Public Comments

Staff Recommendation

Based upon the submittal materials, staff believes the standards for granting a Certificate of Appropriateness for replacing 14 windows at 15 E Gilman have not been met. Staff recommends that the Landmarks Commission ascertain from the applicant team if the 9 missing sashes are available for reinstallation. If they are, then staff recommends the Landmarks Commission refer this project to a future meeting for a complete application that details:

1. What windows require replacement and what will be repaired
2. A complete key showing locations of windows
3. A description of each window type that includes dimensions of the window and its components
4. Product sheets for any replacements
5. A narrative that discusses how the dimensions of the new and the old match

If the sashes have been destroyed, then staff recommends:

1. All remaining windows be repaired
2. Replacement of the missing sashes must match the original both in dimension and of the decorative window horns

If the sashes have been destroyed, then City Building Inspection will take enforcement action.
