Subject: Item 13 - 60666

I'd email all Commissioners, but I'm currently locked out of my aldermanic account on my laptop.

Please note I fully support the Conditional Use request for Garth's outdoor seating concept at 1726 Monroe.

I have checked with the zoning committee at DMNA and they have no objections. I've also checked with ULI to see if they anticipated any resident concerns and they assured me they do not.

These are unusual times. While something like this would normally give me pause, Garth's has proved themselves to be a very able operator, capable of taking care of outdoor patrons without disrupting the neighborhood.

Please spread the word that I'd appreciate a yes vote.

Thanks,
