

Overburden Waiver

THIS FORM MAY ONLY BE SIGNED BY THE BUILDING OWNER

Project Name: Olbrich Addition **Firestone Project #:** 3466139

Roofing Contractor: Maly Roofing Company, Inc. **License No:** 40000484

Description of Overburden (Vegetative System, Photovoltaic (PV) system, etc.): Pavers and PV Panel Racking System

Overburden is defined as any above-membrane material, temporary or permanent, which requires removal prior to investigation or repair of a suspected roof leak (excluding stone or pavers used as ballast in a Firestone Ballasted Roofing System Assembly). This document must be signed and submitted for a Firestone warranty to be issued (if Overburden is added prior to the issuance of the warranty) or remain in good standing (if Overburden is added after the issuance of the Firestone warranty).

1. I agree to remove and replace any Overburden, at my expense, in order to provide access to the warranted Firestone roof system for the investigation or repair of a suspected roof leak.
2. Should damage occur to the roof system during the installation, removal, or replacement of the Overburden, I agree to pay the repair costs necessary to restore the roof system to a warrantable condition as determined by Firestone.
3. All electricity connected with a PV system will be rendered safe (no electricity to, from, or within the PV system), at my expense, prior to investigation and repair of a suspected roof leak.
4. I understand the Firestone Warranty does not include removal, replacement, or repair of the Overburden material, and that Firestone is not responsible or liable for the appearance or performance of any new Overburden materials which are installed following the investigation or repair of a suspected roof leak. I further understand that Firestone is not responsible for any loss which I may incur resulting from rendering safe all electricity connected with a PV system.
