RE: Potential Sale of Surplus Water Utility Property

The purpose of this memorandum is to outline a process and schedule for the disposal and sale of properties that the Madison Water Utility has deemed surplus.

Background

In May of 2018, the Water Utility contacted the Office of Real Estate services about the possibility of selling approximately twelve parcels that they have deemed surplus. In consultation with the Planning Department, Real Estate has analyzed each of the parcels to determine the most likely use for the parcel. Additionally, staff have provided a recommended method of disposal for each parcel. While the Water Utility is not subject to the City of Madison Ordinance on the Disposal of Surplus Real Property, staff recommends using them as a general guideline.
