Subject: How to best object to a 4-story building planned across East Washington Av from my house.

Short of attending the meetings on 14 October about the planned project for 2340 Winnebago Street, which will put a 4-story building across East Washington Avenue from my house at 2340 E. Washington Ave, how best do I object to such a tall building being constructed? It will block much of the early morning light and my view to the East of my house. I think the plan should only be for two stories maximum.

I think the rezoning request should be denied if the build it to be larger/taller than 2 stories.

George Lonsdorf, 2340 E. Washington Ave, Madison, Wi 53704 lonsdorfgeo@att.net

One, two buckle my shoe
Three, four knock on the door
