Planning & Community
& Economic Development

Heather,

As you can see in the photos provided, the paint is badly peeling, the wood underneath is grayed out, and there is significant dry rot. Subsequently, these windows are very difficult to open and close, rendering them mostly unusable. I would estimate the windows to be 67 years old, as the building was constructed in 1952 and the windows look original. After surveying the surrounding homes in the neighborhood, it seems clear that other structures of roughly the same age have replaced their original windows and doors for presumably the same reasons.

Upon my inspection, I found there would be necessary wood replacement and glaze replacement along with significant shaving of the sides due to swelling. The repair of the current windows, if even possible, would be very extensive considering the degree to which the wood has rotted. We would like to replace all windows and exterior doors on the building while doing what we can to preserve the historic nature of the structure. All the work would be done performing lead safe procedures

Thank you very much for your time.
Scott McKinley

RE: 1207 Jenifer St/Purposed window replacement- COA

Bailey, Heather [HBailey@cityofmadison.com]

Sent: Wednesday, May 01, 2019 12:56 PM**To:** Scott Mckinley**Attachments:** email 4-8-19.pdf (79 KB) ; Hammond Window Guidance.pdf (462 KB) ; Windows Sustainability Gui~1.pdf (494 KB)

Scott,

I am attaching a copy of our email correspondence from April 8. The new materials you have provided address one of the items we need for a complete submission. I'll break out the requirements into a list form:

- Photos of the current windows and doors
- Copies of the product sheet from the manufacturer [you've now provided that]
- Photos of the exterior of the building with notations of what windows and doors you're proposing to replace (and be sure to key them to the product descriptions)
- A narrative that explains why the current windows and doors are beyond repair
- A description of the current windows and doors, including their dimensions and how those dimensions compare to the proposed replacements
- Approximate age of the current windows and doors

I am also attaching a document on sustainability as it relates to windows from the National Park Service and a windows information sheet we're currently reviewing from Hammond, LA. Given the information that you've provided to this point, I think that you will have a challenging case for replacing all historic windows and doors, particularly if your argument is only for sustainability (as replacements are not a sustainable option when you have old-growth wood windows and doors). The window and door replacements the Landmarks Commission approves are for units that are deteriorated beyond repair. If you need information on how to find the appropriate contractors to maintain historic windows, I would recommend you reach out to the Wisconsin Historical Society's preservation architect (608-264-6490) who can provide you with information on contractors who have successfully completed preservation tax credit projects. You might also review their guidance on historic window maintenance:

TERMS & CONDITIONS:

PERFORMANCE: Where no specific date is fixed we shall be allowed reasonable time to make delivery of the materials and perform the work.

DAMAGE, LOSS, DELAY OR DEFAULT THROUGH CAUSES BEYOND OUR CONTROL: We shall not be responsible for default, damage, loss or delay in performance due to labor trouble, fires, accidents, floods, collapse or other causes beyond our control, or due to shortages of materials or transportation facilities resulting from war, national or local emergency, riots, governmental priorities, embargoes and like conditions and regulations. Any and all loss of, or damage to our materials erected or stored on the premises, not caused by us, shall be repaired and replaced by us and the additional cost thereof shall be borne by the purchaser.

WORKING CONDITIONS AND FACILITIES TO BE SUPPLIED BY THE PURCHASER: The purchaser shall make all work surfaces, on which materials are to be supplied, available for work at one time so that the work shall not be interrupted; shall provide surfaces that are clean, dry and in an accessible condition, shall at his own expense cause all obstructions to our work to be removed; shall additionally bear the cost of sending our men to the job, on his notification, before surfaces are ready for the application of our materials, or expense due to any delay during the progress of the work not caused by us; shall allow us free and reasonable use of light, heat, water and power, and the use of available elevators, hoists and other facilities.

DELIVERY: When materials are quoted on the basis of delivery to the jobsite, we provide delivery assistance to the customer's garage only.

INSURANCE: We carry public liability, property damage and workmen's compensation insurance and consequently will not honor any charges against us for such similar coverage. Any expense incurred by us for insurance or bond to cover our liability under any "hold harmless" or "indemnity" clause or clause of a similar nature in any contract, specifications, letter of acceptance or notice submitted by you or your contractors which in any way requires us to assume any liability which is not imposed on us by law, shall be paid by you.

CHANGES IN PLANS OR SPECIFICATIONS: No credit or allowance shall be granted for alterations or modifications in work or materials, unless such credit or allowance has been agreed to by us in writing before such alterations or modifications are made.

GLAZING: Attention is directed to the Consumer Product Safety Act and the Federal Regulation for "Architectural Glazing Materials (16 CFR 1201)." THIS LAW SPECIFIES WHERE THE USE OF TEMPERED GLASS IS MANDATORY. In any instances of claims arising from the use of non-tempered glass, it will be the sole liability of the contractor or customer who accepted the glass as specified in our proposal that the use of such non-tempered glass is not prohibited by law, and that this glass will be used in areas in which non-tempered glass is allowable. Distortion in tempered glass is common and is not considered a defect.

TAXES: Any sales, excise, processing or any other direct tax imposed upon the distributor, sale or application of materials supplied in accordance with this proposal shall be added to the proposal price.

CONSEQUENTIAL DAMAGE: Seller shall not be liable for any direct, indirect or consequential damage or loss for any reasons, including but not limited to: any defect or defects in materials, improper installation, or breakage, bursting leakage.

ACCEPTANCE OF WORK AND MATERIALS: The Customer shall immediately upon delivery inspect all material. All work performed and materials supplied under this Proposal shall be deemed to comply with all terms of the Proposal unless Seller is notified to the contrary within seven (7) days following delivery.

AUTHORIZATION TO USE PHOTOGRAPHS AND/OR PROJECT DETAILS: I hereby authorize Pella Corporation, its affiliates and/or subsidiaries to use, reproduce, and/or publish photographs and/or video that may pertain to me and my project, including materials described below, without compensation. I understand that this material may be used in various communications (e.g. Website, e-newsletters, promotional materials, etc).

Consequently, the Corporation may publish materials, photographs, and/or make reference to the project in a manner that the Corporation or project sponsor deems appropriate.

DEFAULTS: If the customer fails to pay pursuant to the terms of this accepted proposal, the Customer agrees to pay all reasonable attorney fees and costs (of whatever nature) incurred by the Seller to obtain collection.

For more information regarding the finishing, maintenance, service and warranty of all Pella® products, visit the Pella® website at www.pella.com

CANCELLATIONS AND/OR CHANGES: All sales are final. Product is ordered based on customer specification and approval via the signed contract.

WARRANTY: Pella products are covered by Pella's limited warranties in effect at the time of sale. All applicable product warranties are incorporated into and become a part of this contract. Please see the warranties for complete details, taking special note of the two important notice sections regarding installation of Pella products and proper management of moisture within the wall system. Neither Pella Corporation nor VerHalen, Inc. DBA Pella Windows and Doors of Wisconsin will be bound by any other warranty unless specifically set out in this contract. However, Pella Corporation will not be liable for branch warranties which create obligations in addition to or obligations which are inconsistent with Pella written warranties.

Clear opening (egress) information does not take into consideration the addition of a Rolscreen (or any other accessory) to the product. You should consult your local building code to ensure your Pella products meet local egress requirements.

For more information regarding the finishing, maintenance, service and warranty of all Pella® products, visit the Pella® website at

LR #1

A photograph showing a window with a view of a building. The window is framed by a dark metal or wood frame. The view outside shows a building with light-colored siding and a dark window. The window glass has some spider webs and dust. The window sill is made of wood and has the handwritten text "LR # 1" in black marker. To the right of the window, there is a white vertical surface, possibly a wall or door frame, with some small holes or marks.

A photograph of a person's open palm, facing the camera. The skin on the palm is light-colored and shows some texture. In the center of the palm, the characters 'A-3-B' are written in a thick, black, hand-drawn marker. The background is a dark, vertically-slatted surface, possibly a door or a wall. The lighting is even, highlighting the contours of the hand.

A-3-B

A close-up photograph of a wooden surface, likely a table or desk. The wood has a light, natural grain and shows some signs of wear, including a small stain and a crack. In the lower-left corner, the words 'bed apt 1' are written in a black, hand-drawn marker. The background is dark and out of focus.

A photograph showing a geological rock layer. The layer is light-colored and shows signs of weathering and fracturing. A hand is visible in the upper right corner, pointing towards the rock. The text "bed apt 1" is handwritten in black ink on the rock surface. The background is dark and out of focus.

bed apt 1

bed apt 1

bed apt 1

A photograph showing a close-up of a geological rock formation. The rock is composed of numerous thin, horizontal layers or beds. The top layer is a light, almost white color. Below it, the layers transition through shades of light purple, lavender, and grey. The rock surface is highly textured, with many small cracks and irregularities. In the lower-left portion of the image, the words "bed apt 1" are handwritten in black ink. The background is dark and out of focus, with a bright green horizontal band visible in the upper left. A person's hand is partially visible on the right side of the frame, holding the camera.
