

Water Utility Board Policy			
Title:	Monitoring the General Manager's Performance		
Policy Number:	BED - 2D	Adopted:	Aug 24, 2010
Category:	Board-Executive Delegation	Revision #/Date:	

The board's systematic and rigorous monitoring of the General Manager's performance will be based solely on the utility's achievement of Outcomes policies and operation within the boundaries of Executive Limitations policies.

Accordingly:

1. Monitoring data are simply those data used to determine the degree to which board policies are being met. Other types of data the board may review to develop policy or increase knowledge regarding the utility will not be considered monitoring data.
2. The board will acquire monitoring data by one or more of three methods:
 - a. By internal report, in which the General Manager discloses compliance information to the board
 - b. By external report, in which an external, disinterested third party selected by the board assesses compliance with board policies (includes reports from the City Auditor)
 - c. By direct board inspection, in which a member or members of the board delegated by formal action of the board assess compliance with appropriate policy criteria
3. All policies that instruct the General Manager will be monitored at a frequency and by a method chosen by the board. The board can monitor any policy at any time by any method, but will ordinarily depend on a routine schedule.
