Message:

I live in the Eken Park neighborhood. I am strongly opposed to opening up Coolidge St. to Packers Av. as part of the redevelopment of Oscar Meyer property. The additional traffic, is of particular concern. Coolidge runs immediately parallel to our small neighborhood park. Many children utilize the park, and additional cross traffic puts them at risk.

Additionally, Eken Park is of historical significance, being a unique example of affordable neighborhoods created for the working class in Madison. I would like it to remain just that, not an extension of design for the new millennia.
