# Project Summary: Agency Request

	2021	2022	2023	2024	2025	2026
Complete Streets	140,000	-	-	-	-	-
Bus Rapid Transit	6,200,000	133,800,000	-	-	-	-
Total	\$ 6 340 000 \$	133.800.000 \$	- \$	- \$	- \$	

# Changes from 2020 CIP

### 2021 Capital Improvement Plan 2020 Adopted vs. 2021 Agency Request

# Major Changes/Decision Points

• Complete Streets

Project added to CIP-contination of project added to 2020 Capital Budget

• Bus Rapid Transit

Full project moved into 2021 and 2022

Total project budget increased by \$16m from \$124m to \$140m; Overall local share of project increased from \$24m to \$49.4m

# Capital Improvement Plan

	2020 Adopted	2021 Request	Change
2021 Capital Budget	9,200,000	6,340,000	(2,860,000)
2021 Capital Improvement Plan	124,500,000	133,800,000	9,300,000
	2020 Ad	opted	

2020 Adopted	2021 Request
3	2

Project increase includes transferring \$14.2m for bus purchases from Metro's Transit Coach program to serve as part of local match Assumed Federal share of project decreased from \$96m to \$90m

\$28m in TIF proceeds (combination of borrowing and current increment) added to project budget as part of local match

# Goals of Agency's Capital Budget

The goals of the Transportation Capital Budget seek to implement the strategies contained in the Imagine Madison Comprehensive Plan. Key Land Use and Transportation Strategies being addressed with this Capital Budget request include:

Strategy 2 – Implement bus rapid transit (BRT) to improve travel times, enhance reliability, and increase ridership.

Strategy 8 – Expand and improve the city's pedestrian and bicycle networks to enable safe and convenient active transportation.

Safety – Focus transportation investments in areas where residents and visitors experience the greatest safety benefit.

## **Summary of Changes from the 2020 Capital Improvement Plan**

1. East-West Bus Rapid Transit (BRT) - Transportation

Our new Metro Transit General Manager, Justin Stuehrenberg, has suggested budget transfers that positively influence of Small Starts funding. This budget moves \$50,400,000 of bus purchases from the Metro Transit budget to Transportation's E-W BRT budget to serve as a local match for Federal Small Starts monies. This budget transfer includes \$17,104,000 Federal 5307 and 5339b monies as well as \$14,274,000 of Metro non-GF GO Borrowing. This transfer increases the total E-W BRT budget by \$18,500,000, with a net increase in borrowing of \$9,100,000.

Generally Small Starts grants are primarily given to systems that provide a local match of non-Small Starts funding of 50%. The proposed Metro BRT bus purchase transfer and corresponding budget modification increases the local match component from 25% (2020 budget), to 50% (2021 budget), substantially increasing the City's chance of obtaining Small Starts funding.

\$4.2 million of No-GF Borrowing that was allocated for year 2023 was advanced to 2022 with the understanding that FTA requires full appropriation of obligated funds before executing a construction grant agreement. The corresponding Federal Small Starts monies allocated in 2023 were also advanced to 2022.

# 2. Complete Green Streets – Transportation

The 2020 budget included \$160,000 to perform a Complete Streets study that develops a modal hierarchy and street typology that assigns priority to modes within our street network. In ensuing discussions it became clear that distributed green infrastructure and increasing city tree canopy need to be incorporated in the same decision making process. The \$140,000 requested in the 2021 Capital Budget will expand the study to allow Complete Streets, Green Streets, Tree Canopy, and Distributed Green Infrastructure to be addressed in a single decision making framework.

# **Prioritized List of Capital Projects**

- 1. East-West Bus Rapid Transit BRT is a key strategy in the Imagine Madison Comprehensive Plan. We cannot meet our future transportation needs without increasing transit use.
- 2. Vision Zero While this is in Traffic Engineering's Capital Budget, rather than Transportation's, it is a key element of our mission. Fatalities and injuries are a growing health concern which can be corrected with focused, relatively low cost, capital improvements.
- 3. Complete Green Streets This will help encourage non-motorized travel while increasing the City's green infrastructure. The study will provide a decision making framework for allocating street right of way for transportation (pedestrians, bikes, and motor vehicles), tree canopy, storm water measures, and other green infrastructure.

# **Potential for Scaling Capital Requests**

- 1. The Bus Rapid Transit capital budget has a net increase of \$18.5 million, but the increase significantly increases Madison's chances of receiving federal Small Starts funding. The increase could be reduced, but this may result in a poorly rated Small Starts grant application.
- 2. Vision Zero budget could be reduced in increments of \$100,000. This would reduce the number of projects that could be implemented in 2021.
- 3. The Complete Green Streets \$140,000 allocation for 2021 could be eliminated. This study would then focus on modal hierarchy and street typology, but would not include distributed green infrastructure or tree canopy.

# **Impacts of Covid-19 on Capital Funding**

The Covid-19 crisis has not directly affected the Transportation Department, but has greatly affected divisions within the Transportation Department. For Metro Transit, the suspension of fares combined with reduced ridership and higher operating costs have a significant impact on the budget. Fortunately \$24.5 million from the CARES Act will address shortfalls in 2020 and some of 2021. If ridership and revenue returns to normal by 2022, the capacity to service debt should be sufficient. Similarly, the Parking Division reserves have been reduced by approximately \$5 million due to limited parking revenue and paid leave policies. This reduces the amount of reserves the Parking Division has to fund future capital improvements, such as replacement of the Lake Street garage.

Thank you for the opportunity to express our priorities as you evaluate capital expenditures for the City.

Sincerely,

Thomas W. Lynch, PE, PTOE, PTP, AICP

Director of Transportation

City of Madison

Bus Rapid Transit is key addressing the City's transportation challenges, which it is why it is a primary strategy in the Imagine Madison Comp Plan. It is the strategic component in addressing Madison's transportation challenges into the coming decades.

## **Project Schedule & Location**

#### 2021 Projects

Project name	Est Cost	Location
Professional Services - Design and Project Management	\$5,500,000	
BRT Storage Facility Design	\$700,000	

#### Explain the justification for selecting projects planned for 2021:

Final design is needed to both obtain Federal Small Starts funding, as well implement BRT project components.

#### 2022 Projects

Project Name	Est Cost	Location
Professional Services - Construction Management	\$4,100,000	
E-W BRT Road Modifications	\$26,200,000	Multiple
E-W BRT Stations	\$23,700,000	Multiple
E-W BRT Systems (signals, fiber, fares, etc.)	\$22,200,000	Multiple
BRT Buses	\$50,400,000	
BRT Storage Facility	\$7,200,000	

#### Insert item

#### Explain the justification for selecting projects planned for 2022:

Road modifications are needed to give BRT priority in the planned corridors. Constructing the BRT stations complements the transit priority by making loading easier.

BRT rolling stock will need to be housed and the current Metro facility at 1101 East Washington is not large enough to store the estimated 15 buses. This item provide funding for design to assign BRT bus housing to Building 43 at the Oscar Mayer site.

2023 Projects			
·	Project Name	Est Cost	Location

## Explain the justification for selecting projects planned for 2023:

In 2023 Metro will purchase 15 articulated buses for BRT implementation.

Also in 2023 Metro will retrofit Building 450 at the Oscar Mayer site so that it can accommodate BRT buses.

#### 2024 Projects

Project name	Est Cost	Location

## Explain the justification for selecting projects planned for 2024:

### 2025 Projects
