Greetings ALRC members-

I support both applications.

I held a neighborhood meeting for the BP Atwood's request to sell wine. There was a small turnout and general support expressed. I received several emails expressing concerns about alcohol density and the public health aspects of alcohol in general. The applicants indicated they wanted to replace a freezer to add a display cooler and suggested they would also do endcap displays. Please clarify/codify the square footage available for the additional wine sales.

I was notified by Ian's Pizza Garver but was not able to hold a neighborhood meeting about their license.

Thank you for your service-

Marsha
