

To Whom It May Concern:

Bierock is applying for an Entertainment License and Conditional Use Permit for the purpose of live music. The plan is to host indoor live music two days per week, typically Fridays and Saturdays, although we'd like maintain the flexibility to host an occasional event on other days of the week. We are not making any changes to the building structurally nor are hours of operation changing. Employee staffing is not currently changing either. If there are any questions, we are happy to answer them.

Sincerely,

*Brian Carriveau*
