Metro Performance Summary 2nd Quarter Data for 2019

Data

- Metro fixed route ridership was down 4.7% through the 2nd quarter, down from 6,726,777 in 2018 to 6,410,421 in 2019, driven in part by reductions of UW campus and MMSD bus ridership. Weekend ridership is seeing a larger decline than weekdays, with a 14% drop on weekends compared to only 2% on weekdays. Nationally, transit systems Metro's size show bus ridership dropped on average by 2.9% in the 1st quarter of 2019. Also, as previously reported, studies conducted on this national transit trend indicate decreased gas prices, increased auto vehicle miles traveled and auto purchases due to a strong economy, ridership shifts to Transportation Network Companies (TNCs), and local factors (i.e., Metro has been out of peak-capacity for three years) as the most commonly cited factors. Metro's plans to add service to Sun Prairie and recent changes to routes 37 and 38 are forecast to help increase ridership.
- Paratransit ridership for the same period was down 43% from 97,237 to 55,621, primarily due to the implementation of Family Care, and that directly-operated paratransit service ceased operations on August 10, 2018. The family care transition started in February 2018 and was fully implemented on May 1st, so the quarterly ridership is not an apples to apples comparison, but will be on a monthly basis starting in May.
- Metro's financial status through June shows revenues over budget by \$318,634 and expenses over budget by \$164,628, leading to a projected reserve increase of about \$154,006. The positive revenue picture is caused by increases in agency ticket revenues on the paratransit side, despite the drops in ridership on both fixed route and paratransit. The expense overrun is caused by personnel costs, as Metro is still catching up on driver training which was delayed in 2018 by the continuation of directly-operated paratransit service until August 2018. It is too early in the year to make any long-term projections, but overall, the financial picture appears to be starting out on sound footing.
- Preventable and chargeable accidents through the 2nd quarter totaled 28 in 2018 versus 30 during the same time period in 2019. Through the first and second quarter of the year, our insurance company, Transit Mutual (TMI), reports a total payout and reserve claims to be at \$23,550 versus the 2018 1st and 2nd quarter figure of \$27,213. Metro Transit is in the second year of a five-year process where TMI is paying us back \$800,000 of excess surplus caused by reduced

- accidents and payout claims over a long period of time. In 2019 we expect to receive a credit of \$200,000.
- Customer feedback through the 2nd quarter of 2019 totaled 1871 contacts, up from the 2018 level of 1682. Fixed route input was the largest category at 1283, up from 1100 from 2018, with the biggest percentage increases in "driver rude," "bus never came," and "unsafe situation." With video and GPS, Metro staff investigates each complaint, and in some cases it can be determined that the driver was not at fault, which was the case with an average of 48% of these three categories. Metro tracks and coaches employees with multiple complaints to keep these complaints to a minimum. Paratransit input was down from 315 contacts in 2018 to 262 in 2019, due in part to the reduction in ridership caused by Family Care. Metro has a goal to respond to 90% of all complaints within 10 days when a response is requested, and through the 2nd quarter of 2019, we've responded to 96.7% within that timeframe.
- Total driver reported security incidents were 192 for the 1st and 2nd quarter for 2019 versus 182 for the same timeframe in 2018. There was a small increase in reported fights and assaults between passengers as well as intoxicated passenger reports on main line service. School service remains relatively unchanged with small decreases in reports of fighting and disrupting behavior through the end of the school year.

Projects

- The first New Flyer bus, bus number 1901, was delivered out of an order of fifteen buses to be received by the end of August. This is the first year of a five-year procurement, and all of these buses will have the new Metro logo. The City's recently approved sustainability plan may lead to the purchase of e-buses in this five-year period. The first of three e-buses manufactured by Proterra is scheduled to be put into service in 2020.
- The first phase of construction at Metro's main facility began this quarter. This is part of a five-year, \$50 million reconstruction to improve safety, maintenance, health, and overall working conditions of the garage. Included in this first phase is the construction of a new service lane, fire safety improvements, and the changes required for our new electric buses.
- Metro staff completed the 2020 capital and operating budget request submissions to the Mayor this quarter. These will be presented to the joint TC/TPPB in August.

- The 2018 audit was completed with one of the significant findings confirming the ridership drop in paratransit and the change in allocations for expenses and revenues associated with paratransit. The average trip cost per ride was \$45 in 2018, versus the current agency fare rate of \$35. Metro staff will be taking a separate recommended action to the TC after the audit is presented in August to keep the agency fare at \$35, as the higher cost in 2018 reflects a number of atypical changes associated with Family Care such as the 47% drop in ridership, and the delayed phase-out of directly operated paratransit service.
- Staff continues with the negotiations associated with the Collective Bargaining Agreement with the Teamsters Union. The last contract expired at the end of 2018.
- The Middleton garage lease expired in June, but Metro got an extension until September 1 to allow the orderly delivery of fifteen new buses and the disposal of old buses.
- Paratransit eligibility recertification occurs every three years and took place earlier this year. The result of recertification is a drop in enrollment from approximately 3,700 to 1,500. All eligible individuals with an expiration date of March 31, 2019 were required to submit a recertification application to continue their eligibility. It should be noted that despite the drop in enrollment, the number of active clients each month (694 in June 2018 and 639 in June 2019) remains stable.

Notes:

Revenue includes passenger revenue only (does not include MA Waiver revenue)

Expense includes "Total operating expenses" less depreciation, expenses associated with County programs, lease and interest expenses and inter-agency charges

Cost and expense are the same number

The population used for the efficiency measures is 289,500
