Planning Department,

I would like to offer my support of the proposed Madison Yards Block 3 project. As a resident near the proposed development, we have followed the project over the past couple of years and are supportive of the proposed residential and retail uses. We feel this project will be a positive development for our neighborhood and would encourage the Plan Commission to approve the project so that development may proceed. The job creation by this project will also be a positive for the city and the community.

We are in favor of the overall design and would really like to see this property developed soon.

Sincerely,

Kelly Faber
