Dear members of the board,

Science
Evidence
History

Please continue to protect the health and safety of residents of Madison by providing drinking water that is as pure and free of toxic substances as you can make it. And please treat the water with whatever substances are deemed by scientific evidence and shown by past history to be salutary in nature.

Count me in when it comes to treating my water with chlorine to kill germs and fluoride to provide for strong bones and teeth. There is a mountain of evidence from reputable sources and long past practice that these treatments are safe and effective.

Love my city!

Brook Soltvedt (preferred pronouns she/her)
1034 Waban Hill
Madison, WI 53711
