floodplain. The land adjacent to a body of water which has been or may be hereafter covered by flood water including but not limited to the regional flood; it includes the floodway and flood fringe.

Floodplain Island. A natural geologic land formation within the floodplain that is surrounded, but not covered, by floodwater during the regional flood.

Floodproofing. A combination of structural provisions, changes, or adjustments to properties and structures subject to flooding primarily for the reduction or elimination of flood damages to properties, water and sanitary facilities, structures and contents of buildings in a flood hazard area.

Floodway. The channel of a river or stream and those portions of the floodplain adjoining the channel required to carry the regional floodwaters.

Floor Area. The sum of all gross horizontal areas under the roof of a building. The floor area of a building includes, but is not limited to:

(a) Basement floor space.
(b) Elevator shafts and stairwells at each floor.
(c) Floor space used for mechanical equipment, except equipment, open or enclosed, located on the roof.
(d) Penthouses, attic space used for human occupancy, interior balconies and mezzanines.
(e) Enclosed porches;
(f) Floor area devoted to accessory uses;
(g) Areas used for grade-level parking.

When calculating floor area for determining off-street parking requirements, common areas shall be divided proportionately according to the usage of the building. (Am. by ORD-15-00033, 4-8-15)

Floor Area Ratio (F.A.R.). The floor area of the building or buildings on a zoning lot divided by the area of the zoning lot. Maximum floor area ratio, where specified in this ordinance, limits the total floor area of both principal and accessory buildings in direct ratio to the area of the zoning lot.

Food and Related Goods Sales. An establishment required to be licensed under Wis. Stats. § 97.30, and all other commercial enterprises, fixed or mobile, where food is processed or sold or offered for sale at retail. It includes retail grocery stores, meat markets, poultry markets, fish markets, delicatessens, bakeries, candy stores, catering establishments, ice cream shops, cheese stores, convenience marts, milk cases, spice and herb shops, temporary retail food establishments and all other establishments where food is processed or sold or offered for sale at retail.

Fraternity or Sorority House. A building used as group living quarters for students of a college, university, or seminary, who are members of a fraternity or sorority that has been officially recognized by the college, university, or seminary.

Freeboard. Freeboard is a factor of safety usually expressed in terms of a certain amount of feet above a calculated flood level. Freeboard compensates for the many unknown factors that contribute to flood heights greater than the height calculated. These unknown factors include, but are not limited to, ice jams, debris accumulation, wave action, obstruction of bridge openings and floodways, the effects of urbanization on the hydrology of the watershed, loss of flood storage areas due to development and aggradation of the river or stream bed.

Frontage. The relationship between the front facade of a building and the abutting street, encompassing the placement of the building and its entrances, and the treatment of front setback areas.

Front Façade. The wall of building closest to the street that separates interior living spaces from exterior. An open porch without living space above it shall not be considered a front façade. For buildings on corner or through lots, the front façade is usually that façade that fronts the street of higher classification.

Garden Center. An establishment that includes indoor and outdoor retail sales of plants not grown on the site, lawn furniture and garden supplies.

Greenhouse, Nursery. An establishment whose principal activity is the sale of plants grown on the site, which may include outdoor storage, growing or display, and may include sales of lawn furniture and garden supplies.

Health/Sports Club, Fitness Center or Studio. An establishment for the conduct of indoor sports and exercise activities, which may include related locker and shower rooms, offices and classrooms, and where use is offered on a membership basis.

Heavy-Traffic Vehicle. Any commercial motor vehicle having a gross weight of more than eight thousand (8,000) pounds designed or intended to be transported upon a highway. (Cr. by ORD-14-00037, 3-6-14)

Heavy-Traffic Vehicle Sales. An establishment providing wholesale and retail sales or leasing of new or used Heavy-Traffic Vehicles, including outdoor sales area, incidental storage and maintenance and warranty repair work, or other repair service conducted as an accessory use. (Cr. by ORD-15-00026, 3-11-15)

Hedge. A row of closely planted shrubs or low-growing trees, forming a boundary or barrier, installed to enclose, screen or separate areas. (Cr. by ORD-13-00148, 9-11-13)

Hedge, Ornamental. A hedge that is no more than fifty percent (50%) opaque. (Cr. by ORD-13-00148, 9-11-13)

Hedge, Screening. A hedge that is more than fifty percent (50%) opaque. (Cr. by ORD-14-00001, 1-14-14)

Hedge, Solid. A hedge that is at least ninety percent (90%) opaque.

High Flood Damage Potential. Damage that could result from flooding that includes any danger to life or health or any significant economic loss to a structure or building and its contents. (Cr. by ORD-13-00148, 9-11-13)

Historic Structure. Any structure that is either:

(a) Listed individually in the National Register of Historic Places or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register; or

(b) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district; or

(c) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

(d) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either by an approved state program, as determined by the Secretary of the Interior; or by the Secretary of the Interior in states without approved programs.

Home Occupation. An office or studio, service business or limited production of goods within a dwelling unit by a resident of the dwelling, provided that the use is limited in extent and incidental and secondary to the use of the dwelling unit for residential purposes.

Hospital. An institution, licensed by the state department of health, providing primary health services and medical or surgical care to persons, primarily in-patients, suffering from illness, disease, injury, deformity and other abnormal physical or mental conditions, and including as an integral part of the institution, related facilities such as laboratories, outpatient facilities, or training facilities.

Hostel. A place where transient guests may stay for a limited duration, for compensation, as recognized by the Hostelling International organization. Typically includes shared cooking facilities and dormitory-style accommodations.

Hotel, Inn. A building containing rooming units providing temporary lodging accommodations (less than 30 days duration) to the general public, with rooms having access to the outside through an interior hallway connected to the main lobby of the building and which may provide additional services, such as restaurants, meeting rooms, entertainment, and recreational facilities.

Housing Cooperative. A residential occupancy where one-hundred percent (100%) of the ownership is held by a Cooperative Corporation organized under Wis. Stat. ch. 185, for the purpose of residential living where the residents share common areas and cooking, dining, and maintenance duties. All residents shall be members of the Cooperative Corporation.

Increase in Regional Flood Height. A calculated upward rise in the regional flood elevation greater than 0.00 foot based on a comparison of existing conditions and proposed conditions which is directly attributable to development in the floodplain but not attributable to manipulation of mathematical variables such as roughness factors, expansion and contraction coefficients and discharge.

Junkyard. A junkyard is an open area where waste or scrap materials are bought, sold, exchanged, stored, baled, packed, disassembled or handled, including, but not limited to, scrap iron and other metals, paper, rags, rubber tires, bottles and unlicensed or inoperable motor vehicles and parts thereof. A junkyard includes an automobile wrecking or dismantling yard, but does not include uses established entirely within enclosed buildings.

Kennel. See "Animal Boarding Facility, Kennel, Animal Shelter."

Kitchen Facility. A kitchen facility is one which includes kitchen fixtures such as cabinets, sinks, refrigerators and stoves, or articles used or intended to be used for cooking.

Laboratories for Research, Development and Testing. Establishments which conduct research, development, or controlled production of high-technology electronic, industrial, or scientific products or commodities for sale; or establishments conducting educational or medical research or testing. May include limited accommodations for researchers or research subjects.

Laboratory Scale. Work with substances in which the containers used for reactions, transfers, and other handling of substances are designed to be easily and safely manipulated by one person and in containers, in quantities no greater than their original shipment quantities. Laboratory scale excludes those workplaces whose function is to produce commercial quantities of materials.

Limited Production and Processing. Uses that produce minimal off-site impacts due to their limited nature and scale, are compatible with office, retail and service uses, and may include wholesale and off-premises sales. Limited production and processing includes, but is not limited to, the following:

(a) Apparel and other finished products made from fabrics.
(b) Blueprinting.
(c) Computers and accessories, including circuit boards and software.
(d) Electronic components, assemblies, and accessories.
(e) Film, video and audio production.
(f) Food and beverage products, except no live slaughter, grain milling, cereal, vegetable oil or vinegar processing.
(g) Jewelry, watches and clocks.
(h) Milk, ice cream, and confections.
(i) Musical instruments.
(j) Novelty items, pens, pencils, and buttons.
(k) Precision dental, medical and optical goods.
(l) Signs, including electric and neon signs and advertising displays.
(m) Toys.
(n) Wood crafting and carving.
(o) Wood furniture and upholstery; and
(p) Wholesale production of foods. (Cr. by ORD-15-00124, 11-11-15)

Limousine. Any of the various large passenger vehicles, especially a luxurious motor vehicle, usually driven by a chauffeur and sometimes having a partition separating the passenger compartment from the driver's seat.

Liquor Store. An establishment in which the principal use is the sale of alcohol and which holds a Class A license for liquor or beer. (Cr. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14)

Live/Work Unit. A dwelling unit in combination with a shop, office, studio, or other work space within a mixed-use building, where the resident occupant both lives and works.

Lodge or Club, Private. A nonprofit association of persons who are bona fide members paying annual dues, which owns, hires or leases a building, or space within a building, which is restricted to members and their guests. The affairs and management of such private club or lodge are conducted by a board of directors, executive committee or similar body chosen by the members at their annual meeting.

Lodging House. A house that contains a minimum of five (5) lodging rooms where paying guests are provided with lodging on a monthly or longer-term basis. (Am. by ORD-16-00049, 5-25-16)

Lodging Room. A room rented as sleeping and living quarters, but without kitchen facilities, and with or without an individual bathroom. In a suite of rooms without kitchen facilities, each room which provides sleeping accommodations shall be counted as one lodging room for the purpose of this ordinance. A lodging room designed for more than two (2) people shall be counted as one lodging room for each two (2) persons of total occupancy, for open space, park impact fee and parking requirements. (Am. by ORD-16-00073, 9-15-16)

Lot. A tract of land, designated by metes and bounds, land survey, minor land division or plat, and recorded in the office of the county register of deeds.

Lot Area. The area of a horizontal plane bounded by the front, side and rear lot lines, excluding any wetland area or any area dedicated or reserved by easement to the public for stormwater management. (Am. by ORD-17-00017, 2-20-17)

Lot, Corner. A lot of which at least two (2) adjacent sides abut for their full lengths upon a street, provided that the interior angle at the intersection of such two (2) sides is less than one hundred thirty-five (135) degrees. A lot abutting upon a curved street or streets shall be considered a corner lot if the tangents to the curve at its point of beginning within the lot or at the points of intersection of the side lot lines with the street line intersect at an interior angle of less than one hundred thirty-five (135) degrees.

Lot Coverage. The total area of all buildings, measured at grade, all accessory structures including pools, patios, etc., and all paved areas as a percentage of the total area of the lot, with the following exceptions: sidewalks or paved paths no wider than five (5) feet, pervious pavement, green roofs and decks.

Lot Depth. The mean horizontal distance between the front lot line and the rear lot line of a lot measured within the lot boundaries.

Lot Line, Front. The boundary of a lot which abuts an existing, dedicated or officially mapped street or a park per Sec. 28.135(2). In the case of lot abutting more than one street, the owner may choose any street lot line as the front lot line, with the consent of Zoning Administrator, based on the effects of such choice on development of the lot itself or on adjacent properties. (Am. by ORD-13-00176, 10-23-13)

Lot Line, Rear. That lot line which is opposite and most distant from the front lot line. In the case of a triangular or gore-shaped lot, a line ten (10) feet in length entirely within the lot, parallel to and most distant from the front lot line shall be considered to be the rear lot line. In the case of an irregular lot, the Zoning Administrator shall select a line or lines generally opposite the front lot line for the purpose of providing a rear lot line across the entirety of the lot. (Am. by ORD-17-00035, 3-29-17)

Lot Line, Side. Any lot line that is not a front lot line or a rear lot line.

Lot, of Record. A lot that is part of a subdivision or certified survey map recorded in the Office of the Dane County Register of Deeds; or a parcel of land, the deed to which was recorded in the office of the Dane County Register of Deeds. Any lot or parcel of land created through the violation of any applicable laws or ordinances of the state of Wisconsin and the City of Madison shall not, in this instance, be considered a lot of record.

Lot, Reversed Corner. A corner lot the street side lot line of which is substantially a continuation of the front lot line of the first lot to its rear.

Lot, Through. A lot having a pair of opposite lot lines along, and access to, two (2) more or less parallel public streets, and which is not a corner lot. On a through lot, both street lines shall be deemed front lot lines.

Lot Width. The horizontal distance between the side lines of a lot measured at right angles to its depth along a straight line parallel to the front lot line at the minimum required structure setback line.

Lot, Zoning. A planned multi-use site or a lot or lots that comprise a single tract of land located within a single block which, at the time of filing for a building permit, is to be used, developed or built upon as a unit. Therefore, a zoning lot or lots may or may not coincide with a lot of record.

Lowest Adjacent Grade. For purposes of floodplain regulations, the elevation of the lowest ground surface that touches any of the exterior walls of a building. (Cr. by ORD-14-00146, 9-12-14)

Lowest Floor. For purposes of floodplain regulations, the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of 44 CFR 60.3. (Cr. by ORD-14-00146, 9-12-14)

Lumberyard. A facility where building materials, such as lumber, plywood, drywall, paneling, cement building products, and other building products are stored and sold. Lumberyards also may process lumber by performing millwork, planing, cutting, and other customizing processes. Lumberyards may provide for the sale of associated products, including tools and fasteners.

Machinery Equipment Sales and Service. An establishment providing wholesale or retail sales or rental of industrial, construction and/or agricultural equipment, including storage, inventory display, maintenance, servicing or repair. (Cr. by ORD-13-00055, 4-24-13; ORD-15-00014, 1-28-15)

Maintenance. For purposes of floodplain regulations, the act or process of restoring to original soundness, including redecorating, refinishing, non structural repairs, or the replacement of existing fixtures, systems or equipment with equivalent fixtures, systems or structures. (Cr. by ORD-14-00146, 9-12-14)

Manufactured Home Park or Subdivision, Existing. A parcel of land, divided into two (2) or more manufactured home lots for rent or sale, on which the construction of facilities for servicing the lots is completed before the effective date of this ordinance. At a minimum, this would include the installation of utilities, the construction of streets and either final site grading or the pouring of concrete pads.

Manufactured/Mobile Home Park, Expansion. The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed. This includes installation of utilities, construction of streets and either final site grading, or the pouring of concrete pads.

Manufacturing, General. An establishment engaged in manufacturing, assembly, fabrication, packaging or other industrial processing of products primarily from extracted or raw materials or the bulk storage and handling of such products and materials, or an industrial establishment having potential to produce noise, dust, glare, odors or vibration beyond its property line. Some activities may occur outside of enclosed buildings. This term includes, but is not limited to:

(a) Animal, poultry slaughter or processing facility. Processing of byproducts from industrial operations
(b) Processing and packaging of alcohol beverages.
(c) Chemical manufacturing.
(d) Stonework or concrete product manufacturing.
(e) Fabrication of metal products.
(f) Manufacturing of agricultural, construction or mining machinery.
(g) Motor vehicle manufacturing.
(h) Lumber milling.
(i) Paper manufacture.

Manufacturing, Light. An establishment engaged in the indoor manufacturing, assembly, fabrication, packaging or other industrial processing of finished parts or products, primarily from previously prepared materials, or the indoor provision of industrial services. This term includes, but is not limited to, a business engaged in the processing, fabrication, assembly, treatment or packaging of food (not including meat and fish products), beverages, textile, leather, wood, paper, chemical, plastic or metal products, but does not include basic industrial processing from raw materials.

Market Garden. An area of land managed and maintained by an individual or group of individuals to grow and harvest food crops and/or non-food, ornamental crops, such as flowers, to be sold for profit

Massage Therapy. A profession in which the practitioner applies massage techniques, and may apply adjunctive therapies, with the intention of positively affecting the health and well-being of the client. Massage therapy does not include diagnosis, except to the extent of determining whether massage therapy is indicated. Further, "massage" is manual manipulation of the human body, including holding, positioning, causing movement, and applying touch and pressure to the body; "therapy" is action aimed at achieving or increasing health and wellness; "adjunctive therapies" may include (1) application of heat, cold, water, mild abrasives, topical preparations not classified as prescription drugs, (2) the use of mechanical devices and tools which mimic or enhance manual actions and (3) instructed self care and stress management.

Mission House. A facility operated by a religious institution or nonprofit organization that provides lodging. May also include the provision of meals, worship services, or other supportive services. (Am. by ORD-14-00015, 7-11-14)

Mobile Grocery Store. A vehicle designed for over-the-road hauling that has been modified to sell groceries inside and that moves among sites on zoning lots on a daily basis.

Mobile Home, Manufactured Home. A structure transportable in one or more sections, which is built on a permanent chassis and is designed to be used with or without a permanent foundation when connected to required utilities. The term "manufactured home" includes a mobile home but does not include a "mobile recreational vehicle."

Mobile Recreational Vehicle. A vehicle which is built on a single chassis, four hundred (400) square feet or less when measured at the largest horizontal projection, designed to be self-propelled, carried or permanently towable by a licensed, light-duty vehicle, is licensed for highway use if registration is required and is designed primarily not for use as a permanent dwelling, but as temporary living quarters for recreational, camping, travel or seasonal use. Manufactured homes that are towed or carried onto a parcel of land, but do not remain capable of being towed or carried, including park model homes, do not fall within the definition of "mobile recreational vehicles."

Mobile Service. A radio communication service carried on between mobile stations or receivers and land stations, and by mobile stations communicating among themselves, and includes

(a) Both one-way and two-way radio communication services,

(b) A mobile service which provides a regularly interacting group of base, mobile, portable, and associated control and relay stations (whether licensed on an individual, cooperative, or multiple basis) for private one-way or two-way land mobile radio communications by eligible users over designated areas of operation, and

(c) Any service for which a license is required in a personal communications service established pursuant to the proceeding entitled "Amendment to the Commission's Rules to Establish New Personal Communications Services" (GEN Docket No. 90-314; ET Docket No. 92-100), or any successor proceeding. (Cr. by ORD-13-00189, 11-26-13)

Mobile Service Facility. The set of equipment and network components, including antennas, transmitters receivers, base stations, power supplies, cabling, and associated equipment, that is necessary to provide mobile service to a discrete geographic area, but does not include the underlying support structure. (Cr. by ORD-13-00189, 11-26-13)

Mobile Service Provider. A person who provides mobile service. (Cr. by ORD-13-00189, 11-26-13)

Mobile Service Support Structure. A freestanding structure that is designed to support a mobile service facility. See also, "Telecommunications Tower" (Cr. by ORD-13-00189, 11-26-13)

Model, Corrected Effective. A hydraulic engineering model that corrects any errors that occur in the Duplicate Effective Model, adds any additional cross sections to the Duplicate Effective Model, or incorporates more detailed topographic information than that used in the current effective model. (Cr. by ORD-14-00146, 9-12-14)

Model, Duplicate Effective. A copy of the hydraulic analysis used in the effective FIS and referred to as the effective model. (Cr. by ORD-14-00146, 9-12-14)

Model, Effective. The hydraulic engineering model that was used to produce the current effective Flood Insurance Study. (Cr. by ORD-14-00146, 9-12-14)

Model, Existing (Pre-Project). A modification of the Duplicate Effective Model or Corrected Effective Model to reflect any man made modifications that have occurred within the floodplain since the date of the effective model but prior to the construction of the project for which the revision is being requested. If no modification has occurred since the date of the effective model, then this model would be identical to the Corrected Effective Model or Duplicate Effective Model. (Cr. by ORD-14-00146, 9-12-14)

Model, Revised (Post-Project). A modification of the Existing or Pre-Project Conditions Model, Duplicate Effective Model or Corrected Effective Model to reflect revised or post-project conditions. (Cr. by ORD-14-00146, 9-12-14)

Motel. A building containing rooming units designed primarily for providing sleeping accommodations for transient and semi-permanent lodgers, with rooms having a separate entrance providing direct access to the outside and with automobile parking located adjacent to or near sleeping rooms. A maximum of fifty percent (50%) of a motel's rooming units may be occupied by non-transient guests (30 days or more).

Motor Freight Terminal. A building or area in which freight brought by motor truck is assembled and/or stored for routing in intrastate or interstate shipment by motor truck.

Motor Vehicle Salvage Yard, Scrap Yard. A facility where used motor vehicles and vehicle parts are sorted, stored, dismantled, assembled, and distributed, including wholesale and retail sales of such materials. Scrap or salvage materials include, but are not limited to, scrap iron and other metals, rubber tires, plastics, and other material which has been a part of or is intended to be a part of a motor vehicle.

Motorcycle and Moped Sales. An establishment providing wholesale or retail sales or rental of motorcycles and mopeds, including storage, maintenance, servicing, repair, outdoor display, and may also include accessory retail sales. (Cr. by ORD-15-00026, 3-11-15)

Municipality/Municipal. When used in the floodplain regulations, Secs. 28.121 through 28.126, means the county, city or village governmental units enacting, administering and enforcing this zoning ordinance.

National Geodetic Vertical Datum (NGVD). Elevations referenced to mean sea level datum, 1929 adjustment.

Natural Grade. The grade of a site before it is modified by moving earth, adding or removing fill, or installing a berm, retaining wall or other earthwork feature. Natural grade is determined by reference to a survey, or other information as determined by the zoning administrator.

Navigable Waters. All natural inland lakes, and all streams, ponds, sloughs, flowages and other waters which are navigable under the laws of this state. Under Wis. Stat. § 144.26(2)(d), notwithstanding any other provision of law or administrative rule promulgated thereunder, shoreland ordinances required under Wis. Stat. § 62.231, and Wis. Admin. Code ch. NR 117, do not apply to lands adjacent to farm drainage ditches if:

(a) Such lands are not adjacent to a natural navigable stream or river.

(b) Those parts of such drainage ditches adjacent to such lands were not navigable streams before ditching; and

(c) Such lands are maintained in nonstructural agricultural use.

New Construction. For the purpose of floodplain regulation only, means structures for which the start of construction commenced on or after the effective date of the floodplain zoning maps adopted and includes any subsequent improvements to such structures. For the purpose of determining flood insurance rates, it includes any structures for which the start of construction commenced on or after the effective date of an initial Flood Insurance Rate Map or after December 31, 1974, whichever is later and includes any subsequent improvements to such structures.

Nightclub. An establishment in which fermented malt beverages or intoxicating liquors are sold for consumption upon the premises and which holds an entertainment license under Sec. 38.06(11) but does not include kitchen facilities. (Cr. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14)

Nonconforming Building. Any building which:

(a) Does not comply with all of the regulations of this ordinance or any amendment hereto governing bulk for the zoning district in which such building is located; or

(b) Is designed or intended for a nonconforming use.

Nonconforming Use. Any principal use of land or buildings which does not comply with all the regulations of this ordinance or of any amendment hereto governing use for the zoning district in which such use is located.

Nonmetallic Mineral. Nonmetallic mineral means a product, commodity or material consisting principally of naturally occurring, organic or inorganic, nonmetallic, nonrenewable material. Nonmetallic minerals include, but are not limited to, stone, sand, gravel, beryl, diamond, clay, feldspar, peat, talc and topsoil. (Cr. by ORD-17-00014, 2-20-17)

Nonmetallic Mining. Nonmetallic mining means:

(a) Operations or activities at a nonmetallic mining site for the extraction from the earth of mineral aggregates or nonmetallic minerals for sale or use by the operator. Nonmetallic mining includes use of mining equipment or techniques to remove materials from the in-place nonmetallic mineral deposit, including drilling and blasting, as well as associated activities such as excavation, grading and dredging. Nonmetallic mining does not include removal from the earth of products or commodities that contain only minor or incidental amounts of nonmetallic minerals, such as commercial sod, agricultural crops, ornamental or garden plants, forest products, or plant nursery stock, or the removal of products or commodities for the primary purpose of constructing a building.

(b) Processes carried out at a nonmetallic mining site related to the preparation or processing of the mineral aggregates or nonmetallic minerals obtained from the nonmetallic mining site. These processes include, but are not limited to stockpiling of materials, blending mineral aggregates or nonmetallic minerals with other mineral aggregates or nonmetallic minerals, blasting, grading, crushing, screening, scalping, and dewatering.

(c) Processes carried out at a nonmetallic mining site related to the preparation or processing of mineral aggregates or nonmetallic minerals or construction materials (such as asphalt shingles and metal rebar) obtained from outside the mining site. These processes include, but are not limited to, recycling, stockpiling of materials, blending mineral aggregates or nonmetallic minerals with other mineral aggregates or nonmetallic minerals or construction materials, crushing, screening, and dewatering.

(Cr. by ORD-17-00014, 2-20-17)

Nonmetallic Mining Operator. Nonmetallic mining operator means any person who is engaged in nonmetallic mining, whether individually, jointly or through subsidiaries, agents, employees, contractors or subcontractors. (Cr. by ORD-17-00014, 2-20-17)

Nonmetallic Mining Reclamation. Nonmetallic mining reclamation means the rehabilitation of a nonmetallic mining site to achieve a land use specified in an approved nonmetallic mining reclamation plan, including removal or reuse of nonmetallic mining refuse, grading of the nonmetallic mining site, removal, storage and replacement of topsoil, stabilization of soil conditions, reestablishment of vegetative cover, control of surface water and groundwater, prevention of environmental pollution and, if practicable, the restoration of plant, fish and wildlife habitat. (Cr. by ORD-17-00014, 2-20-17)

Nonmetallic Mining Refuse. Nonmetallic mining refuse means waste soil, rock and mineral, as well as other natural site material resulting from nonmetallic mining. (Cr. by ORD-17-00014, 2-20-17)

Nonmetallic Mining Site. Nonmetallic mining site means the area zoned as a nonmetallic mineral extraction district. (Cr. by ORD-17-00014, 2-20-17)

Nonprofit. A group, often a corporation, organized for purposes other than generating profits; for example, a charitable, educational, religious, or scientific organization, the income of which is exempt from taxation under the Internal Revenue Code. When used with respect to a recreational building or community center, "nonprofit" means a facility owned or operated by a nonprofit corporation or association.

North American Vertical Datum (NAVD). Elevations referenced to mean sea level datum, 1988 adjustment.

Obstruction to Flow. Any development which blocks the conveyance of floodwaters such that this development alone or together with any future development will cause an increase in regional flood height.

Office, Professional and General. Use of a building for administrative, executive, professional, research, or similar organizations. A general office is characterized by a low proportion of vehicle trips attributable to visitors or clients in relationship to employees. Examples include, but are not limited to, firms providing architectural, computer software consulting, data management, engineering, interior design, graphic design, or legal services.

Official Letter of Map Amendment. A notification from the Federal Insurance Administration of the U. S. Federal Emergency Management Agency that a Flood Hazard Boundary Map or Flood Insurance Study Map has been amended.

Ordinary High Water Mark. The point on the bank or shore up to which the presence and action of surface water is so continuous as to leave a distinctive mark such as by erosion, destruction or prevention of terrestrial vegetation, predominance of aquatic vegetation, or other easily recognized characteristic.

Outdoor Cooking Operation. Outdoor preparation of food, including by grilling or smoking, as an accessory use of a restaurant, grocery store, catering business, or other use that prepares food for consumption by the public. (Cr. by ORD-13-00178, 10-23-13)

Outdoor Display. The display of goods for sale or rental outside of an enclosed building on a permanent or recurring basis.

Outdoor Sales Events. A seasonal or occasional sale held on the sidewalk or other location outside a building.

Outdoor Storage. Permanent storage of goods, materials, equipment or service vehicles outside of an enclosed building. Off-street parking is not considered "outdoor storage."

Parking Facility. An area used for parking vehicles and includes parking lots and parking structures.

Parking Facility, Private. A parking facility owned or operated by any entity other than the City of Madison.

Parking Facility, Public. A parking facility owned and/or operated by the City of Madison.

Parking Lot. A one-level, surfaced, open-to-the-air area used for parking vehicles.

Parking Structure. A multi-level parking area, wherein one or more levels are supported above the lowest level, and is commonly called a parking garage or parking ramp.

Payday Loan Business. Any person licensed pursuant to Wis. Stat. § 218.05, or a person licensed pursuant to Wis. Stat. § 138.09, who accepts a check, holds the check for a period of time before negotiating or presenting the check for payment, and pays to the issuer an agreed-upon amount of cash, or who refinances or consolidates such a transaction.

Peer Run Respite Facility. A facility operated by a religious institution or non-profit organization which offers short-term lodging, peer support and non-medical services for individuals living with mental health or substance use concerns. (Cr. by ORD-16-00069, 8-13-16)

Person. An individual, or group of individuals, corporation, partnership, association, municipality or state agency.

Personal Wireless Services. Commercial mobile services, unlicensed wireless services and common carrier wireless exchange services as now defined in 47 U.S.C. 332 § (7)(C), as the same may be amended from time to time.

Pervious Pavement. Pavement that is designed and maintained to allow precipitation to infiltrate into the ground, in order to reduce the volume and velocity of stormwater runoff. Pervious pavement materials include pervious interlocking concrete paving blocks, concrete grid pavers, perforated brick

Physical, Occupational or Massage Therapy. An establishment where licensed professional therapists provide services to clients on an outpatient basis.

Place of Worship. A facility where people regularly assemble for religious worship and any incidental religious education which is maintained and controlled by a religious body.

Planned Multi-Use Site. A specified area of land comprised of one or more contiguous ownership parcels or building sites that share access and circulation or off-street parking. (Am. by ORD-15-00012, 1-28-15)

Porch. A floor-like platform structure with a roof-like covering, attached to the exterior walls of the building and extending from the structure, and which may be enclosed by screen, latticework, windows or other similar materials.

Portable Shelter Mission. An accessory use of a religious institution or a nonprofit organization which hosts, without compensation, outdoor overnight sleeping in tents or in other temporary portable shelters, may provide meals, and shall offer or provide worship services or supportive services. A Portable Shelter Mission may charge guests a one-time application fee. (Cr. by ORD-13-00177, 10-23-13)

Portable Storage Units. A portable structure used for temporary storage of household goods in residential areas.

Private Sewage System. A sewage treatment and disposal system serving one (1) structure with a septic tank and soil absorption field located on the same parcel as the structure. It also means an alternative sewage system approved by the Department of Safety and Professional Services, including a substitute for the septic tank or soil absorption field, a holding tank, a system serving more than one (1) structure or a system located on a different parcel than the structure.

Public Safety or Service Facility. A government facility for public safety, service, and emergency services, including a facility that provides police or fire protection and public-related services.

Public Utilities. Those utilities using underground or overhead transmission lines such as electric, telephone and telegraph, and distribution and collection systems such as water, sanitary sewer and storm sewer.

Public Utility. See Wis. Stat. § 196.01 (5). (Cr. by ORD-13-00189, 11-26-13)

Radio Broadcast Services. The regular provision of a commercial or non-commercial service involving the transmission, emission or reception of radio waves for the transmission of sound or images in which the transmissions are meant for direct reception by the general public. (Cr. by ORD-13-00189, 11-26-13)

Radio Broadcast Service Facilities. Commercial or non-commercial facilities intended for the provision of radio broadcast services. (Cr. by ORD-13-00189, 11-26-13)

Reasonably Safe from Flooding. Base flood waters will not inundate the land or damage structures to be removed from the floodplain and that any subsurface waters related to the base flood will not damage existing or proposed buildings. (Am. by ORD-14-00146, 9-12-14)

Recreation, Indoor. A facility for the indoor conduct, viewing, or participation in recreational activities. This term includes, but is not limited to, an indoor driving range, volleyball court, tennis court, bowling alley, ice or roller skating rink, swimming pool, billiard hall, or basketball court.

Recreation, Outdoor. A facility for outdoor conduct, viewing, or participation in recreational activities, which may include one or more structures. This term includes but is not limited to a golf facility, tennis, basketball or volleyball court, soccer, baseball or football field, sporting club, amusement park, miniature golf course, swimming pool, water park, an outdoor stage, band shell, or amphitheater. (Am. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14)

Recreational Equipment. Equipment used by residents of a principal building for on-premises games and sports, including but not limited to swings, slides, climbers, teeter-totters, basketball baskets and backboards, badminton nets and similar equipment, but not including recreational devices normally utilized off the premises, including but not limited to boats, boat trailers, campers, travel trailers and snowmobiles.

Recreational Equipment, Major. Major recreational equipment includes boats, canoes and snowmobiles not on vehicles, camping units, mobile recreational vehicles, and camping and luggage carrying devices designed or intended to be mounted on a vehicle.

Recurrence Interval. The average interval of time, based on a statistical analysis of actual or representative stream flow records, which can be expected to elapse between floods equal to or greater than a specified stage or discharge. Recurrence interval is generally expressed in years.

Recycling Collection Center, Drop-Off Station. A facility for the deposit, sorting, or batching but not processing of post-consumer recyclable materials, including limited compacting or crushing of recyclable materials.

Regional Flood. A flood determined or approved by the Department which is representative of large floods known to have generally occurred in Wisconsin and which is a flood with a one percent (1%) chance of being equaled or exceeded in any given year, and, if depicted on the Flood Insurance Rate Map, the regional flood elevation is equivalent to the base flood elevation.

Reasonably Safe from Flooding. For the purpose of floodplain regulation only, means base flood waters will not inundate the land or damage structures to be removed from the special flood hazard area and that any subsurface waters related to the base flood will not damage existing or proposed building.

Residential Building Complex. A group of two (2) or more residential buildings on a single parcel or tract of land, developed under single ownership and common management. (Am. by ORD-13-00134, 8-14-13)

Restaurant. A commercial establishment open to the public where food and beverages are prepared, served, and consumed and where food sales constitute the majority of gross sales. Does not include sales of fermented malt beverages or intoxicating liquor.

Restaurant-Nightclub. An establishment in which meals are provided and fermented malt beverages or intoxicating liquors are sold for consumption upon the premises and which holds an entertainment license under Sec. 38.06(11). (Cr. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14)

Restaurant-Tavern. Any establishment in which meals are provided and fermented malt beverages or intoxicating liquors are sold for consumption upon the premises. (Am. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14)

Retail, General. General retail sales include the retail sale of products to the general public, sometimes with provision of related services, and produce minimal off-site impacts. For the purpose of this ordinance, general retail sales include but are not limited to the following:

(a) Antiques and collectibles store.
(b) Art gallery.
(c) Bicycle sales and repair.
(d) Book store, music store.
(e) Clothing and accessories.
(f) Drugstore, pharmacy.

(g) Electronics sales and repair.
(h) Florist.
(i) Jewelry store.
(j) Hardware store.
(k) News stand, magazine sales.
(l) Office supplies.
(m) Pet store.
(n) Photographic equipment, film developing.
(o) Stationery store.
(p) Picture framing; and
(q) Video store.

Roof Deck. A deck constructed on top of another structure.

Room. A partitioned part of the inside of a building. For the purpose of this definition, partition shall mean something that divides interior space, especially an interior dividing wall. A wall is one of the sides of a room or building connecting floor and ceiling and may also include anything which encloses or separates space. A partition or wall which intrudes into the space by more than one-third (⅓) of the least dimension of an existing room may be regarded as creating an additional separate room. The partitioned space shall be considered as a room if privacy is implied; light and ventilation are affected; or a bedroom through a bedroom, bathroom through a bedroom or bedroom through a bathroom situation is created.

Roomer. A roomer is a person living in a dwelling unit who is other than part of the family because of blood, marriage or legal adoption, and is other than a foster child.

Rowhouse. A dwelling not more than three (3) stories in height, arranged to accommodate two (2) or more attached row dwelling units in which each dwelling unit is separated from the adjoining unit by a wall extending the full height of the building. Also known as "single-family attached."

Schools, Arts, Technical or Trade. Business, professional, trade, or other specialty schools, including but not limited to schools offering instruction in music, art, dance, martial arts, GED preparation, computer use or programming, or cosmetology.

Schools, Public and Private. Public, parochial, or private schools which provide an educational program for one or more grades between kindergarten and grade twelve (12) and which are commonly known as elementary schools, grade schools, middle schools, junior high schools, or high schools.

Screening. A hedge, wall or fence to provide a visual separator and physical barrier. Screening is typically used to conceal or shield site elements such as refuse disposal areas, outdoor storage areas, loading areas, mechanical equipment, district boundaries or similar features. (Am. by ORD-14-00001, 1-14-14)

Search Ring. A shape drawn on a map to indicate the general area within which a mobile service support structure should be located to meet radio frequency engineering requirements, taking into account other factors including topography and the demographics of the service area. (Cr. by ORD-13-00189, 11-26-13)

(R. by ORD-14-00143, 9-12-14)

Service Business. Business that provide services to the general public that produce minimal off-site impacts. Service businesses include but are not limited to the following:

(a) Barber and beauty shops.
(b) Dry-cleaning pick-up station.
(c) Interior decorating/upholstery.
(d) Locksmith.
(e) Mailing and packaging services.
(f) Photocopying, document reproduction services.
(g) Consumer electronics and repair.
(h) Shoe repair.
(i) Tailor shop; and
(j) Watch repair, other small goods repair.

Setback, Maximum. The maximum distance by which any building or structure may be separated from a street right-of-way, lot line, or Ordinary High Water Mark.

Setback, Minimum. The minimum distance by which any building or structure may be separated from a street right-of-way, lot line, or Ordinary High Water Mark. Also known as "required yard."

Setback (Maximum or Minimum), Front Yard. The maximum or minimum distance by which any building or structure may be separated from the front lot line.

Setback (Maximum or Minimum), Rear Yard. The maximum or minimum distance by which any building or structure may be separated from the rear lot line. In the case of a triangular or gore-shaped lot, a line ten (10) feet in length entirely within the lot, parallel to and most distant from the front lot line shall be considered to be the rear lot line for the purpose of determining the rear yard setback. In the case of an irregular lot, the Zoning Administrator shall select a line or lines generally opposite the front lot line for the purpose of providing a rear yard area across and within the entirety of the lot as generally shown in the diagrams below. (Am. by ORD-17-00035, 3-29-17)

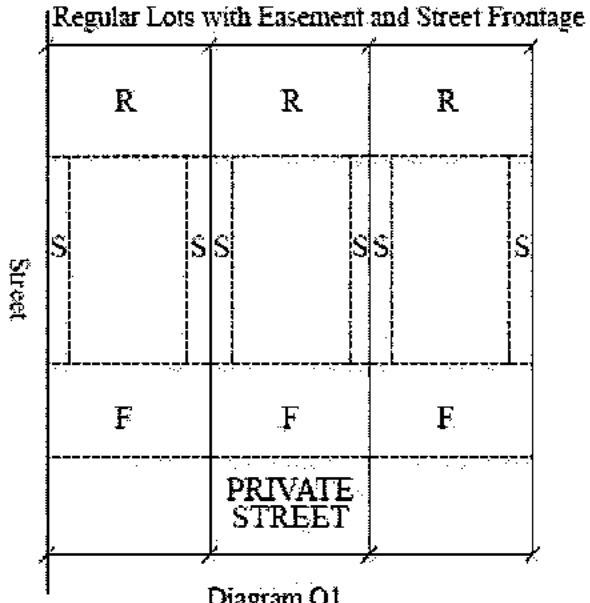

Diagram 01

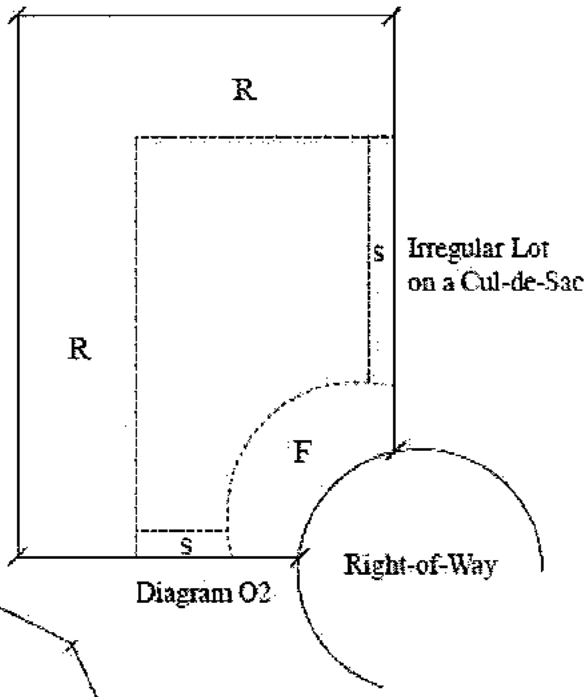

Diagram 02

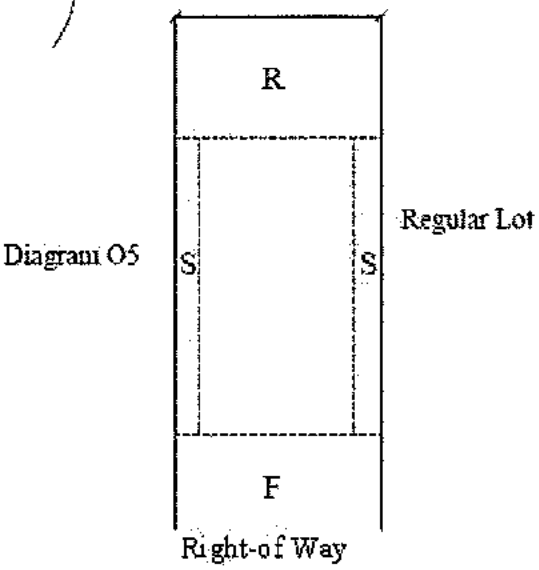

Diagram 05

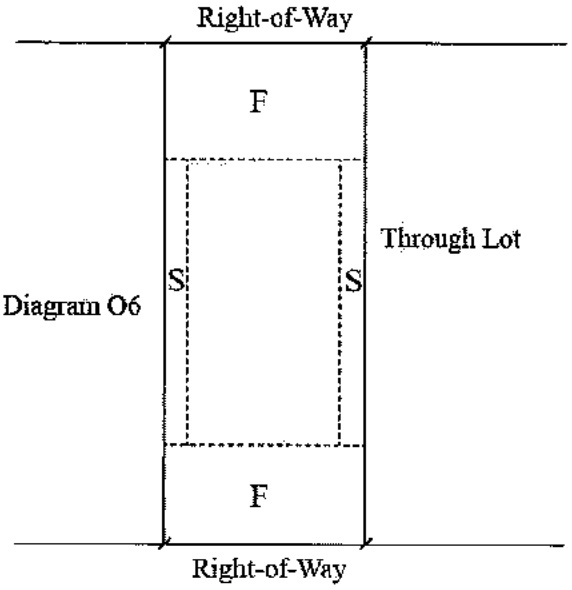

Diagram O6 Through Lot

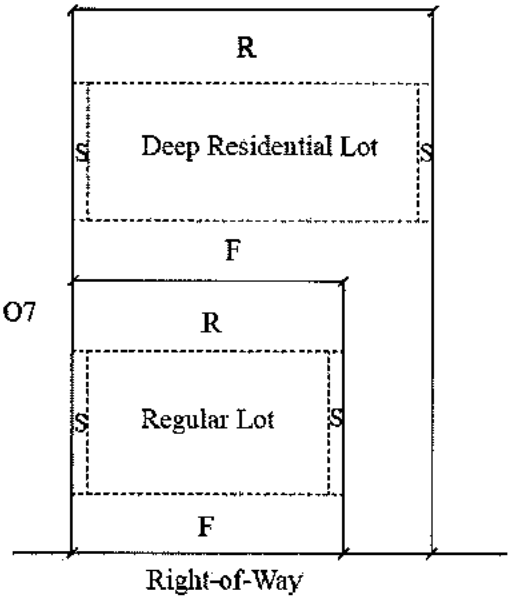

Diagram O7

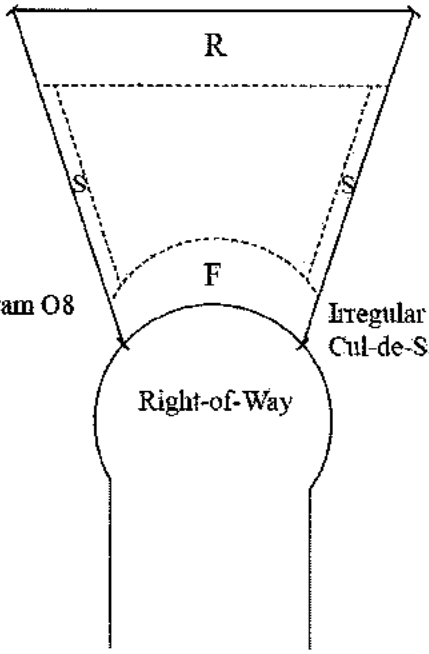

Diagram O8 Irregular Lot on Cul-de-Sac

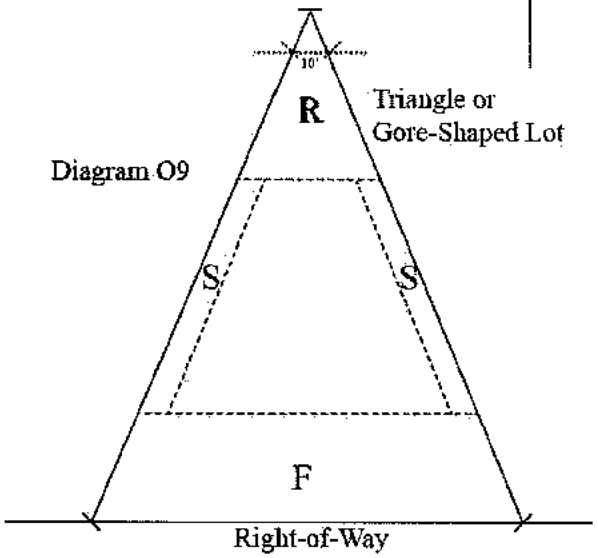

Diagram O9 Triangle or Gore-Shaped Lot

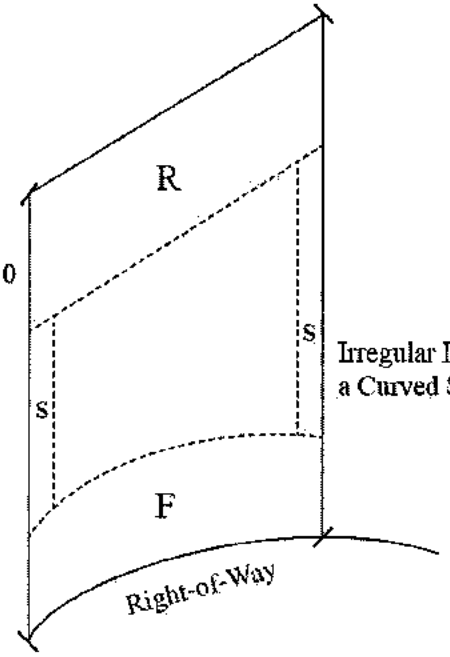

Diagram O10 Irregular Lot on a Curved Street

Setback (Maximum or Minimum), Side Yard. The maximum or minimum distance by which any building or structure may be separated from the side lot line.

Setback (Maximum or Minimum), Street Yard. The maximum or minimum distance by which any building or structure may be separated from the front, side or rear lot line when such lot line abuts a street right-of-way.

Shoreland. Lands within the following distances from the ordinary high-water mark of navigable waters: one thousand (1,000) feet from a lake, pond or flowage; three hundred (300) feet from a river or stream or to the landward side of the floodplain, whichever distance is greater.

Signage. An emblem, name, identification, description or illustration which is affixed to or appears directly or indirectly upon a building, structure or piece of land and which directs attention to an object, product, place, activity, person, institution, organization or business. Neither official court or public notices, nor the flag, emblem or insignia of a nation, political unit, school or religious group, shall be considered a sign under this ordinance.

Skilled Nursing Care. A facility for the chronically ill that provides long-term nursing care, rehabilitation, and other services.

Specified Anatomical Areas:

(a) Less than completely and opaquely covered human genitals, pubic region, buttocks and female breasts below a point immediately above the top of the areola.

(b) Human male genitals in a discernible turgid state, even if opaquely covered.

Specified Sexual Activities, Simulated or Actual:

(a) Showing of human genitals in a state of sexual stimulation or arousal.

(b) Acts of masturbation, sexual intercourse, sodomy, bestiality, necrophilia, sadomasochistic abuse, fellatio or cunnilingus.

(c) Fondling or erotic touching of human genitals, pubic region, buttock or female breasts.

Split Two-Family Dwelling. See "Dwelling, Two-Family - Twin."

Stepback. A step-like recession in an exterior wall located at a level above the ground floor.

Start of Construction. For the purpose of floodplain regulation only, means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within one hundred eighty (180) days of the permit date. The actual start means either the first placement of permanent construction on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond initial excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling, nor does it include the installation of streets and/or walkways, nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms, nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For an alteration, the actual start of construction means the first alteration of any wall, ceiling, floor or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Storage Capacity of a Floodplain. The storage capacity of a flood plain is the volume of space above an area of flood plain land that can be occupied by flood water of a given stage at a given time, regardless of whether the water is moving.

Storage Facility, Personal Indoor Storage. A facility consisting of individual self-contained storage units or spaces leased to individuals, organizations, or businesses for storage of personal or business property.

Storage Locker (Personal) - A structure operated by a religious institution or nonprofit organization that provides space for individuals to store personal belongings. (Cr. by ORD-16-00109, 12-14-16)

Storefront. The street-level side of a commercial space, such as a store, shop or restaurant that faces the street.

Story. A story is that portion of a building, other than a basement or mezzanine, included between the surface of any floor and the surface of the floor next above it, or if there be no floor above it, then the space between the floor and the ceiling next above it.

(a) For the purposes of this ordinance, there shall be only one basement which shall be counted as a story when the front exterior wall of the basement level is exposed more than fifty percent (50%).

(b) Any part of a building that is above the second story and between the eaves and the ridge line of pitched roofs is not a story, but may be occupied as long as the requirements for human occupancy are met. (Am. by ORD-11-00144, 9-11-13)

Street. A public right-of-way which affords traffic circulation and a principal means of access to abutting property. For the purpose of this ordinance, an alley shall not be considered a street.

Structural Alteration. Any change other than incidental repairs which would prolong the life of the supporting members of a building, such as bearing walls, columns, beams, girders or foundations.

Structure. A structure is anything constructed or erected, the use of which requires more or less permanent location on the ground, or attached to something having permanent location on the ground, and in the case of flood plain areas, in the stream bed or lake bed.

Structure, Habitable. Any structure or portion thereof used or designed for human habitation.

Substantial Damage. For the purpose of floodplain management only, means damage of any original sustained by a structure, whereby the costs of restoring the structure to its predamaged condition would equal or exceed fifty percent (50%) of the equivalent assessed value of the structure before the damage occurred.

Substantial Improvement. For the purposes of floodplain regulations, any repair, reconstruction, rehabilitation, addition or improvement of a building or structure, the cost of which equals or exceeds fifty percent (50%) of the equalized assessed value of the structure before the improvement or repair is started. If the structure has sustained substantial damage, any repairs are considered substantial improvement regardless of the work performed. The term does not, however, include either any project for the improvement of a building required to correct existing health, sanitary or safety code violations identified by the building official and that are the minimum necessary to assure safe living conditions; or any alteration of a historic structure provided that the alteration will not preclude the structure's continued designation as a historic structure. (Cr. by ORD-14-00146, 9-12-14)

Substantial Modification of a Mobile Service Support Structure. The modification of a mobile service support structure, including the mounting of an antenna on such a structure, that does any of the following, except that an activity is not a substantial alteration if a greater height is necessary to avoid interference with an existing antenna, or if a greater protrusion is necessary to shelter the antenna from inclement weather or to connect the antenna to the existing structure by cable:

(a) For structures with an overall height of two hundred (200) feet or less, increases the overall height of the structure by more than twenty (20) feet.

(b) For structures with an overall height of more than two hundred (200) feet, increases the overall height of the structure by ten (10) percent or more.

(c) Measured at the level of the appurtenance added to the structure as a result of the modification, increases the width of the support structure by twenty (20) feet or more, unless a larger area is necessary for collocation.

(d) Increases the square footage of an existing equipment compound to a total area of more than two thousand five hundred (2,500) square feet.

(Cr. by ORD-13-00189, 11-26-13)

Substantially Underway. Substantially underway means that a use is commenced or construction is begun and diligently prosecuted toward completion.

Support Structure. For the purposes of mobile service facilities, an existing or new structure that supports or can support a mobile service facility, including a mobile service support structure, utility pole, water tower, building, or other structure. (Cr. by ORD-13-00189, 11-26-13)

Tavern. An establishment where the principal and primary use is serving fermented malt beverages or intoxicating liquors for consumption on the premises and where food or packaged alcoholic beverages may be served or sold only as accessory to the primary use, and which does not include kitchen facilities. (Am. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14; ORD-16-00050, 5-25-16)

Taxicab or Limousine Business. A service which offers transportation in passenger automobiles and vans to persons including those who have a disability in return for remuneration. The business may include facilities for dispatching, servicing, repairing, and fueling the taxicabs or vans.

Telecommunications Center. An office facility that is responsible for transmission, receipt, acceptance, processing, and distribution of incoming and outgoing communications.

Telecommunication Facilities. Any plant or equipment used to carry wireless commercial telecommunications services by radio signal or other electromagnetic waves, including towers, antennas, equipment buildings, parking area and other accessory development.

Telecommunications Tower, Communication Tower. A mast, pole, monopole, guyed tower, lattice tower, free-standing tower, or other structure designed and primarily used to support antennas. A ground or building mounted mast greater than fifteen (15) feet tall and six (6) inches in diameter supporting one or more antennas, dishes, or arrays shall be considered a telecommunications tower. This definition specifically includes Mobile Service Support Structures. (Am. by ORD-13-00189, 11-26-13)

Temporary Outdoor Event. A seasonal or occasional event held on the sidewalk or other location outside a building, where the principal use is non-residential.

Theater, Assembly Hall. A facility for presenting motion pictures or live performances for patrons that provides fixed or designated seating. This term does not include an adult entertainment establishment. (Am. by ORD-14-00083, Pub. 4-16-14, Eff. 7-1-14)

Tobacco Paraphernalia. Tobacco paraphernalia means cigarette papers or wrappers, pipes, holders of smoking materials of all types, cigarette rolling machines, and any other item designed for the smoking or ingestion of tobacco products. Tobacco paraphernalia includes electronic cigarettes, personal vaporizers, electronic nicotine delivery systems, or any item designed to atomize liquid solutions that simulate smoking. (Cr. by ORD-15-00054, 5-27-15)

Tobacco Products. Tobacco products means any substance containing any tobacco leaf, including but not limited to cigarettes, cigars, bidis, pipe tobacco, snuff, chewing tobacco, and smokeless tobacco. Tobacco products includes e-liquids such as propylene glycol, glycerin, nicotine, flavorings, or other products for use in electronic cigarettes, personal vaporizers, or electronic nicotine delivery systems. (Cr. by ORD-15-00054, 5-27-15)

Tobacco Retailer. A tobacco retailer is any establishment that either devotes twenty percent (20%) or more of floor area or display area to the sale or exchange of tobacco products or tobacco paraphernalia. (Cr. by ORD-15-00054, 5-27-15)

Tourist or Transient. A person who travels to a location away from his or her permanent address for a short period of time, not to exceed thirty days for vacation, pleasure, recreation, culture, business or employment. (Cr. by ORD-13-00185, 11-5-13)

Tourist Rooming House. A building or portion thereof, other than a Hotel, Motel, Bed and Breakfast Establishment or Hostel, in which sleeping accommodations are offered for pay to tourists or transients. The definition does not include private boarding, lodging or rooming houses not accommodating tourists or transients. (Cr. by ORD-13-00185, 11-5-13)

Towing and Wrecker Service Business. A service that includes pulling, pushing or hauling motor vehicles to automobile service station for immediate service, to a garage or body shop for repairs or to a motor vehicle storage or salvage yard.

Traffic. The passage of pedestrians or vehicles along routes of transportation.

Trailer. Any structure which is or may be mounted upon wheels for moving about, and is propelled by its own power or drawn by other motive power, and which is used as a dwelling or as an accessory building or structure in the conduct of a business, trade or occupation, or is used for hauling purposes.

Transportation Demand Management (TDM). Measures, including but not limited to carpooling, vanpooling, public transit bicycling, walking, telecommuting, and compressed or deviated work schedules, that reduce individual vehicle trips and promote alternatives to single occupant vehicle use especially at peak commuting times.

Transportation Management Association. A membership group of owners and/or tenants of residences or places of employment within close proximity that provides support and administration for a Transportation Demand Management program operated for the benefit of its members.

Unnecessary Hardship. Where special conditions affecting a particular property, which were not self-created, have made strict conformity with restrictions governing areas, setbacks, frontage, height, bulk or density unnecessarily burdensome or unreasonable in light of the purposes of the ordinance.

Usable Open Space. That portion of a zoning lot, outside of a required front or corner side yard, as extended to the rear lot line, that is available to all occupants for outdoor use. Usable open space shall not

include areas occupied by buildings, driveways, drive aisles, off-street parking, paving and sidewalks, except that paved paths no wider than five (5) feet, and pervious pavement may be included in usable open space. Usable open space may include balconies and roof decks where specified in this ordinance.

Use. The use of property is the purpose or activity for which the land or building thereon is occupied or maintained.

Use, Accessory. A use on the same lot with, and of a nature customarily incidental and subordinate to, the principal use or structure, and serving the occupants of the principal use or structure.

Use, Conditional. A conditional use is a use which, because of its unique or varying characteristics, cannot be properly classified as a permitted use in a particular district.

Use, Land. In floodplains, any nonstructural use made of unimproved or improved real estate.

Use, Permitted. A permitted use is a use which may be lawfully established in a particular district or districts, provided it conforms with all requirements and regulations of the district in which such use is located.

Use, Principal. A principal use is the main use of land or buildings as distinguished from a subordinate or accessory use.

Utility Pole. A structure owned or operated by an alternative telecommunications utility, as defined in s. 196.01 (1d); public utility, as defined in s. 196.01 (5); telecommunications utility, as defined in s. 196.01 (10); political subdivision; or cooperative association organized under ch. 185; and that is designed specifically for and used to carry lines, cables, or wires for telecommunications service, as defined in s. 182.017 (1g) (cq); video service, as defined in s. 66.0420 (2) (y); for electricity; or to provide light. (Cr. by ORD-13-00189, 11-26-13)

Variance, Area. An authorization by the Zoning Board of Appeals for the construction or maintenance of a building or structure in a manner which is inconsistent with dimensional standards contained in the zoning ordinance.

Variance, Use. An authorization by the Zoning Board of Appeals for the use of property in a manner which is inconsistent with the listed uses contained in the zoning ordinance.

Vehicle. Any device in, upon or by which any person or property is or may be transported or drawn upon a highway.

Vehicle Access Sales and Service Window. A facility consisting of a driveway and window, opening, canopy or other facility used for serving patrons in automobiles or on bicycles and which may be associated with principal uses such as restaurants, banks, drugstores or coffee shops.

Vending Machine. A stand-alone, self-contained or connected appliance machine located inside or outside a principal building or structure and that dispenses a product.

Veterinary Clinic, Animal Hospital. An establishment for the routine examination, medical or surgical treatment and care of domestic animals, generally with overnight boarding facilities for animals in care but without kenneling of animals.

Violation. In a floodplain, the failure of a structure or other development to be fully compliant with the floodplain zoning ordinance. A structure or other development without required permits, lowest floor elevation documentation, floodproofing certificates or required floodway encroachment calculations is presumed to be in violation until such time as that documentation is provided.

Walk-Up Service Window. A window or door in a commercial establishment which is used for the sale of food or drinks to pedestrians.

Watershed. The entire region contributing runoff or surface water to a watercourse or body of water.

Water Surface Profile. A graphical representation showing the elevation of the water surface of a watercourse for each position along a reach of river or stream at a certain flood flow. A water surface profile of the regional flood is used in regulating floodplain areas.

Well. An excavation opening in the ground made by digging, boring, drilling, driving or other methods, to obtain groundwater regardless of its intended use.

Wetland Alteration. Any filling, flooding, draining, dredging, ditching, tiling, excavating, temporary water level stabilization measures or dike and dam construction in a wetland area.

Wetlands. Those areas where water is at, near or above the land surface long enough to support aquatic or hydrophytic vegetation and which have soils indicative of wet conditions.

Warehousing and Storage. An establishment providing storage and distribution of merchandise and bulk goods, typically involving heavy truck and/or freight rail traffic.

Wholesale Establishment. An establishment providing storage, distribution and sale of merchandise and bulk goods, including mail order and catalog sales, importing, wholesale or retail sales of goods received by the establishment but not sale of goods for individual consumption.

Yard. Open space on a zoning lot between the principal building and the adjoining lot lines.

Yard, Front. A yard extending along the full length of the front lot line between the side lot lines.

Yard, Rear. A yard extending along the full length of the rear lot line between the side lot lines.

Yard, Required. See "Setback."

Yard, Side. A yard extending along a side lot line from the front yard to the rear yard.

Yard Sale. Any lawn sale, garage sale, attic sale, rummage sale, moving sale or other similar sale involving the display and/or sale of new and/or used goods on a zoning lot where the principal use is residential.

Zoo. A park that is open to the public, where live wild animals from different parts of the world are kept in enclosures for people to view, and where said animals may be bred or studied.

INDEX TO BUILDING CODE

Chapter 29 created by Ordinance 1946, December 23, 1965

GENERAL PROVISIONS

29.01 TITLE. This chapter shall be known as the Building Code of the City of Madison.

29.015 RESERVED FOR FUTURE USE. (R. by Ord. 13,410, 9-24-03)

29.02 PURPOSE AND SCOPE OF BUILDING CODE.

(1) The purpose of this code is to provide minimum regulations, provisions and requirements in the City of Madison to insure safety to persons and property, safe and stable design, good workmanlike methods of construction and uses of materials in any building constructed, enlarged, altered, repaired, moved, converted to other uses or demolished, to regulate the equipment, maintenance, condition, use, occupancy and safety of all buildings in the City of Madison and to promote public health, safety and general welfare. This code shall apply in the City of Madison to new structures and to alterations and additions to existing structures.

(2) The sections contained in this code shall be binding alike upon every owner of a building, every person in charge of or responsible for or who causes the construction, repair or alteration of any building or structure, and upon every architect, professional engineer, or other person who shall prepare plans for the construction, alteration, or addition to any building or structure in the City of Madison.

(3) This code shall apply to all buildings and structures.

29.021 PERFORMANCE CODE.

This code shall be interpreted and administered as a performance code.

29.03 MISCELLANEOUS DEFINITIONS.

Accessory Building or Use. An accessory building or use is one which:

1. Is customary and clearly incidental to the principal building or principal use.
2. Is subordinate to and serves a principal building or principal use.
3. Is subordinate in area, extent, and purpose to the principal building or principal use served.
4. Contributes to the comfort, convenience, or necessity of occupants of the principal building or principal use served, and is located on the same zoning lot as the principal building or principal use served, with the single exception of such accessory off-street parking facilities as are permitted to locate elsewhere than on the same zoning lot as the building or use served.

Air Temperature. Air temperature shall measure the temperature of the air and not radiant heat.

Adequate shall mean adequate as determined by the Director of the Building Inspection Division under the regulations of this chapter or adequate as determined by an authority designated by law or this chapter. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

Adequately shall mean the same as adequate.

Alley. An alley is a public right-of-way which affords only a secondary means of access to abutting property, and which is not more than twenty-four (24) feet in width.

Alteration means any change, addition or modification in construction.

Apartment means one (1) or more rooms with provisions for living, cooking, sanitary, and sleeping facilities arranged for use by one (1) family.

Apartment House is any building which is occupied as the home or residence of two (2) or more families living independently of each other and doing their own cooking in the said building.

Approved or Approved as to Materials and Types of Construction means approved by the Director of the Building Inspection Division as the result of investigation and tests conducted by him, or by reason of accepted principals or tests by nationally recognized and accepted technical or scientific organizations. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

Awning. An awning is a rooflike cover, temporary in nature, which projects from the wall of a building.

Balcony. (See Mezzanine Floor)

Basement. Basement means that portion of a dwelling between floor and ceiling which is below or partly below and partly above grade but so located that the vertical distance from the grade to the floor below is more than the vertical distance from grade to ceiling. (Am. by Ord. 7842, 10-15-82)

Boarding or Lodging House is a building other than a hotel, where, for compensation, meals, lodging or lodging and meals are provided for persons not members of a family unit, and including fraternities and sororities.

Building means a combination of materials to form a construction that is safe and stable, and adapted to permanent or continuous occupancy for assembly, business, educational, high hazard, industrial, institutional, mercantile, residential, or storage purposes; the term "building" shall be construed as if followed by the words "or portion thereof". For the purposes of this code each portion of a building completely separated from other portions by an unpierced fire wall shall be considered as a separate building.

Court is an open, exterior space providing required natural light or ventilation for the building or providing a pathway for public egress from a building exit to a public thoroughfare.

1. Outer Court is a court bounded on three sides by walls and on the remaining side by a street, alley or other open space not less than 15 feet wide.
2. Inner Court is a court surrounded on all sides by walls.
3. Outer Lot Line Court is a court with one side on a lot line or property line and opening to a street or open space not less than 15 feet wide.

4. Inner Lot Line Court is a court bounded on three sides by walls and on the remaining side by a lot line or property line.

(Am. by Ord. 7758, 7-2-82)

Dwelling is a place of abode, a residence or a house for use by one (1) or more persons, excluding hotels or motels.

1. Single-family Dwelling. A single-family dwelling is a building containing one (1) dwelling unit only.
2. Two-family Dwelling. A two-family dwelling is a building containing two (2) dwelling units only.
3. Multiple-family Dwelling. A multiple-family dwelling is a building, or portion thereof, containing three (3) or more dwelling units.

Dwelling, Detached. A detached dwelling is one which is entirely surrounded by open space on the same lot.

Dwelling Unit means one (1) or more rooms with provisions for living, cooking, sanitary, and sleeping facilities arranged for use by one (1) family.

Exits.

1. Exit Doorway means the doorway opening: directly to the exterior; to a horizontal exit; to an exit stairway, or to a similar place of safety.
2. Exitway means the exit doorway or doorways, or such doorways together with connecting hallways or stairways, either interior or exterior, or fire escapes, by means of which occupants may proceed safely from a room or space to a street or to an open space which provides safe access to a public alley, street, or open court connected with a street. One (1) or more separate exitways may use the same corridor or hallway.

Extermination. Extermination shall mean the control or elimination of infestation by eliminating harboring places and removing or making inaccessible materials that may serve as food; and by poisoning, spraying, trapping, fumigation by a licensed fumigator or any other effective elimination procedure.

Family. A family is an individual, or two (2) or more persons related by blood, marriage or legal adoption living together as a single housekeeping unit in a dwelling unit, including foster children, domestic servants and not more than four (4) roomers, except that the term family shall not, in R1, R2, R3, R4A and R4L residence districts, include more than one roomer except where such dwelling unit is owner-occupied. In any residence district, a family may consist of two unrelated adults and the minor children of each. Such family may not include any roomers except where the dwelling unit is owner-occupied. For the purpose of this section, "children" means natural children, grandchildren, legally adopted children, stepchildren, foster children, or a ward as determined in a legal guardianship proceeding. Up to two (2) personal attendants who provide services for family members or roomers who, because of advanced age or a physical or mental disability, need assistance with activities of daily living shall be considered part of the "family". Such services may include personal care, housekeeping, meal preparation, laundry or companionship. (Am. by Ord. 9698, 1-26-89 & 1-31-89)

Fence. A fence is a structure providing enclosure or serving as a barrier, but not protecting against the elements (as distinguished from a building).

Filling Station is a place where gasoline, kerosene, or any other fuel, lubricating oil or grease for operating motor vehicles is offered for sale at retail to the public and where deliveries are made at time of sale and directly into motor vehicles, including greasing and oiling on the premises.

Garage, Community. A space or structure, or a series of structures, for the storage only of noncommercial vehicles of residents of the neighborhood.

Garage, Private. An enclosed attached or detached building to house self-propelled vehicles for the personal use by occupants of single and two- family dwellings.

Garage, Public. A space or structure other than a private or community garage, for the storage, sale, hire, or repair of motor vehicles, or vehicles used in connection therewith.

Gasoline Service Station. A space or structure other than a public garage, used in connection with liquid fuel dispensing stations where one (1) or more vehicles can be accommodated for washing, greasing, oil changing, tire or battery replacement or similar minor operations or adjustments.

Habitable Space is one (1) or more rooms in a dwelling used primarily for sleeping, living, or dining purposes.

Hotel. A hotel is a building in which lodging accommodations, with or without meals, are provided to the public for compensation, and which is open to transient guests in contradistinction to a lodging house. A hotel is commonly known as a hotel in the City and provides customary hotel services, such as mail, telephone and secretarial, bellboy, and desk services, the use and upkeep of furniture, and the furnishing and laundering of linen.

Hotel, Apartment. An apartment hotel is a building in which at least ninety percent (90%) of the accommodations are dwelling units or are occupied by permanent guests renting on a monthly basis.

Impervious to Water. Impervious to water shall mean material approved by the Director of the Building Inspection Division, and having tight fitting joints, and not having more than four and one-half percent (4½%) absorption by test. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

Infestation. Infestation shall mean the sustained presence of household pests, vermin, or rodents.

Insulation. Normally a low-density material used to reduce heat loss. It is made of wood fiber, cotton fiber, mineral or glass wool or fiber, vermiculite, expanded plastics, and others. It is made in several forms including:

1. Flexible - in blanket or batt form
2. Fill - a loose form which can be poured or blown
3. Rigid - includes insulating board or other materials in sheet or block form. Often used as sheathing material, as perimeter insulation, etc.
4. Reflective - a polished surface such as aluminum foil which has high reflectivity and low emissivity.

Living Room shall mean a room used primarily for living, dining, or cooking purposes.

Lodging House is a dwelling containing lodging rooms that will accommodate five (5) or more persons not members of the family.

Lodging Room is a portion of a dwelling used primarily for sleeping and living purposes, excluding cooking facilities.

Mezzanine Floor. An intermediate balcony-like floor located between a main or full floor and the main ceiling next above and not exceeding in area more than one-third (⅓) of such main or full floor.

Mixed Occupancy. Mixed occupancy shall be occupancy of a building in part for residential use and in part for some other use not accessory thereto.

Mobile Home. A mobile home is a trailer designed and constructed for dwelling purposes.

Motel. A motel is an establishment consisting of a group of attached living or sleeping accommodations with bathroom and closet space, located on a single zoning lot, and designed for use by transient automobile tourists. A motel furnishes customary hotel services such as maid service, and laundering of linen, telephone and secretarial or desk service, and the use and upkeep of furniture. In a motel less than fifty percent (50%) of the living and sleeping accommodations are occupied or designed for occupancy by persons other than transient automobile tourists.

Occupant means one who occupies or has actual possession of usable space.

Ordinary Minimum Winter Conditions. Ordinary minimum winter conditions shall mean a temperature minus twenty (-20) degrees Fahrenheit.

Owner. The term owner shall mean every person, firm, partnership, or any individual member thereof, corporation, business organization of any kind, the state, the county, the city, any sewer district, drainage district, the University of Wisconsin, and any corporation or organizations connected therewith, and any other public or quasi-public corporation having a legal or

equitable interest in property and shall include the representative, officer, agent or other person having the ownership, control, custody or management of any building. Owner does not include any person whose legal or equitable interest in the building is a security interest derived solely from the extension of credit to permit construction or remodeling of the dwelling or purchase of the dwelling by a third party. (Am. by Ord. 9640, 12-14-88)

Perm. A measure of vapor movement through a material; i.e., grains per square foot per hour per inch of mercury difference in vapor pressure at standard test conditions.

Permeance. Rate of water vapor transmission through a material, measured in perms. Thus, the lower the permeance, the better the vapor barrier.

Person. A person shall mean and include an individual, firm, corporation, association, or partnership.

Plumbing. Plumbing shall include all gas pipes and gas burning equipment, waste pipes, water pipes, water closets, sinks, lavatories, bathtub, catch basins, drains, vents, and any other provided fixtures together with the connections with the water, sewer or gas lines.

Provided. Provided shall mean furnished, supplied, paid for or under control of the owner.

Radiation. Transfer of heat energy in the form of waves or particles which have no effect on the medium through which they pass.

Rooming House. See definition for lodging house.

Sleeping Room. Sleeping room shall mean a room used for sleeping purposes.

Stairways means one (1) or more flights of steps and the necessary platforms connecting them to form a continuous passage from one level to another within or without a building or structure.

Story is that portion of a building, other than a basement or mezzanine included between the surface of any floor and the surface of the floor next above it, or if there be no floor above it, then the space between the floor and the ceiling next above it. For the purpose of this ordinance, a basement shall be counted as a story when more than five (5) feet of such basement height is above the established curb level or above the finished lot grade level where curb level has not been established. A mezzanine shall be deemed a full story where it covers more than fifty percent (50%) of the ground story. (Am. by Ord. 9303, 10-29-87)

Street. A street is a public or private right-of-way which affords traffic circulation and a principal means of access to abutting property. An alley shall not be considered a street.

Structural Alteration is any change, other than incidental repairs, which would prolong the life of the supporting members of a building, such as bearing walls, columns, beams, girders or foundations.

Structure. Structure is anything constructed or erected, the use of which requires more or less permanent location on the ground, or attached to something having permanent location on the ground.

Sun Shade. A permanent projection over the windows of a building to shade the windows from the sunshine and which is not supported by posts or columns, and which cannot be used for human occupancy.

TD (Temperature Difference). The difference between the inside design temperature and the outside design temperature. (For Madison, the inside design temperature is +70 degrees for all rooms except bathrooms and the outside design temperature is -20 degrees, therefore, the TD is 90 degrees.)

Townhouse. A townhouse is a place of abode having not more than two (2) stories, not including the attic, with or without a basement, which consists of three (3) or more dwelling units with sleeping rooms on the second story level and in which the dwelling units are arranged in such a manner so that one (1) or more units are separated from the other units by three (3) unpierced interior walls.

U. Overall heat transmission coefficient; the amount of heat expressed in one hour through one square foot of a building section for each degree temperature difference between air on the inside and air on the outside of the building section.

Vapor Barrier. A film, duplex paper, aluminum foil, paint coating or other materials which restrict the movement of water vapor from an area of high vapor pressure to one of lower pressure. Material with a perm value of 1.0 or less is normally considered a vapor barrier.

Ventilation. The replacement by outside air of the air within the building.

Yard. Yard shall mean an open unoccupied space on the same lot with a dwelling and lying between the front, rear, or sides of the dwelling and the lot line.

(Section 29.03 Am. by Ord. 4670, 8-5-74)

29.04 CHANGE IN USE OR OCCUPANCY.

(1) When the use of a building or structure is changed and the requirements for the new use are more stringent than those for the previous use then such building or structure shall be made to comply with the requirements for the new use as provided in this code.

(2) If, upon an inspection of a building or structure, it is found that its use has changed since the effective date of the first Building Code (October 9, 1914) and that it does not comply with the requirement of the Building Code in effect at the time of any such change, it shall then be made to comply with the code requirements in effect at the time of any such change in use.

29.045 PREVIOUS ORDINANCES TO APPLY.

If, upon an inspection of a building or structure, it is found that the building or structure or portions thereof does not comply with Chapters 18, 19, 29 or 30 of the Madison General Ordinances, it shall then be made to comply with such Chapter unless the ordinance requirements in effect at the time of the building's construction, alteration, repair or when additions made thereto apply, in which case the building, structure or portion thereof shall be made to comply with those ordinance requirements. (Am. by Ord. 9754, 4-13-89)

GENERAL ADMINISTRATIVE PROVISIONS

29.05 APPLICATION FOR PERMIT, PLANS AND SPECIFICATIONS.

(1) No person shall erect or construct any building or structure whatever, or add to, enlarge, move, improve, alter, convert, extend or demolish any building or structure, or cause the same to be done, or commence any work covered by this code on any structure without first obtaining a building permit therefor from the Director of the Building Inspection Division; provided, however, that the Director of the Building Inspection Division may authorize minor improvements not involving structural alterations, change in use and which do not exceed a cost of five hundred dollars ($500) without requiring a building permit to be issued. Such permit shall be issued in the name of the owner. (Am. by Ord. 10,340, Adopted 12-3-91, Effective 1-1-92)

(2) Applications for building permits shall be filed with the Director of the Building Inspection Division in writing on a blank form to be furnished for that purpose. Such application shall describe the land upon which the proposed building or work is to be done, either by lot, block or tract, or similar general description which will readily identify and definitely locate the proposed building or work and shall show the use or occupancy of all parts of the building and such other pertinent information as may be required by the Director of the Building Inspection Division.

The Director of the Building Inspection Division or any inspector of the Building Inspection Division of the Department of Planning and Community and Economic Development shall as a condition of the granting of a building permit, have the right to enter the premises for which said permit was issued, at any reasonable time during the course of the work and until final inspection and approval thereof has been given, for the

purpose of inspecting said premises and its compliance as to construction or use with all statutory and ordinance regulations in reference to the construction, repair, use, and location of buildings.

(3) Plans and specifications and a lot plan showing the location of the proposed building thereon and of every existing building thereon, shall accompany every application for a permit, and shall be filed in duplicate with the Director of the Building Inspection Division; provided, however, that the Director of the Building Inspection Division may authorize the issuance of a permit without plans or specifications for small or unimportant work.

(a) Plans submitted shall be drawn to scale on substantial paper or prepared cloth, such scale to be not less than one-eighth (⅛) to one (1) foot. They shall be of sufficient clarity to indicate the nature and character of the work proposed and to show that the regulations which apply will be complied with. They shall be prepared in accordance with the provisions of this code, and shall bear the name of the architect, professional engineer or other person who prepared them.

(b) Specifications shall be in detail. Any specifications in which general expressions are used to the effect that "work shall be done in accordance with the Building Code" or "to the satisfaction of the Director of the Building Inspection Division" shall be deemed imperfect and incomplete and every reference to the Building Code shall be to the section or subsection applicable to the material to be used or to the method of construction proposed.

(4) The following data shall be a part of, or shall accompany, all plans submitted for approval.

(a) The location of streets, alleys, lot lines and any other buildings on the same lot or property.

(b) Name of owner.

(c) Intended use or uses of all rooms.

(d) Show floor area of each room.

(e) Show window size for meeting the eight percent (8%) floor area requirements for light and ventilation. (Am. by Ord. 7760, 7-2-82)

(f) Computations, stress diagrams and other data necessary to show the correctness of the plans, shall accompany the plans and specifications when required by the Director of the Building Inspection Division.

(5) All persons applying for permits shall, at their initial application, provide the names and addresses of all subcontractors who will require supplemental permits over the course of the project. The Director of the Building Inspection Division shall mail the required supplemental permit to the subcontractor, who shall return the completed permit to the Director of the Building Inspection Division within seven (7) days of the postmark date of the supplemental permit. Failure to return the supplemental permit prior to commencing work shall be deemed to be working without a permit and shall be punishable in accordance with Sections 29.07(3) and 29.17 of these ordinances. (Cr. by Ord. 8167, 12-2-83)

(Sec. 29.05 Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

29.051 RESERVED FOR FUTURE USE.

29.06 BUILDING PERMIT.

(1) When plans are required for approval they shall be submitted in duplicate and work shall not be started until plans are approved. The plans submitted shall be prints that are clear, legible and permanent. Complete foundation and footing plans may be submitted for approval prior to submitting the building plans if the plot plan, itemized structural loads, complete foundation or footing design calculations and schematic floor plans are included showing exits, loading areas, windows and other pertinent information. Permit fees for foundation and footing permits shall be charged at a rate set forth in Section 29.07(3)(f).

If the application, plans and specifications are in conformity with the requirements of this code and all other laws or ordinances applicable thereto, the Director of the Building Inspection Division shall, upon receipt of the required fee, grant a building permit for said work and shall sign, date and endorse in writing or by rubber stamp both sets of plans and specifications as "approved". (Am. by Ord. 11,796, Adopted 2-18-97)

(2) One such approved set of plans and specifications shall be retained by the Director of the Building Inspection Division, and one such approved set of plans and specifications shall be returned to the applicant, which set shall be kept at the site of such work at all times until the work authorized thereby is completed and shall be available for inspection by any public official. Such approved plans and specifications shall not be changed, modified or altered without written permission from the Director of the Building Inspection Division. (Am. by Ord. 8081, 7-29-83)

(3) With every permit issued, the Director of the Building Inspection Division shall issue to the applicant an appropriate card properly filled out evidencing issuance of the permit. It shall be the duty of such applicant to place such card in a conspicuous place on the premises where the building is to be erected, the card to be unobstructed from public view and available for the inspectors to mark. (Am. by Ord. 8081, 7-29-83)

(4) Building permits shall lapse and be void unless the work authorized thereby is commenced within six (6) months from the date thereof and completed or resumed within one (1) year from the date thereof and in the event of further construction after one (1) year, a new permit must be obtained pursuant to all the requirements of the code then in force. The fees for such new permit shall be based upon the cost of the construction remaining to be done.

(5) If the Director of the Building Inspection Division shall find at any time that the above-mentioned ordinances, laws, orders, plans and specifications are not being complied with, s/he shall revoke the building permit by written notice served on the general contractor if there be one or her/his representative on the job, or if there be no general contractor then on the person in charge of the work as to which the error or violation has occurred, and upon the owner, such service to be either personal or by mailing a copy of said notice to the address of said person as known to the Director of the Building Inspection Division, and shall likewise be posted a copy of said notice at the site of the work. When any such permit is revoked it shall be unlawful to do any further work upon such building until a new permit is issued, excepting such work as the Director of the Building Inspection Division shall order to be done as a condition precedent to the issuance of a new permit, or which the Director of the Building Inspection Division may authorize as reasonably necessary to protect work already done on the job, existing property, adjoining property and the public. (Am. by Ord. 8081, 7-29-83)

(6) The issuance or granting of a permit or approval of plans or specifications shall not be deemed or construed to be a permit for, or an approval of, any violation of any of the provisions of this code. No permit presuming to give authority to violate, or to fail to comply with, the provisions of this code, shall be valid except insofar as the work or use which it authorizes is lawful. If errors shall, subsequent to the issuance of a permit, be discovered in the application, plans, specifications or execution of the work, the Director of the Building Inspection Division may require the correction of said errors in said application, plans, specifications or constructions and may rescind the permit and prevent building operations being further carried on thereunder when in violation of this code or of any ordinance of the City of Madison. (Am. by Ord. 8081, 7-29-83)

(Sec. 29.06 Am. by ORD-08-00109, 10-7-08)

29.07 FEE SCHEDULE.

(1) (a) Scope. The fees fixed in this ordinance shall be assessed and collected by the Building Inspection Division of the Department of Planning and Community and Economic Development for the inspection of new buildings and structures,

additions and alterations, for the examination and approval of building plans and component parts of the buildings, and for all other services for which the Common Council has authorized the Building Inspection Division of the Department of Planning and Community and Economic Development to fix and collect fees as provided in Chapter 29 of the Ordinances of the City of Madison. Fees are collected in advance from owner or agent and shall include any mechanical fees which apply. This fee schedule applies to plan review and inspections done on buildings within the City and outside of the City of Madison within Dane County. (Am. by Ord. 11,796, 2-18-97; ORD-08-00109, 10-7-08)

(b) (R. by Ord. 11,585, 5-21-96)

(2) Plan Examinations, Approvals, Inspections, and Fees.

(a) Plans showing design and construction details, design computations, and specifications submitted for examination and approval as required by Chapter 29 shall be accompanied by a fee in the amount determined in accordance with Section 29.07(3).

(b) For the purpose of determining the fee on the basis of square foot, floor area measurements shall be taken from outside of building at each floor level, including basement.

(c) For the purpose of determining the fee on the basis of estimated cost, it shall represent the actual cost for alterations and repairs to existing buildings, including all labor and material less the cost of real estate and installation of electrical, heating, and plumbing equipment and services. See Section 29.07(3)(f). In no case shall the fee exceed those as calculated for new buildings as listed in Section 29.07(3)(a), (b), and (c). (Am. by Ord. 7008, 5-31-80; Ord. 12,566, 5-3-00)

(3) Fee Schedule. (Title Am. by Ord. 10,340, Adopted 12-3-93, Effective 1-1-92)

Penalty for failure to obtain a permit before starting work shall be double the fees. This shall be in addition to any other penalties provided elsewhere in this ordinance; in addition, a penalty of one hundred dollars ($100) shall be assessed for each day that any work requiring a permit progresses without a permit, calculated from the date the stop work notification is delivered to either the property owner or the contractor performing the work, until the date a permit is obtained.

(a) Group I.

The use group shall include new and additions to residential buildings in which families or households live or in which sleeping accommodations are provided for individuals with or without dining facilities excluding hotels, motels, and institutional building ..... $.095 per sq. ft. + Current State Seal Fee as prescribed by DSPS
Minimum Fee $25.00

(Am. by ORD-12-00149, 12-5-12)

(b) Group II.

The use group shall include new and additions to general offices, professional offices, barber shops, beauty parlors, bowling alleys, dry cleaning establishments, clinics, natatoriums, shelters, hotels, motels, taverns, restaurants, cafeterias, retail establishments where manufactured products are bought and sold, repair garages, service stations, new and additions to churches, assembly halls, theaters, exhibition buildings, educational institutions, hospitals, nursing homes, places of detention, gymnasiums, arenas, laboratories, lodge halls, funeral homes, libraries, skating rinks, dance halls, and armories. ..... $.16 per sq. ft.
Minimum Fee $25.00

(c) Group III.

The use group shall include new and additions to warehouses, freight terminals, storage buildings, vehicle storage garages, refrigeration storage, factories, machine

shops, electric substations, sewage treatment plants, heating plants, steam and electric generating plants, transformer vaults, and other buildings not classified in Groups I, II and III ..... $.10 per sq. ft.
Minimum Fee $25.00

(d) Group IV.
The use group shall include improved parking lots with five (5)or more parking stalls as the principal use or accessory to a building and alterations and repairs to existing structures, including roofing and siding of total project fair market replacement. ..... $11.00 for each $1,000 value or fraction thereof
Minimum Fee $25.00

(Sec. 29.07(3) Am. by ORD-12-00008, 1-24-12)

[See Section 29.07(2)(c)]

NOTE: When an application is submitted for a property where only the shell of the property is to be completed, the fee will be calculated at 50% of the total fee for that particular fee group. When an application is submitted for construction of the interior of a building where the shell of the building has been previously granted a permit, the fees shall be based on the square footage of that space as a percentage of the entire square footage of the subject building and that fee shall be calculated at 50% of the total fee for that particular fee group.

(e) Group V (Fee as Noted for Each Classification).
The use group shall include the following:

Awnings ..... $20.00 ea. permit
Inspection of tents used for merchandising and display .... $50.00 ea. Location
Private detached garage ..... $.06 per sq. ft.
Minimum fee $25.00
Private in-the-ground swimming pools ..... $25.00 ea. permit
Accessory buildings used as yard equipment storage having a floor area in excess of 150 sq. ft. ..... $.06 per sq. ft.
$25.00 minimum each permit
Moving of structure
- 20,000 cubic feet or less ..... $250.00 ea. permit
- For each additional 20,000 cubic feet or fraction thereof $50.00
- Maximum permit fee $450.00

Razing a principal structure other than a garage or accessory building
- One-family dwelling ..... $150.00 ea. permit
- Two-family dwelling ..... $250.00 ea. permit
- Multifamily and Commercial
  - 20,000 cubic feet or less ..... $150.00 ea. permit
  - For each additional 20,000 cubic feet or fraction thereof . $100.00

Razing a garage or building accessory to a principal building . $20.00 ea. permit
Code compliance pre-purchase survey
- Single family residence ..... $200.00 ea.
- Two or more residential units ..... $200.00 1st unit plus $25.00 ea.additional unit plus $25.00 for rental weatherization
- Commercial buildings (factory, office, mercantile, etc.) ..... $200.00 plus $50.00 ea. Occupancy
- Solar panels or collector system ..... $21.00 ea. permit
- Certificate of Occupancy with building permit ... $10.00 first certificate, $75.00 each additional Certificate of Occupancy

Certificate of Occupancy for zoning change of use or occupancy ..... $75.00 ea. Certificate
Mobile home occupancy permit and inspection fees .. $15.00 ea. mobile home
Reinspection fee for mobile homes $5.00
Building Board of Examiners and Appeals application ..... $50.00 ea. Application

(Sec. 29.07(3)(a)-(c) Am., (d) R., (e) through (g) Renumbered to (d) through (f) and Am. by: Ord. 11,796, Adopted 2-18-97; Am. by Ord. 13,678, 8-24-04; Ord. 13,743, 12-15-04; ORD-15-00036, 4-8-15)

(f) Plan Review.

Project Type		**Fees***	
Building Plans New & Addition (Except 1 & 2 Family)		$100.00 Min. + $.03/sq. ft.	Project area includes all spaces bound by outside surfaces of enclosing walls. Fee includes footings + structural, if submitted w/the plans.
HVAC New & Addition (Except 1 & 2 Family)		$100.00 Min. + .02/sq. ft.	
Alterations & Remodeling (Except 1 & 2 Family)		$100.00 Min. $.04/sq. ft.	Area includes floor, roof and exterior wall area being altered or remodeled. Fee includes HVAC and structural if submitted w/bldg. plans.
HVAC only or HVAC submitted separately (Alt/Rem) (Except 1 & 2 Family)		$100.00 Min. $.03/sq. ft.	
Structural	1 bldg., 1 element 1 bldg., 2+ elements 2+ bldgs., 1 element 2+ bldgs., 2+ elements	$50.00 $75.00 $75.00 $100.00	No fee if submitted with building plan.
Fire Escape	Per escape	$100.00	
Stadium, Grandstand Bleachers	0-2,000 seats 2,000+ seats	$100.00 $40/1,000 seats	
Miscellaneous		$100.00	All plan type not mentioned elsewhere.
Revisions to Previously Examined Plans		$100.00	No fee if revisions requested by plan examiner. Also applies to revisions or reconsideration of previously approved variances.
Priority Review	Optional	Double above fees	Available to those who cannot wait normal plan turnaround time.
Permission to Start	Optional	$50.00	Applies only to projects with footings and foundations.
New 1 Family 2 Family		$50.00 $100.00	Resubmittal of revised plans will be $25.00 additional.
Alteration or Remodel 1 & 2 Family	Less than 250 sq. ft. 251-500 sq. ft. 501-750 sq. ft. 751-1000 sq. ft. More than 1000 sq. ft.	$10.00 $20.00 $30.00 $40.00 $50.00	

Project Type		Fees*	
1 Family Cert. Plan		$100.00	One-time submission
2 Family Cert. Plan		$200.00	One-time submission

*Round up all fees to the next highest dollar.
(Sec. 29.07(3)(h) Am. by Ord. 10,646, 4-30-93; Renum. to (g) in Rev. #219)

(4) (R. by Ord. 7893, 12-29-82)

29.08 INSPECTION.

(1) No structural portion of any part of any building or structure and no reinforcing steel or structural framework of iron or steel shall be covered or concealed in any manner whatsoever without first obtaining approval of the Director of the Building Inspection Division. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(2) No work shall be done on any part of the building or structure beyond the point indicated in each successive inspection without first obtaining the approval of the Director of the Building Inspection Division. Such approval shall be given only after an inspection shall have been made of each successive step in the construction as indicated by each of the three (3) inspections hereinafter mentioned. The Director of the Building Inspection Division shall, upon notification from the permit holder or his/her agent, make the following inspection and shall either approve that portion of the construction as completed, or shall notify the permit holder or his/her agent wherein the same fails to comply with the law. It shall be the responsibility of the contractor/owner to call the Building Inspection Division for all required inspections listed below: (Am. by Ord. 8380, 7-25-84; ORD-08-00109, 10-7-08; ORD-14-00012, 1-14-14)

(a) Inspection of Foundations: To be made after trenches are excavated and poured and the necessary forms erected. Before any foundation inspection is made, lot line stakes shall be established at the front building line and marked clearly. If horizontal rods are to be used, they must be placed in the forms prior to this inspection. All walls having forms shall not have any concrete placed into them until this inspection is made.

(b) Inspection of Structure: To be made after the roof is in place; all framing, fireblocking and bracing are in place and all pipes, chimneys and vents are complete.

(c) Basement Floor Inspection: To be made if the basement is to be used for living and sleeping purposes. An inspection shall be made prior to the pouring of the basement floor.

(d) Final Inspection: To be made after the building is completed and is ready for occupancy.

(3) An owner or contractor who calls for an inspection and the work is not completed may be assessed twenty-five dollars ($25) per inspection. Pursuant to Section 29.09, Madison General Ordinances, it is unlawful to occupy a building or permit a building to be occupied until final inspections have been made and a Certificate of Occupancy has been issued. (Am. by Ord. 11,783, 2-17-97)

29.09 CERTIFICATE OF OCCUPANCY.

(1) New Buildings. No building hereafter erected except as provided herein shall be used or occupied in whole or in part until the certificate of use and occupancy shall have been issued by the Director of the Building Inspection Division.

Accessory buildings used with single and two-family dwellings, such as tool sheds, storage shelters, and garages not more than one (1) story in height are hereby exempted.

(2) Buildings Altered. No building hereafter enlarged, extended, or altered to change from one use to another, in whole or in part, and no building hereafter altered for which a certificate of use and occupancy has not been issued heretofore, shall be occupied or used

until the certificate shall have been issued by the Director of the Building Inspection Division certifying that the work has been completed in accordance with the provisions of the approved permit.

(3) Existing Buildings. Upon written request from the owner of an existing building, the Director of the Building Inspection Division shall issue a certificate of use and occupancy provided there are no violations of law or orders of the building official pending and it is established that the alleged use of the building has heretofore existed. Nothing in the code shall require the removal, alterations, or abandonment of or prevent the continuance of the use and occupancy of a lawfully existing building unless such use is deemed to endanger public safety and welfare.

(4) No certificate of use and occupancy shall be issued by the Director of the Building Inspection Division unless the Director has certified that the building, enlargement, extension, or alteration fully complies with the accessibility requirements of Wis. Stat. § 101.13, Wis. Admin. Code ch. SPS 362, and any other applicable administrative rules. (Cr. by Ord. 10,160, 12-28-90; Am. by Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(5) Partial Occupancy. Upon the request of the holder of a building permit, the Director of the Building Inspection Division may issue a partial certificate of occupancy for part of a building or structure, before the entire work covered by the building permit shall have been completed provided such portion or portions may be occupied safely prior to full completion of the building without endangering life or public welfare. No such partial certificate of occupancy may be issued prior to full compliance with those provisions of Wis. Stat. § 101.13 and Wis. Admin. Code ch. SPS 362 which affect health and safety or prior to full completion of accessible routes to, into, and through the building or structure. (Renumbered and Am. by Ord. 10,160, 12-28-90; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(6) Mobile Homes. No mobile home shall be occupied until such home has been inspected for proper connection of all utilities, electrical, heating and plumbing, and be approved by the Director of the Building Inspection Division. The Certificate of Occupancy fee shall include fees for one inspection by building, electrical, heating and plumbing inspectors. (Renumbered by Ord. 10,160, 12-28-90)

(7) Compliance Statement. Prior to initial occupancy of a new building or addition, and prior to final occupancy of an alteration of an existing building, the supervising architect, engineer or designer shall file a written statement with the Department certifying that, to the best of his or her knowledge and belief, construction of the portion to be occupied has been performed in substantial compliance with the approved plans and specifications. This statement shall be provided on a form prescribed by the City of Madison. (Cr. by Ord. 12,566, 5-3-00)

(Sec. 29.09 Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

29.10 ROOFED PASSAGEWAYS AND BARRICADES.

(1) Roofed Passageways and Barricades Required. The owner or contractor engaged in the construction, remodeling or demolition of any building erected on the lot line adjacent to any street, sidewalk or alley shall cause a roofed passageway and/or barricade to be erected and maintained as set forth in this Section.

(2) Standards. A roofed passageway or barricade required under Subsection (1) shall meet the following standards:

(a) When Required. For any multi-story project, after the completion of the first story, a roofed passageway shall be built in the front of the building and, also, on the side of the building if such building is being erected or demolished on a corner lot. A solid substantial fence, eight (8) feet high, designed to resist a wind pressure of fifteen (15) pounds per square foot of net area may be provided for excavations and one story structures in lieu of a roofed barricade.

(b) Construction and Maintenance Requirement. Any roofed passageway or barricade required under this Section shall be constructed and maintained while work on said building is in progress in such a manner as to insure the protection of persons using the sidewalk or street against flying or falling objects or other hazards of construction or demolition. All accumulation of rubbish within the roofed passageway or walkway area shall be cleaned up every day before leaving the premises.

(c) Street Occupancy Permit. Where a roofed passageway or barricade is required to be placed in the public way or other public grounds under this Section, the owner or contractor shall obtain a street occupancy permit under Section 10.055 and the roofed passageway or barricade is subject to the requirements of that Section. In addition, the failure to follow the requirements of this Section shall be cause to revoke a street occupancy permit issued under Section 10.055.

(d) Design Standards. The walkway of a roofed passageway shall be not less than five (5) feet wide and eight (8) feet high in the clear. Roof bracing shall not be less than six (6) feet high from grade. Buildings set back twenty (20) feet from the front property line need not be covered if, in the opinion of the Director of the Building Inspection Division, no hazard to the public exists. All members of the shed shall be adequately braced and connected to resist displacement of members or distortion of the framework.

(e) Roof Design. The roof shall be designed to support a load of one hundred fifty (150) pounds per square foot and if the roof is to be used for storage of materials it shall be designed to support three hundred (300) pounds per square foot. Minimum roof decking shall be of not less than two (2) inch (nominal) wood plank, closely laid, and the deck made water tight. When roofs are used for storage of materials or during wrecking operations, the outside edge and ends of the roofed passageway's roof shall be provided with a solid substantial enclosure of at least three (3) feet six (6) inches above the deck of the shed.

(f) Lighting Requirements. The roofed passageway shall be lighted either by natural or artificial means sufficient to insure safety for pedestrians and warning to vehicular traffic.

(g) Fencing. Walkways shall have a solid fence not less than three (3) feet six (6) inches high on all open sides except within twenty (20) feet of a street intersection so as not to interfere with traffic visibility across the corner. This area shall have a handrail three (3) feet six (6) inches high and an intermediate rail on the open sides.

(h) Construction Activity. All construction activity shall take place behind the barricade. No materials or equipment shall be lifted over the roofed passageway.

(2) Removal From Public Property. When, at the discretion of the Director of the Building Inspection Division, it is no longer necessary to maintain a roofed passageway and/or barricade on public property, the roofed passageway and/or barricade shall be removed within forty-eight (48) hours of notification by the Building Inspection Division.

(3) Restoration. Upon the removal of the roofed passageway or barricade, the street, sidewalk, alleys or other public grounds occupied by the roofed passageway or barricade shall be restored to their original condition and left in good repair and condition, as required under Sec. 10.055(4)(n). Any new or reconstructed sidewalk shall comply with Section 10.06.

(4) Violation. Any person who fails to comply with any of the requirements of this Section shall upon conviction be subject to a forfeiture of not less than twenty-five dollars ($25) nor more than one thousand dollars ($1,000). Each day or portion thereof such violation continues shall be considered a separate offense.

(Sec. 29.10 R. & Rec. by ORD-15-00036, 4-8-15)

29.11 UNSAFE BUILDINGS.

(1) The Director of the Building Inspection Division may order the owner of the premises upon which is located any building or part thereof within the City of Madison, which in his or her judgment is so old, dilapidated, or has become so out of repair as to be dangerous, unsafe, unsanitary or otherwise unfit for human habitation, occupancy, or use, and so that it would be unreasonable to repair the same, to raze and remove such building or part thereof, or if it can be made safe by repairs to repair and make safe and sanitary or to raze and remove it at the owner's option; or where there has been a cessation of normal construction of any building or structure for a period of more than two (2) years, to raze and remove such building or part thereof. The order shall specify a time in which the owner shall comply therewith and specify repairs, if any. It shall be served on the owner of record or her/his agent where an agent is in charge of the building and upon the holder of any encumbrance of record in the manner provided for service of a summons in the Circuit Court. If the owner or a holder of an encumbrance of record cannot be found, the order may be served by posting it on the main entrance of the building and by publishing in the official newspaper of the City of Madison as a Class 3 Notice, under Chapter 985, Wisconsin Statutes, before the time limited in the order commences to run. (Am. by Ord. 8415, 9-4-84; ORD-08-00109, 10-7-08)

(2) If the owner shall fail or refuse to comply within the time prescribed, the Director of the Building Inspection Division shall cause such building or part thereof to be razed and removed either through any available public agency or by contract or arrangement with private persons, or closed if unfit for human habitation, occupancy or use. The cost of such razing and removal or closing shall be charged against the real estate upon which such building is located and shall be a lien upon such real estate, and shall be assessed and collected as a special charge under Wis. Stat. sec. 66.0627. When any building has been ordered razed and removed, the Director of the Building Inspection Division under said contract or arrangement aforesaid, may sell the salvage and valuable material at the highest price obtainable. The net proceeds of such sale, after deducting the expense of such razing and removal, shall be promptly remitted to the Circuit Court with a report of such sale or transaction, including the items of expense and the amounts deducted, for the use of the person who may be entitled thereto, subject to the order of the court. If there remains no surplus to be turned over to the court, the report shall so state. If the building or part thereof is unsanitary or unfit for human habitation, occupancy or use, and is not in danger of structural collapse the Director of the Building Inspection Division shall post a placard on the premises containing the following words: "This Building Cannot Be Used For Human Habitation, Occupancy or Use", and it shall be the duty of the Director of the Building Inspection Division to prohibit the use of the building for human habitation, occupancy or use until the necessary repairs have been made. Any person, firm, or corporation who shall rent, lease or occupy a building which has been condemned for human habitation, occupancy or use shall be liable to a forfeiture of not less than five dollars ($5) nor more than fifty dollars ($50) for each week of such violation. If any person receiving a notice as hereinbefore provided shall fail or neglect to comply with the directions therein contained, he or she shall be subject to the penalties set forth in Section 29.17 of this chapter. (Am. by Ord. 8415, 9-4-84; Ord. 13,638, 6-23-04; ORD-08-00109, 10-7-08; ORD-14-00012, 1-14-14)

(3) (a) Whenever an owner of any building in the City of Madison permits the same, either as a result of vandalism or for any other reason, to deteriorate or become dilapidated or blighted to the extent where windows, doors or other openings or plumbing or heating fixtures or facilities or appurtenances of such building are either deteriorated, damaged, destroyed or removed so that such building offends the aesthetic character of the immediate neighborhood or produces blight or deterioration by reason of such condition, the Director of the Building Inspection Division shall issue a written notice respecting the existence of such defect; such

written notice shall be served on the owner of such building as provided in Sec. 29.11(1) above and shall direct the owner of such building to remedy the defect within thirty (30) days following the service of such notice. (Am. by ORD-08-00109, 10-7-08)

(b) If an owner fails to remedy or improve the defect in accordance with the written notice furnished by the Director of the Building Inspection Division within the 30-day period specified in the written notice, the Director of the Building Inspection Division shall apply to the Dane County Circuit Court for an order determining that the building is a public nuisance. As a part of the application for such order from the circuit court the Director of the Building Inspection Division shall file a verified petition in which he or she recites the giving of such written notice, the defect or defects in the building, the owner's failure to comply with the notice and any other pertinent facts. A copy of the petition shall be served upon the owner of record or the owner's agent if an agent is in charge of the building and upon the holder of any encumbrance of record as provided in Sec. 29.11(1) above. The owner shall have twenty (20) days following service upon him or her in which to reply to such petition. Upon application by the Director of the Building Inspection Division the circuit court shall set promptly the petition for hearing. If the circuit court after hearing the evidence with respect to the petition and the answer determines that the building is a public nuisance, the court shall issue an order directing the owner of the building to remedy the defect and to make such repairs and alterations as may be required within a reasonable time. A copy of the order shall be served upon the owner as provided in Sec. 29.11(1) above. The order of the circuit court shall state in the alternative that if the order of the court is not complied with in the time fixed by the court, the court may appoint a receiver or authorize the Director of the Building Inspection Division to raze the building. All costs and disbursements with respect to razing under this subsection shall be as provided for under Sec. 29.11(2). (Am. by ORD-08-00109, 10-7-08)

(c) A receiver appointed pursuant to paragraph (b) is empowered to:

1. Remedy the defect and make any repairs and alterations necessary to meet the standards required by the City of Madison Building and Health Codes; with the approval of the Circuit Court, borrow money against and encumber the property held in receivership as security in any amount necessary to remedy the defect and make the repairs and alterations; at the request of and with the approval of the owner, sell the property at a price equal to at least the appraisal value of the property plus the cost of any repairs made hereunder. The selling owner shall be liable for such costs. The receiver shall have a lien upon the property for all expenses incurred to remedy the defect and make all necessary repairs and alterations.
2. Secure and sell the building to a buyer who demonstrates to the circuit court an ability and intent to rehabilitate the building and to cause the building to be reoccupied in a legal manner.

(d) 1. Any receiver appointed under paragraph (b) above shall collect all rents and profits accruing from the property held in receivership and pay all costs of management, including all general and special real estate taxes or assessments and interest payments on first mortgages on the property. A receiver under paragraph (b) shall apply moneys received from sale of property held in receivership to pay all debts due on the property in the order set by law and shall pay any balance to the selling owner if the circuit court approves.

2. The circuit court shall set the fees and bond of a receiver appointed under paragraph (b) and may discharge the receiver as the court deems appropriate.

3. Nothing in this subsection relieves the owner of any property for which a receiver has been appointed under paragraph (b) from any civil or criminal responsibility or liability except that the receiver shall have civil and criminal responsibility and liability for all matters and acts directly under the receiver's authority or performed at his or her discretion.

(Sec. 29.11(3) Cr. by Ord. 8415, 9-4-84)

29.12 MOVING OF BUILDINGS. No building shall be moved within, through, or into the City of Madison without first obtaining a permit. Permission shall be granted only as follows:

(1) All buildings.

(a) No building shall be moved within, through, or into the City of Madison if deemed by the Director of the Building Inspection Division to be unsafe or unfit and unreasonable to repair. (Am. by ORD-08-00109, 10-7-08)

(b) No person shall apply for a permit to move a building unless the Plan Commission has approved the removal of the building per Section 28.185. (Am. by ORD-12-00134, 1-2-13)

(Am. by Ord. 12,760, 2-27-01)

(2) Buildings to be moved upon or along a public street.

(a) An application for a permit shall be made to the Director of the Building Inspection Division and shall be accompanied by a schematic drawing showing the axle and wheel layout that will support the building during the move and the distribution of weight on each wheel. Accurate dimensions for the building as loaded and prepared for moving shall be provided. The application shall include a description of the route the building will travel. The route along which the building will travel and the time the move will take place shall be approved by the City Engineer, Streets Superintendent, Traffic Engineer, Water Utility Manager, Chief of Police, and the City Forester. (Am. by ORD-08-00109, 10-7-08)

(b) A Certificate of Insurance shall be provided to the Director of the Building Inspection Division on a form provided by the City showing general public liability and property damage insurance in minimum limits of one million dollars ($1,000,000) per occurrence. (Am. by ORD-08-00109, 10-7-08)

(c) An indemnification agreement approved by the Director of the Building Inspection Division. (Am. by ORD-08-00109, 10-7-08)

(d) A surety bond or letter of credit in an amount established by the Director of the Building Inspection Division but not to exceed fifty thousand dollars ($50,000) guaranteeing that the applicant will remove the building from the City street, property or right of way upon receiving notice to do so from the Director of the Building Inspection Division, and that the bills for damage to public property will be promptly paid. If the applicant fails to remove the building from the City street, property, or right of way upon such notice, the City of Madison shall seek payment under the surety bond or letter of credit for removal of the building. (Am. by Ord. 12,892, 9-21-01; ORD-08-000109, 10-7-08)

(e) The applicant's mover shall be prequalified as a public works contractor by the City Engineer. Upon completion of the move, the City Engineer shall inspect the public property over which the building was moved. If any damage to public property is noted, the amount of damage shall be determined and if the applicant fails to pay promptly all bills for such damages, the City of Madison shall seek payment under the surety bond/letter of credit given by the applicant responsible for the payment of the same.

(f) No buildings shall be allowed to remain over night upon any street, nor shall any trees or shrubs be trimmed or otherwise disturbed without the approval of the City Forester and the owner.

(g) The owner of the property being moved is responsible for the cost of City services resulting directly from the moving project as described in the moving permit.

(3) Buildings to be moved onto a zoning lot within the City of Madison. In addition to meeting the requirements of (2) above, the following conditions must be met:

(a) The building to be moved shall conform with the existing buildings in the area in which it is to be moved, as determined by the Zoning Administrator, with the approval of the Director of the Building Inspection Division. (Am. by ORD-08-00109, 10-7-08)

(b) A surety bond or letter of credit, in such sum as shall be determined by the Director of the Building Inspection Division, shall be filed with the Director of the Building Inspection Division to assure that the exterior of the building will be finished in a workmanlike manner, including painting and final grading. This requirement may be combined with the requirements in Sec. 29.12(2) (d), in which case, the surety bond or letter of credit may exceed fifty thousand dollars ($50,000). The work shall be completed within six (6) months of the date of the building permit or the City of Madison shall seek payment under the surety bond, or letter of credit and shall cause completion of the building and grading. (Am. by Ord. 12,892, 9-21-01; ORD-08-00109, 10-7-08)

(c) All bulk requirements for the location of the building on the new lot must be met unless a variance or area exception is obtained from the Zoning Board of Appeals prior to applying for a moving permit. Fees are separate for a moving permit and a variance or area exception.

(d) A site plan with accurate dimensions drawn to scale showing the proposed new location of the building and a specific description of the proposed building use must be submitted to the Director of the Building Inspection Division. (Am. by ORD-08-00109, 10-7-08)

29.13 WRECKING OF BUILDINGS.

(1) No building as defined in Section 29.03 of the Madison General Ordinances shall be razed demolished, removed or wrecked without a permit from the Building Inspection Division of the Department of Planning and Community and Economic Development issued in accordance with the provisions of Section 28.185 of the Madison General Ordinances. (Am. by ORD-08-00109, 10-7-08; ORD-12-00134, 1-2-13)

(2) A snow fence or other approved barricade shall be provided as soon as any portion of the building is removed and shall remain during razing operations. After all razing operations have been completed, the foundation shall be filled at least one (1) foot above the adjacent grade, the property raked clean, and all debris hauled away. Razing permits shall lapse and be void unless the work authorized thereby is commenced within six (6) months from the date thereof or completed within thirty (30) days from date of commencement of said work. Any unfinished portion of work remaining beyond the required thirty (30) days must have special approval from the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by ORD-08-00109, 10-7-08)

(3) All debris must be hauled away at the end of each day for the work that was done on that day. No combustible material shall be used for backfill, but shall be hauled away. There shall not be any burning of materials on the site of the razed building. If any razing or removal operation under this section results in, or would likely result in, an excessive amount of dust particles in the air creating a nuisance in the vicinity thereof, the permittee shall take all necessary steps, by use of water spraying or other appropriate means, to eliminate such nuisance. The permittee shall take all necessary steps, prior to the razing of a building, through the employment of a qualified person in the field of pest control or by other appropriate means, to treat the building as to prevent the spread and migration of rodents and insects therefrom during and after the razing operations.

(4) If a street occupancy is required, refer to Section 10.055 for the necessary permit and restrictions. (Am. by ORD-15-00036, 4-8-15)

(5) Prior to the issuance of a permit to remove or wreck an existing building, the owner of the property shall obtain a Permit to Plug Sewer Lateral per Section 35.02(4)(c)14., MGO, if the existing building is serviced by the public sanitary sewer. (Am. by ORD-12-00142, 11-12-12)

(6) (a) Any owner or operator who shall raze, demolish, remove or wreck or authorize or permit the razing, demolishing, removing or wrecking of any existing building as defined in Section 29.03 of the Madison General Ordinances without a permit from the Building Inspection Division of the Department of Planning and Community and Economic Development in violation of this section or Section 28.185 of the Madison General Ordinances shall forfeit not more than five hundred dollars ($500) per day. The violation shall be deemed to continue, with each separate day to be considered a separate offense, until either of the following occurs:

1. The building is restored to its condition and appearance prior to demolition; or
2. A replacement building approved pursuant to Sec. 28.185 by the Plan Commission and by the Landmarks Commission if the building was a landmark or was located in an Historic District is constructed at the site and a certificate of occupancy is issued therefore.

(Am. by Ord. 8336, 5-15-84; ORD-08-00109, 10-7-08)

(b) Any person violating any other provision of this section shall forfeit twenty-five dollars ($25). Each day of violation shall be deemed a separate offense.

(Sec. 29.13 Am. by Ord. 8117, 10-3-83; Am. by ORD-12-00134, 1-2-13)

(c) Any person, either individually, as a member of a firm or as an officer or employee of a corporation who performs or carries out the razing, demolishing, removing or wrecking of any existing building for any owner or operator when no wrecking permit has been issued therefore shall forfeit up to five thousand dollars ($5,000) if the building is a landmark or is located in an Historic District and up to one thousand dollars ($1,000) in all other cases. (Cr. by Ord. 8336, 5-15-84)

29.135 FLAG PERSON REQUIRED. Whenever a building is being demolished, erected or altered, a flag person shall be employed to warn the general public when intermittent hazardous operations are conducted.

(Sec. 29.135 Cr. by ORD-15-00036, 4-8-15)

29.14 BUILDING INSPECTION DIVISION OF THE DEPARTMENT OF PLANNING AND COMMUNITY AND ECONOMIC DEVELOPMENT. (Am by ORD-08-00109, 10-7-08) There is hereby established a Building Inspection Division of the Department of Planning and Community and Economic Development. The Building Inspection Division shall be responsible for the supervision of the plumbing, electrical and building codes of the City of Madison, the safety inspection of all premises, including structures and appurtenances located thereon, the enforcement of the zoning ordinances, and shall include the work of the Smoke and Heating Plant Inspector and the Sealer of Weights and Measures. The Building Inspection Division shall be under the supervision of the Director of the Building Inspection Division. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

29.15 POWERS AND DUTIES OF DIRECTOR OF THE BUILDING INSPECTION DIVISION. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(1) The Building Inspection Division of the Department of Planning and Community and Economic Development shall be under the supervision of the Director of the Building Inspection Division or such other person designated by the Director of the Department of

Planning and Community and Economic Development who shall be held to be the same officer as is referred to in the Statutes as Building Inspector, and who shall have the same powers and duties. S/he shall have, except where otherwise provided herein, the general management and control of all matters pertaining to the Building Inspection Division, and shall enforce all state laws, City ordinances and lawful orders relating to the construction, alteration, repair, removal, safety and use of buildings and permanent building equipment. S/he shall have full power to pass upon any question arising under the provision of building, plumbing and electrical codes and zoning ordinances, subject to conditions contained herein. S/he shall be responsible for the issuances of all permits and the inspection of all work done under the provisions of the plumbing, electrical and building codes of the City and the safety inspection of all premises, including structures and appurtenances located thereon, shall see to it that the Zoning Ordinance of the City of Madison is enforced and complied with, and direct the work of the Smoke and Heating Plant Inspector and the Sealer of Weights and Measures. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(2) S/he shall keep a record of all applications for building permits in a book for such purpose. S/he shall keep a record showing the number, description and size of all new buildings erected, indicating the kind of materials used and the cost of each building, and the aggregate cost of all buildings of the various classes. S/he shall keep a record, which shall not be open to the public, at her/his direction, of all inspections made, and of all removals and condemnations of buildings. S/he shall keep a record of all fees collected by him, showing the date of their receipt and delivery to the City Treasurer. S/he shall make a monthly report and an annual report to the Mayor of the above matters.

(3) The inspectors provided for in this ordinance shall have the power and authority at all reasonable times, for any proper purpose, to enter upon any public or private premises and make inspection thereof, and to require the production of the permit for any building, electrical or plumbing work, or to require license therefore. Any person interfering with or refusing entrance to the said inspector while in the performance of her/his prescribed duties shall be punished as provided in Section 29.17 of this chapter.

(4) Director of the Building Inspection Division to Authorize Repairs.

(a) Upon the discovery of a lack of proper plumbing, heating or electrical service in any income property, or that a cooking stove or refrigerator furnished for the use of tenants as part of a rental agreement is not functioning, the Director of the Building Inspection Division or designee, shall notify the operator, manager or owner of the property of such lack of service. The Director of the Building Inspection Division or her/his designee shall first attempt telephonic notification, and then, if necessary, shall make notification by Certified or Registered Mail, Return Receipt Requested. (Am. by ORD-08-00109, 10-7-08)

(b) After seventy-two (72) hours after notification and after an inspection showing that any lack of such service still exists, the Director of the Building Inspection Division shall authorize the immediate repair or reconnection of any such service by private contractor. The cost of any such repair or reconnection shall be paid by the owner or shall be placed, with interest, upon the tax bill of such owner. (Am. by ORD-08-00109, 10-7-08)

(c) The Purchasing Agent shall obtain a minimum of three (3) bids from private contractors for the performance of the work described in Subsection (b) above. The work shall be let to the lowest responsible bidder. (R. & Recr. by Ord. 4743, 10-7-74)

(Sec. 29.15(4) Am. by Ord. 8081, 7-29-83)

(5) Any person who shall fail or neglect to comply with any lawful order of the Director of the Building Inspection Division issued pursuant to the provisions of this chapter may be assessed seventy-five dollars ($75) per compliance inspection, as defined in Sec. 27.03(2),

MGO, that does not result in compliance with the order. A thirty-five dollar ($35) charge may be assessed when an inspector fails to gain entry to carry out a compliance inspection. (Am. by ORD-11-00057, 4-7-11)

(6) The Department of Planning and Community and Economic Development shall keep an accurate account of all unpaid inspection fees incurred for compliance inspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0627. (Am. by ORD-11-00037, 3-8-11)

(Secs. 29.15(5) & (6) Cr. by Ord. ORD-10-00058, 6-11-10)

29.16 ACCREDITING STANDARDS AND TESTS.

(1) The Director of the Building Inspection Division shall make or cause to be made investigations of new developments in the building industry. Subject to local climatic or other conditions, s/he shall within thirty (30) days after written request of the applicant, accredit a test or tests meeting the functional requirements of this code conducted by accredited authoritative agencies or s/he may accept reports from recognized authoritative sources of all new materials and methods of construction proposed for use which are not specifically provided for in this code. The costs of all tests or other investigations required hereunder shall be paid by the applicant. No new materials or methods of construction shall be approved hereunder which would violate the State Building Code unless approved by the State Industrial Commission.

(2) Appeal. If the Director of the Building Inspection Division shall fail to approve proposed materials or methods of construction pursuant to Subsection (1), the applicant may appeal therefrom to the Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals in the manner provided in Section 29.18. A concurring vote of at least six (6) members shall be necessary to reverse the decision of the Director of the Building Inspection Division. (Am. by Ord. 11,611, 5-21-96; ORD-09-00019, 3-14-09)

(Am. by ORD-08-00109, 10-7-08)

29.17 VIOLATIONS AND PENALTIES.

(1) It shall be unlawful for any person to erect, construct, enlarge, alter, repair, move, remove, demolish, convert, equip, use or occupy or maintain any building, or any portion of any building in the City of Madison, contrary to or in violation of any provisions of this Code; or to cause, permit, or suffer the same to be done.

(2) Any person violating any of the provisions of this chapter shall upon conviction be subject to a forfeiture of not less than ten dollars ($10) nor more than one thousand dollars ($1,000). Each day or portion thereof such violation continues shall be considered a separate offense. (Am. by Ord. 13,725, 11-9-04; Ord. 13,760, 12-14-04)

(3) Any person who shall fail or neglect to comply with any lawful order of the Director of the Building Inspection Division issued pursuant to the provisions of this chapter shall be deemed guilty of a violation of this chapter, and every day or fraction thereof on which such person shall fail or neglect to comply with such order, shall be deemed a separate offense. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

29.18 BOARD OF BUILDING CODE, FIRE CODE, CONVEYANCE CODE AND LICENSING APPEALS. A Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals is hereby created. (Am. by ORD-09-00019, 3-14-09)

(1) Membership. The Board shall consist of nine (9) members appointed by the Mayor, subject to confirmation by the Common Council. Each member shall be appointed for a term of three years and shall serve until a successor is appointed and confirmed. At least

one (1) member shall be licensed as an attorney, one (1) as an architect, one (1) as a real estate broker, and one (1) as a professional engineer, who shall have structural or architectural engineering experience. One (1) member shall be a builder, one (1) member shall have fire prevention experience, and the remaining members may be persons with other interests and experience. (Am. by Ord. 11,960, Adopted 11-4-97)

(2) Rules of Procedure. The Board shall select one of its members to serve as chair. The Director of the Building Inspection Division or designee shall serve, without voting privileges, as secretary to the Board, and shall keep a detailed record of all proceedings. The record shall be filed in the office of the Building Inspection Division of the Department of Planning and Community and Economic Development and with the City Clerk. The Fire Chief or designee shall provide, without voting privileges, staff assistance to the Board.

A member of the Board shall abstain from voting on any question on which s/he has a conflict of interest. If a member of the Board abstains from voting because of a conflict of interest, the abstention shall have no effect on quorum.

(Am. by Ord. 11,960, Adopted 11-4-97)

(3) Duties.

(a) Appeals.

1. The owner of a building or structure or any other person who is aggrieved and directly affected may appeal from decisions or orders of the Fire Chief, from a denial of the issuance of a private noise amplification permit, from Building Code Orders, or from a decision of the Director of the Building Inspection Division refusing to grant approval of a plan, modification of or variance from the provisions of Madison General Ordinances Chapters 27, 29, and 40 covering the manner of construction or materials to be used in the erection, alteration, or repair of a building or structure, or the wrecking or demolition of a building or structure determined to be unsound pursuant to Sec. 28.185(6) of the Madison General Ordinances, to the Board of Building Code, Fire Code, Conveyance Code and Licensing Appeals. (Am. by Ord. 11,960, Adopted 11-4-97; ORD-09-00019, 3-14-09; ORD-10-00093, 9-27-10; ORD-12-00134, 1-2-13)

2. All applications for appeal shall be in writing and shall be received by the Director of the Building Inspection Division no later than thirty (30) days after the date of the Official Notice of code violations or of the written decision of either the Director of the Building Inspection Division or the Fire Chief. (Am. by Ord. 11,960, 11-4-97; ORD-12-00042, 4-19-12)

3. An application for an appeal filed shall be accompanied by a fee of fifty dollars ($50) for appeals under Madison General Ordinances or three hundred dollars ($300) for variances to the State Building Code. If the applicant requests priority review, the fee shall be double the amount set forth above. The fee shall be made payable to the City Treasurer.

4. The Board may promulgate rules to guide the appeals process. Any rules shall be made available to all persons wishing to invoke their appeal rights. (Am. by ORD-17-00030, 3-8-17)

5. The Board shall hear all appeals filed in compliance with the requirements of Paragraphs 1.- 4. above. At the hearing, all parties may offer testimony and documents.

(b) Decision on Appeals.

1. The Board shall affirm, modify, or reverse the decision of the Fire Chief or Director of the Building Inspection Division. A concurring vote of

two-thirds (⅔) of the voting members present shall be required to modify or reverse said decision. Appeal of the action of the Board shall be to Circuit Court. (Am. by Ord. 11,960, Adopted 11-4-97)

2. The Board shall affirm the decision of the Director of the Building Inspection Division unless it determines that

   a. The Director of the Building Inspection Division or Fire Chief has misinterpreted or misapplied the applicable ordinance, rule, or code provision; or

   b. The compliance time established by the Director of the Building Inspection Division or Fire Chief is unreasonable; or

   c. An equally good or better form of construction can be used.

(Am. by Ord. 11,960, Adopted 11-4-97)

3. The Board shall send the appellant a written decision, including reasons for the decision. The Director of the Building Inspection Division or Fire Chief shall act immediately to carry out the Board's decision. (Am. by Ord. 11,960, Adopted 11-4-97)

(c) Licenses.

1. The Board shall adopt reasonable criteria for suspending or revoking licenses granted under Secs. 19.09 and 30.01 of these ordinances, and shall adopt procedures for investigations and hearings. The Director of the Building Inspection Division of the Department of Planning and Community and Economic Development shall keep a record of all of the Board's proceedings. (Am. by Ord. 11,960, Adopted 11-4-97)

2. If the Director of the Building Inspection Division of the Department of Planning and Community and Economic Development believes that a licensee has violated Chapter 19 or Sec. 30.01 of these ordinances, the Director shall notify the licensee in writing, specifying the violation and the supporting facts. (Am. by Ord. 11,960, Adopted 11-4-97)

3. The licensee may surrender her/his license voluntarily or may request a hearing. The request shall be in writing, and shall be filed with the Director of the Building Inspection Division not later than ten (10) days after the date of the notice of violation.

4. The Board shall hold a hearing as soon as practicable. At the hearing, the Board may hear testimony and examine documents. If the Board determines that the licensee has violated Chapter 19 or Sec. 30.01 of these ordinances, it may suspend or revoke any license granted under that section. Appeal of the action of the Board shall be to Circuit Court.

5. Any person whose license has been suspended or revoked shall perform no electrical or HVAC work within the City of Madison during the period of suspension or revocation. If work is performed while the licensee is suspended, the license shall be revoked immediately. Any person whose license shall have been revoked shall not again be licensed within a period of one (1) year from the date of revocation. (Am. by Ord. 11,960, Adopted 11-4-97)

(Sec. 29.18(3)(c) Am. by ORD-08-00068, 7-4-08)

6. Any person whose license has been suspended or revoked shall perform no electrical or HVAC work within the City of Madison during the period of suspension or revocation. If work is performed while the licensee is suspended, the license shall be revoked immediately. Any person whose license shall have been revoked shall not again be licensed within a period of one (1) year from the date of revocation. (Am. by Ord. 11,960, 11-4-97)

(4) Meetings.

(a) Notice of Meetings. The Board shall meet as often as necessary to act promptly on pending appeals. The Director of the Building Inspection Division may call special meetings in a case of emergency. (Am. by ORD-08-00068, 7-4-08)

(b) Public Hearing. All hearings shall be public and the appellant, her/his representative, City staff, and any other person whose interests may be affected by the matter on appeal, shall be given an opportunity to be heard. Proceedings shall be recorded on audio tape.

(Am. by Ord. 13,652, 7-7-04)

(Sec. 29.18 R/ReCr by Ord. 11,611, 5-21-96; Am. by ORD-08-00109, 10-7-08)

29.181 RESERVED FOR FUTURE USE. ("Meetings" R. by Ord. 11,960, Adopted 11-4-97)

29.182 RESERVED FOR FUTURE USE. (R. by Ord. 10,357, 1-23-92)

29.19 ADOPTION BY REFERENCE. The Wis. Adm. Code Chapters SPS 320 (Uniform Dwelling Code — Administration and Enforcement), SPS 321 (Uniform Dwelling Code — Construction Standards), SPS 322 (Uniform Dwelling Code — Energy Conservation), SPS 328 (Smoke Detectors), SPS 361-365 (Wisconsin Commercial Building Codes), SPS 370 (Historical Building Code), and SPS 375-379 (Existing Buildings Code), and subsequent amendments, additions and recodifications thereto, are hereby adopted by reference except for those provisions in conflict with Chapter 29 of the Madison General Ordinances. In case of such conflict, the provisions of Chapter 29, Madison General Ordinances, shall apply, unless the conflicting provisions of the State Codes are mandatory. Chapters SPS 320, 321, 322 and 328 shall apply to all new one- and two-family residential buildings as well as additions and alterations to all existing one- and two-family residential buildings, to accessory buildings and to new portions of moved one- and two-family buildings. (Am. by Ord. 11,392, Adopted 11-7-95; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

29.20 ITEMS TO BE ENFORCED OVER WISCONSIN ADMINISTRATIVE CODE. In addition to enforcing the Wisconsin Administrative Code by reference, the following items shall be enforced:

(1) Partition Construction.

(a) The enclosing interior partitions and ceilings of each dwelling unit or lodging room shall be separated from other similar occupancies with fire-protected construction equivalent to not less than one-half (½) inch sheetrock applied to the ceiling and to each side of the partition, except in no case shall the fire-rating classification of the building elements be less than required by Wis. Admin. Code ch. SPS 362. The requirements do not apply to single or two-family dwellings or a building occupied for sleeping and lodging purposes by not more than two (2) unrelated persons. (Am. by ORD-12-00035, 3-28-12)

(b) The required exit corridor partitions in a dwelling or lodging house shall be fire-protected construction equivalent to not less than one-half (½) inch sheetrock applied to the ceiling and to each side of the partition, except that in no case shall the fire-rating classification of the building elements be less than required by Wis. Admin. Code ch. SPS 362. The requirements do not apply to single or two-family dwellings or a building occupied for sleeping and lodging purposes by not more than two (2) unrelated persons. (Am. by Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(c) The openings in the partitions as required in Section 29.20(8)(c)1. and 2. shall be protected with doors equivalent to not less than a solid wood core door one and three-fourths (1¾) inches thick.

(2) (R. by Ord. 7595, 12-28-81)

(3) (R. by Ord. 11,181, Adopted 2-21-95)

(4) Fire Escapes (Ref. Wis. Adm. Code ch. SPS 362). (Title Am. by Ord. 9303, 10-29-87; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(a) No fire escapes shall extend beyond the property line on the street side of building provided, however, that upon the approval of the Director of the Building Inspection Division fire escapes may be erected on the street side of a triangular shaped building where two (2) of the walls of such buildings are adjacent to streets and a third wall is adjacent to an adjoining building. Such permission to be granted, however, only to buildings existing at the time of the adoption of this ordinance. Where permission is granted for a fire escape beyond the property line on the street side of building pursuant to the provisions of this section, there shall be a clear distance of ten (10) feet from the finished grade of the sidewalk to the bottom projection of the fire escape. No fire escape shall extend beyond the property line on alleys except by written approval of the Director of the Building Inspection Division. (Am. by Ord. 8081, 7-29-83 ORD-08-00109, 10-7-08)

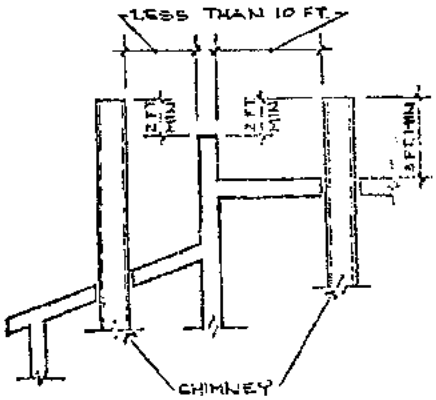
(b) Not Permitted on any new Building or Additions. On any new buildings or additions constructed under the requirements of this ordinance a fire escape will not be permitted.

(5) (R. by Ord. 7595, 12-28-81)

(6) Windows and Courts. All windows and courts shall conform to the requirements of Wis. Adm. Code ch. SPS 362. In addition to these requirements they shall conform with the following provisions. In buildings within the Capitol Fire District door and window openings in walls nearer than fifteen (15) feet to other buildings or structures on the same lot or to lot lines shall be protected with approved fire doors, approved fire windows, or approved fire shutters.

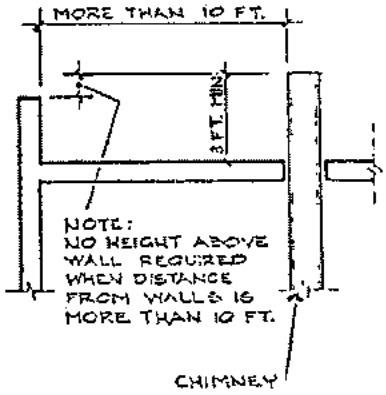
Distance does not apply to property lines adjacent to streets or alleys exceeding thirty (30) feet in width. The requirements do not apply if the building is of frame construction.

(Am. by Ord. 11,181, Adopted 2-21-95; ORD-12-00035, 3-28-12)



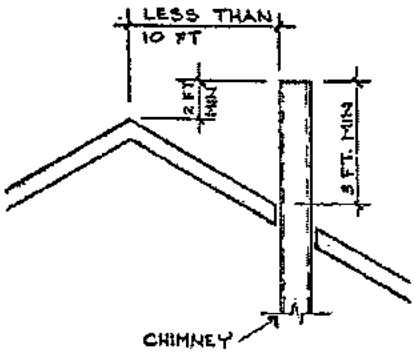
(7) (R. by Ord. 7595, 12-28-81)

(8) Fire Protection Within Buildings. (Title Am. by Ord. 9324, 11-13-87)

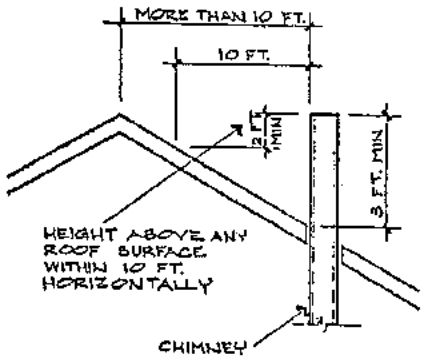


(a) Chimney Construction.

1. Foundations. The foundation of every chimney shall be designed and built in conformity with the requirements for foundations of buildings.
2. Walls. Every chimney shall be built of brick or other approved fire resistive material.
3. Thickness. The walls shall be at least eight (8) inches in solid thickness, except that in a chimney with a flue less than two hundred sixty (260) square inches in area and where an approved flue lining is used the wall thickness may be reduced to four (4) inches in solid thickness.
4. Height.
   a. All chimneys shall be designed and constructed to safely remove the products of combustion. The chimneys shall extend at least three (3) feet above the highest point where it passes through the roof, and at least two (2) feet higher than any portion of the roof, ridge, peak, or wall within ten (10) feet of the chimney.
   NOTE: See drawings included in paragraph b.
   b. Graphic Representations of Chimney Height Requirements.



i. Figure 1.



ii. Figure 2.

iii. Figure 3.

iv. Figure 4.

(Sec. 29.20(8)(a)4. R. & Recr. by Ord. 5211, 11-12-75)

5. Plumb and Clearance. In no case shall a chimney be corbeled out from a plumb position more than eight (8) inches, and in every case the corbeling shall consist of at least five (5) courses of brick.

6. Mortar. Lime-cement or cement mortar shall be used in the laying of chimney masonry above the roof line.

7. Flue Liners. The flue liner serving the heating plant appliance shall be an approved standard clay pipe. The liner shall start from a point not less than four (4) feet below the intake, unless approved by the Building Inspection Division of the Department of Planning and Community and Economic Development and run for the entire height of the chimney. The bells shall be facing upward and joints shall be filled with Portland Cement.

The flue liner shall be supported at the base on masonry construction and completely sealed to prevent any fumes or gases escaping into the space between the flue liner and the chimney walls.

A standard clay pipe tee fitting shall be used to receive the smoke pipe or flue connector.

An opening shall be provided to receive the chimney cleanout door.

Note: The Building Inspection Division of the Department of Planning and Community and Economic Development does recognize as approved clay sewer pipe tested and conforming to the standards established by the American Standards Association or standards of any other nationally recognized testing agency.

The flue opening shall be located a distance of not less than one and one-half (1½) diameters to combustible construction.

A fire clay flue lining may be used or required in chimneys serving other than the heating (plant) appliance.

(Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

8. Size of Flue. All flue liners and tees serving the heating (plant) appliance, or the incinerator, shall have a minimum inside diameter of eight (8) inches (nominal).

9. Piercing of Chimney Walls. No chimney walls shall be pierced except if additional opening is required in an existing chimney; approval shall be obtained from the Building Inspection Division of the Department of Planning and Community and Economic Development before opening is cut. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

10. Cleanout Door. Every chimney shall be provided with a cast iron or stamped metal cleanout door.

11. Wind Pressure. Every chimney shall be designed to withstand the following wind pressure in pounds per square foot over the diametrical area:

Square chimneys 30
Polygonal chimneys 25
Round chimneys 20

12. Design. Every chimney shall be designed throughout (the above minimum thickness and sizes shall be increased where necessary) in accordance with the requirements of the structural design of buildings and with the best engineering practice in chimney construction.

13. Smoke Pipe Connectors. Smoke pipe connectors from gas stoves and water heaters shall conform to the same requirements as that for a heating plant.

14. Provide weep hole at bottom of chimney for gas fired heating systems.

15. Other Approved Chimneys.

a. Metallic Smoke Stacks. A metallic smoke stack shall not pass through any ceiling, or roof of combustible construction unless encased or lined with brick or other fire resistive materials of the same character and thickness as prescribed for masonry chimneys, or in place thereof, except it may pass through a roof if a clearance of not less than twelve (12) inches is maintained to combustible construction.

A stainless steel smoke stack may be used if the building is classified as fire resistive construction and does not exceed one (1) story in height. The thickness of the stainless steel shall be not less than the thickness required for a steel smoke pipe (See Heating, Ventilating, and Air Conditioning Code, Chapter 30.21).

b. A manufactured chimney or gas vent may be used in lieu of a masonry chimney provided that the chimney and vent do comply with the requirements of Chapter 30 (Heating, Ventilating, and Air Conditioning Code).

Note: It will be the policy of the Building Inspection Division of the Department of Planning and Community and Economic Development to accept as approved Class A manufactured chimney and Class B vent tested and listed as approved by Underwriters Laboratories, Inc. Gas and Oil Equipment List.

(Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(b) Incinerators. The provisions of Section 30.30 of the Madison General Ordinances are adopted herein by reference as if fully reprinted in this section. (R. & Recr. by Ord. 4320, 9-20-73)

(c) Refuse Holding Rooms. Where an incinerator is not provided and combustible rubbish and other waste materials in excess of amounts specified in Madison General Ordinances Section 34.304(5)(a) are accumulated and stored for more than twenty-four (24) hours, a refuse holding room shall be constructed in every apartment building that will accommodate four (4) or more apartments and every lodging house that will accommodate eight (8) or more lodging rooms. (Am. by Ord. 10,399, 3-13-92; ORD-10-00083, 9-15-10)

1. The enclosure in every apartment building and lodging house more than two (2) stories high shall be constructed of not less than two (2) hour fire resistive noncombustible construction. The door opening shall be protected with a self-closing fire door having a fire protective rating of not less than one and one-half (1½) hours.

2. The enclosure in every apartment building and lodging house two (2) stories high shall be constructed of not less than one (1) hour fire resistive combustible or noncombustible construction with a self-closing fire door having a fire protective rating of not less than three-fourths (¾) hour.
3. There shall be one (1) sprinkler head installed for every eighty (80) square feet of floor area. The water supply may be taken from the domestic water supply system provided that the water pressure is adequate to satisfy the function of the sprinkler head(s) served. The piping within the holding room shall be galvanized iron pipe. Provide shutoff valve, preferably located outside of room.

(d) Chute Enclosures (Rubbish or Refuse).

1. Where refuse chutes are used with refuse holding room in apartment buildings and lodging houses more than two (2) stories high, they shall be enclosed with masonry walls of not less than two (2) hour fire resistive construction. All service openings shall be protected with self-closing approved closures having a fire protective rating of not less than one and one-half (1 1/2) hours.
2. Where refuse chutes are used with refuse holding room in apartment buildings and lodging houses two (2) stories high, they shall be enclosed with metal lined combustible or noncombustible fire resistive construction of not less than one (1) hour. All service openings shall be protected with approved self-closing closures having a fire protective rating of not less than three-fourths (¾) hours.
3. Sprinkler heads shall be installed in accordance with SPS 352.012(2). The water supply may be taken from the domestic water supply system provided that the water pressure is adequate to satisfy the function of the sprinkler head(s) served. Access openings shall be provided to service sprinkler head. (Am. by ORD-12-00035, 3-28-12)

Note 1. The Building Inspection Division of the Department of Planning and Community and Economic Development will accept as approved the design and installation procedure recommended in N.F.P.A. Bulletin Number 13, Section 4310.

Note 2. It is recommended that the refuse chute should be vented to the outside to relieve internal pressure in case of fire and to provide general ventilation. If vent is provided the construction shall be equivalent to a chimney.

Note 3. Service openings should not be located in exitway.

(Am. by Ord. 9324, 11-13-87; ORD-08-00109, 10-7-08)

(e) Attic Spaces. The attic spaces of all buildings, except where roof and attic are of noncombustible or fireproof construction, shall be divided into areas not exceeding three thousand two hundred (3,200) square feet by means of approved fire stops of not less than the equivalent of one-half (½) inch gypsum sheet rock applied to both sides of combustible structural members. (Am. by Ord. 7595, 12-28-81)

(9) Exits and Passageways.

Location and Maintenance of Exits. Every exit mentioned in Wis. Adm. Code ch. SPS 362, shall lead to a street, alley or open court connected with a street. All such exits and all passageways leading to and from the same shall be kept in good repair and unobstructed at all times.

No closure of any opening hung so that it can be swung beyond the building line and over a public walk shall be less than eight (8) feet above such walk, nor shall any part of a building or building equipment projecting beyond the building line over a public walk be less than eight (8) feet above such walk.

(Am. by Ord. 9303, 10-29-87; ORD-12-00035, 3-28-12)

(10) Swimming Pools and Excavations.

(a) All public swimming pools shall conform to the City of Madison Swimming Pool Ordinance. (Section 7.44)

(b) No person shall make any excavation in excess of six (6) inches below the adjacent grade on any lot parcel of land in the City of Madison except for the purpose of erecting buildings or other structures thereon. No excavation for the erection of a building or other structure thereon shall be permitted to remain longer than three (3) days without being protected with snow fencing or other approved barricades, and if at the end of thirty (30) days the building or structure is not to grade level and covered over the excavation shall be backfilled to grade level.

(c) (Renumbered to 27.05(2)(s) by Ord. 7595, 12-28-81)

(d) (Renumbered to 27.05(2)(s) by Ord. 7595, 12-28-81)

(e) Any persons violating any provision of this section shall forfeit not less than twenty-five dollars ($25) nor more than one hundred dollars ($100). Each day of violation shall be deemed a separate offense. (Am. by Ord. 6346, 8-16-78)

(11) (R. by Ord. 6061, 12-14-77)

(12) Number, Location and Type of Exits. (Ref. Wis. Adm. Code ch. SPS 362). (Title Am. by Ord. 9303, 10-29-87; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(a) Every dwelling unit in a townhouse shall have not less than one (1) exit doorway from both the first and second floor level. In this subsection a stairway or passageway between the first and second floor levels shall not be deemed to be an exitway, and doors thereto shall not be deemed to be exit doorways, unless such stairway or passageway is enclosed with not less than one hour fire-resistive construction and the openings into such enclosure are protected with a three-fourths (¾) hour fire-rated door or a glued solid core flush door one and three-fourths (1¾) inches thick.

(b) In a townhouse no exitway shall be through an adjoining dwelling unit or lodging room.

(13) Exit Doors.

A standard exit door shall have such fastenings or hardware that shall conform with Wis. Adm. Code ch. SPS 362, except that the exit door from an individual apartment or sleeping room shall meet the requirements of Madison General Ordinances Sec. 27.05(2)(h). (Am. by Ord. 9303, 10-29-87; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(14) Sanitation. (Ref. Wis. Adm. Code ch. SPS 362). (Title Am. by Ord. 9303, 10-29-87; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

(a) Toilet Rooms and Washing Facilities. Every dwelling unit shall contain a kitchen sink, a flush water closet, a lavatory basin, and a bathtub or shower all in good working condition and properly connected to hot and cold water lines and to an approved water and sewer system. The flush water closet, lavatory, and bathtub or shower shall be contained within a room or rooms so as to afford privacy. All other buildings shall have at least one (1) water closet for every seven (7) roomers or fraction thereof. In any apartment or dwelling containing two sleeping rooms or larger than three (3) rooms in size, access shall be provided to required bathroom facilities without the necessity of passing through sleeping rooms.

Every residential building shall have supplied water heating facilities which are properly installed, are maintained in safe and good working conditions, and are properly connected with the hot water lines required hereunder and are capable of heating water to such a temperature as to permit an adequate amount of water to be drawn at any required kitchen sink, lavatory basin, bathtub or shower at a temperature of not less than one hundred twenty (120) degrees Fahrenheit.

All sinks, lavatories, washtubs, bathtubs, and showers shall be provided with hot water from a heater capable of supplying adequate hot water.

Rooms with private water closets shall not be considered in counting either the number of rooms or the number of fixtures.

Water closets and urinals, and the pipes connected therewith shall be protected against freezing as provided in Wis. Adm. Code ch. SPS 362. (Am. by Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)
(Am. by Ord. 10,192, 1-31-91)

(b) Repairs. Every building of this classification, and all parts thereof, shall be kept in good repair and the roof shall be maintained to prevent leakage. All rainwater shall be so drained and conveyed therefrom as to prevent dampness in the walls and ceilings. All exterior wood surfaces shall be reasonably protected from the elements and against decay by paint or other approved protective coating applied in a workmanlike manner. Plumbing equipment shall be maintained so as to be impervious to water and heating equipment and incinerators shall be maintained in good order and repair.

(c) Cleanliness. Every building shall be kept clean, and shall also be kept free from vermin and any accumulation of dirt, filth, rubbish, garbage, or other objectionable matter in or on the same or in the yards, courts, passages, areas or alleys connected with or belonging to the same. Interior surfaces shall be as nearly impervious to water and joints between surfaces as tight as is reasonably practical. Floors of toilets and bathrooms shall be of impervious surfaces and made of nonabsorbent material.

(d) (R. by Ord. 9303, 10-29-87)

(e) (R. by Ord. 8086, 7-29-83)

(f) (R. by Ord. 9324, 11-13-87)

(g) (R. by Ord. 9324, 11-13-87)

(h) Responsibility of Owner for Maintenance of Sanitary Housing. The owner of any building or apartment occupied as a place of human habitation shall be responsible for maintenance of sanitary and healthful housing as required by this section. The owner shall provide receptacles for garbage and depositories for ashes unless the tenant agrees to furnish them, or incinerators as required by the General Ordinances of the City of Madison. The owner shall be responsible for removal of infestations when they occur in more than one (1) dwelling in a building, or when rats or mice infest any building occupied by more than one (1) family, or when the Director of the Building Inspection Division determines that the infestation is due to lack of proper vermin-proofing of the building. Whenever a dwelling is vacated it shall be the duty of the owner to determine that such dwelling is in a clean sanitary, habitable condition and free from infestations before renting such dwelling to another occupant. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(i) Responsibility of Occupant for Maintenance of Sanitary Housing. The occupant of any dwelling or building used as a place of human habitation shall not permit rooms to be tenanted which do not meet light, air, or space requirements prescribed in this section nor permit occupancy of rooms in excess of those standards. It shall be the duty of the occupant to keep his/her dwelling and the portion of the building or premises over which the occupant has control in a reasonably clean and sanitary condition, including plumbing fixtures, and the occupant shall not knowingly, willfully, or maliciously deposit material in any fixture which through repeated carelessness would result in stoppage or damage to the fixture. Garbage and refuse shall be deposited by the occupant in provided containers as required by the General Ordinances of the City of Madison. The occupant shall eliminate infestations except when it is the responsibility of the owner to do as herein before provided. In all buildings open basement windows and doors on ground floors or in basements shall be provided with screens and

screen doors and they shall be in place at all times when such doors and windows are open for exclusion of rats, mice and vermin. It shall be the duty of the occupant to maintain the use of screens and doors provided for this purpose. (Am. by ORD-14-00012, 1-14-14)

(j) (R. by Ord. 9303, 10-29-87)

(k) (R. by Ord. 9303, 10-29-87)

(15) Isolation of Fire Hazards.

(a) Fire hazards shall be isolated in an enclosure with a fire rated construction for all classes of occupancies as provided by Wis. Admin. Code ch. SPS 362. In apartment buildings (three or more dwelling units) not more than two (2) stories in height, the enclosure shall be not less than one (1) hour fire rated construction.

This ordinance shall be effective sixty (60) days after date of publication. (Sec. 29.20(15)(a) Am. by Ord. 9324, 11-13-87; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12; ORD-12-00035, 3-28-12)

(b) (R. by Ord. 9324, 11-13-87)

(c) Storage Facilities.

1. In residential buildings constructed on or after July 14, 1972, where tenant or owner storage areas are provided (other than those within lodging rooms of lodging houses or dwelling units of multi-family dwellings), and the total area of the storage spaces is two thousand five hundred (2,500) square feet or less, the storage areas shall be enclosed with not less than one (1) hour rated construction in accordance with Wis. Admin. Code ch. SPS 362. If the area of the enclosure exceeds two hundred (200) square feet, the enclosed storage areas shall be protected with heat or smoke detecting devices spaced according to good engineering practice, but in no case shall detectors be spaced more than thirty (30) feet on centers and fifteen (15) feet from any wall, and the detectors shall be connected to the building local fire alarm system, or if a building local fire alarm system is not required, to a signal, located outside the enclosure, audible throughout the building. Where openings are provided in the fire rated walls, such openings shall be protected with door assemblies as required in Wis. Admin. Code ch. SPS 362. The door shall be equipped with an approved self-closing device and lock. The lock shall satisfy the functions as follows:

a. A rotating inside knob that will retract a live bolt;
b. An outside knob permanently fixed;
c. Lock to open from outside with key;
d. Inside knob always free for immediate exit; and
e. Latch bolt returns to locked position when door is closed.

Where the total area of basement storage spaces exceeds two thousand five hundred (2,500) square feet, these storage spaces shall be protected with automatic sprinklers in accordance with IFC section 903.3.1. (Am. by ORD-10-00083, 9-15-10; ORD-12-00035, 3-28-12)

2. This section of the code applies to residential buildings constructed prior to July 14, 1972. Where tenant or owner storage areas of combustibles are provided (other than those within lodging rooms of lodging houses or dwelling units of multi-family dwellings) the areas shall be protected by one of the following means. Storage in the basement must be separated from other floors by means of walls and/or doors. Doors leading to the basement shall be equipped with self-closers and locking hardware, as described in 29.20(15)(c)1.

a. Isolate storage areas by covering walls and ceiling with one-half (½) inch fire-rated gypsum board or equivalent, one layer on ceiling and one layer on each side of sixteen (16) inch on centers

stud walls. Doors shall be equivalent to three-fourths (3/4) hour fire-rating. Doors to individual lockers or the door serving an isolated group of lockers shall have a self-closer and locking hardware as described in 29.20(15)(c)1; or

b. Equip the entire floor containing the storage area with heat or smoke detectors. If the storage area is in the basement, provide basement doors of at least solid core construction equipped with a self-closer and locking hardware as described in Sec. 29.20(15)(c)1.

3. All heat detectors shall be rate-of-rise type (15 degrees per min.) with a one hundred forty (140) degree Fahrenheit or less degree backup link and spaced to cover nine hundred (900) square feet of unobstructed area and connected to the building electrical service direct or through transformers and to a signal audible throughout the building. All smoke detectors must be connected to the building electrical services direct or through transformers and to a signal audible throughout the building. In buildings which have existing fire alarms or require fire alarm systems the heat or smoke detectors shall be connected to the fire alarm system in an approved manner (Ref. NFPA 74) to avoid the confusion of more than one type audible signal. Any rooms created by walls or partitions must be individually protected with detectors or sprinklers. When products of combustion or ionization detectors are used in place of rate-of-rise heat detectors, they shall be placed on the basement side of doors leading to stairs to upper floors. The spacing shall not exceed three thousand (3,000) square feet of coverage for each detector. In no case shall the spacing for any type of detector exceed the testing laboratory ratings. All sensing devices shall be tested once every six (6) months and a record kept of the test.

4. In buildings where tenant or owner storage areas are provided other than those within lodging rooms of lodging houses or dwelling units of multi-family dwellings and are protected by automatic sprinklers installed in accordance with the National Fire Protection Association Pamphlet No. 13, compliance with paragraphs 1 and 2 of this subdivision is not required.

(Sec. 29.20(15)(c) Am. by Ord. 11,181, Adopted 2-21-95)

(16) (R. by Ord. 6721, 8-23-79)

(17) (R. by Ord. 7595, 12-28-81).

(18) (R. by Ord. 7595, 12-18-81).

(19) (R. by Ord. 6390, effective 12-1-78)

(20) Building Restrictions Adjacent to Solid Waste Disposal Sites.

(a) Statement of Purpose.

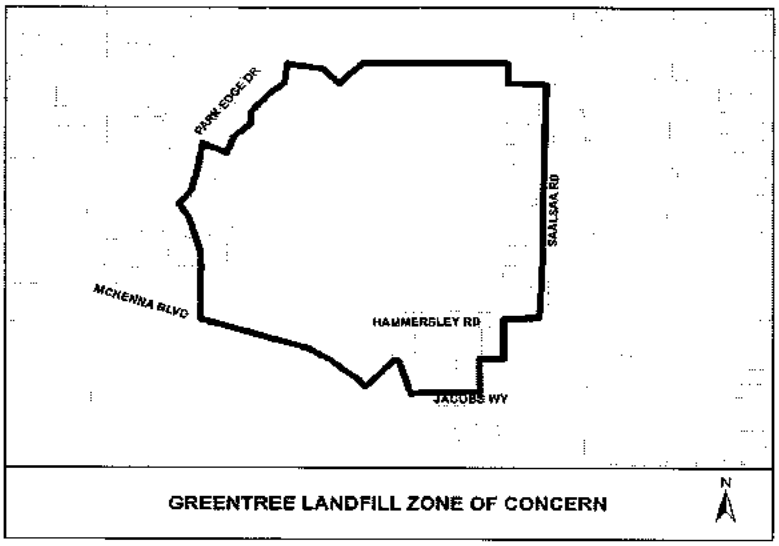
1. Organic refuse or fill material deposited in a solid waste disposal site can be expected to decompose over an extended period of time continuously creating landfill gas as a by-product. The State Uniform Dwelling Code recognizes that landfill gas can be explosive and may seep into buildings through underground passages and openings. However, the Code sets no construction standards for restricting such gas intrusion and, unless and until said solid waste disposal site is designated stable by the City Engineer, it is necessary for the preservation of public health and safety to impose the building code requirements described hereafter.

2. Landfills without Specific Zones of Concern Established by the City Engineer.

a. If a disposal site is equipped with an operating extraction system to mechanically ventilate landfill gas, buildings located within five hundred (500) feet of the lesser of the limits of the disposal site's

zoning lot, or a line within said disposal site as determined by the City Engineer, shall be constructed as herein required in such fashion as to make them more resistant to landfill gas intrusion.

b. If a disposal site is not equipped with an extraction system to mechanically ventilate landfill gas, buildings located within one thousand (1000) feet of the lesser of the limits of the disposal site's zoning lot, or a line within said disposal site as determined by the City Engineer, shall be constructed as herein required in such fashion as to make them more resistant to landfill gas intrusion.



3. Landfills with Specific Zones of Concern. The following disposal sites shall have zones of concern as specified:

a. Greentree Hills Landfill. The zone of concern for Greentree Hills Landfill is as follows: Part of the West 1/2 of Section 36, Town 7 North, Range 8 East, City of Madison, Dane County, Wisconsin, more fully described as follows:

Beginning at the point of intersection of the centerlines of Hammersley Road and Saalsaa Road; thence Northerly along the centerline of Saalsaa Road to the point of intersection with the Easterly extension of the South line of Lot 108, Third Addition to Chapel Hill; thence Westerly, along said extension and South line, to the Southwest corner of said Lot 108; thence Northerly, along the West line of said Lot 108, to the Northwest corner of said Lot 108; thence Westerly, along the Westerly extension of the North line of said Lot 108, 578 feet, more or less, to the intersection of the Southeast line of Lot 41, First Addition to Park Ridge; thence Southwesterly, along the said Southeast line, 153 feet, more or less, to the most Southern corner of said Lot 41, also being the most Eastern corner of CSM 7468; thence Northwesterly, along the Northeasterly line of said CSM, to the most Northern corner of said CSM, also being the Northeast corner of CSM 6995; thence Northwesterly, along the Northeasterly line of said CSM 6995, to the Northwest corner of said CSM; thence Southwesterly, along the Northwesterly line of said CSM, to the Southwest corner of said CSM; thence Southwesterly on a straight line, to the most Northern corner of Lot 46, First Addition to Park Ridge; thence Southwesterly and Southerly, along the Westerly lines of said Lot 46, to the Southwest corner of said Lot 46; thence Southwesterly on a straight line, to the East corner of Lot 52, First Addition to Park Ridge; thence Southwesterly, along the Southeast Line of said Lot 52, to the South corner of said Lot 52; thence Northwesterly, along the Southwest Line of said Lot 52, to the West corner of said Lot 52, also being a point on the Southeast right-of-way line of Park Ridge Drive; thence Southwesterly, along the said Southeast right-of-way line, to the West corner of Lot 59, First Addition to Park Ridge; thence Southeasterly, along the Southwest line of said Lot 59, to the South corner of said Lot 59; thence Southeasterly on a straight line, to the common line between CSM 4393 and CSM 4426; thence Southerly, along said common line and its extension to the point of intersection with the centerline of McKenna Boulevard; thence Southeasterly along said centerline to the point of intersection with the Southwesterly extension of the Northwest line of lot 25, Park Ridge Heights; thence Northeasterly, along the said Northwest line, to the Northerly Line of said Lot 25; thence

Easterly, along the North Line of said Lot 25, to the Northeasterly Line of said Lot 25; thence Southeasterly, along the Northeasterly Line, to the Northerly right-of-way Line of Jacobs Way; thence Easterly, along the said Northerly right-of-way, to the West Line of Lot 29, Park Ridge Heights; thence Northerly, along the said West Line, to the Northwest corner of said Lot 29; thence Easterly, along the North Line of said Lot 29 and the South Line of Lot 18, Park Ridge Heights, to the East line of said Lot 18; thence Northerly along the East line of said Lot 18 and said East line extended Northerly to the point of intersection with the centerline of Hammersley Road; thence Easterly along said centerline to the point of beginning. (Figure 1).

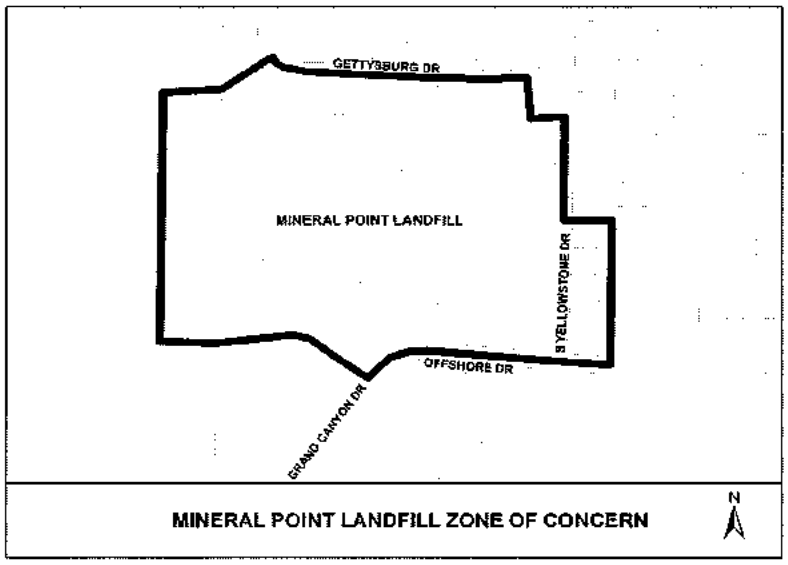


Figure 1

b. Mineral Point Landfill. The zone of concern for the Mineral Point Landfill is as follows: Part of the Southwest 1/4 of Section 24, Town 7 North, Range 8 East, City of Madison, Dane County, Wisconsin, morefully described as follows: Beginning at the intersection of the centerline of Gettysburg Drive and the northerly extension of the West line of Lot 3, Parkwood Hills; thence Westerly on the centerline of Gettysburg Drive to a point of intersection with the Northeasterly extension of the Southeast line of Lot 14, Parkwood Hills Plat; thence Southwesterly along said Northeasterly extension and said Southeast line to the Southwest corner of said Lot 14; thence Westerly 200 feet, more or less, to a line that is parallel to and 200 feet West of, as measured by right angles to, the West line of the East ½ of the Southwest ¼ of said Section 24, also being the West line of Parkwood Hills and Parkwood West; thence Southerly, along said parallel line, to a point that is Westerly of the Southwest corner of Lot 4, Parkwood West; thence Easterly 200 feet, more or less, to the said Southwest corner of Lot 4; thence Southeasterly on the South line of said Lot 4 and said South line extended to the point of intersection with the centerline of Offshore Drive; thence Easterly along said centerline to the point of intersection with the Southerly prolongation of the

East line of Lot 18, Parkwood West; thence North along said Southerly prolongation and the East line of Lots 18, 17, 16, 15 and 14 of Parkwood West Plat to the Northeast corner of said Lot 14; thence West along the North line of said Lot 14 and the Westerly extension of said North line to the point of intersection with the centerline of South Yellowstone Drive; thence North along the centerline of South Yellowstone Drive, to the intersection with the easterly extension of the South line of Lot 3, Parkwood Hills; thence Westerly, along the said extension and South line, to the Southwest corner of said Lot 3; thence Northerly, along the West line of said Lot 3 and its extension to the point of beginning. Excepted from the above described area are the buildings addressed 26-38 and 102-120 Grand Canyon Drive which lie on the South line of Lot 4, Parkwood West. (Figure 2)

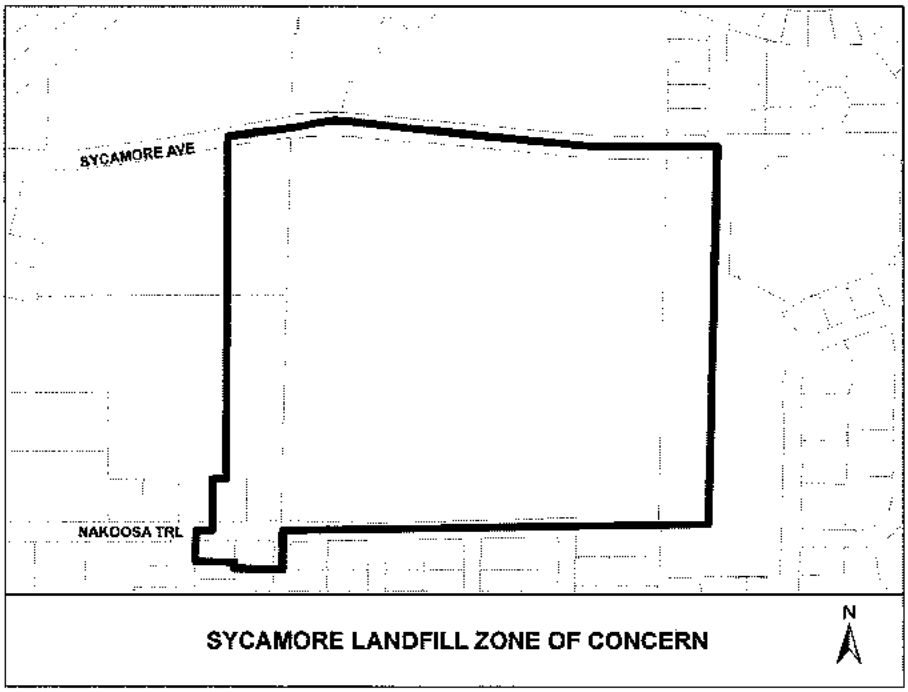

Figure 2

c. Sycamore Landfill. The zone of concern for Sycamore Landfill is as follows: Part of the East ½ of Section 33 and part of the West 1/2 of Section 34, Town 8 North, Range 10 East, City of Madison, Dane County, Wisconsin, more fully described as follows: Beginning at the intersection of the centerline of Sycamore Avenue and a line parallel to and 200 feet west of, measured at right angles to, the West line of said Section 34; thence Southerly, along said parallel line, to the North line of Lot 4, Ziegler Addition to Burke Heights; thence Westerly, along said North line, to the Northwest corner of said Lot 4; thence Southerly, along the West line and its extension of said Lot 4, to the centerline of Nakoosa Trail; thence Westerly, along said centerline, to the northerly extension of the East right-of-way line of Brandie Rd; thence Southerly, along said extension and East right-of-way line, to the Northwest corner of Lot 2, Jim's Addition to Burke Heights; thence Easterly, along the North line of said Lot 2, to the Northeast corner of said Lot 2; thence Southerly, along the East line of said Lot 2, to the Northwest corner of Lot 76, Second Addition to Burke Heights;

thence Easterly, along the North line of said Lot 76 and its extension, to the West line of said Section 34; thence Northerly, along the said West line of Section 34, to the Northwest corner of the Southwest 1/4 of the Southwest 1/4 of said Section 34; thence Easterly along the North line of the said Southwest 1/4 of the Southwest 1/4 to a point on the North line of the Southeast 1/4 of the Southwest 1/4 of said Section 34 which is 150 feet East of the Northwest corner of said Southeast 1/4 of the Southwest 1/4; thence Northerly along a line that is parallel to and 150 feet East of, measured at right angles to, the West line of the Northeast 1/4 of the Southwest 1/4 of said Section 34 to the point of intersection with the centerline of Sycamore Avenue; thence Westerly on said centerline to the point of beginning. (Figure 3)

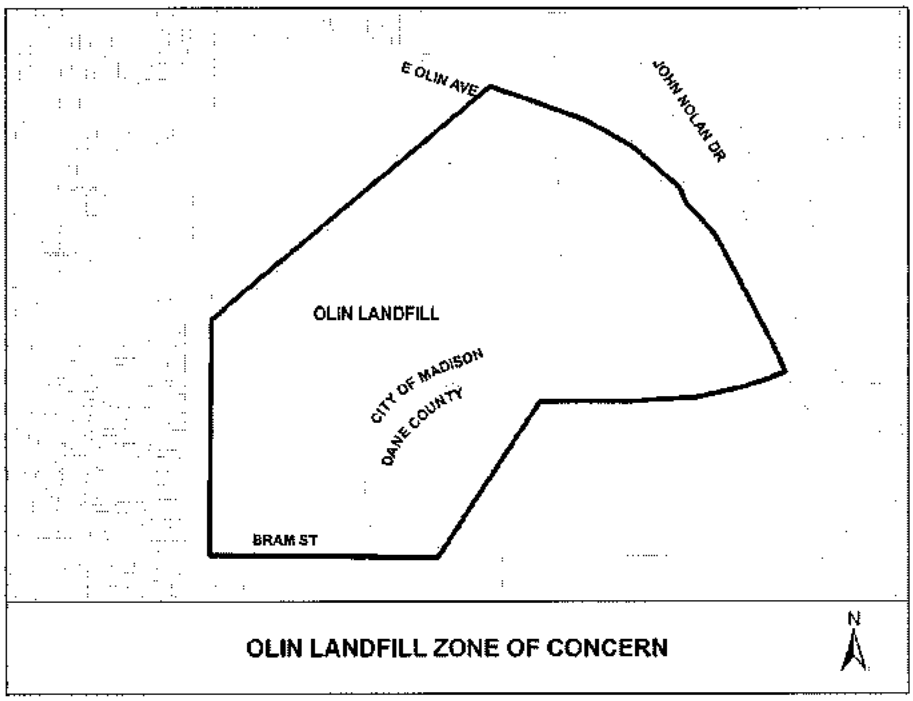

Figure 3

d. Olin Landfill. The zone of concern for Olin Landfill is as follows: Part of the Southeast 1/4 of Section 26, part of the Southwest ¼ of Section 25 and part of the Northeast ¼ of Section 35, all in Town 7 North, Range 9 East, City of Madison, Dane County, Wisconsin, more fully described as follows: Beginning at the point of intersection of the Northeasterly right-of-way of Olin Avenue and the centerline of Wingra Creek; thence Southeasterly, along the said Northeasterly right-of-way, to the point of intersection with the Southwesterly right-of-way of John Nolen Dr.; thence Southeasterly, along the said Southwesterly right-of-way, 1232 feet, more or less, to the point of intersection with the centerline of a private access road for the Alliant Energy Center; thence Southwesterly and Westerly, along the said private access road, 1409 feet, more or less, thence Southwesterly, on a straight line, 1080 feet, more or less, to the Easterly terminus of the South right-of-way of Bram Street;

thence Westerly, along the said South right-of-way, to the point of intersection with the Southerly extension of the East line of the Union Pacific Railroad; thence Northerly, along the said extension and East line, to the point of intersection with the centerline of Wingra Creek; thence Northeasterly, along the said centerline, to the point of beginning. (Am. by Ord. 13,568, 4-21-04) (Figure 4)

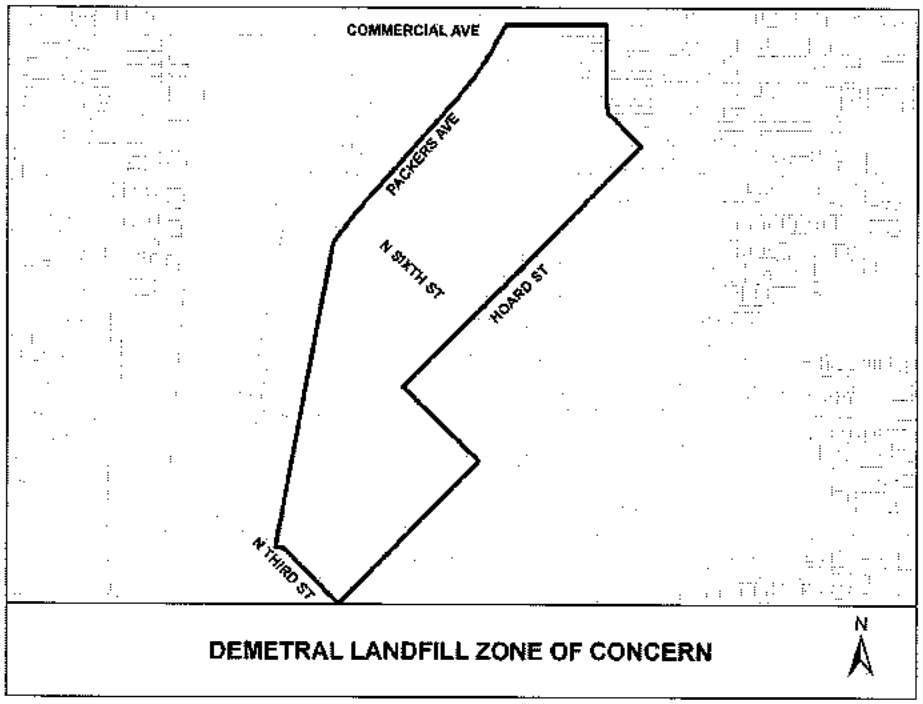

Figure 4

e. Demetral Landfill. The zone of concern for Demetral Landfill is as follows: Part of the Northeast, Northwest and Southwest 1/4's of Section 6, Town 7 North, Range 10 East, and part of the Southeast ¼ of Section 31, Town 8 North, Range 10 East, City of Madison, Dane County, Wisconsin, more fully described as follows: Beginning at the point of intersection of the North right-of-way of Commercial Avenue and the centerline of Schofield Street extended; thence Southerly along the said extension and centerline of Schofield Street to the intersection with the centerline of Eighth Street; thence Southeasterly along the centerline of Eighth Street to the point of intersection with the centerline of Hoard Street; thence Southwesterly along said centerline of Hoard Street to the point of intersection with the centerline of Fifth Street; thence Southeasterly along said centerline of Fifth Street to the point of intersection with the centerline of East Johnson Street; thence Southwesterly along said centerline of East Johnson Street to the point of intersection with the centerline of Third Street; thence Northwesterly along said centerline of Third Street to the point of intersection with the Northwesterly right-of-way line of Pennsylvania Avenue; thence Northeasterly along said Northwesterly right-of-way line of Pennsylvania Avenue and the Northwesterly right-of-way line of Packers Avenue to the point of intersection of the Northwesterly

right-of-way line Packers Avenue and the North right-of-way of Commercial Avenue; thence Easterly along said North right-of-way of Commercial Avenue to the point of beginning. (Figure 5)

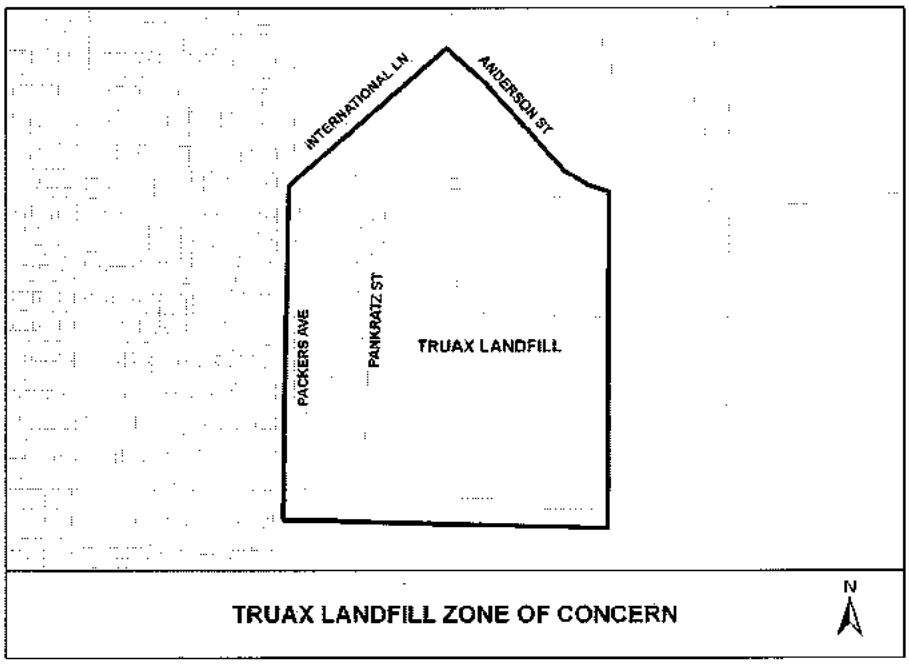

Figure 5

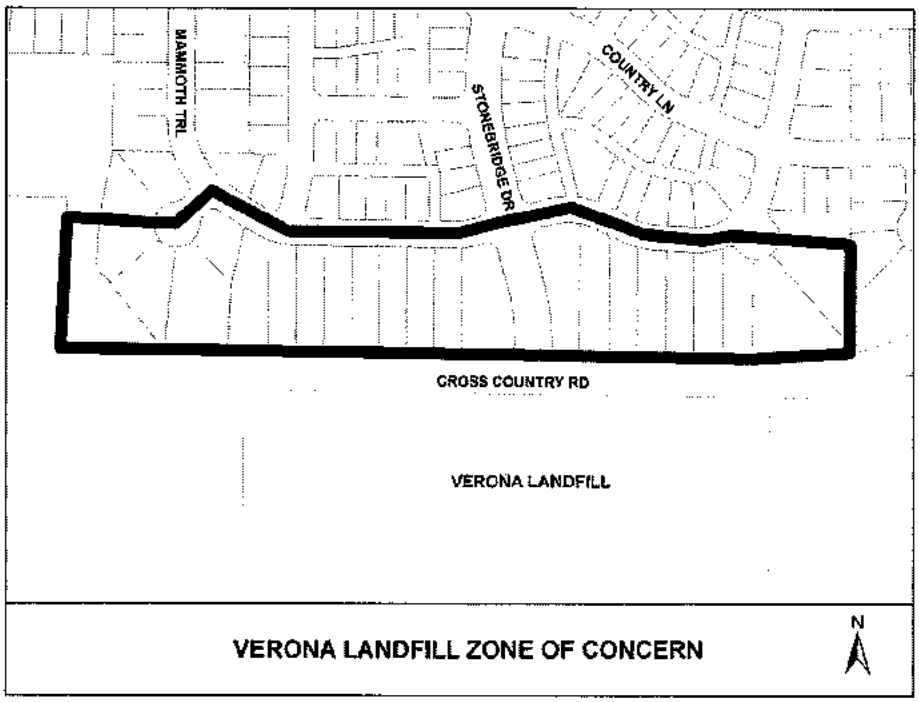
f. Truax Landfill. The zone of concern for Truax Landfill is as follows: Part of the Southeast 1/4 of Section 30 and the Northeast 1/4 of Section 31, Town 8 North, Range 10 East, City of Madison, Dane County, Wisconsin, more fully described as follows:



Beginning at the point of the intersection of the centerline of International Lane and the West line of the Northeast 1/4 of said Section 31; thence Southerly on said West line to the point of intersection with a line parallel to and 470 feet North of the South line of the Northeast 1/4 of said Section 31; thence Easterly on said line to the point of intersection with the East right-of-way line of Grim Street extended Southerly; thence Northerly on said Southerly extension and said East right-of-way line to a point on the East right-of-way line of Grim Street 500 feet North of the South line of the Southeast 1/4 of said Section 30; thence West on a line that is parallel to and 500 feet North of, measured at right angles to, said South line to the point of intersection with the centerline of Anderson Street; thence Northwesterly on said centerline to the intersection with the centerline of International Lane; thence Southwesterly on said centerline to the point of beginning. (Figure 6)

Figure 6

g. Verona Landfill. The zone of concern for Verona Landfill is as follows: Part of the Southeast 1/4 of Section 11, Town 6 North, Range 8 East, City of Madison, Dane County, Wisconsin, described as follows: Commencing at the Southeast corner of said Section 11, thence Northerly, along the East line of the Southeast 1/4 of said Section 11, 83.46 feet, to the Northerly right of way line of Cross Country Road as presently located and the point of beginning; thence Westerly, along said Northerly right of way, to the point of intersection with the South corner of Lot 423, also being the Southeast corner of Outlot 11, Heather Glen Addition to the Crossing; thence continuing Westerly, along said Northerly right of way, 229.23 feet, to a Westerly line of said Outlot 11; thence Northerly, along the said Westerly line, 292 feet, more or less, to the point of intersection with the Westerly prolongation of the North line of Lot 422, Heather Glen Addition to the Crossing; thence Easterly, along the said Westerly prolongation and North line and its Easterly prolongation, 242 feet, more or less, to the point of intersection with the centerline of Mammoth Circle; thence Northeasterly, along the said centerline, 111 feet, more or less, to the point of intersection with the centerline of Mammoth Trail; thence Easterly, along the said centerline of Mammoth Trail and centerline of Drumlin Lane, to the point of intersection with the Westerly prolongation of the North line of Lot 131, Heather Glen; thence Easterly, along the said Westerly prolongation and North line, 276 feet, more or less, to the Northeast corner of said Lot 131, also being a point on the East line of the Southeast 1/4 of said Section 11; thence Southerly, along said East line, 240.32 feet, to the point of beginning. (Cr. by Ord. 12,465, 9-23-99) (Figure 7)

Figure 7

4. It is the City of Madison's policy that the owner/operator of a solid waste disposal site shall be required to undertake, to the maximum extent technically and economically feasible, such measures as may be determined by the City Engineer to be necessary to control underground methane gas migration and contain said gas within said site's zoning lot.

5. These building code requirements shall apply to any closed former waste disposal sites which are designated herein by the City Engineer and to all operating waste disposal sites and to all new waste disposal sites licensed after adoption of the original ordinance on December 4, 1984. The following sites are the only closed Solid Waste Disposal Sites designated by the City Engineer to which this section shall apply:
   a. Sycamore Landfill, 4603 Sycamore Avenue.
   b. Demetral Landfill, 2301 Pennsylvania Avenue.
   c. Truax Landfill, 1801 Pankratz Avenue.
   d. Olin Landfill, 121 East Olin Avenue.
   e. Mineral Point Landfill, 120 South Yellowstone Drive.
   f. Greentree Hills Landfill, 6750 Hammersley Road.
   g. Rodefeld Landfill, 7102 East Broadway.
   h. Verona Landfill, 6718 East Verona Avenue. (Cr. by Ord. 12,465, 9-23-99)

(Sec. 29.20(20)(a) Am. by Ord. 10,550, Adopted 11-24-92)

(b) Construction Practices and Safety Precautions.

1. Subject to Paragraphs 2., 3. and 4. following, the building construction practices and safety precautions described in Paragraph 5. below shall be implemented by the owner of any building located within the limits of a solid waste disposal site described in paragraphs (a)2. and 3. above. These precautions are in addition to measures taken by an owner/operator of an

adjacent disposal site. The owner and any subsequent owner of any such building shall thereafter maintain the gas-resistant integrity of such building as so modified during any period of ownership.

2. A building permit application for new construction subject to this ordinance shall include on the building plans a description of the approved construction practices to be used to make such building more resistant to underground landfill gas intrusion.

3. A building permit application for all below-grade additions and alterations subject to this ordinance, in excess of fifty percent (50%), shall state on the building plans a description of the approved construction practices to be used to make such building more resistant to underground landfill gas intrusion. The building plans shall also include a description of the building construction practices described in Subparagraphs b., c., d. and e. of Paragraph 5. below. Said building construction practices (where building foundation cracks, joints and exterior walls are accessible) shall be concurrently completed for the existing below-grade building structure. (Am. by Ord. 10,550, Adopted 11-24-92)

4. All building permit applications for restoration of damaged buildings subject to Section 28.194 of the Madison General Ordinances are not subject to these provisions except when below-grade restorations are undertaken. When below-grade restorations are planned the building plans shall include a description of the building construction practices in Subparagraphs b., c., d. and e. in Paragraph 5. below. Said building construction practices (where building foundation cracks, joints and exterior walls are accessible) shall be concurrently completed for the existing below-grade building structure. (Am. by ORD-12-00134, 1-2-13)

5. The approved construction practices and safety precautions shall include a sub-slab depressurization system (passive or active) that includes the following components:

   a. Gravel. A layer of clean, coarse gravel or alternative shall be placed below the foundation. Alternatives include perforated piping or a collection mat.

   b. Plastic Sheeting or Vapor Retarder. A heavy duty plastic sheeting (6 mil. polyethylene or equivalent) or a vapor retarder shall be placed on top of the gravel to inhibit potential landfill gas from entering the building.

   c. Vent Pipe. A three-inch or four-inch (3" - 4") solid PVC schedule forty (40) vent pipe shall run vertically through the building's conditioned space and roof to safely vent potential landfill gas outside above the house. The pipe shall be labeled "Sub-Slab Depressurization System." For residential buildings with three units or more and for commercial buildings over 2,500 square feet, the schedule 40 PVC should be sized to accommodate a larger capacity fan.

   d. Sealing and Caulking. All openings, cracks, and crevices in the concrete foundation floor and walls shall be sealed and caulked with flexible caulk to prevent potential landfill gas from entering the building. This includes but is not limited to all floor openings, concrete joints, condensate drains, sumps, foundation walls, slab perimeter cracks, clean-outs, and backflow devices. All foundation walls shall also be treated with hand-applied foundation sealing material or an equivalent treatment.

e. Junction Box. An electrical junction box (outlet) shall be installed in the attic for use with a vent fan, should one be required in the future. Activation of the system with an adequately sized vent fan is required for residential buildings with three units or more and for commercial buildings over 2,500 square feet. Smaller buildings are not required to activate the system at the time of installation unless noted by the City.

f. Clay Cutoff. A clay cutoff shall be installed as near to the property line as feasible in utility trenches which emanate from the direction of the zoning lot of the current or former disposal site.

g. Other measures deemed advisable by a building design professional may be used to accomplish the above-stated purposes. The design professional's report, if any, shall be submitted to the Building Inspection Superintendent and the City Engineer for approval prior to the issuance of a building permit.

In general, meeting the requirements of the Appendix F of the 2009 International Residential Code, Radon Control Methods, shall satisfy the requirements of this ordinance.

(c) Annual Disposal Site Monitoring Report. The owner of all landfills listed in subdivision (a), Paragraph 5. above, shall submit annually to the City Engineer a Landfill Environmental Assessment Report unless comparable documents have already been prepared for the Wisconsin Department of Natural Resources, as determined by the City Engineer. The Landfill Environmental Assessment Report shall include, but shall not be limited to the following:

1. A tabulation of the previous year's landfill gas monitoring data.
2. An assessment of data monitored during the reporting period.
3. An outline of the planned gas monitoring program for the upcoming year.

(Sec. 29.20(20)(c) Am. by Ord. 10,550, Adopted 11-24-93)

(Section 29.20(20) Cr. By Ord. 8487, 12-21-84; Am. By ORD-12-00002, 1-10-12; ORD-12-00035, 3-28-12)

ONE- AND TWO-FAMILY DWELLINGS

29.21 CLASSIFICATION.

It is the intention to include under the classification of one- and two-family dwellings all buildings or portions of buildings used for sleeping or lodging purposes which are not included within the scope of Wis. Admin. Code ch. SPS 362. (Am. by Ord. 11,392, Adopted 11-7-95; Ord. 13,124, 8-28-02; ORD-12-00035, 3-28-12)

29.22 RESERVED FOR FUTURE USE. ("One- and Two-Family Building" Code R. by Ord. 11,392, Adopted 11-7-95)

29.23 RESERVED FOR FUTURE USE. (R. by Ord. 6956, 4-11-80)

29.24 RESERVED FOR FUTURE USE. (R. by Ord. 6956, 4-11-80)

29.25 RESERVED FOR FUTURE USE. (R. by Ord. 6956, 4-11-80)

29.26 RESERVED FOR FUTURE USE. (R. by Ord. 6956, 4-11-80)

29.27 RESERVED FOR FUTURE USE. (R. by Ord. 6956, 4-11-80)

29.28 RESERVED FOR FUTURE USE. (R. by Ord. 6956, 4-11-80)

29.29 SIZE OF DWELLING AND ROOMS.

(1) Every detached single-family dwelling other than a mobile home shall have at least five hundred (500) square feet of floor area on the first floor level.

(2) Size of Rooms.

(a) Apartments. The floor area of an apartment shall provide not less than one hundred fifty (150) square feet of floor area for the first occupant and at least one hundred (100) additional square feet of floor area for each additional occupant.

(b) Lodging Rooms. The floor area of a lodging room shall provide not less than eighty (80) square feet of floor area for one (1) occupant and sixty (60) square feet for each additional occupant.

(3) The space used as a laundry, workshop, furnace room, bathroom, storage room, closets, and common halls shall not be included as part of the space required in Section 29.29(2).

(4) Access to all lodging and sleeping rooms shall be from a common hallway and not through bathrooms or other lodging and sleeping rooms.

29.30 PRIVATE SWIMMING POOLS.

(1) In-the-ground Pool. A wall or fence at least forty-eight (48) inches high and not more than six (6) feet of such construction as will make access difficult, shall completely enclose all private combination, diving, swimming, and limited purpose pools, except, that an entrance may be provided through a bathhouse or gate. The gate shall be equipped with a locking device and shall be kept locked when pool is not in use. (Am. by Ord. 7682, 4-2-82)

(2) Portable Pools. The enclosure may be omitted where portable pools are installed aboveground. Where pool ladders are provided, they shall be a type that can be removed when pool is not in use.

(Sec. 29.30 R. by Ord. 6956 and Sec. 29.22(4) Renumbered to 29.30 by Ord. 6955, 4-11-80)

29.31 RESERVED FOR FUTURE USE. (R. by Ord. 7575, 11-27-81)

29.32 PRIVATE GARAGES.

(1) Classification - Detached Garages. A detached private garage shall mean a private garage entirely separated from the principal building.

(2) Footings and Foundations. Footings and foundations shall be provided for all private garages, except that private garages of frame or noncombustible frame construction may be provided with foundation walls of concrete or masonry not less than three (3) feet six (6) inches below the adjoining grade, including overhead door openings, or with an approved continuous floating foundation slab of concrete not less than four (4) inches in thickness for detached garages. Such walls and exterior wall curbs shall be not less than eight (8) inches above the adjoining grade and eight (8) inches in thickness.

(3) Floor Surface. The floor in all private garages shall be of approved noncombustible material. No openings or pits in the floor shall be permitted.

(4) Construction. Private garages shall be constructed as follows:

(a) Load bearing foundation walls, masonry walls, and partitions shall be constructed as regulated herein except as stated above.

(b) Detached private garages of wood frame construction shall be constructed as regulated in this chapter, with the following exceptions:

1. Studs may have a maximum spacing of twenty-four (24) inches on centers. Doubling of studs shall not be required at jambs of openings less than forty (40) inches.
2. Diagonal corner bracing may be applied on the inside surface of studs.
3. Corner posts may consist of two (2) two by four (2 × 4) studs or a single four by four (4 × 4) stud.
4. Top plates may be single, provided the rafters are placed over the studs and plates are lapped to provide ties.

5. Horizontal bracing and collar beams may be two by fours (2 × 4's) with a maximum spacing of six (6) feet on centers.
6. All framing walls shall be securely anchored to the foundation with one-half by six (½ × 6) inch bolts placed four (4) feet on center.

(5) Roof Construction. All roof framing shall comply with the span tables as set forth by the National Forest Products Association or be approved manufactured trusses. (Cr. by Ord. 8379, 7-25-84)

(Sec. 29.32 Am. by Ord. 6959, 4-11-80)

AWNINGS AND OTHER PROJECTIONS

29.33 CANOPIES AND HOODS. No permanent hood or canopy shall be constructed unless in the manner herein provided.

(1) (R. by Ord. 9324, 11-13-87)

(2) The owner or occupant of any building erecting such canopy or hood shall furnish annually a public liability bond with sureties to be approved by the Director of the Building Inspection Division, in an amount equal to one hundred dollars ($100) per square foot, based on the area of the underside of such canopy or hood, but in no case shall any bond be less than five thousand dollars ($5,000), provided further that if the owner or occupant of such building shall carry public liability insurance in an amount equal to or in excess of the amount of the bond hereinbefore required, then and in that event said person shall be exempted from furnishing a bond as hereinabove required. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(3) There shall be a height of not less than ten (10) feet in the clear between the grade of the sidewalk at any point and the lowest point of any appendage or projection of any canopy or hood extending from any building to the public street.

(4) The projection of permanent hoods or canopies shall not extend over the street to a distance of nearer than three (3) feet from the outside face of the curb.

(5) The overall height of such canopies or hoods including all projections, ornamentations, accessories or appurtenances shall not exceed six (6) feet, and there shall not be added after the original erection of such canopy or hood any sign, poster or other thing extending beyond six (6) feet above the ten (10) foot clearance required of said canopy. The maximum distance to the top of any canopy including all projections, ornamentations, appurtenances, signs or any other part of the canopy shall not exceed sixteen (16) feet from any point of the sidewalk.

(6) Any accessory, appurtenance, or sign of a temporary or permanent installation shall be rigidly attached to the hood or canopy in a manner satisfactory to the Director of the Building Inspection Division. Swinging signs or accessories of any nature whatever are prohibited. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(7) Where projecting signs are erected above canopies or hoods, they shall in no manner be attached to any accessory, ornament or other thing of a temporary or permanent nature. Such signs shall be hung independently of the canopy and shall not project more than four (4) feet.

(8) All hoods and canopies shall have gutters and conductors connected with the sewer at the buildings, and such canopies or hoods shall be so drained as not to discharge any water on the sidewalk or public highway, except as provided in the Plumbing Code (Chapter 18).

(9) Canopies and hoods shall be built of incombustible materials throughout, and shall be capable of resisting a superimposed load of eighty (80) pounds per square foot, and shall extend from the lot line toward the curb at a height in the clear of not less than ten (10) feet, and to slope and drain toward the building, and shall be provided with conductors connected with the sewer of the building in accordance with Chapter 18 (Plumbing Code) of these ordinances.

(10) Such canopies or hoods must be suspended from the building with no supports resting upon the sidewalk or public highway, and all canopies must have the approval of the Director of the Building Inspection Division as regards design and materials of construction. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(11) Before a permit can be issued for the erection of canopies and hoods, the Common Council must grant permission for the privilege of occupying the public area as outlined in Section 66.0425 of the Wisconsin Statutes.

(12) Any person violating the provisions of this section shall be subject to forfeiture of not less than ten dollars ($10) nor more than fifty dollars ($50), and each day that such violation is permitted to exist shall constitute a separate offense.

29.34 SUN SHADES. No permanent sun shade shall be constructed unless in the manner herein provided.

(1) (R. by Ord. 9324, 11-13-87)

(2) The owner or occupant of any building erecting such sun shade shall furnish annually a public liability bond with sureties to be approved by the Director of the Building Inspection Division in an amount equal to one hundred dollars ($100) per square foot, based on the area of the underside of such sun shade, but in no case shall any bond be less than five thousand dollars ($5,000); provided further that if the owner or occupant of such building shall carry public liability insurance in an amount equal to or in excess of the amount of the bond hereinbefore required, then and in that event said person shall be exempted from furnishing a bond as hereinabove required. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(3) There shall be a height of not less than ten (10) feet in the clear between the grade of the sidewalk at any point and the lowest point of any appendage or projection of any sun shade extending from any building to the public street.

(4) The projection of permanent sun shades shall not extend over the street more than four (4) feet from the property line.

(5) The overall height of such sun shades including all projections, ornamentations, accessories or appurtenances shall not exceed one (1) foot and there shall not be added after the original erection of such sun shade any sign, poster or other advertising.

(6) Where projecting signs are erected above sun shades they shall in no manner be attached to any accessory, ornament or other thing of a temporary or permanent nature. Such signs shall be hung independently of the sun shade and shall not project more than four (4) feet.

(7) Sun shades shall be built of incombustible material throughout and shall be capable of resisting a superimposed load of eighty (80) pounds per square foot, and shall extend from the lot line toward the curb at a height in the clear of not less than ten (10) feet, and to slope and drain toward the building and shall be provided with conductors connected with the sewer of the building in accordance with Chapter 18 (Plumbing Code) of these ordinances. Gravel stops shall be provided of sufficient height so no water can drain or blow on any sidewalk or public highway.

(8) Such sun shades must be suspended from the building with no supports resting upon the sidewalk or public highway, and all sun shades must have the approval of the Director of the Building Inspection Division as regards design and materials of construction. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(9) Before a permit can be issued for the erection of sun shades, the Common Council must grant permission for the privilege of occupying the public area as outlined in Section 66.0425 of the Wisconsin Statutes.

(10) Any person violating the provisions of this section shall be subject to a penalty of not less than ten dollars ($10) nor more than fifty dollars ($50), and each day that such violation is permitted to exist shall constitute a separate offense.

29.35 AWNINGS OVER STREET OR SIDEWALK.

(1) No person shall erect, repair or maintain any awning over any sidewalk or street within the City of Madison contrary to any of the provisions of this section.

(2) No person shall erect or repair any awning over a public sidewalk or street without first obtaining a building permit from the Director of the Building Inspection Division except that if the portion repaired is less than twenty-five percent (25%) of the total canvas cover, the permit requirement is waived. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(3) Any awning hereafter erected over any sidewalk or street within the City of Madison shall be constructed of adjustable iron frame, firmly secured in place, and covered with canvas or other suitable material, and the frame shall be at least seven and one-half (7½) feet in height above the highest point of the walk; and the lowest point of flap or fringe of such awning shall at no point be less than six and one-half (6½) feet above the sidewalk immediately beneath it.

(4) Wood or metal awnings when installed must be so placed that no accumulation of snow, ice or any other loose material can fall upon public property, or would hamper the Fire Department in erecting of ladders. Wooden awnings not to be installed in General and Capitol Fire Limits.

(5) Any person who shall erect, repair, or maintain any awning contrary to the provisions of this section, or who shall refuse or neglect after written notice by the Superintendent of Streets, or Director of the Building Inspection Division forthwith to remove any awning or parts thereof maintained contrary to the provisions of this section, shall be subject to a fine of not less than five dollars ($5) nor more than ten dollars ($10) for each day during which any such awning or part thereof shall be maintained after such notice. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

29.355 USE OF TENTS FOR MERCHANDISING AND DISPLAY, LICENSE THEREFORE.

(1) Any Dane County resident selling farm produce or other person or persons in the City of Madison who operates and conducts a retailing, wholesaling, jobbing, manufacturing or processing business in a permanent building or structure conforming to the codes of the City of Madison and as an adjunct to the normal business or as an approved conditional use who shall use and utilize one or more freestanding tent, awning or canopy for merchandising or the display of merchandise of a seasonal or promotional nature on a limited term basis, shall be subject to the conditions of this ordinance. (Am. by Ord. 9161, 4-13-87 and 4-16-87)

(2) Such tent, awning or canopy shall have the canvas treated with a flame retardant chemical that is certified not to wash out of the canvas. (Am. by Ord. 9161, 4-13-87 and 4-16-87)

(3) Unless approved as a conditional use, no tent, awning or canopy shall be placed closer than twenty-five (25) feet to any building, structure or lot line, and the location shall be approved by the Director of the Building Inspection Division and the Chief of the Fire Department, and shall conform to all other codes and ordinances. (Am. by Ord. 9161, 4-13-87 and 4-16-87; ORD-08-00109, 10-7-08)

(4) Any person, firm or corporation desiring to use a tent, awning or canopy in the manner and for the purpose herein stated shall obtain a permit therefor from the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by Ord. 9161, 4-13-87 and 4-16-87; ORD-08-00109, 10-7-08)

(5) Lighting.

(a) Lighting shall be installed not less than eight (8) feet from the floor, and the method used may be "Tin" type or "Pigtail" type sockets on single conductor building wire or brewery cord, not less than fourteen (14) gauge AWG mounted on approved insulators and supported at intervals not to exceed thirty (30) feet, in instances where the distance between poles exceeds thirty (30) feet, a suitable messenger cable shall be installed to support the wiring.

(b) All wiring less than eight (8) feet from the floor shall be enclosed in rigid metal conduit, properly grounded.

(c) No portable lamps or appliances may be used except when all noncurrent carrying metal parts are adequately grounded.

(d) Convenience outlets when installed must be three (3) wire grounding type.

(6) No flame producing equipment or gasoline operated motors shall be demonstrated in any tent.

(7) On the basis of such a permit, the City Clerk shall issue a term license to the applicant for a period not to exceed six (6) consecutive weeks, unless a longer period is approved as a conditional use or used for the seasonal sale of farm produce, upon the payment of a fee for each week requested, for each tent, awning or canopy or one cent ($.01) per square foot of floor space.

When a permit has been issued to a nonprofit civic, religious, or charitable organization, the majority of whose members are residents of the City of Madison, and it is so stated under oath in its application for license hereunder, the provisions of this subsection relating to fees shall not be applicable.
(Am. by Ord. 10,209, 2-28-91)

(8) No person or persons shall be granted an extension of any license nor shall more than two (2) licenses be granted for any location in any calendar year.

AIR CONDITIONING

29.36 AIR CONDITIONING UNITS OVER PUBLIC AREAS.

(1) No person shall install any air conditioning unit over any public area within the City of Madison, without first obtaining from the Director of the Building Inspection Division a permit therefor, for which a fee of one dollar ($1) shall be charged; provided, however, that where repairs do not disturb the structural mountings of the unit to the building no permit shall be required. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(2) The mountings shall be constructed of noncorrosive material and anchored with at least one-fourth (1/4) inch lag bolts capable of supporting four hundred (400) pounds.

(3) The air conditioning unit shall be designed so the fan will dissipate the condensate into the air. Other type units must pipe the condensate to the building drainage system.

(4) Any person who shall erect, repair, or maintain any air conditioning unit contrary to the provisions of this section, or who shall refuse or neglect after written notice by the Superintendent of Streets, or Director of the Building Inspection Division, forthwith to remove any air conditioning unit or part thereof maintained contrary to the provisions of this section, shall be subject to a forfeiture of not less than five dollars ($5) nor more than ten dollars ($10) for each day during which any such air conditioning unit or part thereof shall be maintained after such notice. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

FIRE DISTRICTS

29.37 CAPITOL FIRE DISTRICT AND BUILDING RESTRICTIONS.

(1) Intent and Purpose.

(a) This ordinance is adopted for the purpose of preserving and promoting the public health, safety and general welfare of the people of the City and environs.

(b) It is recognized that there is an area of the City which contains a mix of residential and nonresidential buildings, structures, yards or vacant areas of various ages, construction materials and uses. This area poses a greater threat of vulnerability to fire damage because of the proximity and combination of structures which are old and new, structures constructed of a variety of materials and structures housing a

mixture of uses. To preserve and promote the public health, safety and welfare, it is necessary to identify this area and establish special construction standards for new and substantially remodeled buildings and structures therein.

(2) Capitol Fire District.

(a) District Defined. There is hereby created a fire district to be known as the Capitol Fire District, which includes the properties on and surrounding the Capitol Square and circumscribed by the outer ring streets (Webster, Doty, Fairchild and Dayton) and the properties fronting on or in close proximity to State Street from North Park Street to the Capitol Square. The district shall be bounded as follows:

All that part of the City of Madison located in portions of the Southwest 1/4 of Section 13, the Southwest 1/4 and the Southeast 1/4 of Section 14, the Northeast 1/4 and the Northwest 1/4 of Section 23, and the Northwest 1/4 of Section 24, all in Range 7 North, Range 9 East, City of Madison, Dane County, Wisconsin, being more particularly described as follows:

Beginning at the point of intersection of the centerlines of North Hamilton Street, East Dayton Street and North Webster Street; thence Southeasterly along the centerlines of North Webster Street and South Webster Street to the point of intersection of the centerlines of South Webster Street, King Street and East Doty Street; thence Southwesterly along the centerlines of East Doty Street and West Doty Street to the point of intersection of the centerlines of West Doty Street, South Hamilton Street and South Fairchild Street; thence Northwesterly along the centerlines of South Fairchild Street and North Fairchild Street to the point of intersection of the centerline of North Fairchild Street and the centerline of West Mifflin Street; thence Southwesterly along the centerline of West Mifflin Street to the point of intersection of the centerline of West Mifflin Street and the centerline of North Henry Street; thence Northwesterly along the centerline of North Henry Street to the point of intersection of the centerline of North Henry Street and the centerline of West Dayton Street; thence Southwesterly along the centerline of West Dayton Street to the point of intersection of the centerline of West Dayton Street and the Southeasterly prolongation of the Southwesterly line of Lot 12, Block 54, Original Plat of the City of Madison (hereafter referred to as City of Madison); thence Northwesterly along said prolongation and Southwesterly line of said Lot 12 to the Westerly corner of said Lot 12 which point is also the Easterly corner of Lot 6 in said Block 54; thence Southwesterly along the Southeasterly line of said Lot 6 to the Southerly corner of the Northeasterly half of said Lot 6; thence Northwesterly along the Southwesterly line of the Northeasterly half of said Lot 6 to the Westerly corner of the Northeasterly half of said Lot 6; thence Northwesterly across West Johnson Street along a line which extends from said Westerly corner of the Northeasterly half of Lot 6 to the Easterly corner of that part of Lot 9, Block 55, City of Madison which is located Southwesterly of an alley way in said Block 55; thence Northwesterly along the Northeasterly line of said part of Lot 9 to the Northerly corner of said part of Lot 9; thence Southwesterly along the Northwesterly line of said part of Lot 9 and the Northwesterly line of that part of Lot 10 in said Block 55 which is located Southerly of said alley way to the Northerly corner of Lot 11 in said Block 55; thence Southwesterly along the Northwesterly lines of Lots 11, 12, 13 and 14 in said Block 55 and the Southwesterly prolongation of the Northwesterly line of said lot 14 to the point of intersection of said prolongation and the centerline of North Broom Street; thence Northwesterly along the centerline of North Broom Street to the point of intersection of the centerline of North Broom Street and the Northeasterly prolongation of the Southeasterly line of Lot 9, Block 39, City of Madison; thence Southwesterly along said prolongation and the Southeasterly lines of said Lot 9 and Lot 8 in said Block 39, to the Southerly corner of said Lot

8; thence Northwesterly along the Southwesterly line of said Lot 8 and its Northwesterly prolongation to the point of intersection of said prolongation and the centerline of West Gilman Street; thence Southwesterly along the centerline of West Gilman Street to the point of intersection of the centerline of West Gilman Street and the Southeasterly prolongation of the Southwesterly line of the Northeasterly 16.67 feet of Lot 14, Wells Subdivision of Block 9 of University Addition to Madison; thence Northwesterly along said prolongation and said Southwesterly line of the Northeasterly 16.67 feet of said Lot 14 to the Westerly corner of the Northeasterly 16.67 feet of said Lot 14; thence Southwesterly along the Northwesterly line of said Lot 14, which line is also the Southeasterly line of Lot 19, Wells Subdivision of Block 9 of University Addition to Madison, to a point on said Southeasterly line of Lot 19 which is the point of intersection of said line and a line which is perpendicular to the Westerly line of said Lot 19 and which is 102 feet, more or less, Northerly of the Southerly corner of said Lot 19 and 90 feet, more or less, Southerly of the Westerly corner of said Lot 19 as measured along the Westerly line of said Lot 19; thence Westerly on said line and the Westerly prolongation of said line to the point of intersection of said prolongation and the centerline of North Frances Street; thence Northerly along the centerline of North Frances Street to the point of intersection of the centerline of North Frances Street and the Easterly prolongation of the Southerly line of Lot 4, Block 8, University Addition to Madison; thence Westerly along said prolongation and the Southerly lines of said Lot 4 and Lot 3 of said Block 8 to the Southwesterly corner of said Lot 3; thence Westerly across Hawthorne Court on a line which extends from the Southwesterly corner of said Lot 3 to the Southeasterly corner of Lot 2, Block 8, University Addition to Madison; thence Westerly along the Southerly lines of said Lot 2 and Lot 1 of said Block 8 to the Southwesterly corner of said Lot 1; thence Westerly across North Lake Street on a line which extends from the Southwesterly corner of said Lot 1 to the Southeasterly corner of Lot 4, Block 5, University Addition to Madison; thence Westerly along the Southerly lines of said Lot 4 and Lot 3 in said block 5 and the Westerly prolongation of the Southerly line of said Lot 3 to the point of intersection of said prolongation and the centerline of Fitch Court; thence Southerly along the centerline of Fitch Court to the point of intersection of the centerline of Fitch Court and the Easterly prolongation of the Southerly line of Lot 14, Block 5, University Addition to Madison; thence Westerly along said prolongation and the Southerly line of said Lot 14 and the Westerly prolongation of the Southerly line of said Lot 14 to the point of intersection of said prolongation and the centerline of North Murray Street; thence Southerly along the centerline of North Murray Street to the point of intersection of the centerline of North Murray Street and the centerline of University Avenue; thence Westerly along the centerline of University Avenue to the point of intersection of the centerline of University Avenue and the centerline of North Park Street; thence Northerly along the centerline of North Park Street to the point of intersection of the centerline of North Park Street and the centerline of Langdon Street; thence Easterly along the centerline of Langdon Street to the point of intersection of the centerline of Langdon Street and the centerline of North Lake Street; thence Southerly along the centerline of North Lake Street to the point of intersection of the centerline of North Lake Street and the Westerly prolongation of a line which is 88 feet, more or less, Southerly of and parallel to the Northerly lines of Lot 1 and Lot 2, Block 7, City of Madison; thence Easterly along said prolongation and said line for a distance of 99.6 feet, more or less, to a point; thence Southerly along a line which is at right angle, more or less, to said line for a distance of 44.9 feet, more or less, to a point on the Northerly line of Lot 13, Block 7, City of Madison; thence Easterly along the

Northerly lines of Lots 13, 12, 11, 10, 9 and 8 in said Block 7 to the Northeasterly corner of said Lot 8; thence across North Frances Street on a line which extends from the Northeasterly corner of said Lot 8 to the Northwesterly corner of Lot 10, Block 8, City of Madison; thence Easterly along the Northerly lines of Lots 10, 9, 8, 7 and 6 in said Block 8 to the Northeasterly corner of said Lot 6, which corner point is on the Westerly line of Lot 24, Block 59, City of Madison; thence Northerly along the Westerly line of said Lot 24 to the Northerly corner of said Lot 24; thence Southeasterly along the Northeasterly line of said Lot 24 to a point on the Northeasterly line of said Lot 24 which is the point of intersection of the Northeasterly line of said Lot 24 and the Northwesterly line of Lot 23 in said Block 59, which point is also the Westerly corner of said Lot 23; thence Northeasterly along the Northwesterly line of said Lot 23 to the point of intersection of said line and a line which is 7 feet, more or less, Southwesterly of and parallel to the Northeasterly line of said Lot 23; thence Southeasterly along said line and the Southeasterly prolongation of said line to the point of intersection of said prolongation and the centerline of West Gilman Street; thence Northeasterly along the centerline of West Gilman Street to the point of intersection of the centerline of West Gilman Street and the Northwesterly prolongation of a line which is 36 feet, more or less, Southwesterly of and parallel to the Northeasterly line of Lot 4, Block 58, City of Madison; thence Southeasterly along said prolongation and said line to the point of intersection of said line and the Southeasterly line of said Lot 4 which point is also on the Northwesterly line of Lot 13 in said Block 58; thence Northeasterly along the Northwesterly lines of Lot 13 and Lot 12 in said Block 58 to the Northerly corner of said Lot 12; thence Southeasterly along the Northeasterly line of said Lot 12 and the Southeasterly prolongation of said line to the point of intersection of said prolongation and the centerline of West Gorham Street; thence Northeasterly along the centerline of West Gorham Street to the point of intersection of the centerline of West Gorham Street and the centerline of North Henry Street; thence Southeasterly along the centerline of North Henry Street to the point of intersection of the centerline of North Henry Street and the Southwesterly prolongation of a line which is 0.5 feet, more or less, Southeasterly of and parallel to the Northwesterly line of Lot 18, Block 63, City of Madison; thence Northeasterly along said prolongation and said line to the point of intersection of said line and the Northeasterly line of said Lot 18; thence Northwesterly along the Northeasterly line of said Lot 18 for a distance of 0.5 feet, more or less, to the Northerly corner of said Lot 18 which point is also the Westerly corner of Lot 17 in said Block 63; thence Northeasterly along the Northwesterly line of said Lot 17 to the Northerly corner of said Lot 17; thence Southeasterly along the Northeasterly line of said Lot 17 and the Southeasterly prolongation of said line to the point of intersection of said prolongation and the centerline of West Johnson Street; thence Northeasterly along the centerline of West Johnson Street to the point of intersection of the centerline of West Johnson Street and the centerline of North Carroll Street; thence Southeasterly along the centerline of North Carroll Street to the point of intersection of the centerline of North Carroll Street and the centerline of West Dayton Street; thence Northeasterly along the centerlines of West Dayton Street and East Dayton Street to the point of intersection of the centerline of East Dayton Street and the centerlines of North Hamilton Street and North Webster Street which is the point of beginning.

(b) General Requirements. All new buildings and additions to existing buildings, except private residences, hereafter constructed in the Capitol Fire District shall be of fire resistive construction, as specified in Wis. Adm. Code ch. SPS 362, unless exempted by the Fire Marshall and the Director of Building Inspection.

All roof repair or replacement shall be of Class A rated material or equal.

Rooms or groups of rooms used for the housing of heating equipment, fuel storage, storage of oils, waste paper or volatile flammable liquid, or similar use shall be separated from the rest of the building by permanent, fire-rated walls and ceiling complying with Wis. Adm. Code chs. SPS 362 and SPS 310, with openings protected by means of approved standard fire windows and doors, complying with Wis. Adm. Code ch. SPS 362. (Am. by Ord. 13,124, 8-28-02)

(c) Map of District. An official map of the Capitol Fire District is on file in the City Department of Planning and Community and Economic Development.

(Sec. 29.37 Am. by Ord. 11,181, Adopted 2-21-95; ORD-12-00035, 3-28-12)

RENTAL DWELLINGS

29.38 INSPECTION OF NON-OWNER OCCUPIED RENTAL DWELLINGS.

(1) The Director of the Building Inspection Division shall inspect non-owner occupied buildings containing dwelling units according to the procedures of the Building Inspection Division of the Department of Planning and Community and Economic Development and pursuant to the following schedule of minimum standards:

(a) If such building contains one (1) through four (4) dwelling units, two (2) randomly selected units shall be inspected.

(b) If such building contains five (5) through eight (8) dwelling units, three (3) randomly selected units shall be inspected.

(c) If such building contains nine (9) through thirty (30) dwelling units, five (5) randomly selected units shall be inspected.

(d) If such building contains more than thirty (30) dwelling units, eight (8) randomly selected units shall be inspected.

(Am. by ORD-08-00109, 10-7-08)

(2) The inspection of properties shall be done only after proper notification of occupants. Respect for privacy should be maintained at all times in accordance with Sec. 32.05, Madison General Ordinances.

(Sec. 29.38 Am. by Ord. 11,343, 9-12-95)

29.39 RESERVED FOR FUTURE USE.

(EDITOR'S NOTE: Section 29.39, "Post-Sale Inspection Program" was automatically repealed by a sunset provision that was effective 6-30-91, but was not deleted from the books until 8-15-92.)

30.01 ADMINISTRATION.

(1) Purpose and Scope of This Code.

(a) The purpose of this code is to provide minimum regulations, provisions, and requirements in the City of Madison to insure safety and adequacy to persons and property wherever heating, ventilating, and/or air conditioning is installed and to all alterations or improvements, including replacement of any apparatus or device pertaining to heating, ventilating, and/or air conditioning

(b) The provisions of this code shall apply to every building, or portion of a building, devoted to a new use for which the requirements are in any way more stringent than the requirements covering the previous use. The provisions of this code shall be binding alike upon the owner of a building or premises, every person in charge of or responsible for or who causes the construction, repair alteration or improvement of any heating, ventilating and/or air conditioning devices, fixtures or equipment. (Am. by Ord. 11,783, 2-17-97)

(c) Wis. Admin. Code ch. SPS 323 and all subsequent amendments, additions and recodifications thereto are hereby adopted, by reference, and shall apply to all new one- and two-family residential buildings as well as additions and alterations to all existing one- and two-family residential buildings, accessory buildings, and to new portions of moved buildings. If there are sections of this code that are more restrictive than Wis. Admin. Code ch. SPS 323, then Wis. Admin. Code ch. SPS 323 shall apply. If there are subjects covered in this code that are not covered in Wis. Admin. Code ch. SPS 323, then this code shall apply. (Am. by Ord. 9298, 10-29-87)

(d) Wis. Admin. Code ch. SPS 364 and all subsequent amendments, additions and recodifications thereto are hereby adopted by reference for all buildings and structures other than one (1) and two (2) family residential dwellings. (Am. by Ord. 9298, 10-29-87)

(e) Sections in this code that are more restrictive or not covered in Wis. Admin. Code ch. SPS 364 shall be enforced over Wis. Admin. Code ch. SPS 364. (Am. by Ord. 9298, 10-29-87)

(Am. by ORD-12-00035, 3-28-12)

(2) Heating, Ventilating and Air Conditioning Inspector.

(a) To enforce the provisions of this code there is hereby authorized and established the position of Heating, Ventilating and Air Conditioning Inspector who shall be under the direction of the Director of the Building Inspection Division, and be responsible for the inspection of heating, ventilation, and smoke abatement problems as prescribed by this code. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(b) The Heating, Ventilating and Air Conditioning Inspector shall have the power and authority at all reasonable times, for any proper purpose to enter upon any public or private premises and make inspections thereof, and to require the productions of the permit for any building, electrical, plumbing, heating or ventilation or to require license therefore. Any person interfering with or refusing entrance to said Inspector while in the performance of his/her prescribed duties shall be punished as provided in Section 30.01(14). (Am. by ORD-10-00058, 6-11-10; ORD-14-00012, 1-14-14)

(3) Classes of Licenses.

(a) A person who holds a valid certification under Sec. 101.178(3)(a) of Wisconsin Statutes may obtain a license under this ordinance without taking the examination established by Subsection (5).

(b) There shall be five (5) classes of licenses issued pertaining to heating in the City of Madison.

1. Class B license shall be issued to a person desiring to install gas, oil, or coal conversion automatic equipment and controls in existing heating plants, and service, clean, and repair above-mentioned equipment, but shall not alter or repair any part of the distribution system.
2. Class A-1 license shall be issued to a person desiring to enter into the business of installing, altering, or repairing warm air space heating equipment utilizing all types of energy.
3. Class A-2 license shall be issued to a person desiring to enter into the business of installing, altering, or repairing steam or hot water equipment utilizing all types of energy.

   Exception. Gas-fired unit heaters not connected to ductwork may be installed by a Class A-2 license holder.
4. Class A-3 license shall be issued to a person licensed with the City of Madison as a Class A or AA Electrical Contractor as defined in Section 19.06 of the Madison General Ordinances who desires to enter into the

business of installing, altering, or repairing electrical space heating equipment (of the electric resistance type installed in the zone of its occupancy).

5. Class A-4 license shall be issued to a person desiring to enter into the business of installing, altering or repairing active solar heating equipment. This license is not required if the person has a North American Board of Certified Energy Practitioners (NABCEP) certification. (Am. by ORD-08-00122, 11-22-08)

(Sec. 30.01(3) R., (4) Renumbered to (3) and Am. by Ord. 11,611, Adopted 5-21-96)

(4) License Fees.

(a) The fee for a new applicant for Class B license shall be seventy-five dollars ($75). Renewal fee for each succeeding year shall be sixty dollars ($60). (Am. by Ord. 9366, 12-21-87)

(b) The fee for a new applicant for Class A-1 license shall be one hundred twenty-five dollars ($125). Renewal fee for each succeeding year shall be sixty dollars ($60).

(c) The fee for a new applicant for Class A-2 license shall be one hundred twenty-five dollars ($125). Renewal fee for each succeeding year shall be sixty dollars ($60).

(d) The fee for a new applicant for Class A-3 license shall be seventy-five dollars ($75). Renewal fee for each succeeding year shall be sixty dollars ($60). (Am. by Ord. 9366, 12-21-87)

(e) The fee for a new applicant for Class A-4 license shall be seventy-five dollars ($75). Renewal fee for each succeeding year shall be sixty dollars ($60). (Am. by Ord. 9366, 12-21-87)

(Renum. from (5) by Ord. 11,611, Adopted 5-21-96)

(5) Licenses-How Obtained.

(a) Examinations for heating licenses shall be given by the Building Inspection Division of the Department of Planning and Community and Economic Development on the second Monday in January, April, July and October. An examination may be given at any time upon a finding that there be a hardship involved and that a delay in writing the exam will result in an injustice to the applicant.

(b) An application shall be filed with the Heating, Ventilating and Air Conditioning Inspector thirty (30) days prior to the date on which an examination is to be held. An application fee of sixty dollars ($60) shall accompany application for Class B, Class A-3 and Class A-4 licenses. An application fee of one hundred twenty-five dollars ($125) shall accompany application for Class A-1 and A-2 licenses. Application shall be made on forms furnished by the Building Inspection Division of the Department of Planning and Community and Economic Development, City of Madison, Municipal Building, Madison, Wisconsin.

Persons who are engaged in solar system installation shall hold an A-4 license or an NABCEP certification for solar thermal installers. The applicant must furnish evidence that s/he is engaged in such installation. Upon finding that the applicant is engaged in the solar system installations, if the applicant is not NABCEP certified, an A-4 license will be issued after the appropriate fee is paid and the bond has been furnished. (Am. by ORD-08-00122, 11-22-08)

(c) The Director of the Building Inspection Division of the Department of Planning and Community and Economic Development, upon being satisfied as to the competency of the applicant, shall issue to the applicant a license authorizing the applicant to conduct a heating business for that branch of heating for which s/he has applied. The examination application fee shall constitute payment for the balance of the license year.

If the applicant for a license fails in her/his examination, one-half (½) of the application fee shall be refunded to the applicant. The applicant may write the examination the next time it is given, but if s/he fails to pass again, s/he must wait one (1) year before making application to again take the examination.

(d) A person either individually, as a member of a firm, or as an officer or employee holding a license may apply for an inactive status if the following conditions are satisfied:

1. The person qualifies by examination or by state certification and pays the required fee for one (1) year on the basis of an active license.
2. After holding a license for one (1) year, the licensee may establish an inactive status if not actively engaged in the business of heating equipment or where more than one (1) person holds an active license for the firm.
3. The inactive licensee shall pay a renewal fee of fifteen dollars ($15) per year to maintain inactive status.
4. The inactive status cannot be renewed for more than a period of four (4) successive years.

(Sec. 30.01(6) Renum. to (5) and Am. by Ord. 11,611, 5-21-96; ORD-08-00109, 10-7-08)

(6) Prohibitions.

(a) It shall be unlawful for any person with a Class A-1, A-2, A-3 or A-4 license to allow the use of her/his license directly or indirectly for others, except that a person with a Class A-1, A-2, A-3 or A-4 license may lawfully obtain permits for corporations or firms who are actively engaged in the heating contracting business with a recognized business location if said person is gainfully and regularly employed by such corporation or firm on a full-time basis in a supervisory position. The licensee and the contractor shall be jointly held responsible for the design, supervision, installation and performance of the system.

(b) In the event that any person holding a heating license shall sever her/his connection with a heating firm and there is no other person who is licensed under the provisions of this code to conduct a heating business, the heating firm shall, within a period of forty-five (45) days, either employ a person licensed in their branch of heating or apply to the Director of the Building Inspection Division of the Department of Planning and Community and Economic Development for the required license according to the provisions of this code. Upon such application, an examination of the applicant shall be conducted under the hardship provisions of Section 30.01(5)(a) of the Madison General Ordinances. In the event that such applicant fails to obtain such license, then said firm shall employ a person licensed in their branch of heating within a period of forty-five (45) days after said applicant for license has been notified of her/his failure to meet the license requirements. If any work done by such firm pursuant to permits issued by the Heating, Ventilating and Air Conditioning Inspector shall fail to meet all requirements of the City ordinances and the regulations contained in Wis. Admin. Code ch. SPS 364, the Heating, Ventilating and Air Conditioning Inspector shall not issue further permits to such firm, until some member or employee of such firm shall have obtained a license to conduct a heating business in accordance with the provisions of this code. (Am. by ORD-12-00035, 3-28-12)

(c) No person either individually, as a member of a firm, or as an officer or employee of a corporation shall install, alter or repair any space heating equipment except those employees working for an authorized licensee, hereunder, unless such person shall have a license as required by this code. The Director of the Building Inspection Division, however, may issue a permit to the owner of a single-family residence only which the owner and the owner's immediate family solely occupies, for work to be done within said residence, if the person desiring such permit can prove (by oral examination conducted by the Building Inspection Division of the Department of Planning and Community and Economic Development) that s/he

is competent to do such work, in conformity with all rules and regulations governing the installation of heating equipment in residences and such person shall pay the same fee as is required in the fee schedule.

(New Sec. 30.01(6) Cr. by Ord. 11,611, 5-21-96; ORD-08-00109, 10-7-08)

(7) Renewal of Licenses. Every license shall expire on the thirtieth (30th) day of June following the date of its issue and may be renewed upon payment to the City Treasurer, the renewal fee pertaining to that class of license not later than the first day of July of the year in which the license expires. After July 1, the license will not be renewed and the licensee will be required to make application for and take the examination for a new license in the same manner as a new applicant before being issued a new license. Temporary licenses shall not be issued. (Am. by Ord. 11,611, Adopted 5-21-96)

(8) Licensee Required to Give Bond. Every person licensed as an active Class A-1, A-2, A-3, A-4 or B heating contractor shall pay an additional seventy-five dollars ($75) for which the City will guarantee in the amount of one thousand dollars ($1,000) that such person shall comply with the Ordinances and laws relating to space heating and will pay costs and expenses that may be caused by the negligence of such person or her/his servants occasioned by her/his or their failure to comply with said laws and Ordinances up to the $1,000 limit or give a bond to the City of Madison in the sum of one thousand dollars ($1,000) at the time of license renewal with such sureties as the City attorney shall approve. Provided further that the person who holds the license for the corporation, the license shall indicate both the name of the licensee and the corporation. Persons with an A-1, A-2 or A-4 license need not file an additional bond. Persons licensed as Class A or AA Electrical Contractors need not file an additional bond to carry an A-3 Heating License. (Am. by Ord. 9995, 4-12-90)

(9) Permits, Plans, Specifications and Data.

(a) It shall be unlawful for a person, firm, or corporation to construct, install, alter, or repair any heating, ventilating or exhaust system (and appurtenance), replace boiler and furnace, install stoker and conversion units in or for any building before securing a permit, except in cases of emergency the contractor may proceed with the work and file the application for a permit within twenty-four (24) hours (Sundays and holidays excepted). A heating permit will not be required for the installation of electric baseboard or bathroom heaters when installed as auxiliary heat; that is, to supplement the existing heating system designed and installed to satisfy the load requirements of the space to be heated. The reference to appurtenances shall include direct heaters, cooling coils, central residential air conditioning (cooling) and similar devices affecting the safety or operation of the heating system.

(b) Permit Applications and Permit Card.

1. The application for a permit shall be made on forms provided by the Building Inspection Division of the Department of Planning and Community and Economic Development. The applicant shall be a qualified installer. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)
2. The Heating, Ventilating and Air Conditioning Permit Card shall be posted in a conspicuous place near the heating plant before starting work and shall not be removed until the final heating inspection has been made and the installation does conform with the requirements of this code. The permit card for electric space heating shall be posted near the electric service panel before work is started and shall not be removed until the final heating inspection has been made and the installation does conform with the requirements of the code.

(c) Data Required as Part of the Permit Application. All drawings submitted for approval shall be accompanied by sufficient data and information for the Building Inspection Division of the Department of Planning and Community and Economic

Development to determine if the capacity of the equipment and the performance of the equipment will satisfy the requirements of the ordinance. The following data shall be submitted.

1. Submit heat loss calculation in BTU per hour for each room to be heated.
2. Include calculations for ventilation requirements.
3. Submit one (1) or more copies of complete drawings. When the heating and ventilating drawings require approval of the Department of Safety and Professional Services, one (1) or more approved copies shall be submitted with the application. (Am. by Ord. 12,322, Adopted 2-2-99; ORD-12-00035, 3-28-12)
4. Summation of heating and ventilating load requirements.
5. Installations shall be made to conform to approved drawings.
6. Plot plan showing the location of the condensing unit for air conditioning.
7. For solar systems, furnish an estimate of the amount of energy in BTU's to be delivered by the system on an annual basis, which estimate shall be based on an "F" chart analysis or another method appropriate to the system considered, and collector performance data as is determined by a recognized testing lab. (Cr. by Ord. 8348, 5-25-84)
8. For solar systems, furnish the collector tilt and azimuth angle and a solar path shading diagram for the proposed collector location indicating the shading between the hours of 9:00 A.M. and 3:00 P.M. CST for the entire year. (Cr. by Ord. 8348, 5-25-84)
9. For solar systems, furnish a detailed drawing showing anchorage and bearing of collector supports. (Cr. by Ord. 8348, 5-25-84)

(Secs. 30.01(9)(c)9. & 11. R. and Sec. 30.01(9)(c)10. Renum. to 9. by ORD-08-00122, 11-22-08)

(d) Design Standards. The heating and ventilating design shall conform to methods and standards approved by the Building Inspection Division of the Department of Planning and Community and Economic Development when not in conflict with the Department of Safety and Professional Services.

Note: The Building Inspection Division of the Department of Planning and Community and Economic Development will accept the method and standards recommended by American Society of Heating, Refrigeration, and Air Conditioning Engineers; National Warm Air Heating and Air Conditioning Association; Sheet Metal and Air Conditioning Association (SMACNA); and National Electrical Manufacturers' Association. (See Appendix No. 1 for acceptable standards).

1. Minimum design standards for all rooms in living quarters shall be seventy (70) degrees Fahrenheit except bathrooms, which shall be seventy-five (75) degrees Fahrenheit. The minimum outside design temperature shall be minus fifteen (-15) degrees Fahrenheit.
2. The total heat loss of a building including the basement shall be used in sizing heating units or electrical service for electrical space heating.
3. The proper "U" factors shall be selected and shall reflect the additional heat loss in areas located over unheated areas.

(Am. by Ord. 12,322, Adopted 2-2-99; ORD-12-00035, 3-28-12)

(e) Supplemental Permits. The license holder responsible for the work shall complete any supplemental permit mailed to her/him and return it to the Director of the Building Inspection Division prior to commencing work. Failure to return the supplemental permit prior to commencing work shall be deemed to be working without a permit. (Am. by Ord. 10,255, Adopted 5-7-91)

(Sec. 30.01(9)R.; (10) Renum. to (9) by Ord. 11,611, 5-21-96; Am. by ORD-08-00109, 10-7-08)

(10) Permit Fees. To be collected with building permit fees. Penalty for failure to obtain a permit before starting work shall be double the fees except as provided for emergencies as stated in Section 30.01(10)(a). (Am. by Ord. 11,946, 10-14-97)

HEATING, VENTILATING, AND AIR CONDITIONING PERMIT FEE SCHEDULES

SCHEDULE 1 NEW CONSTRUCTION		
Group I	The use group shall include new and additions to residential buildings in which families or households live or in which sleeping accommodations are provided for individuals with or without dining facilities excluding hotels, motels, and institutional buildings	$.075 per sq. ft. of new building or addition. Minimum Fee $20.00
Group II	The use group shall include new and additions to taverns, restaurants, cafeterias, retail establishments under 10,000 sq. ft. where manufactured products are bought and sold, repair garages, service stations taverns, restaurants, cafeterias, retail establishments under 10,000 sq. ft. where manufactured products are bought and sold, repair garages, service stations, churches, assembly halls, theaters, exhibition buildings, educational institutions, hospitals, nursing homes, places of detention, gymnasiums, arenas, laboratories, lodge halls, funeral homes, libraries, skating rinks, dance halls, and armories	$.10 per sq. ft. of new building or addition. Minimum Fee $20.
Group III	The use group shall include new and additions to warehouses, freight terminals, storage buildings, vehicle storage garages, refrigeration storage, factories, machine shops, electric substations, sewage treatment plants, heating plants, steam and electric generating plants, transformer vaults, and other buildings not classified in Groups I, II, III and IV, except one story but not limited to accessory buildings such as tool sheds, storage buildings having a floor area of less than eighty (80) square feet are exempt.	$.05 per sq. ft. Minimum Fee $20.00
	Residential Central Air Conditioning	$32.00

NOTE: The air conditioning fee is in addition to the calculated fee for the heating plant installation. The air conditioning fee is applicable to one and two family dwelling installations. The heating plant fee covers all heating units and distribution system installations.

When an application is submitted for a property where only the shell of the property is to be completed, the fee will be calculated at 50% of the total fee for that particular fee group. When an application is submitted for construction of the interior of a building where the shell of the building has been previously granted a permit, the fees shall be based on the square footage of that space as a percentage of the entire square footage of the subject building and that fee shall be calculated at 50% of the total fee for that particular fee group. (Sec. 30.01(11) Schedule I Am. by Ord. 11,796, Adopted 2-18-97; Ord. 12,566, 5-3-00; Ord. 13,743, 12-15-04; ORD-12-00008, 1-24-12)

SCHEDULE 2
REPLACEMENT HEATING PLANTS AND CONVERSION BURNERS

BTUH	Replacement
Up to 60,000	$21.00
60,001 - 165,000	27.00
165,001 - 300,000	30.00
300,001 - 500,000	62.00
500,001 - 3,000,000	85.00

Over 3,000,000 BTUH Loss - Additional fifteen dollars ($15.00) per 1,000,000 BTUH for new systems.

Note: Replacement is intended to mean that the heating unit is being replaced and there will be no work performed on the distribution system beyond the plenums or beyond the immediate connections to the boiler.

In no case shall the fee exceed those as calculated for new construction as listed in Schedule 1.

(Title Am. by Ord. 11,392, Adopted 11-7-95)

SCHEDULE 3
ADD-ON AIR CONDITIONING

$25.00 regardless of size

Note: This schedule is not intended to cover window units. The fee in this schedule is intended to cover add-on installations for one- and two-family dwellings.

(Am. by Ord. 11,392, Adopted 11-7-95)

SCHEDULE 4
HEATING, COOLING, INDUSTRIAL OR COMMERCIAL EXHAUST VENTILATION SYSTEMS

For any heating, cooling, industrial or commercial exhaust ventilation systems, the Fee Schedule will be based on the dollar value of the installation as listed.

$10.00 per $1,000 of estimated cost. $25.00 minimum fee.

Note: This schedule is intended to cover the repair or replacement of any heating work and any work not covered by other schedules. It also covers cooling systems which use the distribution system to satisfy required ventilation. The schedule is intended to cover all required exhaust systems installations.

(Schedule 4 Am. by Ord. 11,392, Adopted 11-7-95)

SCHEDULE 5
OIL TANKS

Oil Tanks - Each Tank $35.00

(Sched 6 Renumb to 5 and Am. by Ord. 11,392, Adopted 11-7-95)

SCHEDULE 6
MISCELLANEOUS FEES

Oil or Wood Burning Stoves (Free Standing) $16.00

If ductwork is added—add fee for ductwork as indicated in Schedule 4.

Chimney - installed with wood burning equipment $15.00

Chimney - installed separately $16.00

Solar equipment used in conjunction with primary distribution system (use Fee Schedule 4 based on ductwork installation cost).

Active Solar Collectors: $.12 per square foot of Collector Area. Minimum fee ... $50.00

(Sched 7 Renumb to 6 and Am. by 11,392, Adopted 11-7-95; ORD-12-00008, 1-24-12)

(Sec. 30.01(11) Renum. to (10) by Ord. 11,611, Adopted 5-21-96)

(11) Inspection.

(a) In any new building or addition, immediately upon completion of those portions of the installation which are thereafter to be concealed or covered, the heating contractor shall notify the Heating, Ventilating and Air Conditioning Inspector on forms furnished by the Building Inspection Division of the Department of Planning and Community and Economic Development that said portions of the installations are ready for inspection; and it shall be unlawful for any person, firm or corporation to lath over, plaster or cover up any heating work before such work has been inspected and a rough inspection card posted. The Heating, Ventilating and Air Conditioning Inspector shall have the right and authority to order the removal of all such lath, plaster, or other covering which may have been placed

over such work as has not been inspected. The Heating, Ventilating and Air Conditioning Inspector shall make inspections within two (2) working days after notice.

Final inspection on new installations is to be made upon completion of such work.

Inspection of repairs, replacement or conversion work is to be made upon completion of such work. The heating contractor shall notify the Heating, Ventilating and Air Conditioning Inspector as soon as the installation is complete and ready for inspection. A heating contractor who calls for an inspection and the work is not completed may be assessed twenty-five dollars ($25) per inspection. Pursuant to Section 29.09, Madison General Ordinances, it is unlawful to occupy a building or permit a building to be occupied until final inspections have been made and a Certificate of Occupancy has been issued.
(Am. by ORD-08-00109, 10-7-08)

(b) Failure or neglect to comply with the provisions of the Heating, Ventilating and Air Conditioning Code and of the permit issued under this code shall be considered a violation of this code.

(c) The Department of Planning and Community and Economic Development shall keep an accurate account of all unpaid inspection fees incurred for inspection services rendered. If the fees are not paid within the specified time, the Department shall fail to renew the contractor's license.

(Sec. 30.01(11) R., (12) Renum. to (11) and Am. by Ord. 11,783, 2-17-97)

(12) Signs on Vehicles. Every heating and air conditioning contractor vehicle in use for the sale or service of heating and air conditioning equipment in the City of Madison shall display a sign of 225 square inches. The company name letters shall be at least two inches high. Failure to comply will subject the company to penalties in Madison General Ordinances Section 30.01(15). All existing legible vehicle signs will be allowed to remain as of the effective date of this ordinance. (Sec. 30.01 (13) Renum. to (12) by Ord. 11,783, 2-17-97)

(13) Compliance Inspection Fees.

(a) Any person who shall fail or neglect to comply with any lawful order of the Director of the Building Inspection Division issued pursuant to the provisions of this chapter may be assessed seventy-five dollars ($75) per compliance inspection, as defined in Sec. 27.03(2), MGO, that does not result in compliance with the order. A thirty-five dollar ($35) charge may be assessed when an inspector fails to gain entry to carry out a compliance inspection. (Am. by ORD-11-00057, 4-7-11)

(b) The Department of Planning and Community and Economic Development shall keep an accurate account of all unpaid inspection fees incurred for compliance inspection services rendered and report the same to the Finance Director, who shall annually prepare a statement of these special charges at each lot or parcel of land and report the same to the City Clerk, and the amount therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0627. (Am. by ORD-11-00037, 3-8-11)

(Cr. by ORD-10-00058, 6-11-10)

(14) Penalty. Any person who shall violate any of the provisions of this chapter or who shall neglect or refuse to comply with a lawful order of the Director of the Building Inspection Division or her/his designee, issued pursuant to the provisions of this chapter, shall be fined not less than $10 nor more than $100 for each and every violation thereof. Each day of violation shall constitute a separate offense. These penalties are pursuant to Wis. Stat. § 101.02(13), for building code violations.

Madison General Ordinances violations bear the following penalties for violations in a twelve-month period: First offense, fifty dollars ($50) to three hundred dollars ($300);

second offense, three hundred dollars ($300) to six hundred dollars ($600); third offense, six hundred dollars ($600) to one thousand dollars ($1000). The offenses covered under this section are: Performing heating work without a license; performing heating work without a permit; failure to call for a heating inspection and failure to have a proper sign on vehicle. (Sec. 30.01 (14) Renum. to (13) by Ord. 11,783, 2-17-97; Ord. 13,760, 12-14-04; ORD-08-00109, 10-7-08; Renum. to (14) by ORD-10-00058, 6-11-10)

30.02 DEFINITIONS.

Active Solar Collector. An active solar collector is a device that transforms light energy from solar radiation into heat energy. (This definition does not include passive solar devices or installations.) (Cr. by Ord. 8348, 5-25-84)

Active Solar Thermal System. An active solar thermal system is an auxiliary heating system using solar collectors to augment the building's primary heat source for space or water heating. (This definition does not include passive solar greenhouses.) (Cr. by Ord. 8348, 5-25-84)

Air Conditioner, Unitary. A unitary air conditioner consists of one (1) or more factory-made assemblies which normally include an evaporator, or cooling coil, a compressor and condenser combination, and may include a heater function as well; where such equipment is provided in more than one (1) assembly, the separated assemblies are described to be used together.

Air Conditioning. The simultaneous control of the temperature, humidity, air motion, and air distribution within an enclosure, where human comfort and health are involved. A reasonable air purity with regard to dusts, bacteria, and odors is also included.

Air Infiltration. The leakage of air into a house through cracks and crevices and through doors, windows and other openings, caused by wind pressure and/or temperature difference.

Boiler. A closed vessel in which a liquid is heated or vaporized and built in conformance with the A.S.M.E. Boiler Construction Code.

Boiler, High Pressure. A boiler furnishing steam at pressure in excess of fifteen (15) pounds per square inch gauge.

Boiler Hot Water and Low Pressure Steam. A boiler furnishing hot water at pressure not more than thirty (30) pounds per square inch gauge or steam at pressures not more than fifteen (15) pounds per square inch gauge.

Building. Any structure built for the support, shelter or enclosure of persons, animals, chattels, or movable property of any kind, and which is permanently affixed to the land.

Central Heating Equipment. Equipment used to generate heat which is distributed by means of pipes or ducts to furnish heat to areas other than those in which the equipment is located.

Coefficient of Heat Transmission (Overall) -U-. The amount of heat transmitted from air to air in one (1) hour per square foot of the wall, floor, roof, or ceiling for a difference in temperature of one (1) degree Fahrenheit between the air on the inside and outside of the wall, floor, roof or ceiling.

Conduction (Thermal). The transmission of heat through and by means of matter.

Convection. The transmission of heat by circulation (either natural or forced) of a liquid or gas such as air. If natural, it is caused by the difference in weight of hotter and colder fluid.

Convector. A concealed radiator. An enclosed heating unit located (with enclosure) either within, adjacent to, or exterior to the room or space to be heated, but transferring heat to the room or space mainly by the process of convection. A shielded heating unit is also termed a convector. If the heating unit is located exterior to the room or space to be heated, the heat is transferred through one (1) or more ducts or pipes.

Conversion Oil Burner. A burner for field installation in heating appliances such as boilers, furnaces, etc. It may be furnished with or without a primary safety control. Under special circumstances it may be installed for firing ovens, water heaters, ranges, special furnaces, and the like. A burner of this type may be a pressure atomizing gun type, a horizontal or vertical rotary type or a mechanical or natural draft vaporizing type.

Converter. A piece of equipment for heating water with steam without mixing the two. It may be used for supplying hot water for domestic purposes or for a hot water heating system.

Draft Regulator. A device which functions to maintain a desired draft in the fired appliance by automatically reducing the chimney draft to the desired value.

Furnace Room. A room in which heat generating equipment is installed.

One-Pipe System (Hot Water). A hot water heating system in which one (1) pipe serves both as a supply main and also as a return main. The heating units have separate supply and return pipes but both are connected to the same main.

One-Pipe System (Steam). A steam heating system consisting of a main circuit in which the steam can condensate flow in the same pipe. There is but one connection to each heating unit which must serve as both the supply and the return.

Panel Heating Systems. A heating system in which heat is transmitted by both radiation and convection from panel surfaces to both air and surrounding surfaces.

Radiant Heating. A heating system in which the heating is by radiation only. Sometimes applied to panel heating system.

Radiation. The transmission of heat in a straight line through space.

Radiator. A heating unit located within the room to be heated and exposed to view. A radiator transfers heat by radiation to objects "it can see" and by conduction to the surrounding air which in turn is circulated by natural convection.

Register. A grille with a built-in damper or shutter.

Square Foot of Heating Surface. Equivalent direct radiation (EDR). By definition that amount of heating surface which will give off two hundred forty (240) BTU per hour when filled with a heating medium at two hundred fifteen (215) degrees Fahrenheit and surrounded by air at seventy (70) degrees Fahrenheit. The equivalent square foot of heating surface may have no direct relation to the actual surface area.

Steam Heating System. A heating system in which the heating units give up their heat to the room by condensating the steam to them by a boiler or other source.

Steam Trap. A device for allowing the passage of condensate and air but preventing the passage of steam. See Thermostatic Trap.

Thermostat. An instrument which responds to changes in temperature and which directly or indirectly controls the room temperature.

Thermostatic Trap. A steam trap which opens by a drop in temperature such as when cold condensate or air reaches it and closes it when steam reaches it. The temperature sensitive element is usually a sealed bellows or series of diaphragm chambers containing a small quantity of volatile liquid.

Two-Pipe System (Steam or Water). A heating system in which one (1) pipe is used for the supply main and another for the return main. The essential feature of a two-pipe hot water system is that each heating unit receives a direct supply of the heating medium which cannot have served a preceding heating unit.

Unit Heater. A direct-heating, factory-made, encased assembly including a heating element, fan and motor, and directional outlet.

Vacuum Heating System (Steam). A one (1) or two (2) pipe system equipped with the necessary accessory apparatus to permit the pressure in the system to go below atmospheric.

Vapor Heating System (Steam). A two-pipe heating system which operates under pressure at or near atmospheric and which returns the condensation to the boiler or receiver by gravity.

Ventilation. Air circulated through a room for ventilating purposes. It may be mechanically circulated with a blower system or it may be natural circulation through an open window, etc.

Vent Valve (Steam). A device for permitting air to be forced out of a heating unit or pipe and which closes against water and steam.

Vent Valve (Water). A device permitting air to be pushed out of a pipe of heating unit but which closes against water.

Wet Return (Steam). That part of a return main of a steam heating system which is completely filled with water of condensation.

30.03 GENERAL CONDITIONS.

(1) Space heaters shall not be installed in any living quarters unless the combustion air supply is taken from the outside directly to the unit. Space heaters which are presently installed without an outside combustion air supply directly to the unit must be removed by June 1, 1975, or shall be provided with an outside combustion air supply directly to the unit by the above specified time. The above subsection shall be enforced over the Wis. Admin. Code Sec. SPS 364.21. All other provisions of Wis. Admin. Code Sec. SPS 364.21 shall apply where applicable. (Am. by Ord. 9298, 10-29-87; ORD-12-00035, 3-28-12)

(2) For isolation of fire hazards, refer to the Madison General Ordinances, Sec. 29.20(15)(b). (R. & Recr. by Ord. 4891, 2-13-75)

(3) In addition to the requirements contained in the manuals and pamphlets listed in Appendix No. 1 which shall be classed as minimum standards of this code, the installation of all heating equipment and piping shall conform to the requirements set forth in the following sections of this code.

(4) Poor workmanship, design or methods of installation likewise shall be sufficient cause for the condemnation of the whole or any part of the system.

(5) Combustion Air.

(a) One and Two-Family Residences. The provisions herein apply to appliances installed in buildings and which require air for combustion, ventilation, and dilution of flue gases from within the building. They do not apply to (1) sealed combustion system appliances which are installed so that all air for combustion is obtained from the outside atmosphere and all flue gases are discharged to the outside atmosphere, or (2) enclosed furnaces which incorporate an integral total enclosure and use only outside air for combustion and dilution of flue gases.

Appliances shall be installed in a location in which the facilities for ventilation permit satisfactory combustion of gas, proper venting and the maintenance of ambient temperature at safe limits under normal conditions of use. Appliances shall be located so as not to interfere with proper circulation of air within the confined space. When buildings are so tight that normal infiltration does not provide the necessary air, outside air shall be introduced.

While all forms of building construction cannot be covered in detail, air for combustion, ventilation and dilution of flue gases for gas appliances vented by natural draft normally may be obtained by application of one of three methods listed below:

All air from inside buildings.

All air from outdoors.

Ventilation air from inside buildings - combustion and draft hood dilution air from outdoors.

1. Appliances Located in Unconfined Spaces. In unconfined spaces in buildings of conventional frame, masonry, or metal construction, infiltration normally is adequate to provide air for combustion, ventilation, and dilution of flue gases.

If the unconfined space is within a building of unusually tight construction, air for combustion, ventilation, and dilution of flue gases shall be obtained from outdoors or from spaces freely communicating with the outdoors. A permanent opening or openings having a total free area of not less than one (1) square inch per five thousand (5,000) BTU per hour of total input rating of all appliances shall be provided. Ducts may be used to convey make-up air from the outdoors and shall be of the same cross-section area as the free area of the openings to which they connect. The ducts may be connected to the cold air return of the heating system only if they connect directly to the outside air. The minimum dimension of rectangular air ducts shall be not less than three (3) inches.

2. Appliances Located In Confined Spaces.

a. All Air From Inside Buildings. The confined space shall be provided with two (2) permanent openings, one (1) commencing within twelve (12) inches of the top and one (1) commencing within twelve (12) inches of the bottom of the enclosure. Each opening shall have a minimum free area of one (1) square inch per one thousand (1,000) BTU per hour of the total input rating of all appliances in the enclosure. The openings must freely communicate with interior areas having in turn adequate infiltration from the outside.

b. All Air From Outdoors. The confined space shall be provided with two (2) permanent openings, one (1) commencing within twelve (12) inches of the top and one (1) commencing within twelve (12) inches of the bottom of the enclosure. The openings shall communicate directly, or by ducts, with outdoors or spaces (crawl or attic) that freely communicate with outdoors.

When directly communicating with the outdoors each opening shall have a minimum free area of one (1) square inch per four thousand (4,000) BTU per hour of total input rating of all appliances in the enclosure.

When communicating with the outdoors through vertical ducts each opening shall have a minimum free area of one (1) square inch per four thousand (4,000) BTU per hour of total input rating of all appliances in the enclosure.

When communicating with the outdoors through horizontal ducts, each opening shall have a minimum free area of one (1) square inch per two thousand (2,000) BTU per hour of total input rating of all appliances in the enclosure. When ducts are used, they shall be of the same cross-sectional area as the free area of the openings to which they connect. The minimum dimension of rectangular air ducts shall be not less than three (3) inches.

c. Ventilation Air From Inside Buildings - Combustion and Draft-hood Dilution Air From Outdoors. The confined space shall be provided with two 2) openings located and sized as in Section 30.03(5)(a)2.a. In addition, there shall be one (1) opening directly communicating with outdoors or spaces (crawl or attic) that freely communicate with outdoors. This opening shall have a minimum free area of one (1) square inch per five thousand (5,000) BTU per hour of total input of all appliances in the enclosure. Ducts may be used to convey make-up air and shall be of the same cross-section area as the free area of the openings to which they connect. The ducts may be connected to the cold air return of the heating system only if they connect directly to outside air. The minimum dimension of rectangular air ducts shall not be less than three (3) inches.

(b) (R. by Ord. 10,255, Adopted 5-7-91)

(6) Where kitchen and bathroom exhaust ventilation is provided, ductwork shall extend to the exterior of the building. The termination of the ductwork shall be into an approved weatherproof hood.

30.04 ELECTRIC SPACE HEATING. The construction, arrangement, installation, alteration, repair and servicing of equipment which directly converts electrical energy into heat energy shall be governed by the provisions set forth, when such equipment is installed as a heating system intended to heat any space, room, or building for the comfort, health, or welfare of the occupants.

(1) Requirement for Equipment.

(a) All heat generating and emission units, and all control devices shall be in accordance with the Standard for Safety of Electric Heating Appliances established by Underwriters' Laboratories, Incorporated, or any other nationally recognized inspection board or laboratory.

(b) The total rating (or adjusted rating) of heat emission devices in each room or space to be heated shall equal or exceed the calculated heat loss of such room or space.

(c) The total rating (or adjusted rating) of the heat emission devices shall equal or exceed the calculated aggregate heat loss of all rooms or spaces heated where used as living quarters. The output of each heat generating and emission unit shall be computed at the location where the electrical energy is converted to heat energy. The conversion of electrical energy to heat energy shall be considered at not greater than 3413 BTU kilowatt hour.

(d) All heat generating and emission units are to be considered as constant loads and the conductor shall be capable of carrying one hundred twenty-five percent (125%) of the rated current. Where the labeled voltage of a heat generating or emission unit is greater or less than five percent (5%) of the service voltage, an adjusted rating of the heat generating or emission unit shall be used in determining the output.

$$\text{Adjusted} = \frac{(\text{Service Voltage})^2}{(\text{Label Voltage})^2} \times \text{Nameplate Rating}$$

(2) Electrical Service Capacity.

When the primary or exclusive source of energy for space heating is electrical, and the energy is converted directly from electrical energy, the minimum installed electrical service for heating shall equal in kilovolt ampere capacity the total calculated heat loss of the living quarters of the building design conditions. This will require that service conductors and service equipment capacity be provided to supply the total equivalent kilovolt ampere necessary to effect the calculated heat loss, regardless of whether heating devices are installed in all rooms or spaces regarded as living quarters in the initial installation. The service capacity shall be designed to accommodate the heating load in addition to the normal connected load of the building.

Load Limitations of Circuits.

1. No single heating unit (except floor furnaces or forced air heaters) of more than five (5) kilowatts shall be installed in any one room of a building. Where the calculated heat loss of room exceeds the equivalent capacity of a five (5) kilowatt heating unit (except floor furnaces and forced air heaters) there shall be installed two (2) or more heating units per room.

2. All electric heating units of more than one thousand six hundred fifty (1,650) watts rated capacity shall be equipped with two hundred thirty-two (232) forty (40) volt single phase elements, except in areas where the nominal standard is two hundred eight (208) volts. Heating units served at one hundred twenty (120) volts shall not exceed one thousand six hundred fifty (1,650) watts each or an aggregate capacity of three thousand three hundred (3,300) watts.

3. Receptacles installed in electric heating units shall not be connected to the heating circuit.

(3) Nameplate Required (All Systems). The manufacturer's nameplate shall be attached to the heating unit in a location which is accessible when the unit is in the installed position. The nameplate shall indicate the manufacturer's name, and the rating in amperes or watts and the voltage of the unit.

(4) General Installation Requirements.

(a) All appliances shall be located in such a manner that continuous operation of the appliance will not raise the temperature of surrounding combustibles more than ninety (90) degrees above normal room temperature, when measured with mercury thermometers or conventional bead-type thermocouples.

(b) All stationary or fixed electric heaters shall be permanently connected.

(c) Every electrical heating device shall have a manual means for disconnecting all ungrounded conductors. A branch circuit switch pullout, or circuit breaker may be used as the disconnecting means if readily accessible to the user. Thermostats which are an integral part of the heater may not be used as the sole disconnect. One of the following disconnecting means shall be required in addition to such switch.

1. Single-family dwelling - the main switch may be used as the primary means of disconnect.
2. Two-family dwelling - same conditions apply as single-family residence.
3. Three (3) apartments or more - the circuit disconnect must be in the apartment or on the same floor.
4. Commercial or industrial - the branch circuit switch or breaker where readily accessible to the user or an approved thermostat is used as described below.
5. Thermostat used as disconnecting means - a thermostat or combination thermostat and switch will qualify as a disconnecting means provided it contains an identified "off" position, will not energize any conductors while in the "off" position, without being manually moved from said "off" position, and opens all ungrounded conductors simultaneously.

(d) Portable electric heaters shall not be used in lieu of central heating systems. A central heating system shall mean "Equipment used to generate heat which is distributed by means of pipes, ducts or any other permanently connected source of heat used to furnish heat to an area".

Exception: Portable electric heaters may be used during the time the central heating system is being repaired or replaced providing the portable electric heaters comply with Sec. 30.04(12) and the use of portable heaters will not exceed 72 hours excluding weekends and holidays.

(Cr. by Ord. 4830, 1-16-75)

(5) Thermostat Requirements. Each space to be heated shall be controlled by one (1) or more thermostats and must meet the requirements of Sec. 30.04(4)(c)5. Maximum load of each thermostat shall be five (5) kilowatts.

(6) Radiant Glass Heaters - Wall Type.

(a) Heaters shall be installed on exterior walls where practical. Radiant type heaters shall not be installed on partitions which will cause such heaters to face an exposed outside wall, unless such installation is approved by the Heating, Ventilating, and Air Conditioning Inspector.

(b) Radiant glass heaters shall not be installed in floors.

(c) Radiant glass heaters shall not be installed on ceilings unless approved for ceiling mounting, in which case they shall comply with the requirements of prefabricated panels, where mounted tightly against the ceiling.

(7) Convection, Resistance, and Fan-Forced Units.

(a) Baseboard, wall, and standard fan-forced units shall be installed on exterior walls where practical.

(b) Floor drop-in units shall be installed in close proximity to exterior walls.

(c) Reverse flow fan-forced units shall be installed on interior partitions.

(8) Electric Panel Heating Resistance - Cable Type.

(a) Resistance cable shall not be installed in walls.

(b) Cables may be installed in ceilings or poured masonry floors. Cables shall not be extended beyond the room in which they originate. Cables shall not be installed in closets, over cabinets, under walls or partitions, or over walls or partitions where embedded. This requirement shall not prohibit low temperature heat sources in closets to control relative humidity.

(c) Cables shall be separated at least eight (8) inches from lighting fixtures, outlet and junction boxes, and two (2) inches from ventilating openings and other such openings in room surfaces. Sufficient area shall be provided to assure that no heating cables will be covered by surface-mounted lighting units.

(d) Cables must not be plastered over until the Electrical Inspector has inspected the installation.

(9) Electric Panel - Prefabricated Conductive Materials.

(a) Prefabricated conductive panels shall not extend beyond the room in which they originate.

(b) Panels shall not be installed on walls unless approved by the Electrical Inspector.

(c) Panels shall be separated at least eight (8) inches from lighting fixtures, outlets, and junction boxes, and two (2) inches from ventilating openings and other such openings in room surfaces. Sufficient area shall be provided to assure that no heating panels will be covered by surface-mounted lighting areas.

(10) Electric Central Heating Systems. Central heating systems of the forced warm air, gravity warm air, steam or hot water type, shall be installed in accordance with the applicable sections of the Heating, Ventilating and Air Conditioning Code.

Resistance electric heating elements shall be controlled so that not more than five (5) kilowatts can be switched on simultaneously.

(11) Electric Floor Furnaces. Self-contained heating units in the form of electric floor furnaces shall be installed in accordance with applicable sections of the Heating, Ventilating and Air Conditioning Code.

Thermostatic control shall be provided within the heated space, except that no thermostatic control shall switch any combination of heating elements totaling more than five (5) kilowatts simultaneously.

(12) Electrical Heaters, Portable. All portable electric heaters shall be provided with a three (3) wire cord and grounding type cap. The entire unit shall be in accordance with the Standards for Safety of Electrical Heating Appliances established by Underwriters' Laboratories, Incorporated, in their Bulletin No. UL 499, dated June, 1962, a copy of which is on file for inspection in the office of the Electrical Inspector.

A thermostatic control shall be provided in each heated space, except that no individual thermostat shall switch any combination of heaters totaling more than five (5) kilowatts.

(13) Other Permanently Placed Electric Heaters. Nothing in the regulations contained in Chapter 30 of the General Ordinances of the City of Madison shall prohibit the installation of other types of permanently placed electrical heat generating and emission units not presently covered herein when such units are approved by the Electrical Inspector and installed in a manner approved by such inspector, provided they meet the general provisions of Chapter 30 of the Madison General Ordinances of the City of Madison. No individual thermostatic control shall switch any combination of heaters totaling more than five (5) kilowatts.

30.05 ACTIVE SOLAR COLLECTOR SYSTEMS.

(1) Orientation Guidelines.

(a) For solar systems used only for winter space heating, the collector tilt angle measured from the horizontal shall be 55° to 90°, and the azimuth angle measured from due south shall be 25° or less.

(b) For solar systems which are not utilized during the months of November, December, January, or February, the collector tilt angle measured from the horizontal shall be 14° to 45°, and the azimuth angle measured from due south shall be 35° or less.

(c) For solar systems used the entire year for space heating or water heating, the collector tilt angle measured from the horizontal shall be 45° to 60°, and the azimuth angle measured from due south shall be 30° or less.

(d) Any variations from the orientation guidelines above must be consented to and acknowledged by the owner in writing prior to installation of the solar system. (Am. by ORD-08-00122, 11-22-08)

(2) (R. by ORD-08-00122, 11-22-08)

(3) Collector Mounting. Every solar collection system shall be securely anchored to prevent damage to the collector(s) and structure to which they are attached. Fully engineered mounting and rack details showing collector attachment and support anchorages shall be approved by the Department before installation. The collectors shall be installed according to the manufacturer's instructions.

(4) Roof Support. Every solar collection system installed on a roof shall be analyzed to determine if the roof system is strong enough to support the collector system and any anticipated snow loads. Details showing roof structure reinforcements shall be approved by the Department before installation.

(5) Corrosion. All materials used in the manufacturing and installation of active solar systems shall be of corrosion-resistant material. All connections shall be made with compatible materials.

(6) Sensors. All sensors and controllers installed in active solar systems shall be located to provide for servicing, be installed according to the control manufacturer's instructions and be protected from damage. All sensor wiring shall be securely attached and protected from damage and moisture.

(7) Liquid Systems - Piping and Penetration.

(a) When three (3) or more collectors are installed in any one system, a reverse flow piping configuration shall be used unless an alternate flow configuration is recommended by the manufacturer.

(b) No permanent piping shall connect the solar system with potable water.

(c) All piping used in the solar loop supply and return and within ten (10) feet of the collector shall be made and assembled of materials that can withstand antifreeze solution at temperatures of up to 350°F. The remaining solar loop piping shall be made and assembled of materials that can withstand antifreeze solution of 200° F.

Note: CPVC Piping has performed poorly in certain installations.

(d) All solar loop building penetrations shall be made using weatherproof devices which will allow for expansion and contraction. All penetrations into the building shall be weatherproofed to prevent leaks, insects and drafts from entering the building.

(e) All of the components of a closed loop solar collector system shall be sized to provide adequate flow to the collectors.

(f) The solar loop shall incorporate a check valve downstream of the heat exchanger if collectors are mounted above the storage tank.

(g) Automatic air vents shall be disconnected from the solar loop by a ball valve.

(Sec. 30.05(7) Am. by ORD-08-00122, 11-22-08)

(8) Air Systems: Ducting and Penetration.

(a) All ducts used in the solar loop shall be made and assembled of materials that will not distort or deteriorate from temperature, pressure, or exposure.

(b) All solar loop duct building penetrations shall be made using weatherproof devices which will allow for expansion and contraction. All penetrations into the building shall be weatherproofed to prevent leaks, insects and drafts from entering the building.

(c) All of the components of a solar collector duct system shall be sized to provide adequate airflow to the collectors.

(d) The solar loop ductwork from the mechanical equipment (i.e. risers to the collector(s), and manifold(s) if used) shall be leak tested with a calibrated blower and the recorded leakage at one-inch water column shall not exceed ten percent (10%) of the system design airflow rate.

Note: The City will accept silicone caulk, Hard Cast or equivalent as sealants for metal ducts and Sheet Metal and Air Conditioning Contractor's National Association (SMACNA) approved aluminum tape or approved equivalent as sealants for fiberglass ducts. All ducts in unconditioned spaces shall be sealed with one of the above. Duct tape is not approved for solar application.

(e) All ductwork shall be fabricated and installed to meet SMACNA standards.

(f) Back-draft dampers or motorized dampers shall be installed so as to prevent air passage through the collectors except when solar energy is being collected.

(g) The system shall be designed and installed to prevent cold airflow across the water heating coil. If mechanical dampers are used to meet this requirement, they shall meet a leakage test not to exceed five percent (5%) of the system design air flow rate at one-inch water column.

(h) All systems shall incorporate a secondary freeze protection system in case of mechanical failure. An electrical freeze sensor which activates the pump to circulate fluid through the domestic coil will meet this requirement.

(i) Systems incorporating domestic heating shall be equipped with a summer bypass to the solar storage during the non-heating season.

(j) All air systems used for space heating shall incorporate the use of a high efficiency air filter installed in the cold air riser duct to the collectors. The air filter shall have a minimum average efficiency of thirty percent (30%) as rated by the filter manufacturer.

(9) Liquid Systems - Pipe Insulation.

(a) All pipe insulation in the solar collection system shall be at least R-5 in insulating value.

(b) Exterior pipe insulation shall resist ultraviolet and environmental degradation and shall be covered by material providing weather resistance, UV protection and mechanical abuse protection. Exterior insulation joints, seams and connections shall be sealed to prevent entry of moisture. Fiberglass and elastomer insulation shall not be used for exterior solar application.

(c) Solar supply loop shall be insulated with three hundred degree (300°F) rated insulation approved for solar applications.

Note: One-inch thickness of urethane and phenolic foam, with appropriate cover will meet the requirements of Subsection (b) above.

(Sec. 30.05(9) Am. by ORD-08-00122, 11-22-08)

(10) Air Systems - Duct Insulation and Piping.

(a) Ductwork located in unheated spaces shall be insulated to a minimum value of R-7.

(b) Ductwork located in heated spaces shall be insulated to a minimum value of R-3.

Note: It is recommended that all duct chases be insulated to a minimum insulating value of R-11. Some acceptable materials for insulation include: fiberglass duct wrap, fiberglass duct liner, fiberglass duct board.

(c) A vapor barrier, if installed, shall not be located on the cold side of the ductwork.

(d) All domestic water piping used in conjunction with a solar air system shall meet the piping requirements for liquid systems.
Exception: The cold-water inlet to the storage tank need not be insulated beyond two (2) feet from the storage tank.

(11) Heat Transfer Fluids.

(a) Every solar collection system using fluids for heat transfer shall have a label attached to the storage/transfer tank indicating what fluid is contained in the collection system, its freezing point, Ph and installation date.

(b) The fluid contained in a non-drain down system shall be able to withstand temperatures of at least -30°F before freezing.

(c) Instructions shall be attached to the system indicating the fluid manufacturer's recommendations for proper checking and maintenance procedure.

(d) Only fluids recommended by the manufacturer for use in solar systems shall be used in solar systems. Ethylene glycol shall not be used for solar systems due to its toxicity.

(e) The heat transfer fluid used in the collectors shall be isolated from the potable water supply through the use of an approved double wall heat exchanger.

(12) Valves, Vents and Dampers.

(a) Adequately sized pressure relief valves shall be located on all storage tanks within the system. The pressure relief valve shall be piped to discharge fluids within ten (10) inches of the floor.

(b) All closed loop solar collector systems filled with antifreeze fluids shall be provided with a bleed valve installed at the highest point in the piping system.

(c) All closed loop solar collection systems shall be provided with a pressure relief valve in the solar loop piping. The relief valve shall be piped to a safe location to avoid personal injury or damage to the building.

(d) All closed loop solar collector systems filled with antifreeze fluid shall be pumped from the bottom of the collector array to the top of the collector array during normal operation. A check valve shall be provided in the system to prevent flow in the opposite direction.

(e) Controls, dampers and valves shall be marked to identify their function.

(13) Storage Tanks - Liquid Systems.

(a) Storage tanks shall be located in heated (+50°F) areas whenever possible.

(b) Storage tanks located in unheated areas (+49°F or less) shall be insulated to an overall value of R-20 or greater. The insulation shall be permanently fastened in place.

(c) Storage tanks installed in heated spaces shall be insulated to an overall value of R-11 or greater. The insulation shall be permanently fastened in place.

(d) Heat traps shall be included on all supply and discharge lines for the storage tank. (Cr. by ORD-08-00122, 11-22-08)

(e) Storage tanks shall be located to provide for proper servicing.

(f) All storage tanks shall be designed and installed to withstand all anticipated loads and environmental conditions.

(g) All air vented tanks shall be covered.

(Sec. 30.05(13)(d)-(f) Renum. to (e)-(g) by ORD-08-00122, 11-22-08)

(h) Storage tanks shall have a tempering valve adjustable to 120°F downstream from the regular water heater and heat trap. (Cr. by ORD-08-00122, 11-22-08)

(14) Storage - Air Systems.

(a) Storage systems shall be located in heated (+50°F) areas whenever possible.

(b) Storage systems located in unheated areas (+49°F or less) shall be insulated to an overall value of R-38 or greater. The insulation shall be permanently fastened in place.

(c) Storage systems installed in heated spaces shall be insulated to an overall value of R-11 or greater. The insulation shall be permanently fastened in place.

(d) All storage systems shall be designed and installed to withstand all anticipated loads and environmental conditions.

(e) If rock is utilized for thermal storage, it shall be washed before it is placed into the storage area.

(f) If phase change storage materials are utilized in an air storage system, the storage materials shall be placed in sealed containers.

(g) When a rock storage system is utilized, an inlet plenum and an outlet plenum shall be provided.

(15) Monitoring and Manuals.

(a) Every active liquid solar system shall have a thermometer installed on the storage tank, to measure the temperature of the fluid in the storage tank. A single tank system would not be considered as having a storage tank.

(b) A pressure gauge shall be installed in the solar loop. (Cr. by ORD-08-00122, 11-22-08)

(c) The solar loop supply and return and the discharge line of the tempering valve shall have thermometers. (Cr. by ORD-08-00122, 11-22-08)

(d) Arrows shall be placed on the piping/ducting of the solar collector loop to indicate the direction of the fluid/air flow. (Renum. by ORD-08-00122, 11-22-08)

(e) Suppliers and installers of solar systems shall supply manuals to the owner explaining the operation and maintenance of the installed solar equipment. The manufacturer's name and model number of all major components shall be furnished to the owner. (Renum. by ORD-08-00122, 11-22-08)

(16) Site Built and Non-Standard Systems. The intent of this code is not to inhibit or discourage site built and non-standard systems but to insure that they are adequately designed and installed. Site built collectors shall conform to the provisions of this code, except 30.01(10)(c)7.b.

(Sec. 30.05 Cr. by Ord. 8348, 5-25-84; Sec. 30.05(5) Rep., Secs. 30.05(6) through (17) Renum. (5) through (16) by ORD-08-00122, 11-22-08)

30.06 WARM AIR.

(1) Selection of Furnace or Rooftop Unit Size. The furnace or rooftop unit shall be selected to satisfy the maximum hourly BTU requirement of the building and shall have a register delivery rating determined by a recognized authority. If the manufacturer's rating is given as a rating at the bonnet, the rating at the register shall be determined by the following method:

To obtain the register rating on a gravity furnace, the BTU rating at the bonnet shall be reduced by twenty-five percent (25%); on forced warm air furnaces, bonnet rating shall be reduced by fifteen percent (15%).

(2) Selection of Blower Capacity. The blower shall be selected to furnish the required CFM air delivery against the total static pressure of the system, equal to or greater than the sum or the CFM requirements of all spaces to be heated.

(3) Selection of Ducts, Registers, Intakes.

(a) Gravity system less than one hundred fifty thousand (150,000) BTU per hour. The system of branches, risers, fittings, registers, intakes and trunk ducts to be installed shall meet the minimum requirements resulting from the use of Manual No. 5, of the N.W.A.H.A.C. Association, as listed in Appendix No. 1.

(b) Forced warm air system not in excess of one hundred twenty thousand (120,000) BTU per hour. The system of branches, risers, fittings, registers, intakes and trunk ducts to be installed shall meet the minimum requirements resulting from use of Manual No. 7, of N.W.A.H.A.C. Association, as listed in Appendix No. 1.

(c) Forced warm air system in excess of one hundred twenty thousand (120,000) BTU per hour. The system of branches, risers, fittings, registers, intakes and trunk ducts to be installed shall meet the minimum requirements resulting from the use of Tables of Manual No. 9, N.W.A.H.A.C. Association as listed in Appendix No. 1.

(d) Individual return air intakes in new residential construction shall be installed from each room excepting bathrooms, kitchens and utility rooms. This shall include all heated recreation and playrooms. In kitchens with a dining area, return air intake shall be installed. However, in the case of one (1) story dwellings with either a crawl space or a full basement, and where baseboard warm air heating is used, direct return airs may be eliminated from the bedrooms providing:

1. Air is transferred at the floor level to a return air grille located in the connecting hall or corridor.
2. The free area of the said return air grilles shall be sized to equal one hundred percent (100%) of the required area of the supply ducts.
3. The said grille to be located at the floor level with a velocity not to exceed five hundred ninety-nine (599) feet per minute.
4. Air shall not be transferred from one habitable room through another habitable room.

(e) Selection of the return air ducts size shall be sized for at least one hundred percent (100%) of the area of the supply duct system. Where return air is taken from more than one (1) story and where high sidewall returns are used, at least fifty percent (50%) of those located on the lowest story must be located at the floor level.

(4) Furnace Location and Mounting.

(a) Accessibility. Furnaces shall be so located that all parts which require periodical service or replacement are easily accessible with a minimum clearance of twenty-four (24) inches, except for a closet installation, a door or access panel which will open the full size of equipment may be used.

(b) Pipeless Furnaces.

Placement. Locate so that no door, drapery, or similar object can be nearer than twelve (12) inches to any portion of the floor, furnace or register.

(c) Floor Furnaces.

1. Placement. Locate so that no door, drapery, or similar object can be nearer than twelve (12) inches to any portion of the floor, furnace or register.
2. Bracing. The floor around the furnace shall be braced and headed with a framework of material not lighter than the joists. The inside dimensions of the framework shall be approximately one-half (½) inch longer and one-half (½) inch wider than the furnace to be installed.
3. Support. Means shall be provided to support the furnace when the floor grille is removed.
4. Clearance. The bottom of the floor furnace shall have at least a six (6) inch clearance from the ground, obtained, when necessary, by excavating the ground below and to the sides to form a "basin-like" pit under the furnace so that there is a six (6) inch clearance beneath the furnace and a twelve (12) inch clearance on all sides, except the control side, which shall have an eighteen (18) inch clearance.
5. Seepage Pan. Whenever the excavation exceeds twelve (12) inches and water seepage is apparent under the house, a water-tight copper pan, concrete pit, or other suitable material shall be used. If of copper, it shall be made of not less than sixteen (16) ounces sheet copper. The pan shall extend at least four (4) inches above the ground level, with a twelve (1) inch clearance from the furnace on all sides, except the control side, which shall have an eighteen (18) inch clearance.

6. Access. Adequate provision shall be made for easy access to the furnace under the house by means of an opening in the foundation wall or through a trap door of at least thirty by thirty (30 x 30) inches, located at some convenient point in the house, and a clear, unobstructed passageway to the furnace at least thirty by thirty (30 x 30) inches.

7. Appliance Alterations. All gas floor furnaces, including those having single or dual wall register outlets, shall be installed without alterations, extensions, or changes of any kind in the furnace.

8. Upper Floor Installations. Gas floor furnaces may be installed in an upper floor provided the furnace assembly projects below into a utility room, closet, garage, or similar nonhabitable space. In such installations, the furnace shall be enclosed completely, with provisions for service, with furnace clearances of six (6) inches on all sides and bottom, and with the enclosure constructed of Portland cement plaster on metal lath or material of equal fire resistance. Sufficient air for combustion must be supplied.

(d) Recessed Heaters.

1. Installation. Recessed heaters shall be installed in accordance with Sections 30.18, 30.19, 30.20 and 30.21 of the Madison General Ordinances.

2. Location. Recessed heaters shall be located so as not to cause a hazard to walls, floors, curtains, furniture, doors, etc. Recessed heaters installed between bathroom and adjoining rooms shall not circulate air from bathroom to other parts of the building.

(e) Mounting Furnaces.

1. For Incombustible Floor. Furnaces shall be mounted on a firm, level base of brick, cement or other incombustible material; tightly sealed at the bottom of the casing, or suspended or supported in a rigid manner. Said base shall be directly on the ground or adequately supported.

2. High Boy, Forced Air Furnace on Combustible Floor. Automatically fired, forced warm air furnaces may be mounted on a combustible floor provided they are so arranged that the fan and fan chamber occupies the entire area beneath the firing chamber and forms a well ventilated air space between the firing chamber and the floor.

3. Furnaces With Legs on Combustible Floor. Warm air furnaces and heaters which have four (4) inches or more of open space under the base of the appliance may be mounted on combustible floors, provided the appliance is such that flame or hot gases do not come in contact with its base, and further provided, the floor under the appliance is protected with not less than one-fourth (¼) inch of asbestos mill board or equally covered with sheet metal of not less than No. 24 U.S. gauge. The above specified floor protection shall extend not less than the clearances specified in Section 30.06(4)(f) 2, 3, and 4 of the Madison General Ordinances.

4. Downflow Furnace on Combustible Floor. A downflow furnace installed in a combustible floor must be set over a plenum of proper size, and both the furnace and the plenum must be supported by a base of one (1) inch thick asbestos mill board, building tile or cinder block. The plenum must be suspended from the top of the noncombustible base, and a clearance of at least one (1) inch must be provided between the outer sides of the plenum and the wood framing around the opening in the floor. This one (1) inch space must be filled with noncombustible insulation.

When oil-fired equipment is to be installed, the floor protection must extend beyond the burner and must be covered with a drip pan at least one (1) inch deep to prevent oil saturation of the combustible floor.

On all downflow furnaces there shall be installed an additional high limit control to close down the burner if there should be blower failure.

(f) Installation Clearances.

1. Furnace Clearances, by Temperature. Locate furnace so as to maintain a clearance sufficient to prevent surface temperatures of adjacent combustible materials, not to exceed one hundred seventy-five (175) degrees Fahrenheit.

2. Furnace Clearance, by Inches. No Protection. Except as otherwise provided, warm air furnaces and heat exchangers shall be installed to provide a clearance to woodwork or other combustible material, whether plastered or unplastered, not less than as shown in Table 1.

Note 1. Front clearance shall be sufficient for servicing the burner and furnace.

Note 2. Listed limit control that cannot be set higher than two hundred fifty (250) degrees Fahrenheit installed not more than ten (10) inches above the top surface of heat exchanger in a supply plenum that extends at least twelve (12) inches above the top surface of the heat exchanger.

Note 3. Barometric draft control operated by draft intensity and permanently set to limit the draft to a maximum intensity of thirteen-hundredths (0.13) inches of water gauge.

Note 4. Clearance above supply ducts within three (3) feet of the plenum shall be not less than one (1) inch. See Section 30.06(4)(f)5. of the Madison General Ordinances.

Note 5. Clearance above supply ducts within six (6) feet of the plenum shall be not less than that specified above the bonnet or plenum. See Section 30.06(4)(f)5. of the Madison General Ordinances.

Note 6. Clearance above horizontal supply ducts within three (3) feet of the plenum shall be not less than eighteen (18) inches, and beyond six (6) feet, not less than one (1) inch.

3. Furnaces in Closets, etc. Furnaces shall not be installed in a confined space such as an alcove or closet unless specifically approved for such installation and then only when installed in compliance with the approval and with the clearance from the walls and ceiling of the alcove or closet, not less than specified regardless of the type of construction.

TABLE NO. 1

		Minimum Clearance, Inches Above and Sides of Bonnet or Plenum	Jacket Sides and Rear	Front Note 1
I.	Listed or unlisted automatically fired, forced air or gravity system, equipped with 250 degrees Fahrenheit temperature limit control installed in accordance with Note 2.			24
	Burning Liquid Fuel (See Note 4)	1	6	24
	Burning Gas Fuel (See Note 4)	1	6	18
	Utilizing Electricity (See Note 4)	1	6	18

		Minimum Clearance, Inches Above and Sides of Bonnet or Plenum	Jacket Sides and Rear	Front Note 1
II.	Listed automatically fired, forced air or gravity system, equipped with limit control not conforming to Note 2, but that will limit outlet air temperature to 250 degrees Fahrenheit (See Note 5).			
	Burning Liquid Fuel	2	6	24
	Burning Gas Fuel	2	6	18
	Utilizing Electricity	2	6	18
III.	Steam or Hot Water Heat Exchanger. Steam not over 15 pounds gauge pressure and hot water not more than 250 degrees Fahrenheit.	1	1	1
IV.	Automatically stoker fired, forced air system equipped with 250 degrees Fahrenheit temperature limit control installed in accordance with Note 2 and barometric draft control (See Notes 3 and 5).			
	Burning Solid Fuel	6	6	48
V.	Furnaces other than above (See Note 6)			
	Burning Liquid Fuel	18	18	48
	Burning Gas Fuel	18	18	18
	Burning Solid Fuel	18	18	48

TABLE NO. 2
REDUCTION OF CLEARANCES WITH SPECIFIED FORMS OF PROTECTION

Type of protection applied to & covering all surfaces of combustible material w/in distance specified as required clearance w/no protection (See Figs. 7, 8, 9)	Where required clearance w/no protection from appliance, vent connector, or single wall metal pipe is:									
	36"		18"		12"		9"		6"	
	Allowable Clearances w/Specified Protection, inches									
	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear
a) 3½" thick masonry wall w/out ventilated air space	—	24	—	12	—	9	—	6	—	5
b) ½" insulation board over 1" glass fiber or mineral wool batts	24	18	12	9	9	6	6	5	4	3

Type of protection applied to & covering all surfaces of combustible material w/in distance specified as required clearance w/no protection (See Figs. 7, 8, 9)	Where required clearance w/no protection from appliance, vent connector, or single wall metal pipe is:									
	36"		18"		12"		9"		6"	
	Allowable Clearances w/Specified Protection, inches									
	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear
c) 0.024 (24 gauge) sheet metal over 1" glass fiber or mineral wool batts reinforced w/wire on rear face w/ventilated air space	18	12	9	6	6	4	5	3	3	3
d) 3½" thick masonry wall w/ventilated air space	—	12	—	6	—	6	—	6	—	6
e) 0.024 (24 gauge) sheet metal w/ventilated air space	18	12	9	6	6	4	5	3	3	2
f) ½" thick insulation board w/ventilated air space	18	12	9	6	6	4	5	3	3	3
g) 0.024 (24 gauge) sheet metal w/ventilated air space over 0.024 (24 gauge) sheet metal w/ventilated air space	18	12	9	6	6	4	5	3	3	3
h) 1" glass fiber or mineral wool batts sandwiched between two sheets 0.024 (24 gauge) sheet metal w/ventilated air space	18	12	9	6	6	4	5	3	3	3

NOTES APPLICABLE TO TABLE 2

1. Reduction of clearances from combustible materials shall not interfere with combustion air, draft hood clearance and relief, and accessibility of servicing.
2. All clearances shall be measured from the outer surface of the combustible material to the nearest point on the surface of the appliance, disregarding any intervening protection applied to the combustible material.
3. Spacers and ties shall be of noncombustible material. No spacer or tie shall be used directly opposite appliance or connector.
4. With all clearance reduction systems using a ventilated air space, adequate provision for air circulation shall be provided as described. (See Figures 7 and 8.)

5. There shall be at least 1 inch between clearance reduction system and combustible walls and ceilings for reduction systems using ventilated air space.
6. If a wall protector is mounted on a single flat wall away from corners, adequate air circulation may be provided by leaving only the bottom and top edges or only the side and top edges open with at least 1 inch air gap.
7. Mineral wool batts (blanket or board) shall have a minimum density of 8 lb/ft^3 and a minimum melting point of 1500/F.
8. Insulation material used as part of clearance reduction system shall have a thermal conductivity of 1.0 (Btu-in)/(sq ft-hr-F) or less.
9. There shall be at least 1 inch between the appliance and the protector. In no case shall the clearance between the appliance and the combustible surface be reduced below that allowed in the table.
10. All clearances and thicknesses are minimum; larger clearances and thicknesses are acceptable.

(Sec. 30.06(4)(f)3. Table 2 R. & Re-Cr. by Ord. 10,255, Adopted 5-7-91)

4. Furnace Clearances - By Inches - With Protection. Warm air furnaces may be installed with clearances to woodwork or other combustible material, as shown in Table 2, where the combustible material or the appliance is protected as described in Table 2.

5. Duct Clearances. All parts of the supply system exposed to radiated heat from a furnace or surface, the temperature of which may be higher than two hundred fifty (250) degrees Fahrenheit, shall be constructed, insulated, shielded, or otherwise arranged, so that the temperature of the combustible construction adjacent to the supply system is not raised above one hundred seventy-five (175) degrees Fahrenheit.

Horizontal Supply Duct Clearances. Within a distance of three (3) feet of the plenum of systems classified under Items I and III of Table 1, the clearance shall be not less than one (1) inch. Beyond three (3) feet, no clearance is required.

Within a distance of six (6) feet of the plenum of a system classified under Items II, IV, and V of Table 1, the clearances shall be not less than specified above the bonnet of plenum. Beyond six (6) feet, no clearance is required.

From ducts of furnaces classified under Item IV of Table 1, the clearance shall be not less than six (6) inches out to six (6) feet and one (1) inch beyond six (6) feet to a point where there is a change of direction equivalent to ninety (90) degrees or more.

Where a horizontal supply duct passes through or pierces a partition or enclosure constructed of combustible material, the clearance shall be not less than specified in this section.

The ends of the space providing this clearance may be closed with a thimble and collar or the wall surfaces extended to the duct with incombustible building material such as plaster on metal lath.

Vertical Supply Ducts, Risers, Boots and Register Box Clearance. Where a duct, riser, boot or box in a system that does not require an eighteen (18) inch clearance above the supply plenum or bonnet enters a floor, partition or enclosure constructed of combustible material within the distance from the plenum specified in this section, the clearance from such duct, riser or boot shall be not less than the distance required above the furnace bonnet of plenum (See Table 1) or the duct shall change

direction equivalent to at least ninety (90) degree turns before entering such floor, partition or enclosure. The above does not apply to pipeless furnaces covered hereinafter in this section.

Where a supply duct enters the floor of the first story above that in which the furnace is located, the space around the duct at such points shall be sealed with asbestos cement or other incombustible material.

Pipeless Furnace Registers. Where registers are installed in the floor over the furnace (as in the "pipeless" furnace) the register box shall be constructed double with an air space not less than four (4) inches between except where the warm air passage is surrounded by a cold air passage.

Where warm air ducts are exposed in closets, they shall be covered with not less than one-fourth (¼) inch air seal asbestos or its equivalent in approved fire-resistive insulating covering, properly protected against injury.

30.07 GAS-FIRED UNIT HEATERS.

(1) Support. Suspended type gas-fired heaters shall be safely and adequately supported with due consideration given to their weight and vibration characteristics.

(2) Clearances. Listed gas-fired heaters shall be installed with minimum clearances of six (6) inches between the appliance, projecting flue box or draft hood and combustible construction. The control side of a unit heater shall be spaced not less than eighteen (18) inches from any wall or partition.

Unlisted unit heaters shall be installed with clearances to combustible construction of not less than eighteen (18) inches, or in accordance with Section 30.06(4)(f)2. of the Madison General Ordinances. Combustible floors under unlisted floor mounted heaters shall be protected in an approved manner.

(3) Negative Pressure. The location of any unit heater or the ductwork attached thereto, shall be such that a negative pressure will not be created in the room in which the unit heater is located.

(4) Ductwork. A unit heater shall not be attached to a warm air duct system unless listed for such installation.

30.08 SETTING AND ASSEMBLING OF FURNACES.

(1) Assembly. Warm air furnaces shall be located on a solid foundation or support and in a workmanlike manner. All sections and joints shall be properly fitted and sealed gas tight.

(2) Casings. Warm air furnaces shall be enclosed in metal casings or equivalent noncombustible material.

Sheet metal casings, including plenums or bonnets shall be made of metal sheets not lighter than No. 26 U.S. Standard Gauge, or equal. They shall fit the casings and casing rings closely, so as to be dust tight and shall be securely fastened to the front. The casing shall be lined from the top of the casing down to a line on a level with the grate.

When side collars are used, the casing top or bonnet must be of sufficient height so that the largest warm air pipe can be taken from side without ovalling. In no case shall a distance less than eight (8) inches be maintained between the top of the furnace and the top of the bonnet or plenum.

30.09 WARM AIR SUPPLY DUCTS.

(1) Materials. All gravity and forced warm air ducts shall be constructed entirely of noncombustible material equivalent in structural strength and durability to the following:

(a) Metal Gauges; Ducts Not Enclosed in Partitions.

ROUND DUCTS

Diameter Inches	Minimum Wt. of Tin	Minimum Thickness Galv. Iron U.S. Gauge	Minimum Thickness Aluminum B & S Gauge
Less than 12 or more	121C (107 lb.)	30	26
	1X (135 lb.)	28	26

RECTANGULAR DUCTS

Width Inches	Minimum Thickness Galv. Iron U.S. Gauge	Minimum Thickness Aluminum B & S Gauge
Less than 14	28	26
14 or more	26	24

(b) Metal Gauges: Ducts Enclosed in Partitions.

Width	Minimum Weight of Tin	Minimum Thickness Galv. Iron U.S. Gauge	Minimum Thickness Aluminum B & S Gauge
14 or less	1C (107 lb.)	30	26
Over 14	1X (135 lb.)	28	26

(2) Supply Ducts in Concrete Slab. All supply ducts shall be completely encased in not less than two (2) inches of concrete. Where the slab is less than two (2) feet below grade, edge insulation consisting of at least one (1) inch thickness of waterproof insulation shall be installed to a depth of at least two (2) feet. Insulation shall be placed in back of all boots.

(3) Vibration Isolation. Vibration isolation connectors in duct systems shall be made of woven asbestos or approved flameproofed fabric or shall consist of sleeve joints with packing of rope asbestos or other approved incombustible material. Vibration isolation connectors of fabric shall not exceed ten (10) inches in length.

(4) Cross Braking. All gravity or forced warm air ducts, eighteen (18) inches or wider, and forty-eight (48) inches or over in length, shall be cross braked on top and bottom and shall have standing seams or angle iron braces.

(5) Ducts Through Masonry. No warm air duct, round or rectangular, shall come in tight contact with cold masonry walls.

(6) Duct Linings. Linings used inside of ducts shall be fire-resistive.

Note: The use of flameproof fabric of metal or mineral and listed in Building Materials List published by Underwriters' Laboratories, Inc. is acceptable.

(7) Joints and Seams. Joints and seams of all ducts shall be securely fastened and made substantially air tight. Slip joints shall have a lap of at least one (1) inch, and be individually fastened. Tape used for sealing joints shall be no more combustible than approved flameproof fabric. All joints shall be s and drive cleat or snap lock.

(8) Duct and Riser Supports. All ducts and risers shall be securely supported by metal hangers, straps, lugs or brackets. No nails shall be driven through the duct or riser walls and no unnecessary holes shall be cut therein.

(9) Riser Installation. All risers shall be tightly fitted and supported in a proper manner so as not to obstruct the flow of air, but to retain the full capacity throughout. Warm air baseboard risers shall extend through the finished floor at least three-eighths (3/8) inch and shall be securely fastened into baseboard section.

(10) Removal of Firestopping for Ducts. Where the installation of ducts in walls, floor or partitions require the removal of any fire-stopping, the spaces around the duct at such points where fire-stopping was removed shall be tightly filled or sealed with incombustible materials.

(11) Insulation of Warm Air Ducts for Gravity and Forced Air. Ducts located in cold attic spaces, garages with rooms above or adjacent to it, or other equivalent cold spaces, shall be insulated with at least one (1) inch thickness of insulation, and an inspection shall be made of the insulation before the work is concealed.

(12) Insulation of Warm Air Ducts for Gravity and Forced Air. Ducts located in cold spaces, garages with rooms above or adjacent to it, or other equivalent cold spaces, shall be insulated with at least one (1) inch thickness of insulation and an inspection shall be made of the insulation before the work is concealed.

(13) Volume Dampers - Forced Air Systems. Volume dampers of locking type shall be placed in each forced warm air run. Where warm air runs are concealed, the dampers will not be required but volume control dampers will be required in each branch duct and a damper shall be installed in each register or baseboard section. Outside air intake ducts shall be equipped with volume dampers.

30.10 RETURN AIR DUCT CONSTRUCTION.

(1) Materials, Return Air Ducts. All return air ducts, except as required by Section 30.10(8) may be constructed of metal or one (1) inch (nominal) wood boards, or other suitable material, provided that no material more flammable than one (1) inch wood boards shall be used.

(2) Return Air Ducts Within Two (2) Feet of Furnace. Portions of return air ducts within two (2) feet horizontal distance of the outer jacket shall be constructed of incombustible material.

(3) (a) Return Air Ducts in Floors, Walls, Partitions. Where return air ducts are installed in walls, floors or partitions, their installation shall comply with the provisions of Section 30.10(8) regarding firestopping.

(b) Insulation of Return Air Ducts Located in or Adjacent to Cold Spaces. Where return air ducts are located in or adjacent to cold spaces, they shall be insulated with at least one (1) inch thickness of insulation and an inspection shall be made of the insulation before the work is concealed.

(Sec. 30.10(3) Am. by Ord. 6278, 6-15-78)

(4) Joist Spaces Used as Return Air Ducts. Where spaces between joists in floors are used as ducts, the portions of such spaces so used shall be cut off from all remaining unused portions by tight fitting stops of sheet metal or of wood not less than a two (2) inch thickness.

(5) Combustible Return Air Duct Space Linings. The interior of combustible ducts shall be lined with incombustible material at points where there might be danger from incandescent particles dropped through the register or heater, such as directly under floor registers and the bottom of vertical ducts or directly under a heater having a bottom return.

(6) One Grille to Each Stack. No vertical stud space shall have openings to receive return air from more than one (1) level, except where high sidewall returns for air conditioning are required, then a low sidewall or baseboard return air grille with a damper shall be installed.

(7) Underfloor Return Air Plenums. Return air shall be conducted to the heater through continuous ducts, except that underfloor spaces may be used as ducts for return of air from rooms directly above, provided such spaces are not over two (2) feet in height to bottom of floor joists and are cleaned of all combustible material and are tightly and substantially enclosed.

(8) Bridging and Panning in Return Air Joist Spaces. Whenever the space between joists is used to convey return air overhead, all bridging shall be removed and a dustproof bottom shall be constructed. If more area is required, two (2) or more spaces may be used or a pan may be constructed to extend below the joist to obtain the required area.

(9) Gravity Return Air Grille Height Above Floor. Where a vertical gravity return air face is used, the open work or face must extend to within at least one (1) inch of the floor line and not more than fourteen (14) inches high.

30.11 AIR FILTERS.

(1) Requirements. All forced warm air heating systems installed in residences shall have air filters.

(2) Fire Resistance. Air filters shall be a type that will not burn freely or emit large volumes of smoke or other objectionable products of combustion when attacked by flames.

(3) Coating Flash Point. Liquid adhesive coatings used on filters shall have a flash point of three hundred twenty-five (325) degrees Fahrenheit, Cleveland open cut tester, or higher.

30.12 DESIGN OF A GRAVITY WARM AIR SYSTEM. For one (1) and two (2) family structures with a BTU requirements NOT in excess of one hundred fifty thousand (150,000) BTU per hour, the furnace shall be selected and installed according to Manual 5 of the N.W.A.H.A.C. Association as listed in Appendix No. 1.

30.13 DESIGN OF A FORCED WARM AIR SYSTEM.

(1) For one (1) and two (2) family structures with a BTU requirement NOT in excess of one hundred twenty thousand (120,000) BTU per hour, the furnace shall be selected and installed according to Manual 7 of the N.W.A.H.A.C. Association as listed in Appendix No. 1.

(2) For one (1) and two (2) family structures having a BTU requirement in excess of one hundred twenty (120,000) BTU per hour, the furnace shall be selected and installed according to Manual 9 of the N.W.A.H.A.C. Association as listed in Appendix No. 1.

(3) In the design of warm air perimeter heating systems, the furnace shall be selected and installed according to Manual 4 of the N.W.A.H.A.C. Association as listed in Appendix No. 1.

(4) In the design of a small pipe, warm air, perimeter system, the furnace shall be selected and installed according to Manual 10 of the N.W.A.H.A.C. Association as listed in Appendix No. 1.

(5) Design of a Warm Air Ceiling Panel System.

(a) Selection and Installation of Furnace. The furnace shall be selected and installed according to Manual 7-A of the N.W.A.H.A.C. Association as listed in Appendix No. 1.

(b) Use.

1. Temperature Limit. Heating panels shall be used only with automatically fired, gas or oil burning, forced warm air systems equipped with temperature limit controls that cannot be set above two hundred (200) degrees Fahrenheit.

2. Combination Systems. Heating panels may be used with forced warm air systems equipped with heat exchangers utilizing steam which cannot exceed fifteen (15) pounds gauge pressure or hot water which cannot exceed a temperature of two hundred (200) degrees Fahrenheit.

(c) Construction.

1. Panel Construction. Where warm air supply is from a warm air furnace, heating panels shall be enclosed on all sides with material which is wholly incombustible or which possesses a flame spread classification of not over

twenty (20), as determined in accordance with the Method for Fire Hazard Classification of Building Materials, NFPA No. 255, ASTM E84-50T, Underwriters' Laboratories, Inc. Standard.

This enclosing material shall be securely attached to the building structure; joints and seams shall be substantially air tight. Braces and hangers inside the chamber shall be incombustible.

2. Combination System Panel. Where warm air supply is from a steam or hot water heat exchanger, heating panels shall either comply with Section 30.13(5)(c) or shall be enclosed on all sides with material not more flammable than one (1) inch wood boards.

This enclosing material shall be securely attached to the building structure; joints and seams shall be substantially air tight. No single vertical heating panel shall serve more than one (1) story.

30.14 STEAM AND HOT WATER HEATING SYSTEMS.

(1) Definitions. For the purpose of Section 30.14, the following definitions shall govern as to the meaning of the several terms and expressions therein defined, wherever said terms and expressions are employed in this Code.

(a) A gravity system is one in which the condensate is returned to the boiler by gravity due to the static heat of water in the return mains. The elevation of the boiler water line must consequently be sufficiently below the lowest heating units and steam main and dry return mains to permit the return to condensate by gravity. The water line difference must be sufficient to overcome the maximum pressure drop in the system and when radiator and drip traps are used as in two-pipe vapor systems, the operating pressure of the boiler. This applies only to closed circuit systems where the condensation is returned to the boiler. If the condensation is wasted, no water line difference is required.

(b) A mechanical return system is one in which the condensate flows to a receiver and is then forced into the boiler against the boiler pressure. The lowest parts of the supply side of the system must be kept sufficiently above the water line of the receiver to insure adequate drainage of water from the system, but the relative elevation of the boiler line is unimportant in such cases except that the discharge head on the mechanical return device becomes greater as the height of the boiler water line above the pump increases.

There are three (3) general types of mechanical returns in common use, namely:

1. The mechanical return trap, 2 The condensation return pump, and
3. The vacuum return pump.

(c) Service Mains.

1. Supply service mains shall be defined as those pipes through which the steam flows from the boiler or pressure reducing valve and to which the radiator supply branches are connected.
2. Return service mains shall be defined as those pipes which carry condensate to the boiler or mechanical return device, and to which the radiator return branches are connected.

(d) Down-feed or overhead systems shall be defined as those in which the supply mains are above the level of the radiation which they serve.

(e) Up-feed systems shall be defined as those in which the supply mains are below the level of the radiation which they serve.

(f) One-pipe systems shall be defined as those in which the steam supply to the radiation and the return of condensation flow are in opposition to each other.

(g) Two-Pipe systems shall be defined as those in which one pipe is used for the supply of steam to the radiator and another for the return of condensation.

(h) Dry returns shall be defined as those returns through which both water and air are being passed.

(i) Wet returns shall be defined as those returns through which water only is being passed.

(j) Vacuum returns shall be defined as those returns through which both water and air are being passed and upon which a vacuum is maintained at all times through the medium of a vacuum producer.

(k) Equivalent length of run shall be defined as the actual distance in feet from source of steam supply, boiler or pressure reducing valve, to the farthest radiator in system, and then back along return line to boiler or mechanical return device, plus resistance of all fittings and valves as expressed in terms of straight pipe.

(l) Transmission mains shall be defined as those pipes which though not actually a part of the heating system proper, are connected to the service mains of the system and act as sources of supply to same.

(m) Gravity Hot Water Systems. Gravity hot water heating systems shall be defined as those in which the water is circulated through the radiation and connecting piping by virtue of the difference in density of the water in the flow and return risers.

(n) Forced Hot Water Systems. Forced hot water heating systems shall be defined as those in which the water is circulated through the radiation and connection piping principally by means of a pump.

(o) Open Gravity Systems. Open gravity hot water heating systems shall be defined as those in which expansion tanks are used, installed above the level of the highest radiator of the system which they serve and vented directly to the atmosphere.

(p) Closed Gravity Systems. Closed gravity hot water heating systems shall be defined as those in which some device enables the system to be operated at a pressure in excess of the pressure corresponding to the static head of the system.

(q) Supply or Flow Mains. The supply or flow mains of a hot water heating system shall be defined as those pipes through which the water flows from the boiler and to which the radiator supply branches are connected.

(r) Return Mains. The return mains of a hot water heating system shall be defined as those pipes through which the water flows on its return to the boiler and to which the radiator return branches are connected.

(2) Steam. Minimum Requirements for Determining Amount of Direct Steam Radiation to be Installed.

(a) The amount of equivalent direct radiation to be installed in a given room where unenclosed radiators are to be employed shall be determined by dividing the heat loss of the room in BTU per hour by two hundred forty (240).

(b) Convectors and Baseboard Used on Steam. All convectors used with steam as the heating medium shall be piped as a two-pipe system unless the convector is specifically designed for use on a one-pipe system. All baseboard radiation shall be piped as a two-pipe system and shall be installed according to the manufacturer's recommendations.

(c) Enclosed Radiators. If cast iron direct radiators are to be recessed or enclosed in a cabinet, proper allowance shall be made for capacity loss or gain incurred by this type of installation.

(d) Selection of convectors and baseboard ratings used in selecting convectors and baseboards shall be those as published by the Mechanical Contractor's Association of America, or any other nationally recognized rating authority.

(3) Hot Water. Minimum Requirements for Determining Amount of Direct Hot Water Radiation to be Installed.

(a) The amount of equivalent direction radiation to be installed in a given room where unenclosed radiators are to be employed shall be determined by dividing the heat loss of the room in BTU per hour by the BTU heat emission of the radiation at the design average water temperature as given by the manufacturer of the radiation.

(b) Design Water Temperature.

1. Gravity Hot Water. Gravity hot water systems shall be designed on the basis of one hundred seventy (170) degrees average water temperature. Only radiation designed for gravity hot water shall be used.

2. Forced Hot Water. The average water temperature to be used in designing forced hot water systems shall not be higher than one hundred eighty (180) degrees average hot water temperature.

(4) Minimum Capacity and Installation Requirements for Low Pressure System and Hot Water Boilers; Ratings for Such Boilers, How Determined; High Pressure Source of Steam Supply. The manner of installation of all low pressure steam and hot water boilers hereafter installed for use in connection with heating systems, the minimum required capacities thereof and the ratings to be assigned thereto shall conform to the following provisions.

(a) Boiler Foundation.

1. Each steam or hot water boiler hereafter installed in any basement for use in connection with space heating plants shall be supported on a level concrete foundation.

Where installed on any floor above the basement, each such boiler shall rest upon concrete or other fireproof floor, construction having no wooden or other combustible finish.

Provided, however, that where any such boiler is to be installed on any floor above the basement in any building constructed prior to the passage of this ordinance, the method of supporting such boiler, both as to fireproofing and construction, shall be subject to the approval of the Building Inspection Division of the Department of Planning and Community and Economic Development.

2. Boiler Capacity to be Installed. All boilers not rated by a recognized testing laboratory shall have a net rating equal to sixty percent (60%) of fuel input.

Note: The Building Inspection Division of the Department of Planning and Community and Economic Development accepts net ratings as listed by Mechanical Contractor's Association of America, Inc., Steel Boiler Institute, Inc., Institute of Boiler and Radiator Manufacturers, and American Gas Association.

3. It shall be unlawful for any person, firm, corporation, or their agent, to sell or install any boiler for use in the City of Madison that has not been rated by any of the above-mentioned organizations until the boiler has been approved by the Building Inspection Division of the Department of Planning and Community and Economic Development. The application for approval shall include name of boiler, manufacturer's name, complete literature giving all physical dimensions and manufacturer's recommended net load.

(Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(b) Steam Supply, Where Taken From High Pressure Boilers. In every case where steam supply for a low pressure heating plant is taken from a high pressure boiler or boilers from which steam may or may not be furnished for other purposes, the capacity of such boiler or boilers shall be adequate to meet the demand to be

placed upon them under peak load conditions, and a proper reducing valve or valves, with bypasses, capable of maintaining a reduced pressure of not to exceed fifteen (15) pounds per square inch on the heating system shall be installed between said high pressure boiler or boilers and the heating system. A relief valve of proper capacity set at not to exceed fifteen (15) pounds per square inch shall be installed on the low pressure side.

(5) Minimum Requirements for Pipe Sizes of Low Pressure Steam Vapor and Vacuum Heating Systems.

(a) Pipe sizes of all low pressure steam, vapor and vacuum heating systems shall be as hereinafter provided for in this section of this code.

(b) Service Main Design. All supply and return mains in heating systems shall be designed for a low initial pressure and a reasonable small pressure drop. The total pressure drop shall never exceed one-half (½) of the initial pressure when condensate is flowing in the same direction as the steam. Where condensate must flow counter to the steam, the governing factor is the velocity permissible without interfering with condensate flow.

Capacity Tables as shown in the American Society of Heating, Refrigeration and Air Conditioning Engineers' Guide, as listed in Appendix No. 1, shall be used when designing steam supply and return mains. It shall be noted that these tables show the capacity of pipe per one hundred (100) feet of equivalent length of run. In using these tables allowance shall be made for fittings and length of run.

All steam supply and return mains shall be pitched not less than one-fourth (¼) inches in ten (10) feet.

(c) Steam Riser and Runout Design. The size of all risers and runouts shall be taken from the tables in the American Society of Heating, Refrigeration and Air Conditioning Engineers' Guide, or Part 3, Pipe Sizes and Design of Heating, Piping and Air Conditioning of the Contractors' National Association as per Appendix No. 1. Radiator runouts over eight (8) feet long shall be increased one pipe size. Pitch of horizontal runouts to risers and radiators shall be not less than one-half (½) inch in ten (10) feet. Supply mains, branches to risers or risers, shall be dripped where necessary. Where necessary, supply main, supply riser, or branches to supply riser should be dripped separately into a wet return.

(6) Piping and Piping Connections and Equipment for Low Pressure Steam, Vapor and Vacuum Heating Systems and Hot Water Systems.

(a) Piping and piping connections and equipment hereafter installed for all steam and hot water heating plant installations, or portions of such installations, shall conform to the following requirements:

1. Pipe. All pipe used shall be not less in weight and strength than that known to the trade as "Standard Wrought Pipe". Provided, however, that brass pipe and copper tubing may be so used where desired, the weight of all such pipe and tubing to be subject to the approval of the Building Inspection Division of the Department of Planning and Community and Economic Development.

The weight of all such pipe and tubing to be Type M or heavier for aboveground and Type L or heavier for underground. No pipe or tubing shall be so used that is not in sound condition.
(Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

2. Reaming. All pipe, after cutting shall be reamed to full internal diameter.

3. Fittings and Joints. Piping may be joined together by welding or by the use of fittings. Such welds shall be made in a neat workmanlike manner and shall be as strong as base metal. Fittings shall be of cast or malleable iron or of brass, and of standard weight, and clean-cut threads and free from blow-holes or other defects.

4. Expansion and Contraction, Allowance For. In all piping systems which are subject to expansion and contraction, provision shall be made for adequate anchorage and protection against damage to piping from such expansion and contraction. All risers shall be so anchored and safeguarded that the difference in length, when hot, from the length when cold, shall not disarrange the necessary provisions for drainage of the branches or distort, damage or displace radiators.

5. Piping to be Securely Supported. Piping installed under ceilings shall be securely supported by substantial metal hangers, so spaced that there will be no sag in piping between points of suspension, and where run on walls shall be securely supported by metal brackets or pipe supports similarly spaced. Supports shall be so arranged that there will be no undue strain on the threads of any pipe or fittings.

6. Drips. All points at which accumulations of water or condensation are liable to occur in steam supply pipes shall be properly dripped, the method of such dripping to be subject to the approval of the Building Inspection Division of the Department of Planning and Community and Economic Development.

No steam main shall be dripped into a dry return which carries radiator or unit heater condensate without either sealing or trapping such drip. The seal shall be of adequate depth to compensate for pressures involved.

(Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

7. Radiator and Boiler Connections. Supply and return connections to radiators and boilers shall be in accordance with the following provisions.

8. Radiator Connection. In two-pipe steam systems, the return connection for each radiator shall be made at the bottom of the radiator by means of either an eccentric bushing turned down or a water-leg section and the supply connection shall be made at the opposite end of the radiator either at top or bottom.

9. Boiler Connections. Steam boiler outlets shall not be bushed. Steam boilers with multiple outlets shall have at least two (2) of these outlets connected to a header the area of which shall be at least equal to the combined areas of the steam supply mains connected to it. All steam boilers used in connection with systems having gravity returns shall be provided with a Hartford return connection. Equalizer shall be taken from the bottom of the horizontal header. No return lines shall be connected together above the waterline of the boiler.

Note. Steam boilers with multiple outlets may use one (1) outlet if the area of the outlet is equal to or greater than the steam main and is recommended by the boiler manufacturer.

(b) Condensation Pumps, Vacuum Pumps, Boiler Feed Pumps and Combination Thereof, Etc. Capacity and Installation Requirements. The following provisions shall govern the capacities and manner of installation of all condensation pumps, vacuum pumps, boiler feed pumps and combinations thereof, traps, etc. hereafter installed in connection with steam heating plants.

Capacities. In all cases where condensation pumps or vacuum pumps or boiler feed water pumps, or any combination of such devices, or traps, etc., are used in connection with steam heating plants, the capacity of each such device or combination of devices shall be subject to the approval of the Building Inspection Division of the Department of Planning and Community and Economic Development.

Pipe connections shall be independently supported in such manner as to prevent undue stresses in pumps or traps, due either to weight or expansion.

All equipment shall be installed in accordance with the manufacturer's recommendations, subject to the approval of the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(c) Sizes of Mains, Risers and Radiator Connections for Hot Water Systems.

1. Sizes of mains, risers, and radiator connections shall be selected from capacity tables as shown in the American Society of Refrigeration and Air Conditioning Engineers' Guide as listed in Appendix No. 1. Piping systems shall include an expansion tank of proper size.

2. Forced Hot Water System. Sizes of mains, risers and radiator connections shall be selected according to the method and data given in the American Society of Refrigeration and Air Conditioning Engineers' Guide as listed in Appendix No. 1.

The amount of water required in gallons per minute shall be determined by the following formula:

G.P.M. equals Total BTU per hour divided by the Temperature drop times sixty (60) times eight (8).

Where sixty (60) equals Minutes Per Hour and eight (8) equals Pounds Per Gallon of Water.

A maximum temperature drop of twenty (20) degrees shall be used in determining G.P.M. requirements for forced hot water system.

3. Selection of Pumps. Pumps shall be selected from manufacturer's pump capacity charts. The minimum allowable head pressure shall be two and one-half (2½) feet.

4. Size of Pipe to be Installed. Having determined the equivalent length of pipe in the longest circuit and the total gallons per minute for the entire system, the sizes of pipe to be used for mains and risers shall be selected from the American Society of Refrigeration and Air Conditioning Engineers' Guide, as listed in Appendix No. 1. The friction loss per foot of pipe shall be between one hundred (100) and five hundred (500) mil-inches.

(7) Piping and Piping Connections and Equipment for Hot Water Heating Systems. Piping and piping connections and equipment hereafter installed for all hot water heating plant installations or portions of such installation, shall conform to the following requirements:

(a) Pipe, reaming, fittings and joints, expansion and contraction and piping supports for hot water heating systems shall conform to Section 30.13(4)(a)1, 2, 3, 4, and 5.

(b) Pitch. All piping shall be pitched either up or down so that all gases which are liberated from the water can move freely to a vented section of the system. Whenever practicable, the pipe line shall be the same direction as the water when a pipe system cannot be installed without creating air pockets, that is, sections in the system from which liberated gases cannot escape, such sections shall be provided with air relief valves which may be operated manually when necessary.

(c) Drainage. All piping shall be arranged so that the entire system can be drained, either to permit alterations or repairs, or to prevent freezing if the system is not to be operated during a cold period.

(d) Friction Head to be Equalized. The piping system shall be installed so that each circuit has its correct friction head. This shall be accomplished by making the pipe line as short as possible and providing as few fittings as possible where it is necessary to minimize the friction, and by increasing the length of pipe and

number of fittings where necessary to increase the friction. Where the correct balance cannot be obtained by use of pipe and fittings, balancing cocks or orifices shall be used.

Whenever two (2) or more heating circuits are connected to the same source of supply, balancing cocks shall be installed in each branch circuit.

(e) Expansion Tanks and Relief Valves. Expansion tanks and relief valves shall be installed in accordance with the following provisions:

1. Expansion Tanks for Open Systems. Each open hot water system shall be provided with an expansion tank which meets the following minimum requirements:

The minimum contents of an open tank should be six-hundredths (.06) of the volume of the water in the system, including that in the boiler, heat transmitters, pipes, etc. They shall be located at least three (3) feet above the highest radiator. Provisions must be made to prevent freezing of the water in the tank as well as in the pipe leading to the tank.

In gravity circulation systems, the pipe to the open expansion tank shall be connected to the supply riser from the boiler, so that air liberated from water in the boiler will enter the expansion tank.

In forced circulation systems, the pipe of an open expansion tank should be connected on the suction side of the circulating pump.

2. Closed Expansion Tanks. Minimum contents of a closed expansion tank must be such that, the expansion of the water due to the increase in temperature, will be cushioned against a reservoir of compressed air above the water level in the expansion tank. Manufacturers' ratings of expansion tanks, or method for selecting expansion tanks as given in Section V of Bell & Gosset Co. Engineering Manual—1954 Edition, may be used in selecting the expansion tank.

3. Relief Valves. All boilers shall have an A.S.M.E. approved pressure relief valve rated at the full gross rating of the boiler output. There shall be no valves between the boiler and the relief valve. The discharge from the relief valve and the discharge from the low water cutoff shall be piped full size to within eighteen (18) inches of the floor.

When water feed valves are used, a minimum size of one-half (½) inch shall be used and a valved bypass shall be installed. Valves shall be installed upstream and downstream from the feed valve.

(R. & Recr. by Ord. 4438, 1-7-74)

(8) Minimum Requirements for the Design and Installation of Hot Water and Radiant Panel Heating Systems.

(a) Hot Water Radiant Panel Heating System. All hot water radiant panel heating systems shall be designed according to standards set forth in American Society of Refrigeration and Air Conditioning Engineers' Guide or Part VI, Panel Heating Contractors - National Association Mechanical Contractors Association of America as listed in Appendix No. 1.

(b) Panel Surface Temperature. The maximum surface temperature for floor panels shall be eighty-five (85) degrees and for ceiling panels one hundred twenty (120) degrees.

Screw threads will not be permitted in coils or grids embedded in concrete slabs or in plaster. Ferrous fabrication shall be all welded except in equipment room above floor or in boxes or covered recesses in slabs where flow adjusting cocks are installed.

(c) Piping or Tubing Located in Concrete Slabs. Where nonferrous pipe or tubing is used in concrete slabs or in plaster, solder sweat fittings shall be used throughout and no ferrous to nonferrous connections shall be embedded in concrete, in plaster

or concealed in the construction, nor shall nonferrous pipe or tubing come in contact with steel reinforcing in slabs. Threaded pipe and fittings may be used in equipment room above floor or in accessible recess boxes where adjusting flow cocks are installed in slabs.

A balancing cock or valve shall be installed in each individual coil branch, either on the supply side or on the return side.

(9) Requirements for Concealed Piping for Hot Water and Steam Systems. Concealed or embedded pipe or tubing shall be tested before being covered to a hydrostatic or compressed air pressure of not less than one hundred (100) pounds gauge for a period of not less than four (4) hours.

30.15 OIL BURNER INSTALLATIONS FOR DRAFT BURNERS. The construction, arrangement and manner of installation of all oil burners and oil burner equipment hereafter installed for use in connection with heating systems, and the alteration and repair hereafter of all oil burners and oil burner equipment used or to be used in connection with heating systems, shall conform to the following provisions:

(1) Oil Burners and Oil Burner Equipment Defined. For the purpose of this ordinance, the term "oil burner" shall mean any device for use in connection with a system designed to burn fuel oil having a flash point of one hundred (100) degrees Fahrenheit, or higher, as determined by the Tag Closed Tester in accordance with the method of test adopted by the American Society for Testing Materials (A.S.T.M. Designation D56-21), and having a fuel tank or container with a capacity of more than ten (10) gallons connected thereto. The term "oil burner equipment" shall include oil burners, as above defined, and all tanks, piping, pumps, control devices and accessories, connected to the burners.

(2) Approval of Oil Burner.

(a) It shall be unlawful for any person, firm, corporation or their agents, to install any oil burner which has not been approved by the National Board of Fire Underwriters' Laboratory or any other nationally recognized inspection board or laboratory. Any burner which does not meet the above requirements shall not be installed until a certificate of approval has been issued.

(b) Application for approval shall give the following information: Name of burner, name and address of manufacturer, fuel recommended for burner, past history of company and burner, furnish detailed drawings and specification sheets.

(3) Installation of Oil Burners.

(a) All oil burners shall be installed according to the recommendations of the manufacturer. Combustion chambers shall be of proper size and design to meet requirements of firing rate of boiler or furnace.

(b) Where oil burners are installed in furnaces, originally designed for solid fuel, the ash door of the furnace shall be removed or bottom ventilation otherwise provided to prevent the re-accumulation of vapors in the ash pit, unless the burner is of a type which mechanically purges the ash pit.

(c) Rooms in which oil burners are located shall be provided with adequate ventilation to assure continuous, complete combustion of the oil.

(4) Gravity Feed to Burners. Gravity feed shall be used only with burners arranged to prevent abnormal discharge of oil at the burner by automatic means specifically approved for the burner with which it is used.

30.16 OIL TANKS AND PIPING.

(1) Gravity supply tanks shall not exceed two hundred seventy-five (275) gallons individual capacity. Each tank shall be valved independently.

Where oil is supplied to the burner by gravity and a constant level device is not incorporated in the burner assembly or in an auxiliary tank used in connection with an automatic pump, an approved constant level device shall be installed in the oil feed line at

the gravity tank or as close thereto as practicable. The vent openings of such constant level device shall be connected by piping or tubing to outside the building unless the constant level device is provided with an approved anti-flooding device. Vent pipes or tubing of constant level devices shall not be connected to tanks or tank vents.

(2) Pressure tank feed shall be used only with burners arranged to prevent abnormal discharge of oil at the burner by automatic means specifically approved for the burner with which it is used.

Pressure tanks shall not exceed a capacity of sixty (60) gallons and shall not be operated at pressure exceeding fifty (50) pounds per square inch. They shall be equipped with a reliable pressure gauge and with an automatic relief valve piped to discharge outside of buildings.

(3) Installation of Underground Tanks. All underground tanks shall comply with SPS 38 Wisconsin Flammable and Combustible Liquids Code. Tank owners must also comply with the U.S. Environmental Protection Agency, Regulations for Underground Storage Tanks Systems. (R. & Re-Cr. by Ord. 10,255, Adopted 5-7-91; Am. by ORD-12-00035, 3-28-12)

(4) Installation of Tanks Inside Buildings. Oil supply tanks larger than sixty (60) gallons capacity shall not be located in buildings above the lowest story, cellar or basement.

Unenclosed inside storage tanks and auxiliary tanks shall not be located within five (5) feet, horizontally, of any fire or flame.

Inside storage and auxiliary tanks shall be securely supported by substantial incombustible supports to prevent settling or sliding.

Oil supply tanks located inside buildings shall not exceed two hundred seventy-five (275) gallons individual capacity or five hundred fifty (550) gallons aggregate capacity.

Tanks exceeding two hundred seventy-five (275) gallons individual capacity or one thousand one hundred (1,100) gallons aggregate capacity in an individual building or in a section of a building separated by fire walls shall be installed in an enclosure constructed as follows:

The walls of the enclosure shall be constructed of reinforced concrete at least six (6) inches thick or of brick at least eight (8) inches thick. Such enclosures shall be installed only on concrete or other fire-resistive floors and shall be bonded to the floors. Enclosures shall have tops of reinforced concrete at least five (5) inches thick or equivalent fire-resistive construction, except that where floor or roof construction above the enclosure is concrete or other fire-resistive construction, the walls may be extended to and bonded to the underside of the construction above, in lieu of the provision of a separate top. Any openings to such enclosures shall be provided with fire doors or other approved closures and six (6) inch, noncombustible liquid-tight sills or ramps.

(5) *Construction of Tanks.* Underground tanks and tanks inside buildings shall be constructed of steel or wrought iron of a minimum gauge (U.S. Standard) in accordance with the following table, except that for tanks of one hundred eighty-one (181) to two hundred seventy-five (275) gallons capacity, installed in buildings, and without masonry enclosure, the minimum gauge shall be No. 14.

Capacity Gals.	Minimum Thickness	Vent Size	Minimum Distance to Lines of Adjoining Property or Nearest Building
1 to 300	14 Gauge	1¼"	1 Foot
301 to 560	14 Gauge	1¼"	1 Foot
561 to 1,100	14 Gauge	1¼"	1 Foot

Joints shall be riveted and caulked, brazed, welded or made tight by some equally satisfactory process. Tanks shall be tight and sufficiently strong to bear without injury, the most severe strains to which they may be subjected in practice. Shells of tanks shall be properly reinforced where connections are made. All connections to underground tanks,

outside tanks aboveground, and tanks inside buildings shall be made through the top of the tank above the liquid level, except that tanks of not over two hundred seventy-five (275) gallons capacity may have one bottom connection for gravity feed and one opening for an approved key stem gate valve to facilitate cleaning or for a scavenging line to be run to the outside and capped oil tight when not in use.

Pressure tanks shall be designed for at least six (6) times the maximum working pressure.

Tanks shall be thoroughly coated on the outside with tar, asphaltum, or other suitable rust-resisting paint. Where placed in corrosive soil, special protection may be required.

Note. Tanks labeled by Underwriters' Laboratories have been tested and examined for compliance with these regulations and detailed standards covering their design and construction. The construction and installation of all tanks having a capacity of five thousand (5,000) gallons and larger shall be submitted to the Department of Safety and Professional Services for approval (SPS 310.1). This information shall be forwarded to the Fire Prevention Bureau.

For fuel oil heavier than thirty-five (35) degrees A.P.I., tanks may be made of concrete, in accordance with the regulations of the National Board of Fire Underwriters for the Construction of Concrete Fuel Oil Storage Tanks as recommended by the National Fire Protection Association. (Am. by Ord. 12,322, Adopted 2-2-99; ORD-12-00035, 3-28-12)

(6) Tank Vents. Storage tanks shall be equipped with an open vent or an approved automatically operated vent, arranged to discharge to the open air. Vent openings and vent pipes shall be of ample size to prevent abnormal pressure in the tank during filling but not smaller than one and one-fourth (1¼) inches pipe size. See table under Section 30.16(5).

Vent pipes shall be arranged to drain to the tank. The lower end of the vent pipe shall not extend through the top into the tank for a distance of more than one (1) inch.

Vent pipes shall terminate outside of buildings at a point not less than two (2) feet distant from any window or other building opening and not less than twenty-four (24) inches above the ground. Outer ends of vent pipes shall be provided with a weatherproof hood with screen. Vent pipes of tanks containing heaters shall be extended to such a height that oil vapors discharging from the vent will be readily diffused without danger of ignition. Provided, however, that combination fill and vent fittings approved by the Building Inspector may be used if located not less than two (2) feet distant from any window or other building opening and less than twenty-four (24) inches above the ground.

Vent pipes shall not be cross-connected with fill pipes or return lines from burners.

Fill and vent pipes shall not be run through windows or coal chutes unless such openings are totally enclosed with masonry to prevent oil from entering building during filling operations.

(7) Tank Fill and Overflow Pipes. Underground tanks and storage tanks inside the buildings shall be filled only through fill pipes terminating outside of buildings at a point at least two (2) feet from any building opening at the same or lower level. Fill terminals shall be closed tight, when not in use by a metal cover designed to prevent tampering. The fill pipe shall be located below the vent pipe.

Auxiliary tanks shall be filled by pumping from storage tanks.

Auxiliary tanks other than vacuum tanks shall be equipped with an overflow pipe draining to the storage tank, at least one (1) size larger than the supply pipe.

Overflow pipes of auxiliary gravity tanks shall have no valves or obstructions. Overflow pipes of auxiliary pressure tanks shall be provided with interconnected valves or other means for automatically venting the tank during filling.

(8) Oil Gauging. All tanks in which a constant oil level is not maintained by an automatic pump shall be equipped with an approved method of determining the oil level.

Test wells shall not be installed inside buildings and where permitted for outside services, shall be closed tight when not in use by a metal cover designed to prevent tampering.

Gauging devices such as liquid level indicators or signals shall be installed so that oil or vapor will not be discharged into the building from the fuel supply system.

No glass gauge or any gauge, the breaking of which will permit oil to escape from the tank, shall be used.

(9) Oil Pumps. Oil pumps shall be of an approved type, secure against leaks, and shall be rigidly fastened in place.

Automatic pumps not an integral part of the burner, shall be arranged to stop automatically in case of total breakage of the supply line to the burner.

In isolated locations, where fire protection equipment is dependent upon a heating plant fired by an oil burner, oil pumps supplying the burner shall be installed in duplicate.

(10) Piping. All piping shall be standard full weight wrought iron, steel or brass pipe with standard fittings or approved brass or copper tubing with approved fittings, except that an approved flexible metal hose may be used for reducing the effects of jarring and vibration or where rigid connections are impracticable. No sweat joints shall be used on any oil lines including vent and fill pipe.

(11) Oil Lines. Domestic and Commercial Fuels. Any oil line for burners using a catalytic or universal fuel oil of No. 3 grade or lighter, drawing from an outside tank may use three-eighths (⅜) or one-fourth (¼) O.D. copper tubing or equal on runs of forty (40) feet or less. For fuel lines longer than forty (40) feet, one-half (½) inch O.D. copper shall be used.

Oil lines to an outside underground tank shall consist of one (1) suction line and one (1) return line.

Oil supply lines to burners shall be provided with approved filter. Where pumping from a tank on multiple burner installations, each burner must have its own suction line but may be connected to a common return line.

All oil lines shall be carefully protected against mechanical injury in a manner satisfactory to the Director of the Building Inspection Division.

(Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(12) Valves. Readily accessible shut-off valves of approved type shall be installed in oil supply line near each burner and close to gravity and pressure supply tanks. Shut-off valves of approved type shall be installed on the discharge and suction side of oil pumps which pump directly to the burner but which are not a part of the burner unit.

Where a shut-off valve is installed in the discharge line of an oil pump, an approved pressure relief valve shall be connected into the discharge line between the pump and the shut-off valve and arranged to return surplus oil to the storage tank or to bypass it around the pump.

(13) Gas Pilots on Oil Burner. Line supplying gas pilots for oil burning appliances shall be accessible and not less than one-half (½) inch standard wrought iron or steel pipe size and shall not be exposed to extreme temperature.

30.17 STOKER INSTALLATION. The arrangement, equipment and manner of installation of all stokers hereafter installed for use in connection with heating plants, in or for buildings in the City of Madison, and the alterations hereafter of such stoker installations, shall conform to the following provisions.

(1) Stoker Defined. The term "stoker" shall, for the purposes of this Code, be taken to mean a mechanical device for feeding solid fuel into the combustion chamber of a boiler or furnace used in connection with a heating plant, whether automatically or manually controlled.

(2) Maximum Peak Load. The maximum peak load requirements of the plant must be determined in BTU per hour. The selection of the stoker should be based on the use of the lowest BTU value coal generally available and used at the point of consumption.

(3) Heat Release. Heat release is the quantity of heat expressed in BTU per hour released in a combustion chamber for each cubic foot of furnace volume, computed with the following formula:

Heat Release equals Pounds of coal burned per hour times BTU per pound of coal divided by Furnace Volume in cubic feet.

(4) Combustion Volume. The combustion volume of the firing device shall be at least one (1) cubic foot for each sixty thousand (60,000) BTU of heat release for coal with twelve thousand (12,000) BTU. Use the following factors for coal of other than twelve thousand (12,000) BTU.

BTU/Pound	Factor	BTU/Pound	Factor
9,000	.75	11,500	.96
9,500	.79	12,500	1.04
10,000	.83	13,000	1.08
10,500	.87	13,500	1.12
11,000	.92	14,000	1.17

(5) Setting Height. The following formula shall be used in determining setting height for stokers:

For burning rates up to one hundred (100) pounds coal per hour—H equals 0.1125B plus 15.75

For burning rates from one hundred (100) to twelve hundred (1,200) pounds of coal per hour—H equals 0.03B plus 24.

Where H equals minimum setting height, inches, measured from dead plates to crown sheet for steel boilers. For cast iron boilers, height may be 7/8 H.

B equals Burning Rate coal per hour, pounds.

(6) Ash Storage Space. Ash storage space (hearth area) shall be determined as follows: All stokers up to and including fifty (50) pounds per hour coal feed rate should have minimum depth of three (3) inches of flat hearth on all sides of the retort.

(7) Grates for Stokers Over Two Hundred (200) Pounds. Per Hour Capacity.

All stokers of two hundred (200) pounds per hour coal feed capacity and over should be installed with dead plates or dump grates. Under no circumstances shall they be installed with refractory hearths immediately adjacent to the tuyeres.

(8) Clinker Removal Door Spacing. All stokers must be so installed that the maximum distance from the bottom of the lowest clinker removal door to the top of the hearth will not exceed eighteen (18) inches.

(9) Pit Set Stoker. Where a stoker is pitted to a greater depth than eighteen (18) inches below the original floor of an installation, the pit shall be made large enough so that a minimum clearance from the furthermost extending part of the stoker on each side and the side wall of the pit will be eighteen (18) inches.

(10) Hopper Clearance. In the case of a hopper model stoker, the minimum distance between the furthermost rear part of the stoker and the nearest wall or obstruction shall be twenty-four (24) inches.

(11) Automatic Draft Control. On all stokers, some means of automatic draft control shall be installed.

(12) Controls. (Refer to Control Section 30.25)

30.18 MINIMUM REQUIREMENTS FOR THE INSTALLATION OF GAS-FIRED HEATING EQUIPMENT AND PIPING. In addition to the requirements contained in the manuals and pamphlets listed in Appendix No. 1, which shall be classed as minimum standards of this code, the installation of gas heating equipment shall conform to the requirements set forth in the following subsections of this section and Section 30.07.

(1) Scope. The provisions of this code, unless otherwise indicated herein, shall apply only to utilization pressure (not in excess of one-half (½) pound per square inch) gas pumping systems extending from the gas meter outlet connection to the inlet connections of appliances. They are intended to cover the design fabrication, installation and test of gas piping systems for fuel gases such as natural gas, liquefied petroleum gas, liquefied petroleum air, gas or mixtures thereof. They are not intended to cover systems or portions of systems supplying equipment engineered, designed and installed for specific manufacturing, production processing, large power generating application, melting and treating furnaces, production ovens and similar applications.

Exception. Gas piping and control equipment requirements for systems using gas pressures in excess of one-half (½) pound per square inch.

The use of gas in excess of one-half (½) pound per square inch may be used if the following requirements are met:

1. Generally, the valving arrangement shall conform to the American Standards Association (ASA-Z 21.33 - 1950). The Board will recognize as approved valving, arrangements and designs approved by any other nationally recognized approved agency.
2. A safety relief valve shall be placed downstream from a gas pressure regulator where gas is supplied at pressures in excess of one-half (½) pound per square inch. The discharge from the relief valve shall be piped to a safe location outside the building. (Valve setting not to exceed four (4) pounds.)
3. Provide a suitable pressure gauge in the gas line located downstream from the pressure regulator.
4. Where a gas supply pressure is higher than that at which the burners are designed to operate, a gas pressure regulator shall be provided to reduce pressure to satisfy design conditions.
5. Where the gas supply pressure is in excess of one-half (½) pound per square inch, the piping system shall be identified indicating the maximum line pressure. It is recommended that the legend "Gas _____ P.S.I." be applied on gas piping near and downstream from pressure regulator at intervals of fifty (50) feet in every room or area which is less than fifty (50) feet.
6. Submit two (2) copies of drawings (schematic is acceptable) and specifications to the Building Inspection Division of the Department of Planning and Community and Economic Development for review and approval. (Am. by ORD-08-00109, 10-7-08)

(Am. by Ord. 8081, 7-29-83)

(2) Work on Gas Piping Containing Unmeasured Gas. Disconnecting inlet of gas meter, changing meter location or making connection to gas service pipe, shall be done only by gas company employees or others authorized by gas company to do such work. A pipefitter shall connect or disconnect the building piping from outlet meter connection when necessary. No person, unless in employ of gas company or having permission from gas company shall turn on or reconnect gas service in or on any premises where and when gas service is not at the time being rendered.

It shall further be unlawful to turn on or supply gas on or at any premises unless at least one (1) gas appliance is connected to the gas piping system and all outlets are properly and securely connected to appliances or capped or plugged with screw joint fittings.

(3) Authority to Disconnect. The Building Inspection Division of the Department of Planning and Community and Economic Development or the gas utility is hereby authorized to disconnect or have disconnected, any gas space heating equipment or gas piping, which shall be found not to conform to the requirements of this code, or which may be found defective and in such condition as to endanger life or property. Where such disconnection has been made, a notice shall be attached to such equipment or gas piping which shall state that the same has been disconnected, together with a reason therefore and such notice shall not be removed nor shall the equipment or gas be reconnected until authorized by the Building Inspection Division of the Department of Planning and Community and Economic Development to do so. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(4) General Precautions.

(a) Installation of Gas Piping. Installation of gas piping shall be performed with the gas turned off to eliminate hazards from leakage of gas. Connection of new piping system to existing system shall be done, if practical, with gas turned off.

(b) Burner and Pilot Valves. Before turning off the gas at the meter, except in cases of emergency, all burner and pilot valves on the premises supplied with gas through the meter, shall be turned off and the meter test hand observed for a sufficient length of time to ascertain that there is no gas passing through the meter. When there is more than one meter on the premises, precaution shall be exercised to assure that the proper heater is turned off.

(c) Checking for Gas Leakage. No matches, candles, flame or other source of ignition shall be employed to check for gas leakage from meters, piping or appliances. Check for gas leakage with a soap and water solution.

(d) Artificial Illumination. Artificial illumination used in connection with a search for gas leakage shall be restricted to electric hand flashlights, fixed electric lights controlled only by explosion-proof safety switches or switches remote from the area of the leakage, or approved safety lamps.

(e) Smoking Not Permitted. When connecting or disconnecting pipe which contains gas, smoking shall not be permitted.

(f) Electrical Circuits Grounded to Gas Piping. Except for appliance controls requiring a ground electrical system including low voltage, circuits shall not be grounded to gas piping.

(5) Piping to Meter Location.

(a) Piping Extended to Meter Location. Gas building piping shall be extended to the meter location specified by the gas company. The meter location and gas piping connections shall be such that the meter connections are easily accessible in order that the meter may be read or changed.

(b) Piping Marked. Piping from multiple meter installations, (four (4) or more meters) shall be plainly marked near outlet connection with a permanent tag by the installer so that the piping systems supplied through them can be readily identified.

(c) Meters Supplied by Single Service Pipe. Unless otherwise approved in writing by gas company, all meters supplied by a single service pipe shall be at the same location.

(d) Piping Systems not Interconnected. Unless otherwise approved, where two (2) or more meters are installed on the same premises but supply separate consumers, the piping systems shall not be interconnected on the outlet side of the meters.

(e) Pipe Capacity Table 1.

CAPACITY—CUBIC FEET PER HOUR WITH A 67 S.P. 970 BTU SP. GR. GAS AND PRESSURE DROP OF 0.3 INCH WATER COLUMN							
Length of Pipe in Ft	Nominal Diameter of Pipe in Inches						
	¾	1	1¼	1½	2	3	4
15	158	319	694	1130	2300	6000	12900
30	111	223	495	790	1640	4350	9000
45	92	184	403	650	1360	3600	7300
60	80	160	352	565	1200	3200	6300
75	71	144	317	500	1040	2775	5550
90	65	131	287	455	925	2500	5100
105	60	123	264	415	850	2250	4700
120		111	250	390	795	2125	4450
150		101	224	350	720	1925	4050
180		93	208	325	670	1800	3700
210			190	295	610	1650	3400
240			176	280	570	1550	3200
270			165	265	535	1450	3000
300			158	250	500	1375	2750
450			130	210	415	1150	2300
600			110	180	360	950	1975

(6) Size of Piping to Gas Appliances.

(a) Piping shall be of such size and so installed as to provide a supply of gas sufficient to meet the maximum demand without undue loss of pressure between the meter and the appliance or appliances. The minimum gas pipe shall be not less than three-fourths (¾) inch. This does not apply to water heaters, space heaters, and unit heaters with inputs of less than fifty thousand (50,000) input.

The size of the gas pipe to be used depends upon the following factors:

1. Allowable loss in pressure to be provided for.
2. Maximum gas consumption to be provided for.
3. Length of pipe and number of fittings.
4. Specific gravity of the gas.
5. Diversity factor.

(b) Pressure Loss. The pressure loss in any gas piping system from the gas meter to any appliance for the maximum demand shall not exceed 0.3 inch water column. The minimum size of piping required to comply with 0.3 inch pressure loss limitation shall be determined by procedure given in Subsection (c) below or by standard engineering methods including use of gas flow computers.

(c) Size of Piping. To determine the size of any section of gas pipe in a system, proceed as follows:

1. Measure the length of pipe from the gas meter to the most remote outlet in the building on that piping system. Where separate or individual fuel lines are extended from meter to one or more appliances, such as individual gas line to heating plant, each separate fuel line from meter shall be considered as separate piping system.
2. In Table No. 1, select the horizontal line showing that distance, or the next longer distance if the table does not give the exact length.
3. Use this horizontal line so selected to locate all gas demand figures for this particular system of gas piping.

4. Starting at the most remote outlet, find in the horizontal line just selected, the gas demand for that outlet. If the exact figure of demand is not shown, choose the next larger figure in the same horizontal line.
5. Above this demand figure in the first line at the top of Table No. 1 will be found the correct size of pipe required to serve such an outlet.
6. Proceed in a similar manner for each outlet and each section of pipe. For each section of pipe, determine the total gas demand supplied by that section and use the length indicated by Section 30.18(5)(e) above, which length is at all times taken as total distance from meter to most remote outlet.
7. The hourly volume of gas required at each outlet shall be taken as not less than the maximum hourly rating specified by the manufacturer of the appliance or appliances to be connected to each such outlet. Where the manufacturer's rating of an appliance is given in British Thermal Units (BTU) per hour, this rating shall be divided by nine hundred seventy (970) to obtain the corresponding gas demand in cubic feet per hour for natural gas. Where BTU rating of gas appliances to be installed has not been definitely specified, estimate of approximate requirements may be based on current typical appliances.

(d) Extensions to Existing Piping. Extensions to existing piping shall conform to Section 30.18(6)(a). Existing piping, if extended, shall be converted to the proper size of pipe where necessary. In no case shall extensions be made to existing pipe which is smaller than permitted by Section 30.18(6)(a).

(7) Materials for Pipe and Fittings. All piping systems shall be installed according to NFPA 54 - National Fuel Gas Code (1987). (R. & Re-Cr. by Ord. 10,255, Adopted 5-7-91)

(8) Reserved for Future Use. (R. by Ord. 10,255, Adopted 5-7-91)

(9) Reserved for Future Use. (R. by Ord. 10,255, Adopted 5-7-91)

(10) Reserved for Future Use. (R. by Ord. 10,255, Adopted 5-7-91)

(11) Reserved for Future Use. (R. by Ord. 10,255, Adopted 5-7-91)

(12) Reserved for Future Use. (R. by Ord. 10,255, Adopted 5-7-91)

(13) Reserved for Future Use. (R. by Ord. 10,255, Adopted 5-7-91)

30.19 MINIMUM REQUIREMENT FOR GAS-FIRED EQUIPMENT AND INSTALLATION OF GAS-FIRED EQUIPMENT.

(1) All gas design space heating equipment to be installed in the City of Madison shall conform with regulations governing the minimum standards of construction and performance of gas space heating equipment as shall be determined by the American Gas Association, or any other nationally recognized testing agency adequately equipped and competent to perform such services, and shall be evidenced by attachment of its seal or label to such gas space heating equipment. This agency shall be one which maintains a program of National Inspection of Production Models of all types of gas space heating equipment.

(2) On all gas-fired space heating units which are not approved as a complete design unit, the gas-firing equipment shall be considered as a conversion unit and shall conform to the requirements for the installation of gas conversion burners.

30.20 INSTALLATION REQUIREMENTS FOR GAS CONVERSION BURNERS.

(1) Preparation of Existing Heating Appliance. Thoroughly clean the ash pit, flue passage and combustion chamber of the furnace or boiler, removing all adhering tars, scale or dirt.

(2) Reconditioning the Existing Heating Appliance.

(a) If cracks or fractures, especially above the grate level are found in any of the castings after they have been cleaned, the casting shall be replaced. Cracks or fractures in other materials shall be repaired or the parts replaced and the appliance made gas tight as shown by smoke bomb test or equivalent.

(b) All joints between sections shall be properly cemented and the ash pit tightly grouted to the floor. Openings for grate shaker bars, cracks around door frames, and cracks such as under clinker doors, shall be tightly sealed with furnace cement.

(c) Firing door catches shall be filed or otherwise altered so that the firing door will open easily to relieve pressure. Positive latches shall be removed from the appliance and replaced by either light sheet metal catches, a spring placed on the hinge pin to keep the door closed or an equivalent arrangement which will permit the door to open and relieve any excessive pressure which may occur in the furnace. Latches on firing doors shall hold such firing doors close to the frame without exposing or forming any cracks.

(d) Where revertible or diving flue type furnaces or boilers are converted to gas firing, it is required that small opening or passage, not less than one (1) inch pipe, be provided between the top of the highest point in the flue passage of the appliance and its vertical flue pipe. If there is a bypass, open the bypass slightly and lock it in position.

(e) Where the burner is installed at approximately grate level and the furnace is lined with a refractory material, this material shall be removed down to the level of the burner except where the refractory material forms the only wall between the combustion chamber and the furnace front shield.

(f) When inshot type conversion burners are installed in dry base boilers or gravity warm air furnaces, the ash pit shall be lined for protection in accordance with the manufacturer's installation instructions, or as follows:

1. With at least two (2) inches of insulating fire brick which covers the ash pit bottom.
2. With at least two (2) inches of insulating fire brick along the sidewalls of the ash pit up to the level of the water back surface of a boiler or sufficiently high to protect the grate lugs of a furnace.

(g) Where inshot type conversion burners are installed, the floor area of a combustion chamber shall be in accordance with the burner manufacturer's instructions or recommendations; however, in the absence of such instructions, it shall be at least one and one-half (1½) square inches per one thousand (1,000) BTU per hour input of the burner.

(h) The water column and gauge glass on a steam boiler shall be clean, with the water level plainly visible. The connections from gauge glass to boiler shall be free and unobstructed.

(i) The chimney shall be examined and thoroughly cleaned, if necessary, before installation is made.

(j) Every conversion burner, upon completion of its installation, shall not be left in operation unless the burner has been properly adjusted so that the products of combustion shall contain not more than (.04%) of carbon monoxide. Samples of the gas shall be taken from breeching at a point as near to the furnace or boiler as possible. In no case shall the samples be taken from a point between the draft hood or barometric draft control and the chimney, or through the relief openings of the draft hood or barometric draft control.

(3) Installation of Burner and Controls.

(a) The installation of gas conversion burners having inputs not exceeding four hundred thousand (400,000) BTU per hour shall be installed in accordance with the following provisions:

Every conversion gas burner installed in the City of Madison shall bear the symbol of a recognized testing agency certifying compliance with the American Standard Listing Requirements for Domestic Gas Conversion Burners. It shall consist of a factory assembled and factory inspected unit supplied with an automatic pilot, automatic gas control valve, including, when necessary, proper

transformer to operate the gas valve, gas pressure regulator, (except on burners certified for use on liquefied petroleum gases), manual mainline shutoff calve, pilot shutoff valve, tubing or piping for pilot gas supply tubing for bleedline from diaphragm valves when employed.

Installation of burner shall be so planned that it and all its controls will be readily accessible for inspection, cleaning, adjustment and repairs.

(b) Installing the Burner.

1. The burner shall be solidly supported on fireproof material, both front and rear, and shall be level in both directions. No portion of the combustion air door opening of the burner shall be closed off by the seal covering the ash pit opening. Care shall be exercised when installing the burner to avoid undue strain on, or distortion of, duct or other components which would impair the fit, alignment or mechanical functioning of parts, such as pilots, positions of orifices with respect to venturi, combustion air door, etc.
2. For drilled port of multi-jet upshot type conversion burners installed in boilers, the burner ports shall be at least one (1) inch above grate level. For single port upshot burners, the above dimension shall apply to the bottom of the flame spreader.
3. For drilled port of multi-jet upshot type conversion burners installed in warm air furnaces, the burner ports shall be set above the grate level but not more than one-third (⅓) the distance between the grate and the bottom level of the firing door. For single port upshot burners, the above dimension shall apply to the bottom of the flame spreader. If the level of the burner port is below the highest point of the return air connection to the furnace casing, provisions shall be made to assure against counter circulation.
4. Burners shall be so placed with respect to the firebox dimensions as to uniformly distribute the heat over as much of the available heating surface as possible. Where the burner is appreciably shorter than the firebox, it shall be placed at the end of the firebox which will insure the longest flue travel. In some instances, it may be necessary to install air directing baffles to insure proper distribution of combustion air within the flame zone and to thereby prevent floating flame conditions on one side of the burner.
5. Firing door (fuel door) type burners shall be installed in accordance with the burner manufacturer's instructions. The burner ports shall be located with respect to the side walls of the combustion chamber so as to provide the longest travel for the products of combustion and to avoid direct flame impingement.
6. After the supply line has been connected to the burner, close the space between the ash pit opening and the air duct (and/or air door shield) in a permanent manner which will preclude entrance of combustion air except through the air duct. The use of sheet metal or hard asbestos board, neatly fitted, will facilitate servicing at a later date.
7. All gas burners installed in the revertible flue type of equipment, exceeding a twelve (12) inch down draft, shall be provided with a complete shutoff type automatic pilot unless equipped with adequate bleeder connections.

(c) Union for Connecting Burner to House Piping. A union shall be installed in the gas line downstream from the manual main shutoff valve.

(d) Controls. (Refer to Section 30.25)

(4) Installation Requirements for Conversion Burners Having Inputs Exceeding 400,000 BTU Per Hour.

(a) Approval of Gas Burner.

1. It shall be unlawful for any person, firm, corporation or their agents, to install any gas burner which has not been approved by the National Board of Fire Underwriters' Laboratory, or any other nationally recognized inspection board or laboratory. Any burner which does not meet the above requirements shall not be installed until a certificate of approval has been issued.
2. Application for approval shall give the following information:
   a. Name of burner.
   b. Name and address of manufacturer.
   c. Past history of company and burner.
   d. Furnish detailed drawings and specification sheets.
3. Every gas burner fired in excess of four hundred thousand (400,000) BTU per hour input shall be equipped with electronic combustion safeguard.

(b) Main Burner.

1. A burner shall be installed so that fuel and air will be completely mixed to assure efficient combustion within the combustion chamber, without injurious flame impingement on heating surfaces or refractories, vibration or pulsation, formation of soot, and without flame leaving any part of the burner throughout the entire range of operation. Burners shall be installed firmly in place to maintain correct alignment and shall be readily accessible for cleaning and inspection. All burner intake air louvers for manual operation shall be equipped with a mechanical locking device to prevent accidental closure, or if louvers are to be operated automatically, they shall be weighted to open in the event of linkage failure.
2. Load requirements of every job shall be satisfied by equipment within proper range of manufacturers' ratings.
3. The burner or burners and their component parts shall be installed according to the manufacturer's instructions and shall be properly and firmly secured in place to maintain correct alignment in normal use.
4. The burner or burners shall be so installed and adjusted that there will be no injurious flame impingement on walls or heating surfaces in a manner that will cause incomplete combustion or damage to boiler or furnace parts.
5. Means shall be provided to permit ready observation of the pilot, safety device and main burner while firing.

(c) Manual Shutoff Valves.

1. Pilots shall be independently controlled by means of a manually operated pilot shutoff valve. In multiple installations, a manually operated pilot firing valve shall be provided for each pilot.
2. On burners with inputs exceeding five million (5,000,000) BTU per hour, each burner unit, except those utilizing a zero governor inspirator mixer, shall be equipped with a manual firing valve downstream of all other valves and as close as practicable to the burner so that the flame can be observed during manipulation of this valve.
3. On multiple burner installations, a manual shutoff valve shall be installed ahead of all other valves and controls for each burner.
4. A manually operated shutoff valve of an approved type shall be installed in the main line to each burner. It shall be readily accessible and shall clearly indicate the "ON" and "OFF" positions with stops at the open and closed positions.

5. On installations requiring inputs exceeding one million (1,000,000) BTU per hour, the main shutoff valve shall be of a pressure rating no less than the gas pressure in the street main.

(d) Control Valves, Pressure Rating.

1. All safety and input control valves (automatic recycling or manual reset) shall be capable of withstanding the gas main pressure and shall be installed upstream of all other control valves.
2. The gas supply pressure to the pilot or group of pilots shall be controlled independently of the burner supply.

(e) Combustion Control. Uptake dampers shall be counterbalanced to open in the event of breakage or failure of their operating means. Counter-balancing arms, weights, etc. shall be so located or shielded as to prevent personal injury to the operator or damage to equipment in case of breakage.

1. For automatically lighted burners, automatically operated dampers, where used, shall be interlocked to prevent lighting of the main burner unless sufficient draft is available.
2. All combustion control systems shall be so installed as to assure stable, safe and approved proper standards of combustion and efficiency with a minimum of seventy percent (70%) for the required range of operation.
3. When air louvers, dampers or other air controls are automatically operated, such operation shall be in conjunction with gas input control valves, either by mechanical linkage or changes in furnace pressure and/or change in fuel flow to maintain proper fuel/air ratio over the entire required range of operation. The operating medium may be electrical, pneumatic or hydraulic. Arrangements shall be provided for shutting off the fuel supply in the event of failure of the control medium.
4. An approved draft regulator having a minimum free area of three-fourths (¾) of the area of the boiler or furnace breeching outlet may be used in lieu of a draft hood. Where barometric dampers are used they shall furnish positive and effective protection against back drafts. Barometric dampers shall be installed in accordance with the manufacturer's instructions.

(f) Limiting Devices.

1. Automatically operated gas burners in connection with vapor, hot water, steam or warm air heating systems shall be equipped with approved devices to shut down the burner in the event of undue pressure in a steam boiler or overheating within a hot water boiler or warm air furnace. Each steam boiler shall be equipped with a low water cutoff.
2. On all installations, where operation of the burner is controlled by an aquastat or furnace stat, another aquastat or furnace stat shall be installed in the one hundred ten (110) volt line ahead of all other controls, as a high limit or safety control. The high limit on hot water heating systems shall be of the immersion type installed in the boiler. On all installations, where the operation of the burner is controlled by a pressure stat, this control shall be installed in the one hundred ten (110) volt line ahead of all other controls.
3. Limiting devices shall not depend upon the closing of an electrical circuit to shut off the fuel supply.
4. All limiting devices shall shut off fuel to all main burners.
5. Shutoff valves shall not be installed in the piping between the boiler and pressure and/or water temperature limiting devices.

(g) Flues and Flue Connections. The chimney or stack shall be preinspected and tested, if necessary, to determine whether or not it is in suitable condition. If not in suitable condition, as determined by the Building Inspection Division of the

Department of Planning and Community and Economic Development, any defects shall be corrected subject to the approval of the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(h) Combustion Chamber. Refractory combustion chambers to be used for inshot or horizontal type burners shall be constructed and sized to burner manufacturer's recommendations.

(i) Installation Requirements for Dual Fuel Burning.

1. In addition to the requirements set forth in Sections 30.18, 30.19, and 30.20, inclusive, of this code, together with their subsections, gas burners installed in conjunction with other combustion equipment shall conform to the following requirements.
2. Gas burners shall be of the inshot type and shall be installed to fire directly into the combustion chamber. Angle or corner installations will not be permitted without special permission of the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by Ord. 8081, 7-29-83)
3. The installer shall be responsible for the proper functioning of both the gas equipment and the existing combustion equipment.
4. Proper protection of the gas and other combustion equipment shall be provided from the effects of each other. Such protection to be approved by the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by Ord. 8081, 7-29-83)
5. Controls may be common to both fuels or may be independent. Transfer from one fuel to the other shall be by a manual interlock system to prevent the gas and other fuel being used simultaneously.
6. Where it is necessary that both fuels are to be used simultaneously, special approval must be obtained from the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by Ord. 8081, 7-29-83)
7. The installer shall file with the Building Inspection Division of the Department of Planning and Community and Economic Development, drawings showing electric wiring, gas piping of the gas burner and controls, method of mounting burner and operating instructions. (Am. by Ord. 8081, 7-29-83)

(Am. by ORD-08-00109, 10-7-08)

30.21 VENTING REQUIREMENTS.

(1) General. The venting of all boilers, furnaces or appliances shall conform to the requirements as hereinafter set forth inclusive of this section, together with their subdivisions. Conditions not specifically mentioned in this section shall be governed by the current A.S.H.R.A.E. Guides or Section V of the standards of the National Fire Protection Association for the installation of gas appliances and gas piping. N.F.P.A. 54 as listed in Appendix No. 1.

(2) Types of Chimneys or Vents Defined. For the purpose of this section, the following definitions shall govern as to the meaning of the several terms or expressions herein defined, whenever said terms and expressions are employed in this code.

(a) Chimneys.

1. Factory Built Chimneys. Chimneys that are factory made, listed by a nationally recognized testing agency, for venting gas appliances, gas incinerators, and solid or liquid fuel burning appliances.
2. Masonry Chimneys. Field constructed chimneys built in accordance with the City of Madison Building Code (Chapter 29).

3. Metal Chimneys. Chimneys made of metal of adequate thickness properly galvanized or properly welded or riveted and built in accordance with nationally recognized codes or standards.

(b) Gas Vents.
1. Type B Gas Vents. Factory made gas vents listed by a nationally recognized testing agency for venting listed or approved appliances equipped to burn only gas.
2. Type B/W Gas Vents. Factory made gas vents listed by a nationally recognized testing agency for venting listed or approved gas-fired recessed heaters.
3. Type C Gas Vents. Vents constructed of sheet copper not less than twenty-four (24) ounces per square foot or galvanized iron of not less than No. 20 U. S. Standard gauge or other approved noncombustible corrosion-resistant material.

(c) Chimney Liner. A vent pipe or flue liner inserted within a chimney for the purpose of flue products and preventing such condensation from contact with the interior of the chimney in which it is inserted.

(d) Chimney Flue. The flue gas conveying passageway in a chimney.

(e) Vent. A conduit or passageway, vertical or nearly so, for conveying vent gases to the outer air.

(f) Chimney Connector. (Use in place of smoke pipe or flue pipe.) The pipe which connects a solid or liquid fuel burning appliance to a chimney.

(g) Vent Connector. The pipe which connects a gas appliance to a gas vent or chimney.

(h) Draft Hood. A device built into an appliance, or made a part of the vent connector from an appliance which is designed to (1) assure the ready escape of the flue gases in the event of no draft, back draft, or stoppage beyond the draft hood; (2) prevent a back draft from entering the appliance; and (3) neutralize the effect of stack action of the chimney or gas vent upon the operation of the appliance.

(3) Draft Hoods; Use of. (See Section 30.25)

(4) Barometric Dampers. Barometric dampers shall be constructed and installed in accordance with the manufacturer's instructions.

(5) Types of Chimneys or Vents, Use of. It shall be the duty of the owner of any building in which it is hereafter proposed to install any furnace, boiler or appliance to provide a properly constructed chimney or vent.

(a) Gas vents or chimney systems shall be engineered and constructed so as to develop a positive flow adequate to remove all flue gases to the outside atmosphere.

(b) Chimneys. Chimneys shall be used for venting the following types of appliances.
1. Incinerators, except that metal pipe not less than No. 20 U.S. Standard gauge galvanized iron or other equivalent noncombustible, corrosion-resistant material may be used for venting incinerators installed in locations such as open sheds, breezeways or carports, provided the metal pipe is exposed and readily examinable for its full length and suitable clearance (eighteen inches from combustible) are maintained.
2. Appliances which may be converted readily to the use of solid or liquid fuels.
3. Combination gas-oil burning appliances.
4. Appliances listed for use with chimneys only.

(c) Type B Gas Vents.
1. Type B gas vents may be used to vent listed gas appliances except as provided in 30.21(5)(b) and (d) and 30.21(7)(a).
2. For the purpose of this section, listed gas appliances shall refer to appliances which are shown in a list published by an approved, nationally recognized testing agency, qualified and equipped for experimental testing

and maintaining an adequate periodic inspection of current production of listed models and whose listing states either that the appliance complies with nationally recognized safety requirements or has been tested and found safe for use in a specific manner. Listed gas appliances are considered to be equipped with draft hoods and to produce flue gas temperatures not in excess of five hundred fifty (550) degrees Fahrenheit at the outlet of the draft hood when operating at the manufacturer's normal input rating.

3. Listed Type B vents shall be installed in accordance with their listings and the manufacturer's instructions.

4. Type B vents installed outside a building, or which pass through unheated portions of a building except that portion above the roof line, shall be equipped with a capped tee with provision for a condensate drain, so arranged that excessive condensation may be disposed of without damage to the foundation, floor, walls or footings.

5. Any shape listed gas vent may be used provided its venting capacity is equal to the capacity of round pipe for which it is substituted and the minimum internal dimension of the gas vent is not less than two (2) inches.

6. The gas vent or chimney should extend high enough above the building or other neighboring obstruction so that wind from any direction will not create a positive pressure in the vicinity of the gas vent or chimney termination. Gas vents shall extend at least two (2) feet above the highest point where they pass through a roof or a building and at least two (2) feet higher than any portion of a building with ten (10) feet except that gas vents need not comply with this provision when equipped with an approved device and proper and effective venting is accomplished. Gas vents or chimneys shall not terminate less than four (4) feet in vertical height above the highest connected appliance draft hood outlet or flue collar.

7. Gas vents and factory built chimneys shall extend above the roof surface and through the flashing and shall terminate in a top or listed room assembly with a venting capacity not less than that of the gas vent or chimney. The top shall be of a design to prevent rain and debris from entering the gas vent or chimney.

8. All portions of gas vents and chimneys shall be adequately supported for the weight and design of the materials employed. Listed gas vents and factory built chimneys shall be supported and spaced in accordance with their listings and the manufacturer's instructions.

9. Size of Gas Vent or Chimney. The gas vent or chimney, when connected to a single appliance, shall be not less than the size of the draft hood outlet, or as provided in Section 30.21. When more than one (1) appliance is connected to a gas vent or chimney, the area of the passageway shall be not less than the area of the largest vent connector, plus fifty percent (50%) of the areas of additional vent connectors or as provided in Subsection (8) hereof.

(d) Marking of Type B Vents. Gas vent systems shall be plainly and permanently identified by a label reading:

"This gas vent is for appliances which burn gas only. Do not connect to incinerators or solid or liquid fuel burning appliances."

This label shall be attached to the wall or ceiling at a point near where the gas vent system enters the wall, ceiling or chimney.

(e) Type BW Gas Vents.

1. Type BW gas vents shall be used with listed vented recessed heaters when installed with combustible two by four (2 x 4) wall construction.
2. Listed Type BW gas vents shall be installed in accordance with their listings and the manufacturer's instructions.
3. Type BW gas vents serving a vented recessed heater shall not terminate less than twelve (12) feet in vertical height above the bottom of the heater.
4. Type C Gas Vents.
   a. Type C gas vents shall be used only for runs directly from the space in which the appliance is located through the roof to the outer air. Such gas vents shall not originate in any unoccupied attic or concealed space, and shall not pass through any attic, inside wall, concealed space, or through any floor.
   b. When a Type C gas vent passes through a roof constructed of combustible material, it shall be guarded at the point of passage by a method described in 30.21(6)(n) or by a noncombustible nonventilating thimble not less than four (4) inches larger in diameter than the vent pipe and extending not less than eighteen (18) inches above and six (6) inches below the roof with annular space open at the bottom and closed only at the top.

(6) Vent Connectors.

(a) Materials. Vent connectors used for gas appliances having draft hoods and for listed conversion burners having draft hoods, shall be constructed of materials having resistance to corrosion and heat not less than that of No. 24 U.S. Standard gauge galvanized steel except that Type B vent material may be used as the connector between the draft hood and the chimney.

(b) Clearance. Vent connectors shall be located in such a manner that continued operation of the appliance will not raise the temperature of surrounding combustible construction more than ninety (90) degrees Fahrenheit above normal room temperature when measured with mercury thermometers or conventional bead type thermocouples. Minimum clearances of vent connectors to combustible material shall be in accordance with Table No. 1 of this section.

(c) Avoid Unnecessary Bends. The vent connector shall be installed so as to avoid excessive turns or other construction features which create unnecessary resistance to flow of vent gases.

(d) Joints. Vent connectors shall be firmly attached to draft hood outlets by sheet metal screws or other approved means. Vent connectors using listed Type B gas vent material shall be securely assembled, using the method shown in the listing and the manufacturer's instructions. Joints of other than listed Type B gas vent material shall be securely fastened by sheet metal screws or other approved materials.

(e) Pitch. Vent connectors attached directly to side outlet draft hoods, such as on floor furnaces, shall be pitched upward from the appliance at least one-fourth (¼) inch per foot. Vent connectors attached to top outlet draft hoods by means of a ninety (90) degree elbow may be horizontal or pitched upward from the appliance. No portion of any vent connector shall be run downward from the appliance nor shall there be any dips or sags.

(f) Length. The horizontal run of the vent connector shall be as short as possible and the appliance shall be located as near to the gas vent or chimney as practicable. The maximum length of an uninsulated horizontal run of vent connector shall not exceed seventy-five percent (75%) of the height of the gas vent or chimney.

TABLE NO. 1
VENT CONNECTOR CLEARANCES FOR GAS APPLIANCES

Appliance	Minimum Distance from Combustible Material	
	Listed Type B Gas Vent Material	Vent Connectors of Other than Type B Material
Listed Boiler	1" or as listed*	6"
Listed Warm Air Furnace	1" or as listed*	6"
Listed Water Heater	1" or as listed*	6"
Listed Room Heater	1" or as listed*	6"
Listed Floor Furnace	1" or as listed*	6"
Listed Incinerator	Not Permitted	18"
Listed Conversion Burner (with draft hood)	6"	9"
Unlisted Appliances (having draft hoods)	6"	9"
Unlisted Appliances (without draft hoods)	Not Permitted	18"

*Where listing by national agency calls for greater distance, that distance shall apply.

The clearances from vent connectors to combustible materials may be reduced when combustible material is protected as specified in Table No. 2.

TABLE NO. 2
REDUCTION OF CLEARANCES WITH SPECIFIED FORMS OF PROTECTION

Type of protection applied to & covering all surfaces of combustible material w/in distance specified as required clearance w/no protection (See Figs. 7,8,9)	Where required clearance w/no protection from appliance, vent connector, or single wall metal pipe is:									
	36"		18"		12"		9"		6"	
	Allowable Clearances w/Specified Protection, inches									
	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear
a) 3½" thick masonry wall w/out ventilated air space	—	24	—	12	—	9	—	5	—	5
b) ½" insulation board over 1" glass fiber or mineral wool batts	24	18	12	9	9	6	6	5	4	3
c) 0.024 (24 gauge) sheet metal over 1" glass fiber or mineral wool batts reinforced w/wire on rear face w/ventilated air space	18	12	9	6	6	4	5	3	3	3
d) 3½" thick masonry wall w/ventilated air space	—	12	—	6	—	6	—	6	—	6

Type of protection applied to & covering all surfaces of combustible material w/in distance specified as required clearance w/no protection (See Figs. 7,8,9)	Where required clearance w/no protection from appliance, vent connector, or single wall metal pipe is:									
	36"		18"		12"		9"		6"	
	Allowable Clearances w/Specified Protection, inches									
	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear	Above	Sides and Rear
e) 0.024 (24 gauge) sheet metal w/ventilated air space	18	12	9	6	6	4	5	3	3	2
f) ½" thick insulation board w/ventilated air space	18	12	9	6	6	4	5	3	3	3
g) 0.024 (24 gauge) sheet metal w/ventilated air space over 0.024 (24 gauge) sheet metal w/ventilated air space	18	12	9	6	6	4	5	3	3	3
h) 1" glass fiber or mineral wool batts sandwiched between two sheets 0.024 (24 gauge) sheet metal w/ventilated air space	18	12	9	6	6	4	5	3	3	3

NOTES APPLICABLE TO TABLE NO. 2

1. Reduction of clearances from combustible materials shall not interfere with combustion air, draft hood clearance and relief, and accessibility of servicing.
2. All clearances shall be measured from the outer surface of the combustible material to the nearest point on the surface of the appliance, disregarding any intervening protection applied to the combustible material.
3. Spacers and ties shall be of noncombustible material. No spacer or tie shall be used directly opposite appliance or connector.
4. With all clearance reduction systems using a ventilated air space, adequate provision for air circulation shall be provided as described. (See Figures 7 and 8.)
5. There shall be at least 1 inch between clearance reduction system and combustible walls and ceilings for reduction systems using ventilated air space.
6. If a wall protector is mounted on a single flat wall away from corners, adequate air circulation may be provided by leaving only the bottom and top edges or only the side and top edges open with at least 1 inch air gap.
7. Mineral wool batts (blanket or board) shall have a minimum density of 8 lb/ft3 and a minimum melting point of 1500°F.
8. Insulation material used as part of clearance reduction system shall have a thermal conductivity of 1.0 (Btu-in)/(sq ft-hr-F) or less.
9. There shall be at least 1 inch between the appliance and the protector. In no case shall the clearance between the appliance and the combustible surface be reduced below that allowed in the table.

10. All clearances and thicknesses are minimum; larger clearances and thicknesses are acceptable.

(Sec. 30.21(6)(f)Table 2 R. & Re-Cr. by Ord. 10,255, Adopted 5-7-91)

(g) Support. Vent connectors shall be securely supported for the weight and design of the materials employed to maintain proper clearances to prevent physical damage and to prevent separation of the joints. Support shall be accomplished by means of metal hangers spaced not more than six (6) feet on centers. Wire hangers will not be permitted.

(h) Provide Vertical Run. Vent connectors shall have the greatest possible rise consistent with head room available between the draft hood outlet and the start of the horizontal run.

(i) Location. When the vent connector used for an appliance having a draft hood must be located in, or pass through a crawl space or other area difficult of access which may be cold, that portion of the vent connector shall be of listed Type B gas vent material or material having equivalent insulation qualities. Type C gas vent material used as a vent connector shall not pass through any floor or ceiling.

(j) Chimney Connection. When an existing chimney wall is to be pierced for a chimney connection, approval shall be obtained from the Building Inspection Division of the Department of Planning and Community and Economic Development before the opening is cut. An inspection shall be made and approved before the connection is made to the opening. In entering a passageway in a masonry or metal chimney, the vent connector shall be installed above the extreme bottom to avoid stoppage. Means shall be employed which will prevent the vent connector from entering so far as to restrict the space between its end and the opposite wall of the chimney. A thimble or slip joint may be used to facilitate removal of the vent connector. The vent connector shall be firmly attached or inserted into the thimble or slip joint to prevent it from falling out. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(k) Fireplace. A vent connector shall not be connected to a chimney serving a fireplace unless the fireplace opening is permanently sealed.

(l) Size, Height and Length of Interconnected Vent Connectors. Two (2) or more vent connectors may be joined through a gas vent manifold or to a gas vent provided that:

1. Vent connectors carrying the gases of a single appliance shall have the greatest possible rise consistent with the head room available between the draft hood outlet and the points of its interconnection to manifold or to common vent.
2. Size of vent connector shall be equal to or greater than the size shown in Table No. 3 of this section for the allowable heat input.
3. When Table No. 3 indicates that a vent connector must have a larger size than the draft hood, the size increase shall be made at the draft hood outlet.

TABLE NO. 3
ALLOWABLE INPUT TO VENT CONNECTORS BEFORE INTERCONNECTION

Connector Size in Inches	Maximum Appliance Input — In BTU Per Hour
3	30,000
4	55,000
5	80,000
6	125,000
7	180,000
8	245,000
9 and above	5,000 BTU per square inch of cross-sectional area.

(m) Dampers. Manually operated dampers shall not be placed in the vent connector from any gas appliance except an incinerator. Fixed baffles ahead of draft hoods are not classified as dampers.

(n) Use of Thimbles.

1. When passing through combustible walls or partitions, vent connectors built of listed Type B gas vent material shall be installed so that the clearances required by the listing are maintained.

2. Vent connectors made of other than Type B vent material shall not pass through any combustible walls unless they are guarded at the point of passage by ventilated thimbles not smaller than the following:

   For listed appliances, except incinerators - four (4) inches larger in diameter than the vent connector, unless there is a run of not less than six (6) feet of vent connector in the open, between the draft hood outlet and the thimble in which case the thimble may be two (2) inches larger in diameter than the vent connector.

   For unlisted appliances having draft hoods - six (6) inches larger in diameter than the vent connector.

   For incinerators and unlisted appliances - twelve (12) inches larger in diameter than the vent connector.

3. In lieu of thimble protection, all combustible material in the wall shall be cut away from the vent connector a sufficient distance to provide the clearance required from such vent connector to combustible material. Any material used to close up such opening shall be noncombustible.

(o) Size. Vent connectors shall not be smaller than the size of the flue collar or the draft hood outlet. When the appliance has more than one (1) draft hood outlet and in the absence of the appliance manufacturer's specific instructions, the vent connector shall equal the combined area of the draft hood outlets for which it acts as a common connector to the gas vent chimney.

(7) Special Venting Arrangements.

(a) Appliances With Sealed Combustion Chamber. The provisions of draft hoods in Section 30.21 (1) through (6), do not apply to listed appliances having sealed combustion chambers and which are so constructed and installed that all air for combustion is derived from outside the space being heated and all flue gases are discharged to the outside atmosphere. Such appliances, having integral venting, shall be considered as being properly vented when they are installed in accordance with their listing and the manufacturer's instructions.

(b) Gas Vent and Chimney Exhausters. Forced venting and exhaust systems and power burners usually require special engineering and shall, in all cases, be subject to the approval of the Director of the Building Inspection Division. However, when used, the following regulations shall apply:

1. When an exhauster is used with gas appliances requiring venting, provisions shall be made to prevent the flow of gas to the main burner in the event of failure of the exhaust system.
2. A vent connector serving a gas appliance vented by natural draft shall not be connected into the discharge side of a power exhauster.
3. Induced Draft. Where an induced draft or forced draft fan is used with gas, oil or solid fuel, it shall be equipped with a control that will not allow burner to start until proper draft has been established.

(Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(8) Engineered Vent Systems. The size of chimneys, gas vents or vent connectors specified in this section shall not necessarily govern where standard engineering methods have been used to design the vent system.

(9) Flues or Vents. This section applies only to natural draft venting. Forced venting or exhaust systems and power burners usually require special engineering and shall, in all cases, be subject to the approval of the Director of the Building Inspection Division. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(a) Check Flue or Vent. Before connecting a flue or vent connector, the flue or vent shall be examined to ascertain that it is properly constructed, clear, and will freely conduct the products of combustion to the outer air.

(b) Size. For conversion burners not exceeding four hundred thousand (400,000) hourly BTU input, the internal cross-sectional area of the vent connector and the vent flue shall be such as to provide not less than one (1) square inch of flue area per six thousand five hundred (6,500) BTU combined input of all gas appliances connected to such flue pipe as set forth in Table No. 3. In no case shall this flue pipe be less than five (5) inches in diameter.

For conversion burners exceeding four hundred thousand (400,000) hourly BTU input, where the chimney or vertical flue is of such height as to provide a high draft intensity, the area of the chimney or vertical flue may be based on an input of greater than six thousand five hundred (6,500) BTU per square inch of cross-sectional area, subject to the approval of the Building Inspection Division of the Department of Planning and Community and Economic Development. (Am. by ORD-08-00109, 10-7-08)

TABLE NO. 4
MINIMUM PERMISSIBLE FLUE SIZES FOR GAS CONVERSION BURNER INSTALLATIONS

Input Rating BTU Per Hour	Area of Flue Outlet - Sq. In.	Diameter of Flue Pipe - Inches
120,000	19.6	5
160,000	28.3	6
250,000	38.5	7
320,000	50.3	8
410,000	63.6	9

(Sec. 30.21(9) (Am. by Ord. 8081, 7-29-83)

(10) Insufficient Draft or Down-Draft to be Provided Against. In the event conditions at the time of installation are such that the chimney or vertical flue has insufficient natural draft to properly carry away the products of combustion, provision shall be made to rectify existing conditions or provide mechanical means of maintaining constant up-drafting during appliance operation. The draft must be proved before the burner may be operated.

(11) Smoke Pipes.

(a) Required Weight of Metal Smoke Pipes Used With Solid and Liquid Fuels. For each and every steam or hot water boiler, warm air furnace or incinerators hereafter installed under the provisions of this code, the area of the breeching or smoke pipe shall not be less than the area of the smoke collar of the boiler or furnace to which it is connected, and each such breeching or smoke pipe shall be made of material equal in durability to galvanized iron of thicknesses (U.S. Standard Gauge), for the various breeching or smoke pipes, not less than the following:

For areas from 13 to 113 square inches - No. 24 Gauge.

For areas from 114 to 177 square inches - No. 18 Gauge.

For areas from 178 to 314 square inches - No. 16 Gauge.

For areas from 315 to 616 square inches - No. 14 Gauge.

For areas from 617 to 1,017 square inches - No. 12 Gauge.

For areas from 1,018 to 2,827 square inches - No. 10 Gauge.

(b) Smoke Pipes, How Installed. Each such breeching or vent connector or smoke pipe shall be lock seamed or riveted, with all joints lapped not less than one and one-half (1½) inches or be rigidly secured, and shall have proper construction for making tight connection to chimney flue the full thickness of masonry, and shall not extend more than one-fourth (¼) inch beyond liner.

The smoke pipe shall extend full size of the chimney flue for not less than one and one-half (1½) diameters nor more than two (2) diameters so that additional appliances may be properly vented into the manifold.

Smoke pipes shall be supported by means of strap hangers spaced not less than six (6) feet on centers. Wire hangers will not be permitted.

Each such breeching or smoke pipe shall be as short and direct to the chimney flue as possible, and shall be installed with a pitch upward of not less than one-fourth (¼) inch per running foot.

(c) Multiple Smoke Pipe Connections. Two (2) or more smoke pipes shall not be jointed for a single flue connection unless the smoke pipe and flue are of sufficient size to serve all the appliances so connected. The manifold for multiple smoke pipe connections shall be designed and installed so that the inlet connections enter so as not to cause opposed venting.

(d) Clearances. No part of any smoke pipe shall be placed nearer to any combustible ceiling than one and one-half (1½) times the diameter of the pipe; or nearer to any combustible wall than one (1) diameter of the pipe; but the above distances may be reduced by one-half (½) if the wall or ceiling is covered with one-fourth (¼) inch asbestos paper and a metal shield so fastened so that an inch space exists between this shield and the combustible material.

(12) Dampers. All smoke pipes on hand-fired coal equipment shall be provided with a check damper placed on the side of the smoke pipe or at the end of a tee. Where cast iron smoke pipe dampers are used, they must be placed between the check damper and the heating equipment and supported on both sides of pipe. The smoke pipe on all incinerators that are not fired by auxiliary fuel shall have a cast iron damper to control the draft.

Automatically operated dampers shall be of approved type designed to maintain a safe damper opening at all times and arranged to prevent starting of the burner unless the damper is opened, at least twenty percent (20%) of the internal cross-section area.

(13) Draft Regulators. A draft regulator or draft hood shall be provided for all fired appliances, unless the burner is listed for use without one. (Refer to Section 30.25.)

30.22 - 30.24 RESERVED FOR FUTURE USE.

30.25 CONTROL SYSTEMS FOR AUTOMATIC FIRING EQUIPMENT.

(1) General. All systems shall have one (1) operating control to control temperature for furnace or pressure for boilers. Each system shall have, in addition, one (1) high limit control. These controls shall be one hundred twenty (120) volts, one (1) side grounded and shall be wired into the ungrounded line (except where self-generating controls are used). In addition, all steam boilers shall have a low water cutoff and all hot water boilers over two hundred thousand (200,000) BTU input shall be equipped with a low water cutoff. The above-mentioned control shall be wired into the circuit ahead of all other controls or relays.

All motors of one-eighths (⅛) HP and larger used in conjunction with any heating, ventilating, or air conditioning equipment shall be on its own circuit. Each motor shall be protected by a proper Type S time delay fuse, except that fractional horse power motors for circulating pumps, unit ventilators, etc. may be grouped on a motor branch circuit. If the motors for the circulating pumps, unit ventilators, etc. are provided with integral thermal overload protection, external over-current protection will not be required.

All heating, ventilating, and air conditioning units shall have an electrical disconnect located within ten (10) feet and in sight of the unit.

(2) Relief Valves. All boilers shall have an A.S.M.E. approved pressure relief valve rated at the full gross rating of the boiler input. There shall be no valves between the boiler and the relief valve. The discharge from the water relief valve and the discharge from the low water cutoffs shall be piped full size to within eighteen (18) inches of the floor.

(3) Draft Controls. All automatically fired natural draft equipment shall have either barometric or mechanical draft control equipment installed in the boiler breeching. Gas-fired boilers or furnaces may use approved draft hoods, mechanical draft control or barometric draft regulators. Barometric draft regulators used on gas-fired equipment must be free-swinging with no stops within one hundred eighty (180) degrees from the pivot point. No barometric damper, draft hood or sensor for mechanical draft control shall be located in any space other than where the burner is drawing combustion air.

(4) Stoker Controls. Stoker-fired steam boilers with zone valves shall have a reverse acting pressure control or aquastat to open one of the zone valves at a pressure or temperature below the setting of the high limit control. On water boilers, there shall be reverse acting submerged type aquastat to open the zone valve and/or start a circulating pump below the setting of the high limit control. On a furnace with zone control or fan system, there shall be a reverse acting airstat to open a zone damper and/or turn on the fan below the setting of the high limit control. All stokers shall be equipped with a timing device to operate the stoker a minimum of one (1) minute every thirty (30) minutes during the off period.

All bin feed type stokers shall have out-fire control.

(5) Retrofit Controls and Devices. Controls or devices installed on all gas fired heating equipment shall be certified by American Gas Association (A.G.A.) or any other nationally recognized testing laboratory and be used for the certified purposes only.

The installation shall be performed by a licensed heating contractor, and it shall be the responsibility of the installing contractor to make the installation according to the manufacturer's instructions.

(Sec. 30.25(5) Am. by Ord. 6576, 3-21-79)

30.26 COMMERCIAL AND INDUSTRIAL BURNERS OVER TEN (10) GALLONS PER HOUR OR 1,500,000 BTU PER HOUR.

(1) General. Flame safeguard equipment on all gas and/or oil burning equipment shall be two (2) wire, one hundred twenty (120) volt, one side grounded and approved for the equipment it is to be installed with.

On commercial gas or combination gas-oil burners, a hi-lo gas pressure switch shall be provided and wired so that the main fuel valve cannot open if the gas pressure is above or below the rating of the equipment.

On pressure type burners, forced draft burners or induced draft burners, an air flow switch shall be provided so that the main fuel valve cannot open unless all fans are running. Natural draft burners must have a prepurge period of a minimum of ninety (90) seconds after the burner motor starts and all dampers are wide open before opening the fuel valve.

Forced or induced draft burners must have a prepurge period of at least four (4) air changes after the motor starts and all dampers are wide open before opening the fuel valve. Oil burners shall be equipped with low fire start.

Gas burners shall be equipped with slow opening gas valves.

Where gas pressures exceed fourteen (14) inches W.C. piped to a burner, an applicable gas pressure regulator shall be installed at each burner. The automatic gas valve shall be slow opening motorized with positive shutoff in case of power failure.

(2) Continuous Pilot Burning. Gas burners using continuous pilots shall be equipped with U.L. or A.C.A. approved safety pilot and automatic shutoff valve.

(3) Location of Pilot Valves. The gas supply to the pilot or group of pilots on all burners shall be controlled independently of the main gas burner including independent manual shutoff valve.

30.27 RESERVED FOR FUTURE USE.

30.28 RESIDENTIAL AIR CONDITIONING.

(1) Scope. This section is intended to insure safety of operation and the location of the components in conjunction with the heating and cooling or cooling systems of one (1) and two (2) family residences where central air conditioning is employed.

(2) Central Air Conditioning Systems (Existing System). When air conditioning is added to an existing heating system, the air volume shall be maintained so the BTU room requirement will be satisfied during the heating cycle.

(3) Controls. On all heating and cooling systems, the fan and limit switch shall be located between the heat exchanger and the cooling coil.

(4) Wiring. All wiring shall comply with the City of Madison Electrical Code, Chapter 19, of the Madison General Ordinances.

(5) Manufacturer's Name and Rating Plate. Manufacturer's name and rating plate shall be affixed to all units.

(6) Location of Condensing Unit. A plot plan shall be submitted with application for a permit showing the location of the condensing unit. The condensing unit shall not be located in the required front or side yards.

(7) Foundation for Condensing Unit. All units shall be placed on a level waterproof and fireproof base and on well-tamped earth.

(8) Refrigerants. ARI Group 2 refrigerants shall not be used for residential air conditioning (ammonia, dischloroethylene, methyl or ethyl chloride, methyl formate and sulphur dioxide). Substitutes of refrigerants shall not be made.

(9) Piping. Joints are to be made by braising or by mechanical joints. Joints to be made by soldering shall be made only with materials that melt at temperatures above four hundred (400) degrees Fahrenheit.

Soft annealed copper tubing used for refrigerant piping erected on the premises shall not be used in sizes larger than one and three-eighths (1⅜) inches Standard Size (1.375 outside diameter). Mechanical joints shall not be used on soft annealed copper tubing on sizes larger than seven-eighths (⅞) inch Standard Size (0.875 outside diameter). It shall conform to ASTM Specifications B280-62.

(10) Installation of Piping. All pipe shall be strapped to the ceiling and free of kinks. The unused portion of precharge or factory furnished pipe shall be strapped to the ceiling in a workmanlike manner. All holes to the exterior shall be sealed tightly.

(11) Location of Evaporator. The evaporator coil shall be located upstream of the heating equipment.

(12) Condensate Drain. The condensate drain shall be installed according to City of Madison Plumbing Code, Chapter 18, of the Madison General Ordinances.

30.30 INCINERATORS.

(1) Application. The provisions of this Code shall apply to all direct-fed incinerator installations as defined in the I.I.A. Incinerator Standards, dated November, 1968.* Further, this Code shall apply to all buildings where incinerators are required to be installed by Section and to any other incinerator installation of the direct-fed type. (Am. by Ord. 8081, 7-29-83; ORD-10-00083, 9-15-10)

*Available for review in Building Inspection Division of the Department of Planning and Community and Economic Development, Suite 100, Madison Municipal Building, Madison, Wisconsin, and may be ordered from I.I.A., 60 E. 42nd Street, New York, New York 10017. (Am. by ORD-08-00109, 10-7-08)

(2) Standards - Adopted by Reference. The I. I. A. Incinerator Standards, dated November, 1968, is hereby adopted by reference as a standard for all direct-fed incinerators.

(3) Out-of-Doors Burning. All out-of-doors burning shall comply with the requirements as set forth in Section 34.307. (Am. by ORD-10-00083, 9-15-10)

(4) Definitions. Definitions and incinerator terminology shall be that as defined in I. I. A. Incinerator Standards, dated November, 1968.

(5) Permit. There shall be a permit secured for each incinerator hereafter installed in the City of Madison.

Note: Incinerators burning 1,000 pounds per hour or more shall be required to obtain a permit from the Wisconsin Department of Natural Resources.

(6) Permit Fee. A permit fee of ten dollars ($10) will be paid by the installer for each incinerator installed and an additional fee of five dollars ($5) per floor will be paid for a multi-floor charge chute incinerator installation.

(7) Plan Approval. Plans for all job-assembled incinerators shall be submitted to the Building Inspection Division of the Department of Planning and Community and Economic Development for approval before a permit may be issued. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(8) Penalty. The penalty provisions of Section 30.01(14) shall apply. (Am. by ORD-10-00058, 6-11-10)

(9) Incinerator Design and Capacity.

(a) The incinerator shall be of a design and size large enough to incinerate the amount of trash or combustible waste accumulated daily by the occupancy.

(b) Incinerators shall be designed according to the type of waste to be incinerated.

(c) Incinerators shall be of a design and size approved by the Building Inspection Division of the Department of Planning and Community and Economic Development. Installations meeting the standards of "NFPA #82", "Incinerators, Rubbish Handling, 1972" or "Incinerator Standards of the Incinerator Institute of America" will be accepted. (Am. by Ord. 8081, 7-29-83; ORD-08-00109, 10-7-08)

(10) Inspections. Inspections of all multi-floor charging chute incinerator installations shall be called for and made on each floor as soon as the charging chute opening is installed.

(11) Chimneys and Flues.

(a) Chimneys serving an incinerator shall be used for no other purpose and shall be constructed to comply with the Building Code (Chapter 29) requirements, except that incinerators used in a one or two-family residence may be manifolded into the breeching serving other appliances, providing the chimney and breeching are sized to handle the additional load.

(b) The chimney shall not be smaller than the outlet of the incinerator, but in no case less than eight by eight (8 × 8) inches or sixty-four (64) square inches. The flue serving the incinerator shall have its top equipped with a copper or equal basket of fourteen (14) gauge wire and having openings of no more than one-half (½) inch.

(c) All incinerator flue stacks under two hundred sixty (260) square inches shall have clay fire flue liners surrounded with four (4) inches of solid masonry. All flue stacks over two hundred sixty (260) square inches shall be constructed within the requirements of IBC Section 2113. (Am. by ORD-12-00149, 12-5-12)

(12) Class II Incinerators Prohibited.

(a) No incinerators defined in I. I. A. Incinerator Standards, dated November, 1968, as Class II incinerators, shall be used after the publication of this ordinance.

(b) All Class II incinerators shall be either removed or permanently sealed so that there will be no possibility of them being reactivated.

(Section 30.30 R. & Recr. by Ord. 4319, 9-20-73)

30.31 RESERVED FOR FUTURE USE. (R. by Ord. 10,255, Adopted 5-7-91)
[EDITOR'S NOTE: See SPS 323.045(8), Supplemental solid-fuel burning units connected to a furnace for installation requirements. (Am. by ORD-12-00035, 3-28-12)]

30.32 RESERVED FOR FUTURE USE. (R. by Ord. 10,255, Adopted 5-7-91)

30.33 - 30.49 RESERVED FOR FUTURE USE.

30.50 AIR POLLUTION.

(1) The office of Smoke and Emissions Control is herein created. The Heating Inspector shall be responsible for the enforcement of this ordinance. The Inspector shall work under the direction and be responsible to the Director of the Building Inspection Division. (Am. by ORD-08-00109, 10-7-08)

(2) The Heating Inspector shall see that this section relating to smoke abatement is enforced.

(3) Emission of Dense Smoke. The emission of dense smoke within the corporate limits of the City of Madison, and one (1) mile there from the smokestack or chimney of any building or premises, or from any open fire, or from any portable boiler, portable crane, derrick, hoist, tar or asphalt kettle or any other similar machine or contrivance, except for a period of or periods aggregating nine (9) minutes or less of a density of No. 2 smoke as defined by the Ringelmann Chart is prohibited and is hereby declared to be a nuisance and may be summarily abated by the Smoke and Heating Plant Inspector in charge or by anyone whom the Smoke and Heating Plant Inspector may duly authorize for such purpose. Such abatement may be in addition to the fine hereinafter provided. (Am. by ORD-14-00012, 1-14-14)

(4) Grading the Smoke Density. For the purpose of grading the density of smoke, the Ringelmann Chart, as now published and used by the United States Bureau of Mines, which is hereby made a part of this ordinance by reference shall be the standard.

Smoke shall be considered dense when it is equal to or of greater density than No. 2 of said chart.

(5) Soot, Noxious Gases, Flyash, Etc.

(a) No person or persons, firm or corporation, shall cause, permit or allow to escape into the open air, such quantities of flyash, soot, or smoke, which are equal to or

greater in density than as defined by No. 2 of the Ringelmann Chart for a period of or periods aggregating six (6) minutes or more, in any sixty (60) minute period, or from the stack of any locomotive after it is in or ready for service for a period of or periods in excess of one (1) continuous minute in any sixty (60) minute period. Dust or flyash emission shall not be in excess of eighty-five-hundredths (0.85) lbs. per one thousand (1,000) lbs. of stack gases adjusted to twelve percent (12%) carbon dioxide (CO2).

(b) No person, or person, firm or corporation, shall cause, permit or allow the escape into the open air of noxious gases, acids, dust or other material, except material identified in Section 30.50(5)(a), in such places or manner and quantity as to cause injury, detriment or nuisance to the public or to endanger the health or safety of the public or in such manner as to cause physical damage to property.

(c) Any person, or persons, firm, or corporation, violating any of the provisions of this section shall forfeit not more than two hundred dollars ($200) for each offense. Each day during which the provisions of this section shall be violated shall be deemed a separate offense.

(6) Any person violating any of the provisions of this section for which a penalty is not specifically provided shall be subject to a forfeiture of not more than two hundred dollars ($200).

(Sec. 30.50 Am. by Ord. 10,255, Adopted 5-7-91)

ALCOHOL BEVERAGES REGULATED

Adopted April 23, 1985

Published by direction of the Common Council of the City of Madison, in accordance with Section 66.0103, Wisconsin Statutes.

(Cr. by Ord. 8575, 5-6-85)

Section

38.01 Strict Compliance Required.
38.02 Definitions.
38.03 License Classifications.
38.031 Wisconsin Statutes, Chapter 125 Incorporated by Reference.
38.04 Underage and Intoxicated Persons, Presence on Licensed Premises; Possession; Misuse of Identification; Penalties. (Am. by Ord. 9276, 10-14-87)
38.045 Underage Alcohol Consumption and Illegal Use of a Controlled Substance at Lodging Establishments. (Cr. by ORD-12-00124, 10-10-12)

38.06 General Provisions and Hours.
38.07 General Restrictions.
38.08 Fermented Malt Beverages.
38.09 Intoxicating Liquor.
38.10 Revocation, Suspension or Nonrenewal of License.
38.11 Adult Entertainment Tavern License.
38.12 Habitually Intoxicated Persons. (Cr. by ORD-10-00065, 7-13-10)
38.13 Enforcement. (Renum. by ORD-10-00065, 7-13-10)

38.01 STRICT COMPLIANCE REQUIRED. It shall be unlawful for any person, firm, association, corporation or limited liability company to sell or keep for sale at wholesale or retail, or permit to be sold or kept for sale at wholesale or retail, within the City of Madison, any alcohol beverages or soft drink except in strict accordance with the provisions of this chapter. Any person who violates this provision shall pay a forfeiture not to exceed $500. (Am. by Ord. 10,883, Adopted 4-5-94)

38.02 DEFINITIONS. Whenever the following terms are used in this section, they shall be construed as follows:

"Alcohol beverages" means fermented malt beverages and intoxicating liquor.

"Barroom" means a room that is primarily used for the sale or consumption of alcohol beverages. (Cr. by Ord. 12,530, 2-10-00)

"Brewer" means any person who manufactures fermented malt beverages for sale or transportation.

"Brewery premises" means all land and buildings used in the manufacture or sale of fermented malt beverages at a brewer's principal place of business.

"Campus" has the meaning given under Wis. Stats. Sec. 36.05(3).

"Club" means an organization, whether incorporated or not, which is the owner, lessee or occupant of a building or portion thereof used exclusively for club purposes, which is operated solely for a recreational, fraternal, social, patriotic, political, benevolent or athletic purpose but not for pecuniary gain and which only sells alcohol beverages incidental to its operation.

"Department" means the department of revenue, State of Wisconsin.

"Dwelling" means a building, or portion thereof, used exclusively for human habitation, including single-family, two-family and multiple-family dwellings, but not including hotels, motels or lodging houses.

"Fermented malt beverages" means any beverage made by the alcohol fermentation of an infusion in potable water of barley malt and hops, with or without unmalted grains or decorticated and degerminated grains or sugar containing 0.5% or more of alcohol by volume.

"Federal or state public accommodation discrimination" means a finding of a violation of 42 USC Sec 2000a by the U.S. EEOC or duly designated referral agencies or of Sec. 101.22(9), Wis. Stats., by the State of Wisconsin Equal Rights Division of the Department of Workforce Development or duly designated referral agencies. (Cr. by Ord. 11,183, Adopted 2-21-95; Am. by Ord. 12,322, Adopted 2-2-99)

"Hotel" means a hotel as defined in Wis. Stats. Sec. 254.61(3), provided with a restaurant. (Am. by Ord. 11,329, 8-11-95)

"Intoxicating liquor" means all ardent, spiritous, distilled or vinous liquors, liquids or compounds, whether medicated, proprietary, patented or not, and by whatever name called, containing 0.5% or more of alcohol by volume, which are beverages, but does not include 'fermented malt beverages' which contain less than 5% of alcohol by weight.

"Legal drinking age" means twenty-one (21) years of age. The "legal drinking age" first applies to persons who attain the age of nineteen (19) years after August 31, 1986. (Am. by Ord. 8940, Adopted 8-19-86, Effective 9-1-86, and Ord. 8954, 9-12-86)

"License" means an authorization to sell alcohol beverages issued by a municipal governing body under this chapter.

"Manufacturer" means a person, other than a rectifier, that ferments, manufacturers or distills intoxicating liquor.

"Municipality" means a city, village or town.

"Painting studio" means an establishment that is primarily engaged in the business of providing to customers instruction in the art of painting and that offers customers the opportunity to purchase food and beverages for consumption while they paint. (Cr. by ORD-15-00125, 11-11-15)

"Peace officer" means a sheriff, undersheriff, deputy sheriff, police officer, constable, marshal, deputy marshal or any employee of the department or of the department of justice authorized to act under this chapter.

"Permit" means any permit issued by the department under this chapter.

"Person" means a natural person, sole proprietorship, partnership, limited liability company, corporation or association or the owner of a single-owner entity that is disregarded as a separate entity under Chapter 71, Wis. Stats. (Am. by Ord. 12,068, 3-27-98)

"Premises" means the area described in a license or permit.

"Primary American source of supply" means the manufacturer, the rectifier, the owner of intoxicating liquor at the time it becomes a marketable product or the exclusive agent of any such person who, if the product cannot be secured directly from the manufacturer by American wholesalers, is the source closest to the manufacturer in the channel of commerce from whom the product can be secured by American wholesalers, or who, if the product can be secured directly from the manufacturer by American wholesalers, is the manufacturer.

"Principal business" means the primary activity as determined by analyzing the amount of capital, labor, time, attention and floor space devoted to each business activity and by analyzing the sources of net income and gross income. The name, appearance and advertising of the entity may also be taken into consideration if they are given less weight. (Cr. by Ord. 10,178, Adopted 1-8-91)

"Public Library" shall mean any library established under the regulations of Madison General Ordinances Section 8.12. (Am. by ORD-07-00118, 9-22-07)

"Rectifier" means any one of the following:

(a) A person that rectifies, purifies or refines distilled spirits or wines by any process other than by original and continuous distillation from mash, wort or wash, through continuous closed vessels or pipes, until the manufacture thereof is complete.

(b) A person who possesses any still or leach tub or keeps any other apparatus for refining distilled spirits.

(c) A person who after rectifying and purifying distilled spirits, by mixing such spirits with any materials, manufactures any spurious, imitation or compound liquors for sale.

(d) A distiller or any person under substantially the same control as a distiller who, without rectifying, purifying or refining distilled spirits, by mixing such spirits with any materials, manufactures any spurious, imitation or compound liquors for sale under the name of 'whiskey', 'brandy', 'gin', 'rum', 'spirits', 'cordials' or any other name.

(e) A person who places intoxicating liquor in bottles or other containers.

"Regulation" means any rule or ordinance adopted by a municipal governing body.

"Restaurant" has the meaning as defined in Wis. Stats. Sec. 254.61(5) and whose sale of alcohol beverages accounts for 50% or less of the establishment's gross receipts. This definition is effective January 1, 2004. (Am. by Ord. 11,329, 8-11-95; Ord. 13,442, 11-7-03)

"Retailer" means any person who sells, or offers for sale, any alcohol beverages to any person other than a person holding a permit or a license under this chapter.

"Sell", "sold", "sale" or "selling" means any transfer of alcohol beverages with consideration or any transfer without consideration if knowingly made for purposes of evading the law relating to the sale of alcohol beverages or any shift, device, scheme or transaction for obtaining alcohol beverages, including the solicitation of orders for, or the sale for future delivery of, alcohol beverages.

"Soft drink" shall mean any liquid capable of being used for beverage purposes containing any degree of alcohol less than one-half (½) of one percent (1%) by volume.

"Tavern" shall mean any place in which fermented malt beverages are sold for consumption upon said premises.

"Under the influence" means not only all the well-known and easily recognized conditions and degrees of intoxication, but any abnormal mental or physical condition which is the result of indulging to any degree in alcohol beverages and which tends to deprive a person of the clearness of intellect and control of himself or herself which he or she would otherwise possess. (Cr. by Ord. 8894, 6-12-86)

"Underage person" means a person who has not attained the legal drinking age.

"Wholesaler" means a person, other than a brewer, manufacturer or rectifier, who sells alcohol beverages to a licensed retailer or to another person who holds a permit or license to sell alcohol beverages at wholesale.

"Wine" means products obtained from the normal alcohol fermentation of the juice or must of sound, ripe grapes, other fruits or other agricultural products, imitation wine, compounds sold as wine, vermouth, cider, perry, mead and sake, if such products contain 0.5% or more of alcohol by volume.

38.03 LICENSE CLASSIFICATIONS.

(1) Class A License. A Class A license shall permit its holder to keep, sell, deal and traffic in alcohol beverages within the City of Madison, for consumption elsewhere than on the premises where sold.

(2) Class B Licenses.

(a) A Class "B" license authorizes retail sales of fermented malt beverages to be consumed either on the premises where sold or off the premises, provided that only

fermented malt beverages in original packages or container and fermented malt beverages in hand-capped or sealed containers may be removed from the premises where sold. (Am. by ORD-14-00116, 7-11-14)

(b) A "Class B" license authorizes the retail sales of intoxicating liquor for consumption on the premises where sold by the glass to be consumed on the licensed premises or in the original package or container in multiples not to exceed four (4) liters at any one time and to be consumed off the licensed premises, except that wine may be sold in the original container or otherwise in any quantity to be consumed off the premises.
(R./ReCr. by Ord. 11,641, 7-29-96)

(c) A reserve Class B license means a license that is not granted or issued on December 1, 1997 and is counted under Sec. 125.51(4)(br), Wis. Stats., which authorizes the retail sale of intoxicating liquor for consumption on the premises where sold by the glass to be consumed on the licensed premises or in the original package or container in multiples not to exceed four (4) liters at any one time and to be consumed off the licensed premises, except that wine may be sold in the original container or otherwise in any quantity to be consumed off the premises. (Cr. by Ord. 12,142, 6-1-98)

(d) (R. by ORD-14-00025, 2-18-14)

(3) Class C License.

(a) A "Class C" license authorizes the retail sale of wine by the glass or in an opened original container for consumption on the premises where sold.

(b) A "Class C" license may be issued to a person qualified under Section 38.05(4) for a restaurant in which the sale of alcohol beverages accounts for less than 50% of gross receipts and which does not have a barroom or for a restaurant in which the sale of alcohol beverages accounts for less than 50% of gross receipts and which has a barroom in which wine is the only intoxicating liquor sold. A "Class C" license may be not be issued to a foreign corporation, a foreign limited liability company or a person acting as agent for or in the employ of another.

(c) A "Class C" license shall particularly describe the premises for which it is issued.

(d) The fee for a "Class C" license shall be $100.00. (Sub. (3) Cr. by Ord. 12,604, 3-3-00)

(4) Wholesaler's License. A Wholesaler's license shall permit its holder to sell and keep for sale, within the City of Madison, alcohol beverages in their original packages or containers to dealers to be consumed elsewhere than on the premises where stored or sold. (Renum. by Ord. 12,604, 3-3-00)

(5) Operator's or Manager's License. An Operator's or Manager's license shall permit its holder to serve or sell alcohol beverages. (Renum. by Ord. 12,604, 3-3-00)

(6) (R. by Ord. 13,565, 4/21/04)

(7) Provisional Retail License. A provisional retail license for Class "A", Class "B", "Class A", "Class B", or "Class C" establishments may be issued by the Madison City Clerk only to a person who has applied and been approved for by the Alcohol License Review Committee, for a Class "A", Class "B", "Class A", "Class B" or "Class C" license and authorizes only the activities that the type of retail license applied for authorizes. The fee for a provisional retail license is fifteen dollars ($15). (Cr. by ORD-07-00013, 2-2-07)

38.031 WISCONSIN STATUTES, CHAPTER 125 INCORPORATED BY REFERENCE.

Chapter 125 of the Wisconsin Statutes is hereby adopted and incorporated by reference in Chapter 38, Madison General Ordinances, so far as applicable, except as otherwise provided by this Section. Any future amendments, revisions or modifications of Chapter 125, Wis. Stats., incorporated herein by reference, are intended to be made a part of this chapter in order to secure uniform statewide regulation of the sale of alcoholic beverages. Provisions of Chapter 38,

Madison General Ordinances, that are not contained in Chapter 125, Wis. Stats., are intended as additional regulations for the sale of alcohol beverages, not in conflict with Chapter 125, Wis. Stats. (Cr. by ORD-07-00118, 9-22-07)

38.04 UNDERAGE AND INTOXICATED PERSONS, PRESENCE ON LICENSED PREMISES; POSSESSION; MISUSE OF IDENTIFICATION; PENALTIES.

(1) Intoxicated Persons.

(a) Restrictions.

1. No person may procure for, sell, dispense, or give away alcohol beverages to a person who is intoxicated.

2. No licensee or permittee may sell, vend, deal or traffic in alcohol beverages to or with a person who is intoxicated.

3. No licensee or permittee may permit an intoxicated person to be on a licensed premises.

(b) Penalties. Any person who violates Subdivision (a) shall be fined not less than $100 nor more than $500.

(Am. by Ord. 11,627, 6-28-96)

(2) Sale of Alcohol Beverages to Underage Persons.

(a) No person may procure for, sell, dispense or give away any alcohol beverages to any underage person not accompanied by his or her parent, guardian or spouse who has attained the legal drinking age.

(b) No licensee or permittee may sell, vend, deal or traffic in alcohol beverages to or with any underage person not accompanied by his or her parent, guardian or spouse who has attained the legal drinking age.

(c) No adult may knowingly permit or fail to take action to prevent the illegal consumption of alcohol beverages by an underage person on premises owned by the adult or under the adult's control. This subdivision does not apply to alcohol beverages used exclusively as part of a religious service.

(d) No adult may intentionally encourage or contribute to a violation of sub. (4) (a) or (b).

(e) Penalties.

1. In this paragraph, "violation" means a violation of this subsection or of a local ordinance that strictly conforms to par. (a) if the violation results in an imposition of a forfeiture or a conviction. For purposes of determining previous violations under sub. 2., the thirty-(30) month period shall be measured from the dates of violations that resulted in an imposition of a forfeiture or a conviction. For the purpose of determining whether or not a previous violation has occurred, if more than one violation occurs at the same time all those violations shall be counted as one violation.

2. A person who commits a violation may be:

a. Required to forfeit not more than five hundred dollars ($500) if the person has not committed a previous violation within thirty (30) months of the violation.

b. Fined not more than five hundred dollars ($500) or imprisoned for not more than thirty (30) days or both if the person has committed a previous violation within thirty (30) months of the violation.

c. Fined not more than one thousand dollars ($1,000) or imprisoned for not more than ninety (90) days or both if the person has committed two (2) previous violations within thirty (30) months of the violation.

d. Fined not more than ten thousand dollars ($10,000) or imprisoned for not more than 9 months or both if the person has committed three (3) or more previous violations within thirty (30) months of the violation.

3. A court shall suspend any license or permit issued under this chapter to a person for:
   a. Not more than three (3) days, if the court finds that the person committed a violation within twelve (12) months after committing one previous violation;
   b. Not less than three (3) days nor more than ten (10) days, if the court finds that the person committed a violation within twelve (12) months after committing two (2) other violations; or
   c. Not less than fifteen (15) days nor more than thirty (30) days, if the court finds that the person committed the violation within twelve (12) months after committing three (3) other violations.
4. The court shall promptly mail notice of a suspension under this paragraph to the department and to the clerk of each municipality which has issued a license or permit to the person.
5. A person who holds a Class "A" license, a Class "B" license or permit, a "Class A" license or a "Class B" license or permit who commits a violation is subject to sub. 3. but is not subject to sub. 2. or Wis. Stat. § 125.11.
6. Only one penalty may be imposed under this paragraph for each underage person who is provided alcohol beverages contrary to this section or a local ordinance in conformity with this section.

(Sec. 38.04(2) Cr. by ORD-13-00203, 12-10-13)

(3) Presence of Underage on Licensed Premises. (Title Am. by ORD-13-00203, 12-10-13)

(a) Restrictions. An underage person, not accompanied by his or her parent, guardian or spouse who has attained the legal drinking age, may not enter or be on any premises for which a license or permit for the retail sale of alcohol beverages has been issued, for any purpose except the transaction of business pertaining to the licensed premises with or for the licensee or his or her employee. The business may not be amusement or the purchase, receiving or consumption of edibles or beverages or similar activities which normally constitute activities of a customer of the premises. This paragraph does not apply to:

1. An underage person who is a resident, employee, lodger or boarder on the premises controlled by the proprietor, licensee or permittee of which the licensed premises consists or is a part.
2. An underage person who enters or is on a Class "A" or "Class A" premises for the purpose of purchasing items other than alcohol beverages. An underage person so entering the premises may not remain on the premises after the purchase.
3. Hotels, drug stores, grocery stores, bowling centers, billiards centers having on the premises 12 or more billiard tables that are not designed for coin operation and that are 8 feet or longer in length, indoor golf simulator facilities, service stations, vessels, cars operated by any railroad, regularly established athletic fields, outdoor volleyball courts that are contiguous to a licensed premises, stadiums, public facilities as defined in Wis. Stats. 125.51(5)(b)1.d. which are owned by a county or municipality, or centers for the visual or performing arts. (Am. by Ord. 12,143, 6-1-98)
4. Premises in the state fair park, concessions authorized on state-owned premises in the state parks and state forests as defined or designated in Chapters 27 and 28, Wis. Stats., and parks owned or operated by agricultural societies.

5. Ski chalets, golf courses and golf clubhouses, racetracks licensed under Ch. 562, Wis. Stats., curling clubs, private soccer clubs, and private tennis clubs.
6. Premises operated under both a Class 'B' or 'Class B' license or permit and a restaurant permit where the principal business conducted is that of a restaurant. If the premises are operated under both a Class 'B' or 'Class B' license or permit and a restaurant permit, the principal business conducted is presumed to be the sale of alcohol beverages, but the presumption may be rebutted by competent evidence.
7. An underage person who enters or remains on a Class 'B' or 'Class B' premises for the purpose of transacting business at an auction or market if the person does not enter or remain in a room where alcohol beverages are sold, furnished, or possessed.
8. A person who is at least eighteen (18) years of age and who is working under a contract with the licensee, permittee or corporate agent to provide entertainment for customers on the premises.
9. An underage person who enters or remains on Class "B" or "Class B" licensed premises on a date specified by the licensee or permittee during times when no alcohol beverages are consumed, sold or given away. During those times, the licensee, the agent named in the license if the licensee is a corporation or a limited liability company, or a person who has an operator's license shall be on the premises unless all alcohol beverages are stored in a locked portion of the premises. The licensee shall notify the local law enforcement agency, in advance, of the times underage persons will be allowed on the premises under this subdivision. Such notification shall be in writing and must be received in the office of the Chief of Police not less than 48 hours prior to the start of the scheduled nonalcohol event. (Am. by Ord. 10,883, Adopted 4-5-94)
10. An underage person who enters or remains in a dance hall attached to Class "B" or "Class B" licensed premises if the dance hall is separate from any room where alcohol beverages are sold, if there is a separate entrance to the dance hall, and if no alcohol beverages are furnished or consumed by any person in the dance hall where the underage person is present. When such a dance hall is designated or used so as to lawfully allow the presence of underaged persons, notification in writing must be received by the Chief of Police at least 48 hours prior to the use.

(b) Penalties.

1. A licensee or permittee who directly or indirectly permits an underage person to enter or be on a licensed premises in violation of subdivision (a) is subject to a forfeiture of not more than $500.
2. Any person who engages in activity which requires a license or permit pursuant to Chap. 125, Wis. Stats., and who permits directly or indirectly an underaged person onto the premises where said activity is occurring is subject to a forfeiture of not more than $500. This prohibition is subject to the exceptions contained in Sec. 38.04(3)(a) above.

(4) Defenses. In determining whether or not a licensee or permittee has violated Sub. (3)(a), all relevant circumstances surrounding the presence of the underage person or the procuring, selling, dispensing or giving away of alcohol beverages may be considered, including any circumstance under subdiv. (a) to (d). In addition, proof of all of the following facts by a seller of alcohol beverages to an underage person is a defense to any prosecution for a violation of this section.

(a) That the purchaser falsely represented that she or he had attained the legal drinking age.

(b) That the appearance of the purchaser was such that an ordinary and prudent person would believe that the purchaser had attained the legal drinking age.

(c) That the sale was made in good faith and in reliance on the representation and appearance of the purchaser in the belief that the purchaser had attained the legal drinking age.

(d) That the underage person supported the representation under subdiv. (a) with documentation that she or he had attained the legal drinking age.

(5) Book Kept by Licensees and Permittees.

(a) Every retail alcohol beverage licensee or permittee may keep a book for the purposes of Subsection (4). The licensee or permittee or her or his employee may require any of the following persons to sign the book:

1. A person who has shown documentary proof that she or he has attained the legal drinking age if the person's age is in question.

2. A person who alleges that she or he is the underage person's parent, guardian or spouse and that she or he has attained the legal drinking age, if the licensee or permittee or her or his employee suspects that she or he is not the underage person's parent, guardian or spouse or that she or he has not attained the legal drinking age.

(b) The book may show the date of the purchase of the alcohol beverages, the identification used in making the purchase or the identification used to establish that a person is an underage person's parent, guardian or spouse and has attained the legal drinking age, the address of the purchaser and the purchaser's signature.

(6) Proof of Age.

(a) Definition. In this section, "official identification card" means a valid operator's license issued under Wis. Stat. ch. 343, that contains the photograph of the holder, an identification card issued under Wis. Stat. § 343.50 or an identification card issued under Wis. Stat. 1987 § 125.08.

(b) Use. No card other than the identification card authorized under this section may be recognized as an official identification card in this state. In place of an official identification card, documentary proof under Wis. Stat. § 125.07(7) may be substituted.

(c) No person may make, alter or duplicate an official identification card, provide an official identification card to an underage person or knowingly provide other documentation to an underage person purporting to show that the underage person has attained the legal drinking age. No person may possess an official identification card or other documentation used for proof of age with the intent of providing it to an underage person. Except as provided in subdivisions (d) and (e), any person who violates this subsection may forfeit not less than $300 nor more than $1,250. (Am. by Ord. 12,068, 3-27-98)

(d) Any person who violates subdivision (c) for money or other consideration may forfeit not more than $10,000.

(e) Subdivisions (c) and (d) do not apply to a person who is authorized to make an official identification card under Wis. Stat. ch. 343.

(Sec. 38.04 Am. by Ord. 10,178, Adopted 1-8-91; Am. by ORD-07-00118, 9-22-07; Secs. 38.04(2) - (5) Renum. & Am. by ORD-13-00203, 12-10-13)

38.045 UNDERAGE ALCOHOL CONSUMPTION AND ILLEGAL USE OF A CONTROLLED SUBSTANCE AT LODGING ESTABLISHMENTS.

(1) Definitions.

"Controlled substance" has the meaning given in Wis. Stat. § 961.01(4).

"Controlled substance analog" has the meaning given in Wis. Stat. § 961.01(4m).

"Lodging establishment" has the meaning given in Wis. Stat. § 106.52(1)(d).

(2) Any person who procures lodging in a lodging establishment and permits or fails to take action to prevent any of the following activities from occurring in the lodging establishment is subject to the penalties provided in sub. (4):
  (a) Consumption of an alcohol beverage by any underage person not accompanied by his or her parent, guardian or spouse who has attained the legal drinking age.
  (b) Illegal use of a controlled substance or controlled substance analog.

(3) An owner or employee of a lodging establishment may deny lodging to an adult if the owner or employee reasonably believes that consumption of an alcohol beverage by an underage person not accompanied by his or her parent, guardian or spouse who has attained the legal drinking age, or illegal use of a controlled substance or controlled substance analog, may occur in the area of the lodging establishment procured.

(4) A person who violates sub. (2) shall forfeit:
  (a) Not more than five hundred dollars ($500) if the person has not committed a previous violation within twelve (12) months of the violation; or
  (b) Not less than two hundred dollars ($200) nor more than five hundred dollars ($500) if the person has committed a previous violation within twelve (12) months of the violation.

(Sec. 38.045 Cr. by ORD-12-00124, 10-10-12)

38.05 GENERAL LICENSING REQUIREMENTS.

(1) License or Permit, When Required. No person may sell, manufacture, rectify, brew or engage in any other activity for which Wis. Stat. ch. 125, provides a license, permit, or other type of authorization without holding the appropriate license, permit or authorization issued under this chapter.

(2) Licenses or Permits Issued in Violation of This Chapter. No license or permit may be issued to any person except as provided in this chapter. Any license or permit issued in violation of this chapter is void.

(3) Application for Licenses.
  (a) Contents. The City Clerk shall provide an application form for each kind of license issued under this chapter. Said application shall be in duplicate, if the application be for a Class A or Class B license, signed by the applicant and containing the following information which shall be verified by oath of the applicant. The application shall be filed with the City Clerk.
    1. Address of the building for which the license is desired and description including overall dimensions, seating arrangements, capacity and bar size of the premises therein where fermented malt beverages are to be sold. The licensed premises as described shall not be expanded or changed during the license year without the approval of the Common Council, except that no prior approval is required for a hotel which does not involve a change or expansion of any bar or restaurant. No prior Common Council approval is required if the only change to the premises is to the exterior facade or any other exterior construction or reconstruction not affecting interior floor space or layout. (Am. by Ord. 9719, 3-2-89)
      a. The fee for filing an application for a change in licensed premises during the license year shall be $25.00. (Cr. by ORD-10-00038, 5-1-10)
    2. If the application be for a Class A, Class B, or wholesaler's license a statement that the applicant is an individual or a domestic corporation. If the applicant is a limited liability company, the identity of the company members, managers and agent. (Am. by Ord. 10,883, Adopted 4-5-94)
    3. If the application be for a Class A, Class B or wholesaler's license a statement that the applicant has resided continuously in Wisconsin for not less than ninety (90) days prior to the date of such application, except that

such statement shall not be required in the case of applicants for Class A or wholesaler's licenses which are domestic corporations or limited liability companies. If the application be for an operator's license, a statement that the applicant is a resident of Wisconsin.

In the event the holder of an operator's license ceases to be a resident of Wisconsin then such operator's license shall be revoked by the Common Council of the City of Madison after due notice to the applicant and after a hearing by the Alcohol License Review Committee.
(Am. by Ord. 10,883, Adopted 4-5-94)

4. A statement as to whether applicant has ever been convicted of a felony or of a violation of any Federal or State act, or ordinance of the City of Madison, regulating or prohibiting the sale of intoxicating or nonintoxicating liquor, and if so, the number and dates of such convictions and the penalty imposed.
5. If the application be for a Class A or Class B license, a statement as to whether the applicant holds or has applied for any other Class A or Class B licenses for any other location within the State and, if so, the number of such licenses held or applied for by such applicant.
6. A statement as to whether any other business other than the sale of alcohol beverages as herein defined is to be conducted on the premises sought to be licensed, and if so a description of the nature of such business, but such information shall not be required in an application for an operator's license.
7. If the application be for a Class A or Class B license, a statement that the applicant is not acting as agent for or in the employ of another.
8. If the application be for an operator's license, it shall state the age and sex of the applicant.
9. If the application be for a Class B license, a statement as to whether any brewer, bottler, wholesaler, or corporation, a majority of whose stock, or if the entity is a limited liability company, a majority of which is owned by any brewer, bottler or wholesaler, has or intends to supply, furnish, lease, give, pay for, or take any chattel mortgage on any furniture, fixture, fittings, or equipment to be used in or about the premises covered by the application. (Am. by Ord. 10,883, Adopted 4-5-94)
10. If the application be made for a Class B license, a statement as to whether any brewer, bottler or wholesaler has advanced, paid or furnished the money for license fee, or intends to do so.
11. If the application be for a Class B license, a statement as to whether any brewer, bottler, or wholesaler is financially interested in, directly or indirectly, the license for which application is made.

Such application shall also contain such other reasonable and pertinent information as the Common Council may from time to time require. Any false statement contained in such application shall automatically nullify any license issued pursuant thereto. Such application shall be referred by the City Clerk to the Alcohol License Review Committee which shall thereupon make any investigation as to the advisability of granting such license as it may deem necessary or desirable, and shall within a reasonable time make a recommendation to the Common Council as to whether or not such application should be granted. In case the application be for a Class B license, a notice shall be referred by the City Clerk to the Director of the Building Inspection Division, the Chief of the Police Department, the Chief of the Fire Department and the Director of Public Health Madison and Dane County and each department shall designate

representatives who shall forthwith inspect the premises sought to be licensed and shall report in writing to the Common Council as hereinafter required. The Director of the Building Inspection Division is not required to inspect the premises if the application be for an annual renewal of the license. (Am. by Ord. 10,048, 7-20-90; ORD-08-00109, 10-7-08; ORD-15-00009, 1-28-15)

12. Statement of Intent. The applicant shall sign a statement of intent on a form to be provided by the City Clerk. This statement shall include a provision that the applicant intends to operate under the license within ninety (90) days of its granting by the Common Council and that the license shall be considered surrendered if the license is not issued within ninety (90) days of the granting of the license. This time may be extended by the Common Council when granting the license upon a finding that construction activities will delay the issuance. The applicant shall provide proof of such construction activities upon application. Upon such a finding, the Common Council shall set a time limit for the issuance of such license, and the license shall be considered surrendered if the license is not issued within such time. (Cr. by ORD-16-00072, 8-13-16)

(b) Public Notification Fee. The applicant for a license shall, at the time of filing the application with the City Clerk, deposit a fee of one hundred dollars ($100), for a new license application or forty dollars ($40.00) for a renewal application. This fee shall cover the costs of publication as required by sub. (d) and as such fee is set forth in Wis. Stats. §§ 125.04(3)(g) and 985.08. This fee shall also include the costs of providing further public notification as set forth in subs. (e), (g) and (h) below. If the costs of providing the public notification required under subs. (d), (e), (g) and/or (h) exceeds one hundred dollars ($100), the City Clerk shall bill the applicant for that portion of the cost that is in excess of one hundred dollars ($100). No application may be processed unless such fee has been posted with the City Clerk and such fee is non-refundable. (Cr. by ORD-15-00125, 11-11-15; Am. by ORD-17-00009, 2-20-17)

(c) Required Contacts and Informational Session. No less than seven (7) days prior to the date the Alcohol License Review Committee first considers the application, the applicant shall contact the Alder for the district in which the premises is located. The applicant shall discuss their business plan and concept of operations with that Alder. No less than seven (7) days prior to the date the Alcohol License Review Committee first considers the application, the applicant shall also hold or attend an informational session with or host an open house for the local community to discuss their business plan and concept of operations. Members of the local community shall have the opportunity to ask questions of the applicant and state any concerns that they have with the application. (Cr. by ORD-15-00125, 11-11-15)

(d) Publication of Alcohol Beverage Application. No license to sell alcohol beverages except Class B picnic beer and wine licenses shall be granted until after the expiration of fifteen (15) days from the filing of the application therefor and before any such license may be granted there shall be published in the official paper at least three (3) times successively a notice of such application, containing the name and address of the applicant, the kind of license applied for, and the location of the premises to be licensed. (Am. by Ord. 10,178, Adopted 1-8-91; ORD-12-00023, 3-5-12; ORD-15-00125, 11-11-15)

(e) Sign. An applicant for a new license or for a change in licensed premises or for a sidewalk cafe shall post a sign, obtained from the City Clerk, on the property for which the license is desired. The sign shall list the times and locations of public hearings before the Alcohol License Review Committee and Common Council to

consider the application. The sign shall also list the times and location of any public information presentations as required by sub. (c). For a change in licensed premises, the sign shall list the times and locations of the meetings of the ALRC and Common Council at which the application will be considered. The sign shall be posted no later than three (3) days after the filing of the license application and shall remain posted until the Common Council renders a final decision on the license application. The sign shall be posted in a conspicuous place where it can be readily observed at or near the entrance of the premises to be licensed; or if the property is a vacant lot, it shall be posted on a post or stake of permanent material at the midpoint of the boundary fronting the public right of way and no more than ten (10) feet from the sidewalk or public right of way. If the sign is posted outdoors, it shall be the responsibility of the applicant to take precautions necessary to protect the sign against vandalism, weather damage or other destruction. If the sign is vandalized, damaged or destroyed, the applicant shall be responsible for obtaining a new sign and posting it within three (3) days. An applicant failing to post or maintain a sign in a manner consistent with the requirements of this Subdivision shall be subject to a forfeiture of not less than one hundred dollars ($100) nor more than two hundred dollars ($200) per day. If it is determined that the sign was not posted as provided herein, it may be considered sufficient cause for refusal to issue the license to the applicant or deny the application. This subdivision shall not apply to applicants for a Class B picnic beer or wine license. (Cr. by ORD-08-00135, 12-23-08; Am. by ORD-09-00142, 10-22-09; ORD-15-00125, 11-11-15)

(f) Schools, Churches, Hospitals and Libraries. No Class A or Class B license or permit may be issued for premises the main entrance of which is less than 300 feet from the main entrance of any public or parochial school, hospital, church or public library, except that this prohibition may be waived by a majority vote of the Common Council. The distance shall be measured by the shortest route along the highway from the main entrance of the school, church, hospital or library to the main entrance of the premises covered by the license. The prohibition in this paragraph does not apply to any of the following:

1. Premises covered by a license on June 30, 1947;
2. Premises covered by a license prior to the occupation of real property within 300 feet thereof by any school, hospital, church or library building.
3. A restaurant located within 300 feet of a church, school. This subdivision applies only to restaurants in which the sale of alcohol beverages accounts for less than 50% of its gross receipts.

(g) Public Hearings Required. The City Clerk shall schedule public hearings before the Alcohol License Review Committee and the Common Council on:

1. The granting or transfer of Class A or Class B licenses and shall notify all property owners and residents situated in the block of the site for which the license is sought and all property owners and residents within a radius of three hundred (300) feet of the proposed site of the dates of the hearings. The notice shall be given at least ten (10) days before the hearing and shall be given by mail. (Am. by Ord. 12,530, 2-10-00)
2. The application for a Sidewalk Café with a Class B liquor license and shall notify all property owners and residents within a radius of three hundred (300) feet of the proposed site of the dates of the hearings. The notice shall be given at least ten (10) days before the hearing and shall be given by mail. (Cr. by Ord. 12,706, 11-9-00)

(Am. by ORD-09-00141, 10-22-09)

3. (Rep. by ORD-15-00125, 11-11-15).

(Cr. by ORD-12-00023, 3-5-12)

(h) Notice of Meeting. In the case of the granting or license or transfer of a Class A or B license or the granting of the modification of a sidewalk café with a Class B license, notice of the time and a date of the meeting of the Alcohol License Review Committee shall be sent by the Clerk to the alderperson of the district in which the licensed premises will be located and to the recognized neighborhood association or business association representing the area in which the licensed premises will be located, if any.
(Sec. 38.05(3)(g) Cr. by ORD-09-00141, 10-22-09)

(i) Time of Filing and Acting on Applications. All applications to be acted upon at the first meeting in June of each year must be filed on or before April 15 of each year. The Clerk may conditionally accept renewal applications offered for filing notwithstanding the deadline provided in this subsection but shall not forward to the Alcohol License Review Committee or the Common Council any application for which there is a deficiency or lack of compliance with any requirement in the application process. A late filing fee of two hundred fifty dollars ($250) shall be required paid prior to the Common Council granting the license for each of the following:

1. Each renewal application received by the City Clerk after April 15; and
2. Each application for which deficiencies in the application process are corrected after April 15.

The late-fee charge is imposed to recover the cost of processing the noncomplying application. Payment of the late filing fee shall not relieve any person from any other penalties prescribed in this chapter for failure to possess or obtain a license.
(Sec. 38.05(3)(f) Am. by Ord. 9431, 3-11-88; ORD-09-00168, Pub. 12-31-09, Eff. 4-15-10)

(j) Application for Corporate License. All applications for corporate licenses shall contain the following information, as stated in the last annual report of the corporation:

1. A copy of the Articles of Incorporation, unless such application is for renewal of existing license, and a copy of any amendments to the Articles of Incorporation that have been filed with the Secretary of State and have not previously been filed with the City Clerk.
2. A list of the officers and directors of the corporation with their residences.
3. A list of the stockholders of the corporation together with the extent of their ownership, and their residences.
4. A statement by the applicant showing whether any corporate officers, directors or stockholders of the applicant hold any office or stock in a corporation holding a Class A or Class B beer or liquor license in any part of the state of Wisconsin.

(k) Application for Limited Liability Company License. All applications for limited liability company licenses shall contain the following information:

1. A copy of the Articles of Organization, unless such application is for renewal of an existing license, and a copy of any amendments to the Articles of Organization that have not previously been filed with the City Clerk.
2. A list, kept in alphabetical order, of each past and present member and, if applicable, manager. The list shall include the full name and last-known mailing and residence address of each member or manager, the date on which the person became a member or manager and the date, if applicable, on which the person ceased to be a member or manager.
3. A copy of the operating agreement and all amendments to the operating agreement.

4. Unless set forth in the operating agreement, the value of each member's contribution to the limited liability company as determined under Wis. Stat. § 183.0501(2).
5. A statement by the applicant showing whether any members or managers of the applicant hold any office or stock in a corporation or limited liability company or are members or managers of any limited liability company holding a Class A or Class B beer or liquor license in any part of the state of Wisconsin.
6. For purposes of this subparagraph, the term manager is defined as in Wis. Stat. § 183.0102.

(Sec. 38.05(3)(h) Cr. by Ord. 10,883, Adopted 4-5-94)

(l) Application for Approval of Transfer of Ownership or Control of License.

1. No license, or any rights thereunder, or ownership or control of any license, shall be transferred, assigned, or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any corporation or limited liability company holding such license, except upon application to and approval of the Common Council.
2. The word "control" as used herein is not limited to majority stock ownership but includes actual working control in whatever manner exercised. A change in corporation or limited liability company name only shall not be construed as a change in ownership or control but such licensee shall file with the City Clerk a copy of the amended Articles of Incorporation or Articles of Organization within 30 days of filing with the appropriate agency of the State of Wisconsin.
(Am. by Ord. 11,940, 9-26-97)
3. Any time a licensee changes the "doing business as" name of the establishment or reorganizes the business entity from a sole proprietorship to a different entity or a business entity that reorganizes as a sole proprietorship or other entity, shall, within five (5) business days of making such change, file with the City Clerk a Business Name Change/ Entity Reorganization form for the Alcohol License Review Committee's consideration. Failure to comply with this provision shall be a ground for suspension or revocation of licensee's alcohol beverage license after a hearing pursuant to the provisions set forth in Sec. 38.10 of these ordinances. Each Business Name Change/Entity Reorganization form filed with the Clerk shall be accompanied by a twenty-five dollar ($25) filing fee. (Cr. by ORD-13-00058, 4-24-13)
4. Application to the Common Council made pursuant to paragraph 1. above, shall be made at least forty-five (45) days prior to the contemplated date of said transfer in cases where the transfer is to be made to a corporation or limited liability company not previously licensed pursuant to this section, except that if reports are received from the various departments the application may be acted upon sooner than the forty-five (45) days, and at least fifteen (15) days prior to the contemplated date of said transfer in cases where the transfer is to be made to a corporation or limited liability company which has been previously licensed pursuant to this section within the prior two (2) license years, and shall include:
   a. The name and address and state of incorporation of the corporate licensee or the name and address and state of organization of the limited liability company licensee.
   b. A listing of the present stockholders, officers and directors of a corporate licensee or a listing of the present members and managers of a limited liability company licensee; the extent of their

interest and/or control, if any, in any other Class A or Class B fermented malt beverage or intoxicating liquor license in the state of Wisconsin.

c. A listing of the proposed transferee or transferees; assignee or assignees; or the recipient of any other form of their interest and/or control, if any, in any other Class A or Class B fermented malt beverage or intoxicating liquor license in the state of Wisconsin.

d. The name of the present licensed agent for said corporate or limited liability company licensee.

e. The name of the proposed licensed agent for said corporate or limited liability company licensee.

f. The date any proposed transfer of ownership or control of a corporate or limited liability company licensee is contemplated to become effective.

(Renum. by ORD-13-00058, 4-24-13)

5. In applying the provisions of paragraph 3. to the stockholders of a corporation which has more than fifty (50) voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own one percent (1%) or more of the outstanding voting stock. (Renum. by ORD-13-00058, 4-24-13)

6. Failure of the licensee to comply with the provisions of this subdivision shall result in the revocation of said licensee's alcohol beverages license after a hearing pursuant to the provisions of Sec. 38.10 of these ordinances. (Am. by Ord. 9485, 6-1-88; Renum. by ORD-13-00058, 4-24-13)

7. The fee for filing an application for a change of control of any corporation or limited liability company holding such a license shall be $25.00. (Cr. by ORD-10-00038, 5-1-10; Renum. by ORD-13-00058, 4-24-13)

(Sec. 38.05(3)(h) Renumbered to (i) and Am. by Ord. 10,883, Adopted 4-5-94)

(m) Training Course. No Class A, Class B, or operator's, licenses shall be issued unless the applicant has successfully completed a responsible beverage server training course at any location that is offered by a technical college district and that conforms to curriculum guidelines specified by the technical college system board or a comparable training course that is approved by the department or the educational approval board or unless the applicant fulfills one of the following requirements;

1. The person is renewing an operator's license.
2. Within the past 2 years, the person held a Class "A", Class "B", "Class A", or "Class B" license or permit or an operator's license.
3. Within the past 2 years, the person has completed such a training course.

Those who complete such program shall have an appropriate endorsement recorded and placed on their licenses. No operator's license shall be issued or renewed to any person who failed to complete the program during any previous period during which such person held an operator's license without first successfully completing the program.

Where application is made for a Class A or Class B license on behalf of a sole proprietorship, the sole proprietor shall have successfully completed the Beverage Server Training Course. Where such application is made on behalf of a partnership, all partners shall have successfully completed the Beverage Server Training Course. Where such application is made on behalf of a corporation or a limited liability company, the agent appointed pursuant to Sec. 38.05(5)(a), Madison General Ordinances, shall have successfully completed the Beverage Server Training Course.

(Am. by Ord. 12,068, 3-27-98; Ord. 13,565, 4-21-04)

[EDITOR'S NOTE: The Beverage Server Training Course ordinance became effective 7-1-91.]

(n) Provisional Operator's License. The City Clerk shall have authority to issue a provisional operator's license subject to the limitations contained in Sec. 38.05(9)(b) and (n) which shall expire 60 days after its issuance or when an operator's license is issued to the holder, whichever is sooner. A provisional license may not be issued to any person who has been denied an operator's license by the Common Council or who has had her/his operator's or manager's license revoked or suspended with the preceding 12 months. A provisional license may not be issued to any person who previously held an operator's license and who failed to complete the Alcohol Awareness Training Program without first successfully completing the program. A provisional license may not be renewed.

The City Clerk shall provide an appropriate application form to be completed in full by the applicant. The City Clerk may revoke the provisional license issued if s/he discovers that the holder of the license made a false statement on the application. The fee for a provisional license shall be $15.00.
(Renumbered by Ord. 10,883, Adopted 4-5-94)

(o) Provisional Retail License.

1. The City Clerk may issue a provisional retail license to an applicant for a Class "A", Class "B", "Class A", "Class B", or "Class C" license, which authorizes only the activity allowed by the type of license applied for, if the Alcohol License Review Committee approves the applicant's regular license application and that applicant meets all licensing requirements set forth in this section. A provisional retail license may be issued only upon the Clerk's determination that the applicant qualifies for the type of license applied for and upon payment of both the fee for the provisional retail license and the cost of publication for the type of retail license applied for.

2. Only one provisional retail license may be issued to an applicant per calendar year for each type of license.

3. The Clerk may revoke a provisional license at any time if he or she discovers the license holder made a false statement on the application. Otherwise, the provisional license expires sixty (60) days after issuance or upon issuance or denial by the Common Council of the Class "A", Class "B", "Class A", "Class B", or "Class C" license, whichever occurs sooner. A provisional license may not be renewed.

4. The Clerk may not issue a provisional "Class B" license if the municipality's quota under Wis. Stat. § 125.51(4), prohibits the municipality from issuing a "Class B" license.

5. Exception. The Clerk may issue a provisional license, prior to approval by the Alcohol License Review Committee of a regular retail license application, which authorizes only the activity allowed by the type of license applied for under the following circumstance: if the applicant has applied and paid for the cost of publication for the type of retail license applied for, has paid the license fee for both the provisional and the regular license, is qualified to hold the type of license applied for, and is applying for the provisional license to maintain continuity of an existing business that held a retail liquor license issued by the City of Madison Clerk. The applicant must provide the Clerk with proof of control and/or occupancy of the premises at which the provisional license will be issued before the Clerk will issue the provisional license.

(New Subdivision (l) created by ORD-07-00013, 2-2-07)

(p) Refusals to Issue New License or Permit. If the Common Council decides not to issue a new license or permit under this chapter, such denial shall include a reason. The City Clerk shall transmit to the applicant by first class mail, the decision of the Common Council and shall state the reason therefore.
(Renumbered by Ord. 10,883, Adopted 4-5-94; Renumbered by ORD-07-00013, 2-2-07)

(Sec. 38.05(3)(d)-(m) Renum. to (e)-(n) by ORD-08-00135, 12-23-08; Sec. 38.05(3)(g)-(n) Renum. to (h)-(o) by ORD-09-00141, 10-22-09; Secs. 38.05(3)(c)-(o) Renum. to (d)-(p) by ORD-15-00125, 11-11-15)

(4) Qualifications for Licenses and Permits.

(a) Natural Persons. Licenses and permits related to alcohol beverages, issued to natural persons under this chapter, may be issued only to persons who fulfill all of the following requirements.

1. Do not have an arrest or conviction record, subject to Wis. Stat. §§ 111.321, 111.322, 111.335, and 125.12(1)(b). No violations of Section 38.04(1)(a) may be considered under this Paragraph unless the licensee or permittee has committed another violation within one year preceding the violation. If a licensee or permittee has committed 2 or more violations within one year, all violations committed within one year of a previous violation may be considered under this Paragraph. (Am. by Ord. 12,068, 3-27-98)
2. Have been residents of this state continuously for at least ninety (90) days prior to the date of filing the application.
3. Have attained the legal drinking age.
4. Have submitted proof under Wis. Stat. § 77.61(11).
5. Have successfully completed within the two (2) years prior to the date of application a responsible beverage server training course at any location that is offered by a technical college district and that conforms to curriculum guidelines specified by the technical college system board or a comparable training course that is approved by the department or the educational approval board. This subdivision does not apply to an applicant who held, or was an agent appointed and approved under Subsection (5) of a corporation or a limited liability company that held, within the past two years, a Class A, Class "B", "Class B" or "Class C" license or a manager's or operator's license. (Am. by Ord. 12,068, 3-27-98)

(b) Criminal Offenders. No license or permit related to alcohol beverages may, subject to Wis. Stat. §§ 111.321, 111.322 and 111.335, be issued under this chapter to any person who has habitually been a law offender or has been convicted of a felony unless the person has been duly pardoned.

(c) Corporations and Limited Liability Companies. No license or permit may be issued to any corporation or limited liability company unless that entity meets the qualifications under pars. (a)1. and 4. and (b) above, unless the agent of the entity appointed under Subsection (5) below and the officers and directors, or members or managers of the entity meet the qualifications of paragraphs (a)1. and 3. and (b) above, and unless the agent of the entity appointed under subsection (5) below meets the qualifications under par. (a)2. and 5. The requirement that the entity meet the qualifications under pars. (a)1. and (b) does not apply if the entity has terminated its relationship with all the individuals whose actions directly contributed to the conviction. (Am. by Ord. 11,180, 3-3-95)

(d) Operators' Licenses.

1. Paragraph (a)2. above does not apply to applicants for operators' licenses issued under Wis. Stat. § 125.17. (Am. by Ord. 13,565, 4-21-04)

2. Paragraph (a)3. above does not apply to applicants for operators' licenses under Wis. Stat. § 125.17. Operators' licenses may be issued only to applicants who have attained the age of 18. (Sec. 38.05(4) Am. by Ord. 10,178, 1-8-91)

(5) Licenses to Corporations and Limited Liability Companies; Appointment of Agents.

(a) Agent. No corporation or limited liability company organized under the laws of this state or of any other state or foreign country may be issued any alcohol beverage license or permit unless:

1. The entity first appoints an agent in the manner prescribed by the department. In addition to the qualifications under Subsection (4) above, the agent must, with respect to character, record and reputation, be satisfactory to the department.

2. The entity vests in the agent, by properly authorized and executed written delegation, full authority and control of the premises described in the license or permit of the entity, and of the conduct of all business on the premises relative to alcohol beverages, that the licensee or permittee could have and exercise if it were a natural person. In order to insure that the agent has a current working knowledge of the operation of the premises, the agent shall be an individual who regularly is involved in the actual conduct of the business of the licensee or one who has a direct financial interest in the business of the licensee. The proposed agent shall disclose the interest held in the business on the application.

In addition to the above requirements such agent shall continue to be a resident of Wisconsin during the term of such license. In the event the agent ceases to be a resident of Wisconsin then the Common Council shall revoke the appointment of such agent upon due notice to the corporation and after a full hearing on the matter before the Alcohol License Review Committee.

In addition, the entity shall file with the application the names of one or more persons having full responsibility, each of whom shall be operators licensed pursuant to these ordinances, any of whom shall be on the licensed premises during business hours. Such named persons may be changed from time to time as is required by business needs but the agent shall in writing notify the City Clerk of such change within ten (10) days of its occurrence. This paragraph shall not apply to Class A Fermented Malt Beverage and Class A Liquor and Fermented Malt Beverage licenses nor to fraternal organizations.

(b) Successor Agent. A corporation or limited liability company may cancel the appointment of an agent and appoint a successor agent to act in the agent's place, for the remainder of the license year or until another agent is appointed, as follows:

1. The successor agent shall meet the same qualifications required of the first appointed agent.

2. The entity shall immediately notify the department, and the issuing authority if a license is held, in writing, of the appointment of the successor agent and the reason for the cancellation and new appointment.

(c) Authority of Successor. A successor agent shall have all the authority, perform all the functions and be charged with all the duties of the previous agent of the entity until the next regular or special meeting of the issuing authority if a license is held. However, the license of the corporation or limited liability company shall cease to be in force if, prior to the next regular or special meeting of the issuing authority, the clerk of the licensing authority receives notice of disapproval of the successor agent by the department or a peace officer of the municipality issuing the license.

(d) Approval of Successor. The license of the corporation or limited liability company shall not be in force after the next regular or special meeting of the licensing authority unless and until the successor agent or another qualified agent is appointed and approved by the licensing authority and the department.

(e) Fee. The corporation or limited liability company shall, following the approval of each successor agent or another qualified agent by the licensing authority and the department, pay to the licensing authority a fee of $10.

(f) Resignation. If an agent appointed under this subsection resigns, he or she shall notify in writing the corporation or limited liability company and the authority issuing the license or permit within 48 hours of the resignation.

(Sec. 38.05(5) Am. by Ord. 10,883, Adopted 4-5-94)

(6) Expiration Dates. Except as otherwise provided in this chapter:

(a) Licenses and Retail Permits. Licenses and retail permits to sell alcohol beverages shall expire on June 30 of each year.

(b) (R. by ORD-09-00169, 12-31-09)

(7) License Framed and Posted. Licenses for the sale of alcohol beverages shall be enclosed in a frame having a transparent front which allows the license to be clearly read. All licenses shall be conspicuously displayed for public inspection at all times in a room or place where the activity subject to licensure is carried on.

(8) Transfer of Licenses and Permits.

(a) From Place to Place. Every alcohol beverage license or permit may be transferred to another place or premises within the same municipality. Transfers shall be made by the issuing authority upon payment of a fee of ten dollars ($10). No retail licensee or retail permittee is entitled to more than one transfer during the license year. This Subdivision does not apply to a license issued under Wis. Stat. § 125.51(4)(v), or its ordinance counterpart or to a reserve Class B license, as defined in Wis. Stat. § 125.51(4)(a) or its ordinance counterpart. (Am. by Ord. 12,068, 3-27-98)

(b) From Person to Person.

1. Licenses to sell alcohol beverages may be transferred to persons other than the licensee if the licensee, or an applicant for a subsequently granted license, dies, becomes bankrupt or makes an assignment for the benefit of creditors during the license year or after filing the application. If a retail licensee becomes disabled, the municipality may, upon application, transfer the license to the licensee's spouse if that spouse may hold a license under Wis. Stat. § 125.04(5) and complies with all of the requirements under this chapter applicable to original applicants, except that the spouse is exempt from payment of the license fee for the year in which the transfer takes place.

2. Upon the happening of any of the events under paragraph 1 above, the personal representative, the surviving spouse if a personal representative is not appointed, the trustee or the receiver may continue or sell or assign the business.

3. Businesses may be continued under paragraph 2 above only if the personal representative or surviving spouse is a U.S. citizen.

4. If the business is sold or assigned, the license may be transferred to the successor owner or assignee at no charge if:

a. He or she complies with the requirements applicable to original applicants; and

b. He or she is acceptable to the issuing authority and consent to the transfer is given by the issuing authority.

(9) Limitation Upon Issuance of Licenses.

(a) Class A License. No Class A license shall be granted except to a person who is of good moral character and who has resided in the State of Wisconsin continuously for not less than ninety (90) days prior to the date of filing the application for license. No such license shall be issued to any person acting as agent for or in the employ of another. The individual licensee of a Class A license shall continue to be a resident of Wisconsin during the term of her/his license. The Common Council may revoke such license when such individual applicant ceases to be a resident of Wisconsin during the term of her/his license but such revocation shall only be had following the giving of proper notice to the licensee and a proper hearing before the Alcohol License Review Committee. (Am. by Ord. 10,178, Adopted 1-8-91; ORD-14-00012, 1-14-14)

(b) Operator's License. If the application be for an operator's license a statement that the applicant is a resident of Wisconsin; also a statement that the applicant understands that a check will be made of her/his past record (civilian and military) and that the record so determined shall become a part of her or his application. No operator's license shall be granted to any person who has not attained the age of eighteen (18), or to any person afflicted with a contagious or venereal disease, "or to anyone not qualified". (Am. by Ord. 12,027, 2-16-98; ORD-14-00012, 1-14-14)

(c) Wholesaler's License.

1. A wholesaler's license may be issued to any person qualified under Sec. 38.05(4) of these ordinances except a person acting as an agent for, or in the employ of, another person.

2. Except as provided in Par. 3. below and Wis. Stat. § 125.29, beginning on the effective date of this paragraph, a wholesaler's license may not be issued to any of the following:

a. A person holding one or more of the following licenses or permits:

i. A Class A license.

ii. A Class B license.

iii. A Class "B" permit issued under Wis. Stat. § 125.27.

iv. An industrial fermented malt beverages permit issued under Wis. Stat. § 125.275.

b. A person who has a direct or indirect ownership interest in a premises operating under one or more of the licenses or permits listed in Par. (c)2.a.i. - iv. above.

3. a. A person who holds a wholesaler's license and a license or permit specified in Par. 2.a., all of which licenses or permits were issued before the effective date of this paragraph, may, subject to Sections 38.05 and 38.10, Madison General Ordinances, renew and continue to hold all of the licenses or permits.

b. If a person holding a wholesaler's license and a license or permit under subpar. a. fails to renew a license or permit, is denied renewal of a license or permit under Sec. 38.10 or has one of the licenses or permits suspended or revoked under Sec. 38.10, the person is subject to Par. 2 with respect to holding a license or permit of that type after the failure or denial of renewal or the revocation or suspension of the license or permit.

4. Each corporation or limited liability company shall appoint an agent in the same manner and under the same conditions as set forth in Subsec. (5)

pertaining to liquor licenses, shall supply the same additional information as is required by that section and shall complete such forms as are supplied by the City Clerk for such purpose.

(Sec. 38.05(9)(c) Am. by Ord. 11,180, 3-3-95)

(d) Class B License.

1. No Class B license shall be issued except to persons of good moral character, who have resided in Wisconsin continuously for not less than ninety (90) days prior to the date of filing application for license. (Am. by Ord. 10,178, 1-8-91)
2. No Class B license shall be issued hereunder for the sale of alcohol beverages in any dwelling.
3. No Class B license shall be issued hereunder for any premises in any district where forty percent (40%) or more of the property fronting on both sides of the same street in the same block is used for residence purposes if a written objection shall be filed with the City Clerk signed by owners of more than eighty percent (80%) of such residence property.
4. No Class B license shall be issued hereunder for the sale of alcohol beverages on any premises unless such premises comply with and conform to all ordinances, health, sanitation, building and fire regulations of the City and of the State.
5. No Class B license shall be issued hereunder for the sale of alcohol beverages on any premises unless such premises shall first have been inspected by the Director of the Building Inspection Division, the Zoning Administrator, the Chief of Police, the Chief of the Fire Department, the Director of Public Health Madison and Dane County, or their designees, and unless such officers have filed with the Common Council or with the City Clerk if the application be for a picnic beer license, a written report stating that the said premises comply with the two (2) foregoing paragraphs. The Director of the Building Inspection Division is not required to inspect the premises if the application is for an annual renewal of the license. (Am. by Ord. 10,989, 10-10-94; ORD-08-00109, 10-7-08; ORD-15-00009, 1-28-15)
6. No retail Class B license may be issued to any person acting as agent for or in the employ of another except that this restriction does not apply to a hotel or restaurant which is not part of or located on the premises of any mercantile establishment, or to a bona fide club, society or lodge that has been in existence for at least six (6) months before the date of application. A Class B license for a hotel, restaurant, club, society or lodge may be issued in the name of an officer who shall be personally responsible for compliance with this chapter and Chapter 125, Wis. Stats. (Am. by Ord. 9482, 5-10-88)
7. a. Limitations on Other Business; Class B Premises. No Class B license may be granted for any premises where any other business is conducted in connection with the premises, except that this restriction does not apply if the premises for which the Class B license is issued is connected to premises where other business is conducted by a secondary doorway which serves as a safety exit and is not the primary entrance to the Class B premises. No other business may be conducted on premises operating under a Class B license. These restrictions do not apply to any of the following:
   i. A hotel.
   ii. A restaurant, whether or not it is part of or located in any mercantile establishment.

iii. A combination grocery store and tavern.
iv. A combination novelty store and tavern.
v. A bowling center or recreation premises. (Am. by Ord. 10,344, 12-12-91)
vi. A club, society or lodge that has been in existence for six (6) months or more prior to the date of filing application for the Class B license.
vii. A movie theater. (Cr. by ORD-15-00125, 11-11-15)
viii. A painting studio. (Cr. by ORD-15-00125, 11-11-15)

b. i. In this Sec. 38.05(9)(d)7.b. "market" means the retail sale of secondhand or antique merchandise or art or the retail sale of coins or stamps.
ii. Notwithstanding Sec. 38.05(9)(d)7.a., a market or an auction may be conducted on premises for which a Class B license has been granted, if the number of days on which a market is held and the number of days on which an auction is held on the premises do not exceed a combined total of four (4) days each month. A day on which both an auction and a market are held shall be counted as two (2) days for the purpose of computing the total number of days on which auctions or markets are held.
iii. No Class B license may be granted for premises on which an auction or the retail sale of secondhand or antique merchandise or art or the retail sale of coins or stamps has been conducted within one year before the date of filing the application. This Sec. 38.05(9)(d)7.b.iii. does not apply if the retail sales occurred in the ordinary course of business authorized under Sec. 38.05(9)(d)7.a. above or if the auction or market was authorized under Sec. 38.05(9)(d)7.b.ii.
iv. No person may consume, sell, give away or furnish alcohol beverages on Class B licensed premises if an auction or market authorized under Sec. 38.05(9)(d)7.b.ii. is being conducted except in a room in which no activity related to the auction or market is being conducted.

(Am. by Ord. 9482, 5-10-88)

8. Notwithstanding any of the provisions contained in Paragraphs 4 or 5 of Sec. 38.05(9)(d) of this ordinance, a license for the sale of fermented malt beverages for any premises on which the requirements of any of said paragraphs have not been complied with, may nevertheless be issued and the privileges of such license may be enjoyed by the licensee thereof provided that the licensee file with the City Clerk a performance bond in such sum as shall be determined by the Director of the Building Inspection Division conditioned for the full compliance and performance of the requirements contained in said paragraphs or any or either of them, within sixty (60) days from the granting of said license. In case of the failure of the licensee to perform the conditions of said bond and the requirements of said paragraphs within such sixty (60) days the bond shall be forfeited and the licensee shall surrender the license to the City Clerk. Failure to comply with the requirements of this subsection or the refusal of the licensee to surrender her/his license as aforesaid shall be cause for revocation of the license by the Common Council. (Am. by ORD-08-00109, 10-7-08; ORD-14-00012, 1-14-14)

9. Where an application for a fermented malt beverage license and/or intoxicating liquor license is made for premises on which no building exists at the time of the application but on which it is proposed to erect a building in which the business covered by the application is proposed to be conducted, then notwithstanding any of the provisions contained in Paragraphs 5, 6, 7 or 8 of Sec. 38.05(9)(e) of these ordinances, the license for the sale of alcohol beverages for said premises may nevertheless be issued and the privileges of such license may be enjoyed by the licensee thereof under the following conditions:
Such license shall be issued by the Clerk but held by the City Clerk in his/her possession until the Director of the Building Inspection Division shall file with the City Clerk a certificate evidencing compliance and performance of the requirements contained in Paragraphs 5, 6, 7 and 8 of Sec. 38.05(9)(e), which said compliance shall be within six (6) months from the date of the granting of the license or by the following thirtieth (30th) of June, whichever date shall occur first. Further provided that the licensee shall file with the City Clerk a performance bond in such sum as shall be determined by the Director of the Building Inspection Division conditioned for the full compliance and performance of the requirements contained in said paragraphs or any or either of them. In case of the failure of the licensee to perform the conditions of said bond and the requirements of said paragraphs within the time or times above limited the bond shall be forfeited and the license shall be cancelled by the City Clerk. (Am. by ORD-08-00109, 10-7-08)

10. Seasonal Licenses. Class B licenses may be issued at any time for a period of six (6) months in any calendar year, for which fifty percent (50%) of the license fee shall be paid. Such licenses are not renewable during the calendar year in which issued. (Cr. by ORD-17-00042, 4-27-17)

(e) Class B License (Picnic).

1. Temporary Application Without Concurrent Street Use Permit. Class B licenses that are applied for without a concurrent application for or a previously issued Sec. 10.056, MGO, Street Use Permit may be issued by the City Clerk or designee to bona fide clubs, to county or local fair associations or agricultural societies, to churches, lodges or societies that have been in existence for at least six (6) months prior to the date of application and to posts of veterans' organizations, authorizing the sale of fermented malt beverages at a particular picnic or similar gathering, at a meeting of the post, or during a fair conducted by the fair association or agricultural society. Such application shall be filed with the City Clerk at least seven (7) working days prior to the granting of the license if the event is to be indoors or three (3) working days if outdoors. The Clerk is under no obligation to consider an application that is not timely filed, but may, in his or her discretion, consider such an application if other conditions for a license are met. Failure to timely file an application shall not relieve the City Clerk of jurisdiction to issue a license if all agency approvals are received before the applied-for event. If the Clerk does not receive an approval from an agency pursuant to Sec. 38.05(9)(d)5. of these ordinances, the Clerk shall not issue a license. However, each agency shall respond to the Clerk within fourteen (14) days of receipt of the application by the agency. If an agency recommends approval with conditions, each condition shall be part of such license and the Clerk shall state such conditions on the license or append them thereto. If the applicant requests a waiver of conditions printed on the license application, such waiver may be obtained

in writing from the Chief of Police or designee. Any applicant refused a license or aggrieved by any condition on the license may request a de novo review by the Alcohol License Review Committee. Any applicant aggrieved by the action of the Alcohol License Review Committee may appeal such decision to the Common Council. Any applicant aggrieved by the action of the Common Council may seek review in Circuit Court pursuant to Wis. Stat. § 753.04. (Am. by Ord. 10,178, Adopted 1-8-91)

2. Application With Street Use Permit. Temporary Class B licenses that are applied for with a concurrent application for or which are intended to be utilized in conjunction with an issued Street Use Permit pursuant to Sec. 10.056, MGO, may only issued by the Common Council upon the recommendation of the Alcohol License Review Committee. Such licenses may be issued to bona fide clubs, to county or local fair associations or agricultural societies, to churches, lodges or societies that have been in existence for at least six (6) months prior to the date of application and to posts of veterans' organizations, authorizing the sale of fermented malt beverages at a particular picnic or similar gathering, at a meeting of the post, or during a fair conducted by the fair association or agricultural society. Such application shall be filed with the City Clerk at least forty-five (45) working days prior to the granting of the license. The Clerk shall refer the application to those agencies set forth in Sec. 38.05(9)(d)5. and the Parks Division. Each agency, including the Parks Division, shall respond to the Clerk within fourteen (14) days of receipt of the application. The Clerk shall forward all agency and Parks Division approvals of the application to the Alcohol License Review Committee and the Common Council. The Clerk shall schedule public hearings before the Alcohol License Review Committee and the Committee shall thereafter make a recommendation to the Common Council. The Common Council is under no obligation to consider an application that is not timely filed, but may, in its discretion, consider such an application if other conditions for a license are met. If the Common Council does not receive an approval from an agency as set forth herein, the Common Council may not issue a license. If an agency recommends approval with conditions, each condition shall be part of such license unless the Common Council, in its actions approving the license, otherwise explicitly remove such condition from the approved license, and the Clerk shall, upon approval of the license by the Common Council, state such conditions on the license or append them thereto. Any applicant refused a license or aggrieved by any condition on the license may seek review in Circuit Court pursuant to Wis. Stat. § 753.04.

3. Applicants Convicted of Chapter 38 Violations. If the applicant organization has been convicted of any violation of Chapter 38 which violation occurred within one (1) year of the date of application, such application shall be filed with the City Clerk at least forty-five (45) days prior to the granting of the license. Such an application shall be referred by the City Clerk to the Alcohol License Review Committee for determination and recommendation to the Common Council. In making its decision and recommendation, the Committee shall consider the seriousness of the violation(s), the culpability of the license holder in the violation(s), and the measures the license holder agrees to undertake to avoid further violations. Any applicant refused a license or aggrieved by any condition on the license may seek review in Circuit Court pursuant to Wis. Stat. § 753.04.

4. Required Availability of Non-Alcoholic Beverages. For the event covered by the license, the licensee shall make available to the participants

non-alcohol beverages other than water in total volume not less than ten percent (10%) of the total volume of beer made available. The licensee shall provide participants substantially equal access to alcohol and non-alcohol beverages at each service area.

5. Term of License. The license shall be issued upon approval, and for such time as shall be designated by the issuing body and shall be subject to such restrictions as imposed by the issuing body.

(Sec. 38.05(9)(e) Am. by ORD-11-00118, 9-12-11)

(f) A Retail Class A and Class B liquor license shall not both be issued for the same premises or connecting premises except in the case of hotels maintaining twenty-five (25) or more sleeping rooms for the accommodation of transient guests.

(g) No license for the sale of intoxicating liquor shall be issued for any premises within any district established as a no-license district pursuant to the provisions of Section 125.05 of the Wisconsin Statutes.

(h) No Retail Class B liquor license shall be issued to any person who does not have, or to whom is not issued, a Class B license to sell fermented malt beverages under this chapter, and the limitations upon issuance of Class B licenses under such section shall be applicable to Retail Class B liquor licenses hereunder. No Retail Class A liquor license shall be issued to any person who does not have, or to whom is not issued, a Class A license to sell fermented malt beverages under this chapter, and the limitations upon issuance of Class A licenses under such section shall be applicable to Retail Class A liquor licenses hereunder.

(i) No Retail Class A or Class B liquor license shall be issued to any person who has not attained the legal drinking age. (Am. by Ord. 9314, 11-13-87)

(j) Separate License for Each Place of Business. A separate license shall be required for each place of business, and each license shall particularly describe the premises for which issued.

(k) License Void - How Validated. If any license shall be issued in violation of any part of the foregoing provisions, said license shall be valid if the licensee within thirty (30) days thereafter shall comply with all lawful orders of the Director of the Building Inspection Division, Chief of Police, Chief of Fire Department, and representative of the Director of Public Health Madison and Dane County issued pursuant to the inspection herein provided. If any such licensee shall fail to comply with such provisions or orders within such thirty (30) days, her/his license shall be automatically null and void and she or he shall be deemed guilty of a violation of this section. It is provided, however, that any license issued in violation of Section 38.05(9)(a), (b), (c) or (m), or Section 38.05(9)(d)1, 4, 9 or 10 shall be null and void. (Am. by ORD-08-00109, 10-7-08; ORD-14-00012, 1-14-14; ORD-15-00009, 1-28-15)

(l) Police Record and Report. Before any Class A, Class B, or Operator's license shall be issued or granted under this section, the Chief of Police shall first file a complete written report with the Common Council showing the applicant's complete police record if any, and likewise showing for the previous three (3) year period, the complete police record if any, of any licensee during such three (3) year period of the premises or business as to which application is being made, both reports to include arrests, complaints, prosecutions, and other proceedings. Said complete written report shall not be required for operator license renewals. (Am. by Ord. 9770, 5-12-89; Ord. 13,565, 4-21-04)

(m) (R. by Ord. 11,183, Adopted 2-21-95)

(n) Good Moral Character. No Operator's or Manager's license shall be granted to any person who is not of good moral character.

1. A license shall not be denied on the grounds that applicant lacks good moral character unless there is evidence that the applicant would, if granted the license, pose a threat to the safety or welfare of patrons of the establishment in which he or she would be employed.
2. Only the following will be considered grounds for a determination that an applicant lacks good moral character:
   a. Suspension or revocation of a Class A, Class B, or Operator's License, or dismissal from a bartending job if:
      i. There is a relationship between the reasons for the suspension, revocation or dismissal and the applicant's ability to competently tend bar without endangering the safety or welfare of the patrons of such bar, and
      ii. The suspension, revocation or dismissal occurred within a year of the date of the application, or there has been more than one such suspension, revocation or dismissal within three (3) years of the date of the application.
   b. Conduct exhibiting the use (within the past three (3) years of the date of the application) of alcoholic beverages, to an extent or in a manner dangerous to any other persons, or to an extent that such use would impair his or her ability to competently tend bar.
   c. A criminal conviction for which the applicant has not received a full or conditional pardon, if:
      i. There is a relationship between the nature of the crime involved and the applicant's ability to competently tend bar without endangering the safety and welfare of the patrons of such bar; and
      ii. The applicant was convicted, fined or confined in a correctional institution, within two (2) years of the date of the application, or the applicant was convicted on more than one occasion within three (3) years of the date of the application; and
      iii. The applicant was convicted of selling a controlled substance within one (1) year of the date of application.
3. Before the Alcohol License Review Committee recommends denial of an Operator's License on the basis provided herein, the applicant shall be given the opportunity to present evidence of rehabilitation. Such evidence may include, but is not limited to, letters of recommendation, evidence of family stability or educational advancement, satisfactory work performed, professional counseling, and participation in community activities.
4. If the license is recommended for denial by the Alcohol License Review Committee, the applicant shall have the right to file an appeal with the City Clerk within thirty (30) days, and appear and be represented before the Common Council, to be heard, to present evidence in favor of the granting of the license, and to rebut the evidence presented in opposition to the granting of the license, at a hearing held within forty (40) days of the filing of such appeal. Notice of the time and place of such hearing shall be mailed by the City Clerk to the applicant by certified mail at least ten (10) days before the date of such hearing. If the Alcohol License Review Committee either refuses the granting of any such license without recom-

mendation, or recommends the granting of such license, the applicant shall have the right to appear, be represented and be heard as set forth above at her or his request. (Am. by ORD-14-00012, 1-14-14)

(o) (Rep. by ORD-15-00125, 11-11-15)

(10) Inspections and Financial Audits of Licensed Premises. Application for a license hereunder shall be deemed as consent to this provision. Any refusal to permit such inspection or financial audit shall automatically operate as a revocation of any license issued hereunder and shall be deemed a violation of this section. In addition to the foregoing remedies, any person who violates any provision of this section shall be subject to a penalty of not less than fifty dollars ($50) nor more than one thousand dollars ($1,000).

(a) Premises Inspections. It shall be a condition of any license issued hereunder that the licensed premises, delivery vehicles and any of the business' books of account, bank statements, billings, invoices and any other documents relating specifically to the licensed business may be entered and inspected at any reasonable hour by any police officer of the City of Madison without any warrant for the purpose of determining whether the taxes imposed by Wis. Stat. §§ 139.01 to 139.25, has been fully paid and whether Wis. Stat. ch. 125 and Chapter 38, MGO, are being complied with.

(b) Financial Audits. It shall be a condition hereunder of any license issued to a licensee whose operations must qualify as a "restaurant" as that term is defined in Sec. 38.02, MGO, that the Alcohol License Review Committee or the Common Council may order the Finance Department to conduct a financial audit to determine whether a licensee is in fact operating as a "restaurant." Such order may issue upon either sworn oral testimony, affidavit or complaint establishing a reasonable basis to believe that the licensee's operations do not qualify as a "restaurant" as that term is defined in Sec. 38.02, MGO. The following factors, without limitation by enumeration, may be considered in determining whether to order an audit:

1. Observations that patrons are consuming mostly alcohol with little or no food consumption;
2. Capacity or large crowds on the premises at or near the closing time for non- restaurant Class B premises;
3. Menus, literature, signage or advertising that promotes the alcoholic beverages more so than food offerings;
4. A food menu that contains exclusively traditional bar fare or frozen "heat and eat" foods;
5. Bar space that is significantly larger in square footage than the kitchen/ food preparation area;
6. A disproportionate number of calls for police/fire services than other restaurants;
7. The use of security officers/ bouncers/ door checkers;
8. The advertising, promotion or sale of "drink specials";
9. Any other factors reasonably indicative of the status of the licensed premises.

The licensee shall cooperate fully with the Finance Department and shall provide access, without delay, to any of the business' books of account, bank statements, billings, invoices and any other documents relating specifically to the licensed business as may be requested by the Finance Department. The Finance Department shall promptly report the results of such an audit to the body that ordered the audit and to the Office of the City Attorney. If the audit establishes that the licensee's operations are not those of a restaurant, the Office of the City Attorney

may, within forty-five (45) days of the receipt of the audit results, file a complaint with the Alcohol License Review Committee seeking suspension or revocation of the license.

(Sec. 38.05(10) Am. by ORD-12-00125, 10-10-12; ORD-15-00125, 11-11-15)

(11) Time of Granting Licenses. No licenses shall be granted hereunder until and unless the Common Council shall by a vote of the majority of the members elect of the Council have authorized the same. The Common Council shall meet not later than May 15 of each year and be in session from day to day thereafter, so long as it may be necessary for the purpose of acting upon such applications for licenses as may be presented to them on or before April 15 and all applications for licenses so filed shall be granted or denied not later than June 15 for the ensuing license year. (Am. by Ord. 9431, 3-11-88)

(12) Catering Service Requirements. In any case where the licensee operates or conducts a business in which the licensee provides food for consumption off the licensed premises, commonly known as a catering service, the following shall apply to the providing of alcohol beverages as part of the catering services, in addition to all other laws:

(a) The licensee shall deliver alcohol beverages to an event only when licensee supplies full food catering service for all guests of or participants in the event. No licensee shall deliver alcohol beverages for an event that is held on the premise of another alcohol beverage licensee, including the premise of a temporary Class "B" Beer (picnic) license or a temporary "Class B" Wine "picnic" license.

(b) No licensee shall sell, deal or traffic in alcohol beverages except on the licensed premises of the licensee. This provision shall not prevent nor prohibit the licensee from delivering goods to the buyer as accommodation.

(c) The licensee may supply personnel to dispense alcohol beverages at a catered event. No person shall engage in the individual sale of alcohol beverages to be consumed by the glass at a catered event ("cash bar"), when the alcohol beverages have been supplied by a retail licensee.

(Section 38.05(12) Cr. by Ord. 9171, 5-6-87; Am. by ORD-10-00074, 8-12-10)

(13) Video Surveillance Equipment. Video surveillance equipment in licensed establishments shall be subject to the following restrictions:

(a) The ALRC may impose video surveillance as a condition on a new license if the nature of the license proposal or the character of the immediate area in which the establishment will be located clearly demonstrates that video surveillance is consistent with maintaining the health, safety and welfare of the community. Factors which would support the

ALRC's imposing this condition would include, but are not limited to: physical layout of the establishment, capacity, venue, history of the applicant in operating previous licensed establishments, history of the establishment itself and character of the surrounding area of the establishment.

(b) If a licensed establishment has video surveillance imposed as a license condition, the ALRC record shall clearly state the basis for imposing the condition.

(c) Any video surveillance license condition imposed by the Common Council, Alcohol License Review Committee or Madison Police Department shall be limited to two (2) years, after which time such condition may be reviewed at the request of the licensee.

(d) All licensed establishments having video surveillance in use at their establishment shall post the following signage:

VIDEO SURVEILLANCE EQUIPMENT IN USE
YOU MAY BE RECORDED

Such signage shall be conspicuously posted at all entrances/exits (excluding emergency exits and employee-only entrances). The signage lettering shall be in bold and the lettering shall be a minimum of two (2) inches in height.

(e) All tapes/discs used to record and/or store video as part of a license condition shall be kept for at least thirty (30) days.

(f) Any video surveillance equipment installed as a license condition shall be in operation during normal business hours.

(g) Any licensed establishment voluntarily implementing video surveillance shall notify the City Clerk's Office of such use and shall comply with the requirements of Subdivision (c).

Violation of any provision of this subsection shall result in a forfeiture of not less than $25 nor more than $100 plus court costs and fees. This section will become effective July 1, 2004. (Cr. by Ord. 13,564, 4-21-04; Am. by ORD-07-00118, 9-22-07)

38.06 GENERAL PROVISIONS AND HOURS.

(1) No License Where Pending Violation. No Class A or Class B license shall be issued or granted hereunder to any person, firm, corporation, limited liability company or organization for any premises consequent upon the sale or transfer of the business, stock in trade or furnishings of said premises, to a new applicant while there is pending against the former licensee thereof any proceedings for the violation of any provisions of the general ordinances of the City of Madison conviction of which would result in automatic forfeiture of said license. (Am. by Ord. 10,883, Adopted 4-5-94)

(2) Licensee, Agent or Operator on Premises at All Times. There shall be upon premises operated under a Retail Class A or Retail Class B license, at all times, the licensee, the agent named in the license if the licensee is a corporation or limited liability company, or some person who shall have an Operator's license and who shall be responsible for the acts of all persons serving, as waiters or in any other manner, any alcohol beverages to customers. No person other than the licensee, or the agent named in the license if the licensee is a corporation or limited liability company, shall serve alcohol beverages in any place operated under a Retail Class A or Class B liquor license unless he/she shall possess such Operator's license, or unless he/she shall be under the immediate supervision of the licensee or a person holding an Operator's license who shall be at the time of such service upon said premises. No person may manage premises operating under a Class B license or permit, unless the person is the licensee or permittee, an agent of the corporation or limited liability company or the holder of an Operator's license. (Am. by Ord. 10,883, Adopted 4-5-94; Ord. 13,565, 4-21-04)

(3) View From Sidewalk Required. All premises for which a Class B license shall have been issued shall be so arranged as to furnish a clear view from the sidewalk, and no curtains, pictures, signs and other obstructions which interfere with such clear view shall be maintained. The provisions of this paragraph, however, shall not apply to bona fide clubs, hotels and restaurants.

(4) Licensed Premises to be Sanitary. Each premise shall be conducted in a sanitary manner and shall be a safe and proper place for the purpose for which used. The Director of Public Health Madison and Dane County of the City of Madison is authorized and empowered to make reasonable rules for the sanitation of all places of business possessing licenses under this ordinance. All such rules and regulations shall have the same force as this ordinance and infraction thereof may be punished as a violation of this ordinance. (Am. by ORD-15-00009, 1-28-15)

(5) Sign to be Posted. A sign bearing the words "Bar closed after 2:00 a.m. on weekdays and 2:30 a.m. on Saturday and Sunday" shall be conspicuously displayed over the bar in all premises for which a fermented malt beverage Class B license shall have been issued. (Am. by Ord. 9350, 12-21-87)

(6) Class A Hours.

(a) Premises Hours. No premises for which a Class A alcohol beverage license shall have been issued shall be permitted to remain open for the sale or dispensing of

alcohol beverages between the hours of 9:00 p.m. and 8:00 a.m. but shall be permitted to stay open for the conduct of their regular business. (Am. by Ord. 9505, 6-23-88)

(b) Regulation of Closed Retail Space. Only the permitted, licensee, employees, salespersons, employees of wholesalers licensed under Wis. Stat. § 125.28(1) or 125.54(1), or service personnel may be present on Class A premises during hours when the premises are not open for business if those persons are performing job-related activities. All other employees and patrons shall vacate the premises at 9:00 p.m. (Am. by Ord. 10,178, Adopted 1-8-91)

(c) (R. by Ord. 9596, 10-14-88)

(d) (R. by Ord. 9596, 10-14-88)

(e) No-Carryout Law. Between 9:00 p.m. and 8:00 a.m., no seller shall permit nor shall any person carry out or remove from the "Class A" licensed premises, any alcohol beverages in an original unopened package, container or bottle or for consumption away from the premises. (Am. by Ord. 9505, 6-23-88)

(f) No On-Premises Consumption. It shall be unlawful for any person to possess or drink from any open container which contains alcohol beverages within a Class A licensed premises at any time unless said premises also holds a Class B license. (Cr. by Ord. 9315, 11-13-87)

(7) Class B Hours.

(a) Alcohol Beverages Hours. No alcohol beverages shall be sold or served on any premises for which a Retail Class B license shall be issued, between the hours of 1:45 a.m. and 6:00 a.m. on week days, and between the hours of 2:15 a.m. and 6:00 a.m. on Saturdays and Sundays. On January 1 alcohol beverages may be sold or served on any such premises at any time.

(b) Premises Hours. No premises for which a Retail Class B license shall be issued shall be permitted to remain open between the hours of 2:00 a.m. and 6:00 a.m. on week days and between the hours of 2:30 a.m. and 6:00 a.m. on Saturdays and Sundays, except that on January 1 the premises are not required to close. (Am. by Ord. 10,080, 8-14-90)

(c) Hotel and Restaurant Exemption. Hotels and restaurants the principal business of which is the furnishing of food and/or lodging to patrons, and bowling centers, indoor horseshoe pitching facilities, curling clubs, golf courses and golf clubhouses may remain open for the conduct of their regular business, but shall not sell, serve, give away or in any way deal or traffic in alcohol beverages in violation of Subdivision (a) above. (Am. by Ord. 10,344, 12-12-91)

(d) Regulation of Closed Retail Space. Only the permittee, licensee, employees, salespersons, employees of wholesalers licensed under Wis. Stat. § 125.28(1) or 125.54(1), or service personnel may be present on Class B premises during hours when the premises are not open for business if those persons are performing job-related activities. All other employees and patrons shall vacate the premises at 2:00 a.m. except that on Saturday and Sunday patrons and employees shall vacate the premises at 2:30 a.m. Under no circumstances shall the consumption of alcohol beverages be permitted after 2:00 a.m. and on Saturday and Sunday after 2:30 a.m. On January 1, consumption is permitted at all times. (Am. by Ord. 10,178, Adopted 1-8-91)

(e) (R. by Ord. 9596, 10-14-88)

(f) (R. by Ord. 9596, 10-14-88)

(g) No-Carryout Law. Between 9:00 p.m. and 8:00 a.m., no seller shall permit nor shall any person carry out or remove from the "Class B" licensed premises, any alcohol beverages in an original unopened package, container or bottle or for consumption away from the premises. (Am. by Ord. 9505, 6-23-88)

(h) No After-Hours Consumption. Except on January 1, it shall be unlawful for any person to possess or drink from any open container which contains alcohol beverages within a Class B licensed premises between 2:00 a.m. and 6:00 a.m. on week days, or between 2:30 a.m. and 6:00 a.m. on Saturdays and Sundays.

(Sec. 38.06(7) Am. by Ord. 9350, 12-21-87)

(8) It shall be unlawful for the licensee or any employee of a licensed establishment to be under the influence of an intoxicant, or a controlled substance or a combination of an intoxicant and a controlled substance, while performing services on the licensed premises. (Cr. by Ord. 8894, 6-12-86)

(9) Licenses for Less Than One Year.

(a) A license may be issued after July 1 in any license year. The license shall expire on the following June 30. The fee for the license shall be prorated according to the number of months or fractions thereof remaining until the following June 30.

(b) Licenses valid for six (6) months may be issued at any time. The fee for the license shall be fifty percent (50%) of the annual license fee. The license may not be renewed during the calendar year in which issued.

(Cr. by Ord. 8940, Adopted 8-19-86, Effective 9-1-86)

(10) Unruly Patron. It is unlawful for any person who has engaged in violent, abusive, indecent, profane, boisterous, unreasonably loud or otherwise disorderly conduct under circumstances in which such conduct tends to cause or provoke a disturbance and who has been ordered by a Madison Police Officer not to enter or remain on a licensed premises to so enter or remain during any period after having been ordered not to enter or remain by a Madison Police Officer. Such order prohibiting entry may be for up to six months. Upon conviction, the person is subject to a forfeiture of not less than fifty dollars ($50) nor more than five hundred dollars ($500). (Cr. by Ord. 10,638, 4-30-93; Am. by Ord. 13,760, 12-14-04; ORD-05-00019, 2-15-05)

(11) 21 + Entertainment License. (Title Am. by ORD-07-00070, 6-26-07)

(a) Entertainment License Required. No holder of a "Class B" and/or Class "B" intoxicating liquor or fermented malt beverage license shall offer or allow live entertainment without first obtaining an Entertainment License from the City Clerk. (Am. by ORD-09-00174, 12-31-09; ORD-13-00136, 8-14-13)

(b) Temporary Entertainment License. A licensed establishment may obtain an entertainment license on an event basis. Such license shall authorize live entertainment during a particular 24 hour period. No such license shall be required for New Year's Eve and live entertainment will be permitted in all licensed establishments on New Year's Eve. No more than five (5) Temporary Entertainment Licenses shall be issued for the same premises in any license year.

1. Temporary Entertainment licenses shall be issued by the City Clerk. The issuance and review provisions contained in Sec. 38.05(9)(e) shall govern the issuance and review of this event entertainment license.
2. The fee for each Temporary Entertainment license shall be fifty dollars ($50.00).

(c) Live Entertainment Defined. A licensed establishment shall be deemed to offer or allow live entertainment if any of the following activities are offered, permitted or allowed:

1. live music performances;
2. disc jockeys;
3. the establishment has a designated dance floor area.

Live entertainment does not include non amplified or acoustic music performed by a single artist, or performances where an uncompensated patron sings along with a machine that plays pre recorded music, commonly known as "karaoke. (Am. by ORD-09-00174, 12-31-09)

(d) Designated Dance Area Defined. An identified area of at least 200 square feet that is devoted to dancing at times when entertainment is the principal business of the establishment. No dancing shall be permitted on top of a bar at which patrons are directly served.

(e) Under Age On Premise. An establishment that does not meet the definition of a restaurant as defined in Sec. 38.02, MGO, may not allow patrons under the age of 21 on their premise unless they do so pursuant to any of the circumstances enumerated in Sec. 38.04(3) & (4), MGO. An establishment holding a Class "B" and/or "Class B" license and a restaurant permit and who meets the definition of a "restaurant" in Sec. 38.02, Madison General Ordinances, shall, for times when its primary business is entertainment, submit a plan to the Madison Police Department and the Alcohol License Review Committee that details the establishments plan for identifying patrons under the age of twenty-one (21) and a specific plan as to how they will enforce drinking-age requirements. When the establishment's principal business, as that term is defined in Wis. Stat. § 125.02(15m), is entertainment, no patrons under the age of eighteen (18) shall be allowed on the licensed premises unless they are accompanied by a parent, legal guardian, or spouse who is of legal drinking age. (Am. by ORD-07-00070, 6-26-07; ORD-10-00114, 12-8-10; ORD-13-00203, 12-10-13)

(f) Identification of Patrons 21 Years Of Age And Older. Any licensed establishment that meets the exceptions contained in Section 125, Wisconsin Statutes and Chapter 38 of the Madison General Ordinances for allowing underage patrons on the licensed premise, must have a means of visually and conspicuously identifying patrons who are twenty-one (21) years of age and older. It shall be the sole responsibility of the license holder to determine whether any of the exceptions contained in Wis. Stat. § 125, and Chapter 38 MGO, apply to their establishment. An establishment whose principal business is that of a tavern may not have underage patrons on the premise at any time unless an exception contained in Wis. Stat. § 125 and/or Chapter 38 MGO applies to their situation.

(g) Security and Door Personnel. All security personnel and door personnel (e.g. ID checkers) shall wear clothing that readily identifies them as security personnel or door personnel.

(h) Security/Operational Plan. All entertainment license applicants shall submit a security/operational plan at the time of application. The plan shall indicate what type of live entertainment the establishment will offer. The plan shall indicate the number of security personnel the applicant will employ and how they will be utilized. The security plan shall also set forth how the applicant will handle issues regarding: control and clearance of the parking lot during hours of operation and at closing time; unruly patrons; patrons who are intoxicated; patrons presenting false ID's; control and supervision of patrons under the age of twenty-one (21); the circumstances under which the police should be called and how physical disturbances (including fights) will be handled. The security plan shall also identify by name and date of birth, individuals who are employed by the establishment in a management capacity.

(i) Control of Premises. At no time may licensee relinquish control of the licensed premises or the service of alcohol to any other person or entity. The licensee must remain in control of the premises and must continue to be in control of the alcohol and service thereof through the licensee's own employees, including but not limited to checking identification of patrons, providing security within the licensed premises and at the door, collecting money or tickets from patrons for food, drinks, or for charges for entry to the establishment or any area within the establishment, during all events, including private parties. The licensee and its employees will be held responsible for all conduct taking place on its premises at all times including

conduct taking place during private parties. Notwithstanding the limitations of this subdivision, a licensee may contract with an agency that is licensed by the State of Wisconsin as a supplier of uniformed private security personnel to engage in private security activities. (Am. by ORD-09-00174, 12-31-09)

(j) Application. Upon application to the City Clerk, the City Clerk shall refer the entertainment license application to the ALRC for a public hearing pursuant to Sections 38.05(3)(b), (c), (d), (e), (g), and (h), MGO. The ALRC shall make a determination and recommendation to the Common Council regarding the issuance of the entertainment license. The ALRC may recommend, and the Common Council may impose, restrictions on the entertainment license hours relating to presentation of live entertainment if the information or evidence available to and considered by the ARLC and/or Common Council reasonably establish that such restriction is necessary to protect the health, safety and welfare of the designated neighborhood or necessary to prevent underage patrons from purchasing, possessing or consuming alcohol beverages on the licensed premise. (Am. by ORD-17-00009, 2-20-17)

1. If the ALRC denies a 21+ Entertainment License application, the applicant is prohibited from reapplying for another entertainment license for a period of twelve (12) months from the date the application is denied. (Cr. by ORD-13-00059, 4-24-13)

(k) Fee. The annual license fee shall be three hundred dollars ($300.00) plus the applicable publication fee, if applicable, as set forth in Sec. 38.05(3)(b), MGO, and the license shall expire on June 30 following its issuance. (Am. by ORD-12-00023, 3-5-12; ORD-17-00009, 2-20-17)

(l) Renewal. Entertainment licenses shall be obtained on or before June 30 of each year or be subject to a late filing of fifteen percent (15%) of the license fee. Payment of the late filing fee shall not relieve any person from any other penalties prescribed in this chapter for failure to obtain the license.

(m) Change In Operation. If, after the license has been granted or issued, the licensee wishes to make any substantial deviations from its original plan of operation, the licensee shall file a written request with the City Clerk which states the nature of the change. No change shall take place until the request has been considered by the ALRC and approved by the Common Council.

(n) Revocation/Suspension or Non-renewal. A Complaint for revocation, suspension or non-renewal of an entertainment license may be made by; An Alderperson; The Police Chief; The City Attorney; and/or any resident of the City of Madison. Complaints shall be made in writing and filed with the City Clerk who shall then refer the Complaint to the ALRC for a hearing. The ALRC may recommend to the Common Council that an entertainment license be suspended for cause after notice to the licensee and a hearing. If an entertainment license is revoked, no other entertainment license shall be issued to the same person for the same premises for at least twelve (12) months. Entertainment licenses may be suspended or revoked for any of the following causes:

1. Violation of any conditions or restrictions placed on the license by the Common Council;
2. Repeated violations of any provisions of Chapter 38, MGO;
3. The licensed premises is operated in such a manner that it has a substantial adverse effect upon the health, safety and welfare of the immediate neighborhood;
4. Any other reasonable cause which shall be in the best interests and good order of the City.

The licensee shall be notified in writing of the charges against her or him at least ten (10) days prior to the hearing. At the hearing, the complainant and the

licensee will have an opportunity to produce witnesses, cross-examine witnesses and be represented by counsel. The proceedings shall be tape-recorded. Within ten (10) days of the hearing, the ALRC shall issue a written decision and recommendation stating the reasons therefor and forward such decision to the Common Council. If the Common Council rejects the recommendation of the ALRC, the matter shall be dismissed without costs to either party. If ordered, suspension shall be for a period not to exceed six (6) months; revocation shall be for a period of one (1) year.

(o) Judicial Review. The decision of the Common Council shall be a final determination and shall be subject to review in court as may be provided by law. Any person aggrieved by the decision may seek review thereof within thirty (30) days after the date of the final determination.

(p) Penalty. In addition to suspension, revocation or non-renewal of the entertainment license, licensee may be subject to a forfeiture of not less than $500 nor more than $1,000 plus costs for violation of any provision of this section.

(q) This section shall become effective on June 30, 2005.

(Sec. 38.06(11) Cr. by 13,765, 12-14-04; Am. by ORD-07-00070, 6-26-07)

(12) 18+ Centers For Visual And Performing Arts. (Title Am. by ORD-07-00069, 6-26-07)

(a) Findings. The Wisconsin state statutes create the designation "centers for the visual and performing arts" and exempts them from certain restrictions relating to the presence of underage persons on licensed Class B alcohol beverage premises. The statutes do not define "centers for visual and performing arts." The Common Council recognizes the importance of preventing the underage consumption of alcohol by underage persons. The Common Council also recognizes that due to the statutory restrictions regarding underage persons not being allowed on a licensed premise, the City of Madison has few venues available to underage patrons in which they can enjoy live music performances. In the interest of providing safe, supervised opportunities for underage patrons to enjoy live music events, the Common Council finds it necessary to define "centers for the visual and performing arts". The intent is that a "visual and performing arts" designation will be given only after careful consideration, review and deliberation and only upon a licensed establishment meeting all the criteria set forth in the ordinance.

(b) License Required.

1. No premise shall be deemed a Center For Visual and Performing Arts without first obtaining a license as required in this section. Premises designated as Centers For Visual and Performing Arts prior to the effective date of this ordinance shall comply with the terms and conditions of this section within ninety (90) days of the effective date.
2. Exceptions. Performance venues holding theater licenses pursuant to Section 9.04 of the Madison General Ordinances shall not be required to obtain a center for the visual and performing arts license.

(c) Definitions.

"Center For Visual and Performing Arts" means a licensed premises that meets all of the following criteria and will be allowed to have patrons eighteen (18) years of age and older on the premises during live entertainment performances only in accordance with provisions of this section:

1. Pays a fee to performers or an agreed-upon designee.
2. Provides live entertainment as that term is defined in this subsection.

Patrons eighteen (18) years of age and older may be allowed onto the premises one half hour before the scheduled performance time and must be off the premises within one half hour after the performance ends.

"Live Entertainment" means a live music or disc jockey performance being heard and/or viewed at the time of performance and in the physical

presence of a live audience. Live entertainment does not include non amplified or acoustic music performed by a single artist, or performances where an uncompensated patron sings along with a machine that plays pre recorded music, commonly known as "karaoke".

3. The license issued under this subsection shall be known as an "18+ Center for the Visual and Performing Arts license." (Am. by ORD-07-00069, 6-26-07; ORD-09-00174, 12-31-09)

(Am. by ORD-13-00136, 8-14-13)

(d) Application.

1. Application for a Center For Visual and Performing Arts license shall be filed with the City Clerk. The application shall be signed by the applicant, if an individual, or by a duly authorized agent or officer of a corporation or limited liability corporation, and sworn to by the applicant. The application shall require:

   a. The name and permanent address of the applicant.

   b. The name and address of the premise for which the license is to be granted, including the aldermanic district in which it is situated.

   c. If the applicant is a corporation, the name of the corporation shall be set forth exactly as it is set forth in its articles of incorporation, together with the names and address of each of its officers, directors and designated managers, if any.

   d. If the applicant is a partnership, the application shall set forth the name and resident address of each of the partners, including limited partners, and each partner shall verify the application. If one or more of the partners is a corporation, the provisions of this section pertaining to a corporate applicant shall apply to the corporate partners.

   e. All convictions, including ordinance violations with a brief statement of the nature of the convictions and the jurisdiction in which the conviction occurred.

   f. Applicant's date of birth.

   g. A completed plan of operation which shall include: planned hours of operation for the premises; legal occupancy limit of the premises; the number of off-street parking spaces available at the premise; whether or not the premises will make use of sound amplification equipment and, if so, what kind; a written, detailed security plan for the premises, which includes: the number of security personnel the applicant will employ and how they will be utilized; detail regarding how the applicant will handle issues regarding control and clearance of the parking lot during hours of operation and at closing time; unruly patrons; patrons who are intoxicated; patrons presenting false ID's; control and supervision of patrons under the age of twenty-one (21) (if applicable); the circumstances under which police should be called and how physical disturbances, including fights, will be handled; the security plan shall also identify by name and date of birth, individuals who are employed by the establishment in a management capacity; how applicant will maintain the orderly appearance and operation of the premises with respect to litter and noise; any other licenses held by the applicant or attached to the premises; such other reasonable and pertinent information the ALRC or common council may from time to time require. (Am. by ORD-07-00069, 6-26-07)

h. If the ALRC denies a 18+ Centers For Visual and Performing Arts license application, the applicant is prohibited from reapplying for another entertainment license for a period of twelve (12) months from the date the application is denied. (Cr. by ORD-13-00060, 4-24-13)

2. Applications shall be referred to the ALRC for a public hearing in accordance with Sections 38.05(3)(b), (c), (d), (e), (g), and (h), MGO. The recommendation of the committee shall be based upon information presented at the public hearing and contained in the application and accompanying documents. The ALRC shall also consider the following factors in making its recommendation: (Am. by ORD-17-00009, 2-20-17)
   a. Whether the applicant meets the criteria set forth in Subdivision (c);
   b. The appropriateness of the location and premises where the Center For Visual and Performing Arts is to be located and whether the location will create undesirable neighborhood problems.
   c. Applicants record in operating similarly licensed premises.
   d. Whether the applicant has been charged with or convicted of any felony, misdemeanor, municipal offense or other offense, the circumstances of which substantially relate to the licensed activity.
   e. Any other factors which reasonably relate to the public health, safety and welfare.

(e) Fee. The annual fee for a Center For Visual and Performing Arts license shall be three hundred dollars ($300.00) and the publication fee, if applicable, as set forth in Sec. 38.05(3)(b), MGO. (Am. by ORD-12-00023, 3-5-12; ORD-17-00009, 2-20-17)

(f) Renewal. Centers For Visual and Performing Arts licenses shall be renewed annually following the same procedure as liquor license renewals in Sec. 38.05(3)(i), MGO. Late filing shall result in a fee of fifteen percent (15%) of the license fee. Payment of the late filing fee shall not relieve any person from any other penalties prescribed in this chapter for failure to obtain the license. (Am. by ORD-15-00125, 11-11-15)

(g) Patron Regulations. Any establishment with a Visual and Performing Arts license which admits patrons under the age of twenty-one (21) years of age on the premises of the establishment when alcoholic beverages are being sold, served or permitted on the premises shall, during the time the patrons are permitted on the premises:

1. Require one form of identification. The identification shall contain the bearer's photograph and must be one of the following: state driver's license, US military identification, state issued identification card, or passport, from every person claiming to be twenty-one (21) years of age or older;
2. Identify patrons over twenty-one (21) years of age with both an identifiable hand stamp and a bracelet and shall require every patron to show both hand stamp and bracelet before purchasing an alcoholic beverage;
3. Sell not more than one alcoholic beverage to an eligible patron in a single transaction, and shall prohibit a patron from carrying more than one alcoholic beverage from a bar or drink dispensing location;

(Am. by ORD-05-00154, 9-20-05)

(h) Revocation/Suspension or Non-renewal. A Complaint for revocation, suspension or non-renewal of a Center For Visual and Performing Arts license may be made by; An Alderperson; The Police Chief; The City Attorney; and/or any resident of the City of Madison. Complaints shall be made in writing and filed with the City

Clerk who shall then refer the Complaint to the ALRC for a hearing. The ALRC may recommend to the Common Council that a Center For Visual and Performing Arts license be suspended for cause after notice to the licensee and a hearing. If a Center For Visual and Performing Arts license is revoked, no other Center For Visual and Performing Arts license shall be issued to the same person for the same premises for at least twelve (12) months. Center For Visual and Performing Arts licenses may be suspended or revoked for any of the following causes:

1. Violation of any conditions or restrictions placed on the license by the Common Council;
2. Repeated violations of any provisions of Chapter 38 of the Madison General Ordinances;
3. The licensed premises is operated in such a manner that it has a substantial adverse effect upon the health, safety and welfare of the immediate neighborhood;
4. Any other reasonable cause which shall be in the best interests and good order of the City.

The licensee shall be notified in writing of the charges against her or him at least ten (10) days prior to the hearing. At the hearing, the complainant and the licensee will have an opportunity to produce witnesses, cross-examine witnesses and be represented by counsel. The proceedings shall be tape-recorded. Within ten (10) days of the hearing, the ALRC shall issue a written decision and recommendation stating the reasons therefor and forward such decision to the Common Council. If the Common Council rejects the recommendation of the ALRC, the matter shall be dismissed without costs to either party. If ordered, suspension shall be for a period not to exceed six (6) months; revocation shall be for a period of one (1) year.

(i) Judicial Review. The decision of the Common Council shall be a final determination and shall be subject to review in court as may be provided by law. Any person aggrieved by the decision may seek review thereof within thirty (30) days after the date of the final determination.

(j) Penalty. In addition to suspension, revocation or non-renewal of the Center For Visual and Performing Arts license, licensee may be subject to a forfeiture of not less than $500 nor more than $1,000 plus costs for violation of any provision of this section.

(Sec. 38.06(12) Cr. by ORD-05-00121, 7-12-05)

38.07 GENERAL RESTRICTIONS.

(1) Public Place. No owner, lessee or person in charge of a public place may permit the consumption of alcohol beverages on the premises of the public place, unless the person has an appropriate retail license or permit. This subsection does not apply to municipalities, buildings and parks owned by counties, regularly established athletic fields and stadiums, school buildings, churches, premises in a state fair park or clubs.

(2) Possession of Alcohol Beverages on School Grounds Prohibited. Pursuant to the provisions of Wis. Stat. § 125.10, the City of Madison does hereby adopt and incorporate into this Subsection the provisions of Wis. Stat. § 125.09(2), inclusive of all future amendments to any provisions of this section of the Wisconsin Statutes. (Am. by Ord. 11,624, 6-28-96; Rep. & Rec. by ORD-07-00118, 9-22-07)

(3) Restrictions on Delivery of Beer, Wine and Intoxicating Liquor.

(a) No person may peddle any alcohol beverage from house to house where the sale and delivery are made concurrently.

(b) For delivery of beer, wine, and intoxicating liquor, payment or payment arrangements shall be made in person at the licensed establishment prior to delivery. (Am. by ORD-10-00073, 8-12-10)

(c) The person paying for the keg/beer/wine coolers/intoxicating liquor must be at least 21 years of age and shall provide the licensed establishment with two forms of identification. The types of identification and identifying factors (e.g. driver's license number, physical descriptors, address, etc.) shall be recorded by the licensed establishment. The identifying information shall be retained by the retailer for at least two years from the date of sale and must be made available at the request of law enforcement or the Alcohol License Review Committee, pursuant to an active investigation by the Madison Police Department, City Attorney, or ALRC regarding alleged Chapter 38 MGO/ Wis. Stat. ch. 125 violation(s). (Am. by ORD-10-00073, 8-12-10)

(d) When purchasing kegs of beer, the person paying for the keg(s) must sign a receipt indicating how many kegs are being purchased and where they will be delivered.

(e) Delivery of any alcoholic beverage shall not be made unless the person who provided the identification is at the point of delivery and signs for receipt of the alcohol. The licensed establishment shall retain the signed delivery receipt for at least two years from the date of sale and make it available at the request of law enforcement or the Alcohol License Review Committee, pursuant to an active investigation by the Madison Police Department, City Attorney, or ALRC regarding alleged Chapter 38 MGO/ Wis. Stat. ch. 125 violation(s).

(f) Any person who violates this subsection is subject to a forfeiture of not more than $1,000.

(g) Transactions under this subsection shall comply with Sec. 38.07(16), MGO. (Cr. by ORD-10-00073, 8-12-10)

(Sec. 38.07(3) Am. by Ord. 12,942, 12-24-01)

(4) City Parks After Hours. It shall be unlawful for any person to drink or possess any alcohol beverages in any City park after the hour of 10:00 p.m. unless the Park Commission approves a later time for an authorized event in which case the prohibition becomes effective after such later time. (Am. by Ord. 11,268, 5-30-95)

(5) Person May Not Leave Licensed Premises. It shall be unlawful for any person to whom a license has been granted to permit any person to leave the licensed premises with an open container containing any alcohol beverages.

(6) Sell or Serve on Public Street. It shall be unlawful for any person to sell or serve, or offer to sell or serve any alcohol beverages upon any public street within the City of Madison, except in areas holding a sidewalk cafe permit pursuant to Sec. 9.13 of these ordinances, and for which the sidewalk is part of the licensed premises as that term is used in Sec. 38.02 of these ordinances.

(7) Possess Open Container on Street. It shall be unlawful for any person to possess an open container which contains alcohol beverages or consume any alcohol beverages upon any public street (including sidewalks and alleys) within the City of Madison except when such street or portion thereof is included within an area for which the Street Use Staff Commission has granted a Street Use Permit pursuant to Sec. 10.056 of these ordinances and a temporary Class B License (Picnic) has been approved by the Common Council under Sec. 38.05(9)(e)2., and except in areas holding a sidewalk cafe license pursuant to Sec. 9.13 of these ordinances, and for which the sidewalk is part of the licensed premises as that term is used in Sec. 38.02 of these ordinances. (Am. by Ord. 8894, 6-12-86; ORD-11-00118, 9-12-11)

(8) Unlawful Devices for Sale of Alcohol Beverages. It shall be unlawful for any person, firm, corporation or limited liability company to use or operate, or cause to be used or operated, in any public street or place, or from any aircraft or in front of or outside of any building, place or premises, or in or through any window, doorway or opening of such building, place or premises, abutting on or adjacent to any public street or place, any device,

apparatus or instrument for the amplification of the human voice or any sound or noise, or other sound making or sound reproducing device for the purpose of advertising the sale of alcohol beverages. (Am. by Ord. 10,883, Adopted 4-5-94)

(9) Off-Street Parking Facilities. Effective with licenses issued for the period commencing July 1, 1965, no license shall be issued to any club, society or lodge unless such organization has provided off-street parking stalls equal in number to twenty percent (20%) of the number of members of such club, society or lodge. This restriction shall not apply in the case of renewal licenses issued to clubs, societies and lodges holding licenses as of the date of the enactment of this subsection (April 22, 1965).

(10) Lighting Standard. The following areas shall be properly illuminated in accordance with the following minimum requirements:

Hallways and passageways - five (5) foot candles;
Dance halls and taverns - three (3) foot candles;
Stairways and washrooms - ten (10) foot candles.

The above standards refer to the general illumination of the areas set forth above. All illumination shall be measured on a plane thirty (30) inches above the floor at any point in the areas indicated.

(11) Gambling Prohibited. It shall be unlawful to permit gambling or devices used for gambling upon any premises licensed under this chapter. This subsection shall not apply to any gaming activity operated by a recognized Indian tribe or any gaming activity on Indian lands as defined and authorized under the Indian Gaming Regulatory Act, 25 U.S.C. § 201, et seq., as may be amended. (Cr. by Ord. 8643, 8-2-85; Am. by ORD-16-00057, 6-17-16)

(12) Illegal Postering. It shall be unlawful for the holder of a Class B Alcohol Beverage License to fail to include in any contract or agreement with any entertainment group, individual or entity, a clause prohibiting the entertainment group, individual or entity or agent or agents thereof from advertising or postering in the manner prohibited in Sec. 23.02(1) of the Madison General Ordinances. The Class B Alcohol Beverage license holder shall also provide a copy of Sec. 23.02(1) of these ordinances to each entertainment group, individual or entity or agent thereof. (Cr. by Ord. 8643, 8-2-85)

(13) Security Plan.

(a) In addition to any conditions placed upon a license by the Common Council at the time of approval, renewal or after a suspension/revocation or non-renewal hearing pursuant to Sec. 38.10 of these ordinances, the Chief of Police is hereby authorized to impose additional conditions on such license. The Clerk is directed to issue a new license which includes such additional conditions when notified in writing of such additional conditions by the Chief of Police. The previously issued license is declared void upon the Clerk's preparation of the new license.

(b) Limits on Authority. The Chief of Police is only authorized to formulate additional conditions which comprise a security plan. No condition which is part of a security plan may be contrary to or inconsistent with any statute or ordinance regulating alcohol beverages or any other condition authorized to be placed upon the license by the Common Council.

(c) Elements of Plan. A security plan may only include the following elements:

1. Provision for licensed security guards.
2. Monitoring of interior and exterior areas by licensee.
3. Regulating traffic flow in parking areas.
4. Exterior and interior lighting.
5. Regular meetings with Police Department personnel.
6. The posting of regulatory signage to aid enforcement efforts.
7. Limitations on the number of patrons allowed on the premises at certain times.
8. Any other reasonable security measures not enumerated above.

(d) Procedures. The Chief of Police is encouraged to meet with license holders to develop a security plan but the elements of the plan are to be solely determined by the Chief of Police or designee. The Chief shall provide notice of the contents of the security plan in writing to the licensee.

(c) Appeal. If the licensee objects to the security plan, the licensee shall so notify the City Clerk and the Chief of Police within ten (10) days of the date of the plan. If no such notice is received, the Clerk shall amend the license to include the plan as an additional condition on the license and forward said amended license to the licensee. If the Clerk receives an objection from the licensee, the Clerk shall notify the ALRC who shall schedule a hearing. The Chief of Police and the licensee shall both be allowed to present evidence and make arguments. The Committee may consider any probative evidence without regard to the rules of evidence. The hearing shall be tape recorded. The Committee may accept, reject or modify the security plan as presented by the Chief of Police or designee. If the licensee is aggrieved by the action of the ALRC, the licensee has ten (10) days from the date of the decision by the ALRC to seek review by the Common Council. Review before the Common Council shall be upon a transcript of the proceeding before the ALRC. The Common Council may accept, reject or modify the decision of the ALRC.

(Cr. by Ord. 10,759, 11-1-93)

(14) Public Library. It shall be unlawful for any person to possess an open container which contains alcohol beverages or consume any alcohol beverages upon any property owned or operated by a public library except when said possession or consumption has been authorized by the Madison Public Library Board. (Cr. by ORD-07-00118, 9-22-07)

(15) Establishments Selling Motor Vehicle Fuels. (Am. by ORD-16-00105, 12-2-16)

(a) Policy. The City of Madison finds that it is appropriate to prohibit the sale of intoxicating liquors, other than wine, at retail establishments that also sell gasoline or diesel fuel because the availability of intoxicating liquors to the motoring public at locations where fuel is purchased could encourage or facilitate alcohol related driving offenses. Intoxicating liquors are a particular problem when trying to identify those who engage in drinking and driving. The package sizes of intoxicating liquors are also smaller and easier to conceal than other alcohol beverages.

(b) No new "Class B" license or "Class A" license authorizing the retail sale of intoxicating liquors shall be issued to any establishment which also sells motor vehicle fuels, unless the licensee agrees to the license condition that the establishment will limit sales of intoxicating liquors to wine. This subsection (15) does not apply to any full service grocery store that sells motor fuels from a separate, non-contiguous location or to any license originally issued prior to July 1, 2009.

(Cr. by ORD-09-00153, 11-20-09)

(16) Face-to-face Retail Sales. Except as provided in Wis. Stat. § 125.26(2m), 125.26(2s), 125.51(3)(bm) and 125.51(bs), and except with respect to caterers, a retail alcohol license issued under this chapter authorizes only face-to-face sales to consumers at the premises described in the retail license.

(Cr. by ORD-09-00169, 12-31-09)

(17) Failure to Comply With a Lawful Order of the Madison Police Department, Fire Department or Building Inspection Unit.

(a) A licensee shall immediately comply with all lawful orders of the Madison Police Department, Madison Fire Department or the Building Inspection Unit regarding any immediate threat involving death or great bodily harm.

(b) Police Orders. If, in the determination of the police department, the number of persons on the premises exceeds the limitations set on the official placard, the

police department shall order the number reduced to the permitted number. The police department may also order the establishment closed until it complies with this section.

(c) The Madison Police Department shall have to power to order closure of a licensed establishment, when such closure is necessary because of an immediate threat involving death or great bodily harm.

(18) No retail licensee shall purchase alcohol beverages from any source other than a licensed wholesaler, except as permitted by state law.

(19) Conditions on License. A licensee shall comply with all conditions placed upon its license by action of the Common Council.

(20) Restaurant Condition. A license that is required as a condition of its license to operate and maintain its business as a restaurant shall meet the definition of a restaurant contained in Sec. 38.02.

(Sec. 38.07(17) - (20) Cr. by ORD-10-00044, 5-12-10)

(21) Exceeding Lawful Occupancy Capacity.

(a) No licensee or person shall permit or allow occupancy of the licensed premise in excess of the lawfully established occupancy capacity. Occupancy capacity includes all staff and persons on the premise.

(b) Exceeding lawful occupancy capacity by more than thirty percent (30%) shall result in an enhanced penalty.

(c) Penalty. Any licensee or person who violates sub. (a) shall be subject to a forfeiture of not less than two hundred dollars ($200) nor more than five hundred dollars ($500). Any person violating sub. (b) shall be subject to a forfeiture of no less than five hundred dollars ($500) nor more than one thousand five hundred dollars ($1500).

(Sec. 38.07(21) Cr. by ORD-13-00201, 12-10-13)

38.08 FERMENTED MALT BEVERAGES.

(1) Restrictions Applicable to Class A Licenses. No person shall sell or keep for sale or permit to be sold or kept for sale in or about any premises for which a Class A license has been issued any fermented malt beverage except in original unopened packages, containers or bottles, not to be consumed in or about the premises where sold. (Am. by Ord. 9316, 11-13-87)

(2) Restrictions Applicable to Wholesaler's License. No person, corporation or limited liability company holding a wholesaler's license and no person as an agent or employee of such licensee shall sell or keep for sale any fermented malt beverage except in original packages or containers and in quantities of not less than four and one-half (4½) gallons at any one time, and it shall be unlawful for any such licensee or any agent or employee of such licensee to sell or dispense any fermented malt beverage for consumption on the premises of such licensee. (Am. by Ord. 10,883, Adopted 4-5-94)

(3) Restrictions Applicable to Class B Licenses.

(a) Fermented Malt Beverages to be Sold in Only One Room - Booths to be Open on One Side. No fermented malt beverage may be sold or dispensed under a Class B license in more than one room upon the same premises, and there shall be no booths or similar enclosures in such room unless one side of any such booths or enclosures is open and unobstructed.

1. This subsection shall not prohibit a person operating a hotel to furnish a registered guest who has attained the legal drinking age with a selection of fermented malt beverages in the guest's room which is not a part of the Class B premises. Fermented malt beverages furnished under this subsection shall be furnished in original packages or containers and stored in a cabinet or refrigerator or other secure storage place. The cabinet, refrigerator or other secure storage place must be capable of being locked. The

cabinet, refrigerator or other secure storage place shall be locked, or the fermented malt beverages shall be removed from the room, when the room is not occupied and when fermented malt beverages are not being furnished under this subsection. A key for the lock shall be supplied to a guest who has attained the legal drinking age upon request at registration. The hotel shall prominently display a price list of the fermented malt beverages in the hotel room. Fermented malt beverages may be furnished at the time the guest occupies the room, but for purposes of this chapter, the sale of the fermented malt beverage is considered to occur at the time and place that the guest pays for the fermented malt beverages. Notwithstanding Sec. 38.06(7), MGO, the guest may pay for the fermented malt beverages at any time if s/he pays in conjunction with checking out of the hotel. An individual who stocks or accepts payment for alcohol beverage under this subsection shall be the licensee, the agent named in the license if the licensee is a corporation or limited liability company or the holder of a manager's or operator's license or be supervised by one of those individuals.

2. This subsection shall not prohibit such beverages in additional rooms on the same premises when such rooms are open to the public for the service of meals.

(Sec. 38.08(3)(a) Am. by Ord. 10,883, Adopted 4-5-94)

(b) Fermented Malt Beverages to be Sold Only in Room Authorized. No fermented malt beverages may be sold or dispensed under a Class B license in any portion of the building or premises not authorized in said license.

(c) Brand of Beer Drawn From Tap to be Indicated - Penalty. Every holder of a Class B license selling or offering for sale draught fermented malt beverages shall display a sign on or near each tap or faucet disclosing the brand of fermented malt beverage drawn from the tap or faucet and the name of its brewer. No such licensee may substitute any other brand of fermented malt beverages in place of the brand designated on the sign with intent to defraud or deceive the customer. (Am. by Ord. 10,178, Adopted 1-8-91)

(4) Fees.

(a) The fee for a Class A license shall be shall be five hundred fifty dollars ($550) per year. The fee for a Class A fermented malt beverage license for less than 12 months shall be prorated according to the number of months or fraction thereof for which the license is issued. Renewal license fees shall be paid no later than 15 days prior to the date the license is to be issued or be subject to a late payment fee of 25% of the license fee, unless the fees are paid more than 30 days after the due date, in which case the late fee shall be 50% of the license fee. Payment of the late fee shall not relieve any person from any other penalties prescribed in this chapter for failure to possess or obtain a license. (Am. by Ord. 10,178, Adopted 1-8-91; Am. by Ord. 13,601, 5-11-04; Am. by ORD-09-00167, 12-31-09; ORD-14-00025, 2-18-14)

(b) The fee for a wholesaler's license shall be twenty-five dollars ($25) per year. Renewal license fees shall be paid no later than 15 days prior to the date the license is to be issued or be subject to a late payment fee of 25% of the license fee, unless the fees are paid more than 30 days after the due date, in which case the late fee shall be 50% of the license fee. Payment of the late fee shall not relieve any person from any other penalties prescribed in this chapter for failure to possess or obtain a license. (Am. by Ord. 9711. 2-14-89)

(c) The fee for a Class B license shall be one hundred dollars ($100) per year. The fee for a Class B fermented malt beverage license for less than 12 months shall be prorated according to the number of months or fraction thereof for which the

license is issued. Renewal license fees shall be paid no later than 15 days prior to the date the license is to be issued or be subject to a late payment fee of 25% of the license fee, unless the fees are paid more than 30 days after the due date, in which case the late fee shall be 50% of the license fee. Payment of the late fee shall not relieve any person from any other penalties prescribed in this chapter for failure to possess or obtain a license. (Am. by Ord. 10,178, Adopted 1-8-91)

(d) The fee for a Class B permit as provided for in Section 38.05(9)(e) hereof shall be ten dollars ($10). (Am. by Ord. 8643, 8-2-85)

(e) The fee for an operator's license shall be forty-five dollars ($45) per year. Beginning on July 1, 2014, the fee for an operator's license shall be eighty dollars ($80) for two years. Operator's licenses shall expire on June 30 of the even-numbered year. A person who applies for an operator's license after June 30 of an odd-numbered year shall pay a license fee of forty-five dollars ($45) for the remaining license period. Renewal licenses shall be obtained on or before June 30 of the even-numbered year or be subject to a late filing fee of 25% of the license fee, unless the fees are paid more than 30 days after the due date, in which case the late fee shall be 50% of the license fee. Payment of the late filing fee shall not relieve any person from any other penalties prescribed in this chapter for failure to possess or obtain a license. (Am. by Ord. 9367, 12-21-87; Ord. 13,565, 4-21-04; ORD-09-00166, 12-31-09; ORD-14-00025, 2-18-14)

(f) Brewers may, without license therefore, furnish fermented malt beverages free of charge to customers, visitors and employees on the brewery premises and no license fee shall be required of any such brewer, if such fermented malt beverage so furnished shall be consumed on the brewery premises and if fermented malt beverages shall not be furnished or consumed in or about any room or place where intoxicating liquors, as defined by Section 38.02, are sold. (Am. by Ord. 8896, 6-26-86)

(g) (R. by Ord. 13,565, 4-21-04)

(Sec. 38.08(4) Am. by Ord. 8940, Adopted 8-19-86, Eff. 9-1-86; ORD-09-00168, Pub. 12-31-09, Eff. 4-15-10)

38.09 INTOXICATING LIQUOR.

(1) Restrictions Applicable to Both Class A and Class B Licenses. The provisions of Sec. 38.05(3)(l), MGO, shall apply to this Subsection. (Am. by ORD-15-00125, 11-11-15)

(2) Restrictions Applicable to Class A Liquor Licenses.

(a) It shall be unlawful for any holder of a Retail Class A intoxicating liquor license to sell, vend, serve, give away or in any way deal or traffic in intoxicating liquor in any other manner than in the original package or container.

(b) Reserved for future use. (R. by Ord. 12,033, 3-2-98)

(3) Restrictions Applicable to Retail Class B Liquor Licenses.

(a) It shall be unlawful for any holder of a Class B intoxicating liquor license to sell, vend, serve, give away, or in any way deal or traffic in intoxicating liquor in any other manner than by the glass to be consumed on the premises or in the original package or container.

(b) The rules and regulations made by the State Board of Health governing sanitation in restaurants, and the rules and regulations made by the Board of Health of the City of Madison governing sanitation in taverns shall apply to all Class B liquor licenses and a violation of any or either of such rules shall be deemed a violation of this section.

(c) This subsection shall not prohibit a person operating a hotel to furnish a registered guest who has attained the legal drinking age with a selection of intoxicating liquor in the guest's room which is not a part of the Class B premises. Intoxicating liquor furnished under this subsection shall be furnished in original packages or

containers and stored in a cabinet or refrigerator or other secure storage place. The cabinet, refrigerator or other secure storage place must be capable of being locked. The cabinet, refrigerator or other secure storage place shall be locked, or the intoxicating liquor shall be removed from the room, when the room is not occupied and when intoxicating liquor is not being furnished under this subsection. A key for the lock shall be supplied to a guest who has attained the legal drinking age upon request at registration. The hotel shall prominently display a price list of the intoxicating liquor in the hotel room. Intoxicating liquor may be furnished at the time the guest occupies the room, but for purposes of this chapter, the sale of the intoxicating liquor is considered to occur at the time and place that the guest pays for the intoxicating liquor. Notwithstanding Sec. 38.06(7), MGO, the guest may pay for the intoxicating liquor at any time if she or he pays in conjunction with checking out of the hotel. An individual who stocks or accepts payment for alcohol beverages under this subsection shall be the licensee, the agent named in the license if the licensee is a corporation or limited liability company or the holder of a manager's or operator's license or be supervised by one of those individuals. (Cr. by Ord. 10,883, Adopted 4-5-94)

(d) This subsection shall not prohibit such beverages in additional rooms on the same premises when such rooms are open to the public for the service of meals. (Cr. by Ord. 10,883, Adopted 4-5-94)

(4) Temporary Class B Licenses.

(a) Notwithstanding Sec. 38.05(3)(f), MGO, temporary Class B licenses may be issued to bona fide clubs, to county or local fair associations or agricultural societies, to churches, lodges or societies that have been in existence for at least six (6) months before the date of application and to posts of veterans' organizations authorizing the sale of wine in an original package, container or bottle or by the glass if the wine is dispensed directly from an original package, container or bottle at a particular picnic or similar gathering, at a meeting of the post, or during a fair conducted by the fair association or agricultural society. The amount of the fee shall be ten dollars ($10) except that no fee may be charged to a person who at the same time applies for a temporary Class "B" license under § 38.05(9)(e), MGO, for the same event. A license issued to a county or district fair licenses the entire fairgrounds where the fair is being conducted and all persons engaging in retail sales of wine from leased stands on the fairgrounds. The county or district fair to which the license is issued may lease stands on the fairgrounds to persons who may engage in retail sales of wine from the stands while the fair is being held. The issuance and review provisions contained in Sec. 38.05(9)(e) shall govern the issuance and review of this temporary license. (Am. by Ord. 12,656, 8-10-00; ORD-15-00125, 11-11-15)

(b) Wis. Stat. § 125.51(3)(f), 125.68(3) and (5) and 125.69, do not apply to licenses issued under this subdivision.

(5) Fees.

(a) The fee for a Retail Class A liquor license shall be five hundred dollars ($500) per year. Renewal license fees shall be paid no later than 15 days prior to the date the license is to be issued or be subject to a late payment fee of 25% of the license fee, unless the fees are paid more than 30 days after the due date, in which case the late fee shall be 50% of the license fee. Payment of the late fee shall not relieve any person from any other penalties prescribed in this chapter for failure to possess or obtain a license. (Am. by ORD-09-00168, Pub. 12-31-09, Eff. 4-15-10)

1. Notwithstanding sub. (a), there is no annual fee or initial issuance fee for a "Class A" license issued under par. 2. a.

2. In this paragraph, "cider" means any alcohol beverage that is obtained from the fermentation of the juice of apples or pears and that contains not

less than one-half (½) of one percent (1%) alcohol by volume and not more than seven percent (7%) alcohol by volume. "Cider" includes flavored, sparkling, and carbonated cider.

a. Notwithstanding Wis. Stat. § 125.68(3), upon application and public hearing, the City governing body shall grant and issue a "Class A" license to the applicant if all of the following apply:

i. The application is made for a "Class A" license containing the condition that retail sales of intoxicating liquor are limited to cider.

ii. The applicant holds a Class "A" license issued by the City for the same premises for which the "Class A" license application is made.

3. Notwithstanding sub. (a) and Wis. Stat. § 125.06(13), a person issued a "Class A" license under sub. 2. may not make retail sales, or provide taste samples, of any intoxicating liquor other than cider. Wis. Stat. § 125.51(2)(am) does not apply to a person issued a "Class A" license under sub. 2.a.

4. Notwithstanding that the State has removed the City's discretion over whether to issue licenses under sub. 2.a., no such license may be issued without complying with Chapter 38's public notice requirements, public hearing provisions and Common Council approval of said application.

(Sec. 38.09(5)(a)1.-4. Cr. by ORD-15-00125, 11-11-15)

(b) The fee for a Retail Class B liquor license shall be five hundred dollars ($500) per year. Renewal license fees shall be paid no later than 15 days prior to the date the license is to be issued or be subject to a late payment fee of 25% of the license fee, unless the fees are paid more than 30 days after the due date, in which case the late fee shall be 50% of the license fee. Payment of the late fee shall not relieve any person from any other penalties prescribed in this chapter for failure to possess or obtain a license. (Am. by ORD-09-00168, Pub. 12-31-09, Eff. 4-15-10)

(c) The fee for a Class B permit as provided for in Section 38.09(4) hereof shall be ten dollars ($10).

(d) The fee for a reserve Class B liquor license shall be $10,000 for initial issuance except that the fee for the initial issuance of a reserve Class B license to a bona fide club or lodge situated and incorporated in the state for at least 6 years is the fee established in Subdivision (b) for such a club or lodge. The fee established in this Subdivision is in addition to any other fee required under this chapter. The annual fee for renewal of a reserve Class B license is the fee established in Subdivision (b).

1. (Rep. by ORD-17-00056, 6-19-17)

2. (Rep. by ORD-17-00056, 6-19-17)

(e) The initial annual fee for a Class B license for a full-service restaurant or hotel as described in Section 125.51(4)(v) is $10,000. Thereafter, the annual renewal fee is $500. (Cr. by Ord. 12,142, 6-1-98)

(Sec. 38.09 Am. by Ord. 10,178, Adopted 1-8-91)

38.10 REVOCATION, SUSPENSION OR NONRENEWAL OF LICENSE.

(1) The following provision shall apply to the revocation, suspension or nonrenewal of any license issued pursuant to Chapter 38 of these Ordinances, except as provided in Secs. 38.06(11)(n)and 38.06(12)(h), MGO, notwithstanding any other provision of Chapter 38 except those providing for revocation or suspension of any license by the court. (Am. by ORD-12-00058, 5-9-12)

(a) Complaint. Except as provided in Subdivision (ag), any resident of the City may file a sworn written complaint with the City Clerk alleging one or more of the following about any person or other entity licensed pursuant to this chapter:

1. The person has violated any provision of this chapter.

2. The person keeps or maintains a disorderly or riotous, indecent or improper house.
3. The person has sold or given away any intoxicant to any underage person, or to persons intoxicated or bordering on intoxication, or to known habitual drunkards.
4. The person has failed to maintain the premises according to standards prescribed for sanitation by Public Health Madison and Dane County, or in whose premises persons are permitted to loiter for purposes of prostitution. (Am. by ORD-15-00009, 1-28-15)
5. The person has not observed and obeyed any lawful order of the Common Council or police officers of the City.
6. The person does not possess the qualifications required under this chapter to hold the license.
7. The person has been convicted of manufacturing or delivering a controlled substance under Wis. Stat. § 941.41(1); of possessing, with intent to manufacture or deliver, a controlled substance under Wis. Stat. § 941.41(1m); or of possessing, with intent to manufacture or deliver, or of manufacturing or delivering a controlled substance under a substantially similar federal law or a substantially similar law of another state. (Am. by ORD-09-000135, 10-01-09)
8. The person knowingly allows another person, who is on the premises for which the license under this chapter is issued, to possess, with the intent to manufacture or deliver, or to manufacture or deliver a controlled substance.
9. The licensee has violated a condition included on its license.
10. The person has made any material false statement in any application for a license.
11. The person has failed to operate the licensed establishment in accordance with the floor plan and plan of operation submitted to the City as part of the licensing process.
12. The licensed premises has been operated in such a manner that it constitutes a public or private nuisance or that conduct on the licensed premises, including but not limited to raucous noise, has had a substantial adverse effect upon the health and safety of the immediate neighborhood.
13. The violation of any of the excise laws of this state.

(Secs. 38.10(1)(a)9. through 13. Cr. by ORD-09-00135, 10-01-09)

(Sec. 38.10(1)(a) Am. by Ord. 12,068, 3-27-98)

(ag) No violations of Section 38.04(1)(a) may be considered under this Subsection unless the licensee or permittee has committed another violation within one year preceding the violation. If a licensee or permittee has committed 2 or more violations within one year, all violations committed within one year of a previous violation may be considered under this Subsection. (Cr. by Ord. 12,068, 3-27-98)

(ar) Summons. Upon the filing of the complaint, the Common Council or the Alcohol License Review Committee shall issue a summons, signed by the Clerk and directed to any peace officer in the municipality. If the complaint is filed by the City Attorney, the City Clerk is authorized to and shall issue and sign a summons, on behalf of the Common Council, directed to any peace officer in the municipality. The Clerk shall notify the Common Council and the Alcohol License Review Committee of the filing of a complaint under this section by the City Attorney and the issuance of any summons pursuant to it. The summons shall command the licensee complained of to appear before the Alcohol Licensee Review Committee or a special committee designated by the Common Council on a day and time and at a place named in the summons, not less than three (3) days and not more than ten (10) days from the date of issuance, and show cause why the license should not

be revoked or suspended. The City and the licensee may mutually agree to waive the time limits relating to the date and time of the initial hearing, except that such waiver shall not delay the initial hearing more than thirty (30) days, without the consent of the Alcohol License Review Committee. The summons and a copy of the complaint shall be served on the licensee at least three (3) days before the time at which the licensee is commanded to appear. Service shall be in the manner provided under Wis. Stat. ch. 801, for service in civil actions in circuit court. (Cr. by Ord. 10,883, Adopted 4-5-94; Am. by ORD-09-00097, 6-20-09; ORD-11-00119, 9-12-11)

(b) Procedure on Hearing.

1. The Alcohol License Review Committee (hereinafter Committee) shall serve as the hearing agency for the Common Council. The Initial Appearance on the Complaint shall be before the Committee.
   a. If the licensee does not appear as required by the summons, the allegations of the complaint shall be taken as true and if the Committee finds the allegations sufficient, the license shall be revoked. The Clerk shall give notice of the revocation to the person whose license is revoked.
   b. If the licensee appears as required by the summons and denies the complaint then the Committee shall appoint a three member ad hoc subcommittee, one of whom must be an alderperson, hereinafter referred to as the Hearings Subcommittee, to conduct the evidentiary hearing and to make a licensing recommendation to the Committee. The Committee shall also schedule such dates for the conduct of the evidentiary hearings as it sees fit. To the extent possible these hearings should be held in as expedient a fashion as is practicable. Whenever possible the hearing should be conducted on a single date. (Am. by ORD-16-00110, 12-14-16)
   c. Either party or any Committee member may move to hold the hearing before the full committee rather than the Hearings Subcommittee. The decision whether to grant such a motion shall be at the discretion of the Committee.
2. Conduct of Hearings.
   a. The Alcohol License Review Committee chairperson, or in the Chairperson's absence, the most senior non-alder member of the committee, shall conduct the hearing, administer oaths to all witnesses and may issue subpoenas. So far as practicable, the rules of evidence provided in Wis. Stat. § 227.45, shall be followed. The complainant shall have the burden of proving the charges by a preponderance of the evidence. (Am. by ORD-16-00110, 12-14-16)
   b. Both the complainant and the licensee may produce witnesses, cross-examine witnesses and be represented by counsel. The licensee shall be provided a written transcript of the hearing at his or her expense. All proceedings and testimony shall be recorded on tape and transcribed unless waived by both the complainant and licensee. If either party requests a stenographic recording and transcription, City staff shall make the necessary arrangements, but the expense shall be borne by the requesting party. The secretary to the Committee shall mark and receive all exhibits admitted into the record.
   c. Within twenty (20) days of the completion of the hearing, the Hearings Subcommittee shall submit a report, accompanied by the complete record of the evidentiary hearings, to the Committee,

including recommended findings of fact, conclusions of law and a recommendation as to what action, if any, the Common Council should take with respect to the license. The Hearings Subcommittee shall provide the complainant and the licensee with a copy of the report. Either the complainant or the licensee may file an objection to the report and shall have the opportunity to present arguments supporting the objection to the Committee. The Committee shall determine whether the arguments shall be represented orally or in writing or both. The Committee may decide the objection only upon the record produced by the Hearings Subcommittee. The Committee may grant or deny the objection and may make any order consistent with its disposition of the objection.

d. If the Committee, after considering the Hearings Subcommittee's report, the record of the evidence and testimony and any arguments presented by the complainant or the licensee, finds the complaint to be true, or if there is no objection to a report recommending suspension or revocation, the Committee shall within twenty (20) days of the completion of the hearing shall either return the matter to the Hearings Subcommittee for further evidentiary hearings as specified by the Committee or the Committee shall either issue its own findings and recommendations, or adopt or amend the Subcommittee's report and forward such report to the Common Council. Such report shall include findings of fact, conclusions of law and a recommendation as to what action, if any, the Common Council should take with respect to the license. The Committee shall provide the complainant and the licensee with a copy of the report. Either the complainant or the licensee may file an objection to the report and shall have the opportunity to present arguments supporting the objection to the Common Council. The Common Council shall determine whether the arguments shall be represented orally or in writing or both.

If the Common Council, after considering the committee's report and any arguments presented by the complainant or the licensee, finds the complaint to be true, or if there is no objection to the report recommending suspension or revocation, the license shall be suspended for not less than three (3) days nor more than ninety (90) days or revoked, except that, if a complaint under Subdivision (a)6., above, is found to be true with respect to a license issued under Wis. Stat. § 125.51(4)(v), the license shall be revoked.

If the Common Council rejects or modifies the report, the Common Council shall adopt appropriate findings of fact and conclusions of law. If the recommendation of the Alcohol License Review Committee is based upon a stipulation of the parties, the Common Council may accept or reject the recommendation by a simple majority vote. If the Common Council rejects the recommendation, the matter shall be referred back to the Committee for a full fact-finding hearing. If the recommendation is based upon a full fact-finding hearing, the recommendation shall become the decision of the Common Council unless reversed or modified by a simple majority vote. No further evidence shall be allowed before the Common Council.

The decision of the Common Council shall be a final determination for purposes of judicial review. If the complaint is found to be true, the licensee shall pay to the City the actual cost of the proceedings.

(Sec. 38.10(1)(b)2. Am. by Ord. 12,068, 3-27-98)

3. The City Clerk shall give notice of each suspension or revocation to the person whose license is suspended or revoked.

4. If the Common Council finds the complaint untrue, the proceeding shall be dismissed without cost to the accused. If the Common Council finds the complaint to be malicious and without probable cause, the costs shall be paid by the complainant. The Common Council or committee may require the complainant to provide security for such costs before issuing the summons under Section 38.10(1)(ar). (Am. by Ord. 10,883, Adopted 4-5-94)

(Sec. 38.10(1)(b) R. & Re-Cr. by Ord. 9242, 8-14-87; Am. by ORD-11-00119, 9-12-11)

(c) Effect of Revocation. When a license is revoked under this subsection, the revocation shall be recorded by the City Clerk and no other license issued under this chapter shall be granted to such licensee or for such premises for a period of twelve (12) months from the date of the revocation. (Cr. by Ord. 9242, 8-14-87)

(d) Judicial Review. The action of the Common Council in granting or failing to grant, suspending or revoking any license, or the failure of the Common Council to revoke or suspend any license for good cause, may be reviewed by the circuit court for the county in which the application for the license was issued, upon application by any applicant, licensee or resident of the city. The procedure on review shall be the same as in civil actions instituted in the circuit court. The person desiring review shall file pleadings, which shall be served on the Common Council in the manner provided in Wis. Stat. ch. 801, for service in civil actions and a copy of the pleadings shall be served on the applicant or licensee. The Common Council, applicant or licensee shall have 20 days to file an answer to the complaint. Following filing of the answer, the matter shall be deemed at issue and hearing may be had within 5 days, upon due notice served upon the opposing party. The hearing shall be before the court without a jury. Subpoenas for witnesses may be issued and their attendance compelled. The decision of the court shall be filed within 10 days after the hearing and a copy of the decision shall be transmitted to each of the parties. The decision shall be binding unless it is appealed to the court of appeals. (Cr. by Ord. 9242, 8-14-87)

(e) Nonrenewal of License. The City Attorney may, after investigation, commence an action before the Alcohol License and Review Committee to hear evidence and make a recommendation to the Common Council that a license issued pursuant to this chapter not be renewed. The Chairperson shall, in writing, notify the licensee of the consideration of nonrenewal. Such notification shall be in the form of and shall serve as the summons and complaint and shall include a statement of the reasons for the consideration of the nonrenewal of the license in the same specificity required for a summons and complaint for revocation or suspension. If the license is recommended for nonrenewal, costs may be assessed against the licensee and any renewal application fee shall be forfeited. In all other respects, the provisions of Subdivisions (a) and (b) shall apply. The commencement of this action shall stay action by the Common Council on the licensee's application until the Committee makes its recommendation, notwithstanding Sec. 38.05(11). (Renumbered from (c) to (e) by Ord. 9242, 8-14-87)

(f) Unused Licenses. Notwithstanding Sec. 38.10, MGO, the City may revoke, suspend or refuse to renew a license authorized under this Chapter that has not been issued by the City Clerk or a license that has been issued by the City Clerk but

the licensed premise for which it has been issued has not been open for business for a period of at least fifteen (15) consecutive days, pursuant to the procedures in Wis. Stat. § 125.12. Prior to the time for renewal of the license, the City Clerk on behalf of the Alcohol License Review Committee, shall notify the licensee in writing of the City's intention not to renew the license and the Alcohol License Review Committee shall provide the licensee with the opportunity for a hearing. The notice shall state the reasons for the intended action. The Alcohol License Review Committee shall be authorized to issue the notice under this subsection. The hearing shall be conducted as provided in Wis. Stat. § 125.12(2)(b), and judicial review shall be as provided in Wis. Stat. § 125.12(2)(d). The hearing shall be held before the Alcohol License Review Committee and the Committee shall make a report and recommendation as provided in Wis. Stat. § 125.12(2)(b)3, and the Common Council shall follow the procedure specified under that subdivision in making its determination. Any license revoked under this paragraph shall be immediately eligible for reissue to a qualified new applicant subject to the standard application process and Alcohol License Review Committee and Common Council approval. A license revoked under this paragraph is exempt from the posting requirements in Sec. 38.10(1)(h). (Cr. by ORD-08-00137, 12-23-08; Am. by ORD-09-00134, 10-01-09; ORD-09-00147, 11-6-09; ORD-13-00057, 4-24-13)

(g) Other Provisions.

Any license issued pursuant to Chapter 38 of the Madison General Ordinances shall be subject to such further regulations and restrictions as may be imposed by the Common Council of the City of Madison by amendment to this section or by the enactment of new ordinances. If any licensee shall fail or neglect to meet the requirements imposed by such new restrictions and regulations her/his license may be revoked in accordance with this section. In case of revocation of any license or any violation of any provision of this ordinance in accordance with this section or by the court or for any reasonable cause except the imposition of new restrictions, no refund shall be made of any part of the license fee. (Renum. from (d) to (f) by Ord. 9242, 8-14-87; Am. and Renum. from (f) to (g) by ORD-08-00137, 12-23-08)

(h) Display of Sign. When a license is suspended, revoked or nonrenewed under this section, the licensee shall post at each entrance to the licensed premise, a sign or signs, obtained from the City Clerk, that inform the public that the establishment has been closed as a result of a license suspension, revocation or nonrenewal. A licensee who fails to post or maintain a sign in a manner consistent with the requirements of this subdivision shall be subject to a forfeiture of not less than one hundred dollars ($100) nor more than ($200) per day, for each day of violation. (Cr. by ORD-10-00008, 2-4-10)

(2) Search Warrants.

(a) When complaint shall be made to the judge of the Circuit Court that alcohol beverages are being sold or kept for sale in any particular building or premises in the City of Madison in violation of this section, said judge, if s/he be satisfied that there is reasonable cause for such belief, shall issue her/his warrant to search for such alcohol beverage.

(b) Such warrants shall be directed to any police officer of the City of Madison commanding such officer to search the building or premises designated and described therein, and to bring before the said judge of the County Court any such alcohol beverages, found being kept, sold, or kept for sale in violation of the provisions of this section, and the person in whose possession the same are found.

(c) When any officer, in the execution of a search warrant shall seize any alcohol beverages for which a search is authorized by this subsection, all such property or things shall be safely kept by the direction of the court so long as shall be necessary

for the purpose of being produced as evidence on any trial and as soon as may be afterward returned to the owner, destroyed, or otherwise disposed of as the judge of said court may direct.

(Am. by ORD-09-00169, 12-31-09)

(3) Exceptions.

(a) No license shall be required for the use of intoxicating liquor in hospitals or in bona fide institutions for the aged and infirm where such liquor is used for medicinal, mechanical, or scientific purposes only, or for one licensed to practice surgery or medicine in using alcohol in any form in the bona fide treatment of the sick or in using or prescribing such alcohol for such bona fide treatment.

(b) No provision of this chapter shall apply to alcohol intended for use and used in the manufacture and sale of any of the following when unfit for beverage purposes, namely:

1. Denatured alcohol produced and used pursuant to acts of Congress and regulations promulgated thereunder;
2. Patent, proprietary, medicinal, pharmaceutical, antiseptic, and toilet preparations;
3. Flavoring extracts, syrups, and food products;
4. Scientific chemical, mechanical and industrial products.

(c) Any person who shall knowingly sell any of the products enumerated in the preceding subdivision for intoxicating beverage purposes, or who shall sell any of the same under circumstances from which she or he might reasonably deduce the intention of the purchaser to use them for such purposes, shall be guilty of a violation of this section. (Am. by ORD-14-00012, 1-14-14)

(d) Nothing in this section shall be construed to prevent any person from manufacturing wine or beer of any alcoholic content at her or his home or place of residence to be consumed by herself/himself, her/his family, and guests without compensation. (Am. by ORD-14-00012, 1-14-14)

(4) Alcohol Beverage License Demerit Point System.

(a) Purpose. The purpose of this subsection is to provide an alcohol license demerit point system as a nonexclusive method of identifying habitually troublesome liquor licensees who repeatedly violate state statutes and/or the Madison General Ordinances ("MGO") and to take consistent action against such licensees. The number of demerit points is assigned according to the type of violation. This point system shall serve as a guide to the Alcohol License Review Committee ("Committee") in determining when suspension and/or revocation of a liquor license is warranted.

(b) The City uses a system of progressive discipline when dealing with law violations and disorderly house issues associated with liquor license establishments. When an establishment has issues which pose an immediate and substantial risk to the health, safety and welfare of the immediate neighborhood and/or community, the progressive discipline system may not be utilized because of the need to take more immediate action. The goal of the City in dealing with law violations and operational issues associated with licensed establishments is first and foremost to abate the issues and the City attempts to do this through a series of efforts. The first step is informal counseling by the Madison Police Department and/or the City Attorney's Office. If issues continue, an ALERT ("Alcohol License Emergency Response Team) meeting will be scheduled. The goal of the ALERT meeting is to efficiently and proactively resolve problems and issues in an informal setting before the problems and issues become chronic. The informal counseling and the ALERT meeting do not preclude prosecution in court for alcohol code violations nor does it preclude the Committee from assessing demerit points for violations for which a licensee has been convicted. If problems and issues become chronic, the

City will evaluate the situation and determine the most appropriate disciplinary action which may include imposition of a Chief of Police Security Plan, separation of a license at renewal for placement of conditions, and/or suspension or revocation.

(c) Demerit Point System. Use of the following demerit point schedule by the City is not an exclusive remedy and does not preclude the City from seeking other remedies, including immediate suspension, revocation or nonrenewal of a license pursuant to Chapter 38, MGO. The City may seek such suspension, revocation or nonrenewal notwithstanding the fact that the licensee has accumulated less than one hundred (100) demerit points.

Ordinance Section Number	Type of Violation	Point Value
24.04(2)	Unreasonable Noise	5
38.04(2)(a-d)	Traffic to Underage Person	25
38.04(3)(b)1.	Permit Underage Person on Premise	10
38.04(1)(a)2.	Traffic to Intoxicated Person	25

Chapter 7, MGO	Health Code Violations—Critical	25
Chapter 39, MGO	Commission Finding of Public Accommodation Discrimination	100
Chapter 39, MGO	Failure to Comply with Lawful Order of the EOC	100
	Any Other Non-enumerated Violations of Chapter 38, MGO	25
	Penalty Enhancer For Severe Offenses Enhanced penalty for conduct which: 1. Results in bodily harm to any individual; 2. Creates a substantial risk of death or serious bodily harm; 3. Involves the use of a firearm or other dangerous weapon; or 4. Demonstrates an ongoing disregard for the requirements of state law and municipal ordinances.	100

(d) Calculating Violations.

1. In determining the accumulated demerit points against a licensee, the points shall be counted within a twelve-(12) month period. The date of the violation shall be used as the basis for assigning demerit points. For violations continuing for more than one calendar day, each day shall constitute a separate violation. Points shall be assigned only after conviction in a court of law for such violations.
2. Demerit points may not be assessed for multiple ordinance and/or statute violations resulting from a single incident. For violations that are contrary to more than one ordinance section or statute, penalty shall be based only upon the ordinance or statute violation that carries the higher demerit point assessment.
3. Demerit points shall be assessed after entry of a judgment of conviction in a federal, state or municipal court for violation of any statute or ordinance provision listed under the types of violations in Section 38.10(1)(b), above. The Committee may take notice of any such conviction without the need for further evidence to establish the violation.

(e) Suspension and Revocation of License. The City Attorney's office shall notify the Committee of any conviction for violations which may result in the assessment of demerit points against any licensee. The Committee shall have the discretion under the demerit point system to suspend or revoke the liquor license of any licensee based upon a notice of conviction without holding an evidentiary hearing to

further establish the underlying violations. Prior to suspension or revocation the Committee shall give the licensee at least ten (10) days written notice of its intent to suspend or revoke and the licensee's opportunity for a hearing before the ALRC Hearing Subcommittee. The notice shall include the conviction report and demerit points the Committee has assessed based upon the conviction report. The licensee shall have twenty (20) days from the date of the Notice to file a request for a hearing. If the licensee fails to timely file a hearing request, the Committee may take the underlying charges in the conviction report as true and suspend or revoke the license. Notice of the suspension or revocation shall be provided to the licensee within five (5) days of the determination. If a hearing is timely requested, a hearing shall be held within ten (10) days of the request before the ALRC Hearing Subcommittee. If the Committee chooses to have an evidentiary hearing based upon the conviction report, the Subcommittee shall use the hearing procedure found in Section 38.10(1)(b)2., MGO.

1. The Committee shall use (1) through (3) below as a guide to determine the appropriate sanction for the license holder who has accumulated demerit point violations:

   a. For demerit points totaling fifty (50) to one hundred fifty (150) within a twelve- (12) month period, the Committee may mail a notice by First Class Mail to the licensee commanding licensee to appear before the Committee for a Formal Expression of Concern. In the alternative, the Committee may issue a formal written warning to the licensee of the consequences of additional violations. The warning letter shall be signed by the Committee Chairperson.

      i. If the licensee appears for the Formal Expression of Concern, no discussion of the alleged facts may be permitted unless the licensee requests such discussion and only after the licensee has been advised that any statements made by him or her and/or his or her representatives regarding the alleged underlying facts may be considered by the Committee in any subsequent suspension/revocation hearing which may result from the alleged violations which are the subject of the Formal Expression of Concern.

      ii. The Notice shall be mailed via First Class Mail to the licensee if an individual, any partner if the licensee is a partnership or to the liquor/beer agent if the licensee is a corporation. If the notice is returned as "undeliverable", the notice may be left with any employee found on the licensed establishment at least twenty-four (24) hours before the date and time for the scheduled appearance before the Committee.

      iii. If the licensee appears for the Formal Expression of Concern, the Committee shall have the discretion to not assess points for the alleged violations that triggered the Formal Expression of Concern, up to one hundred (100) points. Waiver of a demerit point assessment may only occur once within a one year period.

      iv. If the licensee fails to appear for the Formal Expression of Concern, the matter shall be scheduled for a suspension/ revocation hearing.

b. For demerit points totaling one hundred fifty (150) to two hundred fifty (250) within a twelve- (12) month period, suspension of the license for a period of not less than ten (10) days nor more than ninety (90) days.

c. For demerit points totaling two hundred fifty (250) or more within an 18-month period, revocation of the license. Whenever any license is revoked, no other license shall be granted to such licensee for a period of twelve (12) months from the date of revocation and no other license shall be granted to the same premises for a period of six (6) months from the date of revocation.

Any suspension or revocation recommendation by the ALRC Hearing Subcommittee pursuant to this subsection shall be forwarded to the Committee and the Committee's recommendation shall then be forwarded to the Common Council.

2. The Committee shall have the discretion to reduce a demerit point assessment in circumstances where the licensee has cooperated with the City in addressing the violations associated with his or her establishment. Evidence of such cooperation includes, but is not limited to:

a. Licensee and all staff attending Tavern Safety Training.

b. Participating in a responsible retailer training or other program/ initiative that evidences an intent to be a responsible liquor establishment.

3. Judicial Review. The decision of the Common Council shall be a final determination and shall be subject to review in court as may be provided by law. Any person aggrieved by the decision may seek review thereof within twenty (20) days after the date of the final determination.

(f) Demerit Points and License Renewal. The City Attorney's Office shall forward a report to the Committee by March 1 of each year listing all licensees who have received demerit points in the current licensing year. The report will include the liquor/beer agent's name, the name of the licensed establishment, a list of the point violations by title and the point value of each violation, and whether there had been an ALERT meeting during the current licensing year. The Committee shall evaluate this report to determine whether an application for a renewal alcohol beverage license should be separated out for the following potential actions:

1. Nonrenewal hearing;
2. Placement of conditions;
3. Expression of concern.

If a license is separated for nonrenewal, the procedure set forth in Sec. 38.10(1)(e), MGO shall be followed.

(g) Scope. Nothing in this section shall be construed to conflict with, abridge or modify, the rights or procedures established for revocation or suspension of licenses in W.S.A. § 125.12. Notwithstanding the requirements of this section, the Alcohol License Review Committee may require the appearance before it of any licensee at any time.

(h) Transfer or Sale of Licensed Business. Upon the transfer or sale of the licensed business, all accumulated demerit points shall be canceled unless any of the following apply:

1. The new licensee is related to the former licensee by blood, adoption or marriage;
2. The new licensee held a business interest in the previous licensed business, real estate or equipment;

3. The former licensee or an individual related to the former licensee by blood, adoption or marriage retains an interest in the business, real estate or equipment used by the business;
4. The new licensee's acquisition of the business did not involve an arm's length transaction consisting of an open market sale in which the owner is willing, but not obligated to sell, and the buyer is willing, but not obligated to buy.

If any of the above apply, the new licensee shall inherit the demerit points previously assessed and be subject to the penalties set forth in this subsection.

(Sec. 38.10 R. & Rec. by ORD-13-00202, 12-10-13)

38.11 ADULT ENTERTAINMENT TAVERN LICENSE.

(1) License Require, Application.

(a) License.

No establishment licensed to sell alcohol beverages pursuant to these ordinances shall be operated or conducted as an adult entertainment tavern as defined in Section 28.211 without an adult entertainment tavern license. (Am. by ORD-12-00134, 1-2-13)

(b) Application.

1. Application for an adult entertainment tavern license shall be filed with the City Clerk following the procedures set forth in Sec. 9.05(3), MGO.
2. Public Hearing.

Applications shall be referred to the ALRC for a public hearing in accordance with Sections 38.05(3)(b), (c), (d), (e), (g) and (h), MGO. The recommendation of the committee shall be based upon information presented at the public hearing and contained in the application and accompanying documents. The ALRC shall consider the factors set forth in Sec. 9.05(4), MGO, in making its recommendation.

(Am. by ORD-17-00009, 2-20-17)

(2) The City Clerk shall issue an adult entertainment tavern license to any holder of a license to sell alcohol beverages pursuant to these ordinances upon recommendation by the Alcohol License Review Committee to grant the license, a determination by the Clerk that the applicant meets the standards set forth in Sec. 9.05 and payment of the appropriate license fee in Sec. 9.05. (Am. by Ord. 13,601, 5-11-04; ORD-05-00096, 5-24-05)

(3) The license holder shall comply with the following conditions on the license:

(a) No nude or seminude entertainer or employee shall be visible from outside the licensed premises.

(b) There shall be a sign that conforms with Chapter 31 (Sign Control Ordinance) of these ordinances at the entrance to the premises advising potential patrons of the nature of the entertainment or employment practices of the establishment so far as they relate to nudity.

(c) There shall be no photograph or other visual representation depicting or displaying the genitals, pubic area, buttocks, or anus of any person or the vulva or breasts below the top of the areola of a female or of any activity contained in Subdivisions (f) and (g) hereof visible from outside the tavern.

(d) No employee of the tavern shall in any manner orally encourage or solicit any other person to come into the tavern on the basis of the entertainment or service policies of the tavern.

(e) The adult entertainment tavern license shall be prominently displayed along with the license to sell fermented malt beverages.

(f) No patron shall be permitted to touch the sexual or genital parts as defined in Sec. 9.33(2)(b) of these ordinances of any employee or of any entertainer in the establishment.

(g) No entertainer or employee shall perform acts of or acts which simulate erotic touching, sexual intercourse, masturbation, sodomy, bestiality, necrophilia, sadomasochistic abuse, fellatio, cunnilingus, flagellation, or any sexual acts which are prohibited by Wis. Statutes.

(h) Advertisements in any public media shall be limited to the name and address of the establishment and the words "Adult Entertainment."

(4) Any license holder who shall violate the terms of this section shall be subject to the forfeiture provisions of Sec. 9.05(15) and in addition thereto, a violation may be grounds for suspension or revocation of the alcohol beverages licenses pursuant to Sec. 38.10 of these ordinances. (Am. by Ord. 10,872, 3-31-94)

(5) Severability. The provisions of these regulations are severable. If any provision hereof or the application thereof to any person or circumstances, is held invalid, the other provisions of these regulations to other persons or circumstances shall not be affected thereby. It is declared to be the intent of these regulations that the same would have been adopted had such invalid provisions, if any, not been included herein.

(Sec. 38.11 Am. by Ord. 12,826, 6-6-01)

38.12 HABITUALLY INTOXICATED PERSONS.

(1) Declaration of Policy. Wis. Stat. § 125.12(2)3. provides procedures for the suspension, revocation or nonrenewal of a retail alcohol beverage license, when the licensee "has sold or given away alcohol beverages to known habitual drunkards." A person who is habitually intoxicated may lack self -control as to the use of alcohol beverages and use such beverages to the extent that their health is substantially impaired or endangered and their social or economic functioning is substantially disrupted. Such conduct is dangerous to the individual and to others. It is in the interest of the health, welfare and safety of the residents of the City of Madison to prohibit the harmful conduct of habitually intoxicated persons, and it is a reasonable exercise of the City's police powers to enforce those provisions of state law that prohibit a retailer from selling alcohol beverages to these habitually intoxicated persons. (Am. by ORD-17-00030, 3-8-17)

(2) Definition of a Known Habitually Intoxicated Person. A Known Habitually Intoxicated Person is a person who, within the past one hundred eighty (180) days:

(a) Has been convicted of six (6) or more civil or criminal offenses, in which the police reports or other evidence indicate that the police officer who made the arrest determined, based upon the training and experience of the officer, that the person was under the influence of alcohol at the time of the commission of the offense, or

(b) Has been transported and admitted six (6) or more times to an approved public treatment facility under conditions where the person appeared to be incapacitated by alcohol and in need of emergency treatment, or

(c) Has been subject to any combination of arrests and convictions under sub. (1) and admissions to an approved public alcohol treatment facility under sub. (2), that equals or exceeds six (6) times.

(d) Where a person from the same incident has been both convicted of a civil or criminal offense, as defined in sub. a., and has been admitted to an approved public alcohol treatment facility under sub. b., both the arrest and the admission may be counted separately for the calculation provided in sub c.

(e) A person may voluntarily request that their name be added to the list of Known Habitually Intoxicated Persons. Such a request shall be made in writing and shall be submitted to the Madison Police Department.

(3) Maintenance of List.

(a) The Madison Police Department shall maintain a list of Known Habitually Intoxicated Persons and shall, in its judgment, determine the format and content of the list. The Department shall periodically review the format of the list. Whenever the Department determines that a person meets the definition of a

Known Habitually Intoxicated Person, as provided in sub. (2), the Department shall cause the name of that person to be placed on said list, as provided in this Section, along with a photograph of the person, which reasonably represents the likeness of the person.

(b) Petition for Removal. If one hundred and eighty (180) days have passed from the time the name of a person has been placed on the list, and the person has not either been convicted of an offense under sub. (2)(a), or has not been admitted to an approved public alcohol treatment facility during that one hundred eighty (180) day period, that person may petition the Madison Police Department to remove their name from the list, pursuant to this Section, by filing a written request with the City Clerk, stating that they qualify for removal from the list. Upon verification that within the past one hundred eighty (180) days the person has not either been convicted of an offense under sub. (2)(a), or has not been admitted to an approved public alcohol treatment facility during that one hundred eighty (180) day period, the Madison Police Department shall remove the name of the person from the list.

(c) Removal by Police Department. On or about January 1 of each year, the Madison Police Department shall review the list of Known Habitually Intoxicated Persons and shall remove the names of all persons who during the prior six (6) months, has not been convicted of an offense under sub. (2)(a) and who has not been transmitted to an approved public alcohol treatment facility by the Department. (Am. by ORD-13-00072, 5-14-13)

(4) Notice. When the Madison Police Department determines that a person meets the definition of a Known Habitually Intoxicated Person, the Department shall provide the person with a written notice, prepared by the Department, that their name will be placed on the list of Known Habitually Intoxicated Persons. The notice shall inform the person of their right to appeal the determination of the Department as provided in sub. (5). The Department shall keep a record of the date and time that the person was provided with such written notice.

(5) Appeals.

(a) A person who has been informed in writing by the Madison Police Department that their name will be placed on the list of Known Habitually Intoxicated Persons, may appeal the determination of the Department by filing a written objection with the City Clerk within 5 (five) business days of receiving the notice from the Department. The content of an appeal shall be liberally construed so that, as long as the person appealing provides timely written notice that states that he or she objects to being placed on the list of Known Habitually Intoxicated Persons, the appeal shall be deemed to be in proper form.

(b) Hearing Examiner. The Chair of the Alcohol License Review Committee, or his or her designee, shall serve as Hearing Examiner for Appeals under this Section, and shall have the authority to conduct hearings upon the filing of a written objection as provided under sub. (5)(a).

(c) Authority of Hearing Examiner. The hearing examiner shall have the authority to administer oaths and shall be responsible for the fair, orderly and impartial conduct of the hearing and the preservation of the exhibits and record therein.

(d) Procedure. All proceedings and testimony shall be recorded on tape. A copy of the tape recordings shall be supplied to anyone requesting the same at the requester's expense. If either party requests a stenographic recording and transcription, the hearing examiner shall make the necessary arrangements, but the expense shall be borne by the requesting party.

(e) Standard of Proof. In the hearing, the Madison Police Department shall have the burden of proving to a reasonable certainty by the greater weight of the credible evidence, i.e. by the preponderance of the evidence, that the person has been

convicted of six (6) or more civil or criminal offenses, where the police reports or other evidence indicate that the person was under the influence of alcohol at the time of the commission of the offense; or that the person has been transported and admitted six (6) or more times to an approved public treatment facility under conditions where the person appeared to be incapacitated by alcohol and in need of emergency treatment; or has been subject to any combination of convictions and admissions that equals or exceeds six (6) times. If after the hearing, the hearing examiner finds that there is not a preponderance of evidence of any combination of six (6) convictions or admissions, as provided in sub. (2), the hearing examiner shall enter an order granting the appeal and the Department shall remove the person's name from the list of Known Habitually Intoxicated Persons. If after the hearing, the hearing examiner finds that there is a preponderance of the evidence that the person has been subject to any combination of six (6) or more convictions or admissions, the hearing examiner shall deny the appeal and the Department shall retain the person's name on the list of Known Habitually Intoxicated Persons.

(f) Finality of Appeal. All orders of the Hearing Examiner shall be final administrative determinations and shall be subject to review in court as by law may be provided. Any party to the proceeding may seek review thereof within thirty (30) days of service by mail of the final determination of the Hearing Examiner. In addition, written notice of any request for judicial review shall be given by the party seeking review to all parties who appeared at the proceeding before the Hearing Examiner, with said notice to be sent by first class mail to each party's last known address. The institution of the proceeding for judicial review shall not stay the decision and order of the Hearing Examiner; however, the reviewing court may order a stay upon such terms as it deems proper.

(6) Distribution of List. The Alcohol Policy Administrator shall distribute the list of Known Habitually Intoxicated Persons to each retail Class "A" or "Class A" alcohol beverage licensee in the City on a semi-annual basis. If the position of Alcohol Policy Administrator is vacant, the Mayor shall designate a member of the Mayor's staff to distribute the list under this subsection. (Am. by ORD-13-00072, 5-14-13; ORD-15-00116, 10-28-15)

(7) Retailers Prohibited. It shall be unlawful for any Class "A" or "Class A" retail establishment or any person employed by a Class "A" or "Class A" retail establishment, to sell, dispense or give away alcohol beverages to a person whose name and photograph appears on the list of Known Habitually Intoxicated Persons. If the Alcohol Policy Administrator has provided a copy of the most current list to the licensee, at the address of the licensee as listed by the Madison City Clerk, it shall not be a defense that the licensee did not have a copy of the most current list. (Am. by ORD-15-00116, 10-28-15)

(a) If a licensee has no prior convictions for violations of sub (7), and has not previously received a warning, the Madison Police Department shall formally warn the licensee that any future violations will result in issuance of a citation. The Madison Police Department shall be responsible for maintaining a list of those licensees who have received warnings under this subsection.

(8) Nothing in this section shall be construed to limit a licensee's or permitee's duties under Sec. 38.04(1), MGO.

(9) Review. The Alcohol License Review Committee shall annually review Section 32.12 to determine the efficacy of the Section in deterring alcohol consumption by habitually intoxicated persons.

(10) Sunset. Section 32.12 shall expire on July 13, 2015, unless extended by the Common Council prior to the expiration date. (Am. by ORD-13-00072, 5-14-13)

(New Sec. 38.12 Cr. by ORD-10-00065, 7-13-10)

38.13 ENFORCEMENT.

(1) Penalty.

(a) Any person violating any provision of this chapter or any condition included on a license application or on the license itself or who provides any false or inaccurate information on a written application shall be subject to a penalty of not more than one thousand dollars ($1,000), unless a greater maximum penalty is specifically provided for in this chapter, except that where a lower maximum penalty shall be provided by Chapter 125 of the Wisconsin Statutes for any specific offense such maximum penalty shall prevail for the same offense committed in violation of this ordinance. (Am. by Ord. 10,178, Adopted 1-8-91)

(b) Nothing in this subsection shall in any way diminish the authority of the Common Council to suspend, revoke or nonrenew any license issued pursuant to this chapter for any violation of this chapter or grounds enumerated in section 38.10, Madison General Ordinances. (Am. by Ord. 8894, 6-12-86)

(c) When a license is held in the name of a partnership, corporation, limited liability company, association or the owner of a single owner entity that is disregarded as a separate entity under Wis. Stat. ch. 71m, the City may also jointly cite or bring an action against the registered agent of the license holder. (Cr. by ORD-10-00044, 5-12-10)

(Am. by Ord. 8643, 8-2-85; Renum. Sec. 38.12 to Sec. 38.13 by ORD-10-00065, 7-13-10)

39.01 DIRECTOR OF THE DEPARTMENT OF CIVIL RIGHTS.

(1) Mission of the Department of Civil Rights. There is hereby created a Department of Civil Rights that shall be managed and directed by a Department Director. The Department of Civil Rights is responsible for management, development and implementation of Chapter 39 of the Madison General Ordinances. The Department of Civil Rights is responsible for ensuring that the rights of all people are respected and that all persons are given the equal opportunities to succeed based upon their personal merits. To this end, the Department of Civil Rights is created to vigorously pursue the policies and principles embodied in this Chapter both within the City as an employer and within the City as a community of people who respect the rights and the contributions of every community member.

(2) Director of the Department of Civil Rights.

(a) The position of the Director of the Department of Civil Rights as it becomes vacant shall be filled according to Sec. 3.54(9)(f) of these ordinances. The Mayor shall consider the recommendation of the Disability Rights Commission, the Equal Opportunities Commission and the Affirmative Action Commission in the selection of the Director. The Director shall be a person who possesses demonstrated experience in the promotion of civil rights, equal opportunities and affirmative action for all persons. The Director shall perform duties and exercise authority in accordance with City Ordinances, State and Federal statutes together with such additional duties as the Mayor and/or Common Council may from time to time prescribe. The Equal Opportunity Division Head, the Affirmative Action Division Manager and the Disability Rights and Services Program Coordinator are to perform any duties assigned by these ordinances under supervision, direction and control of the Director of the Department of Civil Rights. The Director of Civil Rights shall have the overall responsibility and authority for implementing and promoting Chapter 39 of the Madison General Ordinances. (Am. by ORD-14-00173, 12-10-14; ORD-15-00086, 8-12-15)

(3) Equal Opportunity Division Head. There is hereby created a Division of Equal Opportunities that shall be managed and directed by a Division Head. The Equal Opportunities Division Head shall report to, be supervised by and perform the duties of his/ her office under the control of the Director of the Department of Civil Rights and shall be responsible for the implementation of Sec. 39.03, MGO, the Madison Equal Opportunities Ordinance. The Director of the Department of Civil Rights may designate the Equal Opportunities Division Head as an ex officio non-voting member of the Madison Equal Opportunities Commission. The Division Head shall have a background demonstrative of

a commitment to the policies set forth in Sec. 39.03, MGO, the Madison Equal Opportunities Ordinance. In performing his/her duties the Division Head may delegate his/her authority to a subordinate employee within the division.

(4) Affirmative Action Division Manager. There is hereby created a Division of Affirmative Action that shall be managed and directed by a Division Manager. The Affirmative Action Division Manager shall report to, be supervised by and perform the duties of his/ her office under the control of the Director of the Department of Civil Rights and shall be responsible for the implementation of Sec. 39.02, MGO, the City's Affirmative Action Ordinance. The Director of the Department of Civil Rights may designate the Affirmative Action Division Manager to serve as an ex officio non-voting member of the Affirmative Action Commission. The Division Manager shall have a background of demonstrated commitment to the policies embodied in this ordinance. In performing his/her duties the Division Manager may delegate his/ her authority to a subordinate employee within the division. (Am. by ORD-12-00041, 4-19-12)

(5) Disability Rights and Services Program Coordinator. There is hereby created the position of Disability Rights and Services Program Coordinator who shall work under the supervision of the Director of the Department of Civil Rights. This person shall assist the Director of the Department of Civil Rights in carrying out his/her responsibilities under Sec. 39.05, MGO, shall serve as staff to the Disability Rights Commission, and shall perform such other duties as the Director of the Department of Civil Rights may direct. (Am. by ORD-15-00086, 8-12-15)

39.02 AFFIRMATIVE ACTION ORDINANCE.

(1) Declaration of Policy. It is the official policy of the City of Madison to provide equal employment and promotional opportunities and equal access to public services for all persons from all segments of the Madison community without regard to their race, religion, color, age, marital status, disability, sex, national origin, sexual orientation or gender identity, hereinafter referred to as affected or under-represented groups. The Council finds that the practice of unfair discrimination in access to public services, employment and contracting adversely affects the general welfare of the City. Because such practices have existed throughout Madison's history, the mere passive prohibition of discriminatory practices is not sufficient to effectuate this principle of equal opportunity in contracting, employment and promotional opportunity and equal access to public services. Affirmative and direct action is required to make equal employment, access to public service, and promotional opportunities a reality and correct the effects of past patterns of inequality.

To implement this policy, therefore, the City of Madison hereby adopts this Affirmative Action Ordinance designed to increase the number and representation of affected and/or other under-represented groups, in all departments, job classifications and salary categories throughout the City employment. All City of Madison agencies shall adhere to principles of equal opportunity in service delivery. The City of Madison in developing its Affirmative Action Program shall require similar efforts from vendors, contractors and firms with which it does business. The Council finds that it is not in the public interest for the City to purchase goods and services from vendors and contractors unless they demonstrate that they have taken affirmative action to ensure equal employment and sub-contracting opportunities. Nothing in this ordinance is intended to alter or impair the City's or contractors' obligation to comply with Section 39.03 of these ordinances.

It is also the official policy of the City of Madison that as an overall goal, ten percent (10%) of the City's public works funds shall be expended with certified small business enterprises. The term "certified small business enterprises" is defined in the City's

small business enterprise program, as approved by the Common Council. The Council finds that this policy will stimulate economic growth, promote the establishment of new businesses and provide employment opportunities.

In addition, when the City expends funds provided to it by federal agencies, the City shall require that contractors comply with applicable federal regulations governing the participation of minority business enterprises, women business enterprises and disadvantaged business enterprises.

(Sec. 3.58(1) Am. by Ord. 11,929, 9-12-97; Ord. 13,104, 7-6-02; ORD-13-00149, 9-11-13)

(2) Affirmative Action Division. There is hereby created a Division of Affirmative Action within the Department of Civil Rights. The Division of Affirmative Action shall be managed and directed by a an Affirmative Action Division Manager as that position is established and set forth in Sec. 39.01(4), MGO, who shall have responsibility and authority for the development and implementation of the City's Affirmative Action Program. (Am. by ORD-06-00078, 6-30-06)

(3) Affirmative Action Commission.

(a) Composition. The Mayor, subject to confirmation by the Common Council, shall appoint an Affirmative Action Commission consisting of eleven (11) members, one of whom shall be an alderperson. One member shall be designated chairperson by the members of the Commission. Members shall be appointed from the entire City, and at no time shall the total of women, persons with disabilities, and ethnic minority members constitute less than a majority. All of the members shall be committed to the extension of equal employment opportunities and shall be representative of the affected and/or under-represented groups of the Madison community. They shall receive no compensation for their services. The Director of the Department of Civil Rights may appoint the Affirmative Action Division Manager to serve as an ex officio nonvoting member of this Commission. The Commission shall make its own rules and regulations for the carrying out of its duties. (Am. by ORD-05-00203, 1-3-06; Ord-06-00078, 6-30-06; ORD-07-00103, 9-22-07)

(b) The Commission members shall be appointed for terms of three (3) years and their terms shall run until their successors are confirmed. (Am. by Ord. 11,904, 7-29-97; ORD-09-00140, 10-22-09)

(c) The Affirmative Action Commission shall have the following duties:

1. To annually review, approve and recommend the Citywide Affirmative Action goals and timetables as proposed by the Affirmative Action Division Manager. (Am. by Ord-06-00078, 6-30-06)
2. To advise affected and/or other under-represented groups of their rights under the Affirmative Action Program.
3. To disseminate information and to educate the people of the City of Madison to a greater understanding and practice of Affirmative Action Employment for all affected and/or other under-represented groups.
4. To render from time to time, but not less than once a year, written reports of its progress, activities and recommendations to the Mayor and Common Council.
5. To recommend and review such rules and regulations as may be necessary to promulgate the City's Affirmative Action Program.
6. To develop and review the contract compliance requirements of the City of Madison and to develop a policy with respect to vendors and contractors.
7. To make specific recommendations to the Common Council so as to bring all appropriate ordinances into conformity with the policies of this ordinance if necessary.
8. To provide administrative review of decisions of the Affirmative Action Division Manager to grant, deny or revoke certifications as a Minority

Business Enterprise (MBE), Women Business Enterprise (WBE), or Disadvantaged Business Enterprise (DBE) as these are defined in Sec. 39.02(9)(a)9.-11. of these ordinances and in the City of Madison Disadvantaged Business Enterprise/Minority Business Enterprise Program as approved by the Common Council; and a Small Business Enterprise (SBE) as defined in the Small Business Enterprise Program approved by the Common Council. The Commission shall adopt procedural rules for the conduct of such appeals. (Am. by ORD-09-00034, 3-14-09)

9. To approve a City of Madison Civil Rights Compliance Plan, in order to maintain City compliance with Title VI of the Civil Rights Act of 1964, as amended. The Affirmative Action Division Manager shall coordinate the preparation of the Plan for the Commission's approval. Every City department which receives funds covered by Title VI shall cooperate with and assist the Affirmative Action Division Manager in the preparation of the Plan. (Am. by Ord-06-00078, 6-30-06)

10. To provide administrative review of decisions of the Affirmative Action Division Manager or CDGB staff regarding compliance with Section 3 Plans, as required by 24 CFR Part 135. (Cr. by ORD-12-00041, 4-19-12)

(Sec. 3.58(3)(c) Am. by Ord. 11,929, 9-12-97)

(Sec. 39.02(3) Am. by ORD-13-00093, 5-29-13)

(4) Departmental Affirmative Action Plans.

(a) The Affirmative Action Division Manager in concert with the head of each department, board, commission or committee shall develop a written Affirmative Action Plan. Each department head in concert with the Affirmative Action Division Manager, shall develop a written Affirmative Action Plan. The plan, to be updated annually, is to be developed pursuant to the federal guidelines found in Part 60-2 of Chapter 60 of Title 41 of the Code of Federal Regulations as amended from time to time, which are hereby incorporated by reference and is to further reflect reasonable goals and timetables for achieving substantially increased employment of affected and/or other under-represented groups. In addition to the above guidelines, the plan should include but not be limited to the following employment and career development information concerning the department.

1. The available job slots.
2. Recruitment policies.
3. Selection and placement procedure.
4. Testing programs.
5. Training programs.
6. Promotion policies and procedures.
7. Transfer policies.
8. Compensation programs.
9. Available facilities.
10. Layoff and recall policies.
11. Procedure for disciplinary action.
12. Harassment-free work atmosphere for affected and/or other under-represented groups.

(b) In preparation of the departmental affirmative action plans, the Division of Affirmative Action shall have the full cooperation of the department head, board, commission or committee and access to all departmental policies and procedures, administrative rules and regulations, personnel files and other documents or information relating to the employment, training, promotion, transfer, termination or discipline of personnel in the City employ. However, no records are to be used in any manner that would divulge the identity of the parties involved. Provided further that if the employee or applicant was assured by the City that any

of the aforementioned documents were to be held in strict confidence, the permission of the applicant or employee must be obtained prior to the release of these documents to the Division of Affirmative Action.

(Am. by ORD-06-00058, 06-30-06)

(5) Citywide Affirmative Action Program.

(a) The Division of Affirmative Action shall incorporate the individual departmental plans into a composite Citywide Affirmative Action Program which shall be submitted to the Affirmative Action Commission. This program shall reflect the reasonable goals and timetables for achieving equal employment opportunities and requirements for affected and/or other under-represented groups at all levels and/or job classifications. (Am. by ORD-06-00058, 06-30-06)

(b) Upon approval by the Affirmative Action Commission, the program shall be submitted to the Mayor and Common Council for approval. Once adopted, the program shall be distributed to all department heads who shall adhere to the goals, timetables and procedures prescribed therein.

(6) Implementation. Implementation of the City's Affirmative Action Program shall include but not be limited to the following:

(a) Recruitment. Every effort shall be made to recruit applicants from under-utilized categories to provide employment lists of qualified candidates that will facilitate the implementation of departmental and Citywide affirmative action goals. The Human Resources Department, with the assistance of the Division of Affirmative Action, shall expand the recruitment programs to include but not be limited to the following:

1. Inform members of affected and/or other under-represented groups of this Affirmative Action Program and seek their support in attracting applicants.
2. Include information about the Affirmative Action Program on all job and contract announcements.
3. Prepare a specific brochure summarizing the Affirmative Action Program and disseminate it throughout the community.
4. Work with appropriate community resources to develop techniques, models and strategies that will maximize the recruitment of affected and/or other under-represented groups.

(b) Testing, Selection and Placement.

1. The Human Resources Department, in conjunction with the Division of Affirmative Action, shall review all testing, selection and placement policies of the City to determine that they are free of cultural bias, develop other evaluation methods that are task related and that are in accord with the guidelines promulgated by the Federal Equal Employment Opportunity Commission.
2. The Human Resources Department, in conjunction with the Division of Affirmative Action, shall develop procedures to establish visible career ladders or bridges between entry level, nonmanagement and management positions for all City employees with specific emphasis on affected and/or other under-represented groups.

(c) Education and Training. The Division of Affirmative Action shall, with the cooperation of the Organization Development and Training Unit of the Human Resources Department, develop education and training programs designed to develop the knowledge and skills essential to compensate for the past education and opportunity deficiencies. These programs shall be designed to develop each employee's fullest potential and to upgrade the employee's position in the City employ. The Division of Affirmative Action shall work with the Equal Opportunities Division to develop and provide all employees with relevant training to increase their awareness in the areas of cultural perception and human relations.

(d) Analysis of Job Turnover. The Division of Affirmative Action shall maintain statistics and institute research to identify the reasons for job turnover among all City employees especially among affected and/or other under-represented groups which may have affirmative action ramifications.

(e) Complaints. The Citywide Affirmative Action Plan shall contain an informal complaint procedure. The procedure shall permit applicants and employees to bring complaints of prohibited discrimination to the Division of Affirmative Action for investigation and informal problem-solving and resolution. Department and Division heads shall cooperate with the Affirmative Action Division Manager in carrying out the informal complaint procedure, but nothing contained in the informal complaint procedure may relieve an appointing authority of responsibility for selection, discipline and discharge decisions. The Affirmative Action Division Manager shall provide every person who makes a complaint with information, in writing and in accessible format, on filing formal complaints with local, state and federal agencies empowered to receive such complaints. Such information shall include applicable time limits. (Cr. by Ord. 11,004, 10-12-94)

(Am. by Ord-06-00078, 6-30-06)

(7) Accountability and Reports.

(a) The Division of Affirmative Action shall be responsible for the successful implementation and coordination of the Citywide Affirmative Action Program. In turn, each department head shall be accountable to the Division of Affirmative Action for the successful implementation of the departmental affirmative action plans.

(b) The Division of Affirmative Action shall at least annually file a written progress report with the Affirmative Action Commission, the Mayor and Council indicating the progress toward achieving the affirmative action goals. The report shall include but not be limited to the following:

1. A summary of departmental and City affirmative action goals as well as any special projects tied to this program.
2. Totals of all persons hired, promoted, transferred, demoted, suspended, terminated, interviewed and/or rejected, indicating affected and/or under-represented groups. Waivers of hiring priority and reasons therefore shall also be provided.
3. A description of the recruitment and training programs instituted to achieve the objectives of this affirmative action plan.
4. A summary of survival counseling and other supportive programs provided to resolve and prevent problems.
5. A review of contract compliance status.
6. A summary of informal complaints.

(Am. by Ord. 11,004, 10-12-94)

(Am. by Ord-06-00078, 6-30-06)

(8) Civil Rights Compliance Plan.

(a) In order to maintain City compliance with Title VI of the Civil Rights Act of 1964, as amended, the Division of Affirmative Action shall coordinate the development and implementation of individual department plans for civil rights compliance. Department plans shall be incorporated into a composite, citywide Civil Rights Compliance Plan which includes policies and procedures governing equal access to public services and the City of Madison informal resident complaint procedure. The Civil Rights Compliance Plan shall be submitted to the Affirmative Action Commission for approval. (Am. by Ord-06-00078, 6-30-06; ORD-17-00030, 3-8-17)

(b) Upon approval by the Affirmative Action Commission, the Civil Rights Compliance Plan shall be submitted to the Mayor and Common Council for approval,

and upon approval by the Mayor and Common Council, the Compliance Plan shall be incorporated into the citywide Affirmative Action Plan. Once adopted, the Compliance Plan shall be distributed to all department heads who shall be responsible for effective implementation, to include information dissemination and training for employees and members of commissions, boards and committees. Department heads shall also be responsible for complaint processing consistent with the Civil Rights Compliance Plan policies and procedures.

(New Sec. 3.58(8) Cr. by Ord. 11,929, 9-12-97)

(9) Contract Compliance Provisions.

(a) Definitions. For the purposes of this subsection, the following definitions shall apply.

1. Affirmative Action Plan. A plan that is designed to insure that the contractor provides equal employment opportunity to all and takes affirmative action in its utilization of applicants and employees who are women, minority or persons with disabilities. Such a plan must be completed by each nonexempt contractor and be approved by the Affirmative Action Division Manager. The Affirmative Action Division Manager shall approve affirmative action plans which meet standards established by the Common Council.

2. Contract. Any lease, contract or agreement required or permitted under the laws of the State of Wisconsin and the City to which the City of Madison is a contracting party and which shall hereafter be entered into or renewed, including, but not limited to, purchase orders; public works contracts; contracts for the lease of real property; contracts for the lease or purchase of goods, supplies, and/or services; redevelopment contracts; revenue or loan agreements with an eligible participant or authorized developer under Wis. Stat. § 66.1103; contracts with developers or other entities authorized by Wis. Stat. § 66.1333(5) and 66.1105(3)(e), unless otherwise exempted; and subdivision improvement contracts under Sec. 16.23(9)(c) of these ordinances. It is the intention of the Common Council to include agreements which may not be reduced to writing, such as agreements for the purchase of public utility services and services provided by the City's depository banks. The following contracts shall be exempt, however, from the requirements of this ordinance.

a. Contracts for goods, supplies or services necessitated by or resulting from an emergency situation as duly determined by the Mayor with the advice of the Council where possible, including those executed as an emergency services contract under Sec. 4.26(4)(c). (Am. by ORD-13-00150, 9-11-13)

b. Contracts with contractors who employ fewer than fifteen (15) employees.

c. Contracts with contractors whose aggregate annual business with the City for the calendar year in which the contract takes effect is less than twenty-five thousand dollars ($25,000).

d. Contracts under which the City receives net cash, including, but not limited to contracts where the City leases real property, and sells or leases goods or services for cash; except contracts with the City's depository banks, which shall not be exempt.

e. Agreements with bond underwriters, financial institutions, and credit rating agencies, where the agreement relates to the City's borrowing. (Am. by ORD-15-00035, 4-8-15)

f. Contracts for the sale or purchase of real property and relocation-related contracts. Relocation-related contracts are contracts for

city payment of the costs of the relocation or modification of another person's facilities required when the City acquires a real property interest or modifies a railroad crossing, usually arising out of a relocation order, transportation project plat, or order of the Commissioner of Railroads. (Am. by ORD-10-00057, 6-11-10)

g. Contracts with other municipalities. For purposes of this exemption, "municipality" shall mean any unit of government listed in Wis. Stat. § 66.0301(1)(a) (2009-10) other than the state or a department or agency thereof. (Am. by ORD-11-00137, 10-27-11)

h. Contracts with the State of Wisconsin, the University of Wisconsin, and the Area Board of any Vocational, Technical and Adult Education District.

(Am. by Ord. 10,386, 2-27-92)

i. Contracts with the United States of America and individual agencies of the U.S. government. (Cr. by ORD-07-00146, 11-02-07)

j. Contracts with electric public utilities that provide for interruptible electric service or distributed generation interconnection or another Public Service Commission approved program that results in a lower rate tariff or other cost savings to the City. (Cr. by ORD-16-00071, 8-13-16)

3. Contractor. Any individual, partnership, corporation, association, or other entity including a contractor, vendor, or supplier, which enters into a contract with the City. This term shall not include local City employee bargaining units which shall be governed by the requirements of the other subsections of this ordinance, nor shall it include City employees with written employment contracts with the City. Notwithstanding the exemptions listed in subparagraphs b.-d. above, all developers (or other parties) who enter into subdivision improvement contracts under Sec. 16.23(9)(c), or developer contracts for the construction of public improvements that will be accepted by the City, and their contractors, shall submit an approved Affirmative Action plan and the contract between the City and the developer/party shall contain the Articles of Agreement; all redevelopment contracts and all revenue or loan agreements with an eligible participant or authorized developer under Wis. Stat. § 66.1103, shall contain the Articles of Agreement prescribed in Sec. 39.02(9)(e)2. and all such eligible participants or authorized developers, their contractors and subcontractors shall submit an approved Affirmative Action plan; and all contracts authorized by Wis. Stat. § 66.1333(5) and 66. 1105(3)(e), shall contain the Articles of Agreement prescribed in Sec. 39.02(9)(e)2. and all such developers or other entities, their contractors and subcontractors, shall submit an approved Affirmative Action plan. All Affirmative Action plans required by this subsection shall be submitted within thirty (30) days after the effective date of the contract. (Am. by Ord. 10,386, 2-27-92; ORD-07-000146, 11-02-07)

4. Contractor Association. Any not-for-profit organization of construction employers who employ members of trade unions, co-sponsor joint apprenticeship committees, and provide for public representation of the construction industry employer for the common and public good.

5. Labor Union. The term labor union means any organization of any kind, any agency or employee representation committee, group, association or plan so engaged in which employees participate which exists for the purpose in whole or in part of dealing with employers concerning

grievances, labor disputes, wages, rates of pay, hours or other terms or conditions of employment and any conference, general committee, joint or system board or joint council so engaged which is subordinate to a national or international labor organization. This shall not include local City employee bargaining units which shall be governed by the requirements of other subsections of this ordinance.

6. Joint Apprenticeship Committee. The jointly administered labor and management advisory committee which selects, qualifies, and trains apprentices through the Wisconsin Department of Workforce Development, Division of Apprenticeship and Training, and the Wisconsin Vocational Technical and Adult Education System. (Am. by Ord. 12,322, Adopted 2-2-99)

7. Minority. "Minority" includes:
   a. Black (all persons having origins in any of the Black African racial groups not of Hispanic origin);
   b. Hispanic (all persons of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race);
   c. Asian and Pacific Islander (all persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands); and
   d. American Indian or Alaskan Native (all persons having origins in any of the original peoples of North America and maintaining identifiable tribal affiliations through membership and participation or community identification).

8. A person with a disability is a person who either:
   a. Has a physical or mental impairment which substantially limits one or more of such person's major life activities; or
   b. Has a record of such an impairment; or
   c. Is regarded as having such an impairment.

9. Minority Business Enterprise (MBE). An independent and valid business concern that is owned and controlled by minority person(s). A minority person or persons must own fifty-one percent (51%) of the business and control the management and daily operations of the business.

10. Disadvantaged Business Enterprise (DBE). A small business concern:
   a. Which is at least fifty-one percent (51%) owned by one or more socially and economically disadvantaged individuals, or, in the case of any publicly owned business, at least fifty-one percent (51%) of the stock of which is owned by one or more socially and economically disadvantaged individuals; and
   b. Whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

11. Women Business Enterprise (WBE). An independent and valid business concern that is owned and controlled by women. A woman or women must own fifty-one percent (51%) of the business and must control the management and daily operations of the business.

12. Small Business Enterprise (SBE). A small business enterprise is an independent and bona fide business concern, in good standing with the State of Wisconsin if such registration is required for the business concern, that has averaged no more than four million dollars ($4.0 million) in annual gross receipts over the prior three- (3) year period, and the

principal owner(s) of which does not have a personal net worth in excess of one million three hundred twenty thousand dollars ($1.32 million). (Cr. by ORD-12-00107, 9-13-12)

(b) Notwithstanding the provisions of Sec. 39.02(9)(a)2., providing for certain exemptions from the provisions of this ordinance, every contract to which the City of Madison is a party shall contain the following language, except for contracts with the State of Wisconsin, another state government, the United States of America or individual agencies of the U.S. government, and written employment contracts between the City and City employees:

In the performance of the services under this Agreement the Contractor agrees not to discriminate against any employee or applicant because of race, religion, marital status, age, color, sex, handicap, national origin or ancestry, income level or source of income, arrest record or conviction record, less than honorable discharge, physical appearance, sexual orientation, gender identity, political beliefs, or student status. Contractor further agrees not to discriminate against any subcontractor or person who offers to subcontract on this contract because of race, religion, color, age, disability, sex, sexual orientation, gender identity or national origin. (Am. by ORD-07-00146, 11-02-07; ORD-13-00149, 9-11-13)

(c) Every contract to which the City of Madison is a party, except those exempted by Sec. 39.02(9)(a)2.a., b., d., e., f., g., h., i., and j. shall contain the following language:

The contractor agrees that, within thirty (30) days after the effective date of this agreement, the contractor will provide to the City of Madison Division of Affirmative Action certain workforce utilization statistics, using a form to be furnished by the City.

If the contract is still in effect, or if the City enters into a new agreement with the contractor, within one year after the date on which the form was required to be provided, the contractor will provide updated workforce information using a second form, also to be furnished by the City. The second form will be submitted to the City Division of Affirmative Action no later than one year after the date on which the first form was required to be provided.

The contractor further agrees that, for at least twelve (12) months after the effective date of this contract, it will notify the City of Madison Division of Affirmative Action of each of its job openings at facilities in Dane County for which applicants not already employees of the contractor are to be considered. The notice will include a job description, classification, qualifications, and application procedures and deadlines, shall be provided to the City by the opening date of advertisement and with sufficient time for the City to notify candidates and make a timely referral. The contractor agrees to interview and consider candidates referred by the Division of Affirmative Action or an organization designated by that Division if the candidate meets the minimum qualification standards established by the contractor, and if the referral is timely. A referral is timely if it is received by the contractor on or before the date stated in the notice.
(Am. by Ord. 10,971, 8-29-94; ORD-06-00078, 6-30-06; ORD-09-00147, 11-6-09; ORD-15-00005, 1-14-15; ORD-16-00027, 3-9-16; ORD-16-00071, 8-13-16)

(d) Small Business Enterprise Program. A detailed small business enterprise program shall be submitted to the Council for its approval. The program shall include procedures for certification of small business enterprises, shall establish a mechanism for setting small business enterprise participation goals for all public works projects with an estimated cost of $100,000 or more, and shall establish other necessary and appropriate procedures. Applicable requirements of the program shall be incorporated into City contracts. The Division of Affirmative Action shall

study the effect of the small business enterprise program on participation by affected and underrepresented groups in city contracting and shall provide a full report to the Common Council on or before January 1, 1993, and every two years thereafter. (Am. by Ord. 10,386, 2-27-92; ORD-06-00078, 6-30-06)

(e) Compliance Requirements.

1. Submission of Affirmative Action Plans.

a. Public Works Projects. The award of any public works contract, except those exempted by Sec. 39.02(9)(a)2.a., shall be subject to and contingent upon the lowest responsible bidder submitting in writing to the Division of Affirmative Action, an Affirmative Action Plan for Public Works Contractors on a form approved by the Affirmative Action Division Manager. Such Affirmative Action Plan shall be submitted with the contractor's bid prequalification documents. Should any contractor fail or refuse to submit an Affirmative Action Plan as required by this section, such contractor shall not be qualified to bid on any City Public Works contracts until said contractor has complied. Any bid submitted by a contractor who has failed to submit an Affirmative Action Plan as required by this section shall be rejected. All such contractors shall require their subcontractors to file an approved Affirmative Action Plan prior to the subcontractor being allowed to start work on any City project.

No public works contractor may be prequalified by the City Engineer for work advertised after April 1, 1991, unless the contractor submits an Affirmative Action Plan approved by the Division of Affirmative Action. If such a contractor submits an Affirmative Action Plan and the contractor is conditionally prequalified by the City Engineer, the contractor's Affirmative Action Plan must be approved by the Affirmative Action Division Manager prior to the bid opening. The Board of Public Works shall not award any contract to a contractor unless the Affirmative Action Division Manager has approved the Affirmative Action Plan submitted by the contractor no later than the time of the bid opening. (Am. by ORD-09-00012, 2-6-09)

b. Other City Contracts. Within thirty (30) days from the effective date of a contract with the City or effective date of a purchase order, and prior to release of payment by the City, all nonexempt contractors are required to have on file an affirmative action plan which is a model affirmative action plan approved by the Common Council or which meets the requirements of Federal Revised Order No. 4, 41 CFR Part 60-2, as established in 43 FR 51400, November 3, 1978, and which includes, in addition, the following appendices:

i. A work force utilization analysis and goals and timetables for applicants and employees with disabilities. This document shall either meet the criteria found in 41 CFR Parts 60-2.11 and 60-2.12, as established in 43 FR 51400, November 3, 1978, or shall follow the format contained in the model affirmative action plan for vendors as approved by the Madison Common Council.

ii. The applicable provisions for MBE, DBE, WBE, and SBE utilization which are contained in the model affirmative action plan for vendors as approved by the Madison Common Council.

Should any contractor fail or refuse to comply with this section and the contract with the City, the Affirmative Action Division Manager shall recommend appropriate action under Article VII of the contract Articles of Agreement and other provisions of this ordinance.
(Am. by Ord. 10,971, 8-29-94; Ord. 13,104, 7-6-02)

2. Contract Conditions.

Contracts - Contents. All contracts hereafter executed by the City shall contain the following language assuring the contractor's compliance with the intent of this ordinance:

ARTICLES OF AGREEMENT

ARTICLE I

The contractor shall take affirmative action in accordance with the provisions of this contract to insure that applicants are employed, and that employees are treated during employment without regard to race, religion, color, age, marital status, disability, sex, sexual orientation, gender identity or national origin and that the employer shall provide harassment-free work environment for the realization of the potential of each employee. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation and selection for training including apprenticeship insofar as it is within the control of the contractor. The contractor agrees to post in conspicuous places available to employees and applicants notices to be provided by the City setting out the provisions of the nondiscrimination clauses in this contract. (Am. by ORD-13-00149, 9-11-13)

ARTICLE II

The contractor shall in all solicitations or advertisements for employees placed by or on behalf of the contractors state that all qualified or qualifiable applicants will be employed without regard to race, religion, color, age, marital status, disability, sex, sexual orientation, gender identity or national origin. (Am. by ORD-13-00149, 9-11-13)

ARTICLE III

The contractor shall send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice to be provided by the City advising the labor union or workers representative of the contractor's equal employment opportunity and affirmative action commitments. Such notices shall be posted in conspicuous places available to employees and applicants for employment.

ARTICLE IV

(This article applies only to non-public works contracts.)

The contractor agrees that it will comply with all provisions of the Affirmative Action Ordinance of the City of Madison including the contract compliance requirements. The contractor warrants and certifies that, one of the following paragraphs is true (check one):

A. It has prepared and has on file an affirmative action plan that meets the format requirements of Federal Revised Order No. 4, 41 CFR part 60-2, as established by 43 FR 51400 November 3, 1978, including appendices required by City of Madison ordinances or it has prepared and has on file a model affirmative action plan approved by the Madison Common Council.

B. Within thirty (30) days after the effective date of this contract, it will complete an affirmative action plan that meets the format requirements of Federal Revised Order No. 4, 41 CFR Part 60-2, as established by 43 FR 51400, November 3, 1978, including appendices required by City of Madison ordinance or within thirty (30) days after the effective date of this contract, it will complete a model affirmative action plan approved by the Madison Common Council.

C. Contractor believes it is exempt from filing an Affirmative Action Plan because it has fewer than fifteen (15) employees and has filed, or will file within thirty (30) days after the effective date of this Contract, a form required by the City to confirm exempt status based on number of employees. If the City determines that Contractor is not exempt, the Articles of Agreement will apply.

D. Contractor believes it is exempt from filing an Affirmative Action Plan because its annual aggregate business with the City for the calendar year in which the contract takes effect is less than twenty-five thousand dollars ($25,000), or for another reason listed in Sec. 39.02(9)(a)2. If the City determines that Contractor is not exempt, the Articles of Agreement will apply.

(Am. by ORD-15-00005, 1-14-15)

ARTICLE V

(This article applies only to public works contracts.)

The contractor agrees that it will comply with all provisions of the Affirmative Action Ordinance of the City of Madison, including the contract compliance requirements. The contractor agrees to submit the model affirmative action plan for public works contractors in a form approved by the Affirmative Action Division Manager.

ARTICLE VI

The contractor will maintain records as required by Section 39.02(9)(f) of the Madison General Ordinances and will provide the City's Division of Affirmative Action with access to such records and to persons who have relevant and necessary information, as provided in Section 39.02(9)(f). The City agrees to keep all such records confidential, except to the extent that public inspection is required by law.

ARTICLE VII

In the event of the contractor's or subcontractor's failure to comply with the Equal Employment Opportunity and Affirmative Action Provisions of this contract or Sections 39.03 and 39.02 of the Madison General Ordinances, it is agreed that the City at its option may do any or all of the following:

1. Cancel, terminate or suspend this contract in whole or in part.
2. Declare the contractor ineligible for further City contracts until the Affirmative Action requirements are met.
3. Recover on behalf of the City from the prime contractor 0.5 percent of the contract award price for each week that such party fails or refuses to comply, in the nature of liquidated damages, but not to exceed a total of five percent (5%) of the contract price, or five thousand dollars ($5,000), whichever is less. Under public works contracts, if a subcontractor is in noncompliance, the City may recover liquidated damages from the prime contractor in the manner described above. The preceding sentence shall not be construed to prohibit a prime contractor from recovering the amount of such damage from the noncomplying subcontractor.

ARTICLE VIII

The contractor shall include the above provisions of this contract in every subcontract so that such provisions will be binding upon each subcontractor. The contractor shall take such action with respect to any subcontractor as necessary to enforce such provisions, including sanctions provided for noncompliance. (This article applies to public works contracts only.)

ARTICLE IX

The contractor shall allow the maximum feasible opportunity to small business enterprises to compete for any subcontracts entered into pursuant to this contract and shall document all good faith efforts. (In federally funded contracts the terms "DBE, MBE, and WBE" shall be substituted for the term "small business" in this article.) (Am. by Ord. 13,104, 7-6-02)
(Sec. 3.23(9)(e) Am. by ORD-06-00078, 6-30-06)

3. Appeal. Any person aggrieved by a determination not to approve an Affirmative Action Plan shall have a right of appeal to the Affirmative Action Commission. The person shall institute the appeal by delivering a written notice of appeal, requesting a hearing before the Affirmative Action Commission, to the Manager of the Affirmative Action Division within five (5) business days of the determination. Upon receipt of such a notice, the Manager of the Affirmative Action Division shall follow the procedures for hearing set out in Sec. 32.09(9)(g)6-8, MGO, except that the Affirmative Action Commission shall, in addition to issuing a written decision as provided therein, render a decision orally immediately after the hearing. An appeal by certiorari to Circuit Court must be taken within 30 days of the written decision of the Affirmative Action Commission. (Cr. by ORD-09-00012, 2-6-09)

(f) Record-Keeping Requirements.

1. Maintenance of Records. All contractors shall keep full and accurate records of the minority group status and the sex of all employees and whether or not they are persons with disabilities, as well as dates of hire, termination, recall and/or layoff, reasons for termination or layoff, and job duties or job description for each employee. In addition, every contractor subject to any applicable prevailing wage law shall keep records of the name and trade or occupation of every employee, and an accurate record of hours worked by each employee as are required to be kept pursuant to those regulations.

   All contractors shall also maintain such records as may be required by the Common Council in the Affirmative Action Plan as defined in Sec. 39.02(9)(a)1. of this ordinance. Contractors requesting exempt status under this ordinance shall furnish all information requested by the Division of Affirmative Action in order to determine exempt status. (Am. by Ord 13,104, 7-6-02; ORD-17-00011, 2-20-17)

2. Production of Records. Contractors shall provide such records at the office of the Division of Affirmative Action within ten (10) days of the date requested in writing and shall permit the Affirmative Action Division Manager or designee access during normal business hours to all of the above records, as well as access to persons who may have information relevant and necessary to ascertain compliance with this section within ten (10) days of the date requested in writing. Such request may be made:

   a. Once every twelve (12) months. (Am. by Ord. 13,104, 7-6-02)

   b. At any time when an employee, former employee, or applicant for employment of the contractor has filed a formal complaint of discrimination with the Division of Affirmative Action or with a local, state or federal agency.

   c. At any time when the Division of Affirmative Action finds substantial deficits or questionable or inconsistent information in the affirmative action plan submitted by the contractor.

d. At any time when a contractor reports no progress toward achieving a balanced work force and the Affirmative Action Division Manager deems it necessary to examine documented good-faith efforts.

The Division Manager's written request for access shall inform the contractor of the basis for the request.

3. Public Inspection of Records. All contract-related records in the custody of the Division of Affirmative Action shall be open for public inspection and copying, as provided in Sec. 3.70 of these ordinances, except the following:

a. Records which are exempt from disclosure under Wis. Stat. § 19.36 or any other provision of Wis. Stat. §§ 19.31 through 19.39 (the Wisconsin Public Records laws) adopted through Sec. 3.70(1) of these ordinances. (Am. by Ord. 11,538, 3-1-96; ORD-14-00012, 1-14-14)

b. Records provided in connection with compliance investigations and compliance investigation files; except that compliance reports shall be open to inspection and copying, and all minutes, proceedings, evidence, findings and orders of the Affirmative Action Commission shall be open to inspection and copying.

c. Names and other information identifying individual complainants.

d. Those portions of affirmative action plans which constitute information on staffing patterns and pay scales, if release for public inspection could reasonably be expected to affect the competitive or financial position of the contractor, would constitute a release of confidential or salary information of an employee or would constitute an unwarranted invasion of privacy of an employee.

e. Tests used by contractors for selection purposes.

(Sec. 3.23(9)(f) Am. by ORD-06-00078, 6-30-06)

(g) Enforcement. The Department of Affirmative Action may review contractors' compliance with affirmative action plans, contract provisions and provisions of this ordinance at any time up to one (1) year after the expiration of the contract. A contractor is in compliance with this ordinance when it adheres to the provisions of this ordinance, its contract, and its affirmative action plan.

The Department of Affirmative Action shall review the compliance status of each contractor at least once every two (2) years and shall use the following compliance review procedure:

1. The Affirmative Action Division Manager or designee shall give each contractor at least five (5) days written notice of the commencement of a compliance review, and shall examine the contractor's affirmative action plan and supporting documents, as well as other documents and records furnished by the contractor under Sec. 39.02(9)(f).

2. The Affirmative Action Division Manager or designee may schedule an on-site review, as provided in Sec. 39.02(9)(f)2., by notifying the contractor in writing no less than ten (10) days in advance.

3. After a compliance review, the Affirmative Action Division Manager shall provide the contractor with a written compliance report, which shall either state that the contractor is in compliance, or if the contractor is found not

to be in compliance, the report shall list specifically the facts on which such finding is based, and what remedial actions should be taken by the contractor in order to achieve compliance.

The Division of Affirmative Action shall provide technical assistance where feasible and appropriate to assist the contractor in achieving compliance.

4. Within thirty (30) days after receipt of a report of noncompliance, or such longer period as the Affirmative Action Division Manager may permit in writing, the contractor shall submit an amended affirmative action plan, specifying and agreeing to take such remedial actions as will achieve compliance.

5. If the contractor fails or refuses to submit such an amended affirmative action plan, or refuses to comply with the provisions thereof, the Affirmative Action Division Manager, after consultation with the City Attorney and the City department or division responsible for the administration of the contract, shall send the contractor by certified mail a Demand to Cure Default. The Demand shall specify the factual basis for the finding of noncompliance and what remedial actions are demanded.

   The Demand shall also set a date certain by which the contractor must either offer to comply or request a hearing. An offer to comply shall consist of a proposed amended affirmative action plan, specifying and agreeing to take such remedial actions as will achieve compliance. If the Affirmative Action Division Manager approves the proposed amended affirmative action plan, the contractor's default is cured. If the proposed amended affirmative action plan is not approved, the Affirmative Action Division Manager shall specify in writing the reasons for disapproval.

6. If the contractor requests a hearing, the Affirmative Action Commission shall schedule a hearing within five (5) working days after receiving the request. The initial date of the hearing shall be not more than forty-five (45) calendar days after the request is filed with the Affirmative Action Division Manager. (Am. by ORD-09-00034, 3-14-09; ORD-11-00040, 3-23-11)

7. At the hearing, the Affirmative Action Division Manager shall have the burden to persuade the Affirmative Action Commission of the facts supporting his/her findings. Each party shall have the right to appear in person and by counsel, to call and examine all witnesses, and to introduce exhibits. The Affirmative Action Commission shall have the power to compel by subpoena the attendance of and examine under oath or affirmation, persons, whether as parties or as witnesses, and to compel by subpoena duces tecum the production before it of books, records, papers or other evidence which may relate to the subject matter of the hearing. In the admission of evidence, the Affirmative Action Commission shall abide by the provisions of Wis. Stat. § 227.45. The Commission shall make written findings of fact and conclusions of law on the following issues:

   a. Whether the finding of noncompliance should be sustained.

   b. If the finding of noncompliance is sustained, the Affirmative Action Commission shall decide whether the contract should be cancelled, terminated, or suspended, in whole or in part; whether the contractor should be found ineligible for further City contracts, and if so, what measures taken by the contractor will restore such eligibility; and whether liquidated damages should be sought

under the provisions of the contract. The Commission may decide to allow the contractor additional time in which to take the necessary remedial action.

8. The Affirmative Action Commission shall provide written findings and conclusions and a written order within thirty (30) calendar days after the conclusion of the hearing and shall serve copies thereof upon the contractor by certified mail. The Commission's findings and conclusions shall constitute final administrative determinations and shall be subject to review in court as by law may be provided. (Am. by ORD-11-00040, 3-23-11)

9. If the Affirmative Action Commission orders the contract to be cancelled, terminated or suspended, the receipt by the contractor of such order shall constitute a written notice of termination under the termination procedures provided in the contract.

10. If the Commission orders that a contractor shall be ineligible for further City contracts, no bids or proposals of the contractor may be opened or considered, or contracts entered into, until the Affirmative Action Division Head certifies that the contractor has taken the measures specified by the Commission to restore eligibility, or until the expiration of two (2) years from the date of the order, whichever is sooner.

11. If the Affirmative Action Commission, after consultation with the City Attorney, determines that liquidated damages should be sought, the City Attorney shall institute court action to recover such damages.

12. If the contractor fails to comply with the Demand to Cure Default and fails to request a hearing, the contract shall be terminated. In addition, the Affirmative Action Division Head may request the Affirmative Action Commission to order additional remedies. Such a hearing shall be held according to the procedures in Section 39.02(9)(g)7.-12. above.

(Sec. 3.23(9)(g) Am. by ORD-06-00078, 6-30-06)

[EDITOR'S NOTE: At its meeting of February 10, 2009, the Affirmative Action Commission established an Appeals Subcommittee, and delegated the authority to hear appeals under this section of the ordinances to that Subcommittee. The Commission also adopted Rules for hearings before the Subcommittee. Those Rules are available from the Affirmative Action Division.]

(h) Complaints. The Division of Affirmative Action shall investigate complaints filed by employees or applicants for employment with nonexempt contractors, when such complaints allege violation of this ordinance or of the Affirmative Action Articles of Agreement contained in the contract. Such complaints shall not be investigated unless they are in writing and are filed not more than sixty (60) days after the alleged violation occurred, or not more than one (1) year after the expiration of the contract, whichever is sooner. The Division of Affirmative Action shall refer complainants to the Madison Equal Opportunities Commission, the Equal Rights Division of the Wisconsin Department of Workforce Development, the U.S. Equal Employment Opportunities Commission, the U.S. Office of Federal Contract Compliance Programs, and other appropriate agencies.

Within ten (10) working days of the receipt of such a complaint, the Division of Affirmative Action shall either:

1. Initiate a compliance review, following the procedures set forth in Subsection (9)(g) of this ordinance; or

2. Determine that the complaint does not warrant a compliance review. If the Division of Affirmative Action determines that the complaint does not warrant a compliance review, he/she shall inform the complainant in writing, listing the reasons for the determination. A complainant may

appeal the determination to the Affirmative Action Commission by filing a written letter of appeal with the Division of Affirmative Action within ten (10) working days after receiving the determination.

The Affirmative Action Commission shall consider the appeal at the next regularly scheduled meeting or within twenty (20) days, whichever is sooner. The contractor involved shall be notified at least ten (10) days in advance of the meeting at which the appeal is to be considered.

In considering the appeal, the Commission shall not be bound by the rules of evidence, but shall consider any evidence which is reasonably probative, and shall allow, but not require the contractor to participate. The Commission shall exercise its discretion to determine whether or not the complaint warrants investigation. The Commission may order the Affirmative Action Officer to initiate a compliance review, or it may dismiss the complaint.

(Sec. 3.23(9)(h) Am. by ORD-06-00078, 6-30-06)

(i) No Private Cause of Action. The Common Council does not intend by this ordinance to create a private right of action by or on behalf of any employee or applicant for employment based upon a claim or complaint that the contractor's agreement with the City or the contractor's affirmative action plan has not been complied with. This provision is not intended either to expand or to limit rights provided by other local, state or federal equal employment laws.

(Sec. 3.58(8) Renumbered to (9) by Ord. 11,929, 9-12-97; Am. by Ord. 12,322, Adopted 2-2-99)

(10) Severability. The provisions of this ordinance shall be severable and if any of the provisions shall be held in contravention of the Constitution and laws of the State of Wisconsin or of the United States by a court of competent jurisdiction, the validity of the rest of the ordinance shall not be affected. It is hereby declared to be the intent of this ordinance that the same would have been adopted had such unconstitutional or unlawful provision, if any, not been included herein.(Sec. 39.02(9) Renumbered to (10) by Ord. 11,929, 9-12-97)

(Sec. 39.02 Am. by ORD-12-00041, 4-19-12)

39.03 EQUAL OPPORTUNITIES ORDINANCE.

(1) Declaration of Policy. The practice of providing equal opportunities in housing, employment, public accommodations and City facilities is a desirable goal of the City of Madison and a matter of legitimate concern to its government. Discrimination against any of Madison's residents or visitors endangers the rights and privileges of all. The denial of equal opportunity intensifies group conflict, undermines the foundations of our democratic society, and adversely affects the general welfare of the community.

Denial of equal opportunity in employment deprives the community of the fullest productive capacity of those of its members so discriminated against and denies to them the sufficiency of earnings necessary to maintain the standards of living consistent with their abilities and talents.

The practice of providing equal opportunities in employment to persons without regard to sex, race, religion or atheism, color, national origin or ancestry, citizenship status, age, handicap/disability, marital status, source of income, arrest record, conviction record, credit history, less than honorable discharge, physical appearance, sexual orientation, gender identity, genetic identity, political beliefs, familial status, student status, domestic partner status, receipt of rental assistance, the fact that the person declines to disclose their social security number, homelessness or unemployment status is a desirable goal of the City of Madison and a matter of legitimate concern to its government. As a proper function of City government the City of Madison has provided in Sec. 39.02 for affirmative action in City employment to safeguard against discrimination.

Denial of equal opportunity in housing compels individuals and families who are discriminated against to live in dwellings below the standards to which they are entitled.

The practice of providing equal opportunities in housing to persons without regard to sex, race, religion or atheism, color, national origin or ancestry, citizenship status, age, handicap/disability, marital status, source of income, less than honorable discharge, physical appearance, sexual orientation, gender identity, genetic identity, political beliefs, familial status, student status, domestic partner status, receipt of rental assistance, homelessness, unemployment or status as a victim of domestic abuse, sexual assault, or stalking is a desirable goal of the City of Madison and a matter of legitimate concern to its government.

Denial of equal opportunity in public accommodations subjects those discriminated against to embarrassment and creates distress and unrest within the community. The practice of providing equal opportunities in public accommodations to persons without regard to sex, race, religion or atheism, color, national origin or ancestry, citizenship status, age, handicap/disability, marital status, source of income, arrest record, conviction record, less than honorable discharge, physical appearance, sexual orientation, gender identity, genetic identity, political beliefs, familial status, student status, domestic partner status, receipt of rental assistance, the fact that the person declines to disclose their social security number, homelessness, or unemployment status is a desirable goal of the City of Madison and a matter of legitimate concern to its government. Provision for adequate safeguards against such discrimination is a proper and necessary function of City government. In order that the peace, freedom, safety and general welfare of all inhabitants of the City may be protected and ensured, it is hereby declared to be the public policy of the City of Madison to foster and enforce to the fullest extent the protection by law of the rights of all of its inhabitants to equal opportunity to gainful employment, housing, and the use of City facilities and public accommodations.

To fully effectuate this policy of promoting nondiscrimination, the City shall endeavor to eliminate all discrimination that may occur in its own employment, housing, and public accommodation practices and in the use of City facilities. By adopting Sec. 39.05 of these ordinances, the Common Council has attempted to make sure that City facilities and programs that receive City financial assistance are accessible to all persons, including persons with disabilities. The City will deal positively and constructively with all claims of discrimination filed against it through utilization of the procedures outlined in this ordinance. (Am. by Ord. 10,556, Adopted 12-15-92; ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-12-00108, 9-13-12; ORD-13-00211, 12-10-13; ORD-15-00010, 1-28-15; ORD-15-00039, 4-8-15; ORD-15-00062, 6-24-15)

(2) Definitions.

Age. The prohibition against discrimination because of age shall not apply to any person less than eighteen (18) years of age.

Arrest record includes, but is not limited to, information indicating that a person has been questioned, apprehended, taken into custody or detention, held for investigation, arrested, charged with, indicted or tried for any felony, misdemeanor or other offense pursuant to any law enforcement or military authority.

Citizenship Status means the immigration status and/or citizenship of any person.

City facilities includes all property owned and services rendered by the City for the welfare of its inhabitants.

Commercial facilities means facilities that are intended for nonresidential use and whose operation will affect commerce use. The term "commercial facilities" does not include buildings or parts of buildings not open to and not reasonably expected to be open to the public, railroad locomotives, railroad freight cars, railroad cabooses, railroad cars described in 42 U.S.C. 12162 and covered under 42 U.S.C. 12181 et seq., railroad rights-of-way, or facilities that are covered or expressly exempted from coverage under Sec. 39.03(4) of the Madison General Ordinances, and types of facilities that are specifically exempted under Sec. 101.13(2) of the Wisconsin Statutes.

Conviction record includes, but is not limited to, information indicating that a person has been convicted of a felony, misdemeanor or other offense, placed on probation, fined, imprisoned or paroled pursuant to any law enforcement or military authority. (Am. by Ord. 12,501, 11-19-99; Reconsidered & Adopted by Ord. 12,561, 4-7-00; Am. by ORD-12-00108, 9-13-12)

Covered multifamily dwellings means

1. Buildings consisting of three (3) or more units if such buildings have one or more elevators; and
2. Ground floor portions of units in other buildings consisting of three (3) or more units.

Credit history information provided in a consumer report as defined in 15 USC 1681a(d).

Dependent means one who lives with a domestic partnership and is:

1. A biological child of a domestic partner; or
2. A dependent as defined under IRS regulations; or
3. A ward of a domestic partner as determined in a guardianship proceeding; or
4. A person adopted by a domestic partner.

Disability means, with respect to a person,

1. A physical or mental impairment which substantially limits one or more of such person's major life activities; or
2. A record of having such an impairment; or
3. Being regarded as having such an impairment, but such term does not include current, illegal use of or addiction to a controlled substance (as defined in Section 102 of the Controlled Substances Act (21 U.S.C. 802)).
4. The term also includes the term "handicap" as used in local, state and federal statutory, administrative or judicial case law.

Domestic partner means those adults in a domestic partnership.

Domestic partnership means two adults and their dependents, if any, which satisfy the following requirements:

1. They are in a relationship of mutual support, caring and commitment and intend to remain in such a relationship in the immediate future; and
2. They are not married (unless they are married to each other) or legally separated and, if either party has been a party to an action or proceeding for divorce or annulment, at least six (6) months have elapsed since the date of the judgment terminating the marriage; and
3. Neither domestic partner is currently registered in a domestic partnership with a different domestic partner and, if either partner has previously been registered as a domestic partner in a domestic partnership, at least six (6) months have elapsed since the effective date of termination of that registration; and
4. Both are 18 years of age or older; and
5. Both are competent to contract; and
6. They are occupying the same dwelling unit as a single, nonprofit housekeeping unit, whose relationship is of permanent and distinct domestic character; and
7. They are not in a relationship that is merely temporary, social, political, commercial or economic in nature.

Employees does not include any individual employed by her/his parents, spouse, or child.

Facility means all or any portion of buildings, structures, sites, complexes, equipment, rolling stock or other conveyances, roads, walks, passageways, parking lots, or other real or personal property, including the site where the building, property, structure, or equipment is located.

Familial status means one or more individuals (who have not attained the age of 18 years) being domiciled with

1. A parent or another person having sole or joint legal custody or physical placement, as defined in Wis. Stat. § 767.001, of such individual(s); or
2. The designee of such parent or other person having such custody or physical placement, with the written permission of such parent or other person; or
3. A foster parent or other person with whom a person under the age of 18 years is placed by court order.

   The protections afforded against discrimination based on familial status shall apply to any person who is pregnant or is in the process of securing sole or joint legal custody or physical placement of any individual who has not attained the age of 18 years.
4. The domestic partner of a parent or another person having sole or joint legal custody or physical placement, as defined in Wis. Stat. § 767.001 of such individual(s).

Gender identity is the actual or perceived condition, status or acts of 1) identifying emotionally or psychologically with the sex other than one's biological or legal sex at birth, whether or not there has been a physical change of the organs of sex; 2) presenting and/or holding oneself out to the public as a member of the biological sex that was not one's biological or legal sex at birth; 3) lawfully displaying physical characteristics and/or behavioral characteristics and/or expressions which are widely perceived as being more appropriate to the biological or legal sex that was not one's biological or legal sex at birth, as when a male is perceived as feminine or a female is perceived as masculine; and/or 4) being physically and/or behaviorally androgynous. (Cr. by Ord. 12,686, 10-9-00)

Genetic identity means the genetic information unique to the individual, including information regarding:

1. such individual's genetic tests,
2. the genetic tests of family members of such individual,
3. the manifestation of a disease or disorder in family members of such individual, and
4. any request for, or receipt of, genetic services, or participation in clinical research which includes genetic services, by such individual or any family member of such individual.
5. The term 'genetic identity' shall not include information about the sex or age of any individual.

The term 'genetic test' means an analysis of human DNA, RNA, chromosomes, proteins, or metabolites, that detects genotypes, mutations, or chromosomal changes. The term 'genetic test' does not mean:

1. an analysis of proteins or metabolites that does not detect genotypes, mutations, or chromosomal changes; or
2. an analysis of proteins or metabolites that is directly related to a manifested disease, disorder, or pathological condition that could reasonably be detected by a health care professional with appropriate training and expertise in the field of medicine involved; or
3. any genetic testing, to include DNA testing, conducted specifically for law enforcement agencies investigative purposes or for the purpose of determining paternity.

Homelessness means the status of lacking housing (without regard to whether the individual is a member of a family). This includes those individuals whose primary residence during the night is a supervised public or private facility (e.g., shelters) that provides temporary living accommodations, and an individual who is a resident in transitional housing. (Cr. by ORD-15-00062, 6-24-15)

Housing means any building, structure, or part thereof which is used or occupied, or is intended, arranged or designed to be used or occupied, as a residence, home or place of habitation of one or more human beings, including a mobile home as defined in Section 66.0435 of the Wisconsin Statutes and a trailer as defined in Section 9.23 of the Madison General Ordinances and any land for sale, lease or use as a site for a building, structure or part thereof intended or designed to be used or occupied as a residence, home or place of habitation of one or more human beings, including a mobile home park as defined in Section 66.0435 of the Wisconsin Statutes and a trailer camp as defined in Section 9.23 of the Madison General Ordinances. Such definition of "housing" is qualified by the exceptions contained in Section 39.03(4)(a).

Labor organization includes any collective bargaining unit composed of employees.

Less than honorable discharge means any general, undesirable, clemency, bad conduct or dishonorable discharge from the military service.

Marital status includes being married, separated, divorced, widowed, or single.

Mutual support means that the domestic partners contribute mutually to the maintenance and support of the domestic partnership throughout its existence.

Nonreligion means atheism, agnosticism, or other disbelief or lack of belief in the existence of God or gods. (Cr. by ORD-15-00039, 4-8-15)

Person means one or more individuals, labor unions, partnerships, associations, corporations, cooperatives, legal representatives, mutual companies, joint-stock companies, trusts, unincorporated organizations, trustees, trustees in bankruptcy, or receivers or other fiduciaries, and shall include the City of Madison, and the agent or agents of any of the foregoing.

Physical appearance means the outward appearance of any person, irrespective of sex, with regard to hairstyle, beards, manner of dress, weight, height, facial features, or other aspects of appearance. It shall not relate, however, to the requirement of cleanliness, uniforms, or prescribed attire, if and when such requirement is uniformly applied for admittance to a public accommodation or to employees in a business establishment for a reasonable business purpose.

Political beliefs means one's opinion, manifested in speech or association, concerning the social, economic and governmental structure of society and its institutions. This ordinance shall cover all political beliefs, the consideration of which is not preempted by state or federal law.

Public place of accommodation or amusement includes those accommodations, facilities and services that a person holds out to be open to the common and general use, participation and enjoyment of the public for any purpose. The term "public place of accommodation or amusement" shall be interpreted broadly to include, but not be limited to, places of business or recreation, hotels, motels, resorts, restaurants, taverns, barber or cosmetologist, aesthetician, electrologist or manicuring establishments, nursing homes, clinics, hospitals, cemeteries, and any place where accommodations, amusements, goods or services are available either free or for a consideration, except where such a broad interpretation would deny to any person rights guaranteed by the constitutions of Wisconsin and of the United States.

Public place of accommodation or amusement does not include a place where a bona fide private, nonprofit organization or institution provides accommodations, amusement, goods or services during an event at which the organization or institution provides the accommodations, amusement, goods or services to the following individuals only:

1. Members of the organization or institution.

2. Guests named by members of the organization or institution.
3. Guests named by the organization or institution.

Readily achievable means easily accomplishable and able to be carried out without much difficulty or expense. In determining whether an action is readily achievable, factors to be considered include:

1. The nature and cost of the action needed under this Ordinance;
2. The overall financial resources of the facility or facilities involved in the action; the number of persons employed at such facility; the effect on expenses and resources, or the impact otherwise of such action upon the operation of the facility;
3. The overall financial resources of the person who owns or operates the facility; the overall size of the business with respect to the number of its employees; the number, type and location of its facilities; and
4. The type of operation or operations of the person who owns or operates the facility, including the composition, structure, and functions of the workforce of such person; the geographic separateness, administrative or fiscal relationship of the facility or facilities in question.

Receipt of rental assistance means receipt of rental assistance under Title 24 Code of Federal Regulations, Subtitle B, Chapter VII (commonly known as the Section 8 program), or any other rental assistance that is not considered household income. (Cr. by ORD-12-00108, 9-13-12)

Religion includes all aspects of religious observance and practice, as well as belief, unless an employer demonstrates inability to reasonably accommodate an employee's or prospective employee's religious observance or practice without undue hardship on the conduct of the employer's business. (Renum. by ORD-12-00108, 9-13-12)

"Sexual harassment" means unwelcome sexual advances; unwelcome requests for sexual favors; unwelcome physical contact of a sexual nature; or unwelcome verbal or physical conduct of a sexual nature which shall include, but not be limited to, deliberate or repeated unsolicited gestures, verbal or written comments, or display of sexually graphic materials which is not necessary for business purposes. "Sexual harassment" includes conduct directed by a person at another person of the same or opposite gender. (Renum. by ORD-12-00108, 9-13-12)

Sexual orientation is the sexual or loving attraction to another person or the complete absence thereof to any other person. This attraction can span a non-static continuum from same-sex attraction at one end to opposite-sex attraction to an absolute lack of attraction to any gender. (Am. by Ord. 12,686, 10-9-00; Renum. by ORD-12-00108, 9-13-12)

Source of income includes, but shall not be limited to, moneys received from public assistance, pension, and Supplementary Security Income (SSI). Source of income shall be limited to legally derived income. (Renum. & Am. by ORD-12-00108, 9-13-12)

Student means a person who is enrolled in a public or private high school, college, university, technical college, accredited trade school, or apprenticeship program. (Renum. by ORD-12-00108, 9-13-12)

Transfer does not apply to the transfer of property by will or gift. (Renum. by ORD-12-00108, 9-13-12)

Protected class membership means a group of natural persons, or a natural person, who may be categorized because of their ability to satisfy the definition of one or more of the following groups or classes: sex, race, religion or nonreligion, color, national origin or ancestry, citizenship status, age, handicap/disability, marital status, source of income, arrest record or conviction record, less than honorable discharge, physical appearance, sexual orientation, gender identity, genetic identity, political beliefs, familial status, student, domestic partner, or receipt of rental assistance. (Renum. & Am. by ORD-12-00108, 9-13-12; ORD-15-00039, 4-8-15)

Victim of domestic abuse, sexual assault or stalking means the status of a person who is seeking to rent or purchase housing or of a member or prospective member of the person's household having been, or being believed by the lessor or seller of housing to be, a victim of domestic abuse, as defined in Wis. Stat. § 813.12(1)(am); sexual assault as defined in Wis. Stat. § 940.225, 948.02, or 9148.015; or stalking as defined in Wis. Stat. § 940.32 or of a crime prohibited by Wis. Stat. ch. 948. (Renum. by ORD-12-00108, 9-13-12)

Unemployment means the status of not having a job or employment. It does not mean, nor is it unlawful discrimination to inquire into or to consider or act upon, the facts and circumstances leading to the status or condition of unemployment. (Cr. by ORD-13-00211, 12-10-13)

(Am. by Ord. 10,556, Adopted 12-15-92; Ord. 12,039, 2-17-98; ORD-10-00096, 10-14-10; ORD-15-00039, 4-8-15)

(3) Reserved For Future Use. (Am. by Ord-07-00029, 3-15-07; ORD-10-00096, 10-14-10)

(4) Housing. It shall be an unfair discrimination practice and unlawful and hereby prohibited for any person having the right of ownership or possession or the right of transfer, sale, rental or lease of any housing, or the agent of any such person:

(a) To refuse to transfer, sell, rent or lease, to refuse to negotiate for the sale, lease, or rental or otherwise to make unavailable, deny or withhold from any person such housing because of such person's protected class membership, homelessness or status as a victim of domestic abuse, sexual assault, or stalking. Pursuant to Wis. Stat. § 66.0104(2), arrest record and conviction record are not considered protected classes for the purposes of this section; (Am. by Ord. 13,708, 10-12-04; ORD-07-00016, 2-22-07; ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-12-00108, 9-13-12; ORD-15-00062, 6-24-15)

(b) To make or cause to be made any written or oral inquiry or record concerning the nature of any disability of prospective occupants or tenants of such housing, or persons associated with them, unless such inquiry or record is necessary for compliance with applicable local, state, or federal law or; (Am. by Ord. 10,605, 3-19-93)

(c) To falsely represent that a dwelling is not available for inspection, sale, or rental because of such person's protected class membership, homelessness or status as a victim of domestic abuse, sexual assault, or stalking; or other tenants in such a manner as to diminish their enjoyment of the premises by adversely affecting their health, safety and welfare. A person who has received written notice from the Madison Police Department that a drug nuisance under Wis. Stat. § 823.113, exists on property for which the person is responsible as owner may take action to eliminate the nuisance, including but not limited to, eviction of residents, provided such action is not a subterfuge to evade the provisions of this ordinance. Pursuant to Wis. Stat. § 66.0104(2), arrest record and conviction record are not considered protected classes for the purposes of this section. (Am. by ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-12-00108, 9-13-12; ORD-15-00062, 6-24-15)

(d) To discriminate against any person because of such person's protected class membership, homelessness or status as a victim of domestic abuse, sexual assault, or stalking; in the terms, conditions or privileges pertaining to the transfer, sale, rental or lease of any housing, or in the furnishing of facilities or services in connection therewith, or in any other manner. Pursuant to Wis. Stat. § 66.0104(2), arrest record and conviction record are not considered protected classes for the purposes of this section.

1. A person who has received written notice from the Madison Police Department that a drug nuisance under Wis. Stat. § 823.113, exists on property for which the person is responsible as owner may take action to

eliminate the nuisance, including but not limited to, eviction of residents, provided such action is not a subterfuge to evade the provisions of this ordinance.

2. No Private Cause of Action. Except for claims by or on behalf of individuals protected from prohibited discrimination hereunder, the Common Council does not intend this Subdivision, 39.03(4)(d), to create a private right of action based upon a claim of personal injury or property damage arising from a landlord's good faith compliance with this Subdivision. This provision is not intended either to expand or to limit rights provided by local, state or federal equal opportunities laws. (Am. by Ord. 12,637, 7-7-00)

(Sec. 3.23(4)(d) Am. by Ord. 11,224, 4-13-95; Ord. 12,501, 11-19-99; Reconsidered & Adopted by Ord. 12,561, 4-7-00; Am. by ORD-12-00108, 9-13-12; ORD-15-00062, 6-24-15)

(e) Nothing in this ordinance shall affect any person's decision to share occupancy of a lodging room, apartment or dwelling unit with another person or persons. For purposes of this subdivision, the terms lodging room, apartment, and dwelling unit have the meaning contained in Sec. 27.03 of these ordinances.

(f) Reserved For Future Use. (Am. by ORD-10-00096, 10-14-10)

(g) For any person to post, print, broadcast or publish or cause to be posted, printed, broadcast or published, any notice or advertisement relating to the transfer, sale, rental or lease of any housing which expresses preference, limitation, specifications or discrimination as to any protected class membership, homelessness, the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law or status as a victim of domestic abuse, sexual assault, or stalking. (Am. by ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-15-00062, 6-24-15)

(h) For any person, for profit, to induce or attempt to induce a person to sell or rent a dwelling by representations regarding the entry or prospective entry into the neighborhood of a person or persons of a particular protected class membership, homelessness, the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law or status as a victim of domestic abuse, sexual assault, or stalking.

In establishing a discriminatory housing practice under this section, it is not necessary that there was in fact profit as long as profit was a factor for engaging in the blockbusting activity. (Sec. 3.23(4)(h) R. and (i) Renumbered to (h) by Ord. 12,039, Adopted 2-17-98; Am. by ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-15-00062, 6-24-15)

(i) For any person to deny any person access to or membership or participation in any multiple listing service, real estate brokers' organization or other service organization or facility relating to the business of selling or renting dwellings, or to discriminate against any person in the terms or conditions of such access, membership or participation on account of the person's protected class membership, homelessness, the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law or status as a victim of domestic abuse, sexual assault, or stalking. (Renumbered by Ord. 12,039, Adopted 2-17-98; Am. by ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-15-00062, 6-24-15)

(j) For any person or other entity whose business includes engaging in residential real estate related transactions to discriminate against any person in making available such a transaction, or in the terms or conditions of such a transaction, because of a person's protected class membership, homelessness, the fact that a person declines to disclose their Social Security Number when such disclosure is not

compelled by state or federal law or status as a victim of domestic abuse, sexual assault, or stalking. As used in this subdivision the term "residential real estate related transaction" means any of the following:

1. The making or purchasing of loans or providing other financial assistance
   a. For purchasing, constructing, improving, repairing, or maintaining a dwelling; or
   b. Secured by residential real estate.
2. The selling, brokering, or appraising of residential real property.

   Nothing in this section prohibits a person engaged in the business of making or furnishing appraisals of residential real property from taking into consideration factors other than protected class membership, homelessness, the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law or status as a victim of domestic abuse, sexual assault or stalking.

(Renumbered by Ord. 12,039, Adopted 2-17-98; Am. by ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-15-00062, 6-24-15)

(k) In this subsection, prohibited discrimination includes discrimination because of the protected class membership, homelessness, the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law or status as a victim of domestic abuse, sexual assault, or stalking of:

1. The buyer, renter, or applicant; or
2. A person residing in or intending to reside in a dwelling after it is sold, rented, or made available.

(Am. and Renumbered by Ord. 12,039, Adopted 2-17-98; ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10; ORD-15-00062, 6-24-15)

(l) For purposes of this subsection, discrimination includes:

1. A refusal to permit, at the expense of the person with a handicap/disability, reasonable modifications of existing premises occupied or to be occupied by such person if such modifications may be necessary to afford such person full enjoyment of the premises; provided:
   a. In the case of a rental, the landlord may, where it is reasonable to do so, condition permission for a modification on the renter agreeing to restore the interior of the premises to the conditions that existed before the modification, reasonable wear and tear excepted; but only if the modifications limit usability of the premises by future tenants. The landlord may not increase, for persons with a handicap/disability, any customarily required security deposit.
   b. A landlord may condition permission for a modification on the renter providing a reasonable description of the proposed modifications as well as reasonable assurances that the work will be done in a workmanlike manner and that any required building permits will be obtained; or
   c. Landlords may require escrow accounts where it is necessary in order to insure, with reasonable certainty, that funds will be available to pay for the restorations at the end of the tenancy. The landlord may negotiate as part of such a restoration agreement a provision requiring that the tenant pay into an interest bearing escrow account over a reasonable period (not to exceed the length of the lease), a reasonable amount of money, not to exceed the cost of restorations. The interest in any such account shall accrue to the benefit of the tenant. Failure by the landlord to utilize escrow

funds for restoration of the premises within ninety days of the termination of the tenancy constitutes a forfeiture of the escrow fund, which shall revert to the tenant.

d. A landlord may not require further restoration if the modifications satisfy either Uniform Federal Accessibility Standards or Wis. Admin. Code SPS 352.04. (Am. by ORD-12-00035, 3-28-12)

e. No landlord may require the restoration of modifications made to public and common use portions of the premises if the modification was necessary to make those portions readily accessible to and usable by persons with handicaps/disabilities.

2. A refusal to make reasonable accommodations in rules, policies, practices, or services, when such accommodations may be necessary to afford persons with a handicap/disability equal opportunity to use and enjoy a dwelling; or

3. In connection with the design and construction of covered multifamily dwellings as defined in 24 C.F.R. Sec. 100.201 for first occupancy after March 13, 1991, a failure to design and construct those dwellings in such a manner that:

a. The dwellings have at least one building entrance on an accessible route, unless it is impractical to do so because of the terrain or unusual characteristics of the site;

b. With respect to dwellings with a building entrance on an accessible route:

i. The public use and common use portions of such dwellings are readily accessible to and usable by handicapped/ disabled persons with disabilities;

ii. All the doors designed to allow passage into and within all premises within such dwellings are sufficiently wide to allow passage by persons in wheelchairs; and

iii. All premises within such dwellings contain the following features of adaptive design:

A. An accessible route into and through the dwelling;

B. Light switches, electrical outlets, thermostats, and other environmental controls in accessible locations;

C. Reinforcements in bathroom walls to allow later installation of grab bars; and

D. Usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space.

(Am. by ORD-06-00099, 8-2-06)

4. Paragraph 3. applies to covered multi-family dwellings, as defined in Subsec. (2)(g) of this ordinance, designed and constructed for first occupancy after thirty (30) months after the date of enactment of this ordinance.

5. Compliance with either the Uniform Federal Accessibility Standards, or Wis. Admin. Code § SPS 352.04, whichever standard provides the greater degree of accessibility, shall constitute compliance with paragraph 3. (Am. by ORD-12-00035, 3-28-12)

(Renumbered by Ord. 12,039, Adopted 2-17-98)

(m) The prohibition in this section against protected class membership discrimination based on age and familial status does not apply to housing for older persons.

1. As used in this subdivision, housing for older persons means housing

a. Provided under any state or federal program that is specifically designed and operated to assist elderly persons (as defined in the state or federal program); or

b. Intended for, and solely occupied by, persons 62 years of age or older; or

c. Intended and operated for occupancy by at least one person 55 years of age or older per unit. Housing for older persons under this paragraph shall contain at least the following factors:

i. Significant facilities and services specifically designed to meet the physical or social needs of older persons, as those are defined in Sec. 101.22(1m)(u) Wis. Stats. (1991-92).

ii. All of the units are occupied by at least one person 55 years of age or older; provided that, if the qualifying tenant ceases to reside in the unit, the remaining occupants may not be required to vacate the unit, as long as at least 80% of all the units are occupied by at least one person 55 years of age or older.

iii. The publication of, and adherence to, policies and procedures which demonstrate an intent by the owner or manager to provide housing for persons 55 years of age or older.

2. Housing shall not fail to meet the requirements for housing for older persons by reasons of:

a. Persons residing in such housing as of September 13, 1988, who did not meet the age requirements of Paragraph 1.b. or c. above, provided that new occupants of such housing meet the age requirements of Paragraph 1.b. or c.; or

b. Unoccupied units, provided that such units are reserved for occupancy by persons who meet the age requirements of Paragraph 1.b. or c. above.

(Renumbered by Ord. 12,039, Adopted 2-17-98; ORD-10-00096, 10-14-10)

(n) It is not a violation of this ordinance to restrict occupancy in a dwelling to persons with handicaps/disabilities or to provide housing for older persons as such housing is defined above.

(Renumbered by Ord. 12,039, Adopted 2-17-98)

(o) It is the intention of the Common Council that this subsection be interpreted consistently with Title VIII of the Civil Rights Act of 1968 (42 USC Sec. 3601-3619) as amended, and with regulations applicable thereto (24 CFR Parts 100, 103, 109, 110, 115, and 121) except where the language of this subsection clearly requires a different interpretation.

(Renumbered by Ord. 12,039, Adopted 2-17-98)

(Sec. 3.23(4) Am. by Ord. 10,556, Adopted 12-15-92; Ord. 12,039, Adopted 2-17-98)

(5) Public Place of Accommodation or Amusement. All persons shall be entitled to the full and equal enjoyment of the goods, services, facilities, privileges, advantages and accommodations of any place of public accommodation or amusement, as defined in this ordinance, without discrimination or segregation as to the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or

federal law or upon the basis of a person's protected class membership (other than a person's genetic identity). It shall be an unfair discrimination practice and unlawful and hereby prohibited:

(a) For any person to deny to another, or charge another a different price from the rate charged others for the full and equal enjoyment of any public place of accommodation or amusement because of the person's protected class membership (other than a person's genetic identity), homelessness or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law. Organizations which operate public accommodations and which sell memberships based on family status shall provide the same benefits to domestic partnerships as are provided to other families. (Am. by Ord, 10,039, 6-14-90; ORD-15-00062, 6-24-15)

(b) For any person to directly or indirectly publish, circulate, display, mail or otherwise disseminate any written communication which s/he knows is to the effect that any of the facilities of any public place of accommodation or amusement will be denied to any person by reason of her/his protected class membership (other than a person's genetic identity), homelessness or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law, or that the patronage of a person is unwelcome, objectionable or unacceptable for any of these reasons. (Am. by Ord. 10,039, 6-14-90; ORD-15-00062, 6-24-15)

(c) Subsection (5) does not prohibit special services, rates or benefits provided to any person because she or he is fifty (50) years old or older. (Sec. 3.23(c) R. and (d) Renumbered to (c) by Ord. 12,039, Adopted 2-17-98)

(Sec. 3.23(5) Am. by Ord. 12,039, Adopted 2-17-98; Ord. 13,708, 10-12-04; ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10)

(6) Access by Persons with Disabilities to Public Accommodations and Commercial Facilities.

(a) No individual shall be discriminated against on the basis of disability, or because of the known disability of an individual with whom the individual or entity is known to have a relationship or association, in the full and equal enjoyment of the goods, services, facilities, privileges, advantages, or accommodations of any place of public accommodation by any person who owns, leases (or leases to another), or operates a place of public accommodation.

1. Denial of Participation. It shall be prohibited discrimination to subject an individual, on the basis of a disability or disabilities of such individual, directly, or through contractual, licensing, or other arrangements, to a denial of the opportunity of the individual to participate in or benefit from the goods, services, facilities, privileges, advantages, or accommodations of an entity.

2. Participation in Unequal Benefit. It shall be prohibited discrimination to afford an individual, on the basis of a disability or disabilities of such individual, directly, or through contractual, licensing, or other arrangements with the opportunity to participate in or benefit from a good, service, facility, privilege, advantage, or accommodation that is not equal to that afforded to other individuals.

3. Separate Benefit. It shall be prohibited discrimination to provide an individual, on the basis of a disability or disabilities of such individual, directly, or through contractual, licensing, or other arrangements with a good, service, facility, privilege, advantage, or accommodation that is different or separate from that provided to other individuals, unless such action is necessary to provide the individual with a good, service, facility, privilege, advantage, or accommodation, or other opportunity that is as effective as that provided to others.

(b) Integrated Settings. Goods, services, facilities, privileges, advantages, and accommodations shall be afforded to an individual with a disability in the most integrated setting appropriate to the needs of the individual.

(c) Opportunity to Participate. Notwithstanding the existence of separate or different programs or activities provided in accordance with this section, an individual with a disability shall not be denied the opportunity to participate in such programs or activities that are not separate or different.

(d) Administrative Methods. A person shall not, directly or through contractual or other arrangements, utilize standards or criteria or methods of administration:

1. that have the effect of discriminating on the basis of disability; or
2. that perpetuate the discrimination of others who are subject to common administrative control.

(e) Specific Prohibitions. For purposes of Subdivision (a) above, prohibited discrimination includes:

1. The imposition or application of eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully and equally enjoying any goods, services, facilities, privileges, advantages, or accommodations, unless such criteria can be shown to be necessary for the provision of the goods, services, facilities, privileges, advantages, or accommodations being offered;
2. A failure to make reasonable modifications in policies, practices, or procedures, when such modifications are necessary to afford such goods, services, facilities, privileges, advantage, or accommodations to individuals with disabilities, unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such goods, services, facilities, privileges, advantages, or accommodations;
3. A failure to take such steps as may be necessary to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated differently than other individuals because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally alter the nature of the good, service, facility, privilege, advantage, or accommodation being offered or would result in an undue burden;
4. A failure to remove architectural barriers, and communication barriers that are structural in nature, in existing facilities where such removal is readily achievable; and
5. Where an entity can demonstrate that the removal of a barrier under Paragraph 4. is not readily achievable, a failure to make such goods, services, facilities, privileges, advantages, or accommodations available through alternative methods if such methods are readily achievable.

(f) New Construction and Alterations in Public Accommodations and Commercial Facilities. Except as provided in Subdivision (h), as applied to public accommodations and commercial facilities, discrimination for purposes of Subsection (6)(a) of this ordinance includes:

1. A failure to design and construct facilities for first occupancy later than ninety (90) days after the date of enactment of this ordinance that are readily accessible to and usable by individuals with disabilities, except where a respondent can demonstrate that it is structurally impracticable to meet the requirements of such Subsection.
2. With respect to a facility or part thereof that is altered by, on behalf of, or for the use of an establishment in a manner that affects or could affect the usability of the facility or part thereof, a failure to make alterations in such a manner that, to the maximum extent feasible, the altered portions of the

facility are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. Where the entity is undertaking an alteration that affects or could affect usability of or access to an area of the facility containing a primary function, the entity shall also make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope.

(g) Elevator. Subdivision (f) above shall not be construed to require the installation of an elevator for facilities that are less than three stories or have less than 3,000 square feet per story unless the building is a shopping center, a shopping mall, or the professional office of a health care provider.

(h) Exemptions for Private Clubs and Religious Organizations. The provisions of this Subsection (6) of this ordinance shall not apply to private clubs or organizations exempted from coverage under Sec. 39.03(2) above or to religious organizations or entities controlled by religious organizations, including places of worship, to the extent that requiring compliance would violate state or federal law. (Am. by ORD-15-00039, 4-8-15)

(Cr. by Ord. 12,039, Adopted 2-17-98)

(7) City Facilities. It shall be an unfair discrimination practice and unlawful and hereby prohibited for any person, public official, employee, agent, agency, authority, board, commission or committee of the City of Madison to deny any person, the use of City facilities or otherwise discriminate against any person in the use of City facilities because of such person's protected class membership or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law.

(Renumbered by Ord. 12,039, Adopted 2-17-98; ORD-07-00029, 3-15-07; ORD-10-00096, 10-14-10)

(8) Employment Practices. It shall be an unfair discrimination practice and unlawful and hereby prohibited:

(a) For any person or employer individually or in concert with others to fail or refuse to hire or to discharge any individual, or otherwise to discriminate against any individual with respect to her/his compensation, terms, conditions, or privileges of employment, because of such individual's protected class membership, unemployment, homelessness or credit history or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law. Provided, that an employer who is discriminating with respect to compensation in violation of this subsection, shall not, in order to comply with this subsection, reduce the wage rate of any employee. (Am. by ORD-13-00211, 12-10-13; ORD-15-00062, 6-24-15)

(b) For any person or employer individually or in concert with others to limit, segregate, or classify his or her employees or applicants for employment in any way which would deprive or tend to deprive any individual of employment opportunities or otherwise adversely affect his or her status as an employee, because of such individual's protected class membership, unemployment, homelessness or credit history; or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law. (Am. by ORD-13-00211, 12-10-13; ORD-15-00062, 6-24-15)

(c) For any employment agency to fail or refuse to refer for employment, or otherwise to discriminate against, any individual on the basis of his or her protected class membership, unemployment, homelessness or credit history; or the fact that a

person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law. (Am. by ORD-13-00211, 12-10-13; ORD-15-00062, 6-24-15)

(d) For any labor organization:

1. To exclude or to expel from its membership, or otherwise to discriminate against, any individual because of his or her protected class membership, unemployment, homelessness or credit history or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law.
2. To limit, segregate, or classify its membership or applicants for membership, or to classify or fail or refuse to refer for employment any individual, in any way which would deprive or tend to deprive any individual of employment opportunities, or would limit such employment opportunities or otherwise adversely affect his or her status as an employee or as an applicant for employment, because of such individual's protected class membership, unemployment, homelessness or credit history or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law.
3. To cause or attempt to cause an employer to discriminate against an individual in violation of this section.

(Am. by ORD-13-00211, 12-10-13; ORD-15-00062, 6-24-15)

(e) For any person or employer, labor organization or employment agency to print or publish or cause to be printed or published any notice or advertisement relating to employment by such an employer or membership in or any classification or referral for employment by such a labor organization, or relating to any classification or referral for employment by such an employment agency, indicating any preference, limitation, specification, or discrimination, based on any protected class membership, unemployment, homelessness or credit history or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law, except that such a notice or advertisement may indicate a preference, limitation, specification or discrimination based on religion or nonreligion, sex, age, handicap, arrest or conviction record or national origin when religion or nonreligion, sex, age, handicap, or national origin is a bona fide occupational qualification for employment or when an employer may lawfully consider or rely upon such arrest or conviction record pursuant to Sections 39.03(8)(i)3. through 39.03(8)(i)6., MGO. (Sec. 3.23(7)(e) R. and (f) Renumbered to (e) by Ord. 8297, 4-5-84; Am. by Ord. 13,339, 6-7-03; Am. by ORD-13-00211, 12-10-13; ORD-15-00039, 4-8-15; ORD-15-00062, 6-24-15)

(f) 1. For any person or employer, employment agency or labor organization to request an applicant, employee, member or any other person, on an application form or otherwise, to supply information regarding any credit history; or arrest record, except a record of a pending charge, of the applicant, employee or member; except that it shall not be discrimination to request such information of applicants for employment as law enforcement officers, or when an employer may lawfully consider or rely upon such arrest or conviction record pursuant to Secs. 39.03(8)(i)3. through 39.03(8)(i)6., MGO.

2. For any person or employer, or employment agency or labor organization to request an applicant, employee, member or any other person, on an application form or otherwise, to supply any information regarding the applicant, employee or person's Social Security Number, when such disclosure is not compelled by state or federal law. (Renumbered by Ord. 8297, 4-5-84; Am. by Ord. 13,339, 6-7-03)

(g) For any person or employer, employment agency or labor organization to refuse to reasonably accommodate an employee's or prospective employee's handicap unless the employer can demonstrate that the accommodation would pose an undue hardship on the employer's program, enterprise or business. (Cr. by Ord. 8297, 4-5-84)

(h) Religion or Nonreligion; Exceptions and Special Cases.

1. Employment discrimination because of religion or nonreligion includes, but is not limited to, refusing to reasonably accommodate an employee's or prospective employee's religious observance or practice unless the employer can demonstrate that the accommodation would pose an undue hardship on the employer's program, enterprise or business.

2. It is not employment discrimination because of religion or nonreligion for a religious or nonreligion association not organized for private profit or an organization or corporation which is primarily owned or controlled by such religious or nonreligion association to give preference to an applicant or employee who is a member of the same or a similar religious denomination or nonreligion association, in hiring or promotion to an instructional or policy-making position, including but not limited to the position of chaplain or counselor.

3. It is not employment discrimination because of religion for a fraternal as defined in Sec. 614.01(1) Wisconsin Statutes, to give preference to an employee or applicant who is a member or is eligible for membership in the fraternal, with respect to hiring to or promotion to the position of officer, administrator or salesperson.

(Cr. by Ord. 8297, 4-5-84; Am. by ORD-15-00039, 4-8-15)

(i) Notwithstanding any other provision of this section, it shall not be an unlawful employment practice for an employer to hire and employ employees, for an employment agency to classify, or refer for employment any individual, for a labor organization to classify its membership or to classify or refer for employment any individual, or for an employer or a labor organization to admit or employ any individual in those certain instances where sex, age, or national origin is a bona fide occupational qualification reasonably necessary to the normal operation of that particular business or enterprise. (Am. by Ord. 8297, 4-5-84)

1. It shall not be unlawful age discrimination to observe the terms of a bona fide seniority system or any bona fide employee benefit plan such as a retirement, pension, or insurance plan, which is not a subterfuge to evade the purposes of this section, except that no such employee benefit plan shall excuse the failure to hire any person.

2. Discrimination because of an individual's disability is not prohibited if the employer, labor organization, or employment agency can show that the individual's disability is reasonably related to the individual's ability to adequately undertake the job-related responsibilities of that individual's employment. It is prohibited discrimination for an employer to contribute a lesser amount to the fringe benefits, including life or disability insurance coverage, of an employee because of he/she has a disability. (Am. by ORD-06-00099, 8-2-06)

3. Discrimination because of arrest record or conviction record is not prohibited if the employer, licensing authority, labor organization, or employment agency can show that the employee or applicant

a. Is subject to a pending criminal charge and the circumstances of the charge substantially relate to the circumstances of the particular job;

b. Has been within the past three (3) years placed on probation, paroled, released from incarceration, or paid a fine, for a felony, misdemeanor, or other offense, the circumstances of which substantially relate to the circumstances of the particular job or licensed activity; (Am. by Ord. 13,339, 6-7-03)

c. Is not bondable under a standard fidelity bond or an equivalent bond where such bondability is required by state, federal or local law, administrative regulation or previously established business practice of the employer.

d. Is not eligible for licensing or a permit under state, federal or local law or administrative regulation due to a pending criminal charge or conviction for which the employee or applicant has not been pardoned, and where such license or permit is required for the position the employee holds or for which the applicant is applying. (Cr. by Ord. 13,339, 6-7-03)

4. It is not employment discrimination because of conviction record to deny or to refuse to issue a license or permit under the Madison General Ordinances if the person applying for or holding the license or permit has a pending criminal charge the circumstances of which substantially relate to the circumstances of the licensed activity or permit; or has been convicted of a felony, misdemeanor or other offense the circumstances of which substantially relate to the circumstances of the licensed activity, and has not been pardoned for that felony, misdemeanor, or other offense. (Cr. by Ord. 13,339, 6-7-03)

5. It is not employment discrimination because of conviction record to refuse to employ a person in a business licensed under Wis. Stat. § 440.26, or as an employee specified in Wis. Stat. § 440.26(5)(b), if the person has been convicted of a felony and has not been pardoned for that felony. (Cr. by Ord. 13,339, 6-7-03)

6. It is not employment discrimination because of conviction record to refuse to employ as an installer of burglar alarms a person who has been convicted of a felony and has not been pardoned. (Cr. by Ord. 13,339, 6-7-03)

7. Discrimination because of credit history is not prohibited if the employer, licensing authority, labor organization, or employment agency can show that:

a. The circumstances of an individual's credit history are substantially related to the circumstances of a particular job or licensed activity;

b. Employment, membership, or licensing depends on the bondability of the individual under a standard fidelity bond or when an equivalent bond is required by the state or federal law, administrative regulation, or established business practice of the employer and the individual may not be bondable due to his or her credit history;

(Sec. 3.23(7)(h) Renumbered to (i) by Ord. 8297, 4-5-84)

(j) Nothing contained in this section shall be interpreted to prohibit any employer from considering an individual's less than honorable discharge in cases where the circumstances of the discharge are substantially related to the circumstances of the particular job. However, in no case may an employer consider a less than honorable discharge that was made administratively and not pursuant to a court martial.

(Renumbered by Ord. 8297, 4-5-84)

(k) No employer, labor organization or employment agency shall engage in sexual harassment and employers shall ensure that all of their employees work in an environment free of sexual harassment.

1. An employer, labor organization or employment agency violates this ordinance when (1) an employee's acquiescence in or submission to sexual harassment is made either explicitly or implicitly a term or condition of his/her employment, (2) an employee's acquiescence in or submission to sexual harassment is used as the basis or any part of the basis for employment decisions affecting the employee other than an employment decision that is disciplinary action against an employee for engaging in sexual harassment in violation of this paragraph, or (3) sexual harassment has the purpose or effect of substantially interfering with an employee's work performance or of creating an intimidating, hostile, or offensive work environment. (Am. by Ord. 12,039, Adopted 2-17-98)

2. Substantial interference with an employee's work performance or creation of an intimidating, hostile or offensive work environment is established when the conduct is such that a reasonable person under the same circumstances as the employee would consider the conduct sufficiently severe or pervasive to interfere substantially with the person's work performance or to create an intimidating, hostile or offensive work environment. (Cr. by Ord. 12,039, Adopted 2-17-98)

3. An employer, employment agency or labor organization is presumed responsible for its acts and those of its agents and supervisory employees with respect to sexual harassment regardless of whether the specific acts complained of were authorized by the employer. (Renumbered by Ord. 12,039, 2-17-98)

4. An employer, employment agency or labor organization is responsible for acts of sexual harassment of its employees by persons other than its agents or supervisory employees, including, but not limited to, acts by customers and co-workers, (1) if the act occurs while the complaining employee is performing service growing out of and incidental to his/her employment and (2), if the employer or its agents or supervisory employees knew or should have known of the conduct. (Renumbered by Ord. 12,039, 2-17-98)

5. It is the intent of this ordinance that timely filed complaints of sex discrimination in employment based on acts occurring before adoption of these provisions and based on conduct similar or identical to "sexual harassment" as defined above not be barred by the adoption of these provisions. (Renumbered by Ord. 12,039, 2-17-98)

(l) Notwithstanding any other provision of this section, it shall not be an unlawful employment practice for an employer to apply different standards of compensation, or different terms, conditions or privileges of employment pursuant to a bona fide seniority or merit system, or a system which measures earnings by quantity, or quality of production or to employees who work in different locations, provided that such differences are not the result of an intention to discriminate because of protected class memberships or unemployment, or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law.

(Renumbered by Ord. 8297, 4-5-84; Am. by ORD-13-00211, 12-10-13)

(m) Nothing contained in this section shall be interpreted to require any employer, employment agency or labor organization to grant preferential treatment to any individual or to any group because of the protected class membership or

unemployment of any person or the fact that a person declines to disclose their Social Security Number when such disclosure is not compelled by state or federal law. (Renumbered by Ord. 8297, 4-5-84; Am. by ORD-13-00211, 12-10-13)

(Renumbered by Ord. 12,039, Adopted 2-17-98; Am. by ORD-07-00029, 3-15-07)

(n) Equal Opportunities Commission Employment Subcommittee. The EOC Employment Committee shall consist of 15 maximum voting members including one member of the Equal Opportunities Commission. Additional persons may participate as non-voting members. Membership of the Employment Committee is open to a City of Madison company, business or non-profit designee and to individual representatives. Members may be non-residents of the City of Madison. (Cr. by ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; Am. by ORD-09-00147, 11-6-09)

(Am. by ORD-10-00096, 10-14-10)

(9) It shall be an unfair discrimination practice and unlawful and hereby prohibited:

(a) For any person to aid, abet, incite, compel or coerce the doing of any act which violates this ordinance or obstructs or prevents any person from complying with the provisions of this ordinance; and for any person or employer, employment agency or labor organization, whether individually or in concert with others, to discharge, harass, intimidate, or otherwise discriminate against any person because he or she has opposed any discriminatory practices under this ordinance or because he or she has made a complaint, testified or assisted in any proceeding under this ordinance.

(Am. by Ord. 10,556, Adopted 12-15-92)

(b) For any person to intimidate, threaten, harass, or interfere with any person in the exercise or enjoyment of, or on account of that person having exercised or enjoyed, or on account of that person having aided or encouraged any other person in the exercise or enjoyment of, any right granted or protected by this ordinance.

(c) For any person or entity subject to regulations under this ordinance to engage in any acts prohibited in Sec. 39.03 et seq of the Madison General Ordinances against any individual because of the person's association with any member of any protected class membership. (Cr. by Ord. 12,039, Adopted 2-17-98; Am. by ORD-10-00096, 10-14-10)

(Renumbered and Am. by Ord. 12,039, Adopted 2-17-98; Am. by ORD-07-00029, 3-15-07)

(10) Equal Opportunities Commission and Equal Opportunities Division. The Mayor, subject to confirmation by the Common Council, shall appoint an Equal Opportunities Commission, consisting of thirteen (13) members, one of whom shall be designated President by the members of the Commission. At least one, and no more than two, such members shall be an Alderperson, who shall be a member only as long as she/he shall continue to hold office as Alderperson. Members shall be appointed from among the residents of the entire City, shall be representative of the rich diversity of our community and include as many protected class memberships as is possible and shall be persons committed to the principle of equal opportunities. They shall receive no compensation for their services. There shall also be an Equal Opportunities Division established within the Department of Civil Rights, headed by an Equal Opportunity Division Head as that position is established and set forth in Sec. 39.01(2), MGO. (Am. by Ord. 12,244, 11-3-98; Ord. 12,933, 12-11-01; ORD-05-00204, 1-3-06; ORD-06-00078, 6-30-06; ORD-07-00114, 9-22-07)

(a) Reserved For Future Use. (Am. by ORD-10-00096, 10-14-10)

(b) The Equal Opportunities Commission shall have the following powers and duties:

1. To study the existence, character, causes and extent of the denial of equal opportunity because of biases, prejudices, social or institutionalized passive and active forms of discrimination or harassment that occurs

either in favor of or to the detriment of any protected class or other unfair classification in the greater Madison community. (Am. by ORD-13-00211, 12-10-13)

2. To informally recommend solutions to individual problems that may arise which involve the denial of equal opportunities because of protected class or other class memberships. (Am. by ORD-06-00099, 8-2-06; ORD-07-00029, 3-15-07; ORD-13-00211, 12-10-13)
3. To disseminate information and provide technical assistance, consultation, training programs and other techniques to educate the people of the City of Madison and to aid both private and public agencies to use their resources to promote equal opportunities for all persons.
4. To receive and initiate complaints alleging violation of this ordinance and to attempt to eliminate or remedy any violation by means of conciliation, persuasion, education, litigation, or any other means, to make the complainant whole again.
    a. In case agreement is reached, a conciliation agreement in writing shall be signed by the complainant and respondent and approved by the President of the Equal Opportunities Commission. The signed conciliation agreement shall have the effect of a Commission order.
    b. Except as provided in Wis. Stat. § 904.08, and in 24 CFR Sec. 103.330, nothing that is said or done in the course of conciliation proceedings may be made public or used as evidence in a subsequent administrative hearing or civil action under this ordinance, under Title VIII of the Civil Rights Act of 1968, or under Wis. Stat. § 101.22 et seq, (1991-92), without the written consent of the parties.
    c. Any conciliation agreement is a public record and subject to inspection as provided in Wis. Stat. § 19.35, and Sec. 3.42 of these ordinances, unless the parties to the agreement request that the record be exempt from disclosure and the Equal Opportunities Division Head determines in accordance with the Wisconsin Public Records Laws that it would be clearly contrary to the public's interests to disclose such conciliation agreement. (Am. by ORD-06-00078, 6-30-06)

(Sec. 3.23(10)(b)4. Am. by Ord. 10,556, Adopted 12-15-92; Ord. 12,039, Adopted 2-17-98)

5. Notwithstanding the provisions of Sec. 39.03(10)(c)1. to the contrary, to test and investigate for the purpose of establishing violations of Section 39.03 of these ordinances and, if appropriate, to make, sign, and file complaints alleging violations thereof. (Cr. by Ord. 12,039, 2-17-98)
6. To render from time to time, but not less that once a year, written report of its activities and recommendations to the Mayor and the Common Council.
   (Renumbered by Ord. 12,039, 2-17-98)
7. To adopt such rules and regulations as may be necessary to carry out the purpose and provisions of this ordinance. (Renumbered by Ord. 12,039, 2-17-98)
8. To issue subpoenas pursuant to Wis. Stat. § 885.01 to assist in the execution of its duties. (Renumbered by Ord. 12,039, 2-17-98)
9. The Commission may, from time to time, designate Commissioners and/or Equal Opportunities Division staff to carry out its duties.
   (Renumbered by Ord. 12,039, 2-17-98; Am. by ORD-06-00078, 6-30-06)

(c) Except as provided in Sec. 39.03(10)(d), the Equal Opportunities Commission shall use the following procedures in acting on complaints of discrimination:

1. Limitations, Copies of Rules and Affirmative Defense.

a. The Commission shall not accept any complaint filed more than three hundred (300) days after the alleged discrimination occurred, except that complaints of housing discrimination may be filed up to one (1) year after the alleged discrimination occurred. The Commission shall not investigate any complaint unless it is in writing and verified by the complainant, and a copy of the complaint is sent to the person or persons complained of, hereinafter referred to as respondent.

b. Upon receipt of a verified complaint, both the complainant and the respondent shall be advised that copies of the Commission rules governing hearing procedures and the processing of complaints are available at the office of the Director of the Department of Civil Rights.

c. It shall be an affirmative defense to any alleged violation of any provision of this ordinance that compliance with any provision herein would constitute a violation of a State or Federal statute, regulation or executive order. Any person asserting such an affirmative defense shall maintain upon their premises a copy of the State or Federal statute, regulation or order they are relying upon to establish this affirmative defense and shall make the same available upon request to the Commission and to any person whom has been affected by such person's reliance upon such State or Federal statute, regulation or executive order.

(Am. by Ord. 10,556, Adopted 12-15-92; Ord. 12,039, Adopted 2-17-98; Am. by ORD-06-00078, 6-30-06)

2. Hearings.

a. If the Commission finds probable cause to believe that any discrimination has been or is being committed, it shall immediately endeavor to eliminate the practice by conference, conciliation or persuasion. In case of failure so to eliminate the discrimination, the Commission shall issue and serve a written notice of hearing, specifying the nature of the discrimination which appears to have been committed, and requiring the respondent to answer the complaint in writing within ten (10) days after receipt of the notice of hearing and to appear at the hearing on the appointed date. The notice shall specify a time of hearing not less than thirty (30) days after service of the notice of hearing. The testimony at the hearing shall be recorded.

b. If, after hearing, the Commission finds that the respondent has engaged in discrimination, it shall make written findings and order such action by the respondent as will redress the injury done to complainant in violation of this ordinance, bring respondent into compliance with its provisions and generally effectuate the purpose of this ordinance. Such remedies may include, but are not limited to, out of pocket expenses, economic and noneconomic damages including damages for emotional injuries and, in regard to discrimination in employment, both front and back pay. In regard to discrimination in public accommodations by the holder of an alcohol beverage license issued pursuant to Chapter 38 of these ordinances, the Commission shall relay its findings to the City

Attorney who shall commence a proceeding pursuant to Sec. 38.10 of these ordinances. The Commission may not order punitive damages.

Back pay liability shall not accrue from a date more than two (2) years prior to the filing of a complaint with the Commission. Interim earnings or amounts earnable with reasonable diligence by the person discriminated against, shall operate to reduce back pay otherwise allowable. Amounts received by the person as unemployment benefits or welfare payments shall not reduce the back pay allowable, but shall be withheld from the person discriminated against and immediately paid to the unemployment reserve fund or, in the case of a welfare payment, to the welfare agency making such payment.

The amendments to this subparagraph b. shall apply to all proceedings pending on or commenced after the effective date of this ordinance, ID No. 22735 in furtherance of the remedial purposes of the Equal Opportunities Ordinance, 39.03 et seq. of the Madison General Ordinances. (Am. by Ord. 12,039, Adopted 2-17-98)

c. The Commission shall serve a copy of its findings and order on the respondent.
(Am. by Ord. 12,039, Adopted 2-17-98)

d. If the Commission finds that the respondent has not engaged in discrimination as alleged in the complaint, it shall serve a copy of its findings on the complainant together with an order dismissing the complaint.

e. The Commission shall monitor, in such manner as it shall determine appropriate, compliance with its conciliation agreements and orders.

(Sec. 3.23(10)(c)(2) Am. By Ord. 12,039, 2-17-98)

3. Judicial Enforcement of Orders.

a. Whenever in the judgment of the Commission, the judicial enforcement of the ordinance is necessary, the Commission shall in writing request the City Attorney to enforce the ordinance in the name of the City of Madison.

b. Upon receipt of such request, the City Attorney shall have the power and duty to seek enforcement of the ordinance in a court of competent jurisdiction.

4. Judicial Review of Orders. Only those orders that explicitly state therein that they are final orders of the Equal Opportunities Commission shall be final administrative determinations for the purposes of appeal. Such orders shall be subject to certiorari review in court pursuant to the time limits and procedures set forth in Wis. Stat. § 68.13, which procedures are adopted and incorporated by reference. Such decisions are not reviewable under Sec. 9.49, MGO. In addition, written notice of any request for judicial review shall be given by the party seeking review to all parties who appeared at the proceeding, with said notice to be sent by first class mail to each party's last known address. (Am. by Ord. 12,039, Adopted 2-17-98)

5. Housing Discrimination Complaint Procedures. The following special procedures shall apply to complaints of housing discrimination:

a. If the Commission finds that a respondent has engaged in or is about to engage in a discriminatory act prohibited under Section 39.03(4) of these ordinances, the Commission shall make written

findings and shall promptly issue an order for such relief as may be appropriate, which may include economic and noneconomic damages suffered by the complainant, and injunctive or other equitable relief.

(Sec. 3.23(10)(c)5. Am. by Ord. 12,039, Adopted 2-17-98)

(d) The Equal Opportunities Commission shall use the following procedures in acting on complaints of discrimination filed against the City of Madison and the Community Development Authority.

1. Upon the receipt of a written, verified complaint naming the City of Madison or the Community Development Authority as a respondent, a copy of such complaint shall be served on the City Attorney, the Mayor, and the City Clerk.
2. If the Equal Rights Division of the Wisconsin Department of Workforce Development or the U.S. Department of Housing and Urban Development (HUD) has jurisdiction over the complaint, the Equal Opportunities Commission shall take no action, but shall refer the complaint to the Equal Rights Division or HUD for appropriate action as provided by law. If the U.S. Equal Employment Opportunity Commission or HUD has jurisdiction, a copy of the complaint shall be forwarded to that agency. The complainant shall be informed of all such referrals.
3. If state and federal agencies are without jurisdiction, the Equal Opportunities Commission shall follow the procedure provided in Sec. 39.03(10)(c) of this ordinance.

(Am. by Ord. 10,556, Adopted 12-15-92; Ord. 12,322, 2-2-99)

(Sec. 3.23(10)(e) R. by ORD-06-00078, 6-30-06)

(Sec. 39.03(10) Am. by ORD-10-00096, 10-14-10)

(11) Clerk to Register Domestic Partnerships.

(a) The City Clerk shall register as domestic partnerships all those persons who state, in an application, which shall be verified, that they meet the requirements contained in Sec. 39.03(2) of this ordinance, and pay a registration fee of twenty-five dollars ($25) to cover record keeping and other costs related to such registration. (Am. by ORD-15-00039, 4-8-15)

(b) The application shall include the applicants' agreement to notify the City Clerk of any change in the status of their domestic partner relationship.

(c) The Clerk shall provide each domestic partnership with a registration certificate, but no registration shall be made nor certificate issued, before the third working day after the date of the application.

(d) Registration as a domestic partnership is terminated on the 30th day after the Clerk receives and files written notice of termination from one or both domestic partners.

(Renumbered by Ord. 12,039, Adopted 2-17-98)

(12) Title. This ordinance shall be known as the Equal Opportunities Ordinance.

(Renumbered by Ord. 12,039, Adopted 2-17-98)

(13) At any time after a complaint is filed, the Director of the Department of Civil Rights may request the City Attorney to file an appropriate action before any city or state administrative agency with jurisdiction over offenses or violations set forth in such complaint and/or may request that the City Attorney file a civil action in the circuit court for Dane County, seeking appropriate temporary relief against the respondent, pending final action by the Commission under this section. Such relief may include an order or decree restraining the respondent from performing an act tending to render ineffectual an order the Commission may enter with respect to the complaint. The court may grant such temporary relief or restraining order as it deems just and proper. (Am. by ORD-10-00096, 10-14-10)

(Renumbered by Ord. 12,039, Adopted 2-17-98; Am. by ORD-06-00078, 6-30-06)

(14) Penalty.

(a) Any person violating any of the provisions of this section shall upon conviction be subject to a forfeiture of not less than one hundred dollars ($100) nor more than five hundred dollars ($500).

(b) Any person who shall fail or neglect to comply with any lawful order of the Equal Opportunities Commission issued pursuant to the provisions of this section shall be deemed guilty of a violation of this section, and every day or fraction thereof on which such person shall fail or neglect to comply with such order, shall be deemed a separate offense. (Am. by Ord. 11,183, Adopted 2-21-95; ORD-06-00078, 6-30-06; Renum. and Am. by ORD-10-00096, 10-14-10)

(Renumbered by Ord. 12,039, Adopted 2-17-98)

39.04 DISABILITY RIGHTS COMMISSION. (Am. by ORD-15-00086, 8-12-15)

(1) Organization. There is hereby created a Disability Rights Commission. (Am. by Ord. 12,880, 8-24-01; ORD-15-00086, 8-12-15)

(2) Membership. The Commission shall consist of thirteen (13) members. Twelve (12) resident members and one alderperson shall be appointed by the Mayor, subject to confirmation by the Common Council. Resident members shall be residents of the City of Madison and shall be knowledgeable and sensitive to the service needs, rights, and responsibilities of residents with disabilities. First priority for membership shall be given to people with disabilities, family members, and advocates. (Am. by ORD-05-00168, 11-8-05; ORD-07-00195, 12-20-07; ORD-17-00030, 3-8-17)

(3) (a) Terms. All members shall serve terms of three (3) years, commencing May 1, and expiring April 30, except that the term of the Alderperson member of the Commission shall expire with the expiration of her/his term as Alderperson. At the first regular Common Council meeting in April of each year, the Mayor shall appoint persons to fill terms which expire the following May 1. The Common Council shall either reject or confirm the appointments. Should the Council reject any appointment, the Mayor shall submit an alternative appointment as soon as possible. All members shall serve until a successor is appointed and qualifies. Vacancies shall be filled in the manner prescribed for original appointments but the vacancies shall be filled for the unexpired term only.

(b) (Repealed by ORD-05-00168, 11-8-05)

(Am. by Ord. 10,978, 9-14-94; Ord. 12,880, 8-24-01)

(4) Duties. The Disability Rights Commission shall have the following responsibilities:

(a) Recommend policy to the Mayor, Common Council and Department of Civil Rights in all areas that affect people with disabilities and their families. (Am. by Ord. 10,498, Adopted 8-18-92; Am. by ORD-06-00078, 6-30-06)

(b) Study and make recommendations to all City departments, committees, and commissions on proposals to provide better access to facilities and services for people with disabilities and their families.

(c) The Commission shall monitor and report violations of city ordinances and state laws pertaining to residents with disabilities to the appropriate agency.

(d) The Commission shall solicit comments and suggestions from residents and organized groups regarding the concerns of residents with disabilities.

(e) The Commission shall establish close working relationships with other City Boards, Commissions and Committees whose activities may affect people with disabilities.

(Am. by Ord. 12,880, 8-24-01; ORD-15-00086, 8-12-15; ORD-17-00030, 3-8-17)

(5) Meetings. The Commission shall meet at least once each month and shall conduct its business in accordance with rules which it may establish.

(6) Executive Committee. Each year the Commission shall meet as soon after May 1 as possible to elect a Chair and Vice-Chair and such other officers as the Commission may

determine. The Commission Chair shall appoint a Commission member as Chair of any other committees. The Executive Committee shall consist of all Commission officers, committee Chairs and other commission members as appointed by the Chair. The Executive Committee shall have responsibilities as assigned by the Commission. (Am. by Ord. 12,880, 8-24-01)

(7) Staff. The Commission shall receive staff services from the Department of Civil Rights. (Am. by Ord. 10,498, Adopted 8-18-92; ORD-06-00078, 6-30-06)

(Sec. 3.62 R. & Re-Cr. by Ord. 10,246, 4-26-91; Am. by Ord. 12,880, 8-24-01; ORD-15-00086, 8-12-15)

39.05 NONDISCRIMINATION BASED ON DISABILITY IN CITY FACILITIES AND CITY-ASSISTED PROGRAMS AND ACTIVITIES.

(1) Nondiscrimination. No qualified person with a disability shall, by reason of such disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination by City facilities, or under any program or activity which receives or benefits from City financial assistance.

(2) Declaration of Policy. It is the intention of the Mayor and Common Council to impose upon City facilities and upon recipients of City financial assistance, nondiscrimination requirements which are the same as, and consistent with, the nondiscrimination requirements which are imposed upon recipients of federal funding by the Rehabilitation Act of 1973, as amended, and applicable federal regulations.

The Council intends that the complaint procedure provided in Subsections (10) to (13) of this ordinance shall constitute the grievance procedure required by applicable federal regulations, and further intends that any time limits required by applicable federal regulations for complaints to federal agencies be tolled when a complainant pursues the complaint procedure provided in this ordinance, provided the complaint is timely under Subsection (10). Subsections (11) to (17) shall not apply to complaints filed with federal agencies. Subsections (14) to (17) shall not apply to complaints filed with the Department of Affirmative Action against federally funded City facilities.

(3) Definitions.

(a) "City facilities" includes all property owned or leased by the City, all operations of City departments and divisions, and all services rendered by the City for the welfare of its inhabitants, except that it does not include City employment.

(b) "City financial assistance" means any grant, cooperative agreement, loan, contract (other than a public works contract, a supply procurement contract, a contract of insurance or guaranty or a collective bargaining agreement) or any other arrangement by which the City provides or otherwise makes available assistance, in the form of

1. Funds
2. Services of City personnel
3. Real and personal property or any interest in or use of such property, including:
    a. Transfers or leases of such property for less than the fair market value, or for reduced consideration; and
    b. Proceeds from a subsequent transfer or lease of such property if the City's share of its fair market value is not returned to the City.
4. The sale and lease of, and the permission to use (on other than a casual or transient basis) City property or any interest in such property, the furnishing of services without consideration or at a nominal consideration, or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by the sale, lease or furnishing of services to the recipient, and

5. Any City agreement, arrangement or other contract which has as one of its purposes the provision of financial assistance, including purchase of service agreements.

(c) "Program or activity" includes any program, project, or activity for the provision of facilities or services, financial aid, or other benefits to individuals (including education or training, health, welfare, cultural activities, rehabilitation, housing, or other services), whether provided through an employee of the grantee or provided by others through contracts or other arrangements with the grantee, and including the provision of facilities, for furnishing services, financial aid, or other benefits to individuals, but not including employment.

(d) "A Person with a Disability" is a person who either:

1. Has a physical or mental impairment which substantially limits one or more of such person's major life activities;
2. Has a record of such an impairment; or
3. Is regarded as having such an impairment.

(e) "Qualified Person with a Disability" means a person with a disability who, with or without reasonable modifications to rules, policies, and practices, the removal of architectural, communication, and transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services or the participation in programs or activities or facilities provided by the City, or by a recipient of City financial assistance.

(f) "Recipient" means any public or private agency, institution, organization, or other entity, or any person to which City financial assistance is extended for any program or activity, directly or through another recipient, including any successor, assignee, or transferee of a recipient, but excluding the ultimate beneficiary of the assistance.

(Sec. 3.72(4) Renumbered to (3) by ORD-06-00078, 6-30-06)

(4) Discriminatory Actions Prohibited.

(a) The City, in its facilities, and recipients in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of disability:

1. Deny a qualified person with a disability the opportunity to participate in or benefit from the aid, benefit, or service;
2. Afford a qualified person with a disability an opportunity to participate in or benefit from the aid, benefit, or service, or the City facility, that is not equal to that afforded others;
3. Provide a qualified person with a disability with a City facility or an aid, benefit, or service that is not as effective as that provided to others;
4. Provide different or separate City facilities, or aid, benefits, or services to persons with a disability or to any class of persons with disabilities unless such action is necessary to provide qualified persons with a disability with City facilities, aid, benefits, or services that are as effective as those provided to others;
5. Aid or perpetuate discrimination against a qualified person with a disability by providing significant assistance to any agency, organization, or person that discriminates on the basis of disability in providing any aid, benefit, or service to beneficiaries of the recipient's program;
6. Deny a qualified person with a disability the opportunity to participate as a member of planning or advisory boards; or
7. Otherwise limit a qualified person with a disability in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving an aid, benefit, or service from a recipient, or by others using City facilities.

(b) For purposes of this ordinance, City facilities, aids, benefits, and services, to be equally effective, are not required to produce the identical result for persons with disabilities and without disabilities, but must afford persons with a disability an equal opportunity to obtain the same result, or to gain the same benefit. In choosing among available methods for meeting the requirements of this ordinance, the City facility or recipient of City financial assistance shall give priority to those methods that offer programs and activities to qualified persons with disabilities in the most integrated setting appropriate to the person's needs. (Am. by ORD-06-00099, 8-2-06)

(c) Despite the existence of separate or different programs or activities provided in accordance with this ordinance, recipients and City facilities may not deny a qualified person with a disability the opportunity to participate in such programs or activities that are not separate or different.

(d) A recipient or City facility may not, directly or through contractual or other arrangements, utilize criteria or methods of administration

1. That have the effect of subjecting qualified persons with a disability to discrimination because of such disability.
2. That have the purpose or effect of defeating or substantially impairing accomplishment of the objectives of the City facility or the recipient's program with respect to persons with a disability, or
3. That perpetuate the discrimination of another recipient if both recipients are subject to common administrative control.

(e) In determining the site or location of a facility, the City, or an applicant for City financial assistance or a recipient may not make selections

1. That have the effect of excluding persons with a disability from, denying them the benefits of, or otherwise subjecting them to discrimination under any City facility or any program or activity that receives or benefits from City financial assistance or
2. That have the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the City facility or of the program or activity with respect to persons with a disability.

(f) As used in this section, the aid, benefit, or service provided under a program or activity receiving or benefiting from City financial assistance includes any aid, benefit, or service provided in or through a facility that has been constructed, expanded, altered, leased or rented, or otherwise acquired, in whole or in part, with City financial assistance for the period during which the facility is used for a purpose for which the City financial assistance is extended, or for another purpose involving the provision of similar services or benefits.

(g) Nothing in this ordinance is to be construed as affecting any landmark, as that term is defined in Section 41.02 of these ordinances or as affecting wilderness areas. (Am. by ORD-15-00072, 7-29-15)

(h) Programs limited to persons with a disability. The exclusion of persons without disabilities from the benefits of a program limited to persons with disabilities, or the exclusion of a specific class of persons with a disability from a program limited to a different class of persons with a disability is not prohibited by this ordinance.

(i) Recipients and City facilities shall post notices in an accessible format to applicants, beneficiaries and other persons, describing the applicable provisions of this ordinance, in the manner prescribed by section 711 of the Civil Rights Act of 1964 (42 USCA sec. 2000e-10).

(Sec. 3.72(5) Renumbered to (4) by ORD-06-00078, 6-30-06)

(5) Program Accessibility and Existing Facilities.

(a) City facilities and recipients of City financial assistance shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by persons with disabilities. This paragraph does not:

1. Necessarily require the City facility or recipient of City financial assistance to make each of its existing facilities accessible to and usable by persons with disabilities;

2. Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where a City department head or the Board of Directors of a recipient of City financial assistance believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the Department head or recipient has the burden of proving that compliance with this ordinance would result in such alterations or burdens.

(b) The City facility or recipient of City financial assistance may comply with the requirement of this ordinance through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to clients, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, or any other methods that result in making its programs or activities readily accessible to and usable by persons with disabilities. The City facility or recipient of City financial assistance is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this ordinance.

(Sec. 3.72(6) Renumbered to (5) by ORD-06-00078, 6-30-06)

(6) Standards. A building or structure is readily accessible to and usable by persons with disabilities if it fulfills the applicable standards, guidelines and requirements issued by the federal Architectural and Transportation Barriers Compliance Board, including such amendments as the Board may issue from time to time.

(Sec. 3.72(7) Renumbered to (6) by ORD-06-00078, 6-30-06)

(7) Assurances Required. Applicants for City financial assistance shall submit a written assurance of compliance with this subsection on a form specified by the Director of the Department of Civil Rights or her/his designee. The assurance shall be incorporated into any contract between the recipient and the City. No City financial assistance shall be granted unless such an assurance is provided by the applicant or recipient prior to the granting of the City financial assistance. The foregoing requirement does not apply to City financial assistance provided without a written contract, but all of the other provisions of this ordinance do apply to such financial assistance.

(Sec. 3.72(8) Renumbered to (7) & Am. by ORD-06-00078, 6-30-06)

(8) Compliance Reviews. The City's Director of the Department of Civil Rights or his/her designee may periodically review the practices of recipients to determine whether they are complying with this ordinance, and may require recipients to provide relevant information.

(Sec. 3.72(9) Renumbered to (8) & Am. by ORD-06-00078, 6-30-06)

(9) Complaints. Any person who believes this section has been violated by a City facility or a recipient of City financial assistance may bring the alleged violation to the attention of the Director of the Department of Civil Rights or his/her designee. Such complaints shall be filed within three hundred (300) days of the alleged violation. The Director of the Department of Civil Rights or his/her designee shall post notices in accessible format of the complaint procedure. Any complaint shall be a public record available to any person for inspection and copying.

(Sec. 3.72(10) Renumbered to (9) & Am. by ORD-06-00078, 6-30-06)

(10) Investigation. The Director of the Department of Civil Rights or his/her designee shall promptly investigate whenever a compliance review or complaint indicates a possible violation of this section. The Disability Rights Commission shall establish rules governing complaint processing and compliance review procedures, and such rules shall be approved by the Common Council.

(Sec. 3.72(11) Renumbered to (10) & Am. by ORD-06-00078, 6-30-06)

(11) Determination. After investigating, the Director of the Department of Civil Rights or his/her designee shall issue a written determination of compliance or noncompliance and shall provide copies of the determination to the Disability Rights Commission, to the recipient or City Department or Division head responsible for the City facility and to the complainant, if any. Any determination of noncompliance shall contain a proposal for a reasonable remedy, and a reasonable deadline for compliance with the remedy. The written determination shall be a public record available to any person for inspection and copying.

(Sec. 3.72(12) Renumbered to (11) & Am. by ORD-06-00078, 6-30-06)

(12) Voluntary Compliance. If, after investigation, the Director of the Department of Civil Rights or his/her designee has found the recipient or the City facility not to be in compliance with this Section, the Director of the Department of Civil Rights and the recipient, or, in the case of a City facility, the responsible Department head, may agree upon an informal resolution of the matter by a voluntary compliance agreement. Informal resolutions shall remedy any violation of the rights of a complainant and shall assure elimination of the violation and the prevention of its recurrence. Such voluntary compliance agreements shall be in writing, and shall be approved by the Disability Rights Commission. The agreement shall be signed by the recipient and by the Mayor, or, in the case of a City facility, by the Mayor and the responsible Department head. It shall be available for public inspection and copying.

(Sec. 3.72(13) Renumbered to (12) & Am. by ORD-06-00078, 6-30-06)

(13) Enforcement Procedure. If a recipient, after receiving a written determination of noncompliance, fails to meet the deadline established for compliance and remedy, and fails to enter into a voluntary compliance agreement, or fails to comply with such an agreement, the Director of Department of Civil Rights or his/her designee shall notify the City Attorney. The City Attorney shall proceed to terminate and, if she/he deems it necessary and appropriate, to recoup the recipient's financial assistance. The City Attorney may also seek other remedies. The City Attorney shall inform the recipient of the action proposed to be taken, the matters of fact and law asserted as the basis for the action, and shall inform the applicant that a hearing may be requested by notifying the City Clerk within fifteen (15) days. The City Attorney shall also attempt to negotiate a voluntary compliance agreement. Such an agreement shall remedy any violation of the rights of a complainant and shall assure elimination of the violation and the prevention of its recurrence. Such a voluntary compliance agreement shall be in writing, shall be signed by the Mayor, approved by the Disability Rights Commission, and shall be reported to the Common Council.

(Sec. 3.72(14) Renumbered to (13) & Am. by ORD-06-00078, 6-30-06)

(14) Hearing Committee. If a hearing is requested, the City Clerk shall notify the Mayor and a Hearing Committee shall be constituted. The Hearing Committee shall consist of three (3) members of the Common Council, designated by the Mayor; three (3) persons designated by the Chair of the Disability Rights Commission; and the Chair of the Equal Opportunities Commission, or her/his designee. The Mayor shall establish rules governing hearing procedures.

(Sec. 3.72(15) Renumbered to (14) by ORD-06-00078, 6-30-06)

(15) Hearing. At the hearing, the Director of the Department of Civil Rights or her/his designee shall have the burden to persuade the Committee that the recipient has violated this Section, or the provisions of a voluntary compliance agreement. Each party shall have the right to appear in person and by counsel, to call and examine all witnesses, and to introduce exhibits. The Committee shall determine both fact and law, and shall issue a

written decision and order, including, in case it finds that the recipient has violated this Section, an appropriate remedy. The Committee's decision shall be a final administrative determination, subject to appeal as by law may be provided. The City Attorney may institute court action to enforce the Committee's order.

(Sec. 3.72(16) Renumbered to (15) and Am. by ORD-06-00078, 6-30-06)

(16) Enforcement Procedure for City Facilities. If a Department head, after receiving a written determination that a City facility for which she/he is responsible is not in compliance with this ordinance, fails to meet the deadline for compliance and remedy, fails to enter into a voluntary compliance agreement, or fails to comply with such an agreement, the Director of the Department of Civil Rights or her/his designee shall notify the Disability Rights Commission, and the Mayor. The Disability Rights Commission shall submit to the Finance Committee a written report on the noncompliance, and such report shall contain a recommendation for action. The Mayor shall convene a special meeting of the Finance Committee to consider the issue, and shall publish a notice at least twenty-one (21) days prior to the meeting. At the meeting, the Finance Committee shall hear the Department head, other City officials and employees, and members of the public. The meeting may be adjourned and reconvened as the Finance Committee may deem appropriate.

The meeting shall be considered legislative and not quasi-judicial and shall be conducted in open session. The Finance Committee shall recommend a resolution of the issue to the Common Council for its approval.

(Sec. 3.72(17) Renumbered to (16) and Am. by ORD-06-00078, 6-30-06; ORD-16-00081, Pub. 9-15-16, Eff. 4-18-17)

(17) Enforcement Procedure for Federally Funded City Facilities. If a Department head, after receiving a written determination that a federally funded City facility for which s/he is responsible is not in compliance with this ordinance, fails to meet the deadline for compliance and remedy, fails to enter into a voluntary compliance agreement with the Director of the Department of Civil Rights or his/her designee, or fails to comply with such an agreement, the Director of the Department of Civil Rights or her/his designee shall promptly notify the federal agency, from which the funds are provided, of the complaint. The complaint will then be addressed in accordance with the federal agency's Rehabilitation Act of 1973 complaint procedure.

(Sec. 3.72(18) Renumbered to (17) and Am. by ORD-06-00078, 6-30-06)

(Sec. 3.72 Am. by Ord. 10,498, Adopted 8-18-92)

(Sec. 39.05 Am. by ORD-15-00086, 8-12-15)

39.06 REVEREND DOCTOR MARTIN LUTHER KING, JR. HUMANITARIAN AWARD.

(1) There is created the Reverend Doctor Martin Luther King, Jr. Humanitarian Award or Awards to be presented annually to the person or persons who have made outstanding and significant contributions in the spirit of sisterhood, brotherhood, and harmony toward making Madison and Dane County an ideal place in which to live. The award or awards shall be presented at the annual celebration of the birth of Dr. King. (Am. by Ord. 8989, 10-15-86; ORD-05-00169, 11-8-05)

(2) The Mayor and the County Executive shall appoint a Commission consisting of nine (9) voting members. The Mayor shall appoint the City's voting members, which shall consist of the Community Development Division Director or her/his designee and one delegate from each of the following commissions/ committees: the Madison Equal Opportunities Commission, the Affirmative Action Commission, and the Committee on People with Disabilities. The County Executive shall appoint four (4) voting members to represent Dane County. The Mayor and the County Executive shall jointly appoint one (1) member to serve as the ninth (9^{th}) committee member. This Commission shall annually seek candidates and select the recipient or recipients of this award. (Am. by Ord. 10,498, Adopted 8-18-92; Ord. 13,340, 6-7-03; ORD-06-00078, 6-30-06; ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09)

(3) The Mayor shall convene the Commission on or before March 15 of each year. The Commission shall select a chairperson and may establish rules and procedures.

(Am. by Ord. 8397, 7-25-84; ORD-09-00052, Pub. 4-2-09, Eff. 8-1-09; ORD-09-00118, 8-11-09)

39.07 EQUAL BENEFITS.

(1) Statement of Purpose, Findings. The purpose of this ordinance is to ensure that contractors doing business with the City under certain public works contracts, service contracts, and contracts for financial assistance provide benefits for their employees in domestic partnerships that are equal to the benefits provided for similarly-situated employees who are married. The Common Council of the City of Madison finds that the use of City funds should support employers that offer equal compensation, including benefits, to all employees, including employees in a domestic partnership. The Council finds that the equal benefit requirements of this ordinance ensure that City funds are used responsibly and with contractors who reflect values that the City shares while also meeting requirements that public construction contracts be awarded to the lowest responsible bidder. The requirements of this ordinance are for the protection and welfare of the public in the performance of all public contracts.

(2) Definitions. In this section:

(a) "Benefit" means any plan, program or policy provided or offered by a contractor to its employees as part of the employer's total compensation package. This includes, but is not limited to, bereavement leave, family medical leave, sick leave, health insurance or other health benefit, dental insurance or other dental benefit, disability insurance, life insurance, membership or membership discounts, moving expenses, pension and retirement benefits, and travel benefits; and is intended to include benefits that are provided directly to an employee (such as bereavement leave) and to the employee's spouse or domestic partner (such as health insurance coverage for the spouse or domestic partner).

(b) "Cash equivalent" means an amount equal to the actual cost to the employer for providing the benefit in question to the spouse of a married employee.

(c) "City financial assistance" for purposes of this ordinance means any grant, cooperative agreement, loan contract or any other arrangement by which the City provides or otherwise makes available assistance in an amount exceeding twenty-five thousand dollars ($25,000) in the form of:

1. Funds;
2. Services of City personnel;
3. Leases of real property for less than the fair market value, or for reduced consideration;
4. The sale and lease of, and the permission to use (on other than a casual or transient basis) other City property (other than real property) or any interest in such property, the furnishing of services without consideration or at a nominal consideration, or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by the sale, lease or furnishing of services to the recipient;
5. "City financial assistance" includes, but is not limited to, capital revolving fund loans, redevelopment contracts, economic development agreements, revenue or loan agreements with an eligible participant or authorized developer under Wis. Stat. § 66.1103, contracts with developers or other entities authorized by Wis. Stat. § 66.1105(3)(e).
6. "City financial assistance" does not include public works contracts, supply procurement contracts, professional service or other service contracts as defined herein, contracts of insurance or guaranty, or collective bargaining agreements.

7. Subcontractors and Employees of Recipients of Financial Assistance. The equal benefit requirement of this ordinance shall apply to all employees employed in work performed under a contract funded by City Financial Assistance, or employed by a contractor of a City Financial Assistance recipient and who expends at least twenty (20) hours a week at the project site funded by City financial assistance, or employed by a recipient of City financial assistance in work performed at a project site funded by City Financial Assistance.

(d) "Contractor," for purposes of this ordinance, means a Service Contractor as defined herein, a contractor who has entered into a Public Works contract as defined herein, or a recipient of City Financial Assistance, as defined herein.

(e) "Employee" means any individual, who may be required or directed by any employer, in consideration of direct or indirect gain or profit, to engage in any employment, or to go to or work or be at any time in any place of employment. "Employee" includes individuals whose work is permanent or temporary, or on a full-time or part-time basis.

(f) "Domestic partner" means an individual in a domestic partnership.

(g) "Domestic partnership" means two adults and their dependents, if any, that are currently registered as a domestic partnership (or equivalent) in any governmental jurisdiction offering a domestic partnership or similar registry, or who satisfy the following requirements:

1. They are in a relationship of mutual support, caring and commitment and intend to remain in such a relationship in the immediate future; and
2. They are not married (unless they are married to each other) or legally separated and, if either party has been a party to an action or proceeding for divorce or annulment, at least six (6) months have elapsed since the date of the judgment terminating the marriage; and
3. Neither domestic partner is currently registered in a domestic partnership with a different domestic partner and, if either partner has previously been registered as a domestic partner in a domestic partnership, at least six (6) months have elapsed since the effective date of termination of that registration; and
4. Both are eighteen (18) years of age or older; and
5. Both are competent to contract; and
6. They are occupying the same dwelling unit as a single, nonprofit housekeeping unit, whose relationship is of permanent and distinct domestic character; and
7. They are not in a relationship that is merely temporary, social, political, commercial or economic in nature.

(h) "Person" means any individual, partnership, joint venture, corporation, limited liability company or partnership, trust, association, or other entity that may employ individuals or enter into contracts.

(i) "Public Contract" means any contract meeting the definition of "public contract" in Wis. Stat. § 66.0901(1), if the value of such contract requires it to be let to the lowest responsible bidder under Wis. Stat. § 62.15. (Am. by ORD-14-00012, 1-14-14)

(j) "Recipient of City Financial Assistance" means any person, including that person's subcontractors if required by Sec. 39.07(2)(c)7. herein, successors, assignees and transferees, who enters into a contract with the City to receive City Financial Assistance as defined in this ordinance.

(k) "Service Contract," for purposes of this ordinance, means: any contract with the City for the provision of services to any City department or agency with a budget under the control of the Common Council, that has a value exceeding twenty-five

thousand dollars ($25,000); this includes but is not limited to standard "Purchase of Services" contracts and contracts for purchase of human services administered by the Office of Community Services under the Community Resources Program with a value exceeding twenty-five thousand dollars ($25,000).

(l) "Service Contractor" means any person who enters into a Service Contract with the City, including that person's subcontractors (if the subcontractor is performing $25,000 or more in work), successors, assignees, or transferees.

(3) Equal Benefits Requirement.

(a) Applicability. This ordinance shall apply to the following types of contracts: Service Contracts, contracts for City Financial Assistance, and Public Works Contracts, as defined herein, subject to the exemptions in Sec. 39.07(3)(c).

(b) Requirement to Provide Equal Benefits. All Service Contractors, their subcontractors if the value of the subcontracted work is $25,000 or more, Recipients of City Financial Assistance (as defined herein), and contractors under a public works contract and their subcontractors if the value of a subcontractor's work exceeds the single-trade minimum set forth in Sec. 33.07(7)(b)5., (hereafter, "Contractors"), shall offer and provide benefits to employees with domestic partners that are equal to the benefits offered and provided to married employees with spouses. If a benefit would be available to the spouse of a married employee or to the employee based on his or her status as a spouse, the benefit shall also be made equally available to a domestic partner of that employee, or to the employee based on his or her status as a domestic partner. If, after making a reasonable effort to provide an equal benefit as required by this paragraph, the contractor is unable to provide the benefit, the contractor shall provide the employee with the cash equivalent of the benefit.

(c) Exemptions. The following contracts shall be exempt from the requirements of this ordinance:

1. Contracts for the purchase of goods or supplies only.
2. Contracts necessitated by or resulting from an emergency and thus will not permit the delay required to assure compliance with this ordinance including contracts executed as an emergency services contract under Sec. 4.26(4)(c). (Am. by ORD-13-00150, 9-11-13)
3. A contract with a contractor whose employees are under a collective bargaining agreement that was in effect prior to the effective date of this ordinance, however, the contractor must agree to propose to the applicable collective bargaining unit(s) that an equal benefit requirement consistent with this ordinance be incorporated into the next collective bargaining agreement or into the existing agreement upon amendment, extension or other modification that occurs after the effective date of this ordinance.
4. Contracts for donations to the City.
5. Contracts With Other Municipalities. For purposes of this ordinance, "municipalities" shall include all units of government listed in Wis. Stat. § 66.0301, inclusive of future amendments.
6. Contracts with the State of Wisconsin, the University of Wisconsin, and the Area Board of any Vocational, Technical and Adult Education District.
7. Contracts with the United States of America and individual agencies of the U.S. government.
8. Contracts for the sale or purchase of real property, and relocation-related contracts, except those that fall under the definition of City Financial Assistance herein. Relocation-related contracts are contracts for City payment of the costs of the relocation or modification of another person's

facilities required when the City acquires a real property interest or modifies a railroad crossing, usually arising out of a relocation order, transportation project plat, or order of the Commissioner of Railroads.

9. Contracts under which the City receives net cash, including, but not limited to contracts where the City leases real property, and sells or leases goods or services for cash; except contracts with the City's depository banks, which shall not be exempt.

10. Agreements with bond underwriters, financial institutions, and credit rating agencies, where the agreement relates to the City's borrowing. (Am. by ORD-15-00128, 11-25-15)

11. "Sole Source" Service Contracts. A contract may be exempt from this ordinance if the services are determined to be available from only one person or firm under Sec. 4.26(4)(a)2., MGO, or a consultant who has provided services in this past under Sec. 4.26(4)(a)7. and the procedures in Sec. 4.26(4)(b) are followed.

12. No Bidders Can Comply. If a competitive selection process was used for a contract to which this ordinance applies (or applications sought for city financial assistance) and the responses demonstrate that none of the bidders or applicants can comply with this ordinance, and one or more of the bids or applications would have been responsive if compliance with this section was not required, the contract may be re-bid or new applications sought without the requirements of this ordinance. If a contract is awarded as a result of a re-bid (or call for new applications) under this paragraph, that contract will be exempt from the requirements of this ordinance.

13. Pre-Existing Contracts. Contracts to which this ordinance would apply that were in effect prior to the date this Sec. 39.07 first takes effect.

14. Renewals. A renewal or extension of a contract to which this ordinance applies that was executed prior to the date this Sec. 39.07 first takes effect, if the contractor is providing an essential service or work that, in the opinion of the Purchasing Division or City Engineer, is not available from any other contractor. Examples include but are not limited to renewal of a support or maintenance contract for proprietary software that was purchased prior to the date this ordinance first takes effect, or an extension of time or change order on a public works contract signed prior to the date this ordinance first took effect.

(4) Proof of Domestic Partner Status. Contractors with employees who reside in Wisconsin may require those employees to sign and file a Declaration of Domestic Partnership in conformance with Wis. Stat. ch. 770 and register accordingly with their local County Clerk, as a prerequisite to providing equal benefits under this ordinance. Contractors with employees who reside outside of Wisconsin may require those employees to provide proof of an equivalent registration or other procedure in the jurisdiction where the employee resides, if available. If none is available in the jurisdiction where the employee resides, the Contractor shall recognize a domestic partnership meeting the definition of domestic partnership in this ordinance.

(5) Mandatory Contract Language. All contracts to which this ordinance applies shall include the following language:

"Equal Benefits Requirement (Sec. 39.07, MGO). For the duration of this Contract, the Contractor agrees to offer and provide benefits to employees with domestic partners that are equal to the benefits offered and provided to married employees with spouses, and to comply with all provisions of Sec. 39.07, Madison General Ordinances (MGO). If a benefit would be available to the spouse of a married employee, or to the employee based on his or her status as a spouse, the benefit shall also be made available to

a domestic partner of an employee, or to the employee based on his or her status as a domestic partner. "Benefits" include any plan, program or policy provided or offered to employees as part of the employer's total compensation package, including but not limited to, bereavement leave, family medical leave, sick leave, health insurance or other health benefits, dental insurance or other dental benefits, disability insurance, life insurance, membership or membership discounts, moving expenses, pension and retirement benefits, and travel benefits.

Cash Equivalent. If after making a reasonable effort to provide an equal benefit for a domestic partner of an employee, the contractor is unable to provide the benefit, the contractor shall provide the employee with the cash equivalent of the benefit.

Proof of Domestic Partner Status. The Contractor may require an employee to provide proof of domestic partnership status as a prerequisite to providing the equal benefits. Any such requirement of proof shall comply with Sec. 39.07(4), MGO.

Notice Posting, Compliance. The Contractor shall post a notice informing all employees of the equal benefit requirements of this Contract, the complaint procedure, and agrees to produce records upon request of the City, as required by Sec. 39.07, MGO.

Subcontractors (Public Works Contracts Only). Contractor shall require all subcontractors, the value of whose work exceeds the single-trade minimum set forth in Sec. 33.07(7)(b)5., MGO, to provide equal benefits in compliance with Sec. 39.07, MGO.

Subcontractors (Recipients of City Financial Assistance Only). This requirement also applies to employees of contractors hired by the Recipient who expend at least twenty (20) hours a week at the project site funded by City financial assistance.

Subcontractors (Service Contracts Only). Contractor shall require all subcontractors, the value of whose work is twenty-five thousand dollars ($25,000) or more, to provide equal benefits in compliance with Sec. 39.07, MGO."

(6) Monitoring and Enforcement.

(a) Posting of Notice. While the contract is in effect, all contractors or recipients of City financial assistance to which this ordinance applies shall post notices explaining the equal benefits requirement under the contract and the procedure for filing a complaint under this ordinance, in prominent locations at the workplace where it can be viewed by all employees.

(b) Complaints. Any person may file a complaint with the City of Madison Department of Civil Rights that a contractor is in violation of the terms of the contract or this ordinance. The Department of Civil Rights shall receive complaints and investigate the merits of such complaints, with assistance from the Human Resources Department.

(c) Record-Keeping and Production of Records. All contractors and recipients of City financial assistance shall keep full and accurate records of benefits provided or cash equivalents paid to employees under this ordinance. If a complaint is filed with the City under sub. (b), the Contractor shall provide upon the City's request access to all records relevant to compliance with this ordinance and shall require their subcontractors to allow the same access. Contractors shall provide such records to the office of the Department of Civil Rights within ten (10) business days of the date requested in writing and shall permit the City access during normal business hours to the above records, as well as access to persons who may have information relevant and necessary to ascertain compliance with this ordinance, within ten (10) business days of the date requested in writing.

(d) Violation, Remediation and Sanctions. The City shall inform the contractor if a complaint has been filed under this ordinance or a violation has been determined to exist, and in addition to examining the contractor's records, the City may discuss the violation with the contractor. The purpose of the discussion is to encourage the contractor to change its practices to achieve compliance. The City may at its sole option prescribe appropriate measures for the contractor to take in

order to comply with the Ordinance and may agree, in writing, to a compliance plan which shall be incorporated as an amendment to the contract. If the Contractor or subcontractor fails to comply with this ordinance as made applicable through the contract, the City at its option may do any or all of the following:

1. Cancel, terminate, suspend or non-renew the contract in whole or in part.
2. Declare the contractor ineligible for further City contracts and/or disqualify the contractor from bidding or submitting proposals on City contracts or applying for city financial assistance.
3. Recover on behalf of the City from the prime Contractor 0.5 percent of the contract award price for each week that such party fails or refuses to comply, in the nature of liquidated damages, but not to exceed a total of five percent (5%) of the contract price, or five thousand dollars ($5,000), whichever is less. Under public works contracts, if a subcontractor is in noncompliance, the City may recover liquidated damages from the prime Contractor in the manner described above. The preceding sentence shall not be construed to prohibit a prime Contractor from recovering the amount of such damage from the non-complying subcontractor.

(e) Submission of False Information. Any person who has been found by the City to have submitted any false, misleading or fraudulent information to the City regarding compliance with this ordinance during the term of this contract or an investigation of a complaint under this ordinance may be subject to any of the above sanctions.

(f) No Waiver. Nothing in this subsection shall be construed as a waiver or limitation of the City's remedies under an existing contract or other remedies available at equity or at law.

(7) Effective Date and Applicability to Existing Contracts. This ordinance shall take effect on July 1, 2012, and apply to contracts executed, extended, or renewed by the City on or after that date. No existing contract to which this ordinance applies shall be extended or renewed on or after July 1, 2012, unless the requirements of this ordinance are incorporated into the contract or the contract is determined to be exempt under Sec. 39.07(3)(c).

(8) Penalty. In addition to any of the sanctions set forth elsewhere in this ordinance, any person who violates any portion of this ordinance or fails to comply with any of its requirements shall, upon conviction hereof, be subject to a forfeiture of not less than one-hundred dollars ($100) and not more than one thousand dollars ($1,000), plus applicable costs. Each day or portion thereof that such violation continues shall be considered a separate offense. Prosecution of a forfeiture action for a violation of this ordinance shall not preclude imposition of other sanctions listed above, nor shall the imposition of such sanctions be construed as a limitation on prosecution.

(Sec. 39.07 Cr. by ORD-12-00022, 3-5-12)

39.08 "BAN THE BOX" IN CITY CONTRACTING.

(1) Statement of Purpose. The purpose of this ordinance is to ensure that contractors doing business with the City of Madison provide equitable opportunities for qualified applicants to be considered for job openings without being prematurely eliminated from consideration based on a history of arrest or conviction which may be irrelevant to the job position. The Common Council of the City of Madison finds that the use of City funds should support employers who make hiring decisions based on relevant work qualifications consistent with this ordinance. Among other things, the Council finds that the ability to be considered for a job, receive an interview, and to be offered a job will improve access to family-supporting employment and assist in reducing recidivism in the criminal justice system. The Council finds that the requirements of this ordinance will ensure that City

funds are used responsibly with contractors who reflect values that the City shares while also meeting requirements that public construction contracts be awarded to the lowest responsible bidder. The requirements of this ordinance are for the protection and welfare of the public in the performance of all public contracts.

(2) Definitions. In this section:

"Applicant" means any person who completes and submits the necessary information to an employer to apply for a job or an unpaid internship, apprenticeship, trainee or similar position.

"Application form" means the initial paperwork or information form, whether in paper or electronic format, required by an employer to commence the process of applying for a job or an unpaid internship, apprenticeship, trainee or similar position.

"Arrest and conviction record" For purposes of this ordinance, "arrest record" shall have the meaning given in Sec. 39.03(2), MGO and "conviction record" shall have the meaning given in Sec. 39.03(2).

"Background check" means the process of checking an applicant's arrest and conviction record, through any means.

"Ban the Box" is the phrase used to describe the concept of removing questions regarding arrest and conviction record from job applications and the job interview process. For purposes of this section, the phrase refers only to the requirements of this section.

"City financial assistance" for purposes of this ordinance means any grant, cooperative agreement, loan contract or any other arrangement by which the City provides or otherwise makes available assistance in an amount exceeding twenty-five thousand dollars ($25,000) in the form of:

1. Funds;
2. Services of City personnel;
3. Leases of real property for less than the fair market value, or for reduced consideration;
4. The sale and lease of, and the permission to use (on other than a casual or transient basis) other City property (other than real property) or any interest in such property, the furnishing of services without consideration or at a nominal consideration, or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by the sale, lease or furnishing of services to the recipient;
5. "City financial assistance" includes, but is not limited to, capital revolving fund loans, redevelopment contracts, economic development agreements, revenue or loan agreements with an eligible participant or authorized developer under Wis. Stat. § 66.1103, contracts with developers or other entities authorized by Wis. Stat. § 66.1105(3)(e).
6. "City financial assistance" does not include public works contracts, supply procurement contracts, professional service or other service contracts as defined herein, contracts of insurance or guaranty, or collective bargaining agreements.

"Conditional offer of employment" is an offer of employment made to the final candidate, conditioned upon the outcome of a background check. "Offer of employment" shall also include an offer for an unpaid internship, apprenticeship, trainee or similar position.

"Developer" means any person who has entered into a contract for the construction of public improvements that will be accepted by the City, or a subdivision agreement under Sec. 16.23, MGO.

"Person" means any individual, partnership, joint venture, corporation, limited liability company or partnership, trust, association, or other entity that may employ individuals or enter into contracts.

"Pre-qualified" means a contractor or subcontractor who has met the applicable prequalification requirements of Sec. 33.07(7), MGO.

"Pre-qualified Public Works Subcontractor" means a subcontractor on a Public Works Contract who is required to meet prequalification requirements prior to commencing work by Sec. 33.07(7)(l).

"Public Works Contract" means any contract meeting the definition of "public contract" in Wis. Stat. § 66.0901(1), if the value of such contract requires it to be let to the lowest responsible bidder under Wis. Stat. § 62.15.

"Recipient of City Financial Assistance" means any person, including that person's successors, assignees and transferees, who enters into a contract with the City to receive City Financial Assistance as defined in this ordinance.

"Service Contract," for purposes of this ordinance, means: any contract with the City for the provision of services to any City department or agency with a budget under the control of the Common Council, that has a value exceeding twenty-five thousand dollars ($25,000); including but not limited to "Contracts for Purchase of Services" and contracts administered by the Community Development Division (CDD) with a value exceeding twenty-five thousand dollars ($25,000).

"Service Contractor" means any person who enters into a Service Contract with the City, including any successors, assignees, or transferees.

(3) "Ban the Box" Requirements.

(a) Applicability. This ordinance shall apply to the following types of contracts and contractors:

1. Types of Contracts. Service Contracts (including CDD contracts), contracts for City Financial Assistance, Public Works Contracts, and any other city contract that requires the use of prequalified contractors or subcontractors; subject to the exemptions in Sec. 39.08(3)(c) herein.
2. Contractors. Service Contractors (including CDD contractors); Recipients of City Financial Assistance, their contractors, and any subcontractors if required to be prequalified; Public Works contractors and Pre-qualified Public Works Subcontractors; contractors or subcontractors under a Developer agreement if required to be prequalified; and any other prequalified contractor or subcontractor of a party who has a contract with the city.

(b) Requirements. All contractors listed in sub. (3)(a).2. above ("Contractors"), shall:

1. Remove from all job application forms any questions, check boxes, or other inquiries regarding an applicant's arrest and conviction record, as defined herein.
2. Refrain from asking an applicant in any manner about their arrest or conviction record until after a conditional offer of employment is made to the applicant in question; and city contract form as the base and attached the West order form.
3. Refrain from conducting a formal or informal background check or making any other inquiry using any privately or publicly available means of obtaining the arrest or conviction record of an applicant until after a conditional offer of employment is made to the applicant in question.

(c) Exemptions. The following contracts are exempt from the requirements of this ordinance:

1. Contracts for the purchase of goods or supplies only.
2. Contracts necessitated by or resulting from an emergency and thus will not permit the delay required to assure compliance with this ordinance including contracts executed as an emergency services contract under Sec. 4.26(4)(c).

3. Contracts With Other Municipalities. For purposes of this ordinance, "municipalities" shall include all units of government listed in Wis. Stat. § 66.0301, inclusive of future amendments.
4. Contracts with the State of Wisconsin, the University of Wisconsin, and the Area Board of any Vocational, Technical and Adult Education District.
5. Contracts with the United States of America and individual agencies of the U.S. government.
6. Contracts for the sale or purchase of real property, and relocation-related contracts, except those that fall under the definition of City Financial Assistance herein. Relocation-related contracts are contracts for City payment of the costs of the relocation or modification of another person's facilities required when the City acquires a real property interest or modifies a railroad crossing, usually arising out of a relocation order, transportation project plat, or order of the Commissioner of Railroads.
7. Contracts under which the City receives net cash, including, but not limited to contracts where the City leases real property, and sells or leases goods or services for cash; except contracts with the City's depository banks, which shall not be exempt.
8. Agreements with bond underwriters, financial institutions, and credit rating agencies, where the agreement relates to the City's borrowing.
9. "Sole Source" Service Contracts. A contract may be exempt from this ordinance if the services are determined to be available from only one person or firm under Sec. 4.26(4)(a)2., MGO, or a consultant who has provided services in this past under Sec. 4.26(4)(a)7. and the procedures in Sec. 4.26(4)(b) are followed.
10. Contracts Mandated by Law. A contract the City must make as a requirement of a statute, regulation or other law.
11. Pre-Existing Contracts. Contracts to which this ordinance would apply that were in effect prior to the date this Sec. 39.08 first takes effect.
12. Renewals. A renewal or extension of a contract to which this ordinance applies that was executed prior to the date this Sec. 39.08 first takes effect, if the contractor is providing a service or work that in the opinion of the Mayor is essential to the operations of the City and not available from any other contractor or is not feasible to award to another contractor due the timing of the renewal. Examples include renewal of a support or maintenance contract for proprietary software that was purchased prior to the date this ordinance first takes effect, or an extension of time or change order on a contract signed prior to the date this ordinance first took effect.

(4) Exempt Job Positions. The requirements of this ordinance shall not apply when:

(a) Hiring for a position where certain convictions or violations are a bar to employment in that position under applicable law.

(b) Hiring a position for which information about criminal or arrest record, or a background check is required by law to be performed at a time or in a manner that would otherwise be prohibited by this ordinance, including a licensed trade or profession where the licensing authority explicitly authorizes or requires the inquiry in question.

(c) The contractor is identified by the City as being subject to the Vulnerable Populations Resolution adopted by the Common Council on May 21, 1996 (Substitute Resolution No. 53, 279.) Such contractors are exempt from the entirety of this ordinance.

To be exempt under subs. (a) or (b), the contractor has the burden of demonstrating that there is an applicable law or regulation that requires the hiring practice in question, if so, the contractor is exempt from all of the requirements of this ordinance for the position(s) in question.

(5) Mandatory Contract Language. All contracts to which this ordinance applies shall include the following language:

"Ban the Box - Arrest and Criminal Background Checks (Sec. 39.08, Madison General Ordinances). For purposes of this section, "Arrest and Conviction Record" includes, but is not limited to, information indicating that a person has been questioned, apprehended, taken into custody or detention, held for investigation, arrested, charged with, indicted or tried for any felony, misdemeanor or other offense pursuant to any law enforcement or military authority. "Conviction record" includes, but is not limited to, information indicating that a person has been convicted of a felony, misdemeanor or other offense, placed on probation, fined, imprisoned or paroled pursuant to any law enforcement or military authority. "Background Check" means the process of checking an applicant's arrest and conviction record, through any means.

For the duration of this Contract, the Contractor shall:

1. *Remove from all job application forms any questions, check boxes, or other inquiries regarding an applicant's arrest and conviction record, as defined herein.*
2. *Refrain from asking an applicant in any manner about their arrest or conviction record until after a conditional offer of employment is made to the applicant in question.*
3. *Refrain from conducting a formal or informal background check or making any other inquiry using any privately or publicly available means of obtaining the arrest or conviction record of an applicant until after a conditional offer of employment is made to the applicant in question.*
4. *Make information about this ordinance available to applicants and existing employees and post notices in prominent locations at the workplace with information about the ordinance and complaint procedure, using language provided by the City.*
5. *Comply with all other provisions of Sec. 39.08, MGO."*

(6) Monitoring and Enforcement.

(a) Notice. While the contract is in effect, all contractors shall make information about this ordinance available to applicants and existing employees and post notices in prominent locations at the workplace. The information shall be in a format provided by the City and shall include the requirements of this ordinance, the complaint procedure, and obligation to produce records upon request of the City.

(b) Complaints. Any person may file a complaint with the City of Madison Department of Civil Rights that a contractor is in violation of the terms of the contract or this ordinance. The Department of Civil Rights shall receive complaints and investigate the merits of such complaints, with assistance from the contracting city agency.

(c) Record-Keeping and Production of Records. All contractors shall keep full and accurate records sufficient to determine compliance with this ordinance and shall provide upon the City's request access to all records relevant to compliance with this ordinance. Contractors shall provide such records to the office of the Department of Civil Rights within ten (10) business days of the date requested in writing and shall permit the City access during normal business hours to the above records, as well as access to persons who may have information relevant and

necessary to ascertain compliance with this ordinance, within ten (10) business days of the date requested in writing. The City's request for records shall inform the contractor of the basis for the request.

(d) Violation, Remediation and Sanctions. The City shall inform the contractor if a complaint has been filed under this ordinance or a violation has been determined to exist, and in addition to examining the contractor's records, the City may discuss the violation with the contractor. The purpose of the discussion is to encourage the contractor to change its practices to achieve compliance. The City may at its sole option prescribe appropriate measures for the contractor to take in order to comply with the Ordinance and may agree, in writing, to a compliance plan which shall be incorporated as an amendment to the contract. If the Contractor fails to comply with this ordinance as made applicable through the contract, the City at its option may do any or all of the following:

1. Cancel, terminate, suspend or non-renew the contract in whole or in part.
2. Declare the contractor ineligible for further City contracts and/or disqualify the contractor from bidding or submitting proposals on City contracts or applying for city financial assistance.
3. Recover on behalf of the City from the contractor 0.5 percent of the contract award price for each week that such party fails or refuses to comply, in the nature of liquidated damages, but not to exceed a total of five percent (5%) of the contract price, or five thousand dollars ($5,000), whichever is less.

(e) Submission of False Information. Any person who has been found by the City to have submitted any false, misleading or fraudulent information to the City regarding compliance with this ordinance during the term of this contract or an investigation of a complaint under this ordinance may be subject to any of the above sanctions.

(f) No Waiver. Nothing in this subsection shall be construed as a waiver or limitation of the City's remedies under an existing contract or other remedies available at equity or at law.

(g) No Private Cause of Action. This ordinance does not create a private right of action by or on behalf of any employee or applicant for employment based on a complaint that the Contractor has violated this ordinance or the contractor's agreement with the City. This ordinance is not intended either to expand or to limit rights provided by other local, state or federal equal employment or employment discrimination laws, including Sec. 39.03. Any claim for employment discrimination must be pursued through the appropriate, separate proceeding with the authority having jurisdiction over such claims.

(7) Effective Date and Applicability to Existing Contracts. This ordinance shall take effect on January 1, 2016, and apply to contracts executed, extended, or renewed by the City on or after that date. No existing contract to which this ordinance applies shall be extended or renewed on or after January 1, 2016, unless the requirements of this ordinance are incorporated into the contract, or it is exempt hereunder. This ordinance will not apply to Pre-qualified Public Works Subcontractors and any other contactor or subcontractor required to ban the box based on pre-qualified status under this ordinance, until the first time they seek or renew pre-qualification status under Sec. 33.07(7)(l) after January 1, 2016. However, the ordinance will apply to prime contractors on City Public Works contracts entered into on or after January 1, 2016.

(8) Penalty. In addition to any of the sanctions set forth elsewhere in this ordinance, any person who violates any portion of this ordinance or fails to comply with any of its requirements shall, upon conviction hereof, be subject to a forfeiture of not less than one-hundred dollars ($100) and not more than one thousand dollars ($1,000), plus applicable costs. Each day or portion thereof that such violation continues shall be

considered a separate offense. Prosecution of a forfeiture action for a violation of this ordinance shall not preclude imposition of other sanctions listed above, or elsewhere in these ordinances, nor shall the imposition of such sanctions be construed as a limitation on prosecution.

(Sec. 39.08 Cr. by ORD-15-00128, 11-25-15)

CHAPTER 40

CONVEYANCE CODE

Section

40.01 Statement of Purpose.
40.02 Effective Date of Chapter.
40.03 Adoption of Standards.
40.035 Changes, Additions or Omissions to ASME A17.1.
40.04 Definitions.
40.05 Authority of the Fire Chief.
40.06 Application.
40.07 Plan Review and Permits for Construction, Installation, and Alteration.
40.08 Permits to Operate.
40.09 Inspection Responsibilities.
40.10 Orders.
40.11 Fees.
40.115 Conveyance Maintenance.
40.12 Petition for Variance.
40.13 Appeals.
40.14 Severability.
40.15 City's Right to Relinquish Plan Examination and Inspection Authority.
40.16 Penalties.

40.01 STATEMENT OF PURPOSE. The purpose of this chapter is to protect the health, safety, and welfare of the public and employees by establishing minimum standards for the design, construction, installation, operation, inspection, testing, maintenance, alteration and repair of conveyances installed in the City of Madison.

40.02 EFFECTIVE DATE OF CHAPTER. This chapter is effective April 1, 2009 and upon the City receiving from the Wisconsin Department of Safety and Professional Services a designation as an agent municipality, granting the Fire Chief and the Chief's designees the authority to review and approve conveyance plans and specifications, conduct inspections and issue permits to operate for those types of installations to be located within the City of Madison, pursuant to the Wis. Admin. Code § SPS 318.1016. (Am. by ORD-12-00035, 3-28-12)

40.03 ADOPTION OF STANDARDS. The most current edition and any subsequent editions of the following are adopted by reference and made a part of this chapter:

(1) Wis. Admin. Code ch. SPS 318 (SPS 318).

(2) Wis. Admin. Code chs. SPS 361 to 365.

(3) The Safety Code for Elevators and Escalators, ASME A17.1 and referenced codes and standards, as adopted and modified by SPS 318 and Sec. 40.035, MGO. (Am. by ORD-10-00083, 9-15-10)

(4) The Safety Standard for Platform Lifts and Stairway Chairlifts, ASME A18.1 and referenced codes and standards, as adopted and modified by SPS 318.

(Am. by ORD-12-00035, 3-28-12)

40.035 CHANGES, ADDITIONS OR OMISSIONS TO ASME A17.1.

(1) The following language is in addition to the requirements in ASME A17.1: In each elevator an audible signaling device shall be provided. It shall be operable from the emergency stop switch, where required, and from a switch identified as "ALARM", which shall be provided in or adjacent to each car operating panel. The "ALARM" switch of

visual identification shall illuminate when the "ALARM" switch is actuated. One audible signaling device shall be permitted to be used for a group of elevators. The audible signaling device shall:

(a) Have a rated sound pressure rating of not less than 80dBA and no more than 90dBA at 3 m (10 feet);

(b) Respond without delay after the switch has been activated;

(c) Be located inside the building and audible inside the car and outside the hoistway; and

(d) For elevators with a travel greater than 30 m (100 ft), be duplicated as follows:

1. One device shall be mounted on the car; and

2. A second device shall be placed at the designated level.

(Sec. 40.035 Cr. by ORD-10-00083, 9-15-10)

40.04 DEFINITIONS. To the extent the terms in this section and any other terms used in this chapter are defined by Wis. Stat. ch. 101 and SPS 318, such definitions shall apply to this chapter. In the event any definition contained in Wis. Stat. ch. 101 is modified by SPS 318, the definition in the Administrative Code shall apply. (Am. by ORD-12-00035, 3-28-12)

For purposes of this chapter, the following definitions apply:

(1) "Alteration" means any change to equipment, including its parts, components, or subsystems, other than maintenance, repair, or replacement.

(2) "ANSI" means the American National Standards Institute.

(3) "ASME" means the American Society of Mechanical Engineers.

(4) "Chief" means the Madison Fire Department Chief and the Chief's designees.

(5) "Conveyance" means an elevator, an escalator, a dumbwaiter, a belt manlift, a moving walkway, a platform lift, a personnel hoist, a material hoist and a stairway chair lift, and any other similar device, such as an automated people mover, used to elevate or move people or things, as provided in the rules of the Department of Safety and Professional Services. "Conveyance" does not include a grain elevator, a ski lift or towing device or an amusement or thrill ride. (Am. by ORD-12-00035, 3-28-12)

(6) "Dwelling Unit" means a structure or that part of a structure which is used or intended to be used as a home, residence or sleeping place by one person or by two or more persons maintaining a common household, to the exclusion of all others.

(7) "Elevator" means a hoisting or lowering machine, other than a dumbwaiter, equipped with a compartment or platform that moves in guides and serves two or more floors or landings of a building or structure.

(8) "Elevator contractor" means an individual holding an elevator contractor's license from the Wisconsin Department of Safety and Professional Services under Wis. Stat. § 101.985(1).

(9) "Elevator inspector" means an employee of the Madison Fire Department that holds an elevator inspector license from the Wisconsin Department of Safety and Professional Services pursuant to Wis. Stat. § 101.985(3).

(10) "Elevator mechanic" means an individual holding an elevator mechanic's license from the Wisconsin Department of Safety and Professional Services under Wis. Stat. § 101.985(2).

(11) "Equipment" means any of the equipment covered by this chapter as defined in Sec. 40.05 of this chapter.

(12) "Escalator" means a power-driven, moving stairway used for raising and lowering people.

(13) "Material lift" means a lift, other than a personnel lift, that is used to raise or lower materials during construction, alteration, or demolition of a building or structure.

(14) "Personnel lift" means a lift that is installed inside or outside a building or structure during the construction, alteration, or demolition of the building or structure and that is used to raise and lower individuals and materials which the lift is designed to carry.

(15) "Power Dumbwaiter" means a power-driven hoisting and lowering mechanism that satisfies all of the following conditions:

(a) Is equipped with a compartment that moves in guides in a substantially vertical direction and has a floor area of not more than nine (9) square feet.

(b) Has a maximum lifting and lowering capacity of not more than five hundred (500) pounds.

(c) Is used exclusively for carrying materials.

40.05 AUTHORITY OF THE FIRE CHIEF.

(1) The Fire Chief shall have the authority, as a designated municipal agent of the Department of Safety and Professional Services pursuant to Wis. Admin. Code § SPS 318.1016, to review and approve conveyance plans and specifications, including plans to construct, install, or alter any equipment covered by this chapter, to conduct inspections, and issue permits to operate for devices located with the City of Madison requiring approval and inspection under this chapter. (Am. by ORD-12-00035, 3-28-12)

(2) The Chief may delegate authority and duties under this chapter to individuals who hold the necessary licenses and qualifications for performing duties under this chapter as specified by Wis. Admin. Code § SPS 35.64 and § SPS 318.1016. The activities of such individuals shall be construed as a valid activity of the Chief. (Am. by ORD-12-00035, 3-28-12)

(3) The Chief may, at reasonable hours, request permission of the owner or occupant to enter any building or premises containing equipment subject to this chapter for the purpose of making any inspection or investigation which, under the provisions of this chapter, s/he may deem necessary.

(4) The Chief may obtain a special inspection warrant under Wis. Stat. § 66.0119 when necessary for the purpose of making an inspection of any building or premises containing equipment subject to this chapter where the owner or occupant has refused admission to the Chief.

(5) No person, having been duly informed of the existence of a warrant pursuant to sub. (4) to inspect the building or premises owned or occupied by that person, shall refuse to permit such search to be made. Each day or portion thereof during which such refusal continues shall be deemed a separate offense.

40.06 APPLICATION

(1) Covered Equipment. This chapter applies to any of the following equipment installed in or at a public building, a place of employment, or a dwelling unit within the City of Madison:

(a) Passenger elevators

(b) Freight elevators

(c) Limited-use/limited application elevators

(d) Inclined elevators

(e) Power sidewalk elevators

(f) Rooftop elevators

(g) Special purpose personnel elevators

(h) Private residence elevators installed in public buildings or places of employment prior to July 1, 2002

(i) Escalators

(j) Moving walks

(k) Stage and orchestra lifts

(l) Type B material lifts

(m) Vertical platform lifts within the scope of ASME A18.1a

(n) Inclined platform lifts within the scope of ASME A18.1a

(2) Covered Equipment. This chapter applies to any of the following equipment installed in or at a public building or a place of employment within the City of Madison:

(a) Power dumbwaiters

(b) Stairway chairlifts

(3) Except as otherwise specified in Subchapter VII of Chapter 101 of the Wisconsin Statutes and SPS 318, all new and existing installations and alterations of equipment covered by this chapter shall conform to the provisions in this chapter. Existing conditions not in strict compliance with the terms of this chapter shall be permitted to continue where the exceptions do not constitute a hazard to life or property in the opinion of the Fire Chief. (Am. by ORD-12-00035, 3-28-12)

(4) In the event of a conflict between any provisions of this chapter and the Wisconsin Administrative Code, the Safety Code for Elevators and Escalators, ASME A17.1, or the Safety Standard for Platform Lifts and Stairway Chairlifts, ASME A18.1a, the code or chapter containing the strictest provision shall apply.

(5) A copy of the codes and standards incorporated by references shall be kept at all times and available for inspection during reasonable hours in the office of the Chief.

40.07 PLAN REVIEW AND PERMITS FOR CONSTRUCTION, INSTALLATION, AND ALTERATION.

(1) General Requirements. An elevator contractor shall submit plans and permit applications for the installation of any new or altered conveyance to the Chief for approval. Such application shall be submitted on a permit form as required by the Chief. No work shall commence before the plans and permit application for conveyances are approved by the Chief in writing and the appropriate plan examination and permit fees have been paid. The Chief will authorize commencement of work by means of a written approval letter, issued by the Chief. Such approval letter shall be posted prior to construction at or near the equipment space at the construction site and shall remain posted until the final inspection determines compliance with this chapter. The approval letter shall be considered a permit specified by Wis. Stat. § 101.983(1).

(2) New Installations.

(a) Number of Plans. An elevator contractor shall submit all of the following to the Chief for plan review and approval for the proposed installation of any new conveyance:

1. At least three (3) copies of bound equipment layout plans and specifications.
2. At least three (3) copies of the permit application.

(b) Information on Equipment Plans or Specifications. Information on equipment plans or specifications shall conform to the applicable sections in ASME A17.1 and ASME A18.1a and include all of the following:

1. A plan of the car, hoistway, and machine room, control room or control space showing all clearances, including all inside car or platform dimensions specified in this chapter and in Wis. Admin. Code chs. SPS 361 to 365. (Am. by ORD-12-00035, 3-28-12)
2. A cross-section drawing through the hoistway, pit, car and machine room, control room or control space that shows all applicable dimensions. Landings shall be shown, indicating types of hoistway doors or gates.
3. A complete dimensioned layout of the machine room, control room, or control space showing working clearances around machine, controller and disconnecting means.
4. The size and weight per foot of guiderails and details of the guiderail supports, including reinforcements where required.

5. Sufficient data and information to determine if the conveyance and machine room, control room or control space comply with the requirements of this chapter.
6. For conveyances serving public buildings and places of employment, at least one copy of the equipment plans and specifications containing the original shop drawing stamp of the supervising building designer.

(c) Building Plan Approval. Building plan approval, where applicable, shall be included with the conveyance plan submittal.

(3) Alterations.

(a) Equipment Plans and Application Required.

1. A permit application form provided by the Chief and at least three (3) copies of equipment plans and specifications complying with sub. (2) shall be submitted for examination to the Chief for the proposed alteration of conveyances as specified in Tables SPS 318.1013-1 through 18.1013-7, Wis. Admin. Code § SPS 318.1013.
2. Evidence of building plan approval, where applicable, shall be included with the conveyance plan submittal.

(b) Application Required. At least three (3) copies of the completed permit application form shall be submitted to the Chief for examinations for the alterations, repairs, and replacements specified in Tables SPS 318.1013-4 to 318.1013-7.

(Am. by ORD-12-00035, 3-28-12)

(4) Plan Review Actions.

(a) Review of Plans. All approvals of permit application and plans for installation, repair, replacement, or alteration of equipment covered by this chapter in the City of Madison shall be performed by the Chief.

(b) Conditional Approval. If, upon examination, the Chief determines that the permit application and plans for installation, repair, replacement, or alteration substantially comply with the provisions of this chapter, a condition approval, in writing, shall be granted. All conditions that do not comply with this chapter shall be stated in the conditional approval and shall be corrected prior to completion of installation. A conditional approval issued by the Chief shall not be construed as an assumption of any responsibility or liability for the design or construction of the equipment.

(c) Revocation of Approval. The Chief may revoke any approval, issued under this chapter if the Chief determines any of the following:

1. Information provided in the application or the permit contains false statements of material fact or misinterpretations of material fact.
2. That the approval was issued in error.
3. That the work performed is not consistent with the approval or is in violation with this chapter.

(d) Denial of Approval. If the Chief determines the plans or permit application do not substantially comply with the provisions of this chapter, the permit application for approval shall be denied in writing.

(e) Processing Time. The Chief shall review and make a determination on a permit application for approval of an installation or an alteration of a conveyance within fifteen (15) business days. If a permit application has been submitted with inadequate information or fees, the application will be placed on hold and the Chief will notify the applicant of the information needed to process the application. Upon receipt of the complete information, the Chief will process the permit. The length of the processing time shall begin the day after the receipt of the completed permit or application, additional information or fees. The ending date, which shall be used to assess whether the permit was timely processed, shall be the date the Chief made a determination to approve, deny or withhold the permit.

(f) Expiration of Approval. An approval issued under this chapter expires under any of the following circumstances:

1. If the work authorized under the approval is not commenced within six (6) months after the date on which the approval is issued.
2. If the work authorized under the approval is suspended or abandoned for sixty (60) consecutive days at any time following the commencement of the work.

(g) Resubmittal. When an approval expires under sub. (f), plans shall be resubmitted in accordance with this section.

(h) Chief's Option to Waive Jurisdiction. The Chief may waive jurisdiction for plan review and approval of any project at the Chief's discretion, in which case such plan review and approval shall be conducted by the Department of Safety and Professional Services.

40.08 PERMITS TO OPERATE.

(1) Issuance. No owner may use or operate a conveyance in the City of Madison until an acceptance inspection, periodic inspection, or test of equipment covered by this chapter has been performed by the Chief and the conveyance is found to be in compliance with the provisions of this chapter. Upon finding a conveyance to be in compliance with this chapter, the Chief shall issue a permit to operate within thirty (30) business days of the inspection by the Chief provided such inspection demonstrates to the satisfaction of the Chief the equipment complies with the provisions of this chapter. (Am. by ORD-09-00096, 6-20-09)

(2) Display. The owner of a building in which a conveyance is located shall display the permit to operate issued under this section applicable to the conveyance on or in the conveyance, or, if applicable, in the machinery room or space. No owner may operate or use any conveyance without displaying the permit to operate as required by this subsection.

(3) Term. The term of any permit to operate shall be for one year, the expiration date shall be established by the Chief. (Am. by ORD-09-00096, 6-20-09)

(4) Renewal. Upon performing the inspection, the Chief shall give the owner notice of relevant conveyance safety requirements that must be complied with and shall instruct the owner as to the procedure for obtaining periodic inspections and reviewing the permit under which the conveyance is operated. (Am. by ORD-09-00096, 6-20-09)

(5) Revocation. The Chief may revoke a permit to operate if the equipment is found to be in non-compliance with the applicable safety standard. Upon revocation of the permit to operate, the Chief shall notify the owner, in writing, of the non-complying items and the appeal rights outlined in Sec. 40.13.

40.09 INSPECTION RESPONSIBILITIES.

(1) General.

(a) All inspections of conveyances required by this chapter and SPS 318 shall be conducted by the Chief who is licensed in accordance with Wis. Admin. Code § SPS 35.64. (Am. by ORD-12-00035, 3-28-12)

(b) The Chief shall prepare an inspection report that identifies items of noncompliance. Items listed on the inspection report as being out of compliance with this chapter shall be corrected on or before the compliance date stated on the report.

(2) Inspection Procedures.

(a) The Chief shall be notified at least seven (7) days from when work covered by Section 40.07 is complete and ready for an inspection to be scheduled.

(b) If the equipment is not complete and ready at the time of the scheduled inspection, the inspection will not be made and a fee as specified in Sec. 40.11(3) shall be assessed and a reinspection will be scheduled.

(c) Unless the Chief receives in writing a cancellation of a scheduled inspection at least seven (7) days prior to the scheduled inspection date, a fee as specified in Sec. 40.11(3) will be assessed for the cancellation.

(d) Equipment found to be in noncompliance must be reinspected as determined by the Chief to obtain compliance with the provisions of this chapter.

(3) Types of Inspection or Tests.

(a) Acceptance of Inspection or Tests. The Chief shall conduct acceptance inspections and tests as specified in ASME A17.1 section 8.10, and ASME A18.1a section 10.1.3.

(b) Periodic or Routine Inspections. The Chief shall conduct periodic or routine inspections as specified in ASME A17.1 section 8.11, and ASME A18.1a sections 10.2 and 10.3.

(c) Periodic Tests.

1. Periodic tests as specified in ASME A17.1 section 8.11 and ASME A18.1a section 10.3 shall be conducted by persons licensed or registered as specified by Wis. Admin. Code § SPS 35.991. (Am. by ORD-12-00035, 3-28-12)

2. Reports containing complete information for these tests shall be kept on site in a conspicuous location adjacent to the conveyance controller on Madison Fire Department test form. Within thirty (30) days of testing, results shall be reported electronically via the City of Madison electronic reporting system. Incomplete tests or failed tests shall be submitted within three (3) business days to the Madison Fire Department for review. (Am. by ORD-10-00083, 9-15-10)

3. Periodic tests or retests may be required to be witnessed by the Chief.

40.10 ORDERS. Pursuant to the authority granted under this chapter, whenever the Chief shall find any equipment covered by this chapter in a condition deemed by the Chief to constitute a danger to health, safety, or well-being, the Chief shall order such condition(s) to be immediately corrected.

(1) Stop Work Orders. The Chief has authority under this chapter to order the stoppage of work on any equipment covered by this chapter when such work is not authorized by the Chief or when such work is in violation of this chapter.

(2) Stop Use Orders. The Chief has authority under this chapter to order the stoppage of use of any equipment covered by this chapter which the Chief deems necessary due to the imminent hazard to the life, safety, and well-being of the public.

(3) Notice. The notice of orders shall be made upon the owner or occupant of the building in which the equipment is contained, either by personal service of such order upon the owner or occupant or by mailing such orders to the owner, occupant, or other responsible person.

40.11 FEES. Fees for plan review, permit applications, inspection, permits to operate, and other services performed by the Chief pertaining to conveyances shall be submitted as follows:

(1) Plan Examination, Application and Initial Inspection Fees. Fees for the initial inspection of plans or for an application for installation or alteration, submitted in accordance with the requirements of Wis. Admin. Code § SPS 318.1013 shall be determined as shown in the table below. A reinspection fee as specified in the table below shall be charged for each inspection conducted until the installation or alteration qualifies for a permit to operate: (Am. by ORD-12-00035, 3-28-12)

Plan Examination and Inspection Fees for Conveyances

Type of Unit	Plan Examination		Type of Inspection		
			Acceptance or Acceptance Re-inspection		
	New Installations	Alterations, Repairs and Remodeling	New Installations	Alterations, Repairs and Remodeling	Periodic or Periodic Re-inspection
1. Traction elevator, other elevator driving machines	$400.00	$200.00	$800.00	$400.00	$320.00
2. Hydraulic elevator	$320.00	$160.00	$720.00	$360.00	$240.00
3. Dumbwaiter, platform lift, stair chair lift, special application elevator	$320.00	$160.00	$640.00	$320.00	$160.00
4. Escalator, moving walk	$320.00	$160.00	$800.00	$400.00	$320.00

(2) Periodic Inspection and Reinspection Fees. Fees for periodic inspections and reinspections of all classes of conveyance devices within the scope of this chapter shall be determined in accordance with the fee table in sub. (1). An inspection fee shall be charged for each reinspection of an elevator in accordance with the fee table in sub. (1) until the installation qualifies for a permit to operate.

(3) Fee for Failure to Have Equipment Ready for Inspection. A fee equal to fifty percent (50%) of the applicable inspection fee shall be assessed for failure to have the conveyance ready for inspection on the date specified, unless the Chief is notified, in writing, seven (7) business days prior to the specified inspection date.

(4) Miscellaneous Fees. Inspections outside of normal work hours (Monday through Friday 7:00 a.m. to 5:00 p.m.) whether required or requested shall be subject to a fee of eighty dollars ($80) per hour in addition to the applicable fees as specified in this section.

(5) Fee for Permit to Operate. The fee for a permit to operate under this chapter shall be fifty dollars ($50) effective January 1, 2012. Such fee shall be paid with any inspection fees due and owing to the Clerk of the City of Madison. The City shall retain the inspection fee and forward the permit fee to the Department of Safety and Professional Services. (Am. by ORD-11-00150, 11-8-11)

(6) Unpaid Fees. The Chief shall keep an accurate account of all unpaid fees incurred for plan examinations, inspections, reinspections, failure to have equipment ready under this chapter, permits to operate, and any other fees for services rendered under this chapter, and report the same to the Finance Director, who shall annually prepare a statement of these unpaid fees as a special charge at each lot or parcel of land and shall report such statement of unpaid fees to the City Clerk, and the amount charged therein charged to each lot or parcel of land shall be by said Clerk entered in the tax roll as a special charge against said lot or parcel of land, and the same shall be collected in all respects like other special charges upon real estate as provided in Wis. Stat. § 66.0703. (Am. by ORD-11-00037, 3-8-11)

40.115 CONVEYANCE MAINTENANCE.

All conveyances, required under this chapter or Chapter 29 of the Madison General Ordinances, shall be maintained and operational at all times. Exceptions:

1. When the conveyance is undergoing routine testing.
2. When the conveyance is undergoing routine maintenance.

(Sec. 40.115 Cr. by ORD-11-00056, 4-7-11)

40.12 PETITION FOR VARIANCE. Any variance from the provisions of the SPS 318, ASME 17.1,

ASME 18.1, or ANSI Codes must be submitted to the Wisconsin Department of Safety and Professional Services.

40.13 APPEALS. The owner of conveyance subject to this chapter or any other person directly affected by a decision of the Chief under this subsection may appeal such decision to the Board of Building Code, Fire Code, Conveyance Code, and Licensing Appeals, as provided in Sec. 29.18, MGO. Such appeal must be commenced by filing a written notice of appeal with the City Clerk and upon payment of fifty dollars ($50) payable to the City of Madison within thirty (30) days of the Chief's decision to be appealed. The Board may, by majority vote, uphold, overrule or modify the action of the Chief. Nothing in this section shall limit an owner's authority under the Wis. Admin. Code § SPS 318.1009(2) to challenge a local order as unreasonable and in conflict with the rules of the Department of Safety and Professional Services. (Am. by ORD-12-00035, 3-28-12; ORD-12-00042, 4-19-12)

40.14 SEVERABILITY. If any section, paragraph, sentence, or word of this chapter hereby adopted by the Common Council of Madison should be declared for any reason to be invalid, it is the intention of said Council that other sections, provisions, or applications of such chapter to other persons or circumstances shall not be affected thereby. It is the stated intention of the Council that this chapter would have been adopted had such invalid portions, if any, not been adopted.

40.15 CITY'S RIGHT TO RELINQUISH PLAN EXAMINATION AND INSPECTION AUTHORITY.

The City of Madison maintains the right to relinquish any and all responsibility for plan examination and inspection under this chapter by providing written notice to the Department of Safety and Professional Services no less than ninety (90) days prior to the date upon which the City intends to relinquish such authority.

40.16 PENALTIES.

Any person violating a provision of this chapter may be subject to a forfeiture of not less than ten dollars ($10) nor more than one thousand dollars ($1000). Each day or portion thereof such violation continues shall be considered a separate offense.

(Chap. 40 Cr. by ORD-09-00019, 3-14-09)

CHAPTER 41

HISTORIC PRESERVATION

Section

Subchapter 41A: General Provisions

41.01 Policy and Purpose.
41.02 Definitions.
41.03 General Administrative Provisions.

Subchapter 41B: Landmarks Commission

41.04 Landmarks Commission.
41.05 Preservation Planner.
41.06 Public Hearings and Hearing Notices.

Subchapter 41C: Landmarks

41.07 Designating Landmarks.
41.08 Rescinding a Landmark Designation.
41.09 Altering or Demolishing Landmarks.

Subchapter 41D: Historic Districts

41.10 Creating and Amending Historic Districts.
41.11 Historic District Ordinance Requirements.
41.12 Constructing, Altering, or Demolishing Structures in Historic Districts.

Subchapter 41E: Maintenance of Landmarks, Landmark Sites and Historic Districts

41.13 Public Interest in Preservation and Maintenance.
41.14 Maintenance Obligation; Enforcement; Penalties.
41.15 Demolition by Neglect.

Subchapter 41F: Certificates of Appropriateness—Projects on Landmarks, Landmark Sites and in Historic Districts

41.16 Certificate of Appropriateness Required.
41.17 Obtaining a Certificate of Appropriateness.
41.18 Standards for Granting a Certificate of Appropriateness.
41.19 Variances.
41.20 Appeal to Common Council.
41.21 Penalties for Failure to Obtain Certificate of Appropriateness.

Subchapter 41G: Designated Historic Districts, Historic District Ordinances

41.22 Mansion Hill Historic District.
41.23 Third Lake Ridge Historic District.
41.24 University Heights Historic District.
41.25 Marquette Bungalows Historic District.
41.26 First Settlement Historic District.

SUBCHAPTER 41A: GENERAL PROVISIONS

41.01 POLICY AND PURPOSE. The Common Council recognizes that the City of Madison contains buildings, structures, signs, features, improvements, sites, and areas that have significant architectural, archaeological, anthropological, historical, and cultural value. The Common Council further recognizes that these historic resources represent the City's unique heritage, contribute to the health, prosperity, safety and welfare of the City's residents, and serve as a source of great interest to the City's residents and visitors. Therefore, the Common Council hereby finds that it is in the public interest to identify, protect, preserve, promote, conserve and use historic resources within the City. The purpose of this chapter is therefore to:

(1) Accomplish the identification, protection, promotion, preservation, conservation and use of the City's historic resources, as embodied and reflected in the city's historic districts and landmarks.

(2) Ensure that the City's growth sensitively incorporates the City's historic resources.

(3) Enhance the visual and aesthetic character of the City by ensuring that new design and construction, when it happens, complements the City's historic resources.

(4) Provide a framework for appropriate reinvestment in the City's landmarks and historic districts that ensures new design and construction, when it happens, complements the City's historic resources and conforms to the standards of the historic district.

(5) Safeguard the City's historic resources and investment in them by establishing an obligation to maintain them, and encouraging the vigorous enforcement of this ordinance.

(6) Recognize that the city's historic resources are economic assets that can attract residents and visitors, create jobs, stabilize and improve property values, and stimulate business and industry.

(7) Foster civic pride in the beauty and noble accomplishments of the past.

(8) Promote the use of and investment in historic districts and landmarks for the education, pleasure and welfare of the people of the City.

(9) Provide a clear regulatory framework for implementing, balancing, and accomplishing the public policy announced in this chapter.

41.02 DEFINITIONS. In this chapter:

Alteration means any change, addition or modification to an improvement or grading (see improvement).

Architectural Feature means the distinguishing exterior elements of a building or structure including shape, size, design, style, fenestration, materials and decorative details.

Building means any structure having a roof that may provide shelter, support, protection or enclosure of persons, animals, or property of any kind (See structure.).

Building Inspector means the Director of the Building Inspection Division or designee.

Bulk means the size and setbacks of buildings or structures and the location of such buildings or structures with respect to one another.

Certificate of Appropriateness means an official form issued by the Preservation Planner stating that the proposed work on a designated landmark or on a building in a historic district is in accord with the requirements of this ordinance and that (1) the proposed work may be completed as specified in the certificate; and (2) that the Building Inspector may issue any permits needed to do the work specified in the certificate.

Character (of a Building and a Historic District) means the sum of all physical attributes in a historic place which can include setting, property types, form, proportion, architectural style, construction methods, and materials.

Commission or Landmarks Commission means the Landmarks Commission created under Sec. 33.19, MGO.

Construction means the erection of any new structure or the alteration of any existing structure (See structure and alteration.).

Demolish means the act or process that removes or destroys in whole or in part a building, structure, or resource.

Demolition by Neglect means the process of allowing landmarks, landmark sites or improvements in historic districts to decay, deteriorate, become structurally defective, or otherwise fall into disrepair.

Development means any improvement or alteration to an existing improvement.

Guideline means a principle put forward to help determine a course of action. Under this ordinance, guidelines adopted in a historic district shall serve as a collective set of principles to promote architectural compatibility of new construction and exterior alterations in a historic district.

Gross Volume means the entire volume measured in cubic feet enclosed by a structure including attached structures, dormers, attics, crawl spaces, or penthouses. Gross volume is measured from the outside surface of the exterior walls including any portions above existing grade to the roof line. It does not include courtyards with no roof, balconies, canopies, or portions below grade. Decorative or structural features that extend beyond the plane of the outside face of the exterior wall such as trim, cornices, pilasters, buttresses and overhangs are not included.

Height (of a Building) means the vertical distance in feet measured from the arithmetic mean ground level adjoining the structure to the highest point of the roof or parapet of a building, whichever is higher, or to the top of a structure.

Historic District means an area designated by the Common Council pursuant to Subchapter G of this ordinance.

Historic Resource means any building, structure, sign, feature, improvement, site, or area having significant architectural, archaeological, anthropological, historical, or cultural value. Historic Resources include properties designated as landmarks or historic resources in a historic district ordinance.

Improvement means any structure, landscape feature or object intended to enhance the value or utility of a property (See structure, landscape feature and object.)

Landmark means

(a) Any improvement which has architectural, cultural, or historic character or value reflecting the development, heritage or cultural characteristics of the City, state or nation and which has been designated as a landmark pursuant to the provisions of this chapter, or

(b) Any land of historic significance due to a substantial value in tracing the history of humankind, or upon which an historic event has occurred, and which has been designated as a landmark pursuant to the provisions of this chapter.

Landmark Site means the lot or parcel identified in the official landmark designation maintained by the City Planning Division. If a landmark designation does not identify a lot or parcel, landmark site means any lot, or part thereof, on which is situated a landmark, and any abutting lot, or part thereof, used as and constituting part of the premises on which the landmark is situated.

Landscape means the improvements, topography, plants and open spaces in an area and their arrangement and patterns (See improvement.).

Landscape Feature means any improvement to the natural landscape including plants, gardens, parks, greenways and landscaping around structures (See improvement.).

Lot means a tract of land, designated by metes and bounds, land survey, minor land division or plat recorded with the Dane County Register of Deeds.

Master means an architect or designer of recognized greatness who is responsible for a body of published work or structures that are notable for their quality, innovation, or level of proficiency within their craft.

Natural Feature means any native plant community, geological feature, or other natural element. Examples include prairies, oak savannas, water elements, topography, or rock outcroppings.

Object means any improvement that is of relatively small scale or of simple construction for primarily ornamental or artistic purposes including fountains, monuments, or sculptures (See improvement.).

Owner means any person having legal possession, custody, or control of an improvement on a landmark site or in an historic district.

Period of Significance means the duration of time between beginning and ending years during which a historic district is associated with the important events, activities, persons, or attained characteristics which qualify it for historic district status. Specific periods of significance are identified for each historic district in Subchapter G.

Person means an individual, corporation, partnership, limited liability company, cooperative, trust, association or business entity. For purposes of repeated violations of the provisions of this chapter, any corporation, partnership, limited liability company, cooperative, trust, association or business entity is considered the same as another corporation, partnership, limited liability company, cooperative, trust, association or business entity if they share at least one (1) officer.

Preservation means the act or process of applying measures necessary to sustain the existing form, integrity, and materials of a historic property or historic resource.

Preservation Planner means the person designated under Sec. 41.05.

Reconstruction means the act or process of depicting, by means of new construction, the form, features, and detailing of a non-surviving site, landscape, building, structure, or object for the purpose of replicating its appearance at a specific period of time and in its historic location.

Rehabilitation means the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features of the property which convey its architectural and cultural values.

Restoration means the act or process of accurately depicting the form, features, and character of a property as it appeared at a particular period of time by means of the removal of features from other periods in its history and reconstruction of missing features from the restoration period.

Secretary of the Interior's Standards for the Treatment of Historic Properties means the principles developed by the National Park Service (36 C.F.R. 68.3, as may be amended) to help protect historic properties by promoting consistent preservation practices and providing guidance to historic building owners and building managers, preservation consultants, architects, contractors, and project reviewers on how to approach the treatment of historic properties. The Secretary of the Interior Standards for Treatment of Historic Properties may also be referred to in this ordinance as "Secretary of the Interior's Standards."

Site means any location of an event, a prehistoric or historic occupation or activity where the location itself maintains value or significance. Examples include Indian trails, effigy mounds, battlegrounds, or locations of former structures.

Standard means a rule that is required. Under this ordinance, all standards adopted in a historic district must be complied with in every instance of development in that district.

Structure means any building or improvement attached to land (See building and improvement.).

Visually Compatible means harmonious with location, context, setting and character.

41.03 GENERAL ADMINISTRATIVE PROVISIONS.

(1) Computing Time Periods. In computing any period of time prescribed by this ordinance, the day of the act or event from which the designated period of time begins shall not be included. The last day of the period so computed shall be included. When the period of time prescribed or allowed is less than eleven (11) days, Saturdays, Sundays and holidays shall be excluded from the computation.

(2) Conflicting Regulations. Where the regulations imposed by this ordinance are either more or less restrictive than regulations in other ordinances or laws, including Chapter 28, MGO, the regulations which are more restrictive or which impose higher standards or requirements shall prevail, unless an exception to this provision is specifically noted.

(3) Separability. A court decision invalidating any provision or application of this chapter does not invalidate any other provision or application of this chapter, except as specifically provided by law or court order.

(4) Imminent Threat to Life, Health or Property. This chapter does not limit, or require Landmarks Commission approval for, any construction, reconstruction, alteration or demolition that is specifically ordered by a court or governmental agency to prevent an imminent threat to life, health or property.

(5) Measuring 200 Feet Around Properties. Certain provisions of this chapter reference properties that are within two hundred (200) feet of a subject property. Under this chapter, measurements around properties shall be taken from the lot lines of the subject property two hundred (200) feet in all directions. Any improvements located on lots that fall within this measurement shall be considered within two hundred (200) feet of the subject property.

(6) Transition Rule. The comprehensive revision of the Historic Preservation ordinance is happening in two phases, best described as Subchapters A-F (Phase I) and Subchapter G (Phase II), with the formal adoption of Phase I happening before the formal adoption of Phase II. The revision of Subchapters A-F was not intended to change the substance of the historic district ordinances contained in Subchapter G. If conflicts exist between standards contained in Subchapters A-F and standards contained in Subchapter G, the standards in Subchapter G shall prevail. Upon the formal adoption of Phase II, this transition rule shall no longer apply and staff shall ensure that this transition rule is removed from the chapter.

SUBCHAPTER 41B: LANDMARKS COMMISSION

41.04 LANDMARKS COMMISSION. The Landmarks Commission shall do all of the following with advice and assistance from the Preservation Planner.

(1) Administer this chapter.

(2) Carry out its responsibilities under Secs. 28.144, 28.185, and 33.19(2), MGO.

41.05 PRESERVATION PLANNER. The Preservation Planner is a staff member of the Department of Planning and Community and Economic Development. The Preservation Planner shall staff the Landmarks Commission and carry out the duties that the Landmarks Commission properly delegates to the Preservation Planner under this chapter. In carrying out those duties, the Preservation Planner shall exercise his or her own professional judgment and expertise, consistent with this chapter and subject to general oversight by the Landmarks Commission.

41.06 PUBLIC HEARINGS AND HEARING NOTICES.

(1) Hearings, General. The Landmarks Commission shall hold a public hearing whenever a hearing is required by this chapter, and may hold other hearings as necessary to carry out its responsibilities under Sec. 41.04 and Sec. 33.19.

(2) Hearing Notices, General. Notice of the time, place and purpose of the hearing shall be given by a Class 2 Notice in the official City newspaper or as otherwise allowed under Wis. Stat. § 985.07, for all of the following:

(a) Any hearing on the proposed designation of a landmark under Sec. 41.07 or the proposed rescission of a landmark designation under Sec. 41.08.

(b) Any hearing on a proposed certificate of appropriateness under Subchapter F.

(c) Any hearing on a proposed variance under Sec. 41.19.

(d) Any hearing on the proposed creation or amendment of a historic district under Subchapter D.

(e) Any hearing on a Notice of Demolition by Neglect under Sec. 41.15. (Cr. by ORD-16-00082, 9-15-16)

(3) Additional Notice; When Required. In addition to notice provided under sub. (2) above, the Commission shall in the following cases provide additional notice to the following persons at least ten (10) days prior to the hearing date:

(a) If the hearing pertains to a specific site or structure:

1. Each owner of record of the lot on which that site or structure is located.
2. Each owner of record of each lot located within two hundred (200) feet, measured according to Sec. 41.03(5) of any lot on which the site or structure is wholly or partially located.

(b) If the hearing pertains to the creation or amendment of a historic district:

1. All owners of record of lots located wholly or in part within the historic district.
2. The alder of each aldermanic district in which any part of the historic district is located.

(c) If the hearing pertains to a proposed certificate of appropriateness or variance, to the alder in whose aldermanic district the affected site or structure is located.

SUBCHAPTER 41C: LANDMARKS

41.07 DESIGNATING LANDMARKS.

(1) Designation. The Common Council, after considering the recommendation of the Landmarks Commission under sub. (5) below, may designate a landmark according to this section.

(2) Standards. A site, improvement, or site with improvements may be designated as a landmark if the proposed landmark meets any of the following:

(a) It is associated with broad patterns of cultural, political, economic or social history of the nation, state or community.

(b) It is associated with the lives of important persons or with important event(s) in national, state or local history.

(c) It has important archaeological or anthropological significance.

(d) It embodies the distinguishing characteristics of an architectural type inherently valuable as representative of a period, style, or method of construction, or of indigenous materials or craftsmanship.

(e) It is representative of the work of a master builder, designer or architect.

(3) Nomination. Any person may nominate a site, improvement, or site with improvements for designation as a landmark. The person shall submit the nomination to the City Planning Division, to the attention of the Preservation Planner, on a nomination form approved by the Landmarks Commission. The nomination shall clearly identify the proposed landmark, landmark site, and document why it qualifies under sub. (2). The Preservation Planner may ask the person to submit additional information and documentation as needed to complete or clarify the nomination. When the Preservation Planner determines that the nomination is complete, the Preservation Planner shall refer the nomination to the Landmarks Commission.

(4) Landmarks Commission Review and Public Hearing. Whenever the Landmarks Commission receives a complete, accurate nomination under sub. (3), the Commission shall review the nomination. As part of its review, the Commission shall publish a hearing notice according to Sec. 41.06 and hold a public hearing on the nomination. The Commission may also conduct its own investigation of the facts, as it deems necessary.

(5) Landmarks Commission Action. After the Landmarks Commission holds a public hearing and completes its review under sub. (4), the Commission shall report to the Common Council a recommendation supporting or opposing the proposed landmark designation. The Commission may recommend landmark designation subject to terms and conditions that are consistent with this chapter. The Commission shall send a notice of the recommendation to each owner of record of each lot on which the proposed landmark is located at least ten (10) days before any meeting at which the Common Council may act on the Commission's recommendation.

(6) Common Council Action. After considering the Landmarks Commission's report recommendation under sub. (5), and based on the standards under sub. (2), the Common Council shall vote to designate or decline to designate the property as a landmark. The City Clerk shall promptly notify the Building Inspector and the City Assessor of each landmark designation. The City Clerk shall record the designation with the Dane County Register of Deeds at the City's expense.

(7) Voluntary Supplemental Restrictions. The Common Council may at any time supplement the terms of a landmark designation, pursuant to an agreement between the landmark owner and the Landmarks Commission, to enhance the preservation and protection of the landmark.

(8) Recognition of Landmarks. Whenever the Common Council designates a landmark under sub. (6), the Landmarks Commission shall affix a plaque identifying the property as a landmark to the landmark or landmark site. The plaque shall be placed so that it is easily visible to passing pedestrians. In the case of a landmark structure, the plaque shall include

the accepted name of the landmark, the date of its construction, and other information that the Landmarks Commission considers appropriate. In the case of a landmark that is not a structure, the plaque shall include the common name of the landmark and other information that the Commission considers appropriate. If the Commission determines that because the landmark is ecologically or culturally sensitive a plaque would be inappropriate, no plaque is required. No person may remove or modify a plaque without approval of the Preservation Planner.

(9) Amending a Landmark Designation. Any person may petition the Landmarks Commission to amend a Landmark Designation. The process for amending a landmark shall be the same as for designating a landmark under subsections (1)-(7) above.

41.08 RESCINDING A LANDMARK DESIGNATION.

(1) Common Council May Rescind. The Common Council, after considering the recommendation of the Commission under sub. (5) below, may rescind a landmark designation.

(2) Requesting Rescission.

(a) Any person who is listed as the owner of record of a landmark at the time of its designation who has held continuous ownership since designation, and any person who has inherited the landmark from such a person may petition for rescission of the designation. The request shall explain the grounds for the proposed rescission, and shall include documentation to show that the proposed rescission satisfies the standards under sub. (3)(a) below.

(b) Any person who is listed as the owner of record may petition for rescission of the designation. The request shall explain the grounds for the proposed rescission, and shall include documentation to show that the proposed rescission satisfies the standards under sub. (3)(b) below.

(c) The Preservation Planner may ask the landmark owner to submit additional information, as needed, to complete or clarify the request.

(3) Standards.

(a) A request to rescind a landmark designation under sub. (2)(a) above shall be approved only if the owner of record at the time of designation demonstrates that he or she is unable to find a buyer willing to abide by the regulations to which the project is subject, even though he or she has made reasonable attempts in good faith to find and attract such a buyer. Such attempts must be supported by evidence including but not limited to the following:

1. Comparable real estate listings showing current market values.
2. Current real estate listing including disclosure statement.
3. Dates of real estate agent showings.
4. Original listing date.
5. Original listing amount and dates of subsequent changes.
6. Value of improvements made to the property during ownership.
7. Current assessed value.
8. Whether the owner has received a fair and reasonable offer to purchase the structure.
9. List of routine maintenance and associated costs during ownership.

(b) A request to rescind a landmark designation under sub. 2(b) above shall be approved only when the physical appearance of the site has changed substantially such that the site no longer meets the standards set forth for designation in Sec. 41.07 of this ordinance, provided that such change was not due to the owner of record's failure to maintain the property as required by this ordinance.

(4) Landmarks Commission Review and Public Hearing. When the Preservation Planner finds that a request under sub. (2) above is complete, the Preservation Planner shall refer the request to the Landmarks Commission. The Commission shall review and hold a public hearing on the request for rescission. The Commission shall give prior notice of the

hearing as provided in Sec. 41.06. The Commission may gather other information, in addition to hearing testimony and evidence, which may be relevant to its evaluation of the request.

(5) Landmark Commission Action. After holding a public hearing and completing its review under sub. (4) above, the Landmarks Commission shall determine whether the requested rescission meets applicable standards under sub. (3) above. The Commission shall report its finding, along with reasons for it, to the Common Council. The Commission shall send written notice of its findings to each owner of record of each lot on which the landmark is located at least ten (10) days before any meeting at which the Common Council may act on the Commission's findings.

(6) Common Council Action. After considering the Commission's report under sub. (5) and applying the standards under sub. (3) above, the Common Council may rescind a landmark designation. The City Clerk shall notify the Director of the Building Inspection Division and the City Assessor of each rescission. The City Clerk shall record the rescission with the Dane County Register of Deeds at the City's expense.

41.09 ALTERING OR DEMOLISHING LANDMARKS. No person may do any of the following without a certificate of appropriateness issued under Subchapter F:

(1) Add a new structure to a landmark or landmark site.
(2) Materially alter a landmark or the exterior of a landmark.
(3) Demolish or relocate a landmark or any part of a landmark.
(4) Install a sign on the exterior of a landmark or on a landmark site.
(5) Divide any lot comprising all or part of a landmark site, or voluntarily grant any easement on that lot if doing so may impair the preservation, maintenance, exterior appearance or historic character of the landmark or landmark site.

SUBCHAPTER 41D: HISTORIC DISTRICTS

41.10 CREATING AND AMENDING HISTORIC DISTRICTS.

(1) Authority. The Common Council, after considering the recommendations of the Landmarks Commission and the City Plan Commission under this section, may do any of the following:

(a) Create a new historic district.

(b) Amend an existing historic district. An amendment may include a boundary adjustment or an amendment of standards specific to that historic district, provided that the amendment complies with this chapter.

(c) Reject a proposed historic district designation.

(2) Criteria. A historic district shall be of particular historic, architectural, or cultural significance to the City of Madison, as indicated by at least one of the following criteria:

(a) The district is associated with broad patterns of cultural, political, economic or social history of the nation, state or community.

(b) The district is associated with the lives of important persons, and/or with important events in national, state or local history.

(c) The district encompasses an area of particular archaeological or anthropological significance.

(d) The district embodies the distinguishing characteristics of an architectural type inherently valuable for its representation of a period, style, or method of construction, or of indigenous materials or craftsmanship.

(e) The district is representative of the work of a master builder, designer or architect.

(3) Process.

(a) Request. Any person, including the Preservation Planner, may request the creation or amendment of a historic district. The person shall submit the request to the City Planning Division, to the attention of the Preservation Planner, on a form approved by the Landmarks Commission. The request shall clearly describe the proposed historic district or amendment, and shall clearly explain and document why the request should be approved. The Preservation Planner shall promptly notify the Landmarks Commission of each request and shall review the request for completeness. The Preservation Planner may ask the requester to submit additional information and documentation as needed. When the Preservation Planner finds that the request is complete, the Preservation Planner shall refer the request to the Landmarks Commission.

(b) Review by Landmarks Commission. Whenever the Landmarks Commission receives a complete and accurate request under sub (3)(a) above, the Commission shall publish a hearing notice under Sec. 41.06 and hold a public hearing on the request. Following the public hearing, the Landmarks Commission shall recommend approval, disapproval, or approval subject to changes specified by the Commission. The Landmarks Commission shall forward its recommendation to the City Plan Commission and the Common Council. If the Commission recommends the creation or amendment of a historic district, the Commission's recommendation shall be accompanied by a proposed historic district ordinance pursuant to Sec. 41.11 to implement the recommendation.

(c) Review by City Plan Commission. Whenever the Landmarks Commission recommends the creation or amendment of a historic district under sub. (3)(b) above, the City Plan Commission shall review the proposed ordinance creating or amending the historic district and make its recommendation to the Common Council. The City Plan Commission shall make its recommendation within ninety (90) days after receiving the Landmarks Commission recommendation, and at least thirty (30) days before the Common Council holds a public hearing on the proposal under sub. (3)(d) below.

(d) Action by Common Council. Whenever the Landmarks Commission recommends the creation or amendment of a historic district under sub. (3)(b) above, the Common Council shall do all of the following after considering that recommendation and the recommendation of the City Plan Commission under sub. (3)(c) above:

1. Hold a public hearing on the ordinance proposed by the Landmarks Commission.
2. Adopt, adopt with modifications, or reject the ordinance proposed by the Landmarks Commission.

41.11 HISTORIC DISTRICT ORDINANCE REQUIREMENTS.

(1) General. An ordinance creating a historic district under Sec. 41.10 shall do all of the following:

(a) Clearly delineate the boundaries of the historic district.

(b) Specify the rationale for creating the historic district.

(c) Identify historic resources in the historic district, including landmarks, landmark sites, and properties constructed during the district's period of significance.

(d) Establish development standards and guidelines for reviewing development in the district, as provided in sub. (2) below.

(2) Development Standards and Guidelines. In any proposed ordinance under this section, the Landmarks Commission should consider including the following as standards or guidelines:

(a) Any new structure located on a lot that lies within two hundred (200) feet of a designated historic resource shall be visually compatible with that historic resource, particularly in regards to:

1. Bulk and massing.
2. In the street elevation of a structure, the facade's proportion of width to height.
3. The proportions and relationships between doors and windows in the street and publicly visible facade.
4. The proportion and rhythm of solids to voids, created by openings in the facades.
5. Colors and patterns used on all facades.
6. The design of the roof.
7. The landscape treatment.
8. The texture and materials used in all facades.

(b) The existing rhythm created by existing structure masses and spaces between them shall be preserved.

(c) The amount, shape, and pattern of open spaces shall be sensitive to the character of the district.

(d) The landscape plan shall be sensitive to the individual structure, its occupants and their needs.

(e) All street facades shall blend with other structures via directional expression. When adjacent structures have a dominant horizontal or vertical expression, this expression shall be carried over and reflected.

(f) Architectural details should be incorporated as necessary to relate the new with the old and to preserve and enhance the historic character of the district.

(g) Gross volume, height, and other quantitative measurements of the proposed structure shall be sensitive to similar quantitative measurements of historic resources within two hundred (200) feet of the proposed structure.

41.12 CONSTRUCTING, ALTERING, OR DEMOLISHING STRUCTURES IN HISTORIC DISTRICTS.

No person may do any of the following in a historic district without a certificate of appropriateness issued under Subchapter F:

(1) Construct a new structure.
(2) Materially alter the exterior of an existing structure.
(3) Demolish or relocate an existing structure.
(4) Install a sign.
(5) Divide any lot, consolidate any lot, or voluntarily grant any easement on any lot if doing so may distract from the historic character of the district.

SUBCHAPTER 41E: MAINTAINING LANDMARKS, LANDMARK SITES AND HISTORIC DISTRICTS

41.13 PUBLIC INTEREST IN PRESERVATION AND MAINTENANCE. The Common Council finds that it is in the public interest to preserve and maintain landmarks, landmark sites, and improvements in historic districts, and to vigorously enforce this chapter and other City ordinances that have a related purpose.

41.14 MAINTENANCE OBLIGATION; ENFORCEMENT; PENALTIES.

(1) Maintenance Obligation. Every owner of a landmark, improvement on a landmark site, or improvement in a historic district shall do all of the following:

(a) Protect the improvement against exterior decay and deterioration.

(b) Keep the improvement free from structural defects.

(c) Maintain interior portions of the improvement, the deterioration of which may cause the exterior portions of such improvement to fall into a state of disrepair.

(2) Enforcement.

(a) The Building Inspector or designee is authorized to enforce the provisions of this chapter.

(b) The Building Inspector may issue an official written notice to a property owner, requiring the property owner to correct a violation of Sec. 41.14(1) above by a date specified in the notice.

(c) The Building Inspector shall notify the Preservation Planner of all official compliance notices issued to owners of landmarks or improvements in historic districts. The Building Inspector shall further notify the Preservation Planner whenever a property owner fails to correct a violation by the compliance date specified in an official notice.

(d) City agencies or commissions responsible for enforcing Chapters 18, 27, 29, 30 and 3, MGO, or, in the absence of such city agency or commission, the Building Inspector, may grant individual variances from those chapters to facilitate historic preservation and maintenance under this chapter, provided that such variance does not endanger public health or safety or vary any provisions of this chapter.

(3) Penalties. Violations of the provisions in this ordinance shall be subject to a minimum forfeiture of two hundred fifty dollars ($250) and a maximum forfeiture of five hundred dollars ($500) for each separate violation. A second violation within thirty-six (36) months shall be subject to a minimum forfeiture of five hundred dollars ($500) and maximum forfeiture of one thousand dollars ($1000) for each separate violation. A third violation within thirty-six (36) months shall be subject to a minimum forfeiture of one thousand dollars ($1000) and maximum forfeiture of two thousand dollars ($2000) for each separate violation. Each and every day during which a violation continues shall be deemed to be a separate violation. All fines imposed under this ordinance shall be tripled if the Court makes an additional finding that the subject property is undergoing demolition by neglect as defined by this ordinance. A finding of demolition by neglect by the Landmarks Commission as provided in Sec. 41.15 below shall be prima facie evidence of demolition by neglect for purposes of any civil court action.

41.15 DEMOLITION BY NEGLECT. The owner of a landmark, improvement on a landmark site, or improvement in a historic district, may not allow the landmark or improvement to undergo demolition by neglect.

(1) Notice of Demolition by Neglect. If the Building Inspector believes that a landmark or improvement is undergoing demolition by neglect, the Building Inspector shall give written notice of that belief to the owner of the landmark or improvement. The Building Inspector shall give a copy of the notice to the Preservation Planner and the Landmarks Commission.

(2) Public Hearing. Upon receiving a notice under Sec. 41.15(1), the Landmarks Commission shall issue a hearing notice under Sec. 41.06 and hold a public hearing to determine whether the landmark or improvement is undergoing demolition by neglect. The Commission shall hold the public hearing within ninety (90) days of receiving the notice under Sec. 41.15(1).

(3) Landmarks Commission Finding. If, after a public hearing, the Landmarks Commission finds that a landmark or improvement is undergoing demolition by neglect, it shall report its finding to the Common Council, the Building Inspector and the Office of the City Attorney. A Landmarks Commission finding of demolition by neglect is prima facie evidence of demolition by neglect for purposes of any administrative or civil court action, and also constitutes a determination that a public nuisance exists under Sec. 27.05(3), MGO.

(4) Appeal of Landmarks Commission Finding.

(a) An appeal from a Landmarks Commission finding under Sec. 41.15(3) may be taken to the Common Council by the owner of the affected landmark or improvement, the alder of the district in which the subject property is located, or by the owners of twenty percent (20%) of the number of parcels of property within two hundred (200) feet of the subject property, measured according to Sec. 41.03(5).

(b) An appeal under sub. (a) shall be filed with the City Clerk within ten (10) days after the Landmarks Commission makes its finding. The appeal shall include the name and address of each petitioner, and shall specify the grounds for appeal. The City Clerk shall forward the petition to the Common Council.

(c) The Common Council shall hold a public hearing regarding any appeal it receives under sub. (b).

(d) Following a public hearing, the Common Council may, by favorable vote of two-thirds (⅔) of its members, reverse or modify the Landmarks Commission finding, with or without conditions, or may refer the matter back to the Commission with or without instructions, if it finds that the Commission's decision is contrary to applicable standards under this subchapter.

(5) Abatement by the City. If the Landmarks Commission finds under Sec. 41.15(3) that a landmark or improvement is undergoing demolition by neglect, the Building Inspector may proceed under the non-summary abatement procedures set forth in Sec. 27.05(3)(e), to repair the landmark or improvement to abate the nuisance. The cost of the required repairs shall be paid by the property owner, or shall be imposed as a special charge against the property and collected pursuant to the provisions of Sec. 4.09(13), MGO, and Wis. Stat. § 66.0627.

(6) Acquisition by City. If the Landmarks Commission finds under Sec. 41.15(3) that a landmark or improvement is undergoing demolition by neglect, the Common Council may authorize the City to acquire the property under Wis. Stat. § 66.1111(2), if necessary through the initiation of condemnation proceedings under Wis. Stat. § 32.06.

SUBCHAPTER 41F: CERTIFICATES OF APPROPRIATENESS—PROJECTS ON LANDMARKS, LANDMARK SITES AND IN HISTORIC DISTRICTS

41.16 CERTIFICATE OF APPROPRIATENESS REQUIRED.

A certificate of appropriateness is required for all of the actions identified under Secs. 41.09 and 41.12.

41.17 OBTAINING A CERTIFICATE OF APPROPRIATENESS.

(1) Application. A property owner may apply for a certificate of appropriateness for a proposed action under Sec. 41.16 related to that owner's property. The property owner shall file the application on a form approved by the Landmarks Commission. The property owner shall file the application with the City Planning Division, to the attention of the Preservation Planner. Every application shall include at least the following information unless otherwise indicated by the Preservation Planner:

(a) Completed Application document.

(b) Narrative Description of the project.

(c) Architectural drawings, which may include:

1. Scalable drawing set reduced to 11" x 17".
2. Floor plans.
3. Dimensioned site plans showing siting of structures, grading, landscaping, pedestrian and vehicular access, lighting, signage, and other features.
4. Elevations of all sides showing exterior features and finishes, subsurface construction, floor and roof.
5. Plan views of above- and below-grade levels and roof.
6. For proposals of more than two (2) commercial or residential or combination thereof units, a minimum of two (2) accurate street-view normal perspectives shown from a viewpoint of no more than five (5) feet above existing grade.

(d) Any other information requested by the Preservation Planner to convey the aspects of the project.

(e) Signature of the property owner.

(2) Review for Completeness. The Preservation Planner shall review each application under sub. (1) for completeness. When the Preservation Planner finds that an application is complete, the Preservation Planner shall stamp the application with the date of the completeness finding. The Preservation Planner shall promptly forward each complete application to the Landmarks Commission unless, under Sec. 41.17(4), the Commission has authorized the Preservation Planner to administratively grant or deny the application.

(3) Public Hearing; When Required. The Commission shall issue a notice under Sec. 41.06 and hold a public hearing on a complete application if the application proposes any of the following:

(a) Demolition or removal of all or part of a landmark.

(b) Demolition or removal of a structure in a historic district.

(c) Construction of a new principal structure in a historic district or on a landmark site. (Am. by ORD-16-00082, 9-15-16)

(d) Construction of an accessory structure with a footprint larger than one hundred (100) square feet, not including decks and open porches, in a historic district or on a landmark site. (Am. by ORD-16-00082, 9-15-16)

(e) Land divisions and combinations.

(f) Exterior alteration of a structure in a historic district that increases the footprint of the structure more than one hundred (100) square feet, not including decks and open porches.

(4) Administrative Approval. The Landmarks Commission may authorize the Preservation Planner to act on an application for certificate of appropriateness on projects that do not

require a public hearing, provided that the Commission shall first adopt written policies establishing which projects can be administratively approved by the Preservation Planner, and that the Preservation Planner follows the Commission's written policies when granting or denying applications under this provision.

(5) Granting or Denying an Application. Within sixty (60) days of a completeness finding under Sec. 41.17(2), the Preservation Planner or Landmarks Commission shall, based upon the applicable standards in Sec. 41.18, approve or deny the application for certificate of appropriateness. Failure to approve or deny an application within sixty (60) days of a completeness finding shall be deemed a denial of the application, effective on the last day of the determination period. The determination period may be extended an additional sixty (60) days with the applicant's written agreement.

(6) Issuance of a Certificate of Appropriateness. Upon approval of an application, the Preservation Planner shall issue a certificate of appropriateness to the property owner.

(7) Expiration of a Certificate of Appropriateness. A certificate of appropriateness shall expire two (2) years from the date of issuance unless a building permit is obtained within such period.

41.18 STANDARDS FOR GRANTING A CERTIFICATE OF APPROPRIATENESS. A certificate of appropriateness shall be granted only if the proposed project complies with this chapter, including all of the following standards that apply.

(1) New Construction or Exterior Alteration. The Landmarks Commission shall approve a certificate of appropriateness for exterior alteration or construction only if:

(a) In the case of exterior alteration to a designated landmark, the proposed work would meet the Secretary of the Interior's Standards for Rehabilitation.

(b) In the case of exterior alteration or construction of a structure on a landmark site, the proposed work would meet the Secretary of the Interior's Standards for Rehabilitation.

(c) In the case of exterior alteration or construction on any property located in a historic district, the proposed exterior alteration or construction meets the adopted standards and guidelines for that district.

(d) In the case of any exterior alteration or construction for which a certificate of appropriateness is required, the proposed work will not frustrate the public interest expressed in this ordinance for protecting, promoting, conserving, and using the City's historic resources.

(2) Demolition or Removal. In determining whether to approve a certificate of appropriateness for any demolition or removal of any landmark or structure within a historic district, the Landmarks Commission shall consider all of the following, and may give decisive weight to any or all of the following:

(a) Whether the structure is of such architectural or historic significance that its demolition or removal would be detrimental to the public interest and contrary to the general welfare of the people of the City and the State.

(b) Whether a landmark's designation has been rescinded.

(c) Whether the structure, although not itself a landmark structure, contributes to the distinctive architectural or historic character of the historic district as a whole and therefore should be preserved for the benefit of the people of the City and the State.

(d) Whether demolition or removal of the subject property would be contrary to the policy and purpose of this ordinance and/or to the objectives of the historic preservation plan for the applicable historic district as duly adopted by the Common Council.

(e) Whether the structure is of such old and unusual or uncommon design, method of construction, or material that it could not be reproduced or be reproduced only with great difficulty and/or expense.

(f) Whether retention of the structure would promote the general welfare of the people of the City and the State by encouraging study of American history, architecture and design or by developing an understanding of American culture and heritage.

(g) The condition of the property, provided that any deterioration of the property which is self-created or which is the result of a failure to maintain the property as required by this chapter cannot qualify as a basis for the issuance of a certificate of appropriateness for demolition or removal.

(h) Whether any new structure proposed to be constructed or change in use proposed to be made is compatible with the historic resources of the historic district in which the subject property is located, or if outside a historic district, compatible with the mass and scale of buildings within two hundred (200) feet of the boundary of the landmark site.

Prior to approving a certificate of appropriateness for demolition, the Landmarks Commission may require the applicant to provide documentation of the structure. Documentation shall be in the form required by the Commission.

(3) Signs. The commission shall approve a certificate of appropriateness for signs unless it finds that any of the following are true:

(a) The size or design of the sign(s) would adversely affect the historic fabric of the structure or the district;

(b) The sign(s) fails to comply with Chapter 31, MGO;

(c) The sign(s) fails to comply with specific standards and guidelines for signs adopted in each historic district under this ordinance.

(4) Land Divisions and Combinations. The commission shall approve a certificate of appropriateness for land divisions, combinations, and subdivision plats of landmark sites and properties in historic districts, unless it finds that the proposed lot sizes adversely impact the historic character or significance of a landmark, are incompatible with adjacent lot sizes, or fail to maintain the general lot size pattern of the historic district.

41.19 VARIANCES.

(1) General. A property owner who applies for a certificate of appropriateness under Subchapter F may request a variance from one or more standards under Sec. 41.18. The Landmarks Commission may vary one or more standards under Sec. 41.18 for any of the following reasons:

(a) Economic hardship under sub. (4) below.

(b) Historic design under sub. (5) below.

(c) Alternative design under sub. (6) below.

(d) Projects which are necessary for the public interest under sub. (7) below.

(2) Variance Request. A property owner shall make a variance request under sub. (1) above on a form approved by the Landmarks Commission. The request shall include:

(a) The name and address of the property owner.

(b) The location of the property to which the request pertains.

(c) The certificate of appropriateness application under Sec. 41.17 to which the variance request pertains.

(d) The type of variance requested under sub. (1).

(e) The specific standard or standards under Sec. 41.18 from which the owner requests a variance.

(f) The circumstances and supporting evidence that justify the requested variance.

(g) Any other materials requested by the Preservation Planner or Landmarks Commission.

(3) Hearing, Decision, and Appeal.

(a) The Landmarks Commission shall hold a public hearing on each variance request under sub. (1). The Commission shall give notice of the hearing as provided in Sec.

41.06. The Commission may combine the hearing with a hearing on the proposed certificate of appropriateness to which the variance request pertains, provided that the hearing notice identifies both items.

(b) After it holds a public hearing on a variance request, the Commission shall grant or deny the request.

(c) The Commission's decision under par. (b) may be appealed to the Common Council, as provided under Sec. 41.20.

(4) Economic Hardship Variance. The Landmarks Commission may grant a variance from a standard under Sec. 41.18 if all of the following apply:

(a) Strict literal application of the standard would deny the property owner a reasonable rate of return on investment, or would impose upon the property owner an unreasonable and unnecessary financial hardship.

(b) The circumstances justifying the variance are unique to the property in question, and,

1. Were not caused by the owner's failure to maintain the property as required by this chapter; and
2. Does not apply to a substantial portion of the historic district or historic resources within two hundred (200) feet of the subject property; and
3. Will not alter the historic character of the historic district or historic resources within two hundred (200) feet of the subject property.

(c) The property owner documents the circumstances justifying the variance. The Landmarks Commission may publish evidentiary guidelines to assist property owners, and to ensure the Commission receives adequate documentation for variances granted under this subsection. Required documentation includes:

1. Property purchase costs;
2. Rental income;
3. Real estate listings, disclosure statements, asking prices, and purchase offers;
4. Tax assessments and real estate listing for comparable properties;
5. Improvements made, and improvement costs incurred, during ownership;
6. Routine maintenance costs incurred during ownership;
7. Costs to comply with the standard from which a variance is requested;
8. Other documentation reasonably requested by the Landmarks Commission.

(5) Historic Design Variance. The Landmarks Commission may grant a variance allowing, as part of the alteration of an existing structure, elements otherwise prohibited under Sec. 41.18 if all of the following apply:

(a) The property owner provides photographic or other evidence to show that other local structures, of similar age and style, incorporated similar elements as part of the original design.

(b) The proposed alteration complies with all other applicable standards under Sec. 41.18.

(c) The alteration will not destroy significant architectural features on the building.

(6) Alternative Design Variance. The Landmarks Commission may grant a variance allowing, in a new or altered structure, elements that are otherwise prohibited under Sec. 41.18 if all of the following apply:

(a) The elements will enhance the quality of the design.

(b) The design complies with all other applicable standards under Sec. 41.18.

(c) The design does not allow material deviations from historic district standards and guidelines that would undermine the character or purpose of the historic district.

(d) The design will have a beneficial effect on the historic character of the area within two hundred (200) feet of the subject property.

(7) Public Interest Variance. The Landmarks Commission may grant a variance allowing the construction of a new structure, or the alteration, demolition or removal of an existing structure, which would otherwise be prohibited under Sec. 41.18, if the Commission finds that a variance is necessary in the public interest. A variance is necessary in the public interest if the Commission finds all of the following:

(a) The proposed building, object, site or structure provides unique, high priority benefits to the general public.

(b) The benefits to the general public under sub. (7)(a) above substantially outweigh the strong public interest in preserving historic resources expressed in this chapter.

(c) There are no reasonable alternatives to granting a variance that would allow the proposed project to occur in the city and satisfy the standards of this chapter.

41.20 APPEAL TO COMMON COUNCIL.

(1) The applicant, the alder of the district in which the subject property is located, or the owners of twenty percent (20%) of the number of parcels of property within two hundred (200) feet of the subject property may appeal to the Common Council the decision of the Landmarks Commission to approve or deny a certificate of appropriateness or variance request.

(2) The appellant(s) shall file a petition of appeal with the City Clerk within ten (10) days of the Landmarks Commission's final decision. The petition shall indicate the identity and address of the petitioners and the specific grounds for appeal.

(3) Once a petition is filed, the City Clerk shall forward the petition to the Common Council. The Common Council shall set the appeal for a public hearing.

(4) After a public hearing, the Common Council may, by favorable vote of a majority of its members, reverse or modify the decision of the Landmarks Commission with or without conditions, or refer the matter back to the Commission with or without instructions, if it finds that the Commission's decision is contrary to the applicable standards under Secs. 41.18, 41.19, or any district-specific standards contained in Subchapter G. (Am. by ORD-16-00082, 9-15-16)

41.21 PENALTIES FOR FAILURE TO OBTAIN CERTIFICATE OF APPROPRIATENESS.

(1) Permits. The Building Inspector shall not issue a permit allowing alteration, construction, demolition, removal, or for any other action for which a certificate of appropriateness is required unless the certificate has been approved by the Commission and issued by the Preservation Planner or designee.

(2) Prohibition. No owner, operator, or person in charge of a landmark, landmark site or structure within an historic district shall cause or permit any painting of signs, alteration, construction, demolition or removal for which a certificate of appropriateness is required unless such Certificate has been approved by the Commission.

(3) Penalty for Work Done Without, or in Violation of, a Certificate of Appropriateness. In addition to any other penalty provided in this chapter, the Landmarks Commission, may order the removal or modification of any alteration, construction or other work that was performed without a required certificate of appropriateness, or that was not performed in compliance with the conditions of a lawfully issued certificate of appropriateness, when such work does not meet the applicable standards for a certificate under Subchapter F of this ordinance. Alternatively, the Commission may order renovation to make such work comply with those standards.

SUBCHAPTER 41G: DESIGNATED HISTORIC DISTRICTS, HISTORIC DISTRICT ORDINANCES

41.22 MANSION HILL HISTORIC DISTRICT.

(1) Purpose and Intent. It is hereby declared a matter of public policy that a specific area of the City be identified, designated, and protected because of its special character and historical interest. This area, to be called the Mansion Hill Historic District, shall be described in general by the map and specifically by the legal description on file in the City Clerk's office. The purpose and intent of this ordinance shall be to designate this area in accordance with Subchapter D of this chapter.

(2) Criteria for Creation of Mansion Hill Historic District. In that the Mansion Hill Historic District reflects a pattern in the broad social history of Madison, the State and the Nation, and in that elements within the District meet the other three designation criteria, namely that many of the structures in the District:

(a) Are identified with historic personages or with important events in national, state or local history;

(b) Embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period, style, method of construction, or of indigenous materials or craftsmanship;

(c) Are representative of the notable work of a master builder, designer or architect whose individual genius influences his age;

The area described by the map and legal description shall be designated a historic district.

(3) Historic Resources in the Mansion Hill Historic District.

(a) Designated Landmarks.

(b) Designated Landmark sites.

(c) Properties constructed during the period of significance, 1850-1930.

(4) Standards for Review of Development in the Mansion Hill Historic District.

(a) Any new structure located within two hundred (200) feet of other historic resources shall be visually compatible with those historic resources in the following ways:

1. Height.
2. Gross Volume.
3. In the street elevation(s) of a structure, the proportion of width to height in the facade(s).
4. The proportions and relationships of width to height of the doors and windows in street facade(s).
5. The proportion and rhythm of solids to voids created by openings in the façade.

(b) All street facades shall blend with other structures via directional expression. When adjacent structures have a dominant vertical or horizontal expression, this expression should be carried over and reflected.

(5) Reference to Plan. The requirements in this section derive from a plan entitled "The Mansion Hill Historic Preservation Plan and Development Handbook," City Planning Department, 1975.

41.23 THIRD LAKE RIDGE HISTORIC DISTRICT.

(1) It is hereby declared a matter of public policy that a specific area of the City be identified, designated, and protected because of its special character and historical interest and significance. This area, to be called the Third Lake Ridge Historic District, shall be described in general by the map and specifically by the legal description on file in the City Clerk's Office. The purpose and intent of this ordinance shall be to designate this area in accordance with Subchapter D of this Chapter.

(2) Criteria for the Creation of the Third Lake Ridge Historic District.

In that the Third Lake Ridge Historic District area reflects a broad pattern of social history of Madison and the State and the Upper Midwest, and in that elements within the District meet other designation criteria in Sec. 41.10(2) of this chapter, namely that many of the structures and sites in the District:

(a) Are identified with historic personages or with important events in state or local history; and

(b) Embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period, style, method of construction, or of indigenous materials or craftsmanship;

The area described by the map and legal description shall be designated a historic district.

(3) Historic Resources in the Third Lake Ridge Historic District.

(a) Designated Landmarks.

(b) Designated Landmark Sites.

(c) Properties constructed during the period of significance, 1850-1929.

(4) Standards for New Structures in the Third Lake Ridge Historic District - Parcels Zoned for Employment Use. Any new structure on parcels zoned for employment use that are located within two hundred (200) feet of other historic resources shall be visually compatible with those historic resources in the following ways:

(a) Gross volume.

(b) Height.

(5) Standards for Exterior Alterations in the Third Lake Ridge Historic District - Parcels Zoned for Employment Use. Any exterior alterations on parcels zoned for employment use that are located within two hundred (200) feet of other historic resources shall be visually compatible with those historic resources in the following ways:

(a) Height.

(6) Standards for New Structures in the Third Lake Ridge Historic District - Parcels Zoned for Mixed-Use and Commercial Use. Any new structures on parcels zoned for mixed-use and commercial use that are located within two hundred (200) feet of other historic resources shall be visually compatible with those historic resources in the following ways:

(a) Gross Volume.

(b) Height.

(c) The proportion and rhythm of solids to voids in the street facade(s).

(d) The materials used in the street facade(s).

(e) The design of the roof.

(f) The rhythm of buildings masses and spaces.

(7) Standards for Exterior Alterations in the Third Lake Ridge Historic District - Parcels Zoned for Mixed-Use and Commercial Use.

(a) Any exterior alterations on parcels zoned for mixed-use and commercial use that are located within two hundred (200) feet of other historic resources shall be visually compatible with those historic resources in the following ways:

1. Height

(b) Alterations of street façade(s) shall retain the original or existing historical proportion and rhythm of solids to voids

(c) Alterations of street facade(s) shall retain the original or existing historical materials.

(d) Alterations of roof shall retain its existing historical appearance.

(8) Standards for New Structures in the Third Lake Ridge Historic District - Parcels Zoned for Residential Use. Any new structures on parcels zoned for mixed-use and residential use

that are located within two hundred (200) feet of other historic resources shall be visually compatible with those historic resources in the following ways: (Am. by ORD-16-00082, 9-15-16)

(a) Gross Volume.
(b) Height.
(c) The proportion and rhythm of solids to voids in the street facades.
(d) Materials used in the street facades.
(e) The design of the roof.
(f) The rhythm of buildings and masses.
(g) Directional expression.
(h) Materials, patterns and textures.
(i) Landscape treatment.

(9) Standards for Exterior Alterations in the Third Lake Ridge Historic District - Parcels Zoned for Residential Use.

(a) Any exterior alterations on parcels zoned residential use that are located within two hundred (200) feet of other historic resources shall be visually compatible with those historic resources in the following ways:
1. Height.
2. Landscape treatment.
3. Rhythm of mass and spaces.

(b) Alterations of the street façade(s) of any existing structure shall retain the original or existing historical proportion and rhythm of solids to voids.
(c) Alterations of the street façade(s) of any existing structure shall retain the original or existing historical materials.
(d) Alterations of the roof of any existing structure shall retain its existing historical appearance.
(e) Alterations of the street facade(s) shall retain the original or existing historical proportional relationships of door sizes to window sizes.

(10) Reference to Plan. The public policy guidelines in this subsection derive from a plan entitled "Third Lake Ridge Historic District," City Planning Department, January, 1978.

41.24 UNIVERSITY HEIGHTS HISTORIC DISTRICT.

(1) Purpose and Intent. It is hereby declared a matter of public policy that a specific area of the City be identified, designated and protected because of its special character of historic interest and significance. This area, to be called University Heights Historic District, shall be described generally by the map and specifically by the legal description on file in the City Clerk's Office. The purpose and intent of this ordinance shall be to designate this area in accordance Subchapter D of this Chapter.

(2) Criteria for the Creation of the University Heights Historic District. In that the University Heights Historic District reflects a pattern in the broad social history of Madison and in the state and the nation and in that elements within the district meet the other three designation criteria in Sec. 41.10(2) of this chapter, namely that many of the structures in the district:

(a) Are identified with historic personages or with important events in national, state, or local history;
(b) Embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period, style, method of construction, or of indigenous materials or craftsmanship; and,
(c) Are representative of the notable work of a master builder, designer, or architect whose individual genius influenced her/his age, the area described by the map and legal description shall be designated a historic district.

(3) Historic Resources in the University Heights Historic District.

(a) Landmarks.

(b) Landmark sites.

(c) Properties constructed during the period of significance, 1893-1928.

(4) Standards for the Review of New Structures in the TR-V1, TR-V2, TR-U1, TR-U2, TR-C2, TR-C3, TR-C4, MNX, TSS, and LMX Zoning Districts.

(a) Principal Structures.

1. Height. The maximum height in the TR-C2, TR-C3, TR-C4, TR-V1, and TR-V2 Zoning Districts shall be thirty-five (35) feet and shall not exceed two and a half (2½) stories except as provided in the height regulations for the district.

The maximum height in the TR-U1, NMX, TSS, and LMX Zoning Districts shall be forty (40) feet.

The maximum height in the TR-U2 Zoning District shall be fifty (50) feet. All new structures in all zoning districts within University Heights shall be no less than fifteen (15) feet high.

2. Materials. Materials for the exterior walls shall be the same as or similar to materials prevalent in the University Heights Historic District. Permitted materials include brick, narrow gauge horizontal clapboards four or less inches in exposed width, stone, stucco, smooth shingles or combinations of the above provided the combinations occur in a manner and location similar to the materials on existing structures in University Heights (e.g., brick on first floor with clapboard on second floor). Other materials, such as aluminum or vinyl must be visually compatible with structures within two hundred (200) feet of the subject property. The following materials are prohibited: concrete block, asbestos, wide clapboards over four inches in exposed width, diagonal boards, vertical boards, rough sawn wood, rough split shingles, shakes.

3. Visual Size. The gross area of the front facade, i.e., all walls facing the street, of a single-family, two-unit or commercial structure shall be no greater than one hundred twenty-five percent (125%) of the average gross area of the front facades of structures within two hundred (200) feet of the subject property. The gross area of the front facade of a multiple family dwelling shall be no more than one hundred twenty-five percent (125%) of the average gross area of the front facades of all structures within two hundred (200) feet of the subject property or variations in the setback shall be designed in the front facade of the structure to repeat the rhythm and proportions of structures to space between them within two hundred (200) feet of the subject property.

4. Roof Shape. The shapes and pitches of roofs shall be similar to the roof shapes and pitches on existing structures within two hundred (200) feet of the subject property.

5. Roof Materials. Roofing materials shall be similar in appearance to roofing materials used on structures within two hundred (200) feet of the subject property. Modern-style shingles, such as thick wood shakes, Dutch lap, French method and interlock shingles, that are incompatible with the historic character of the district are prohibited. Rolled roofing, tar and gravel and other similar roofing materials are prohibited except that such materials may be used on flat or slightly sloped roofs which are not visible from the ground.

6. Parking Lots. No new parking lots will be approved unless they are accessory to and on the same zoning lot as a commercial structure or multiple family dwelling.

(b) Accessory Structures. Accessory structures, as defined in Section 28.211, MGO, shall be compatible with the design of the existing structures on the zoning lot,

shall not exceed fifteen (15) feet in height and shall be as unobtrusive as possible. No accessory structure shall be erected in any yard except a rear yard. Exterior wall materials shall be the same as those for construction of new principal structures as set forth in Sec. 41.24(4)(a)2.

(5) Standards for the Review of Exterior Alterations and Repairs in TR-C2, TR-C3, and TR-C4, Zoning Districts.

(a) Height. No alterations shall be higher than the existing structure; however, if the existing structure is already a nonconforming one, alteration shall be made thereto except in accordance with Section 28.192. Roof alterations resulting in an increased structure volume are prohibited unless they meet the requirements in Sec. 41.24(4)(a)5. and are permitted under Chapter 28, or approved as a variance pursuant to Sec. 28.184 or approved as a conditional use or as part of a planned residential development.

(b) Second Exit Platforms and Fire Escapes. Second exit platforms and fire escapes shall be invisible from the street, wherever possible, and shall be of a plain and unobtrusive design in all cases. In instances where an automatic combustion products detection and alarm system is permitted as an alternative to second exits, use of such a system shall be mandatory.

(c) Repairs. Materials used in exterior repairs shall duplicate the original building materials in texture and appearance, unless the Landmarks Commission approves duplication of the existing building materials where the existing building materials differ from the original. Repairs using materials that exactly duplicate the original in composition are encouraged.

(d) Restoration. Projects that will restore the appearance of a structure to its original appearance are encouraged and will be approved by the Landmarks Commission if such projects are documented by photographs, architectural or archeological research or other suitable evidence.

(e) Re-Siding. Re-siding with aluminum or vinyl that replaces or covers clapboards or nonoriginal siding on structures originally sided with clapboards will be approved by the Landmarks Commission provided that the new siding imitates the width of the original clapboard siding to within one (1) inch and provided further that all architectural details including, but not limited to, window trim, wood cornices and ornament either remain uncovered or are duplicated exactly in appearance. Where more than one layer of siding exists on the structure, all layers except the first must be removed before new siding is applied. If insulation is applied under the new siding, all trim must be built up so that it projects from the new siding to the same extent it did with the original siding.

(f) Alterations Visible from the Street and Alterations to Street Facades. Alterations visible from the street, including alterations to the top of structures, and alterations to street facades shall be compatible with the existing structure in architectural design, scale, color, texture, proportion and rhythm of solids to voids and proportion of widths to heights of doors and windows. Materials used in such alterations shall duplicate in texture and appearance, and architectural details used therein shall duplicate in design, the materials and details used in the original construction of the existing structure or of other structures in University Heights of similar materials, age and architectural style, unless the Landmarks Commission approves duplication of the texture and appearance of materials and the design of architectural details used in the existing structure where the existing building materials and architectural details differ from the original. Alterations that exactly duplicate the original materials in composition are encouraged. Alterations that destroy significant architectural features are prohibited. Side alterations shall not detract from the design composition of the original facade.

(g) Additions and Exterior Alterations Not Visible from the Street. Additions and exterior alterations that are not visible from any streets contiguous to the lot lines upon which the structure is located will be approved by the Landmarks Commission if their design is compatible with the scale of the existing structure and, further, if the materials used are compatible with the existing materials in texture, color and architectural details. Additions and alterations shall harmonize with the architectural design of the structure rather than contrast with it.

(h) Roof Shape. The roof shape of the front of a structure shall not be altered except to restore it to the original documentable appearance or to add a dormer or dormers in a location and shape compatible with the architectural design of the structure and similar in location and shape to original dormers on structures of the same vintage and style within the district. Alterations of the roof shape of the sides or back of a structure shall be visually compatible with the architectural design of the existing structure.

(i) Roof Material.

1. If the existing roof is tile, slate or other material that is original to the structure and/or contributes to its historic character, all repairs thereto shall be made using the same materials. In addition, in all cases any such roof must be repaired rather than replaced, unless the documented cost of repair exceeds the documented cost of re-roofing with a substitute material that approximates the appearance of the original roofing material as closely as possible, in which case re-roofing with a material that approximates the appearance of the original roofing material as closely as possible will be approved by the Landmarks Commission.
2. If the existing roofing material is asphalt shingles, sawn wood shingles or a nonhistoric material such as fiberglass, all repairs shall match in appearance the existing roof material; however, if any such roof is covered or replaced, re-roofing must be done using rectangular sawn wood shingles or rectangular shingles that are similar in width, thickness and apparent length to sawn wood shingles, for example, 3-in-1 tab asphalt shingles. Modern style shingles, such as thick wood shakes, Dutch lap, French method and interlock shingles, that are incompatible with the historic character of the district are prohibited.
3. Rolled roofing, tar and gravel and other similar roofing materials are prohibited except that such materials may be used on flat or slightly sloped roofs which are not visible from the ground.

(j) Parking Lots. No new parking lots will be approved unless they are accessory to and on the same zoning lot as a commercial structure or multiple family dwelling.

(6) Standards for the Review of Exterior Alterations and Repairs in the TR-V1, TR-V2, TR-U1, TR-U2, NMX, TSS and LMX Zoning Districts.

(a) Height. No alterations shall be higher than the existing structure; however, if the existing structure is already nonconforming, no alteration shall be made thereto except in accordance with Sec. 28.192, MGO. In addition, all alterations, including alterations to the top of a structure, shall conform to the height restrictions for the zoning district in which the structure is located.

(b) Alterations. Alterations shall be compatible in scale, materials and texture with the existing structure.

(c) Repairs. Materials used in repairs shall harmonize with the existing materials in texture, color and architectural detail.

(d) Re-Siding. The standards for the review of re-siding are the same as the standards for review of re-siding in the TR-C2, TR-C3 and TR-C4 Zoning Districts set forth in Sec. 41.24(5)e.

(e) Roof Shape. Roof alterations to provide additional windows, headroom or area are prohibited unless permitted under Chapter 28, or otherwise approved pursuant thereto as a variance or as part of a conditional use. In addition, all roof alterations shall be visually compatible with the architectural design of the structure.

(f) Roof Materials. All repairs shall match in appearance the existing roofing materials; however, when a roof is covered or replaced, roofing materials shall duplicate as closely as practicable the appearance of the original materials. Thick wood shakes, French method, interlock and Dutch lap shingles are prohibited. Rolled roofing, tar and gravel and other similar roof materials are also prohibited except on flat or slightly sloped roofs which are not visible from the street.

(g) Parking Lots. No new parking lots will be approved unless they are accessory to and on the same zoning lot as a commercial structure or multiple family dwelling.

41.25 MARQUETTE BUNGALOWS HISTORIC DISTRICT.

(1) Purpose and Intent. It is hereby declared a matter of public policy that a specific area of the city be identified, designated and protected because of its special character of historic interest and significance. This area, to be called the Marquette Bungalows Historic District, shall be described generally by the map and specifically by the legal description on file in the City Clerk's office. The purpose and intent of this ordinance shall be to designate this area in accordance with Subchapter D of this Chapter.

(2) Criteria for the Creation of the Marquette Bungalows Historic District. In that the Marquette Bungalows Historic District reflects a pattern in the broad social history of Madison and in the state and the nation and in that elements within the district meet designation criteria in Sec. 41.10(2) of this chapter, specifically that many of the structures in the district embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period, style, method of construction, or of indigenous materials or craftsmanship, the area described by the map and legal description shall be designated a historic district.

(3) Historic Resources in the Marquette Bungalows Historic District.

(a) Landmarks.

(b) Landmarks sites.

(c) Properties constructed during the period of significance. 1924-1930.

(4) Standards for the Review of New Construction and Fences.

(a) Accessory Structures. Accessory structures shall be compatible with the design of the existing structure on the zoning lot, shall not exceed fifteen (15) feet in height and shall be as unobtrusive as possible. Accessory structures shall be erected in the rear yard. If the structure on the lot is sided in wood or stucco, the siding on the accessory structure shall match the appearance of the siding on the structure. Imitation siding materials that approximate the look of the siding on the structure, such as vinyl, aluminum or applied stucco-like surfaces, may be approved. If the siding on the structure is brick, the garage may be sided in brick to match, clapboard, stucco, narrow-gauge vinyl or aluminum or applied stucco-like surfaces. Garage doors shall blend with the historic appearance of the neighborhood. Horizontally paneled doors and flat paneled doors are prohibited. Windows shall be either casements or double-hung units of a similar proportion to the windows on the structure. Alteration of existing accessory structures shall comply with this subdivision (e) and with subdivision (d) above. The roof shape may be a hip or gable of any pitch; single slope roofs are prohibited. The roof material shall match as closely as possible the color and appearance of the roof material on the structure.

(b) New Principal Structures. New principal structures shall match the design of other structures in the district in materials, roof shape, architectural details, the

proportion and rhythm of solids to voids, the proportion of widths to heights of doors and windows, the scale, height, setbacks, side yards and other visual features. The intention is to have new structures virtually duplicate the design of other structures in the neighborhood, since all parcels in the district are currently developed and any new construction would be replacing an existing structure.

(c) Fences. Chain link, metal mesh and other rustic style fences, such as rough sawn wood or split-rails, are prohibited in the front yard. Fences in the front yard shall not exceed three (3) feet in height.

(5) Standards for the Review of Exterior Alterations and Repairs. All exterior alterations and repairs must be compatible with the historic character of the structure and the Marquette Bungalows Historic District.

(a) Re-Siding. Re-siding with aluminum or vinyl that replaces or covers clapboards or non-original siding on structures originally sided with clapboards will be approved by the Landmarks Commission provided that the new siding imitates the width of the original clapboard siding to within one inch and provided further that all architectural details including, but not limited to, window trim, wood cornices and other ornament either remain uncovered or are duplicated exactly in appearance. All trim must continue to project out beyond the plane of the siding. Brick, stucco, and half-timber detailing shall match the original in appearance. Original wood shingle siding should be repaired or replaced to match the original in appearance, whenever possible; however, covering wood shingles with double-four vinyl or aluminum may be approved.

(b) Roof Materials. Reroofing shall be done with asphalt shingles, fiberglass shingles or other rectangular composition shingle similar in appearance to 3-in-1 tab asphalt shingles. Sawn wood shingles may also be approved. Modern style shingles, such as thick wood shakes, Dutch lap, French method and interlock shingles are incompatible with the historic character of the district and are prohibited. Vents shall be located as inconspicuously as possible and shall be similar in color to the color of the roof. Rolled roofing, tar and gravel and other similar roofing materials are prohibited except that such materials may be used on flat or slightly sloped roofs which are not visible from the ground.

(c) Skylights. Skylights on street-facing roof slopes are prohibited. Skylights may be permitted on side roof slopes provided the front edge of the skylight is at least ten (10) feet back from the front edge of the main roof. Skylights on any roof area not visible from the street may be permitted. The design should be as simple as possible, of the flat type (not bubble) and painted to blend with the color of the roof.

(d) Dormers and Other Roof Alterations. New dormers shall be greater than three (3) feet from the front edge of the roof. New dormers shall match original dormers on the structure (or original dormers on similar structures in the district) in roof shape and material, width of overhang, siding, window design and trim details. The ridge line of a new dormer shall not extend above the ridge line of the main roof of the structure. The dormer walls shall not extend beyond the line of the main structure wall below. Shed dormers behind existing dormers or gables on non-street sides of the structure may be approved provided that the roof material, siding, window design and trim details match the original features of the structure. Other roof alterations shall be compatible with the roof shape and other features of the structure, such as siding and trim details, and shall not extend above the ridge line of the structure.

(e) Chimneys. The exterior appearance of chimneys visible from the street shall be maintained in good repair. The removal of the exterior portions of such chimneys is prohibited. Chimneys not visible from the street may be removed. New chimneys shall be constructed of brick to match as closely as possible the brick on the

structure, or if there is no brick on the structure, chimneys may be made of brick similar in dimensions and color to brick on other in the neighborhood. New chimneys not visible from the street may also be constructed of metal or other non-historic material.

(f) Windows and Doors.

1. General Standards. The original appearance of leaded glass and other non-rectangular decorative windows (e.g., curved top windows) on any facade of the structure shall be retained. Replacement of such windows shall duplicate the original in size, configuration and appearance. Picture windows are prohibited. Trim on new or remodeled windows shall match the original window trim on the structure.
2. Street Facades. Windows and doors on the front or street facade of the structure and on side faces within ten (10) feet of the front facade of the structure shall retain their original or existing appearance, including true muntins where they exist. Replacement windows and doors may be approved if they match the original appearance.
3. Non-Street Side Facades. Retention of the original appearance of windows and doors on the sides of the structure is encouraged. However, if replacement or new windows are proposed, the muntin design of the original windows on the structure may either be replicated with true-divided lights or with exterior or interior applied grids or with grids applied between the panes of glass. New windows shall either be casement windows or double-hung windows. Sash on new windows over four (4) feet square shall be divided by muntins or mullions. Bay windows may be approved if they have sides perpendicular to the wall and if they do not extend beyond the eaves of the roof.
4. Rear Facade. Replacement, remodeling or installation of new doors and windows on the rear facade will not be restricted except as discussed under "General Standards" above.

(g) Porches. Porches and stairway railings shall match the original railings in appearance wherever possible. Wrought iron railings with vertical balusters at least one-half (½) inch in width, wood railings with vertical square balusters spaced no more than three (3) inches apart, and solid wall railings covered in siding to match the structure will be approved. Other designs may be permitted if they blend with the character of the structure and the district. Porches may be enclosed with windows or screens provided that new windows be casements or double-hung units similar in proportion to other windows on the structure. Steps may be constructed of wood, concrete or brick. If wood is used, steps shall have risers and be enclosed on the sides by lattice or a wing wall. Rear yard decks shall have a railing as described above, shall have the underside screened by lattice or evergreen shrubs, and all parts of the deck, except the flooring and steps, shall be painted or opaque-stained in a color to blend with the colors on the structure.

(h) Second Exits. Second exit platforms and stairways shall be as unobtrusive as possible. No second exit platforms or stairways shall be permitted on the front facade of a structure. When possible, second exit stairways shall be provided on the interior of the. When this is not possible, they shall be added onto the rear section of the structure. Railings and design shall follow the railing and deck standards listed under "Porches" above.

(i) Additions and Other Alterations. New additions on the front of the structure are prohibited. Additions on the sides or rear shall be permitted if they are compatible with the structure in architectural design, scale, color, texture, proportion and rhythm of solids to voids and proportion of widths to heights of doors and windows. Materials and architectural details used in additions and alterations

shall duplicate in texture, appearance, and design, the materials and details used in the original construction of the structure or of other structures in the district. The Landmarks Commission may approve an exception to this policy where the existing structure materials and architectural details differ from the original. Additions and exterior alterations that exactly duplicate the original materials in composition are encouraged. Additions or exterior alterations that destroy significant architectural features are prohibited. Side additions shall not detract from the design composition of the original facade.

(j) Foundations. The original or existing finish on the foundation shall be retained. Brick or stone shall not be covered with a cementitious or other surface. Foundation insulation shall be applied only to the interior. Basement windows may be removed provided that the space is filled with a material to match as closely as possible the appearance of the surrounding foundation and provided that the new material is inset at least one inch from the plane of the wall.

(k) Tuckpointing and Brick Repair. Mortar and other materials used in brick repair shall match the original in color, hardness and appearance. Brick shall not be painted.

(l) Storm Windows and Doors. Storm windows and doors shall be enameled, painted or otherwise coated with a colored surface; raw aluminum is prohibited. Storm door designs of wood and glass to match the original design on the structure or on similar structures in the district is encouraged. Storm doors of simple design with no stylistic references (e.g., colonial cross-bars) may also be used. Storm doors with metal grilles may be approved provided that they blend with the style of the structure.

41.26 FIRST SETTLEMENT HISTORIC DISTRICT.

(1) Purpose and Intent. It is hereby declared a matter of public policy that a specific area of the city be identified, designated and protected because of its special character of historic interest and significance. This area, to be called the First Settlement Historic District, shall be described generally by the map and specifically by the legal description on file in the City Clerk's Office. The purpose and intent of this ordinance shall be to designate this area in accordance with Subchapter D of this chapter.

(2) Standards for the Creation of the First Settlement Historic District. In that the First Settlement Historic District reflects the broad cultural, political, economic and social history of Madison, the state and the nation and in that elements within the district meet designation criteria in Sec. 41.10(2) of this chapter, specifically that they are identified with historic personages or with important local historical events and/or that they embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period, style, method of construction or of indigenous material or craftsmanship, the area described by the map and legal description shall be designated a historic district.

(3) Historic Resources in the First Settlement Historic District.
   (1) Landmarks.
   (2) Landmark sites.
   (3) Properties constructed during the period of significance, 1850-1920.

(4) Standards for the Review of New Principal Structures.
   (a) Structure Height, Scale, Proportion and Rhythm. New principal structures shall be similar in height to the structures directly adjacent to each side. If the structures directly adjacent to each side are different in height, the new structure shall be of a height compatible with the structures within two hundred (200) feet of the proposed structure. New principal structures shall be compatible with the scale, proportion, and rhythm of masses and spaces of structures within two hundred (200) feet of the proposed structure.

(b) Siding Materials. Narrow gauge clapboards made of wood, composite wood material, or concrete, and/or brick and stone may be permitted. Stucco and split-faced concrete block may be permitted only as trim, rather than the primary siding material. Stucco panels and pebble dash are prohibited. If the first two floors of a proposed structure are masonry, the Landmarks Commission may permit the use of artificial siding (i.e. vinyl or aluminum) on the upper floor or floors. In such circumstances, the artificial siding must conform to the following requirements:

1. The material shall be of the highest grade offered by the manufacturer.
2. The material shall have a minimum gauge of .042.
3. The color and sheen of the siding shall be consistent with those used in the era in which adjacent structures were constructed.
4. The siding shall not have a false wood grain.
5. The width of each apparent clapboard shall not exceed four (4) inches.
6. The use of visible j-channel trim and other prefabricated elements that differ in appearance from those used on historic structures in the neighborhood is prohibited.

(c) Roof Materials. Roofing materials shall be asphalt shingles; fiberglass or other composition shingles similar in appearance to multi-layered architectural shingles or 3-in-1 tab; or Dutch lap, French method or interlock shingles. Sawn wood shingles may also be approved. Thick wood shakes are prohibited. Vents shall be located as inconspicuously as possible and shall be similar in color to the color of the roof. Rolled roofing, tar-and-gravel, rubberized membranes and other similar roofing materials are prohibited except that such materials may be used on flat or slightly sloped roofs that are not visible from the ground.

(d) Roof Shape. If a principal structure does not have a flat roof, the pitch of the new roof shall be no less than 4-in-12.

(e) Façade Design. Street facades shall be modulated with setbacks incorporated into the design at the first floor level. The entrance shall either be inset or projecting from the plane of the main facade. Porches on main entrances are encouraged. Street facades shall reflect the rhythm and directional expression of pre-1930 structures within two hundred (200) feet of the subject property.

(f) Windows and Doors. The proportion of width to height of doors and windows and the proportion and rhythm of solids to voids in the front and side facade designs shall be similar to pre-1930 structures within two hundred (200) feet of the subject property. Windows trimmed with bead molds similar in design to other pre-1930 window trim in the district and windows and doors shall be inset at least one (1) inch from the exterior trim. The main entrance to the structure shall be on the front facade. Garage doors shall be located on the side or rear facades whenever feasible. If it is not feasible to locate the garage door on the sides or rear facades, one-car garage doors will be permitted on the front facade.

(5) Standards for the Review of Exterior Alterations and Repairs. All additions, exterior alterations and repairs must be compatible with the historic character of the structure and the First Settlement Historic District. The standards listed below are intended to maintain a historically accurate appearance. Modern materials that do not meet the exact requirements of the standards but which duplicate the historic appearance may be considered on an individual basis for a variance as listed in Sec. 41.19 of this chapter.

(a) Porches. Porches that are original to the structure, or that pre-date 1930 and blend with the historic character of the structure, shall be retained, rehabilitated or rebuilt to match the original in all details. Porches on street facades may be enclosed with wood-framed screens, on the condition that the railing must be retained or restored in a design compatible with the historic character of the structure. Porches on street facades shall not be enclosed as a heated space. If a

porch is on a street facade and the owner can demonstrate to the Landmarks Commission that it is beyond repair, then a new porch must be constructed in its place. Construction of new porches to approximate the dimensions of original porches is encouraged.

All porches shall present a finished appearance, e.g., all floor joists shall be hidden from view and all porches shall be finished with ceilings and frieze boards. Porch ceilings shall have the appearance of narrow beaded boards, unless another original material is approved by the Landmarks Commission. First floor porch flooring shall be tongue-in-groove boards; carpeting and two-by-four (2 × 4) decking are prohibited. All wood on exterior porches, except flooring and stair treads, shall be painted or opaque stained.

All railings on porches shall be constructed of wood, or another material that duplicates the appearance of wood, with top and bottom rails. Bottom rails shall be raised above the floor level and shall be no higher than three and one-half (3½) inches from the floor. All balusters on porch railings shall be square posts, unless the owner can demonstrate to the Landmarks Commission that a different design is original to the structure. If the building code requires a forty-two (42) inch high railing, the lower portion of the railing may be solid framed panels. Railings on stairways may be either wood to match the railings on the porch or wrought iron with one-by-one (1 × 1) plain vertical balusters. Twisted or other decorative wrought iron is prohibited. All balusters shall be constructed such that a four (4) inch ball may not pass through the railing at any point. All balusters shall be located in between the top and bottom rail and shall not extend across the face of either. Siding on porch rails is prohibited unless the existing rail is sided. Porch posts shall be trimmed with decorative molding at the top and bottom of the posts.

All porches and stairways shall be enclosed between the frieze under the first floor and the ground with a framed lattice of crisscross design, narrow vertical boards or other openwork design. The lattice shall be designed such that a three-(3) inch ball could not pass through any portion of the lattice. All stairways shall have solid wood risers.

Porches on street facades may be enclosed by storm windows. Storm windows on porches shall have the appearance of double-hung windows, with or without a transom, and shall fill the space between the top of the railing and the upper frieze board. When porches are enclosed, the railing area underneath may be filled in with solid framed panels. Porches on street facades shall not be enclosed as a four-season heated space.

(b) Decks. Decks in rear yards will be approved by the Landmarks Commission provided that the design complies with par. 1., except that tongue-in-groove flooring is not required. Decks in front and side yards may be permitted if they are not replacing an entrance porch, do not detract from the historic character of the structure and neighborhood, and if they comply with par. 1.

(c) Accessibility Ramps. It is the intent of this section to permit accessibility ramps wherever possible, especially when required by ADA provisions. Accessibility ramps shall be as inconspicuous as possible. Landscape screening shall be provided where possible. The details of such ramps shall conform to the requirements for porches in par. 1.

(d) Windows. On the front facade and on side facades within ten (10) feet of the front facade, all original windows or pre-1930 windows that are compatible with the historic character of the structure shall retain their existing historic size, appearance, and trim detail. If any of the original windows or pre-1930 windows that are compatible with the historic character of the structure have true divided lights (i.e., with small panes of glass between muntin bars), replacement sash shall duplicate

the existing appearance and have true divided lights. If windows have been altered in the past, restoration to the original appearance is encouraged. On side facades not within ten (10) feet of the front facade and on rear facades of the structure, the sills of original windows or pre-1930 windows that are compatible with the historic character of the structure may be raised to serve bathrooms and kitchens. In other respects, the design shall duplicate the original appearance of the existing window. On side facades more than ten (10) feet from the front facade and on rear facades, new windows in locations where no window previously existed may be approved, provided they retain a similar ratio of height to width as original windows on the structure, are the same type of window as others on the structure (e.g., double-hung or casement), and are trimmed and finished to match the appearance of the other windows.

(e) Entrance Doors. If the entrance door is original or is pre-1930 and blends with the historic character of the structure, it should be retained unless the owner can demonstrate to the Landmarks Commission that it is beyond repair. Metal doors may be approved, provided they blend with the historic appearance of the structure. Unpaneled, modern-style doors, and doors with a fake wood grain are prohibited. All doors shall be painted or varnished.

(f) Double or Multiple Doors. Double or multiple doors, such as doors leading onto patios or decks, may be permitted, provided they have frames similar to full view doors. Raw aluminum or other metallic finishes are prohibited. Patio doors shall be painted or finished with a material that resembles a painted finish. Such doors on street facades shall be hinged doors, rather than sliding doors.

(g) Storm Windows and Doors. Storm windows and doors shall be enameled, painted or otherwise coated with a colored surface to resemble a painted surface. Raw aluminum or other metallic finishes on storm windows and doors are prohibited. Painted or varnished storm doors of wood and glass to match the original design on the structure or on similar structures in the district are encouraged. Storm doors of simple design with no stylistic references may be used. Full view storm doors will be permitted. Storm doors with metal grills are prohibited.

(h) Skylights. Skylights on the roof slope over the main street facade are prohibited unless not visible from the street. Skylights may be permitted on rear roof slopes and on side roof slopes, provided the front edge of the skylight is at least ten (10) feet back from the front edge of the main roof and provided that the skylight is not so obtrusive as to detract from the general appearance of the structure. Skylights on any roof area not visible from the ground will be permitted. The design of new skylights shall be as simple as possible, of the flat (not bubble) type, and finished to blend with the color of the roof.

(i) Roof Materials. Reroofing shall be done with asphalt. Fiberglass or other rectangular composition shingles similar in appearance to 3-in-1- tab asphalt shingles. Sawn wood shingles also may be approved. Modern style shingles such as thick wood shakes, Dutch lap, French method, and interlock shingles are prohibited. Vents shall be located as inconspicuously as possible and shall be similar in color to the color of the roof. Rolled roofing, tar-and-gravel, rubberized membranes, and other similar roofing materials are prohibited, except that such materials may be used on flat or slightly sloped roofs that are not visible from the ground.

(j) Dormers and Other Roof Alterations. New dormers shall match the appearance of original dormers on the structure in roof shape and material, width of overhang, siding, window design, and trim details whenever feasible. If the original roof shape is not practical, another shape may be approved, provided that it does not detract from the historic character of the structure or the neighborhood. New dormers shall be no less than twelve (12) feet from the front edge of the roof. The

ridge line of a new dormer shall not extend above the ridge line of the main roof of the structure unless such higher roof line is not visible from the ground. Shed dormers behind existing dormers or gables on non-street sides of the structure may be approved, provided that the roof material, siding, window design and trim details match the original features of the structure. Other roof alterations shall be compatible with the roof shape and other historic features of the structure, such as siding and trim details, and shall not extend above the ridge line of the structure unless such extension is not visible from the ground.

(k) Chimneys. The exterior appearance of original or pre-1930 chimneys visible from the street shall be maintained in good repair. The removal of the exterior portions of such chimneys is prohibited. Chimneys not visible from the street may be removed. New chimneys shall be constructed of brick, stone, stucco, or other compatible material. Metal chimneys are prohibited.

(l) Siding. Original wood siding or pre-1930 siding that blends with the historic character of the structure shall be retained and restored as necessary, except that if the owner can demonstrate to the Landmarks Commission that the original siding is beyond repair, it may be replaced with wood, composite wood, or concrete clapboard siding to match the original or existing pre-1930 appearance. Restoration of original wood decorative details is encouraged. Soffits may be replaced or sided with wood or artificial materials, provided the appearance of the proposed material matches as closely as possible the original appearance.

Original brick, stone and stucco siding shall be retained. Installation of artificial siding on such structures is prohibited. Painting of unpainted brick is prohibited. Mortar and other materials used in brick repair shall match the original in color, hardness, and appearance.

(m) Foundations. All original foundation masonry, such as brick, stone, or rusticated concrete block, shall be retained unless the owner can demonstrate to the Commission that significant repairs are required, in which case replacement with materials to duplicate the original appearance is encouraged. If duplicating the original appearance is not practical, other materials may be approved, provided they blend with the historic character of the structure and the district.

(n) Additions. Additions on the front of the structure are prohibited, except for open porches. Additions on the sides or rear shall be permitted if they are compatible with the structure in architectural design, scale, color, texture, proportion and rhythm of solids to voids, and proportion of widths to heights of doors and windows. Additions that exactly duplicate the original materials in composition are encouraged. Additions that destroy significant architectural features are prohibited. Side additions shall not detract from the design composition of the main facade. Siding on new additions shall be the same as the structure, unless the structure is masonry, in which case narrow-gauge clapboards will be permitted. Foundation material on additions shall duplicate the original foundation material whenever practical. Other foundation materials may also be permitted, provided they do not detract from the historic character of the structure.

(o) Fire Escapes and Rescue Platforms. Fire escapes and rescue platforms shall be located such that they are as unobtrusive from the street as possible. No fire escapes or rescue platforms shall be permitted on the front facade of a structure unless the owner can demonstrate to the Landmarks Commission that no other location is practical. The design of fire escapes and rescue platforms shall comply with the requirements of par. 1., except that balusters on fire escapes and second exit platforms may be metal with one-by-one plain vertical balusters, painted to blend with the colors of the structure. Twisted or other decorative wrought iron is prohibited.

(p) Lighting Fixtures. Lighting fixtures that are visible from the street shall be of a design that is compatible with the historic appearance of the structure.

(q) Permanently Installed Air Conditioners. Permanently installed air conditioners shall be as inconspicuous as possible. Ground air conditioners shall be screened with landscaping where possible.

(r) Shutters. The installation of new shutters requires approval of the Landmarks Commission. Shutters will be permitted, provided they are compatible with the historic character of the structure and are of a size that, if the shutters were workable, would cover the window opening.

(s) Repairs. Repairs to structures shall either match the existing or the original appearance. Restoration to the original appearance is encouraged.

(t) Alterations to Post-1930 Structures. Alterations to structures that post-date 1930 shall be compatible with the original character of the structure and shall not detract from the historic character of older structures in the district. Alterations that bring the structure into compliance with the regulations of this section regarding siding, decks, foundations, porches, the proportion of windows and doors, and the proportion and rhythm of solids to voids of the street facades of such structures are encouraged. It is not the intent of this ordinance to create fake historic structures, but to allow modern style structures to retain their essential style while still blending with the appearance of historic structures in the district.

(6) Standards for the Review of Accessory Structures, Fences and Retaining Walls.

(a) Accessory Structures. Accessory structures shall be compatible with the design of the existing structure on the zoning lot, shall not exceed fifteen (15) feet in height and shall be as unobtrusive as possible. Garage doors shall either be entirely flat or shall have approximately square panels. Horizontally paneled doors are prohibited. Windows shall be either double or single-hung units of a similar proportion to the windows on the structure or shall be six-paned (three panes across and two panes high) units similar to those seen on 1920s era garages. Siding may either match the siding on the structure or be narrow-gauge clapboard, vertical board-and batten, or a smooth stucco or stucco-like applied material. The roof shape shall have a pitch and style similar to the roof shape on the structure. The roof material shall match as closely as possible the material on the structure. Alteration of existing accessory structures shall comply with this subdivision and with subdivision (d).

(b) Fences. Chain link and rustic style fences, such as rough sawn wood or split rails, are prohibited in the front yard.

(c) Retaining Walls in Front Yards. For retaining walls in front yards, railroad ties, landscape timbers, boulders, and concrete blocks are prohibited. Poured concrete walls with a smooth rubbed finish and under twenty-four (24) inches in height, flagstone and stone ashlar are permitted. Proposals to construct front yard retaining walls of other materials must be submitted to Landmarks Commission for approval prior to installation.

(7) Reference to Plan. The history of the First Settlement Historic District is derived from the Downtown Historic Preservation Plan, City of Madison Department of Planning and Community and Economic Development, 1998."

(Chapter 41 Cr. by ORD-15-00072, 7-29-15)

CHAPTER 45

REPEAL

Section

45.01 Repeal of Ordinances.
45.02 Ordinances Not Repealed.
45.03 Ordinances Repealed Not Reenacted.
45.04 Offenses Committed and Penalties Incurred Previous to Repeal.
45.05 Prosecutions Pending Not Affected.
45.06 Title of Ordinances—When to Take Effect.
45.07 Seventy-Seven Square Miles Ordinance. (Cr. by ORD-13-00005, 1-15-13)

45.01 REPEAL OF ORDINANCES. All ordinances adopted by the Common Council of the City of Madison prior to the adoption of these Madison General Ordinances are hereby repealed, except those ordinances and parts of ordinances mentioned in Section 45.02 hereof.

45.02 ORDINANCES NOT REPEALED. All ordinances or parts of ordinances relating to the following subjects are not repealed:

(1) The issuance of corporate bonds of the City of Madison of whatever name or description.
(2) The establishing of grades and curb lines in the public streets and alleys.
(3) The construction and repair of sidewalks on specified streets.
(4) The vacation and discontinuance of public streets and alleys.
(5) The fixing of salaries of public officials and employees.
(6) The granting of franchises to railroads, public utilities, and other companies.
(7) The lighting of streets.
(8) The construction of public works of the City of Madison.
(9) The annexation of territory to the City of Madison.
(10) The naming and changing of names of streets, alleys, public grounds and parks.
(11) The Zoning Ordinances of the City of Madison adopted by the Common Council on the 23rd day of November, 1945, and all amendments supplementary thereto, including the establishment of residential, commercial and industrial zones or districts.
(12) The creation and establishment of districts wherein all wires, cables, etc., are required to be located underground.
(13) All matters covered by and contained in charter ordinances.
(14) The creation of sewer districts.
(15) The creation of setback lines.
(16) Ordinances providing for crossing protection at various railroad crossings in the City of Madison.

45.03 ORDINANCES REPEALED NOT REENACTED. No ordinances or part of any ordinance heretofore repealed shall be considered as reordained or reenacted by virtue of the provisions of Section 45.01 of this chapter.

45.04 OFFENSES COMMITTED AND PENALTIES INCURRED PREVIOUS TO REPEAL. No offense committed and no penalty or forfeiture incurred previous to the time when any of the ordinances aforesaid shall be repealed shall be affected by such repeal, except that when any punishment, forfeiture, or penalty shall have been mitigated by the provisions of these general ordinances, such provision shall apply to and control any judgment to be pronounced after these general ordinances shall take effect, for any offense committed before that time.

45.05 PROSECUTIONS PENDING NOT AFFECTED. No prosecution for any offense, or the levy of any penalty or forfeiture, pending at the time when any of the ordinances aforesaid shall be repealed, shall be affected by repeal, but the right of action shall continue and the offender shall

be subject to the penalty as provided in such ordinances, and such prosecution shall proceed, in all respects, as if such ordinance or ordinances had not been repealed, except that all such proceedings had after the time these general ordinances shall take effect, shall be conducted according to the provisions of these general ordinances, and shall be in all respects subject to said provisions.

45.06 TITLE OF ORDINANCES—WHEN TO TAKE EFFECT. These ordinances, published in two volumes, shall be known as "The Madison General Ordinances" and shall take effect and be in force from and after the passage and publication in book form.

45.07 SEVENTY-SEVEN SQUARE MILES ORDINANCE.

(1) Purpose. From time to time, ordinances of the City of Madison are rendered unenforceable. This may be due to state legislation removing the City's authority, the pre-emptive effect of federal legislation or judicial decision. In some instances, the City will repeal the ordinance at issue. In other cases, the City desires to keep the ordinance on the books in the event the law restricting the City's authority is changed in the future, so that the ordinance is again enforceable. In order to avoid confusion, any such ordinance will be removed from the other chapters of the Madison General Ordinances and renumbered to be a part of this section. Such ordinances will be given a subsection number in this ordinance.

(2) Prevailing Wage on Building or Work Financed in Whole or in Part with City Financial Assistance.

(a) Purpose and Intent. It is the policy of the City to assure equitable wages for all building or work which is financed in whole or in part with City financial assistance. The Common Council finds that extending prevailing wages to workers employed on such projects preserves and promotes the public health, safety, prosperity, and general welfare of the people of the City of Madison.

(b) On any projects for which the City contributes financial assistance and which are "public works," "building or work," or "erection, construction, remodeling, repairing" as those terms are defined in Sec. 23.01(1)(a) of these ordinances and such work is performed by "employees working on the project" or "laborers, workers, and mechanics" as those terms are defined in Sec. 23.01(1)(a), all employees shall be compensated at the rates established pursuant to Sec. 23.01(1) of these ordinances, Wis. Stat. § 66.0903, and Wis. Admin. Code § DWD 290 as therein provided. In the event of a difference in the required rates or provisions, the higher wage or more stringent provision established by the City or the State shall be required.

(c) "City financial assistance" means any grant, cooperative agreement, loan, contract (other than a public works contract, a supply procurement contract, a contract of insurance or guaranty or a collective bargaining agreement) or any other arrangement by which the City provides or otherwise makes available assistance, in the form of

1. Funds.
2. Services of City personnel.
3. Real and personal property or any interest in or use of such property, including:
   a. Transfers or leases of such property for less than the fair market value, or for reduced consideration; and
   b. Proceeds from a subsequent transfer or lease of such property if the City's share of its fair market value is not returned to the City.
4. The sale and lease of, and the permission to use (on other than a casual or transient basis) City property or any interest in such property, the furnishing of services without consideration or at a nominal consideration,

or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by the sale, lease or furnishing of services to the recipient, and

5. Any City agreement, arrangement or other contract which has as one of its purposes the provision of financial assistance, including purchase of service agreements.

6. "City financial assistance" includes, but is not limited to, redevelopment contracts, economic development agreements, revenue or loan agreements with an eligible participant or authorized developer under Wis. Stat. § 66.1103, contracts with developers or other entities authorized by Wis. Stat. § 66.1333(5) and 66.1105(3), and assistance provided under Wis. Stat. § 66.1109.

(d) All contracts or agreements for such projects shall include the following provision:

Prevailing Wages. The Contractor shall pay its employees the wage rates established by Sec. 4.23, Madison General Ordinances, and its referenced sections and shall require in its contracts and subcontracts for work on the project, adherence by those contractors, subcontractors and agents to the wage rates established by this Section 4.23 and its referenced sections. The contractor and its contractors, subcontractors and agents shall also adhere to the requirements of Madison General Ordinances Sec. 23.01(1)(d) "Payrolls and Records," Sec. 23.01(1)(j) "Evidence of Compliance by Contractor," and Sec. 23.01(1)(k) "Evidence of Compliance by Agent and Subcontractor" with the exception that the reference to "City Engineer" and "Department of Public Works" shall be to the City agency administering the project.

(e) Exceptions.

1. This ordinance does not apply to work or contracts which are governed by Sec. 23.01 of these ordinances.

2. This ordinance does not apply to wages of student learners or employees of licensed sheltered workshops, as those terms are defined in Wis. Stat. ch. 104.

3. This ordinance does not apply to any construction or rehabilitation project which involves fewer than eight residential units and which does not include commercial space.

4. This ordinance does not apply to projects funded in whole or in part by federal funds.

(3) Regulating of Public Work.

(a) Wage Rates for Employees of Public Works Contractors.

1. General and Authorization. Every contract for public works issued by the City of Madison shall contain Section 23.01(1) of these Ordinances and shall require the contractor to compensate its employees at the prevailing wage rate in accordance with Wis. Stat. § 66.0903, Wis. Admin. Code ch. DWD 290 and as hereinafter provided.

This ordinance shall apply to all contracts for public works regardless of the value of the contract. This ordinance shall not apply to: a project of public works in which the labor for the project is provided by unpaid volunteers; warranty work; or work under a supply or installation contract. Notwithstanding Wis. Stat. § 66.0903(5), this ordinance shall apply to bid public works contracts for minor services and maintenance work, as defined in such statute.

"Public works" shall include building or work involving the erection, construction, remodeling, repairing or demolition of buildings,

parking lots, highways, streets, bridges, sidewalks, street lighting, traffic signals, sanitary sewers, water mains and appurtenances, storm sewers, and the grading and landscaping of public lands.

"Building or work" includes construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work, except for the delivery of mineral aggregate such as sand, gravel, bituminous asphaltic concrete or stone which is incorporated into the work under contract with the City by depositing the material substantially in place, directly or through spreaders, from the transporting vehicle.

"Erection, construction, remodeling, repairing" means all types of work done on a particular building or work at the site thereof in the construction or development of the project, including without limitation, erecting, construction, remodeling repairing, altering, painting, and decorating, the transporting of materials and supplies to or from the building or work done by the employees of the contractor, subcontractor, or agent thereof, and the manufacturing or furnishing of materials, articles, supplies or equipment on the site of the building or work, by persons employed by the contractor, subcontractor, or agent thereof.

"Employees working on the project" means laborers, workers, and mechanics employed directly upon the site of the work.

"Laborers, workers, mechanics and truck drivers" includes subjourneypersons and properly registered and indentured apprentices but excludes clerical, supervisory, and other personnel not performing manual labor.

This is a Charter Ordinance and shall be effective upon sixty (60) days from passage and publication subject, however, to the referendum procedures of Wis. Stat. § 66.0101(5).

2. Establishment of Wage Rates. The City of Madison has been granted exemption from applying to the Wisconsin Department of Workforce Development (DWD) for determination of prevailing wage rates in accordance with Wis. Stat. § 66.0903(3). The Department of Public Works shall periodically obtain a current schedule of prevailing wage rates from DWD. The schedule shall be used to establish the City of Madison Prevailing Wage Rate Schedule for Public Works Construction (prevailing wage rate). The Department of Public Works may include known increases to the prevailing wage rate which can be documented and are to occur on a future specific date. Upon approval by the Common Council, the prevailing wage rate shall be included in public works contracts subsequently negotiated or solicited by the City. Except for known increases contained within the schedule, the prevailing wage rate shall not change during the contract.

3. Workforce Profile. The contractor shall, at the time of signature of the contract, notify the City Engineer in writing of the names and classifications of all the employees of the contractor, subcontractors and agents proposed for the work. In the alternative, the contractor shall submit in writing the classifications of all the employees of the contractor, subcontractors and agents and the total number of hours estimated in each classification for the work. This workforce profile(s) shall be reviewed by the City Engineer who may, within ten (10) days, object to the workforce profile(s) as not being reflective of that which would be required for the work. The contractor may request that the workforce profile, or a portion of the workforce profile, be submitted after the signature of the contract

but at least ten (10) days prior to the work commencing. Any costs or time loss resulting from modifications to the workforce profile as a result of the City Engineer's objections shall be the responsibility of the contractor.

4. Payrolls and Records. The contractor shall keep weekly payroll records setting forth the name, address, telephone number, classification, wage rate and fringe benefit package of all the employees who work on the contract, including the employees of the contractor's subcontractors and agents. Such weekly payroll records must include the required information for all City contracts and all other contracts on which the employee worked during the week in which the employee worked on the contract. The contractor shall also keep records of the individual time each employee worked on the project and for each day of the project. Such records shall also set forth the total number of hours of overtime credited to each such employee for each day and week and the amount of overtime pay received in that week. The records shall set forth the full weekly wages earned by each employee and the actual hourly wage paid to the employee.

The contractor shall submit the weekly payroll records, including the records of the contractor's subcontractors and agents, to the City engineer for every week that work is being done on the contract. The submittal shall be within twenty-one (21) calendar days of the end of the contractor's weekly pay period.

Employees shall be paid unconditionally and not less often than once per week. Employees shall receive the full amounts accrued at the time of the payment, computed at rates not less than those stated in the prevailing wage rate and each employee's rate shall be determined by the work that is done within the trade or occupation classification which should be properly assigned to the employee.

An employee's classification shall not be changed to a classification of a lesser rate during the contract. If, during the term of the contract, an employee works in a higher pay classification than the one which was previously properly assigned to the employee, then that employee shall be considered to be in the higher pay classification for the balance of the contract, receive the appropriate higher rate of pay, and she/he shall not receive a lesser rate during the balance of the contract. For purposes of clarification, it is noted that there is a distinct difference between working in a different classification with higher pay and doing work within a classification that has varying rates of pay which are determined by the type of work that is done within the classification. For example, the classification Operating Engineer provides for different rates of pay for various classes of work and the employer shall compensate an employee classified as an operating engineer based on the highest class of work that is done in one day. Therefore, an operating engineer's rate may vary on a day to day basis depending on the type of work that is done, but it will never be less than the base rate of an operating engineer. Also, as a matter of clarification, it is recognized that an employee may work in a higher paying classification merely by chance and without prior intention, calculation or design. If such is the case and the performance of the work is truly incidental and the occurrence is infrequent, inconsequential and does not serve to undermine the single classification principle herein, then it may not be required that the employee be considered to be in the higher pay classification and receive the higher rate of pay for the duration of the

contract. However, the contractor is not precluded or prevented from paying the higher rate for the limited time that an employee performs work that is outside of the employee's proper classification.

Questions regarding an employee's classification, rate of pay or rate of pay within a classification, shall be resolved by reference to the established practice that predominates in the industry and on which the trade or occupation rate/classification is based. Rate of pay and classification disputes shall be resolved by relying upon practices established by collective bargaining agreements and guidelines used in such determination by appropriate recognized trade unions operating within the City of Madison.

The contractor, its subcontractors and agents shall submit to interrogation regarding compliance with the provisions of this ordinance.

Mulcting of the employees by the contractor, subcontractor and agents on public works contracts, such as by kickbacks or other devices, is prohibited. The normal rate of wage of the employees of the contractor, subcontractors and agents shall not be reduced or otherwise diminished as a result of payment of the prevailing wage rate on a public works contract.

5. Hourly Contributions. Hourly contributions shall be determined in accordance with the prevailing wage rate and with Wis. Admin. Code § DWD 290.01(10).

6. Apprentices and Subjourneypersons. Apprentices and subjourneypersons performing work on the project shall be compensated in accordance with the prevailing wage rate and with Wis. Admin. Code §§ DWD 290.02 and DWD 290.025, respectively.

7. Straight Time Wages. The contractor may pay straight time wages as determined by the prevailing wage rate and Wis. Admin. Code § DWD 290.04.

8. Overtime Wages. The contractor shall pay overtime wages as required by the prevailing wage rate and Wis. Admin. Code ch. DWD 290.05.

9. Posting of Wage Rates and Hours. A clearly legible copy of the prevailing wage rate, together with the provisions of Wis. Stat. §§ 66.0903(10)(a) and (11)(a), shall be kept posted in at least one conspicuous and easily accessible place at the project site by the contractor and such notice shall remain posted during the full time any laborers, workers or mechanics are employed on the contract.

10. Evidence of Compliance by Contractor. Upon completion of the contract, the contractor shall file with the Department of Public Works an affidavit stating:

    a. That the contractor has complied fully with the provisions and requirements of Wis. Stat. § 66.0903(3), and Wis. Admin. Code ch. DWD 290, and Sec. 23.01, MGO; the contractor has received evidence of compliance from each of the agents and subcontractors; and the names and addresses of all of the subcontractors and agents who worked on the contract.

    b. That full and accurate records have been kept, which clearly indicate the name and trade or occupation of every laborer, worker or mechanic employed by the contractor in connection with work on the project. The records shall show the number of hours worked by each employee and the actual wages paid therefore; where these records will be kept and the name, address and telephone number of the person who will be responsible for keeping them. The records shall be retained and made available for a period of at least

three (3) years following the completion of the project of public works and shall not be removed without prior notification to the municipality.

11. Evidence of Compliance by Agent and Subcontractor. Each agent and subcontractor shall file with the contractor, upon completion of their portion of the work on the contract an affidavit stating that all the provisions of Wis. Stat. § 66.0903(3), and Sec. 23.01, MGO, have been fully complied with and that full and accurate records have been kept, which clearly indicate the name and trade or occupation of every laborer, worker or mechanic employed by the contractor in connection with work on the project. The records shall show the number of hours worked by each employee and the actual wages paid therefore; where these records shall be kept and the name, address and telephone number of the person who shall be responsible for keeping them. The records shall be retained and made available for a period of at least three (3) years following the completion of the project of public works and shall not be removed without prior notification to the municipality.

12. Failure to Comply with the Prevailing Wage Rate. If the contractor fails to comply with the prevailing wage rate or this ordinance, s/he shall be in default on the contract."

This is a Charter Ordinance and shall be effective upon sixty (60) days from passage and publication subject, however, to the referendum procedures of Wis. Stat. § 66.0101(5).

(4) Sale of Firearms. It shall be unlawful for any person, firm, association or corporation to sell, give away, trade or transfer a firearm to any other person, firm, association or corporation in the City of Madison unless within five (5) days, excluding Saturdays, Sundays or holidays, after the transfer of possession of said firearm, such person, firm, association or corporation shall report such transfer to the Chief of Police, or his/her designee, giving a complete description of the firearm so sold, given, traded or transferred including the caliber, make, model, manufacturer's name and serial number, or if none, any other distinguishing number or identification mark and the name, age, address and occupation of the recipient of said firearm.

(5) Handgun Transfer Waiting Period. To the extent that the sale of handguns is permitted within the City of Madison, no person shall transfer possession of any handgun to another person other than to a firearms dealer for seven (7) days following application for sale or transfer of such handgun.

(6) Possession of Short-Barreled Handguns Prohibited.

(a) Statement of Intent. The Common Council of the City of Madison finds and determines that handguns play a major role in the commission of homicide, aggravated assault, and armed robbery, and accidental injury and death; that the easy and convenient availability of certain types of handguns has increased the potential for firearm-related deaths and injuries; and that in order to promote and protect the health, safety and welfare of the public it is necessary to regulate the possession of certain handguns which because of their size are particularly easy to conceal on or about the person, thereby making them extremely dangerous to the health, safety and security of the citizens of Madison and particularly dangerous in the hands of criminals. It is the intent of the Common Council, therefore, to prohibit the possession of short-barreled handguns within the jurisdiction of the City of Madison.

(b) Definitions.

Antique firearm means any firearm not designed or redesigned for using rim fire or conventional center fire ignition with fixed ammunition and manufactured in or before 1898 (including any matchlock, flintlock, percussion cap, or similar

type of ignition system) or replica thereof, whether actually manufactured before or after the year 1898, and also any firearm using fixed ammunition manufactured in or before 1898, for which ammunition is no longer manufactured in the United States and is not readily available in the ordinary channels of commercial trade.

Handgun has the meaning given in Section 25.01(1) of the Madison General Ordinances.

Museum means an organized and permanent non-profit institution, essentially educational or aesthetic in purpose, with professional staff, which owns and utilizes tangible objects, cares for them and exhibits them to the public on some regular schedule.

Unserviceable firearm means a firearm which is incapable of discharging a shot by means of an explosive and incapable of being readily restored to a firing condition.

Short-barreled handgun means a handgun that has a barrel length of less than 4 inches, measured as follows:

a. For a revolver, the barrel length is measured from the end of the muzzle to the forcing cone.

b. For a handgun other than a revolver, the barrel length is measured from the end of the barrel to the face of the closed breechblock or closed bolt.

(c) Possession Prohibited; Disposal. It shall be unlawful for any person to possess a short-barreled handgun whether loaded or unloaded in the City of Madison except as provided herein. Any short-barreled handgun possessed in violation of this section and any ammunition possessed or used in connection therewith is unlawful property and shall be seized by any peace officer. Upon conviction of the person for a violation of this section, all such property seized shall disposed of pursuant to Wis. Stat. § 968.20(3).

(d) Pre-Existing Handguns. Any person who, prior to the effective date of this section, was legally in possession of a handgun prohibited hereunder shall have thirty (30) days from the effective date of this ordinance to do any of the following without being subject to prosecution hereunder:

1. Remove said handgun from within the jurisdiction of the City of Madison.
2. Modify said handgun to render it permanently unserviceable.
3. Surrender said handgun to the City of Madison Police Department.

(e) Exceptions. This section shall not apply to the following:

1. Any peace officer whether on or off duty and any retired peace officer;
2. Any armed forces or National Guard personnel while on official duty;
3. Authorized employees of the State Crime Laboratory in the course of their official duties;
4. Any corrections personnel in the Department of Corrections while on official duty;
5. Possession of a prohibited handgun by a licensed importer, manufacturer or dealer or other authorized individual in connection with the manufacture, transportation, sale or repair of prohibited handguns to persons authorized by this section to possess them;
6. Individuals engaged in live theatrical performances wherein firearms without ammunition or with blank ammunition are used as props;
7. Licensed firearms collectors;
8. Antique firearms;
9. Unserviceable firearms.
10. Firearms carried in interstate commerce pursuant to Title 18 United States Code Sec. 926A.

11. Civilian students and instructors who are receiving or conducting law enforcement training certified by the Law Enforcement Standards Board as defined in Wis. Stat. § 165.85 while actually engaged in such training.
12. Short-barreled handguns in the collections of non-profit museums which collect such weapons for legitimate educational purposes.
13. A nonresident of the City of Madison in lawful possession of a prohibited handgun from outside the City of Madison while traveling directly through the City of Madison, provided such prohibited handgun so transported is at all times while within the City of Madison unloaded and lawfully encased.

(f) Penalty. Any person violating this section shall be subject to a forfeiture of not less than five hundred dollars ($500) nor more than one thousand dollars ($1000) upon conviction and, in addition, shall forfeit the firearm giving rise to the violation and any ammunition possessed or used in connection therewith.

(g) Severability. The provisions of any part of this section are severable. If any provision or subsection hereof or the application thereof to any person or circumstances is held invalid, the other provisions, subsections and applications of such ordinance to other persons or circumstances shall not be affected thereby. It is declared to be the intent of this section that the same would have been adopted had such invalid provisions, if any, not been included herein.

(h) Subsection (3) shall not be applicable in territory newly annexed to the City of Madison until thirty (30) days following the date of annexation or, in the case of an appeal, reinstatement of the annexation by the court.

(7) Possession Of Assault Weapons Prohibited.

(a) Statement of Intent. The Common Council of the City of Madison finds and declares that the proliferation and use of assault weapons poses a threat to the health, safety and security of all citizens of this City. Assault weapons are particularly dangerous in the hands of criminals and serve no necessary hunting and sporting purpose for law-abiding citizens. Assault weapons have such a high capacity for firepower that any function as sports or recreational firearms is substantially outweighed by the significant danger that they can be used to kill or injure human beings. It is the intent of the Common Council, therefore, to prohibit the possession of assault weapons within the jurisdiction of the City of Madison.

(b) Definitions.

1. "Assault weapon" means the following designated semiautomatic firearms:
   a. All of the following specified rifles:
      i. All AK series including, but not limited to, the models identified as follows:
         A. Made in China AK, AKM, AKS, AK47, AK47S, 56, 56S, 84S, and 86S.
         B. Norinco 56, 56S, 84S, and 86S.
         C. Poly Technologies AKS and AK47.
         D. MAADI AK47 and ARM.
      ii. UZI and Galil.
      iii. Baretta AR-70.
      iv. CETME Sporter.
      v. Colt AR-15 series.
      vi. Daewoo K-1, K-2, Max 1, Max 2, AR 100, and AR110C.
      vii. Fabrique Nationale FAL, LAR, FNC, 308 Match, and Sporter.
      viii. MAS 223.
      ix. HK-91, HK-93, HK-94, HK-PSG-1.

x. The following MAC types:
   A. RPB Industries Inc. sM10 and sM11.
   B. SWD Incorporated M11.
xi. SIG AMT, PE-57, SG 550, SG 551.
xii. Springfield Armory BM59 and SAR-48.
xiii. Sterling MK-6.
xiv. Steyer AUG.
xv. Valmet M62S, M71S, and M78S.
xvi. Armalite AR-180.
xvii. Bushmaster Assault Rifle.
xviii. Calico M-900.
xix. J&R ENG M-68.
xx. Weaver Arms Nighthawk.

b. All of the following specified pistols or handguns:
   i. UZI.
   ii. Encom MP-9 and MP-45.
   iii. The following MAC types:
      A. RPB Industries Inc. sM10 and sM11.
      B. SWD Incorporated M-11.
      C. Advance Armament Inc. M-11.
      D. Military Armament Corp. Ingram M-11.
   iv. Intratec TEC-9.
   v. Sites Spectre.
   vi. Sterling MK-7.
   vii. Calico M-950.
   viii. Bushmaster Pistol.

c. All of the following specified shotguns:
   i. Franchi SPAS 12 and LAW 12.
   ii. Striker 12.
   iii. The Streetsweeper type S/S Inc. SS/12.

d. Any firearm which is identical to one of those listed in Subsection (2)(a)1.,2. or 3 above except for slight modifications or enhancements such as a folding or retractable stock, different sights, for example, adjustable sights; case deflector for left-handed shooters; shorter barrel; stock of different composition; larger clip, magazine or other ammunition feeding device providing increased ammunition capacity; different caliber provided the caliber exceeds .22 rimfire; or bayonet mount.

e. Any combination of parts designed or intended to be readily convertible into an assault weapon listed in Subsection (2)(a)1., 2., or 3. above if the parts are in the possession or under the control of the same person.

f. A duplicate of a semiautomatic firearm listed in Subsection (2)(a)1., 2., or 3. above.

g. Any rifle that is a semiautomatic firearm and was originally designed to accept or has been modified so as to be able to accept a detachable large-capacity magazine and has at least two of the following characteristics:
   i. A folding or telescoping stock.
   ii. A pistol grip that protrudes conspicuously beneath the action of the weapon.
   iii. A bayonet mount.

iv. A flash suppressor or threaded barrel designed to accommodate a flash suppressor.

v. A grenade launcher.

h. A pistol or handgun that is a semiautomatic firearm and was originally designed to accept or has been modified so as to be able to accept a detachable large-capacity magazine and has at least two of the following characteristics:

i. An ammunition magazine that attaches to the pistol outside of the pistol grip.

ii. A threaded barrel capable of accepting a barrel extender, flash suppressor, forward hand grip, or silencer.

iii. A shroud that is attached to or partially or completely encircles the barrel and that permits the shooter to hold the firearm with the second hand without being burned.

iv. A manufactured weight of 50 ounces or more when the pistol is unloaded.

v. A semiautomatic version of an automatic firearm.

i. A shotgun that is a semiautomatic firearm and has at least two of the following characteristics:

i. A folding or telescoping stock.

ii. A pistol grip that protrudes conspicuously beneath the action of the weapon.

iii. A fixed magazine capacity in excess of five (5) rounds.

iv. An ability to accept a detachable magazine.

2. "Firearm" has the meaning given in Sec. 25.01(1) of the Madison General Ordinances.

3. "Large capacity magazine" means a magazine, belt, drum, feed strip, or similar ammunition feeding device that has a capacity of, or that can be readily restored or converted to accept, more than 10 rounds of ammunition; or any combination of parts from which such device can be assembled; however, this term does not include an attached tubular device designed to accept and capable of operating only with .22 caliber rimfire ammunition.

4. "Museum" means an organized and permanent non-profit institution, essentially educational or aesthetic in purpose, with professional staff, which owns and utilizes tangible objects, cares for them and exhibits them to the public on some regular schedule.

5. "Pistol grip" means a well-defined handle, similar to that found on a handgun, that protrudes conspicuously beneath the action of the weapon, and which permits the firearm to be held and fired with one hand.

6. "Semi-automatic firearm" means a firearm which fires a single projectile for each single pull of the trigger and is self-reloading or automatically chambers a round, cartridge or bullet.

7. "Series" includes all other models that are only variations, with minor differences, of those models listed in Subsection (2)(a) 1., 2. or 3., regardless of the manufacturer.

8. "Type" means model or version.

(c) Possession Prohibited; Disposal. It shall be unlawful for any person to possess an assault weapon whether loaded or unloaded in the City of Madison except as provided herein. Any assault weapon possessed in violation of this section and any ammunition possessed or used in connection therewith is unlawful property and

shall be seized by any peace officer. Upon conviction of the person for violating this section, all such property seized shall be disposed of pursuant to Wis. Stat. § 968.20(3)(b).

(d) Pre-Existing Assault Weapons. Any person who, prior to the effective date of this section, was legally in possession of an assault weapon prohibited hereunder shall have thirty (30) days from the effective date of this ordinance to do any of the following without being subject to prosecution hereunder:

1. Remove said assault weapon from within the jurisdiction of the City of Madison.
2. Modify said assault weapon to render it permanently unserviceable.
3. Surrender said assault weapon to the City of Madison Police Department.

(e) Exceptions. This section shall not apply to the following:

1. Peace Officers if they have been authorized by their Chief to possess the prohibited assault weapon in the course of their employment.
2. Any armed forces or National Guard personnel while on official duty;
3. Authorized employees of the State Crime Laboratory in the course of their official duties;
4. Any corrections personnel in the Department of Corrections while on official duty;
5. Possession of a prohibited assault weapon by a licensed importer, manufacturer or dealer or other authorized individual in connection with the manufacture, transportation, sale or repair of prohibited firearms to persons authorized by this section to possess them;
6. Unserviceable firearms.
7. Assault weapons carried in interstate commerce pursuant to Title 18 United States Code Sec. 926A.
8. Civilian students and instructors who are receiving or conducting law enforcement training certified by the Law Enforcement Standards Board as defined in Wis. Stat. § 165.85 while actually engaged in such training.
9. Assault weapons in the collections of non-profit museums which collect such weapons for legitimate educational purposes.
10. A nonresident of the City of Madison in lawful possession of a prohibited assault weapon from outside the City of Madison while traveling directly through the City of Madison, provided such prohibited assault weapon so transported is at all times while within the City of Madison unloaded and lawfully encased.

(f) Penalty. Any person violating this section shall be subject to a forfeiture of not less than seven hundred fifty dollars ($750) nor more than one thousand five hundred dollars ($1500) upon conviction and, in addition, shall forfeit the assault weapon giving rise to the violation and any ammunition possessed or used in connection therewith.

(g) Severability. The provisions of any part of this section are severable. If any provision or subsection hereof or the application thereof to any person or circumstances is held invalid, the other provisions, subsections and applications of such ordinance to other persons or circumstances shall not be affected thereby. It is declared to be the intent of this section that the same would have been adopted had such invalid provisions, if any, not been included herein.

(h) Subsection (3) shall not be applicable in territory newly annexed to the City of Madison until thirty (30) days following the date of annexation or, in the case of an appeal, reinstatement of the annexation by the court.

(Sec. 45.07 Cr. by ORD-13-00005, 1-15-13)

APPENDIX
