Subject: Transportation Commission

Good Morning:

I checked to see how to contact the Transportation Commission but it appears from the website that your office is default site. Sorry for any inconvenience but please forward to the commission (and if you can provide a direct link will be wonderful). I wish to make known that the current intercity bus stop seems to be working well – across the street from the Union it allows one to use bathrooms and get food/beverages/shelter. Lake street may be feasible but Monroe Street does not appear a good fit. I ride intercity buses between 5 – 10 times a year so am looking forward to the actual permanent site that will have amenities. Also Chazen site wasn't too bad either – their complaints demonstrate a part of UW that is hostile to the larger community. Let's go Public Transportation!

Sincerely,

Rich Zietko
