

# Transportation Commission Annual Work Plan Draft

July 1, 2019 to June 30, 2020

## Notes:

1. Reports coming to the Transportation Commission should include an executive summary, the relevant data, and an analysis of that data (i.e. how the data aligns with transportation safety issues; how this data can be used to identify transportation safety issues; and recommendations for changes to address any chronic transportation safety issues).
2. Quarterly staff reports will be scheduled at the first meeting of the second month in the quarter as much as possible, to provide some consistency for the agencies involved.
- ~~3. This draft will serve as an unofficial planning guide for now, till the final work plan is approved at June 12, 2019 meeting after the new commission members are onboard.~~
- ~~4. Please provide your comments and suggestions to the current Commission Chair Ann Kovich or Executive Secretary Yang Tao.~~
