Subject: testimony for 7/13/20 meeting, item 2 - 817-21 Williamson St

Caution: This email was sent from an external source. Avoid unknown links and attachments.

I strongly oppose approval of the revised plan for the 817-21 Williamson St development on two grounds. First, it doesn't deal at all adequately with the size issue. Second, even if it did, the proposed structure would be out of place stylistically in it's proposed location.

For many years our neighborhood has played an important role in preserving the integrity of this historic district. There are examples of successful infill projects that we have participated in on almost every block of Williamson Street. If this project is approved as proposed it will certainly not join that category of successful projects. Rather, it will seriously detract from an incredibly intact and historically significant block face.

Sincerely,
peter wolff
